While savings to households will contribute significantly to the overall benefit, centrally held records do not identify them separately from other benefit items nor by constituency or year. I regret, therefore, that I am unable to answer the specific question without incurring disproportionate cost.

## Greyhounds

**Phil Sawford:** To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions there have been under the Protection of Animals Act 1911 with regard to greyhounds in each of the last 10 years. [153528]

**Caroline Flint:** I have been asked to reply.

It is not possible to identify those prosecutions under the Protection of Animals Act 1911 that relate to greyhounds because details of the circumstances of the offences are not collected centrally.

## Horses

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs how many horses there were in the UK in each year since 2000. [156563]

**Alun Michael:** This information has not been collected centrally in the past but I have been working closely with the industry to achieve a national equine database which will then be able to provide such information. This opportunity arises from the implementation of the Horse Passport legislation. Currently the best estimate is provided by the British Equestrian Trade Association's National Equestrian Survey published in 1999, which estimated that there were some 900,000 privately owned horses or ponies in Great Britain.

### Large Combustion Plants Directive

**Paddy Tipping:** To ask the Secretary of State for Environment, Food and Rural Affairs what new analysis her Department has conducted on the impact of the proposed national emission reduction plan for implementation of the large combustion plants directive on the indigenous coal production industry; and if she will make a statement. [155895]

**Alun Michael:** With the Department of Trade and Industry, we are continuing to assess the potential economic impact of the introduction of the Directive on the UK coal industry, and on the coal-fired electricity generating industry which is its major market, using both internal analyses and independent research. The aim of this analysis will be to understand the probable available market for indigenous coal under both implementation options and to form an understanding of the likelihood that UK coal producers will be able to fully exploit this available market.

**Paddy Tipping:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions her Department has had with the indigenous coal production industry on the implementation of the large combustion plants directive. [155896]

**Alun Michael:** Officials from both the Department for Environment, Food and Rural Affairs and the Department of Trade and Industry are in continuing dialogue with the UK coal industry regarding the implementation of the Large Combustion Plants Directive. In addition, my noble Friend Lord Whitty, the Under-Secretary of State for Environment, Food and Rural Affairs, and my hon. Friend the Minister of State, Trade and Industry (Mr. Timms) met representatives from the UK coal industry and the electricity generating industry, which is its major market, on 9 February to discuss their key concerns.

### Market Towns Initiative

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many applications for funding under the Market Towns Initiative her Department has received; and what proportion has been successful; [155946]

(2) which towns have been awarded grant funding under the Market Towns Initiative; and how much has been spent through the scheme, broken down by *(a)* town and *(b)* region in each year for which records are available. [155950]

**Alun Michael:** The £37 million funding identified in the Rural White Paper was to enable the Regional Development Agencies and the Countryside Agency to support market town regeneration in the regions. The initiative was therefore not established as a national funding programme, but as a means of enabling regional partnerships to target towns in their region according to regionally agreed selection criteria.

When the announcement of the funding was made, it was envisaged that 100 towns would benefit from this funding. I am pleased to report that, through the innovative methods used in each of the regions, currently 227 towns are receiving support.

As the Initiative is being delivered through regional partnerships in different ways and we need to collate the data, I will be writing to the hon. Member with more detailed information in due course. In the meantime, set out as follows is a list of the market towns in each of the regions.

*Market towns chosen in the Regions*

*North East*

*Northumberland*
Alnwick
Berwick-upon Tweed
Haltwhistle
Hexham
Morpeth
Seahouses
Wooler
Rothbury
Amble
Prudhoe

*Co. Durham*
Barnard Castle
Crook
Middleton-in-Teesdale
Stanhope

*Redcar and Cleveland*
Guisborough (pilot)

*North West*

*Cumbria*
Cockermouth
Egremont
Keswick
Longtown
Millom
Penrith
Ulverston
Wigton with Silloth and Aspitria (pilot)
Windermere, Ambleside and Bowness

*Lancashire*
Barnoldswick
Carnforth
Clitheroe
Garstang
Padiham

*Cheshire*
Sandbach (pilot)
Neston
Frodsham

*Yorkshire and Humber*

*North Yorkshire*
Malton/Norton (pilot)
Pateley Bridge
High Bentham (pilot)
Pateley Bridge
Thirsk
Whitby
Richmond

*Calderdale*
Todmorton (pilot)

*Doncaster*
Thorne (pilot)
*North Lincs*
Brigg (pilot)
*East Riding*
Hornsea (pilot)
Market Weighton
*Leeds*
Otley
*Barnsley*
Penistone
*Wakefield*
Hemsworth
*North East Lincs*
Immingham
*West Midlands*
Shropshire
Craven Arms
Oswestry
Wem
Bridgnorth, Highley and Alveley
Market Drayton
Whitchurch
*Herefordshire*
Kington
Ledbury
Bromyard
*Staffordshire*
Leek and Cheadle
Uttoxeter
*Warwickshire*
Alcester
Atherstone and Polesworth
*Worcestershire*
Pershore
Evesham
Bewdley
*East Midlands*
*Derbyshire*
Belper
Bolsover
Chapel-en-le-Frith
Clowne
Glossop
Heanor
Killamarsh
S Normanton
New Mills
*Lincolnshire*
Louth
Spalding
Market Rasen
Mablethorpe
Alford
Spilsby
Wainfleet
Horncastle
*Leicestershire*
Market Harborough
Melton Mowbray
Thurmaston
Broughton Astley
Earl Shilton
Bottesford
Ibstock
Lutterworth
Market Deepening
*Northants*
Rothwell
Thrapston
Desborough (pilot)
Brackley
Towcester
Heathfield (funded by RDA)
*Rutland*
Oakham
*Nottinghamshire*
Ollerton
Retford
Harworth Bircotes
Bingham
Eastwood
*East of England*
*Cambridgeshire*
Wisbech
March
Chatteris
Ely
Littleport
Whittlesey
*Essex*
Walton on the Naze
Manningtree
Brightlingsea
Burnham on Crouch
Saffron Walden
*Norfolk*
Dereham
Walton
Downham Market
Diss
Aylsham
Harleston
Wymondham
*Suffolk*
Beccles
Brandon
Wickham Market
Debenham
Woodbridge
Newmarket
Mildenhall
Haverhill

*Hertfordshire*
Tring
Berhamsted
*South East*
*Kent*
Aylesham
Minster
New Romney
Cranbrook (funded by RDA)
Hythe (funded by RDA)
Sheerness
Lenham (funded by RDA)
Edenbridge
*Oxfordshire*
Faringdon
Carterton
Thame
*Hampshire* (co-ordinator to work with 11 towns within the county)
Yatley
Odiham
New Milton
Botley
Hythe
Alton
Petersfield
Whitchurch
Whitehill
Wickham
Bishop's Waltham
Fordingbridge
Dibden
*East Sussex*
Battle (funded by RDA)
Hailsham (funded by RDA)
Rye (funded by RDA)
*Isle of Wight* (island wide partnership and Co-ordinator)
Sandown
Shaklin
Wooton Bridge
Brading
Cowes/East Cowes
Ventnor (separate health check funded by RDA)
*West Sussex*
Pullborough
Steynning
Storrington
Billinghurst
*Surrey*
Haslemere
Cranleigh
*Buckinghamshire*
Princes Risborough
Buckingham
*Milton Keynes*
Wolverton
Stoney Stratford

*South West*
*Devon*
Hatherleigh
Okehampton
Holsworthy
South Molton
Crediton
Great Torrington
Tavistock
Tamar Valley (pilot) (including Tavistock)
Collumpton
Dartmouth
Ilfracombe
Ivybridge
Kingsbridge
Somerset
Totnes
Minehead (pilot) (funded by RDA)
*Cornwall*
Launceston
Helstone (pilot)
Camelford and Delabole
Mevagissey
Bodmin
Hayle
Lostwithiel
Saltash
Tamar Valley
Torpoint
Westward Ho!
*Gloucestershire*
Lydney (pilot)
Cinderford
Newent
Coleford
Stroud
Cam
Dursley
Tewkesbury
Wotton Under Edge
*Somerset*
Minehead (pilot) (funded by RDA)
Langford (pilot) (funded by RDA)
Wiveliscombe
Burnham on Sea and Highbridge
Chard
Shepton Malet
Sturminster Newton
*BANES ( Bath and North East Somerset)*
Midsomer Norton and Radstock (pilot) (funded by RDA)
Wiltshire
Melksham (pilot)
Tidworth
Devizes (pilot)
Calne
Corsham
Trowbridge
Warminster

Westbury
Wilton
*Dorset*
Bridport (pilot)
Sturminster Newton
Shaftsbury

### Science Advisory Council

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the percentage of the membership of her Department's Science Advisory Council which has expertise in environmental matters. [154764]

**Mr. Morley:** Defra has established the Science Advisory Council as an independent, advisory NDPB to provide advice to the CSA and through him to Ministers on the scope, balance and direction of science that underpins the Departments policies. The full terms of reference were set out in the Defra News Release 34/04. The Council membership of 12 covers a wide range of senior, external expertise. Those Members who have a particular background in environmental science issues include:

*Professor John Shepherd, FRS* is Professor of Marine Sciences and Director of the Earth System Modelling Initiative at the Southampton Oceanography Centre, University of Southampton. He possesses broad professional/scientific knowledge of environmental science, especially marine ecology, climate management and fisheries management.

*Professor Alan Thorpe* is Director of the NERC Centres for Atmospheric Science and Professor of Meteorology at the University of Reading. As an atmospheric science research scientist he has a broad perspective of atmospheric science issues relevant to the environment including air quality and composition.

*Professor Jeffrey Waage* is Head of the Department of Agricultural Sciences, Imperial College and Provost of the Wye campus. His principal area of scientific expertise is ecology and the biological control of pests. He has a broad knowledge of the interactions between agriculture and the environment.

*Professor Thomas Meagher* is Professor of Plant Biology at the University of St. Andrews and a member of NERC's Environmental Genomics Steering Committee. He specialises in population genetics and its societal relevance of this.

*Professor Richard Mithen* is Head of plant food for the health protection programme at the Institute for Food Research. He has broad scientific background in plant and crop science and agricultural production including biodiversity.

*Professor Philip Lowe* is Director of the Centre for Rural Economy, University of Newcastle upon Tyne and Director for the Rural Economy and Land Use Programme of the UK Research Councils.

*Dr. Andrew Stirling* is a senior lecturer and research fellow within the Science and Technology Policy Research Department, University of Sussex. A social scientist, he also has a broad knowledge of environmental issues and was a board member of Greenpeace International.

In appointing Members, we looked for those able to contribute to the issues facing the Department not merely in their chosen areas of expertise but also the wider agenda of the Department. We expect the Council to carry forward much of its work through subgroups and will co-opt appropriate experts as required to bring to bear on the issues. We shall keep the Council's workings and membership under review.

### Warm Front

**David Davis:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what procedures are used to deal with complaints relating to the Warm Front scheme; [154163]

(2) how the Warm Front scheme is administered. [154164]

**Mr. Morley:** Warm Front is administered by two Scheme Managers, Eaga Partnership and Powergen Warm Front Ltd. The Scheme Managers are responsible for all day to day aspects of running Warm Front including marketing the scheme, processing applications and the appointment and management of installers.

As part of their role both Scheme Managers have in place procedures to handle complaints about Warm Front. Complaints should be acknowledged in writing within four working days of receipt and a written response provided within ten working days. In cases where it is not possible to adhere to these deadlines Scheme Managers are required to update the complainant with progress every ten working days.

The Department reviews the number of complaints received and time taken to deal with complaints as part of their regular monitoring of the Scheme Manager's performance.

In addition, the Department has its own complaints procedure.

## CULTURE, MEDIA AND SPORT

### Departmental Officials

**Mr. Cousins:** To ask the Secretary of State for Culture, Media and Sport which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156911]

**Mr. Caborn:** There have been no requests by former officials of the Department for Culture, Media and Sport for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG.

**Mr. Cousins:** To ask the Secretary of State for Culture, Media and Sport what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG has made to her Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from her Department have been made to those firms; and for what (A) periods and (B) tasks. [157060]

**Mr. Caborn:** There have been no secondments from the Department for Culture, Media and Sport to *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG for any period of time since 2001. Nor have there been any secondees from these organisations to the Department for Culture, Media and Sport since 2001.

### Digital Television

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her Department's plans to encourage people to transfer to digital television. [157770]

**Estelle Morris:** The Digital Television Action Plan addresses the need to ensure that consumers are aware of the benefits of switching to digital television; that they get clear authoritative information on the options open to them; and the right advice on equipment and installation. The Action Plan's Market Preparation Group and the Communications Strategy Group are taking this work forward. The Action Plan, together with details of the work undertaken to date, are available on the website: www.digitaltelevision.gov.uk.

### Grants

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what grants have been made by her Department to support rugby league in *(a)* the North West, *(b)* Lancashire and *(c)* Chorley in each of the last five years. [156510]

**Mr. Caborn:** Details of Lottery support from Sport England for Rugby League are as follows:

| | *1998–1999* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *Total* |
|---|---|---|---|---|---|---|
| *Awards for All* | | | | | | |
| Awards in Chorley (Number) | — | — | — | — | 1 | 1 |
| Total sum for Chorley (£) | — | — | — | — | 4,190 | 4,190 |
| Awards in Lancashire (Number) | — | 9 | 13 | 10 | 9 | 41 |
| Total sum for Lancashire (£) | — | 36,054 | 44,963 | 34,218 | 37,036 | 152,271 |
| Awards in North West (Number) | — | 12 | 37 | 20 | 30 | 99 |
| Total sum for North West (£) | — | 43,974 | 132,100 | 71,323 | 117,414 | 364,811 |
| *Community Capital* | | | | | | |
| Awards in Chorley (Number) | — | — | — | — | — | — |
| Total sum for Chorley (£) | — | — | — | — | — | — |
| Awards in Lancashire (Number) | — | — | — | 1 | 1 | 2 |

| Total sum for North West (£) | 752,199 | — | 30,575 | 699,661 | 1,167,445 | 2,649,880 |

### Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Culture, Media and Sport how many speeches she made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156153]

**Tessa Jowell:** The information is as follows.

*9 June 2003 to 1 February 2004*

| *Date* | *Details* |
|---|---|
| 9 June 2003 | FT Business of Sport Conference |
| 12 June 2003 | Speech to London Business School |
| 17 June 2003 | Valuing Culture Conference |
| 24 June 2003 | Speech to Royal College of Physicians Faculty of Public Health Medicine Annual Scientific Conference |
| 25 June 2003 | IPPR Seminar in Newcastle |

*9 June 2003 to 1 February 2004*

| *Date* | *Details* |
|---|---|
| 3 July 2003 | Lottery Monitor Annual Conference |
| 7 July 2003 | Music Education Councils 'Importance of Music' Symposium |
| 15 July 2003 | Digital Stakeholders Group Meeting |
| 23 July 2003 | British Library |
| 23 August 2003 | Speech and CA to TV Festival, Edinburgh |
| 18 September 2003 | Royal Television Society, Cambridge |
| 14 October 2003 | Speech on Cultural Identity, Egypt |
| 17 November 2003 | Speech to CBI on Tourism |
| 19 November 2003 | Speech to Business In Sport and Leisure . |
| 4 December 2003 | Speech to Arts & Kids |
| 4 December 2003 | Speech to Millennium Commission |
| 16 December 2003 | Speech to All Party Media Group |
| 13 January 2004 | Speech to IPPR |
| 27 January 2004 | Speech at Westminster Forum |

The text of all major ministerial speeches can be found on the DCMS website www.culture.gov.uk

**Official Travel**

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how much was spent on travel by officials and Ministers in her Department in each year since 1997. [157789]

**Mr. Caborn:** The following table shows departmental expenditure on travel and subsistence. An analysis on travel only is not recorded on the Department's accounting system and can be obtained only at disproportionate cost.

All official travel is undertaken in accordance with the rules contained in the Department's staff handbook and all Ministerial travel is undertaken fully in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

| *Financial year* | *£* |
|---|---|
| 2003–04[1] | 735,669.48 |
| 2002–03 | 876,636.96 |
| 2001–02 | 750,593.38 |
| 2000–01 | 811,985.53 |
| 1999–2000 | 755,429.32 |
| 1998–99 | 643,283.50 |
| 1997–98 | 582,564.51 |

[1] Cost shown in 2003–04 are to the 25 February 2004

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how many people in her Department are entitled to travel first class by rail when travelling to perform their responsibilities. [157797]

**Mr. Caborn:** DCMS travel and subsistence rules encourage staff to use Standard Class travel wherever possible. To obtain best value for money, management of the policy is delegated to line management who are responsible for authorisation and economical management of all official travel. While first class travel is permitted for some grades many of them travel at standard class unless, for example, they need extra space or comfort to work during travel.

The number of people entitled to travel by first class rail when travelling in the UK to perform their responsibilities is 124 (including Ministers). The number of people entitled to travel by first class rail when travelling overseas to perform their responsibilities is 400 (including Ministers).

**Sports (Governing Bodies)**

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what support has been offered to the national governing bodies of sport to enable them to fulfil the requirements of the Qualifications and Curriculum Authority; and if she will make a statement. [156811]

**Mr. Caborn:** Governing bodies have to become, or work in partnership with, a recognised Qualifications and Curriculum Authority (QCA) Awarding Body before their qualifications can be added to the National Qualifications Framework (NQF). The Central Council for Physical Recreation is providing support and guidance to help governing bodies achieve this.

Sports coach UK offers technical support to Awarding Bodies to ensure that NQF submissions meet QCA requirements.

**Tourism**

**Mr. Evans:** To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to promote tourism in *(a)* the Ribble Valley, *(b)* Lancashire and *(c)* the North West. [156493]

**Mr. Caborn:** In April 2003 Regional Development Agencies took on formal strategic responsibility for promoting tourism within their regions. We are encouraging them to work towards enlarging the overall national market, in a manner consistent with the national marketing strategy. The North West Development Agency (NWDA) will receive Government funding of £713,000 per annum over 2003–06 towards implementing their tourism strategy for the region. Part of this strategy includes the creation of five new Destination Management Organisations (DMOs). Lancashire and Blackpool Tourist Board will be the DMO for the Lancashire sub region and its board will represent the county's tourism interests. It is anticipated that the Ribble Valley will play a significant and supporting role in the establishment of the new tourism support structures. A bid is currently with NWDA for funding for the new DMO.

In addition, the Ribble Valley is featured in VisitBritain's domestic Outdoor England campaign, launched in Autumn 2003, which encourages tourists to walk along the Ribble Way or cycle round the Lancashire Cycleway Northern Loop. A photograph of Ribble Valley is also featured prominently in the brochure. Details can be found on www.visitengland.com/outdoorengland.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimates she has made of the indirect economic effect of visitor generated revenue on *(a)* the South Kensington economy, *(b)* the London economy and *(c)* the UK economy of expenditures by the Natural History Museum; what estimates she has made of the multiplier effect of the direct expenditure of the Natural History Museum on (i) the South Kensington economy, (ii) the London economy and (iii) the UK economy; and if she will make a statement. [156892]

**Estelle Morris:** The DCMS has not made any of the estimates referred to in the question.

However, I am aware that an independent report commissioned by the Natural History Museum (NHM) "Treasurehouse and Powerhouse, an assessment of the scientific, cultural and economic value of the Museum", was published on 11 February 2004. This Report suggests that:

> Expenditure generated for the London and UK economies by visitors to the NHM is £55.7 million to £59.5 million pa; and that
>
> The multiplier effect of the Museum's direct expenditure of £52 million (for 2002–03), on the UK and London economies is £161.56 million to £189.55 million.

The report made no estimates of the impact of the NHM on the economy of South Kensington.

**Mr. Amess:** To ask the Secretary of State for Culture, Media and Sport what plans she has to reduce regulations imposed on the tourism industry. [157140]

**Mr. Caborn:** With the exception of the Licensing Act 2003, which integrates six archaic licensing regimes into a single efficient system, DCMS does not have direct responsibility for the majority of regulations that affect the tourism industry. In pursuit of the DCMS Public Spending Agreement objective to increase the productivity of the domestic tourism industry, my Department will continue to work hard with other Departments to ensure that the burden of regulation is reasonable, and that regulation is applied sympathetically and consistently.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what plans she has to give grants for the tourism industry in non-assisted areas. [157684]

**Mr. Caborn:** The DCMS does not give direct grants to the tourism industry.

The DCMS sponsors VisitBritain to promote Britain as a holiday destination to foreign visitors and England as a holiday destination to the British. The DCMS annual grant to VisitBritain is of the order of £50 million.

In April 2003 strategic responsibility for tourism in the regions was passed to the Regional Development Agencies. It is the Government's view that decisions on investment are better made at the regional level, rather than by central Government.

### West End Theatres

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her Department's policy towards theatres based in the West End of London. [157784]

**Estelle Morris:** The commercially owned and operated theatres which make up London's theatreland are outside the remit of this Department. I will however be meeting with the Theatres Trust and others in the near future to discuss the findings of their report, Act Now! Modernising London's West End Theatres, published last October. I hope we can have an informed debate on the report's conclusions.

## SOLICITOR-GENERAL

### CPS Direct

**Vera Baird:** To ask the Solicitor-General what plans she has for CPS Direct. [156335]

**The Solicitor-General:** A key component of the Government's criminal justice reform is to transfer responsibility for determining the charge in criminal proceedings from the police to the Crown Prosecution Service. This change is embodied in the Criminal Justice Act 2003. The early involvement of prosecutors will ensure that the right charge is put before the court and will help police officers to gather more quickly the evidence the prosecutor will need to prove the case.

To fulfil this new role the CPS will make prosecutors available to provide early advice or charging decisions at any time of the day or night. Daytime cover will generally be provided by local prosecutors based in police stations, but this is not feasible or cost-effective throughout the night. The CPS will therefore provide cover during quieter periods by means of a national telephone-based service known as CPS Direct.

In September 2003, the CPS Direct pilot was launched to provide out of hours cover for police stations in Humberside, parts of West Yorkshire and the London boroughs of Lambeth and Southwark. The pilot uses sophisticated telephony and IT links to connect police officers to prosecutors and is currently staffed by 13 experienced prosecutors working from their homes. They provide cover from 5 pm to 9 am each weekday and for 24 hours a day at the weekend and on public holidays. As at 22 February 2004, the pilot scheme had provided the police with 6,866 written decisions or advices.

Many CPS areas and police forces already have "shadow" arrangements in place ahead of the new statutory provisions and from 1 April 2004, there will be a phased migration to the full statutory scheme. As areas move to the statutory scheme CPS Direct will gradually expand to provide them with out of hours cover. Current forecasts indicate that CPS Direct will eventually require around 80 prosecutors.

## EDUCATION AND SKILLS

### Deaf-blind Children and Adults

**Diana Organ:** To ask the Secretary of State for Education and Skills (1) whether children's trusts will be given responsibility for implementing Social Care for Deaf-blind Children and Adults Local Authority Circular (2001)8; [154640]

(2) whether children's directors will be given specific responsibilities in relation to deaf-blind children. [154643]

**Mr. Stephen Twigg:** The Green Paper "Every Child Matters" set out proposals for the development of children's trusts to integrate children's services and said one of the key services within trusts should be children's social services. "Every Child Matters" also set out that the Government intend to put forward legislation to require directors of children's services to be appointed, who would be accountable for education and children's

social services and for overseeing services for children delegated to the local authority by other services. We are currently considering responses to the Green Paper and will shortly set out a programme for change for children's services.

### Excellence in Cities Programme

**Mr. Laws:** To ask the Secretary of State for Education and Skills how much has been spent on the Excellence in Cities programme in each year since 1998–99; what his estimate is of annual expenditure up to 2005–06; and if he will make a statement. [156585]

**Mr. Miliband:** Expenditure on the Excellence in Cities programme since 1998 is as follows:

£

| | *Expenditure* |
|---|---|
| 1999/2000 | 24,344,435 |
| 2000/01 | 138,849,734 |
| 2001/02 | 245,230,101 |
| 2002/03 | 242,016,353 |
| 2003/04 (provisional) | 272,164,265 |

Estimated expenditure between 2004/05 and 2005/06 is as follows:

£

| | *Estimated expenditure* |
|---|---|
| 2004/05 | 306,240,000 |
| 2005/06 | 386,240,000 |

These figures reflect the success of this programme and its rapid expansion. They do not include expenditure on the related Behaviour Improvement Programme (BIP) and the Leadership Incentive Grant (LIG) which are overseen by EiC partnerships in EiC areas. Currently the Department invests £65.9 million annually on BIP and £148.5 million annually on LIG. The figures also exclude spending on specialist and beacon schools which, although utilised as part of the EiC strategy, belong to wider national programmes.

The EiC programme now covers 57 whole authority areas as well as 51 Excellence Clusters covering smaller pockets of deprivation.

As well as continuing to expand Excellence Clusters, we are also expanding primary EiC to provide behavioural support and extended opportunities for gifted and talented children in our most deprived primary schools. This help will not be confined to EiC areas but will include all schools meeting the relevant criteria, and will provide the support they need to ensure that their most disadvantaged pupils are better able to access the national primary strategy.

The EiC programme is now paying off. GCSE exam results last year were the best yet for EiC schools. Schools in Excellence in Cities whole authority partnerships improved at more than twice the rate of schools elsewhere with average gains of 2.5 percentage points compared to 1.2 percentage points in non-EiC schools.

There was also a significant impact on behaviour and attendance—with standards again improving fastest in EiC schools.

### Higher Education Bill

**Mr. Peter Duncan:** To ask the Secretary of State for Education and Skills what representations he has received since 27 January from *(a)* the Scottish Executive and *(b)* Scottish universities on the effects of the Higher Education Bill on Scotland. [155476]

**Alan Johnson:** We have not received representations from the Scottish Executive or from Scottish universities since 27 January. However, my right hon. Friend and I are in regular contact with Ministers in all devolved Administrations and with Universities UK which represents the interests of universities in all devolved nations as well as in England.

### Lord Levy

**Norman Baker:** To ask the Secretary of State for Education and Skills what the purpose was of the education-related meeting attended by Lord Levy on 21 January; who the other attendees were; and if he will make a statement. [157755]

**Mr. Charles Clarke:** Lord Levy did not attend any meetings with Education Ministers on 21 January.

### New Schools

**Mr. Jon Owen Jones:** To ask the Secretary of State for Education and Skills what the *(a)* value and *(b)* number of new schools built in each of the regions of England was in the last five years for which records are available. [156957]

**Mr. Miliband:** We do not hold information about the value and number of new schools that have been built. This information is held locally. We have, however, made available significant support to build new schools and to expand, replace and repair school accommodation. The majority of our support is allocated by needs-related formulae to local authorities and schools, who make individual investment decisions, based on priorities in their asset management plans. Total central Government support for school buildings capital investment over the last five years and for future years is as follows:

| | *£ billion* |
|---|---|
| 1999–2000 | 1.4 |
| 2000–01 | 2.1 |
| 2001–02 | 2.2 |
| 2002–03 | 2.8 |
| 2003–04 | 3.8 |
| 2004–05 | 4.5 |
| 2005–06 | 5.1 |

### Pupil Places (Romsey)

**Sandra Gidley:** To ask the Secretary of State for Education and Skills how many spare places have been available at the beginning of each school year at each school in the Romsey constituency since 1997–98. [157078]

**Mr. Miliband:** The number of spare places at each school in the Romsey constituency since 1998 as collected through the annual surplus places survey is set

out in the following tables. The figures state the position at the beginning of the calendar year rather than the school year. We do not have figures for 2002 as there was no surplus places survey in that year.

*Romsey primary schools surplus places*

| *School name* | *1998* | *1999* | *2000* | *2001* | *2003* |
|---|---|---|---|---|---|
| Basset Green Primary School | 0 | 0 | 0 | 0 | 0 |
| Awbridge Primary School | 43 | 50 | 37 | 50 | 4 |
| Knightwood Primary School | — | 0 | 2 | 0 | 0 |
| Braishfield Primary School | 0 | 1 | 0 | 0 | 7 |
| Broughton Primary School | 29 | 28 | 21 | 26 | 26 |
| Chandler's Ford Infant School | 67 | 90 | 97 | 92 | 59 |
| Merdon Junior School | 0 | 0 | 0 | 0 | 14 |
| North Baddesley Infant School | 77 | 47 | 60 | 46 | 22 |
| Fryern Junior School | 74 | 75 | 90 | 101 | 2 |
| Romsey Infant School | 2 | 18 | 24 | 44 | 60 |
| Romsey Junior School | 56 | 41 | 35 | 36 | 68 |
| Cupernham Junior School | 12 | 12 | 12 | 0 | 0 |
| Stockbridge Primary School | 8 | 19 | 12 | 16 | 0 |
| Wallop Primary School | 41 | 23 | 18 | 37 | 57 |
| Wellow School | 38 | 31 | 29 | 37 | 0 |
| Wherwell Primary School | 0 | 0 | 0 | 6 | 4 |
| Fryern Infant School | 33 | 41 | 40 | 37 | 27 |
| Hiltingbury Infant School | 0 | 0 | 0 | 0 | 8 |
| North Baddesley Junior School | 104 | 118 | 124 | 134 | 0 |
| Hiltingbury Junior School | 0 | 0 | 0 | 0 | 0 |
| Halterworth Community Primary School | 0 | 0 | 15 | 4 | 0 |
| Scantabout Primary School | 19 | 23 | 0 | 0 | 0 |
| Cupernham Infant School | 16 | 23 | 41 | 68 | 68 |
| Ampfield Church of England Primary School | 27 | 18 | 21 | 16 | 17 |
| Barton Stacey Church of England Primary School | 65 | 49 | 48 | 56 | 30 |
| King's Somborne Church of England Primary School | 12 | 17 | 29 | 22 | 20 |
| Nursling Church of England Primary School | 17 | 2 | 10 | 11 | 1 |
| Rownhams St. John's Church of England Primary School | 0 | 0 | 2 | 0 | 0 |
| West Tytherley Church of England Primary School | 0 | 0 | 1 | 1 | 3 |
| Lockerley Church of England Endowed Primary School | 0 | 0 | 8 | 2 | 7 |
| Longparish Church of England Primary School | 5 | 8 | 3 | 7 | 0 |
| Romsey Abbey Church of England Primary School | 7 | 0 | 21 | 1 | 0 |
| St. Swithun Wells Catholic Primary School | 130 | 157 | 50 | 72 | 84 |
| Bassett Green Primary School | — | 61 | 31 | 57 | 71 |
| St Francis Church of England Primary School | 0 | 0 | 0 | 8 | 20 |
| Total | 882 | 952 | 881 | 987 | 679 |

*Romsey secondary school surplus places*

| *School name* | *1998* | *1999* | *2000* | *2001* | *2003* |
|---|---|---|---|---|---|
| The Mountbatten School | 0 | 6 | 0 | 0 | 15 |
| The Toynbee School | 33 | 0 | 11 | 0 | 0 |
| The Romsey School | 68 | 5 | 0 | 0 | 23 |
| Test Valley School | 8 | 0 | 0 | 0 | 3 |
| Thornden School | 0 | 0 | 0 | 0 | 0 |
| Cantell School | 113 | 321 | 324 | 228 | 115 |
| St. George Catholic School for Boys | — | 0 | 0 | 0 | 86 |
| Total | 222 | 332 | 335 | 228 | 242 |

### School Buildings

**Mr. Evans:** To ask the Secretary of State for Education and Skills how much money has been spent on school buildings in the Ribble Valley and Fulwood, broken down by school, in each year since 1997. [156490]

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how much money was spent on school buildings in each year since 1997 in *(a)* Lancashire and *(b)* Chorley; and if he will list the schools in Chorley where such money was spent. [157256]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about all the capital investments in each school. This information should be held locally. However, the following table shows the total capital support made by this Government for school buildings in Lancashire LEA since 1997–98 (including support for a PFI project in 1999–2000).

| | *£ million* |
|---|---|
| 1997–98 | 13.3 |
| 1998–99 | 17.0 |
| 1999–2000 | 35.2 |
| 2000–01 | 38.0 |
| 2001–02 | 30.0 |
| 2002–03 | 46.5 |
| 2003–04 | 62.6 |

We have to date, also allocated indicative funding for future years worth approximately £36.5 million in 2004–05 and £17.3 million in 2005–06.

### Special Educational Needs

**Mr. Hague:** To ask the Secretary of State for Education and Skills what estimate he has made of total expenditure on the education of pupils with special needs in *(a)* mainstream schools and *(b)* special schools in the latest year for which figures are available. [156000]

**Mr. Stephen Twigg:** Information about expenditure on the education of pupils with special educational needs is collected from local education authorities on their Section 52 Budget Statements. Where money is delegated to mainstream schools, figures are indicative rather than actual as final decisions are made by the schools. Latest figures available are for 2003–04, as reported by LEAs at 19 February 2004.

Total estimated gross expenditure for pupils in mainstream schools is £1,717,253,601. This includes support for pupils with statements and for those with special educational needs (SEN) but without statements. This expenditure will be in addition to their normal place funding.

Total estimated gross expenditure for pupils in special schools is £1,511,349,567. This includes pupils in maintained special schools and fees for pupils in independent and non-maintained special schools.

In addition, an estimated £236,233,036 will be spent in this financial year on centrally funded SEN activities. These include the costs of educational psychology services, assessment and statementing, parent partnership services and the provision of information.

Overall, the estimated gross expenditure on pupils with special educational needs in the year 2003–04 is £3,464,836,204.

### Specialist School Status

**Miss McIntosh:** To ask the Secretary of State for Education and Skills (1) how many schools from *(a)* rural and *(b)* urban areas applied for specialist school status in the October 2003 application round; [156881]

(2) how many schools from *(a)* rural and *(b)* urban areas were granted specialist school status in the October 2003 application round. [156882]

**Mr. Miliband:** Of the 403 schools which applied for specialist school status in the October 2003 application round, 118 (29 per cent.) were from rural areas and 285 (71 per cent.) were from urban areas. Of the 238 schools then granted specialist school status in that round, 71 (30 per cent.) were from rural areas and 167 (70 per cent.) were from urban areas. These proportions are in line with the overall national picture: 27 per cent. of the 3,126 maintained secondary schools in England are located in rural areas, and 73 per cent. are in urban areas.

### Student Drop-out Rates

**Chris Ruane:** To ask the Secretary of State for Education and Skills what measures his Department is taking to reduce student drop-out rates. [156523]

**Alan Johnson:** The UK non-completion rate has stayed broadly the same at around 17–18 per cent. since 1991–92, and in the latest figures published in December 2003 by the Higher Education Funding Council for England (HEFCE) it fell to just over 16 per cent. This represents one of the highest completion rates in the OECD and we are determined to maintain this level of performance.

We have asked HEFCE to bear down on non-completion and their national co-ordination team, Action on Access, is working with institutions to improve retention rates and to spread good practice from those institutions with low drop-out rates and good access figures. The £255 million which HEFCE has allocated to institutions in 2003–04 for widening access and improving retention recognises some of the additional costs of supporting students from non-traditional backgrounds and those who are less well prepared for higher education.

Research indicates that the reasons for non-completion are many and varied, but one factor is incompatibility between the student and their course or institution. It is vital that potential HE students have the right information on which to base sound decisions. We are working with the National Union of Students to develop a new guide to help students narrow down their choices and make decisions about what and where to study. The guide will be linked to the new Aimhigher portal that launched in September 2003. A new National Student Survey is planned to take place in January 2005, seeking the views of final year students on their learning experience. HEFCE will also ensure that there is a wide range of published information about the quality and standards of institutions' programmes.

Another factor which has been associated with non-completion is financial hardship. In addition to statutory student support, discretionary support is also available as a safety net for vulnerable students. For 2003–04, Hardship Loans are available for students who are in such serious financial difficulty that their access to, or continued attendance on a course may be at risk. Grants from the Hardship Fund are also available to help students access and remain in higher education.

From the academic year 2004–05, the Hardship Loans budget will be amalgamated with the Hardship Fund into the new non-repayable, Access to Learning Fund. Students who would previously have been eligible for a Hardship Loan should be able to apply for a grant rather than a loan.

From 2006–07, under proposals laid out in the Higher Education Bill, the poorest students entering higher education will receive up to £2,700 in up-front support, and we are raising the levels of maintenance loan to meet the basic living costs of the mid-range student, in response to the recent Student Income and Expenditure Survey.

Additionally, institutions will, under the terms of access agreements, be required to provide further financial help to poorer students in the form of bursaries.

### Student Finance

**Chris Grayling:** To ask the Secretary of State for Education and Skills how many graduates are not

making repayments on their income contingent student loans; and what proportion of the total number of such loans outstanding this represents. [155452]

**Alan Johnson** *[holding answer 27 February 2004]:* The information requested is not available centrally.

Borrowers enter repayment status in the April following graduation or otherwise leaving their course. There were 1,409,000 borrowers in the United Kingdom with income contingent student loan accounts at the end of the financial year 2002–03 of whom approximately 298,000 had accounts in repayment status. Borrowers can have accounts both in repayment status and not in repayment status if, for example, they have attended a second course of higher education.

No repayments are due from borrowers who are not in repayment status, although just under 15,000 borrowers made early repayments voluntarily in 2002–03. No repayments are deducted from income-contingent borrowers in repayment status whose income falls below £10,000 per annum. Repayments of income-contingent loans are, apart from a few exceptions, collected through the tax system. Most repayments are notified to the Student Loans Company more than one year after the end of the tax year, after which time has to be allowed for reconciliation with their records. Therefore the data on the number of borrowers with income-contingent loans where repayments are not being deducted because the borrower's income is below the repayment threshold, or for some other reason, are not yet available.

**Mr. Cousins:** To ask the Secretary of State for Education and Skills what projections he has made of *(a)* the size of official student loan debt, *(b)* the likely annual interest accruing on that debt, *(c)* the likely total repayments of (i) debt and (ii) interest on that debt and *(d)* the likely subsidy required from his Department to support the official student loan debt in (A) 2007 and (B) 2009; and on what assumptions his calculations are based. [155538]

**Alan Johnson** *[holding answer 23 February 2004]:* Estimates of the cost of subsidising both maintenance and fee loans in 2006–07 were set out in the Regulatory Impact Assessment (RIA) published on 8 January alongside the Higher Education Bill. These estimates—rather than projections—are based on the different scenarios set out in the RIA. Because of the nature of a variable scheme, the costs vary greatly according to the decisions that both higher education institutions and students take, for example the number of students who decide to defer their fees, and the pattern of fee charging that emerges.

The economic cost of providing student loans is made up of the interest rate subsidy on loans together with the cost of any loans which are never repaid, for example loans written-off after 25 years or on death.

Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

### Teaching Posts

**Sandra Gidley:** To ask the Secretary of State for Education and Skills (1) how many *(a)* teachers and *(b)* teacher full-time equivalents were employed by Hampshire county council at each key stage in each year since 1997; [157076]

(2) how many teaching posts are vacant and have been unfilled for over three months at Key Stage *(a)* 1, *(b)* 2 and *(c)* 3 in Hampshire; [157287]

(3) if he will list, by subject, teaching vacancies that have been unfilled for more than *(a)* three months and *(b)* one year at Key Stages 3 and 4 in Hampshire. [157288]

**Mr. Miliband:** Information on teacher numbers and vacancies by Key Stage and on the duration of teacher vacancies is not collected centrally. The latest available data on teacher numbers and vacancies in maintained nursery/primary, secondary and special schools by local education authority were published on 20 January in the statistical volume "The School Workforce in England 2003", a copy of which has been placed in the Library. The table is also available on the statistics section of the DfES website at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000443/index.shtml

## FOREIGN AND COMMONWEALTH AFFAIRS

### Accession States

**David Davis:** To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence his Department has collated on the number of nationals from *(a)* Poland and *(b)* other accession states who have already arranged transportation to the UK following 1 May; and if he will make a statement. [157074]

**Mr. MacShane:** The Foreign and Commonwealth Office has no figures for the numbers of any EU nationals who have arranged to visit the UK after 1 May.

### Afghanistan

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are in place to combat the drugs trade in Afghanistan. [157022]

**Mr. Rammell:** As lead nation for counter-narcotics activity in Afghanistan, the UK supports the Afghan National Drug Control Strategy, which was adopted by President Karzai in May 2003. The strategy proposes activities in four key areas: improved drugs law enforcement; alternative livelihoods for poppy farmers; capacity building for Afghan drugs institutions; and public awareness campaigns/treatment programmes to help reduce demand. The UK has committed £70 million over three years and additional personnel for the British Embassy in Kabul to drive forward implementation of the strategy.

On 8/9 February 2004 the UK co-hosted with the Afghan Government and United Nations Office on Drugs and Crime an International Counter Narcotics Conference on Afghanistan in Kabul. Over 300 delegates attended from Afghanistan, partner countries and international organisations. The conference demonstrated the firm resolve of the Afghan Government and the international community to tackle the drugs problem in Afghanistan. It agreed action plans for future work in each of the key areas.

### Antarctica

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the Antarctic Treaty Secretariat concerning *(a)* increased surface level transport activities in Antarctica and *(b)* the construction of a seasonal road to the South Pole; and if he will make a statement. [157707]

**Mr. Rammell:** The UK has not had any discussions with the Antarctic Treaty Secretariat because, although agreement has been reached on the establishment of such a secretariat in Argentina, it has not yet commenced operations. It is, however, hoped that it will be possible for it to do so on a provisional basis during this year.

The United States of America has developed a Comprehensive Environmental Evaluation (CEE) on the "Development and Implementation of Surface Traverse Capabilities in Antarctica", which is available on the Internet at http://www.nsf.gov/od/opp/antarct/treaty/cees.htm. This proposes that an ice-road be developed between McMurdo Station and Amundsen-Scott South Pole Station to supplement the existing air-support for the re-supply of facilities at the South Pole.

The CEE will be examined by the Antarctic Treaty's Committee on Environmental Protection, which will then provide advice to the Antarctic Treaty Consultative Meeting, at its meeting in Cape Town in May 2004.

### Balwant Singh

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs when the papers of Balwant Singh (ECR/995346/03/S) were sent to London. [151579]

**Mr. Mullin:** It is not our practice to disclose details of individual entry clearance cases in a public forum. I am withholding the information requested about the outcome of this case under exemption 5 of part 2 the Code of Practice on Access to Government Information. However. I will write to my hon. Friend.

### Burma

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent political developments in Burma. [156234]

**Mr. Mike O'Brien:** We remain deeply concerned about the political situation in Burma. Although the Burmese regime's plans for a National Convention are a step in the right direction, the process needs to be inclusive and transparent, involving all political parties and ethnic groups. Convention participants must be allowed full freedom of speech, movement and political activity. As a first step Daw Aung San Suu Kyi and her National League for Democracy (NLD) colleagues must be fully released and NLD offices re-opened.

### Documents

**Mr. Paul Marsden:** To ask the Secretary of State for Foreign and Commonwealth Affairs which documents are held by his Department written by *(a)* P. H. Pearse, *(b)* Thomas J. Clarke, *(c)* Thomas Macdonagh, *(d)* Edward Daly, *(e)* William Pearse, *(f)* Michael O'Hanrahan, *(g)* Joseph Mary Plunkett, *(h)* John MacBride, *(i)* Sean Heuston, *(j)* Michael Mallin, *(k)* Eamonn Ceannt, *(l)* Con Colbert, *(m)* Thomas Kent, *(n)* Sean MacDiarmada, *(o)* James Connolly and *(p)* Sir Roger Casement. [156306]

**Mr. Straw:** All Foreign and Commonwealth Office (FCO) records are normally transferred to The National Archives after 30 years. All FCO records relating to Sir Roger Casement are available to the public there. In the time available to answer this question we have not been able to trace any records withheld by this Department relating to the others named or to the Easter Rising of April-May 1916. I will write to the hon. Member to confirm the position.

### EU First Pillar (Regulations and Directives)

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many regulations were passed and how many directives were implemented under the European Union's first pillar for each year since 1997. [157107]

**Mr. MacShane:** We assess that the number of regulations made was as follows:

1997—2,339
1998—2,852
1999—2,802
2000—2,882
2001—2,600
2002—2,125
2003—2,176

We assess that the number of EU directives issued was as follows:

1997—85
1998—109
1999—100
2000—91
2001—83
2002—159
2003—134

All the data above cover the period from December (of the preceding year) to November of that year inclusive.

The above regulations and directives were passed under the European Union's first pillar.

The data above are taken from the LexisNexis online database (a subscription service at: http://web.lexis-nexis.com/professional), which draws on the Official Journal and other documents as provided by CELEX—the computerized documentation system on Community law.

### Falkland Islands

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent negotiations between the United Kingdom and Argentina concerning flights to and from the Falkland Islands, with particular reference to the number of flights per week that will be permitted; which airline will operate the service; and what was discussed concerning the issue of sovereignty of the islands. [156864]

**Mr. Straw:** I refer the right hon. and learned Member to a written ministerial statement that the Under-Secretary of State for Foreign and Commonwealth Affairs, my hon. Friend the Member for Harlow (Mr. Rammell), made today on the issue of air links between the Falkland Islands and the South American mainland. The issue of sovereignty was not discussed during Mr. Rammell's recent visit to Argentina.

**Mr. Ben Chapman:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent talks in Argentina regarding charter flight links to the Falkland Islands. [156996]

**Mr. Rammell:** I refer my hon. Friend to the Written Statement I made today on the issue of air links between the Falkland Islands and the South American mainland.

### Gallipoli

**Mr. Djanogly:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the Turkish Government and relevant authorities regarding plans to charge an admission fee to Gallipoli battlefields in the Gelibolu Historic National Park; and if he will make a statement. [156963]

**Mr. MacShane:** The Turkish authorities have confirmed to the organisers of ANZAC day that there will be no entry or administration fee to enter the Gallipoli battlefields in the Gelibolu Historic National Park.

### Indonesia

**Mr. Dhanda:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Indonesian Ambassador to the Court of St. James's in connection with freedom of religion in Indonesia. [156815]

**Mr. Mike O'Brien:** I met with the Indonesian Ambassador on 6 October and 10 November 2003 and on both occasions we discussed a wide range of issues, including religion.

The Government are committed to working with Indonesia to encourage religious tolerance. Together with the Department for International Development, we have committed over £4 million to help establish the United Nations Development Programme Conflict Prevention and Recovery Unit in Jakarta. The Unit will build up capacity in conflict reduction and recovery in the provinces affected by religious conflict. This includes funding projects like the Maluku Reconciliation Conference, which was held in London and Brussels in January 2004 and brought together Muslim and Christians leaders from Maluku to discuss how to establish peace in the province.

**Mr. Dhanda:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the extent of freedom of religion in Indonesia. [156816]

**Mr. Mike O'Brien:** The many ethnic and religious communities of the Indonesian archipelago have a long history of generally peaceful co-existence. The majority of Indonesians are Muslim and most are moderate and tolerant of other religions. Religious freedom in Indonesia is enshrined in the constitution.

### Iraq

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what factors underlay the decision by coalition forces in Iraq to reject a plan by the Iraqi Census Board to take a nationwide census on 30th June and then make an electoral roll available by 1 September. [154246]

**Mr. Rammell:** There is no Iraqi Census Board. The Iraqi Central Statistical Organisation did propose a plan last year to conduct a census upon the basis of which elections could be held. The plan was rejected by the Iraqi Minister of Planning, to whom the Central Statistical Organisation reports. No decision was ever taken on this matter by any Coalition body.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement about control of the oil supply and revenues in Iraq. [156198]

**Mr. Rammell:** Iraqi oil and the revenue it generates are both governed by UN Security Council Resolution 1483. This stresses the right of the Iraqi people to control their own natural resources. It also states that in the interim period, 95 per cent. of the proceeds from export sales of petroleum, petroleum products and natural gas shall be deposited into the Development Fund for Iraq (DFI). The remaining 5 per cent. is deposited into the UN Compensation Fund (to meet outstanding claims for reparations against Iraq). UNSCR 1483 also makes it clear that sale of Iraqi oil is to be in line with best international practice.

The DFI balance is available on the Coalition Provisional Authority website www.cpa-iraq.org and both the DFI and the practice of selling Iraqi oil are to be audited by independent public accountants under supervision by the International Advisory and Monitoring Board. This body contains representatives from the UN, the World Bank, the IMF and the Arab Fund for Social and Economic Development.

### Libya

**Mr. Swire:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Libyan authorities regarding that country's relationship with the IRA. [155650]

**Mr. Rammell:** During the visit to the United Kingdom of 9–10 February 2004 by the Libyan Foreign Minister, Mr. Abdurrahman Shalgam, my right hon. Friend the Foreign Secretary raised Libya's past links with the Provisional IRA as part of a discussion covering a broad range of bilateral and regional issues.

### North Korea

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what role the UK is playing in assessing what nuclear threat is presented by North Korea. [157019]

**Mr. Rammell:** As a permanent member of the UN Security Council and as a Depositary State of the Nuclear Non-Proliferation Treaty, the UK has held discussions with the UN, the US, EU partners and regional governments so as to inform our assessment of the threat posed by North Korea's nuclear programmes. We monitor developments closely and remain in close contact with members of the international community.

### Somalia

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answers of 23 February 2004, *Official Report*, column 92W, on the Somali National Reconciliation Conference, if he will list by name the attendees at the Somali National Reconciliation Conference at the Safari Park Hotel outside Nairobi; and whose attendance was supported by the British Government. [157606]

**Mr. Mullin:** The list of participants in the consultations is given as follows. A number of support staff to the leaders were also accommodated at the venue. The United Kingdom did not support the attendance of any specific leader but pooled funds with other donors.

Mr. Ahmed Sh. Mohamed Lohos;
Mr. Mohamed Osman Maye;
Mr. Osman Ali "Atto"
Mr. Mohamed Qanyare Afrah;
Mr. Abdulaziz Sheikh Yosouf;
Mr. Hassan Abshir Farah;
Col. Hassan Abdi Galad;
Col. Abdullahi Yussuf;
Mr. Abdalla Derow Isak;
Mr. Hussein Farah Aideed;
Col. Hassan Mohamed Nur;
Mr. Mow'lid Ma'ane Mohamud;
Mr. Omar Mohamoud Mohamed;
Mr. Mohamed Sayyid Aden;
Gen. Mohamed Hersi Morgan;
Mr. Mohamed Omar Habeeb "Dheere";
Mr. Hilolwe Imar Omar;
Mr. Abdullahi Sheikh Ismail;
Sheikh Adan Mohamed Nur "Madhobe";
Mr. Sharif Salah Mohamed Ali;
Mr. Mohamed Aden Weiyel;
Mr. Musa Sudi Yalahow;
Mr. Bare Aden Shire "Hirale";
Col. Abdirizak Isak Bihi;
Mr. Abdikassim Salad Hassan;
Mr. Mohamed Abdi Yusuf;
Mr. Husseun Haji Bod;
Mr. Yusuf Dheg;
Mr. Abdirahman Ibbi;
Mr. Omar Hashi Aden;
Mr. Zakeriya Haji Mohamud;
Mr. Abdikarim Ahmed Ali;
Mr. Ali Bashi Haji Mohamud;
Mr. Mustaf Mukhtar Gudow;
Mrs. Asha Haji Elmi;
Prof. Deeqa Ol-u-jog;
Mrs. Saredo Mohammed Abdalla;
Mrs. Khadija Sufi Hussein;
Mrs. Zakia Abdissalan Alin;
Mr. Jama Mohamed Galib
Col. Ahmed Omar Jess;
Mr Mohamed Ibrahim "Haabsade";
Eng. Mohamed Hussein Addow;
Mr. Farah Addow "Sindico";
Mr. Mohamed Farah Jumaleh;
Mr. Abdi Osman Farah;
Mr. Jama Ali Jama.

### Sri Lanka

**Linda Perham:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in Sri Lanka. [156248]

**Mr. Mike O'Brien:** We support the Sri Lankan peace process politically and practically and welcome the progress made since February 2002 when the ceasefire came into effect. The parliamentary election in Sri Lanka on 2 April comes at a crucial moment for the peace process. We urge all Sri Lanka's political leaders to ensure that their, and their supporters', actions and rhetoric during the election campaign do nothing to undermine the important gains made in the peace process or to make it more difficult to resume peace process talks after the election. It is also essential that the election is free of intimidation, fair and non-violent throughout Sri Lanka. We urge all political parties and the Liberation Tigers of Tamil Eelam to commit themselves to supporting the early resumption of peace negotiations after the election so that they can move forward together in building a peaceful and prosperous country. We are working closely with international partners to reinforce these messages.

### UN Security Council

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on *(a)* the size of the UN Security Council and *(b)* the limitations of its members' veto rights. [157109]

**Mr. Rammell:** The Government are long-standing supporters of enlargement of the Security Council in order to ensure that it better represents the modern world. We support an increase in the membership of the Council from 15 to 24, with five additional permanent members and four additional non-permanent members. In particular, we have supported permanent membership for Japan and Germany, and for developing countries from Africa, Asia and Latin America. In the latter two regions, we have said that we see India and Brazil as the pre-eminent candidates. It is, however, primarily for the countries and regions concerned to make their case to the wider UN membership.

The Government believe that the veto should be used with restraint and in accordance with the principles of the Charter.

### United Nations (Surveillance)

**Mr. Gerrard:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether staff at GCHQ complied with a request from the US National

Security Agency to assist with a surveillance operation on members of the UN Security Council in January 2003; [157402]

(2) whether a memorandum was sent to GCHQ by the US National Security Agency asking for assistance in the surveillance of UN Security Council delegations. [157403]

**Mr. Straw:** It is the well-established and long-standing practice of successive Governments not to comment on details of the intelligence relationship between the UK and US.

**Mr. Gerrard:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* written and *(b)* oral assurances were given to staff at GCHQ that action to assist with surveillance of UN Security Council delegations would be legal. [157404]

**Mr. Straw:** It is the well-established and long-standing practice of successive governments not to respond to speculation about alleged operational activities by the UK security and intelligence services. However, I can provide reassurance that they work entirely within a legal framework which complies with the European Convention on Human Rights and are subject to very rigorous oversight both by Parliamentarians and senior members of the judiciary as provided by statute. Training in the awareness of these legalities is mandatory for all GCHQ operational staff. The Director of GCHQ and I take our responsibilities for GCHQ's compliance with its legal obligations very seriously indeed.

### Uzbekistan

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Uzbekistan about human rights. [157017]

**Mr. Rammell:** We remain deeply concerned by the human rights situation in Uzbekistan and regularly discuss human rights with the Uzbek Government both bilaterally and with our EU partners.

Last year I discussed our concerns about the human rights situation in a meeting with the Uzbek Ambassador on 8 October, urging the Uzbek authorities to implement the UN Special Rapporteur for Torture's recommendations immediately. At the EU Uzbekistan Co-operation Council on 27 January, the EU reiterated its serious concern about the human rights situation in Uzbekistan. The Minister of State at the Foreign and Commonwealth Office, my hon. Friend the Member for North Warwickshire (Mr. O'Brien) raised human rights issues with the Uzbek Deputy Prime Minister on 4 February.

The Foreign and Commonwealth Office frequently discusses human rights with the Uzbek Ambassador in London and raises human rights issues and individual cases with our EU partners. Our Ambassador in Tashkent continues to raise individual cases, as well as our general concerns, at ministerial level both bilaterally and in conjunction with EU colleagues.

## DEFENCE

### Private Finance Initiative

19. **Mr. Andrew Turner:** To ask the Secretary of State for Defence how many of his Department's Private Finance Initiative projects are currently outstanding. [156747]

**Mr. Ingram:** I take this question to refer to those projects that are in competition but have not yet been signed. There are 11 such Private Finance Initiative projects.

### Warships

21. **Mr. Crausby:** To ask the Secretary of State for Defence if he will make a statement on the current shipbuilding programme for the Royal Navy. [156749]

**Mr. Ingram:** The Ministry of Defence has embarked on the largest procurement programme of new ships for the Royal Navy in many years, including orders for six Type 45 destroyers, three Astute Class submarines and four Landing Ships Dock (Auxiliary).

Future plans include the purchase of two new aircraft carriers, further orders of Type 45 destroyers and Astute Class submarines, the Joint Casualty Treatment Ship, and the progressive replacement of existing RFA vessels through the Military Afloat Reach and Sustainability project.

Looking further ahead, we expect to replace the capability provided by the Type 22 and 23 Frigates with the Future Surface Combatant. It is too early to say how the new capability will be met or when orders will be placed because the project is still at the concept stage.

### Defence Industrial Policy (Trade Unions)

22. **Dr. Iddon:** To ask the Secretary of State for Defence what steps the Department has taken to involve trade unions in the defence industrial policy. [156750]

**Mr. Ingram:** The Ministry of Defence exchanges views with Trades Unionists on a range of defence industrial issues. The Trade Unions have welcomed the Defence Industrial Policy that we published in October 2002.

Defence Ministers meet regularly with Trade Unionists. Last Tuesday, 24 February, my right hon. Friend the Secretary of State for Defence met with the Confederation of Shipbuilding and Engineering Union and separately with the General Secretary of Amicus.

### Small and Medium-sized Enterprises

23. **James Purnell:** To ask the Secretary of State for Defence what his policy is on defence procurement and its effect on small and medium-sized enterprises. [156751]

**Mr. Ingram:** Ministry of Defence procurement policy, reinforced by the Government's Defence Industrial Policy, seeks to secure best value for money for the taxpayer and a healthy and competitive defence industry at Original Equipment Manufacturer Level and at the level of Small and Medium Enterprises.

The MOD recognises the importance of Small and Medium Enterprises in driving innovation and contributing to the delivery of defence capability. Defence contract opportunities are advertised through publications such as the MOD Defence Contract Bulletin and the Official Journal of European Union. The MOD's Defence Suppliers Service and the Defence Diversification Agency provide information and assistance to smaller firms interested in becoming defence suppliers.

The MOD also works with the DTI and its Small Business Service (SBS) to maintain awareness of initiatives aimed at harnessing innovation.

In autumn 2001 a joint MOD/ Industry Code of Best Practice was published covering relationships at all levels within the supply chain including those with Small and Medium Enterprises.

### Iraq

24. **Mr. McLoughlin:** To ask the Secretary of State for Defence if he will make a statement on the provision of full chemical and biological protection to soldiers serving in Iraq. [156752]

**Mr. Hoon:** Even though the threat from chemical and biological agents has reduced considerably since the end of hostilities, a full suite of chemical and biological protection is available for all Service personnel serving in Iraq.

This consists of a protection suit and respirator, issued as personal equipment; plus collective warning and detection devices for units, such as the Chemical Agent Monitor and the Man-portable Chemical Agent Detector. A number of medical treatments are also available. Most armoured vehicles operating in Iraq are fitted with NEC filters.

Sufficient stocks of all such protection equipment, including additional suits, are available in theatre.

**Mr. Hoyle:** To ask the Secretary of State for Defence whether cluster bombs manufactured in Israel and packaged at the Royal Ordnance facility in Glascoed were used by British forces during the recent conflict in Iraq. [154891]

**Mr. Ingram:** The cluster artillery shells fused and packaged by BAE Systems Royal Ordnance at Glascoed, following shell manufacture by Israel Munitions Industry, were not used in Iraq during the recent conflict. They have been put into store to maintain operational stock levels.

**Dr. Cable:** To ask the Secretary of State for Defence what the estimated replacement costs of military equipment damaged and destroyed owing to use in Iraq since the start of the war in Iraq is *(a)* in total and *(b)* for (i) tanks and other armoured vehicles, (ii) aircraft and (iii) helicopters. [154952]

**Mr. Ingram:** We expect to spend some £50 million replacing equipment damaged or destroyed during Operation Telic. The replacement of two Sea King Mk7s lost in Iraq will account for around £35 million of this total. We do not intend to replace the Tornado GR4 aircraft, the Challenger 2 tank and other armoured vehicles that were destroyed since we have sufficient numbers within our existing fleets to meet future requirements.

**Adam Price:** To ask the Secretary of State for Defence how many medical evacuations there have been of British military personnel in Iraq since 1 May 2003; and if he will give the reasons for each evacuation. [155783]

**Mr. Ingram:** There have been 1,109 medical evacuations of British military personnel in Iraq between 1 May 2003 and February 2004. The evacuations took place for a number of reasons, ranging from trauma to routine medical complaints.

### Army Training

25. **Hugh Robertson:** To ask the Secretary of State for Defence if he will make a statement on Army training. [156753]

**Mr. Ingram:** There are two types of Army training: individual training and collective training. Army individual training is undertaken within the Army Training and Recruiting Agency and is split into a number of phases. Initial training, teaches soldier recruits and officer cadets basic military skills. Phase 2, or specialist training, is special to arm training to prepare soldiers for their first appointment in the Field Army. Career training (Phase 3) is continuation and professional development training to enhance individual soldiers' and officers' career progression and to meet the Army's need for specialists.

The collective training programme is constructed to train the Army for current operations, to prepare it to contribute to Joint Rapid Reaction Force Readiness and Development, and to support Alliance commitments. The ability to deliver trained, ready forces for any contingency remains a key Army priority.

### Aircraft Carrier

**Dr. Julian Lewis:** To ask the Secretary of State for Defence whether the future aircraft carriers will each be able to operate more than 40 aircraft. [154670]

**Mr. Ingram:** I refer the hon. Member to the answer I gave on 9 February 2004, *Official Report*, column 1178W.

### Chinook Helicopters

**David Davis:** To ask the Secretary of State for Defence (1) what the *(a)* functional and *(b)* operational differences are between the Mark 2 Chinook helicopter, the Chinook 47-H and the Mark 3; [156221]

(2) how the FADEC system in the Mark 2 Chinook differs from that available to the *(a)* Mark 2a, *(b)* the Chinook 47-H and *(c)* the Mark 3; [156222]

(3) what problems the software changes made to FADEC on the MH47 address; what necessitated these changes; who asked for these changes to be made; what functionality they provide for the MH47 that is not available to the Mark 3 Chinook; for what reasons these changes were not incorporated in the Mark 3 FADEC; when these changes are due to be incorporated; and if he will make a statement; [156223]

(4) whether the validation process of the FADEC system fitted to the Mark 3 Chinook is the same as that used in the *(a)* Mark 2, *(b)* Mark 2a and *(c)* MH47 Chinook; what that process comprises; who was contracted to conduct this process for the (i) Mark 2, (ii) Mark 2a, (iii) MH47 and (iv) Mark 3 Chinook; to whom the contractor sub-contracted this work; and if he will make a statement; [156224]

(5) what work has been conducted on FADEC in the Mark 3 Chinook helicopter at Boscombe Down; what reports Boscombe Down has produced on the work; whether independent sub-contractors produced reports on the Mark 3 FADEC; and if he will make a statement; [156225]

(6) whether *(a)* Vosper Thornycroft (UK) Ltd., *(b)* Chandler Evans Controls Systems and *(c)* Boeing Helicopters Corp. have given undertakings to his Department about the FADEC fitted to the Mark 3; [156226]

(7) what problems the *(a)* Mark 2 Chinook, *(b)* Mark 2a Chinook and *(c)* MH47 Chinook helicopters displayed which the Mark 3 was designed to solve; [156229]

(8) what the basis was for his Department's decision to procure the Mark 3 Chinook helicopter; and if he will make a statement; [156230]

(9) what tests are required to *(a)* the aircraft as a whole and *(b)* component parts, on the Mark 3 Chinook prior to its gaining release to full operational service other than the flight trials being conducted at Boscombe Down; what tests are still to be completed; and when he expects this release to be granted; [156231]

(10) what cost-benefit analysis was conducted prior to initiating procurement of the Mark 3 Chinook helicopter; who undertook this analysis; and what the results were. [156232]

**Mr. Ingram:** I will write to the right hon. Member and a copy of my letter will be placed in the Library of the House.

### Defence Finance

**Angus Robertson:** To ask the Secretary of State for Defence what the total value is of assets belonging to his Department, broken down by United Kingdom region; and if he will break down the assets by *(a)* estates, *(b)* kit, *(c)* plant, machinery and vehicles, *(d)* capital spares, *(e)* information technology and communications and *(f)* assets in course of construction for the same areas for the most recent financial year. [142028]

**Mr. Ingram:** A full regional breakdown of asset values is not held centrally and could be provided only at disproportionate cost. However, a breakdown of the value of Ministry of Defence's land and buildings by Government office region may be derived from Section 7 of the National Asset Register, last published by the Treasury as Cm 5221 on 19 July 2001. This shows the position for financial year 1999–2000. The latest information on the total value of assets was published on 30 October 2003 in MOD's Annual Report and Accounts 2002–03 (HC 1125, pages 80 and 111). Both the National Asset Register and the Annual Report and Accounts have been placed in the Library of the House.

### Foreign Ship Chartering

**Mr. Carmichael:** To ask the Secretary of State for Defence pursuant to his answer of 23 February 2004, *Official Report*, column 44W, on foreign ships, whether his Department has a maximum age for ships it charters; and what the age was of the oldest ship chartered by his Department in relation to the recent conflict in Iraq. [157003]

**Mr. Ingram:** The Ministry of Defence does not stipulate a maximum age for ships it charters. As I indicated in my previous answer, age is one of several important criteria which are used to assess suitability for use.

The oldest foreign flagged freight-carrying ship chartered for the Iraq campaign was 30 years old. The oldest UK-flagged ship was 25 years old. Port State Inspections completed on the two ships prior to charter revealed no deficiencies and both ships completed their tasking to the full satisfaction of the MOD.

### Military Equipment

**Richard Burden:** To ask the Secretary of State for Defence whether he discussed the supply of military and security equipment between Israel and the UK with the Israeli Defence Minister, during his recent visit to the UK. [156515]

**Mr. Hoon:** I met Mr. Shaul Mofaz, Israeli Minister for Defence, on 12 February 2004. We discussed a wide range of issues, including opportunities for the supply of defence and security equipment.

### Mr. Jafar Dhia Jafar

**Mr. Hancock:** To ask the Secretary of State for Defence whether his Department was consulted on the application by Mr. Jafar Dhia Jafar for a visa to attend a meeting of the Royal Society in London. [154980]

**Mr. Ingram:** No.

### Procurement Contracts

**Mr. Steinberg:** To ask the Secretary of State for Defence which foreign contractors after winning a defence contract have refused to supply the goods in the last five years; and what the reasons given for doing so were in each case. [154941]

**Mr. Ingram:** The information requested is not held centrally and could be provided only at disproportionate cost (Exemption 9 of the Code of Practice on Access to Government Information).

### Sea King Crash (Board of Inquiry)

**Mr. Gale:** To ask the Secretary of State for Defence if he will place in the Library a copy of the report of the Board of Inquiry into the circumstances surrounding the air collision of two Sea King helicopters embarked on HMS Ark Royal on 22 March 2003; what action he proposes to take as a result of the findings of the Board of Inquiry; and if he will make a statement. [157073]

**Mr. Ingram:** It is not our practice or that of previous Governments to place copies of the reports from Service Board of Inquiry in the Library of the House.

A Service Board of Inquiry is an internal fact finding investigation undertaken by the Services for their own use, into the circumstances surrounding a particular accident or incident. There is a principle of confidentiality associated with BOI proceedings, which is intended to encourage the provision of forthright evidence. Accordingly, external distribution of BOI reports is usually limited to the next of kin of service personnel killed in in-service accidents, HM Coroners to assist in their preparations for Inquests, and other bodies with statutory duties to investigate incidents.

We will, when the investigation by the RN Flight Safety and Accident Investigation Centre is complete, place copies of the Military Aircraft Accident Summary in the Library of the House.

I shall place information on the implementation of the Board of Inquiry's recommendations in the Library of the House shortly.

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence (1) how many Typhoon aircraft have been ordered from outside the partner countries; [155131]

(2) how many countries have expressed interest in ordering Typhoon aircraft. [155132]

**Mr. Ingram:** Eighteen Typhoon aircraft have been ordered from outside the partner countries. In addition, three countries have expressed an interest in ordering Typhoon; this figure does not include countries that have shown only a preliminary interest, for example by requesting information about the aircraft.

**Mr. Hoyle:** To ask the Secretary of State for Defence whether RAF Typhoon aircraft will operate in *(a)* the Falklands, *(b)* Gibraltar, *(c)* Germany and *(d)* other countries. [155133]

**Mr. Ingram:** Typhoon will have the capacity to operate from bases outside the United Kingdom when this is appropriate to fulfil training and operational needs.

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence whether the Government is committed to proceeding with the second tranche of Typhoons for the RAF; and if he will make a statement. [155243]

**Mr. Ingram:** The Government are committed to proceeding with the second tranche of Typhoon for the RAF, and negotiations with Industry involving the four partner nations are in progress.

### Work Standards

**Mr. Keith Simpson:** To ask the Secretary of State for Defence pursuant to his answer of 5 February 2004, *Official Report*, column 1045W, on work strands, what the aspects of *(a)* military capability and *(b)* associated overheads in each of the 16 work strands are; and what the overall financial saving targets for the 16 work strands are. [156792]

**Mr. Ingram** *[holding answer 27 February 2004]:* The work strands are looking at a range of areas relating to how our armed forces are organised and equipped in line with the policy set out in the Defence White Paper. They will look for opportunities to bear down on all associated overheads. An overall financial savings target has not been set for the work strands. As the Secretary of State for Defence said to the House on 11 December 2003, *Official Report*, column 1209, our aim is to direct resources at those capabilities that are best able to deliver the range of military effects required.

### Afghanistan

**Tom Brake:** To ask the Secretary of State for Defence if he will make a statement on UK troop levels in Afghanistan. [156737]

**Mr. Hoon:** We currently have around 490 members of the armed forces deployed in Afghanistan, mostly serving with either the International Security Assistance Force in Kabul, or with our Provincial Reconstruction Team in Mazar-e Sharif.

## NORTHERN IRELAND

### Accident and Emergency Departments

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many patients were waiting for more than two hours on trolleys in accident and emergency departments of hospitals in Northern Ireland in each year since 1997. [156581]

**Angela Smith:** The number of hospital trolley waits waiting two hours or more is reported to the Department by Trusts on a quarterly basis.

*Number of hospital trolley waits waiting two hours or more recorded in Northern Ireland 1997–98 to 2002–03*

| *Financial year* | *Trolley waits waiting more than two hours* |
|---|---|
| 1997–98 | 2,335 |
| 1998–99 | 3,943 |
| 1999–2000 | 6,040 |
| 2000–01 | 10,346 |
| 2001–02 | 15,041 |
| 2002–03 | 25,131 |

*Note:*
In a small number of cases Trusts have returned data for a representative sample of trolley waits.
*Source:*
Departmental Information Return CH10

### After-school Clubs

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what criteria are applied in relation to access by children with special needs to after-school clubs in Northern Ireland. [156584]

**Jane Kennedy:** It is a matter for schools to determine the range of activities to be offered, having regard to the needs and abilities of their pupils, and to decide whether individual pupils will take benefit from these activities.

### Automated Credit Transfer

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland if he will make a statement on the implementation of automated credit transfer for benefit and pension payments in Northern Ireland. [156582]

**Mr. Spellar:** At 13 February 2004, the Social Security Agency has invited 536,234 benefits and pensions customers to convert to Direct Payment. Of these, 273,045, or 50.9 per cent. have already provided their account details.

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Northern Ireland how many staff in his Department have been *(a)* suspended, *(b)* dismissed, *(c)* prosecuted and *(d)* convicted for involvement in benefit fraud in each of the last six years; and what the amounts involved were in each of the cases listed. [154544]

**Mr. Pearson:** The information on staff members involved in benefit fraud is as follows:

| | *Suspended* | *Cases* | *Dismissed* | *Cases* | *Prosecuted* | *Cases* | *Convicted* | *Cases* |
|---|---|---|---|---|---|---|---|---|
| 1998 | 3 | A, B, C | 3 | C, E,G | — | — | — | — |
| 1999 | — | — | 1 | B | 2 | B, C | 2 | B, C |
| 2000 | 2 | F, H | 2 | D, I | 1 | F | 1 | F |
| 2001 | — | — | — | — | 1 | D | 1 | D |
| 2002 | — | — | 2 | A, K | — | — | — | — |
| 2003 | 1 | J | — | — | 1 | E | 1 | E |

Information on the amounts of benefit fraud in each case is as follows:

£

| *Case* | *Amount Involved* |
|---|---|
| A | n/a |
| B | 9,000 |
| C | 32,000 |
| D | 190,000 |
| E | 147,000 |
| F | 700 |
| G | 12,000 |
| H | n/a |
| I | 851 |
| J | 6,000 |
| K | 1,231 |

### Budget (Northern Ireland) Order

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland what the sums are which are referred to under the reference Consultants and Other Fees in the Budget (Northern Ireland) Order 2004 in schedule 1 under the heading Department of Regional Development, broken down by contract. [156470]

**Mr. Spellar:** I have agreed to place the information requested in the House of Commons Library.

### Carers (Equal Opportunities) Bill

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of extending the provisions of the Carers (Equal Opportunities) Bill to Northern Ireland; and if he will make a statement. [156938]

**Angela Smith:** The Carers and Direct Payments Act (Northern Ireland) 2002 introduces provisions broadly in line with this Bill in relation to the provision of information, provision of services to carers and the right of a carer to an assessment in his/her own right.

Additionally carers were identified as a priority group under the former Executive's Promoting Social Inclusion (PSI) programme. An inter-Departmental group has been established to address the range of issues affecting carers, including training, education and employment. That group will report in April 2004.

### Civil Servants (Salaries)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what progress has been made in relation to the dispute over salaries of civil servants in Northern Ireland. [156118]

**Mr. Pearson:** Extensive negotiations over several months did not result in an agreed pay deal for the 11 Departments of the Northern Ireland Administration this year. Management Side presented an offer worth 3.67 per cent. on 5 November. As this could not be agreed, and Trade Union Side declined to negotiate within the 3.67 per cent. envelope, we took the decision to proceed to pay the award and communicated this to staff and Trade Union Side on 27 November. I have made clear to Trade Union Side that the 3.67 per cent. deal is the maximum that can be paid. We are however open to exploring other reasonable means of resolving the dispute. The latest meeting of the Central Whitley Council between Trade Union and Management Sides took place on Thursday, 19 February, and we have agreed to hold further negotiations as a matter of urgency.

Members of the NI Civil Service working in the Northern Ireland Office are subject to separate pay negotiations involving three unions: NIPS A, PCS and the PDA. A formal offer of 3 per cent. was made to the Unions but was rejected. NIO are proceeding with payment of the award in March.

### Coroners

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on progress towards setting up an inquiry into coroners' matters; and when he expects the inquiry to commence. [154623]

**Mr. Leslie:** I have been asked to reply.

A fundamental review of Death Certification and Investigation in England, Wales and Northern Ireland was established by the Home Secretary in July 2001 and reported in June 2003.

The Northern Ireland Court Service issued a consultation paper on proposals for administrative redesign of the Coroners Service in Northern Ireland on 13 February 2004 inviting comments on a range of proposals to improve and modernise the coroners service.

### Enriched Curriculum Programme

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland how much of the extra £1.6 million given to education in the Budget will go to the Enriched Curriculum programme. [156166]

**Jane Kennedy:** The £1.6 million allocated to the Department of Education in Budget 2003 will be used to take forward on-going work to support implementation of revised post-primary arrangements. Pilot work on the Enriched Curriculum Programme continues with the support of mainstream budgets.

### Health Services

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what the cost of procedures contracted out by the NHS to the private sector was in Northern Ireland in each of the last five years. [156320]

**Angela Smith:** The information requested is not available centrally.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what statistics his Department collects regarding requests for *(a)* radiological and *(b)* radiography investigations in Northern Ireland. [156323]

**Angela Smith:** My Department collects the number of requests received for radiological and isotope procedures in radiology, nuclear medicine and medical physics departments in each hospital on a quarterly basis.

Information on the request category is also collected and is derived from data concerning the type of request, the category of patient and the type of location from which the request emanates.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many nurses are employed in Northern Ireland, broken down by age group. [156325]

**Angela Smith:** Figures for nurses employed within HPSS organisations as at 31 December 2003 are given in the following table.

| | *Qualified nurses*[1] | | *Unqualified nurses* | | *Bank nurses*[2] | |
|---|---|---|---|---|---|---|
| *Age group* | *Headcount* | *WTE*[3] | *Headcount* | *WTE* | *Headcount* | *WTE* |
| < 25 | 823 | 792.7 | 401 | 379.8 | 373 | n/a |
| 25–29 | 1,684 | 1,603.6 | 422 | 368.3 | 471 | n/a |
| 30–34 | 2,188 | 1,900.4 | 603 | 523.7 | 527 | n/a |
| 35–39 | 2,689 | 2,184.5 | 728 | 607.4 | 670 | n/a |
| 40–44 | 3,109 | 2,541.2 | 747 | 637.7 | 678 | n/a |
| 45–49 | 2,301 | 1,925.8 | 652 | 559.3 | 422 | n/a |
| 50–54 | 1,436 | 1,212.1 | 460 | 394.7 | 235 | n/a |
| 55–59 | 866 | 713.8 | 384 | 321.0 | 140 | n/a |
| 60–64 | 214 | 170.4 | 143 | 114.3 | 84 | n/a |
| 65+ | 11 | 8.1 | 1 | 0.7 | 12 | n/a |
| Total | 15,321 | 13,052.5 | 4,541 | 3,906.9 | 3,612 | n/a |

[1] Figures for qualified nurses include health visitors, district nurses, midwives, school nurses, community psychiatric nurses, student health visitors, student midwives and other qualified nurses

[2] Bank nurses maintain service delivery by covering staffing shortfalls and fluctuating workloads. Due to the variable nature of their employment it is not possible to obtain accurate whole time equivalent data with which to measure their input to the service. Some nurses, midwives and health visitors employed in HPSS organisations may also work in nurse banks—there could therefore be some double counting.

[3] Whole Time Equivalent

*Source:*
Human Resource Management System

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of medical negligence in Northern Ireland in 2003–04. [156326]

**Angela Smith:** The 2003–04 budget for Health and Personal Social Services includes £11 million towards the settlement of medical negligence claims.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many vacancies there are for speech therapists in Northern Ireland. [156381]

**Angela Smith:** The information requested is in the table.

*Number of speech therapy vacancies (including long-term vacancies) within all trusts as at 30 September 2003*

| *Trust* | *Headcount* | *WTE*[1] |
|---|---|---|
| Altnagelvin Group HSS Trust | 0 | 0.0 |
| Armagh and Dungannon HSS Trust | 0 | 0.0 |
| Belfast City Hospital HSS Trust | 0 | 0.0 |
| Causeway HSS Trust | 1 | 1.0 |
| Craigavon and Banbridge Community HSS Trust | 0 | 0.0 |
| Craigavon Area Hospital Group HSS Trust | 0 | 0.0 |
| Down Lisburn HSS Trust | 1 | 1.0 |
| Foyle Community HSS Trust | 3 | 3.0 |
| Greenpark Healthcare HSS Trust | 0 | 0.0 |
| Homefirst Community HSS Trust | 6 | N/A |
| Mater Infirmorum Hospital HSS Trust | 0 | 0.0 |
| Newry and Mourne HSS Trust | 0 | 0.0 |
| North and West Belfast HSS Trust | 6 | 4.0 |
| Royal Group of Hospitals HSS Trust | 0 | 0.0 |
| South and East Belfast HSS Trust | 0 | 0.0 |
| Sperrin Lakeland HSS Trust | 2 | 2.0 |

*Number of speech therapy vacancies (including long-term vacancies) within all trusts as at 30 September 2003*

| *Trust* | *Headcount* | *WTE*[1] |
|---|---|---|
| Ulster Community and Hospital Group HSS Trust | 1 | 1.0 |
| United Hospitals Group HSS Trust | 0 | 0.0 |
| Total | 20 | [2]12.0 |

[1] Whole time equivalent.
[2] Figure does not include Homefirst Community HSS Trust.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what funding was provided in each of the last three years for people in Northern Ireland with *(a)* severe and *(b)* moderate learning disabilities. [156383]

**Angela Smith:** Funding for Learning Disability services in each of the last three years is detailed as follows.

*Learning Disability Programme of Care*

| | £ |
|---|---|
| 2000–01 | 100,514,349 |
| 2001–02 | 102,507,948 |
| 2002–3 | 136,357,436 |

It is not possible to disaggregate expenditure for people with severe or moderate learning disabilities.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how much funding was provided in each of the last three years for people in Northern Ireland with autistic spectrum disorders. [156384]

**Angela Smith:** It is not possible to provide the information in the format requested. Funding for autistic spectrum disorders falls within the learning disability programme of care.

Funding for the last three years is detailed in the table.

*Learning disability programme of care*

| | £ |
|---|---|
| 2000–01 | 100,514,349 |
| 2001–02 | 102,507,948 |
| 2002–03 | 136,357,436 |

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 4 February, *Official Report*, column 944W, on the new maternity hospital, what factors underlie the slippage in the expected dates for *(a)* presentation of a business case and *(b)* commencement of building of the new regional maternity hospital. [156440]

**Angela Smith:** The original project was a stand alone maternity hospital on the Royal Group of Hospitals site. Since the original announcement, in order to ensure the delivery of the best possible facilities, work has been undertaken to explore opportunities for the development of an integrated mother and child hospital with a single entrance. The development of this integrated model has resulted in an extension of the initial planning time required.

The new regional maternity hospital remains to be completed by 2010. The delay in initiating construction is due to this additional planning, including the need for a complex series of construction, decant, and demolition projects across the entire strategic redevelopment programme which is designed to ensure that disruption to services across the Trust is kept to a minimum.

## Housing

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland how many units in the ownership of the Northern Ireland Housing Executive are *(a)* void and *(b)* empty due to their state of disrepair; and how many are deemed unfit for human habitation; and if he will make a statement. [156217]

**Mr. Spellar:** The information is not available in the precise format requested as the Northern Ireland Housing Executive does not draw a distinction between void and empty property. Instead the Housing Executive categorises vacant properties as:

*Lettable*

Generally short-term vacancies usually in the process of being reallocated.

*Operational voids*

Generally dwellings which are deliberately being held vacant to facilitate planned improvements or open market sale.

*Long term voids*

Generally dwellings which are difficult to let due to lack of demand and includes properties blocked up to prevent vandalism, blocked up as a result of vandalism and fire damaged dwellings.

*Pending demolition*

Houses to be demolished either because they are designated surplus to requirement or to facilitate redevelopment.

The information as at January 2004 was as follows:

| | *Number of units* |
|---|---|
| Lettable | 55 |
| Operational | 2,650 |
| Long term | 1,280 |
| Pending demolition | 1,782 |
| Total | 5,767 |

The 2001 House Condition Survey identified an estimated 3,000 Housing Executive properties which were deemed unfit for human habitation.

The Housing Executive endeavours to balance the need for letting stock as quickly as possible against operational requirements and, under the common housing selection scheme, providing its tenants with a choice in where they wish to live.

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland how many houses in the ownership of the Northern Ireland Housing Executive were *(a)* void and *(b)* empty in each of the past 12 months; what the average time was that the properties remained unallocated to tenants; and if he will make a statement. [156218]

**Mr. Spellar:** The Housing Executive does not draw a distinction between void and empty property. The following table sets out the number of vacant Housing Executive dwellings for the 12 month period February 2003 to January 2004.

| Month | Lettable[1] | Operational[2] | Long term[3] | Undergoing redevelopment/ pending demolition[4] | Total |
|---|---|---|---|---|---|
| February 2003 | 65 | 2,674 | 1,280 | 2,233 | 6,252 |
| March 2003 | 63 | 2,667 | 1,232 | 2,306 | 6,268 |
| April 2003 | 116 | 2,701 | 1,331 | 2,309 | 6,457 |
| May 2003 | 96 | 2,689 | 1,295 | 2,326 | 6,406 |
| June 2003 | 95 | 2,659 | 1,316 | 2,345 | 6,415 |
| July 2003 | 98 | 2,685 | 1,305 | 2,315 | 6,403 |
| August 2003 | 90 | 2,747 | 1,277 | 2,246 | 6,360 |
| September 2003 | 56 | 2,678 | 1,200 | 2,107 | 6,041 |
| October 2003 | 91 | 2,807 | 1,251 | 2,079 | 6,228 |
| November 2003 | 76 | 2,714 | 1,231 | 1,863 | 5,884 |
| December 2003 | 102 | 2,691 | 1,286 | 1,841 | 5,920 |
| January 2004 | 55 | 2,650 | 1,280 | 1,782 | 5,767 |

[1] Lettable—generally short-term vacancies usually in the process of being re-allocated.
[2] Operational voids—generally dwellings which are deliberately being held vacant to facilitate planned improvements or open market sale.
[3] Long term voids—generally dwellings which are difficult to let due to lack of demand and includes properties blocked up to prevent vandalism, blocked up as a result of vandalism and fire damaged dwellings.
[4] Pending demolition—houses to be demolished either because they are designated surplus to requirement or to facilitate redevelopment.

The information for the last 12 months regarding the time these properties remain unoccupied is not routinely kept but is complied from time to time for special exercises. This information was last complied for the 2001–02 financial year and shows the times as follows:

Lettable voids—10.8 days (95 per cent. of all lettable stock are allocated in two weeks).

Operational voids—89.7 days.

Long term voids—111.7 days.

As part of the management of its housing stock the Housing Executive must balance the need for letting stock as quickly as possible against operational requirements and, under the common housing selection scheme, providing its tenants with a choice in where they wish to live.

### Local Management of Schools

**Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland what plans he has to revise the formula for funding Local Management of Schools. [156968]

**Jane Kennedy:** The current arrangements for the funding of schools are being reviewed in the context of developing a Common Funding Scheme.

### New Hospitals

**Mr. Jon Owen Jones:** To ask the Secretary of State for Northern Ireland what the *(a)* value and *(b)* number of new hospitals built in Northern Ireland is in the last five years for which records are available. [156958]

**Angela Smith:** One new hospital, the Causeway Hospital, has been built in the past five years. The Causeway Hospital was completed in 2001 at a cost of some £52 million, including equipment.

### Obesity

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the percentage of *(a)* adults and *(b)* children in Northern Ireland that were obese in each of the last three years. [156117]

**Angela Smith:** The 1997 Northern Ireland Health and Social Wellbeing Survey provides the most recent estimate of obesity in adults aged 16+. This survey found that 17 per cent. of men and 20 per cent. of women (19 per cent. overall) were obese.

There is no estimate available on obesity levels in children.

### Organs Inquiry Line

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether the *(a)* Organs Inquiry Line and *(b)* Relatives Reference Group will close in November 2004. [154624]

**Angela Smith:** The Department's Human Organs Inquiry Line was launched in November 2002 in compliance with the recommendations of the Human Organs Inquiry, which the then Minister had accepted in full. In a leaflet issued to all householders last year the public were asked to note

"that this telephone enquiry line and your opportunity to reclaim organs and tissue samples currently in storage will no longer be available after November 2004."

This remains the position.

The Relatives' Reference Group was established by the then Minister in March 2001 at the same time as the Human Organs Inquiry. Its Terms of Reference were reviewed in July 2002 and its life extended for two years to assist with the implementation of the recommendations of the Human Organs Inquiry. In order to ensure that this role, which includes support for relatives who use the Enquiry Line, is maintained, it is anticipated that the work of the Group will also conclude at the end of 2004.

### Royal Group of Hospitals and Queens University

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on the disclosure of uncollated retentions on 23 January by the Royal Group of Hospitals and Queens University. [154622]

**Angela Smith:** In May 2003 the Department's Chief Medical Officer issued guidance to all hospitals and universities on the use of human organs and tissue, which gave specific instructions about record keeping

and archives. It has since been brought to the attention of the Department that the details of tissue blocks and slides relating to 310 cases at Queen's University and the Royal Hospitals had not been included on their main reference lists, although their existence had been disclosed. These lists are used to advise relatives whether any material has been retained from post mortem examinations.

This matter has been investigated very thoroughly and it is clear that no whole organs are involved and that no new blocks and slides have come to light that were not known about before. The problem was due to administrative error rather than any attempt to conceal information.

Details of the 310 cases have been checked against all inquiries received by both the institutions involved and the departmental telephone inquiry line. In only two cases did blocks and slides relate to families that had previously made inquiries. Both families have been advised of the additional information. The error is deeply regretted and both institutions have apologised to the families concerned for any distress caused.

New procedures have been, and continue to be, developed and the Human Tissue Bill now before Parliament includes a rigorous system of inspection and regulation. It is considered that this is an isolated episode which should not recur, but the Department has written to all hospital trusts and universities to draw their attention to this matter.

### Special Needs Education

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what the Department of Education's policy is on support and funding for the special needs education of young people who have been statemented. [156167]

**Jane Kennedy:** The Code of Practice on the Identification and Assessment of Special Educational Needs, issued by the Department in 1998, gives detailed practical guidance to schools and Education and Library Boards (ELBs) on how to identify, assess and, where appropriate, statement children with special educational needs.

Each Education and Library Board is responsible for Statements of Special Educational Needs for pupils resident in its area. The Board will meet the costs associated with the educational provision in Statements for pupils in maintained and controlled (including controlled integrated) schools. The cost of educational provision outlined in Statements for children in grant—maintained integrated (GMI) schools and voluntary grammar schools is met by the Department, because it has direct funding responsibility for these schools.

### State Benefits

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many people were in receipt of state benefits in Northern Ireland at 1 February, broken down by benefit. [156941]

**Mr. Spellar:** The information requested for 1 February 2004 is not available. The most up to date information is shown in the following table.

*Benefit statistics*

| *Benefit type* | *Date* | *Number of recipients* |
|---|---|---|
| Income Support | August 2003 | 181,580 |
| Job Seeker's Allowance | August 2003 | 33,795 |
| Incapacity Benefit | August 2003 | 72,208 |
| Attendance Allowance | November 2003 | 65,404 |
| Disability Living Allowance | November 2003 | 155,295 |
| Carers Allowance | November 2003 | 38,967 |
| Carers Allowance | November 2003 | 38,967 |
| Housing Benefit | August 2003 | 126,814 |
| Retirement Pension | March 2003 | 248,564 |
| Widow's Benefit | March 2003 | 6,003 |
| Bereavement Benefit | March 2003 | 1,350 |

### Vehicle Certificates

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland how many and what proportion of vehicles being used on roads in Northern Ireland do not have a valid test certificate; and if he will make a statement. [156524]

**Angela Smith:** The Driver and Vehicle Testing Agency carried out a survey in May 2003 using data from the 2002 analysis of vehicle excise duty evasion. The survey indicated that 28.4 per cent. of eligible vehicles did not have valid MOT certificates at the date of sighting. It was estimated that this equated to 150,000 vehicles.

The Agency is developing a range of measures to increase MOT compliance. These include the implementation in January 2004 of a new telephone booking service, to make it easier for customers to book and pay for tests; the introduction from March 2004 of MOT reminders; the introduction of internet booking by December 2004; and the use of MOT discs, which are now being issued to motorists for display on car windscreens and which will become mandatory in 2005.

### Vehicle Testing

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland what the cost of the vehicle testing service in Northern Ireland was in the last year for which figures are available; and how much of the cost was offset by the receipt of fees. [156530]

**Angela Smith:** The cost of providing the vehicle testing service in Northern Ireland in the 2002–03 financial year was £13.4 million. These costs were offset in full from test fee income.

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland what the average waiting time for an appointment for a vehicle test in Northern Ireland was in the last year for which figures are available; and if he will make a statement. [156531]

**Angela Smith:** The average waiting time for an appointment in 2002–03, the last full year for which figures are available, was 20 days against a target of 21 days.

The average waiting time is currently 18 days, against the same target. However, the average waiting time for the current year to date is 30 days. This reflects the fact that the Driver and Vehicle Testing Agency experienced a period of high demand earlier in the year, caused

partly by measures aimed at reducing the level of motor tax evasion, at a time when it was undergoing a rolling programme of test centre closures for the installation of new equipment.

It is unlikely that that waiting time target for the year as a whole will be met. However, waiting times are now well within target and I expect this positive position to be maintained.

**Andrew Mackinlay:** To ask the Secretary of State for Northern Ireland if he will privatise vehicle testing in Northern Ireland in line with the practice elsewhere in the United Kingdom. [156532]

**Angela Smith:** Vehicle tests are carried out exclusively in Northern Ireland by the Driver and Vehicle Testing Agency of the Department of the Environment. There are no arrangements to allow private garages in Northern Ireland to carry out MOT tests on private cars, as is the practice in Great Britain.

Following the recent programme to refurbish and re-equip the Agency's 15 test centres, under a private finance initiative contract, and completion of a project to introduce telephone booking, the Agency has restored its previously high levels of performance and customer service.

I believe these arrangements best suit the circumstances in Northern Ireland and at present I have no plans to review them.

### Waste Paper Recycling

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland whether all Government Departments in Northern Ireland are contributing to the waste paper recycling contract with SCL Waste Services Ltd.; and how much paper was recycled under this contract in *(a)* 2001–02 and *(b)* 2002–03. [156164]

**Mr. Pearson:** All Government Departments utilise the current waste paper disposal contract with SCL Waste Services Ltd. The term "waste paper" covers all paper products including newspapers, magazines, pamphlets and file covers. The volumes of waste paper recycled under this contract were:

| | *Tonnes* |
|---|---|
| 2001–02 | 1,076 |
| 2002–03 | 1,143 |

## TREASURY

### Compliance Performance Targets

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the answer of 26 January 2004, *Official Report*, column 110W, on compliance performance targets, how much of the £4.25 billion to £4.75 billion compliance forecast for the Inland Revenue for 1998–99 referred to in the Inland Revenue Annual Report for that year was founded upon the anticipated performance of *(a)* the Large Business Office and *(b)* International Division; and what the equivalent planning figures were for each year since 1997–98. [156617]

**Dawn Primarolo:** The information requested is not available.

### Cancer

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer how many cancer deaths there were *(a)* in 2003 and *(b)* in 1974 from (i) breast cancer, (ii) testicular cancer, (iii) bowel cancer, (iv) Hodgkin's disease and (v) all cancers. [157383]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mrs. Iris Robinson, dated 1 March 2004:*

As National Statistician I have been asked to reply to your recent question asking how many cancer deaths there were in *(a)* 2003 and *(b)* 1974 from (i) breast cancer, (ii) testicular cancer, (iii) bowel cancer, (iv) Hodgkin's disease and (v) all cancers. (157383)

The latest year for which data are available is 2002. The figures requested are shown in the table below for 1974 and 2002.

*Number of deaths from various cancers[1], England and Wales, 1974 and 2002[2]*

| | *1974* | *2002* |
|---|---|---|
| Breast cancer | 11,319 | 11,557 |
| Testicular cancer | 239 | 60 |
| Bowel cancer | 16,678 | 14,544 |
| Hodgkin's disease | 748 | 251 |
| All cancer | 121,397 | 136,777 |

[1] Cause of death was defined using the International Classification of Diseases, Eighth Revision (ICD-8) for 1974, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2002. The codes used are listed below:
Breast cancer: ICD-8 174; ICD-10 C50
Testicular cancer: ICD-8 186; ICD-10 C62
Bowel cancer: ICD-8 152–154; ICD-10 C17-C21
Hodgkin's disease: ICD-8 201; ICD-10 C81
All cancer—ICD-8 140–207; ICD-10 C00-C97.
Figures coded to different revisions of the ICD are not completely comparable.
[2] Figures are based on deaths registered in 1974 and deaths occurring in 2002.

Cancer trends in Northern Ireland are monitored by the Northern Ireland Cancer Registry whose website address is: http://www.qub.ac.uk/nicr/intro.htm

### Counterfeiting

**Mr. Evans:** To ask the Chancellor of the Exchequer how many people have been arrested for producing counterfeit £1 coins. [156985]

**Ruth Kelly:** This is a matter for the law enforcement agencies and not for the Treasury or the Royal Mint. However, the National Criminal Intelligence Service (NCIS) has recently informed us that 63 persons were arrested for counterfeit coin possession and production in England and Wales since 1997.

**Mr. Evans:** To ask the Chancellor of the Exchequer what additional security measures are being considered for new batches of £1 coins to tackle problems of counterfeit coins. [156986]

**Ruth Kelly:** The only effective option would be to introduce a new £1 coin. However, at present, given the very low incidence of counterfeit £1 coins by international monetary standards, it would not present a good value for money case to replace the existing coin.

**Mr. Evans:** To ask the Chancellor of the Exchequer whether his Department has identified the source or sources of counterfeit £1 coins. [156987]

**Ruth Kelly:** This is a matter for the law enforcement agencies and not for the Treasury or the Royal Mint.

**Mr. Evans:** To ask the Chancellor of the Exchequer what advice he has given to businesses to help them identify counterfeit £1 coins. [156988]

**Ruth Kelly:** As far as HM Treasury and the Royal Mint are aware, there is no evidence to suggest that businesses would benefit from Government advice on how to identify counterfeits.

**Mr. Evans:** To ask the Chancellor of the Exchequer what steps are being taken to reduce the number of counterfeit £1 coins in circulation. [156989]

**Ruth Kelly:** The only effective action HM Treasury and the Royal Mint could take is to replace the £1 coin. Any level of counterfeiting must be a matter of concern but, given the Royal Mint's recent estimate of the incidence of £1 counterfeit coins to be less than 1 per cent. and anecdotal evidence from cash handlers suggesting a figure even less than this, this is considered to be well within the level generally tolerated by monetary authorities across the world and does not provide a value for money case for replacing the £1 coin.

**Mr. Evans:** To ask the Chancellor of the Exchequer what his latest estimate is of the number of counterfeit £1 coins in circulation in the UK. [156990]

**Ruth Kelly:** The Royal Mint conducts annual surveys to establish the incidence of £1 counterfeit coins. The most recent survey in December 2003 indicated a counterfeit rate of just under 1 per cent.—almost identical to the previous year's results. Anecdotal evidence from cash handlers suggests that the real level of counterfeits may be substantially lower.

### Employment (Lancashire)

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many people are *(a)* employed and *(b)* self employed in (i) Lancashire and (ii) Chorley; and what percentage are sole traders. [157091]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Lindsay Hoyle, dated 1 March 2004:*

As National Statistician, I have been asked to reply to your Parliamentary Question about employment and self-employment. (157091)

The attached table gives estimates of the number of people employed and self- employed and the percentage of self-employed people who are sole traders in Lancashire and Chorley. Estimates are taken from the ONS Labour Force Survey (LFS), for the three month period ending November 2003.

As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

*Number of employed and self employed people[1], and percentages of self-employed people who are sole traders[2] in Lancashire and Chorley: September to November 2003*

| | *Lancashire* | *Chorley* |
|---|---|---|
| All people in employment[3] | 564,000 | 47,000 |
| *Of these, number who are:* | | |
| Employees | 491,000 | 39,000 |
| Self employed | 69,000 | [4] |
| Sole traders[2] | 45,000 | [4] |
| Sole traders as a percentage of self-employed | 64.7 | [4] |

[1] People aged 16 and over
[2] Self employed with no employees.
[3] Includes employees, the self employed, unpaid family workers and people on Government employment and training programmes
[4] Sample size too small for reliable estimate
*Source:*
ONS-Labour Force Survey (Estimates are not seasonally adjusted and have not been interim-adjusted to reflect 2001 Census results)

### Environmental Taxation

**Norman Baker:** To ask the Chancellor of the Exchequer if he will ensure that *(a)* financial and *(b)* fiscal (i) incentives and (ii) disincentives for waste management encourage delivery of the Government's waste hierarchy. [156344]

**John Healey:** Through the use of the landfill tax, spending programmes, regulation and other economic instruments such as the landfill allowance trading scheme, the Government incentivises efforts to minimise the amount of waste generated and encourage sustainable waste disposal and waste management techniques.

**Norman Baker:** To ask the Chancellor of the Exchequer what recent assessment he has made of the environmental benefits that would be derived from a tax on incineration; and if he will make a statement. [156345]

**John Healey:** The Government have commissioned a review of the evidence of health and environmental effects of different waste management options, and the case for economic instruments for waste management will be considered in light of this review.

### European Constitution (UK Budget Abatement)

**Mr. Spring:** To ask the Chancellor of the Exchequer under what procedure in Article I-53(4) of the draft Constitution for Europe the UK budget abatement would be determined. [157100]

**Ruth Kelly:** Article I-53(4) of the draft Constitution covers the modalities of the Own Resources system that determines how the European Union budget is to be financed. The draft text provides for any new Own Resources Decision to be determined by qualified majority voting in the Council and consent of the European Parliament. The Government made clear in the White Paper on the Constitutional Treaty [Cm 5934] that it will insist on preserving arrangements which ensure that revenues remain a matter for member states, and decisions on them subject to unanimity and national ratification.

### Excise Revenue

**Mr. Chope:** To ask the Chancellor of the Exchequer what the yield in excise revenue from ready-to-drink products was in *(a)* 2001–02 and *(b)* 2002–03; and what the estimated yield is for (i) 2003–04 and (ii) 2004–05. [157602]

**John Healey:** Excise revenue from wine-based ready-to-drink products can be found in the HM Customs and Excise Annual Report and Accounts 2002–03 (HC52), and is shown in the following table.

*Excise revenue from wine based ready-to-drink (RTD) products*

*£ million*

| | *Wine-based RTDs* | *Spirits-based RTDs* |
|---|---|---|
| 2001–02 | 236 | |
| 2002–03 | 67 | not available |

Until 27 April 2002 duty was levied on ready-to-drink products at the 'made wine coolers' rate. Since 28 April 2002 most ready-to-drink products have been taxed at the spirits (per litre of alcohol) rate. Revenue data are not separately available and are incorporated within the total for 'other spirits'. Information on the estimated yield for 2003–04 and 2004–05 ready-to-drink products is not available. The estimated yield for ready-to-drink products is incorporated in forecasts for wine and spirits that are published annually in the pre-Budget Report and the Financial Statement and Budget Report.

### International Finance Facility

**Tony Baldry:** To ask the Chancellor of the Exchequer if he will list the countries which have indicated support for the International Finance Facility; and which of these countries he expects to attend the Paris Conference in April. [157561]

**Stephen Hesford:** To ask the Chancellor of the Exchequer what recent discussions he has had with international finance ministers on the International Finance Facility. [158128]

**John Healey:** At the Dubai Annual Meetings of the World Bank and the International Monetary Fund (IMF) in September 2003, the International Finance Facility (IFF) proposal received wide support from the international community. The World Bank and IMF were mandated to work on aid effectiveness, aid absorption and financing mechanisms including the IFF, and to report back at the Spring and Annual meetings this year.

At the meeting of G7 Finance Ministers at Boca Raton, Florida last month, Ministers reaffirmed their commitment to help countries achieve the Millennium Development Goals through work on aid effectiveness, aid absorption and financing mechanisms including the International Finance Facility (IFF). This meeting built on the Annual Meetings of the World Bank and the International Monetary Fund (IMF) in Dubai in September 2003, where the World Bank and the IMF were mandated to do work on the IFF proposal, and to report back at the Spring and Annual meetings this year. In the same month the Commonwealth Finance Ministers welcomed further work on the IFF initiative.

The Dubai meetings also called for consultation of emerging markets and developing countries on the IFF proposal. As part of this consultation process, Francis Mer, the French Finance Minister, and the Chancellor of the Exchequer will jointly host a Ministerial Conference on Financing for Development in Paris on 8 April. This conference will bring together Finance and International Development Ministers from over 60 emerging market, developing and donor countries to discuss the case for increased aid and the IFF. Invitations have been issued to members of OECD/DAC, the G20, the IMF Committee and World Bank Development Committee, as well as countries acceding to the ED and representatives from Africa and the Asia-Europe meeting (ASEM). Representatives from multilateral agencies, NGOs and academics have also been invited.

Discussion of the IFF proposal will continue at the Spring Meetings of the World Bank and the IMF, where the Chancellor will chair the IMF Committee.

### Large Business Office

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the answer of 12 February 2004, *Official Report*, column 1556W on the Large Business Office, when *(a)* Sir Nicholas Montagu KCB, *(b)* Mr. David Hartnett CB, *(c)* Mr. Steve Heminsley and *(d)* Mr. John Yard were informed of the audit performed by the Inland Revenue's internal auditors upon the accuracy of the reported compliance data of the Large Business Office for 2001–02. [156616]

**Dawn Primarolo:** The normal procedures for informing IR senior management of issues were followed.

The Deputy Chairman responsible for the Large Business Office was informed at the commissioning of the audit in April 2002. She was advised over progress in her monthly meetings with the Director and in the relevant quarterly narratives made by the Director during 2002.

### Liquefied Petroleum Gas

**Bob Spink:** To ask the Chancellor of the Exchequer (1) what the grounds were for changing his policy on the level of support for liquefied petroleum gas; and if he will make a statement; [157165]

(2) what taxation policies he plans to bridge the time gap between the current subsidy of green road fuels and future development of compressed natural gas and hydrogen; [157166]

(3) what policies he is considering to address fuel poverty *(a)* in remote and rural areas and *(b)* for disabled drivers who use liquefied petroleum gas; [157167]

(4) if he will make it his policy to compensate people who have converted their vehicles to run on liquefied petroleum gas for the removal of taxation support for liquefied petroleum gas. [157451]

**John Healey:** In the last pre-Budget report (Cm6042) the Chancellor of the Exchequer announced an Alternative Fuels Framework, which sets out the rationale for Government support for alternative fuels, and places environmental benefits at its core. In recognition of the importance to investors of providing

long-term certainty in the market, the framework includes an unprecedented commitment to a three-year rolling guarantee on the fuel duty differentials for all alternative fuels.

The UK offers the biggest duty incentive for road fuel gases, including liquefied petroleum gas, in Europe. This incentive cost the Exchequer £75 million in duty forgone in 2002–03 alone. The Government also give valuable support to this sector through grants for vehicle conversions (the Powershift scheme), reduced rates of vehicle excise duty for gas powered vehicles, and company car tax reliefs.

Fuel duty rates are being considered as part of the Budget process, taking account of all relevant economic, social and environmental factors including the likely impacts on different population groups.

### Lung Cancer

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer what the five year survival rate for lung cancer was *(a)* in each year between 1993 and 1996 and *(b)* in the most recent period for which figures are available. [156380]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mrs. Iris Robinson, dated 1 March 2004:*

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning five years survival rate for lung cancer *(a)* in each year between 1993 and 1996 and *(b)* in the most recent period for which figures are available. (156380)

Figures for the UK as a whole are not available. Figures are available for each of the component countries of the UK, but these are not directly comparable because of differences in coverage and other reasons.

The latest available lung cancer survival figures for adult patients in England and Wales, diagnosed during 1991–99 and followed up to 31 December 2001, are given in the table below. Survival figures are not published by single year of diagnosis.

*Five-year age-standardised relative survival rates (percentage) for adult patients (aged 15 to 99 years) diagnosed with lung cancer during 1991–95 and 1996–99, England and Wales*

| | *1991–95* | | *1996–99*[1] | |
|---|---|---|---|---|
| | *Number of patients*[2] | *Survival (percentage)* | *Number of patients*[2] | *Survival (percentage)* |
| Men | 95,903 | 5.2 | 67,862 | 5.8 |
| Women | 48,151 | 5.4 | 39,455 | 6.4 |

[1] Five years' potential follow-up was only available for those diagnosed in 1996, but the most up-to-date estimates for shorter-term survival probabilities were used for patients diagnosed in later years (complete analysis).

[2] Eligible patients included in the survival analysis; criteria for excluding records, for example where the registration is of a second (different) primary cancer, are given in Health Statistics Quarterly 2000; 6: 71–80. http://www.statistics.gov.uk/downloads/theme_health/HSQ6Book.pdf

*Source:*
Office for National Statistics.

Figures for Northern Ireland are published in 'Fitzpatrick DA, Gavin AT. Survival of Cancer Patients in Northern Ireland 1993–1996. Belfast: Northern Ireland Cancer Registry, 2001' and are available on the Northern Ireland Cancer Registry website: http://www.qub.ac.uk/nicr/intro.htm

### N2 + 2 Consultation Document

**Mr. Tyrie:** To ask the Chancellor of the Exchequer when he intends to publish his consultative document on N2 + 2. [157398]

**Ruth Kelly:** My written statement to Parliament of 4 November 2003 on the two year review of the Financial Services and Markets Act 2000 said that the Treasury would consult publicly on proposals for legislative change. We have issued two public consultation documents: on 26 January 2004 "Informal capital raising and high net worth and sophisticated investors: a consultation document on proposed changes to the Financial Promotion Order", and on 27 February 2004 "Financial Services and Markets Act two year review: changes to secondary legislation".

### Office for National Statistics

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will list the buildings owned by the Office for National Statistics, broken down by *(a)* purpose and *(b)* value; and if he will make a statement. [156762]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. David Laws, dated 1 March 2004:*

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning the buildings owned by the Office for National Statistics (ONS), broken down by *(a)* purpose and *(b)* value.

The value and purpose of Office for National Statistics (ONS) buildings are as follows:

*£ million*

| *Site* | *Purpose* | *Building value* | *Land value* |
|---|---|---|---|
| Southport, Merseyside | Office | 3.166 | 1.071 |
| Christchurch, Dorset | Store | 1.323 | 0.811 |
| Titchfield, Hampshire | Office | 5.658 | 1.946 |
| Newport, South Wales | Office | 7.408 | 3.268 |

*Note:*
These building were valued in 2000 by GVA Grimly, a firm providing estates and valuation services, in accordance with established professional standards. These valuations are adjusted annually using Treasury indices, and are shown for the Financial Year 2002–04.

Data for the buildings occupied in London by ONS at Drummond Gate and Bessborough Tower, Pimlico and the Family Records Centre, Islington are not included in this table as they are leased, and not owned by the ONS.

Refurbishment works carried out by ONS on its leased properties in Pimlico were capitalised, and their written-down value at 31 March 2003 was £22.946 million. The value of these works is not shown in the above table, but was included in an estimate of the total value of ONS buildings given in answers to a previous Written Question on this subject (*Official Report*, 22 January 2003, column 417W).

The General Register Office (GRO) is part of ONS, and is responsible for the registration of births, marriages and deaths in England and Wales. It operates from the ONS sites in Southport, Merseyside and Islington, London.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of spending on the Office for National Statistics for each year from 1997–98 to 2005–06; and if he will make a statement. [156763]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. David Laws, dated 1 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning spending on the Office for National Statistics for each year from 1997–98 to 2005–06. I am replying in his absence.

The requested information is shown in the attached table. The figures shown include expenditure on the General Register Office, part of the Office for National Statistics, which is responsible for administering the system for registering births, marriages and deaths in England and Wales.

*Expenditure on the Office for National Statistics, 1997–98 to 2005–06*

| *Financial year* | *Expenditure (£ million)* |
|---|---|
| 1997–98 | 97.8 |
| 1998–99 | 101.6 |
| 1999–2000 | 108.4 |
| 2000–01 | 154.7 |
| 2001–02 | 209.9 |
| 2002–03 | 147.5 |
| 2003–04[1] | 155.0 |
| 2004–05[1] | 177.0 |
| 2005–06[1] | 191.0 |

[1] Figures for 2003–04 onwards are for planned expenditure, as published in Table 1 of the ONS Spring 2003 Departmental Report (Cm 5931)

*Notes:*

1. Expenditure is calculated as the total of the net resource budget and the capital budget.
2. Figures from 1998–99 to 2002–03 include additional provision for planning, fieldwork and initial processing of the 2001 Census of Population in England and Wales. The period of peak expenditure on the Census occurred between 2000 and 2002.
3. Figures from 2003–04 onwards include additional provision from the government Spending Review settlement of 2002, for ONS to invest in a programme of modernisation to enhance our systems and processes. A total of £75 million has been provided for this purpose over the three years from 2003–04.

### Primates

**Mark Tami:** To ask the Chancellor of the Exchequer how many primates were imported illegally and seized by customs in each of the last five years. [156552]

**John Healey:** The table lists seizures of live primates for the calendar years 1998–2002, the last five complete years for which figures are available.

| | *Number seized* |
|---|---|
| 1998 | 1 |
| 1999 | 12 |
| 2000 | 3 |
| 2001 | 0 |
| 2002 | 0 |

### Private Finance Initiative

**Mr. Jon Owen Jones:** To ask the Chancellor of the Exchequer what the *(a)* value and *(b)* number of all Private Finance Initiative and Public Private Partnership projects for which contracts have been signed is in (i) each of the regions of England, (ii) Scotland, (iii) Northern Ireland and (iv) Wales. [156964]

**Mr. Boateng:** A full list of PFI projects signed up to July 2003 is available from the PFI statistics section of the HM Treasury website at: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm.

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many *(a)* public finance initiative and *(b)* public private partnership projects have been rejected in each of the last three years, broken down by *(c)* value and *(d)* project type. [157694]

**Mr. Boateng:** Information on potential PFI and PPP projects that have been rejected by public bodies is not held centrally. Information on the value and type of PFI and PPP projects rejected by public bodies in each of the last three years could be obtained only at disproportionate cost.

### Profitability

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer how many businesses are sampled to calculate figures for The Profitability of UK Companies; and what proportion of these have a turnover of *(a)* less than £1 million, *(b)* £1–20 million, *(c)* £20–50 million, *(d)* £50–100 million and *(e)* more than £100 million. [157219]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Stephen O'Brien, dated 1 March 2004:*

The National Statistician has been asked to reply to your Parliamentary Question on how many businesses are sampled to calculate figures for The Profitability of UK Companies; and what proportion of these have a turnover of: *(a)* less than £1 million; *(b)* £1–20 million; *(c)* £20–50 million; *(d)* £50–100 million and *(e)* more than £100 million. I am replying in his absence. (157219)

The data published in the First Release 'Profitability of UK Companies' is from annual benchmark data based on tax returns provided by the Inland Revenue two years in arrears. Growth rates derived from the Quarterly Profit Inquiry are then applied to this data with the results reported in the above release.

The number of companies sampled for the Quarterly Profits Inquiry for the fourth quarter of 2003 was 1,607. Of these for the year 2002:

5.8 per cent. had a turnover of less than £1 million;

35.5 per cent. had a turnover of between £1 million and £19,999,999;

11.3 per cent. had a turnover of between £20 million and £49,999,999;

8.9 per cent. had a turnover of between £50 million and £99,999,999;

38.5 per cent. had a turnover of over £100 million.

The sample selection for the Quarterly Profit Inquiry is based on number of employees and normally consists of between sixteen hundred and seventeen hundred companies. Respondents are not asked to supply data on turnover for the Quarterly Profits Inquiry but information on this can be obtained from the Inter Departmental Business Register.

### Rebated Fuel Use Fraud

**Adam Price:** To ask the Chancellor of the Exchequer what the estimated cost was to the Treasury of fraudulent rebated fuel use in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [156997]

**John Healey:** I refer the hon. Gentleman to the answer I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 13 January 2004, *Official Report*, column 635W.

### Retirement Age

**Mr. Laws:** To ask the Chancellor of the Exchequer what estimate he has made of the cost savings to public funds from increasing the normal retirement age to 65 for all recipients of public sector pensions; and if he will make a statement. [156578]

**Mr. Boateng:** It is too early to provide an estimate of the overall effects of work to review and modernise the benefit structure of public service pension schemes, of which the pension age is one strand.

### Small/Medium Sized Businesses

**Mrs. Humble:** To ask the Chancellor of the Exchequer what percentage of those in employment work in small and medium sized businesses. [157502]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mrs. Joan Humble, dated 1 March 2004:*

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning what percentage of those in employment work in small and medium sized businesses. (157502)

The latest available information is published in the National Statistics bulletin "Small and Medium Enterprise Statistics in the UK for 2002" which shows that 47.6% of those in employment work in small and medium businesses. A small business is one with fewer than 50 employees and a medium business has 50–249 employees.

The bulletin is available free of change on the following website: http://www.sbs.gov.uk/content/statistics/tablessmestats.pdf

### Stamp Duty

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of abolishing stamp duty on share transactions. [157574]

**Ruth Kelly:** The 2003 pre-Budget forecast of revenue from duty on transactions in shares, and hence the direct yield cost of abolition, is £3.3 billion for 2004–05. This estimate makes no allowance for the effect on other taxes arising from the wider impact abolition may have on the economy.

### Tax Credits

**Mr. Webb:** To ask the Chancellor of the Exchequer pursuant to the letter of 2 December 2003 from the Paymaster General to the hon. Member for Northavon, on tax credits compensation, if he will list the *(a)* compensation claims submitted and *(b)* compensation payments made. [147990]

**Dawn Primarolo:** At 27 February, approximately 7,200 claims for compensation had been upheld. This represents about one twelfth of a per cent. of all claims received for tax credit awards. Approximately 255 claims had been considered and not upheld by that date.

### Whisky Industry

**John Thurso:** To ask the Chancellor of the Exchequer what meetings he had with representatives of the Scottish whisky industry in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004; and what plans he has to meet them in the future. [156770]

**John Healey:** Treasury Ministers meet a wide range of organisations, companies and individuals, including representatives of the Scottish whisky industry, as part of the process of policy development and analysis. As with previous Administrations, it is not the Government's practice to provide details of all such meetings. All such contacts are conducted in accordance with the Ministerial Code.

## WORK AND PENSIONS

### Age Discrimination

**Linda Perham:** To ask the Secretary of State for Work and Pensions what steps he plans to take to reduce age discrimination in the workplace in the next two years. [156080]

**Malcolm Wicks:** The Government are committed to tackling age discrimination in employment, extending opportunities for older workers and to introducing age discrimination legislation in 2006. The Government are assessing the responses to the consultation last year on proposals for the age legislation and will consult from this spring on draft age regulations covering employment and vocational training. The legislation will be in place, but not implemented, by the end of 2004, to give employers and individuals about two years to prepare before the legislation comes into force on 1 October 2006. Over the coming year, we will prepare further practical guidance for employers on adopting age positive practices and flexible approaches to retirement.

In the meantime our Age Positive campaign is encouraging employers to adopt non-ageist employment practices now. Through Age Positive, we are promoting the business benefits of an age diverse workforce by encouraging employers to adopt the voluntary Code of Practice: 'Age' Diversity at Work, A Practical Guide For Business, which was first developed in 1998 and updated in 2002. Over 750,000 copies of the Age Positive Code have been issued to employers and individuals and it is available on the Age Positive website www.agepositive.gov.uk, which has 75,000 visits per month.

The Age Positive campaign is widely promoted to employers and individuals through advertising, the website and press features in national, local and specialist publications and at exhibitions and workshops for employers. Age Positive awards help to further publicise the achievements of businesses and individuals who conquer age prejudice.

Age Positive also works closely with organisations such the Federation of Small Businesses, Employers Forum on Age, Institute of Directors, TUC, CBI and Age Concern.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how much his Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154074]

**Maria Eagle:** Between the years 1997–98 and 2003–04, the predominant expenditure was the introduction of the new Department for Work and Pensions brand in 2001. The cost relating to this has been:

(a) consultancy: £244,792

(b) design of new stationery: £10,369[1]

(c) costs of generating web elements: £52,643

(d) other items featuring the new logo (such as the design of signage) was: £11,663[2]

[1] The new brand was added to most other items, such as forms and stationery, during their normal updating process with existing stocks used up prior to issue.

[2] Signage changes for offices were made in accordance with the expectations of a machinery of government change.

### Pension Funds

**Mr. Miller:** To ask the Secretary of State for Work and Pensions (1) if he will list the pension funds that have been wound-up leaving inadequate resources to cover pension liabilities since Royal Assent to the Pensions Act 1996; [157839]

(2) which pension fund for which he has records was the first to go into wind-up with inadequate funds to meet its liabilities. [157840]

**Malcolm Wicks:** We are unable to provide this information. The only source of information on winding up schemes is the Pensions Schemes Registry which is administered by the Occupational Pension Schemes Regulatory Authority (OPRA). The information on windups on this database is limited and does not contain data on schemes assets and liabilities.

### Poverty

**Simon Hughes:** To ask the Secretary of State for Work and Pensions how many children in each London borough were reported to be living in poverty in each year since 1995. [157280]

**Mr. Pond:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for City of York (Hugh Bayley) on 8 January 2004, *Official Report*, column 462W.

## HEALTH

### Allergy

**Keith Vaz:** To ask the Secretary of State for Health which NHS hospitals have special allergy units to deal with more severe cases of allergy. [156247]

**Dr. Ladyman:** The British Society for Allergy and Clinical Immunology (BSACI) and the British Allergy Foundation (BAF) compiled a list of National Health Service allergy clinics in 2000 which are NHS consultant-led and based at NHS hospitals throughout the United Kingdom. The subsequent BSACI handbook, "National Health Service Allergy Clinics", published in 2001, lists 86 such clinics. There were an additional 15 clinics run by NHS consultants, who were non BSACI members, identified by the BAF.

Six of these 101 clinics offer services led by a whole-time specialist allergist. These are based in London (Guy's hospital, Royal Brompton hospital and St. Mary's hospital), Cambridge, Southampton and Leicester. These centres have expertise in all types of allergic disease, including the complex problems, and provide a comprehensive high-quality allergy service with a multidisciplinary approach.

### Asbestos (Drinking Water)

**Mr. Ben Chapman:** To ask the Secretary of State for Health what assessment he has made of the health impact of asbestos in drinking water. [155787]

**Miss Melanie Johnson:** The Guidelines for Drinking Water Quality published in 1993 by the World Health Organization (the WHO Guidelines) concluded that:

> "There is . . . no consistent evidence that ingested asbestos is hazardous to health and thus it was concluded that there was no need to establish a health-based guideline value for asbestos in drinking-water."

Asbestos released from drinking-water to air does not appear to contribute significantly to exposure to inhaled asbestos, and the WHO Guidelines noted that the fibres which are released are of a form which is considered to pose little health risk.

### Benzodiazepines

**Mr. Burstow:** To ask the Secretary of State for Health what quantity of each *(a)* benzodiazepine and *(b)* antidepressant was prescribed by doctors in England in each of the last five years. [155156]

**Ms Rosie Winterton:** Information on the number of prescription items of benzodiazepines and antidepressants that were dispensed in the community in England since 1998 has been placed in the Library.

**Mr. Grogan:** To ask the Secretary of State for Health if he will make a statement on his policy on the prescription of benzodiazepines. [155788]

**Ms Rosie Winterton:** Decisions about prescribing are the responsibility of the doctor, taking account of the patient's symptoms, the evidence base and national guidance.

Guidance based on the advice issued by the Committee on Safety of Medicines in 1988 has been made available to all health authorities in the "Guidelines for the Prevention and Treatment of Benzodiazepine Dependence" (Mental Health Foundation, 1994). Further guidance for prescribers is incorporated in the "Drug Misuse and Dependence—Guidelines on Clinical Management" (1999) and the "British National Formulary" (biannual).

The Department is planning to introduce instalment dispensing of benzodiazepines to minimise access to excessive doses.

### Cosmetic Surgery

**Mr. Yeo:** To ask the Secretary of State for Health what plans his Department has to conduct a review of cosmetic surgery practice across England. [152572]

**Dr. John Reid:** Ministers announced in early 2002 that there would be a review of the effectiveness of the national minimum standards for the qualifications of cosmetic surgeons in England who were not on the specialist register of the General Medical Council and had been in practice before 1 April 2002.

In July 2003 the National Care Standards Commission (NCSC) submitted to the Chief Medical Officer an anonymised report on the inspections of 22 small cosmetic surgery practices in Inner London, and is in the process of preparing a more comprehensive report on all inspections carried out of cosmetic surgery practices in England. On receipt of this report the Department will consider, in consultation with relevant stakeholders, whether the standards are robust enough to ensure the quality of treatment.

The London report can be found on the NCSC website at www.carestandards.org.uk.

### Dementia

**Mrs. Iris Robinson:** To ask the Secretary of State for Health what proportion of dementia sufferers were diagnosed before the age of 65. [156378]

**Dr. Ladyman:** There is no routine collection of information on the numbers of people diagnosed with dementia. The research quoted by the older people's national service framework in 2001 estimated that approximately 600,000 people in the United Kingdom have dementia, of whom there are about 17,000 people under the age of 65.

### Dentists

**Bob Spink:** To ask the Secretary of State for Health if he will collect information on the proportion of newly qualified dentists who go into *(a)* NHS and *(b)* private practice after training. [152440]

**Ms Rosie Winterton:** Newly qualified dentists intending to work in National Health Service general dental practice have first to undergo one year's vocational training. The great majority of dentists wish to take advantage of vocational training to enhance their clinical and administrative competence. Of the remainder, some dentists take posts in hospital dental departments, some decide to postpone or abandon a career in dentistry and others go directly into dental practices which only accept private patients. We monitor the proportion of newly qualified dentists who do not undertake vocational training.

### Departmental Buildings

**Mr. Laws:** To ask the Secretary of State for Health if he will list the buildings owned by his Department; what the latest estimated value of each building is; and if he will make a statement. [156700]

**Ms Rosie Winterton:** The estimated current value of the Department's administrative estate is approximately £65 million. The estate comprises the following freehold properties as shown in the table.

*£ million*

| *Building* | *Valuation* | |
|---|---|---|
| | *Land* | *Buildings* |
| 85 Whitehall | 0.99 | 1.75 |

### Glenfield Hospital

**Mr. Burstow:** To ask the Secretary of State for Health how many in-patient beds have been available in England for patients with *(a)* mental health conditions and *(b)* learning disabilities in each year since 1997, broken down by (i) NHS region and (ii) strategic health authority. [154006]

**Ms Rosie Winterton:** The number of in-patient beds for patients with mental health conditions or with a learning disability are collected annually from each national health service trust and published at http://www.performance.doh.gov.uk/hospitalactivity/. Prior to 2000–01 this information was also published in "Bed Availability and Occupancy", copies of which are available in the Library.

Aggregations are included relevant to the NHS organisational structures in place at the time. It is not possible to aggregate these statistics to organisational structures that did not exist at the time. For the period 1997–98 to 2001–02 figures for available beds in the mental health and learning disabilities sectors for each NHS region are shown in table 1 and table 2. For 2002–03 figures for each strategic health authority are shown in table 3.

*Table 1: Average daily number of available beds, mental health sector, 1997–98 to 2001–02*

| | *England* | *Northern and Yorkshire* | *Trent* | *West Midland* | *North West* | *Eastern* | *London* | *South East* | *South West* |
|---|---|---|---|---|---|---|---|---|---|
| 1997–98 | 36,601 | 5,222 | 3,780 | 3,243 | 5,030 | 3,460 | 7,300 | 5,160 | 3,406 |

### Flexible Working (Costs)

**Mr. Andrew Turner:** To ask the Secretary of State for Health what assessment has been made of the cost to NHS trusts of changes to *(a)* maternity leave, *(b)* paid paternity and adoption leave and *(c)* the right of parents of young children to apply to work flexibly which took effect in April 2003. [156061]

**Mr. Hutton** *[holding answer 27 February 2004]:* This information is not held centrally.

### Group B Streptococcus

**Mr. Hancock:** To ask the Secretary of State for Health what steps he is taking to ensure that the Green Top Guidelines, from the Royal College of Obstetricians and Gynaecologists *(a)* reach all parts of maternity care services and *(b)* will be used to inform each hospital's protocol for preventing group B streptococcus infection in newborn babies; what resources have been allocated to dissemination and education; and if he will make a statement. [156557]

**Dr. Ladyman:** The Royal College of Obstetricians and Gynaecologists (RCOG) published its clinical guidelines on the Prevention of Early Onset Neonatal Group B Streptococcal Disease in November 2003. The RCOG clinical guidelines are recommendations for good practice and exist to help patients and their healthcare team make the right decisions about health care. The guidelines are developed by teams of healthcare professionals, patients and scientists who look at the best evidence about care for a particular condition.

The Government supports the publication of the guidelines as they will inform local protocol and assist clinicians and patients in making decisions about the appropriate treatment for preventing group B streptococcus infection in newborn babies.

Resources for dissemination and education are not provided centrally.

**Mr. Hancock:** To ask the Secretary of State for Health what measures he uses to ensure that high quality information about group B streptococcus is given to all pregnant women as a routine part of their antenatal care. [156558]

**Dr. Ladyman:** "The Pregnancy Book", which is given to all first time mothers in the antenatal period is currently being revised to include information about group B streptococcus and contact details of the Group B Strep Support Group.

We also encourage all women who have any questions or concerns during their pregnancy to speak with their midwife or other health care professionals responsible for their care.

### Health Ombudsman's Report (Long-term Care)

**Mr. Burns:** To ask the Secretary of State for Health (1) when he expects all the cases of people suspected of wrongly paying for their long-term care following the Health Ombudsman's report on the subject will be *(a)* reviewed and *(b)* resolved; and if he will make a statement; [156337]

(2) how many cases have been reviewed so far following the Health Ombudsman's report suggesting that a number of elderly and disabled people may have wrongly paid for their long-term care; of these, how many wrong assessments have been discovered; what action *(a)* has been and *(b)* is to be taken to rectify the wrong assessment cases; and if he will make a statement; [156338]

(3) what deadlines have been set for the review of long-term care following the Health Ombudsman's report suggesting that a number of elderly and disabled people may have wrongly paid for their long-term care; and if he will make a statement on the progress of the review. [156339]

**Dr. Ladyman:** The deadline for the completion of investigations into care wrongly denied is the end of March 2004. Strategic health authorities are expected to have completed their investigations by then. Figures detailing the number of investigations completed and the number of cases granted recompense will be available after the deadline, once the data has been validated.

### Hospital Readmissions

**Bob Spink:** To ask the Secretary of State for Health what the level of readmission to hospital following discharge was for each of the last five years; and if he will make a statement. [157163]

**Dr. Ladyman:** Readmission rates for the last three years, using the indicator definition for the 2003 performance ratings, are shown in the table. Earlier information is not available.

*Readmission rates in Acute Trusts, England 2000–02: Emergency readmission to hospital following discharge (adults aged 16 or over)*

| | *Readmission rate (standardised percentage)* |
|---|---|
| 2000 | 5.38 |
| 2001 | 5.49 |
| 2002 | 5.53 |

### Lupus

**Sarah Teather:** To ask the Secretary of State for Health what estimate he has made of the number of people in England who have lupus (SLE). [156105]

**Dr. Ladyman:** This information is not held centrally. However, Lupus UK estimates there may be around 40,000 people with lupus in the United Kingdom.

### Malcolm Pointon

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 10 February 2004, *Official Report*, column 1410W, on free personal care, what the basis is for the statement that the impact of the Health Service Ombudsman decision in the case of Malcolm Pointon is included in the estimates of the cost of free personal care which were calculated in advance of the Ombudsman's decision. [156693]

**Dr. Ladyman:** The answer of 10 February 2004, *Official Report*, column 1410W, stated that the decision in the case of Malcolm Pointon is a decision on an individual case and as such has no bearing on national estimates of the cost of free personal care. Therefore, there would be no impact on the estimated costs.

### Mental Health

**Mr. Denham:** To ask the Secretary of State for Health (1) how many carers of people with mental illness have received *(a)* a written assessment and *(b)* a written copy of the care plan of the person they care for, broken down by mental health trust; [154825]

(2) what steps he has taken to *(a)* publicise the rights of mental health carers to an assessment of their own needs and *(b)* inform local carers' groups of the allocation of the carers grant; and if he will make a statement. [154826]

**Ms Rosie Winterton:** The national service framework (NSF) for mental health provides rationale and evidence base for a national standard for mental health services relating to carers of people with mental health problems.

In accordance with the NSF for mental health standard six, all individuals who provide regular and substantial care for a person on the care programme approach should have an assessment of their caring, physical and mental health needs repeated on at least an annual basis. People who provide regular and substantial care for a person on the care programme approach are also entitled to have their own written care plan which is given to them and implemented in discussion with them.

The importance of support for carers was further emphasised in the "NHS Plan (2000)" and in the "Priorities and Planning Framework 2003–06" issued to local services.

Information about the number of carers with a written assessment and the number of carers with a copy of the care plan of the person they care for is not collected centrally.

The care co-ordinator under the care programme approach should inform users and carers of the carer's right to request an assessment and ensure co-ordination of users' and carers' assessment plans. The Department and the mental health charity Rethink also published a booklet entitled "A Commitment to Carers" which highlights the right to a carer's assessment.

Local councils are notified annually of their allocations of the carers grant in the local authority social services letter. Details are also published on the Department of Health carers website at www.carers.gov.uk.

**Keith Vaz:** To ask the Secretary of State for Health whether staff working in mental institutions in NHS hospitals *(a)* complete diversity training before they start their employment and *(b)* undergo regular diversity training. [155602]

**Ms Rosie Winterton:** The Race Relations (Amendment) Act 2000 makes it clear that local services must deliver appropriate training to staff. We reinforce this message in our consultation document "Delivering Race Equality: A Framework for Action."

The National Institute of Mental Health in England's national workforce programme is developing a set of shared capabilities that all staff should possess as part of their education and training. One of these is to respect diversity and to provide care and interventions in ways that respect and value diversities including age, race, culture, disability, spirituality, gender and sexuality.

**Tim Loughton:** To ask the Secretary of State for Health what guidance has been issued by his Department to mental health trusts regarding control and restraint policies towards patients; and which mental health trusts have adopted these new procedures. [155629]

**Ms Rosie Winterton:** To assist trusts, in February 2004, the National Institute for Mental Health in England (NIMHE) issued "Developing Positive Practice to Support the Safe and Therapeutic Management of Aggression and Violence in Mental Health In-patient Settings".

The NIMHE will be developing proposals for a national accreditation and regulation scheme for trainers and programmes of education and training.

The National Institute for Clinical Excellence will also be publishing guidance later this year relating to management of violence.

For those detained under section of the Mental Health Act 1983, trusts should follow the guidance laid out in the Mental Health Act 1983 Code of Practice.

Section 19.12 of the Code of Practice states that:

"Any restraint used should:

be reasonable in the circumstance;

apply the minimum force necessary to prevent harm to the patient or others;

be used for only as long as is necessary;

be sensitive to gender and race issues."

Trusts should regularly audit their control and restraint procedures consistent with the framework of clinical governance. The management of trust performance is the responsibility of strategic health authorities. Information is not captured centrally about this. However, the Mental Health Act Commission reviews the operations of the Mental Health Act and copies of the commission's biennial report are available from the Stationery Office.

**Mr. Burstow:** To ask the Secretary of State for Health what plans his Department has to reorganise mental health trusts; and if he will make a statement. [154444]

**Ms Rosie Winterton:** The Department has no plans to reorganise mental health trusts.

### Organ Donors

**Mr. Carmichael:** To ask the Secretary of State for Health what estimate the Government have made of the proportion of people who *(a)* carried organ donor cards and *(b)* were on the organ donor register in each of the last five years. [156619]

**Ms Rosie Winterton:** A public attitude research study, commissioned in 2003 by UK Transplant, found that 36 per cent., of people had, or thought they had, an organ donor card. The research was limited to England.

Not all donor card holders register on the National Health Service organ donor register. Of the total United Kingdom population, the proportion registered at year end over the last five years is as shown in the table.

| *Year end* | *Percentage of population* |
|---|---|
| 1999 | 11.9 |
| 2000 | 14.0 |
| 2001 | 15.3 |
| 2002 | 17.1 |
| 2003 | 18.6 |

### Personal Care Costs

**Mr. Burstow:** To ask the Secretary of State for Health what the administration costs to *(a)* primary care trusts and *(b)* local authorities were of operating systems for (A) establishing eligibility for free nursing care and (B) means testing for personal care in the last year for which figures are available; and if he will estimate what savings could be made in these costs if personal care was made free for the elderly. [156290]

**Dr. Ladyman:** This information is not available centrally. Administrative cost savings resulting from the introduction of a system of free personal care for the elderly would be marginal, as primary care trusts and local councils would still need to assess the needs of

individuals and make payments to care providers. Where accommodation is provided, residents of care homes would still require a test of their means.

### Restructuring/Change Programme

**Mr. David Hinchliffe:** To ask the Secretary of State for Health what the current resources allocations are for *(a)* social care, *(b)* preventive health and education and *(c)* public health; and how they will change as a result of the departmental reorganisation. [153685]

**Ms Rosie Winterton:** Before the departmental reorganisation, there were 652 whole-time equivalent (WTE) staff working in the social care field (including children, older people, mental health and prison health services) within the Department. Post re-organisation, there will be 140 WTE staff representing the target number of posts planned for the new care services directorate within the Department. The figure also takes into account work transferring to other Government departments or agencies and an expected reduction of 94 WTE posts.

The departmental reorganisation will see 418 WTE posts associated with social care transfer to the National Health Service, the National Institute for Mental Health in England (NIMHE), the Department for Constitutional Affairs (in respect to the Mental Health Tribunal and the Care Standards Tribunal), the Commission for Social Care Inspection and the Department for Education and Skills (in respect to services for children).

Before the departmental reorganisation, there were 314 WTE staff working in the public health field (including preventative health and education services) within the Department. Post re-organisation, there will be 250 WTE staff, who will work both within the newly created health improvement directorate in the Department and in public health posts planned in each of the nine regional public health areas. The post re-organisation staffing figure already takes into account the planned transfer of nine WTE posts to the Department for Education and Skills (in respect to teenage pregnancy services), and an expected reduction of 64 WTE posts.

### Sexual Health

**Mr. Burstow:** To ask the Secretary of State for Health how many teenagers were treated for sexually transmitted diseases in England in each of the last 10 years, broken down by *(a)* NHS region and *(b)* strategic health authority. [154144]

**Miss Melanie Johnson:** The number of teenagers treated for sexually transmitted diseases in genitourinary medicine (GUM) clinics in England from 1995 to 2002 inclusive, by National Health Service region and strategic health authority are shown in the table.

Data refer to attenders at genitourinary medicine clinics aged less than 20 years with one or more of the following diagnoses: infectious syphilis, uncomplicated gonorrhoea, uncomplicated chlamydial infection, genital herpes (first attack) and genital warts (first attack).

| | *1995* | *1996* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* |

## Winter Deaths

**Dr. Murrison:** To ask the Secretary of State for Health what progress has been made in reducing avoidable winter deaths in the elderly. [153821]

**Dr. Ladyman:** There are four main strands to the efforts nationally to reduce avoidable winter deaths:

Immunisation of older people against influenza and pneumococcal disease

Increasing awareness among older people of the risks of cold weather, and the benefits and other help available to keep homes warm

The national Fuel Poverty Strategy

Improving our ability to link the forecasting of cold weather with measures designed to prevent people from becoming ill, as well as to improve the ability of the health service to plan for surges in demand, especially for hospital admission.

A target for flu vaccination in those aged 65 and over has been set since the change in policy in 2000–01.

In 2000–01 the target was 60 per cent., in 2001–02 65 per cent, and in 2002–03 and 2003–04 70 per cent. Uptake achieved has been 65 per cent., 68 per cent., 69 per cent, and 71 per cent, respectively.

This year's result is an excellent achievement and exceeds our target of 70 per cent, set at the start of the campaign.

The number of people aged 65 and over receiving their flu immunisation this year was 5,781,440—over 295,000 more people than last year.

The Joint Committee on Vaccination and Immunisation (JCVI) has recommended extending pneumococcal immunisation to all aged 65 years and over.

The new policy is to offer immunisation with pneumococcal polysaccharide vaccine to all people aged 65 years and over. However, we are introducing the policy in stages. To start with, people aged 80 and over, who are most at risk from pneumococcal disease, will be offered the vaccine in 2003–04. They will be followed by all those aged 75 and over in 2004–05. By 2005–06 all those aged 65 and over should routinely be offered pneumococcal vaccine.

People under these ages who are at higher risk from pneumococcal disease are already recommended to receive the vaccine. This includes people who have a heart condition, chronic lung disease, diabetes mellitus, a weakened immune system due to disease or treatment, a damaged spleen or no spleen.

We will be collecting data on the number of people receiving their pneumococcal vaccination, but this will not be available until after April 2004.

A Keep Warm, Keep Well campaign operates in England each winter. This provides free booklets for the public and special literature for health professionals; a telephone helpline, and advice on how those most in need may apply for grants (such as the Warm Front grant—a scheme providing grant for comprehensive packages of insulation and heating improvements for those on low incomes most vulnerable to cold-related ill health); advice on benefit payments; as well as the health benefits of keeping warm.

The relationship between indoor temperatures and ill health is complex, with other factors such as outside exposure and behavioural factors involved. However, the likelihood of ill health is increased by cold damp homes. Illnesses such as influenza, heart disease and strokes are all exacerbated by the cold and older people are especially vulnerable.

The Department of Health is working together with other Government Departments to reduce the number of households in fuel poverty. Good progress has already been made with the number of fuel poor households falling from approximately 5.5 million in 1996 to about 3 million in 2001 with predictions of a further reduction of 0.5 million for 2002.

Health professionals within the National Health Service have been made fully aware of fuel poverty as a potential health determinant and widely encouraged to identify and advise patients for whom cold, damp home conditions might be a health risk.

At the local level, fuel poverty is on the agenda of many health professionals in delivering fuel poverty initiatives and fuel poverty has been identified as a key priority within the Health Inequalities Programme for Action.

Her Majesty's Treasury funding was made available up to April 2003 to allow some exploratory work, led by the Met Office, to develop models to forecast workload for primary and secondary care, built in part on weather forecasting. The evaluation of this exploratory work was inconclusive. Preliminary discussions are currently underway between the NHS, the Department and the Met Office to determine next steps, and in particular whether it is possible to

refine the approaches taken to preventative interventions, targeted in time and place so as to gain maximum benefit for patients before they fall ill, and

manage NHS workload more proactively than at present, so that services, including hospitals, are better placed to manage surges in demand, particularly for hospital admission.

## CONSTITUTIONAL AFFAIRS

### Fines (Magistrates Courts)

**Mr. Oaten:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how much was collected in fines at magistrates courts in the last year for which figures are available; and what proportion was allocated to *(a)* central Treasury funds and *(b)* local crime prevention schemes. [155953]

**Mr. Leslie:** Information on fines imposed and collected is provided by the 42 Magistrates Courts Committees in England and Wales.

In 2002–03 fines income from Magistrates Courts amounted to £121,202,780 of which £43,679,000 was used to fund enforcement activity. The balance of £77,523,780 was allocated to central Treasury funds.

In 2002–03, the Home Office provided funding direct to local Crime and Disorder Reduction Partnerships in England and Wales as follows:

Communities Against Drugs—£50 million (plus a special one-off uplift of £20 million in 2002–03 as part of the street crime initiative)

The Safer Communities Initiative—£20 million.

### Judiciary (Northern Ireland)

**Lady Hermon:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many members of judicial offices in Northern Ireland are *(a)* female and *(b)* from an ethnic minority. [156976]

**Mr. Leslie:** Taking both full-time and deputy judicial posts there are 19 female members of the judiciary. This represents 16 per cent. of the overall total.

There are no members of the full-time and deputy judiciary in Northern Ireland from a minority ethnic background.

### Legal Aid

**Mr. Garnier:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how much has been paid to the Community Law Partnership of Birmingham by the Legal Services Commission and the Legal Aid Board in each of the last five accounting years for which figures are available; how many cases there were; what proportion of the sum in each year was paid to the Community Law Partnership for cases brought by or against *(a)* travellers or traveller families and *(b)* local and public authorities, broken down by authority; how many cases there were in each year; and how many of the cases funded in each year resulted in (i) a satisfied order for costs being made in favour of the client represented by the Community Law Partnership and (ii) an irrecoverable financial loss to the Legal Aid Board or the Legal Services Commission. [156529]

**Mr. Lammy:** The Community Law Partnership of Birmingham registered with the then Legal Aid Board in December 1998. Total payments made to the organisation for each full financial year since 1999–2000 were as follows.

| | £ |
|---|---|
| 1999–2000 | 233,059 |
| 2000–01 | 432,229 |
| 2001–02 | 412,452 |
| 2002–03 | 802,849 |

The number of Legal Help matters started by the Community Law Partnership of Birmingham since 2000–01, the first full year of the Legal Services Commission's contracting system, were as follows:

| | *Number* |
|---|---|
| 2000–01 | 1,340 |
| 2001–02 | 932 |
| 2002–03 | 929 |

Certificates issued to the Community Law Partnership:

| | *Number* |
|---|---|
| 1998–99 | 49 |
| 1999–2000 | 252 |
| 2000–01 | 264 |
| 2001–02 | 326 |
| 2002–03 | 331 |
| 2003–04 (to 31 December 2003) | 248 |
| Total (1998 to December 2004) | 1,470 |

For Legal Help cases, the Legal Services Commission does not record any client details which identify the client's background, or any information on the identity of whom the case was brought against.

For the number of cases funded in each year which resulted in (i) a satisfied order for costs being made in favour of the client represented by the Community Law Partnership and (ii) an irrecoverable financial loss to the Legal Aid Board or the Legal Services Commission, please refer to the following table.

| | *Cases settled at no cost to the Fund* | | *Cases closed with no recovery of costs or damages* | |
|---|---|---|---|---|
| | *Number* | *Face value (£)* | *Number* | *Net cost (£)* |
| 1998–99 | 0 | — | 1 | 2,400 |
| 1999–2000 | 27 | 108,300 | 73 | 65,300 |
| 2000–01 | 57 | 210,000 | 147 | 195,500 |
| 2001–02 | 60 | 237,300 | 152 | 227,500 |
| 2002–03 | 48 | 222,500 | 170 | 280,700 |
| 2003–04 (to December 2004) | 49 | 218,200 | 159 | 296,700 |
| Total (1998 December 2004) | 241 | 996,300 | 702 | 1,068,100 |

**Ian Lucas:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average

cost is per case for magistrates courts criminal cases in England and Wales of payments under the legal aid scheme to solicitors in private practice. [156756]

**Mr. Lammy:** I refer the hon. Member to the written answer I gave to his question on 12 February 2004, *Official Report*, column 1671W.

### Parliamentary Questions

**Mr. Brady:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for Ordinary Written Answer; and what the greatest number of days taken to answer such a Question was. [155916]

**Mr. Leslie:** On average, my Department took 6.6 sitting days to give a substantive answer to a Parliamentary Question for Ordinary Written Answer. The greatest number of days taken to answer an Ordinary Written Question was 55 sitting days.

### Recruitment Advertising

**Pete Wishart:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155521]

**Mr. Lammy:** Information about recruitment advertising costs is not held centrally and could be obtained only at disproportionate costs.

### Voting

**Mr. Keetch:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to introduce all-postal voting in trial constituencies for the next general election; and if he will make a statement. [157304]

**Mr. Leslie:** None. A Bill proposing the conduct of all-postal pilots in selected electoral regions in this year's European parliamentary elections in June is currently under parliamentary consideration. Subject to the Bill's successful passage, the independent Electoral Commission will assess those schemes which are conducted. We will consider carefully the Commission's assessment and any recommendations before considering any extension of pilot schemes to parliamentary elections.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment the Department has made of *(a)* incentive schemes and *(b)* payments to encourage voter participation. [156535]

**Mr. Leslie:** None. Any gift or promise of a gift of money, or any other 'Valuable consideration', to an elector is regarded under electoral legislation as a bribe even if the gift is made simply to encourage the elector to vote or refrain from voting. This is a basic feature of any democratic electoral system which purports to be open and fair to all electors. Paying electors or offering gifts to turn out to vote would be likely to increase the likelihood of electoral abuse and fraud.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what research the Department has collated into the propensity to vote of different social-economic groups. [156536]

**Mr. Leslie:** None. The Government are able to draw from research undertaken by the independent Electoral Commission on the voting intentions of electors for the European parliamentary and London's Mayoral and Assembly elections in 2004 in its report, 'Public Opinion and the 2004 Elections'. The Commission has also published the reports 'Voter Engagement and Young People' and 'Voter engagement among Black and Minority Ethnic Communities' on those groups in society widely recognised as less likely to vote.

## HOME DEPARTMENT

### Cheadle Royal Hospital

**Mrs. Calton:** To ask the Secretary of State for the Home Department pursuant to the Answers of 12 January 2004, *Official Report*, column 502W and 10 February, 2004 *Official Report*, column 1423W, on Cheadle Royal Hospital, (1) what assessment he has made of the full market value at the time of its transfer to AMEC in 1994 of charity land at Cheadle Royal Hospital which has become a 67 acre business park; [155606]

(2) pursuant to the Answers of 12 January 2004, *Official Report*, column 502W and 10 February 2004, *Official Report*, column 1423W, on Cheadle Royal Hospital, what assessment he has made of the full market value of Cheadle Royal Hospital grounds and associated buildings at the time of its management buy-out in 1997; [155607]

(3) pursuant to the Answers of 12 January 2004, *Official Report*, column 502W and 10 February 2004, *Official Report*, column 1423W, on Cheadle Royal Hospital, which documents he has assessed to reach his conclusions. [155609]

**Fiona Mactaggart:** These are matters for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The Director of Operations will write to the hon. Member and a copy of my reply will be placed in the Library.

**Mrs. Calton:** To ask the Secretary of State for the Home Department pursuant to the answers of 12 January 2004, *Official Report*, column 502W and 10 February 2004, *Official Report*, column 1423W, on Cheadle Royal Hospital, what assessment he has made of the scrutiny arrangements with respect to the work of the Charity Commission. [155608]

**Fiona Mactaggart:** The Commission must report annually to my right hon. Friend the Secretary of State who lays the report before Parliament. The Commission is audited by the National Audit Office, answers to the courts for its legal decisions and falls within the remit of the Public Accounts Committee. It has introduced administrative arrangements for challenge and review of

formal decisions, and complaints systems including an independent reviewer. In respect of its administrative actions it comes within the investigative powers of the Parliamentary Ombudsman.

The Cabinet Office Strategy Unit's review of charity law and regulation recommended that it should continue to operate at arms' length from Ministers, with a modernised statement of purpose and accountability framework. The Government accepted these recommendations ("Charities and Not-for-Profits: A Modern Legal Framework", July 2003) and they will be reflected in the draft Charities Bill that will be published in the current Session.

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for the Home Department what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154385]

**Paul Goggins:** I refer my hon. Friend to the answer given by my right hon. Friend the Secretary of State for Work and Pensions on 12 February, *Official Report*, column 1590W.

### Child Trafficking

**Mr. Chaytor:** To ask the Secretary of State for the Home Department (1) what resources are available under the Sexual Offences Act 2003 to promote best practice in service provision for child victims of trafficking; [152342]

(2) what resources will be made available under the Sexual Offences Act 2003 to provide centrally funded care for child victims of trafficking in the UK; and if he will make a statement. [152343]

**Paul Goggins** *[holding answer 26 February 2004]*: The Sexual Offences Act 2003 introduces offences covering trafficking for sexual exploitation, and will come into force in May 2004. No resources are available explicitly to promote best practice in service provision for child victims of trafficking. However, the Home Office has published a best practice toolkit for those who deal with illegal immigrants and the victims of trafficking. The toolkit will help those who come into contact with victims of child trafficking to identify and deal with them appropriately. The Immigration Service is also starting specialist training for around 600 operational members of staff nation-wide, which will have a positive impact on their ability to identify and assist trafficked children.

### Correctional Service

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department when the Prison Service will be meeting the Correctional Service Accreditation Panel to obtain advice on the extension of the FOR resettlement programme. [155344]

**Paul Goggins:** The Prison Service will be meeting with the Correctional Service Accreditation Panel from 15 to 19 March 2004. Decisions about the extension of the FOR (Focus on Resettlement) programme will be taken in the light of the advice provided and resourcing available.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department pursuant to his oral statement of 6 January, *Official Report*, columns 170–87, on Correctional Services, what definition he uses of contestability. [147353]

**Paul Goggins:** Contestability is the principle that best quality and best value for money in the supervision, punishment and care of offenders will be achieved through ensuring that all services are opened up to competition.

We aim to encourage the public, private, voluntary and 'not for profit' sectors to compete to provide services to offenders, both in prison and in the community, that are the most effective and efficient that can be provided. At the same time we want to encourage partnerships between different sectors to make sure that we make best use of the different strengths and qualities each can bring.

We intend to build on the successful experience of the Prison Service's market testing programme, which has demonstrated that public services can compete successfully with the private sector. We also want to maintain the impetus created by the Performance Improvement Programme which has led to dramatic improvements in regimes and cost at some of the most challenging public sector prisons.

### Crime Victims

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what assessment he has made of the suitability of trusts as a means for victims to retain their eligibility for benefits after a compensation pay-out. [155347]

**Paul Goggins:** No such assessment has been made. I would refer my hon. Friend to the answer given to her on 26 January 2004, *Official Report*, column 202W.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the evidential basis was for his decisions on the amounts to be levied on those guilty of victimless crimes to be used for compensation for victims of other crimes. [150779]

**Paul Goggins:** Few, if any crimes, are truly victimless. Many crimes perceived by some as victimless, such as drug dealing, fraud, vandalism and damage can blight the lives of people, create an unpleasant environment and impose a cost to society.

The proposed surcharge, ranging from £5 to £30, on criminal convictions and on fixed penalty notices for criminal offences is one of a series of proposals set out in the consultation paper 'Compensation and Support for Victims of Crime', published on 12 January 2004. The surcharge has been proposed at a level intended to encourage the maximum number of offenders to pay, and to be proportionate taken alongside the penalty imposed by the courts, or the fixed penalty notice.

Estimates for the rates of payment with and without enforcement are based on existing data on collection of fixed penalty notices and financial penalties imposed by the courts, and calculations that informed the Courts Act 2003.

In the consultation paper, among other questions, we specifically invited views as to whether the suggested levels of the surcharge were right.

No decisions about the surcharge proposal, or any of the other proposals, will be taken until all the responses to the consultation exercise have been carefully analysed.

### Crime/Disorder (Seaside Towns)

**Chris Ruane:** To ask the Secretary of State for the Home Department what the overall crime and disorder rates were for each ward in each principal seaside town of England and Wales in the latest month for which figures are available, listed in descending order according to level of crime and with figures for Welsh seaside towns disaggregated; and if he will make a statement. [154963]

**Ms Blears** *[holding answer 23 February 2004]:* Recorded crime statistics are collected centrally at Crime and Disorder Reduction Partnership (CDRP) level. CDRPs were set up under the Crime and Disorder Act 1998 and are broadly Local Authority Areas. They include representatives from police, health, probation and other local agencies and provide strategies for reducing crime in the area. Figures for six key offence groups are collected at CDRP level. They are violence against the person, sexual offences, robbery, burglary in a dwelling, theft of a motor vehicle, and theft from a vehicle. There are currently 376 CDRPs in England and Wales.

Financial year figures for 2001–02 and 2002–03 for all CDRP areas, for six key offence groups are, available in Excel format on the Home Office Research Development Statistics website: http://www.homeoffice.gov.uk/rds/pdfs2/hosb703sup1.xls

CDRP figures are not available on a monthly basis.

### Detention and Training Orders

**Dr. Stoate:** To ask the Secretary of State for the Home Department in what circumstances magistrates can impose a detention and training order on an offender aged 12 to 14 years who has been convicted of breaching an anti-social behaviour order. [150993]

**Paul Goggins** *[pursuant to his reply, 9 February 2004, Official Report, c. 1256W]:* It has come to my attention that the answer to the above question was not printed in full. I apologise for this and provide the full answer as follows.

A court sentencing an offender aged 12–14 for breach of an anti-social behaviour order can make a Detention and Training Order in the same circumstances as for other criminal offences attracting custody: That is, where:

it decides that the effect of the breach either in itself or in combination with associated offences, is so serious that only a custodial sentence can be justified; or

the anti-social behaviour involves a violent or sexual offence and only a custodial sentence would be adequate to protect the public from serious harm from the offender; or

the offender refuses to agree to a requirement in a proposed non-custodial order: a supervision order, a drug treatment and testing order or an order to provide a sample for drug-testing.

In addition, the court must have reached the view that the young person is a persistent offender.

### Driving Offences

**Mr. Laxton:** To ask the Secretary of State for the Home Department what assessment he has made of the laws governing the sentencing of unlicensed drivers whose driving results in a fatality; and what plans he has to change the present laws. [156317]

**Paul Goggins:** Where a fatality results from a driving incident where the driver is believed to be at fault, the CPS will charge an appropriate offence such as causing death by dangerous driving or manslaughter. On 27 February the Government increased the penalty for three fatality offences—causing death by dangerous driving; causing death by careless driving when under influence of drink or drugs; aggravated vehicle-taking where, owing to the driving, a death results—from 10 to 14 years; and the maximum for manslaughter is life.

### Elderly Prisoners

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what strategies are in place to deal with *(a)* accommodation, *(b)* healthcare and *(c)* activity for elderly prisoners. [155253]

**Paul Goggins:** The Prison Service does recognise its duty to care for older prisoners and seeks to meet all their needs, including, medical and any special accommodation requirements, according to individual circumstances. Establishments that are holding older prisoners have developed local strategies and there are a number of excellent initiatives being adopted across the estate.

### Voting Irregularities

**Mark Tami:** To ask the Secretary of State for the Home Department (1) how many convictions for abuse of postal votes in United Kingdom elections there were in each of the last five years; [156546]

(2) how many people were prosecuted for failing to comply with electoral registration requirements in each of the last five years. [156543]

**Mr. Blunkett:** Information collected centrally by the Home Office on court proceedings under the Representation of the People Act 1983 does not enable these offences to be separately identified.

### Electronic Evidence

**Mr. Oaten:** To ask the Secretary of State for the Home Department (1) what assessment he has made of the reliability of electronic evidence; [154018]

(2) what assessment he has made of systems for the sealing of electronic evidence; and what trials have taken place. [154020]

**Paul Goggins:** Assessing the reliability of evidence in whatever form is a matter for the courts. However, the Government are concerned that the public should have full confidence in the integrity of all evidence, including electronic evidence, and are determined to ensure that appropriate guidance and procedures are in place to support it. In March 2002, the Police Scientific Development Branch of the Home Office, in conjunction with the Association of Chief Police Officers (ACPO), published the guidance document, Digital Imaging Procedure. This is now in use across the criminal justice system in England and Wales.

The document sets out detailed guidance for operational, administrative, and judicial staff on the procedures that should be followed to ensure that digitally captured images can be accepted as evidence throughout the Criminal Justice System. Among other matters, the document includes guidance for audit trails to ensure the authenticity and integrity of the evidence, and how to protect the 'Master' image. The procedure does not rely on 'electronic' protection but neither does it preclude its use: as the guidance points out, there are several methods for 'electronically' authenticating an image file.

However, in the case of digital images captured by unattended roadside traffic enforcement cameras, the use of electronic protection is made mandatory by non-statutory guidance in the form of a document issued by the Police Scientific Development Branch entitled "The Speedmeter Handbook". This is because the image is the only evidence of an offence having taken place. The method of protection used is one that is based on techniques used to secure banking transactions.

ACPO have also produced a good practice guide on electronic evidence to provide advice and principles for police forces in dealing with all electronic evidence.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what plans he has to introduce electronic evidence sealing technology into *(a)* investigation of relevant crimes and *(b)* his Department's electronic communications. [154019]

**Paul Goggins:** The Government are concerned that the public should have full confidence in the integrity of all evidence adduced in criminal proceedings, including evidence in an electronic form. Unattended roadside traffic enforcement cameras are required to be of a type approved by the Secretary of State, and the digital images they capture are protected electronically. A method based on techniques used to secure banking transactions is used for this purpose.

The 'Digital Imaging Procedure', which sets out best practice guidelines for ensuring the acceptability in court of all other digital images as evidence, does not rely on electronic protection of images but neither does it preclude its use. The Association of Chief Police Officers (ACPO) has also produced a good practice guide on electronic evidence to provide advice and principles for police forces in dealing with all electronic evidence. We are determined that appropriate and effective procedures and guidance should be available to ensure the admissibility in court of other kinds of electronic evidence, and are satisfied that this is currently the case. These matters are, however, kept under constant review.

The Home Office currently has no plans to introduce electronic evidence sealing technology into its electronic communications.

### Home Detention Curfew

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what problems have been experienced with home detention curfew; and what adjustments will be made to the programme to combat them. [155343]

**Paul Goggins:** My reply of 22 January 2004, *Official Report*, column 1438W, provides details of the success of the Home Detention Curfew (HDC) scheme, which is monitored on a continual basis. I am satisfied that the scheme continues to work well.

The Government are committed to the HDC scheme but it is important to keep it under review, extending it where sensible and appropriate while keeping a proper balance in terms of public safety and confidence. On 14 January 2004 I introduced a further safeguard to ensure that public confidence in the scheme is maintained. Prisoners who have been involved in notorious crimes will not be released on HDC unless the chief executive of National Offender Management Service is satisfied that their release will not undermine public confidence in the scheme.

### Magistrates Courts

**Bob Spink:** To ask the Secretary of State for the Home Department when he expects to *(a)* revise and *(b)* reissue guidance on reporting restrictions in the magistrates' court. [153105]

**Paul Goggins:** Guidance on reporting restrictions in the Youth Court is contained in the Youth Court 2001 The Changing Culture of the Youth Court Good Practice Guide which was published jointly by the Lord Chancellors Department and the Home Office in 2001 While there are no current plans to revise or reissue this guidance it will be kept under review.

### Munby Judgment

**Mr. Dawson:** To ask the Secretary of State for the Home Department what discussions he has held following the Munby Judgment with *(a)* the Minister for Children, *(b)* local authority associations and *(c)* local authorities about the application of the Children Act 1989 to young people in custody. [154427]

**Paul Goggins** *[holding answer 11 February 2004]:* My right hon. Friend the Home Secretary and I met the Minister for Children on 27 October 2003 to discuss the report of an official working group on the application of the Children Act 1989 to young people in custody.

The working group comprised representatives of the Youth Justice Board, the Local Government Association and the Association of Directors of Social Services. The Home Office and the Department for Education and Skills had observer status. The group

met a number of times between February and August 2003 and produced its report in September. I am placing a copy in the Library.

Following the meeting on 27 October, it was agreed that the Youth Justice Board would provide an additional £1 million to fund extra social worker places at Young Offender Institutions. The new staff will be responsible for ensuring that the duties placed on local authorities by the Children Act are fulfilled.

### Nationality, Immigration and Asylum Act

**Miss McIntosh:** To ask the Secretary of State for the Home Department what recent representations he has received regarding section 55 of the Nationality, Immigration and Asylum Act 2002; and if he will make a statement. [147073]

**Beverley Hughes:** Between 1 October 2003 and 18 February 2004 60 representations have been received from hon. Members since the end of September 2003 and 21 letters from members of the public about section 55. The Refugee Council also made representations in meetings with Ministers.

Section 55 of the 2002 Act, which came into force on 8 January 2003, is one of a range of measures designed to reduce the number of asylum applications. It is reasonable to expect asylum seekers to make their claim on arrival or very shortly afterwards. Section 55 prevents the provision of support (including emergency accommodation) where the claim is not made as soon as reasonably practicable after arrival in the United Kingdom. In practice, claiming

"as soon as reasonably practicable"

normally means doing so on arrival at the port of entry or within three days of arrival, providing the story given about arrival is otherwise credible.

### Police Cells

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many police cells are being brought up to Government standards in Lancashire; how many are sub-standard but are being used; how many cells are not used by Lancashire Police; and how many are mothballed. [153506]

**Ms Blears:** The Chief Constable of Lancashire has informed me that :

One hundred and twelve cells are being brought up to Government standards;

Eighty two cells are categorised as sub-standard, not having fully met the recommendations of the Police Buildings Design Guide 1994, these are being brought up to standard but are in use;

Thirteen cells are not in use;

and thirty six cells have been mothballed.

### Prisons

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how the work of prison anti-bullying co-ordinators is monitored. [155345]

**Paul Goggins:** The designated duties of anti-bullying co-ordinators are overseen through:

Normal line management monitoring;

Monitoring by the senior management team monitoring (usually monthly and minuted) and by the anti-bullying management and/or safer prisons team;

Testing of systems by area performance co-ordinators;

The Prison Service's Standards Audit Unit vigorous testing of systems every two years; and

Self-audit testing of systems at least once every two years (often annually).

In 2002, a national review of anti-bullying work in prisons indicated that establishments had generally implemented local strategies with innovative and monitored actions being taken in many establishments.

**Charles Hendry:** To ask the Secretary of State for the Home Department what plans he has to make it compulsory for prisoners to take part in educational activities; and if he will make a statement. [155643]

**Paul Goggins** *[holding answer 23 February 2004]:* The Prison Service needs to be able to respond to and address a range of factors which contribute to offending behaviour, according to individual need. It therefore has no plans to introduce a compulsion for all prisoners to take part in learning activities. However, the majority of offenders have very poor skills which are a serious obstacle to their rehabilitation and chances of employment on release. Through increased investment, increased partnership working, and the appointment of new Heads of Learning and Skills across the prison estate, we are working towards a new service which will embed learning and skills across the range of prison activities, drive up quality and enhance continuity between opportunities in custodial and community settings.

**Charles Hendry:** To ask the Secretary of State for the Home Department what plans he has to use secure online examinations to assist prisoners in gaining qualifications. [155644]

**Paul Goggins** *[holding answer 23 February 2004]:* The Prison Service is currently piloting a secure approach to offering prisoners examinations on demand. Future rollout will be informed by the success of this pilot.

**Charles Hendry:** To ask the Secretary of State for the Home Department what proportion of the prison population has access to the internet; and what proportion of the prison population regularly uses it. [155645]

**Paul Goggins** *[holding answer 23 February 2004]:* Because of security considerations only a very small number of prisoners have limited internet access. The prison population on 13 February 2004 was 74,420. Of these, 31 prisoners have regular but restricted access to the internet as part of their employment.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what action he has taken to ensure that overcrowding in prisons does not negatively affect the healthcare available to prisoners. [155247]

**Paul Goggins:** Since 1997, 15,000 new prison places have been provided. In addition, our programme of reform of health services for prisoners will see spending on health services increase by more than £40 million a year in the three years to March 2006.

**Tim Loughton:** To ask the Secretary of State for the Home Department how many prisoners have mental health problems; and what proportion of these are from ethnic minorities. [155632]

**Paul Goggins:** In 1997, the Office for National Statistics (ONS) undertook a survey of "Psychiatric morbidity amongst prisoners in England and Wales", which reported that around 90 per cent. of prisoners sampled showed evidence of at least one of the five disorders, personality disorder, psychosis, neurosis, alcohol misuse and drug dependence. The report included a range of information on the prevalence of specific mental health problems in black and minority ethnic prisoners. A copy of the ONS study is in the Library.

Prisons and their NHS Primary Care Trust partners are responsible for assessing the health needs of their populations and developing services to meet those needs.

**Tim Loughton:** To ask the Secretary of State for the Home Department how many prisoners are being prescribed more than one type of psychotropic drug for treatment of mental illness; and what proportion of those being prescribed one or more psychotropic drug are from ethnic minorities. [155633]

**Paul Goggins:** This information is not available.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what plans he has to introduce competition into prisons through the use of private and voluntary providers. [147369]

**Paul Goggins:** We want the most cost effective custodial and community sentences possible, no matter who delivers them. We also want to encourage partnerships between public and private sector providers and the voluntary and community sectors which can harness their respective strengths.

An implementation team has been established to consider the specific details of how this will be realised. We are also seeking views on how to improve contestability and value for money within the new structure of the National Offender Management Service.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many foreign nationals were held in prisons in England and Wales on 30 June 2003, broken down by nationality; and how many foreign nationals are held in each prison in England and Wales. [156032]

**Paul Goggins:** The numbers of foreign nationals who were held in prisons in England and Wales on 30 June 2003, broken down by *(a)* nationality and *(b)* establishment, are given in the tables.

**Linda Perham:** To ask the Secretary of State for the Home Department if he will publish a demographic breakdown of the prison population. [156081]

**Paul Goggins:** The publication Prison Statistics England and Wales 2002 provides a demographic breakdown of the prison population. A copy of this publication is available in the House of Commons Library.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what assessment he has made of the size of the United Kingdom's prison population as compared to other European countries. [148887]

**Paul Goggins:** Information on comparative prison populations is contained in World Prison Population List (fifth edition), Home Office Findings No. 23, published in February 2004.

The United Kingdom's prison population rate places it above the mid-point in the world list and the highest among the countries of the European Union.

**Mr. Todd:** To ask the Secretary of State for the Home Department what provision is made for women's clothes by the Prison Service. [154864]

**Paul Goggins:** Women are generally permitted to wear their own clothes, but if there are any difficulties in obtaining them, clothing will be supplied by the Service from existing stocks or outside suppliers. In certain situations, for example outdoor work, suitable clothing will be automatically provided for the women.

**Mr. Todd:** To ask the Secretary of State for the Home Department what steps he is taking to ensure that vulnerable women discharged from prison have appropriate accommodation. [154865]

**Paul Goggins:** Housing is the major resettlement priority for women leaving prison and considerable investment has been made in housing advice projects through the custody to work programme, Prison Service Plus and other funding streams. Much of the investment has gone into local prisons so that housing needs can be assessed and acted on when women first enter custody as well as prior to their release. In addition, the Home Office is leading cross-Government work on the Women's Offending Reduction Programme to address the complex criminogenic factors that affect women's offending. The Correctional Services are also jointly contributing to the development of a National Accommodation Strategy for all offenders as part of a wider rehabilitation strategy.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what plans he has to increase the availability of *(a)* therapeutic, *(b)* counselling and *(c)* support provision for prisoners identified as being vulnerable or at risk. [155246]

**Paul Goggins:** The prison population contains a substantial number of people who have experienced negative life events, all of which are identified as significant risk factors for suicide and self-harm. These include family background and relationship problems, social disadvantage or isolation, previous sexual or physical abuse, and mental health problems. Self-harming and suicidal behaviour often pre-date custody, and may have started early in life. Studies show that 27 per cent. of men and 44 per cent. of women on remand report having attempted suicide in their lifetime; and that 90 per cent. of all prisoners have shown evidence of at least one of the following: personality disorder, psychosis, neurosis, and alcohol misuse and drug dependence.

Intervention strategies have been introduced for people who self-harm. These include counselling, support groups, and specialised psychological interventions. A network of establishments has been set up to develop interventions, facilitate evaluation and share good practice, and guidance to staff on managing people who self-harm has been circulated to establishments. A video is also being produced.

*(a) Therapeutic provision:*

A number of prisons, particularly women's, provide a range of therapeutic interventions for prisoners who self-harm. These include Dialectical Behaviour Therapy (DBT), an innovative programme developed in the USA for women diagnosed with 'borderline personality disorder' (BPD) who also self-harm or who are suicidal. The Prison Service has introduced DBT to the women's estate, starting with an initial development programme at three sites: Durham, Bullwood Hall and Holloway.

*(b) Counselling provision:*

A number of prison establishments have introduced counselling for vulnerable prisoners. At both Bullwood Hall and Holloway prisons, all prisoners who have been identified as at risk of suicide/self-harm are offered individual crisis counselling. If appropriate, they are also referred to other agencies such as the general counselling service or CRUSE, a charity working with people who are suffering from bereavement, or the prison's art therapist, Counselling, Assessment, Referral and Throughcare (CARAT) services or Chaplaincy.

*(c) Support provision:*

The F2052SH self-harm warning system identifies and reviews the particular needs of prisoners experiencing periods of distress or crisis. The pilot of a replacement system began in January 2004 at five establishments. It aims to build on the successful aspects of the existing system, but build in a greater focus on care with teams of specially trained staff assessing the level of risk that at-risk prisoners present.

Further avenues of support available across the prison estate include help with substance misuse issues, the input of healthcare professionals and/or mental health in-reach teams, helping maintain contact with family and friends, and the encouragement of self-help, for example, through education, IT or sport. There are numerous agencies and support mechanisms available to prisoners identified as at-risk, including Samaritans.

Several prisons have set up support groups for prisoners who self-harm, or are at risk of self-harming. These are usually run by staff such as Suicide Prevention Co-ordinators or Occupational Therapists. These may either be informal 'drop-in' groups, that prisoners can choose to attend for as many or few sessions as they wish, or groups which run for a specific period of time with the same set of participants.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what plans the Prison Service has to introduce *(a)* a policy, *(b)* a programme and *(c)* a target for alcohol reduction. [155249]

**Paul Goggins:** The Prison Service is currently preparing an alcohol strategy, which will be finalised in spring 2004.

A range of anti-alcohol interventions are available. Detoxification for alcohol is available on reception in all local and remand prisons; some prisons run alcohol awareness courses; Alcoholics Anonymous (AA) run services in around 50 per cent. of prisons and more intensive courses are run in nine prisons. Some offending behaviour programmes address the underlying criminogenic factors, which occur in alcohol related violent crime. Further expansion of interventions will depend on the availability of additional resources. There are no plans to introduce a target for alcohol reduction.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make an assessment of the extent of inter-prisoner violence. [155346]

**Paul Goggins:** The extent of violence in prisons is measured each year as a key performance indicator.

In April 2003, a new high level measure of violence was introduced, based on the number of reported serious assaults. This replaced the previous measure, which was based on positive adjudications for assault. All establishments are currently developing a violence reduction strategy and action plan for personal safety.

## Prisoners (Foreign Nationals)

**Mr. Stinchcombe:** To ask the Secretary of State for the Home Department how many foreign nationals committed suicide whilst in custody in England and Wales in each of the last five years. [155386]

**Paul Goggins:** The information requested with respect to prisons and immigration removal centres is provided in the following table.

| | *Number of self-inflicted deaths[1] of foreign nationals in prison custody* | *Number of self- inflicted deaths of foreign nationals in immigration removal centres* |
|---|---|---|
| 1999 | 7 | 0 |
| 2000 | 5 | 1 |
| 2001 | 5 | 0 |
| 2002 | 10 | 0 |
| 2003 | 8 | [2]1 |

[1] The Prison Service employs the term 'self-inflicted death' rather than suicide. This includes all those deaths where it appears the prisoner has acted intentionally to take his/her own life.
[2] This death occurred at HM Immigration Removal Centre Haslar, a Prison Service managed centre.

The police do not collate data centrally on the number of foreign nationals who commit suicide in their custody.

Reducing the number of self-inflicted deaths in prison establishments is an essential part of the Prison Service's decency agenda and a priority for Ministers. A three-year strategy to develop policies and practices to prevent prisoner suicide and manage self-harm started in April 2001. This is currently under review, taking into account learning from the various projects initiated over the last three years, emerging research findings and a wide consultation process. The main principles of the strategy apply across all types of prisons and to all prisoners, regardless of nationality.

All immigration removal centres are required to comply with an Operating Standard on suicide and self-harm prevention, and a range of measures is in place to address the issue. These measures include: suicide awareness and emergency first aid training for staff, active Suicide Prevention Committees operating in all centres, and systems for paying particular attention to detainees on their first night in detention or immediately prior to their removal.

The police have also undertaken a number of initiatives to prevent self-inflicted deaths in their custody. These include: custody officer training in risk assessment and management, improvements in police practice in relation to the mentally ill, an increase in the range of custody healthcare professionals, improvements in procedures to assess and document specific risks presented by those coming into custody, the use of closed circuit television in cells, and the use in some forces of life signs monitoring systems.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what measures are in place to help foreign national prisoners maintain links with their families. [155250]

**Paul Goggins:** The Prison Service places considerable importance on encouraging and assisting all prisoners to maintain meaningful contact with family and friends. All convicted prisoners have a statutory entitlement to send one letter, and unconvicted prisoners, two letters per week, at public expense. In addition to this, prisoners may send a letter at public expense in lieu of a statutory domestic visit. In addition, there are several measures which are advantageous to foreign national prisoners:

It is Prison Service policy for foreign national prisoners, or those prisoners with close family abroad, who have not received a domestic visit during the preceding month to be given credit to make a telephone call.

Such prisoners are also exempt from the limits on access to private cash for the purposes of making telephone calls.

The Prison Service has recently negotiated a contract to provide the facility for prisoners to make international calls at significantly reduced rates.

Where suitable arrangements are in place, foreign national prisoners can also apply to serve their sentences in their home countries close to their families and friends.

It is Prison Service policy, wherever possible, to make information available in different languages in order that foreign nationals are aware of entitlements.

The Prison Service has developed partnerships with voluntary organisations which provide specialist services for foreign national prisoners and their families in the UK and abroad.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how he monitors the number of foreign national prisoners who are liable to deportation. [155251]

**Beverley Hughes:** Her Majesty's prisons are instructed to notify the Immigration and Nationality Directorate (IND) of all foreign nationals sentenced to a term of imprisonment, together with their release dates once calculated.

The Prison Service is currently conducting an audit to identify all foreign nationals who are serving a term of imprisonment.

## Probation

**John McDonnell:** To ask the Secretary of State for the Home Department how many vacancies there are in the 42 probation areas in England and Wales, broken down by grade; and how many probation officers have left the service in each financial year since 2000–01. [147663]

**Paul Goggins:** The latest published information requested is as follows: The total number of vacant posts within the National Probation Service as at 30 June 2003 broken down by grade is as follows:

| *England and Wales* | *Number of vacancies (full time equivalent)* |
|---|---|
| Senior Probation Officer | 37.1 |
| Senior Practitioner | 24.3 |
| Probation Officer | 345.0 |
| Trainee Probation Officer | 58.2 |
| Probation Services Officers | 329.6 |
| Psychologists | 0.5 |
| Other Operational Staff | 20.7 |
| Total Operational Staff | 815.4 |
| Deputy Chief Officers/Directors | 2.0 |
| AGO and equivalent | 7.7 |
| Area/District Managers or equivalent | 0.6 |
| Managers—Section or Function Heads | 10.9 |
| Support Staff—Administration | 203.9 |
| Support Staff Others | 14.7 |

| England and Wales | Number of vacancies (full time equivalent) |
|---|---|
| Other Specialist Workers | 4.7 |
| Total Support Staff | 244.5 |
| Total | 1,059.9 |

I will write to my hon. Friend shortly with more up to date figures when these are available.

The number of Probation Officers who have left the service in each financial year since 2000–01 is as follows:

| | Number of leavers[1] | | |
|---|---|---|---|
| England and Wales | 2000 | 2001–02[1] | 2002–03 |
| Deputy Chief Officers | 9 | [5]7 | 3 |
| Assistant Chief Officers[2] | 17 | [5]75 | 13 |
| Senior Probation Officers | 313 | [5]148 | 78 |
| Probation Officers[3] | 593 | [5]967 | 642 |
| Probation Service Officers[4] | 290 | see note 4 below | see note 4 below |
| All other staff | 429 | [5]1,916 | 1,670 |
| Total | 1,651 | [5]3,113 | 2,406 |

[1] Figures shown in Headcount and were collected for calendar years only 1997–2000 inclusive.

[2] Includes area managers

[3] Includes senior practitioners, trainee probation officers, temporary probation officers

[4] PSOs included in other staff 2001–02 onwards

[5] Includes proportion of service that moved to Family Court Welfare in April 2001; approximately 1,200 leavers

## Public Bodies

**Keith Vaz:** To ask the Secretary of State for the Home Department who the members of the *(a)* Police Discipline Appeals Tribunal, *(b)* Police Complaints Authority; *(c)* Police Information Technology Organisation, *(d)* Prisons Board to the Prison Service and *(e)* Advisory Council on the Misuse of Drugs were on 1 January; what their term of office is in each case; and whether they are remunerated. [151813]

**Paul Goggins:** For the bodies requested the following is a list of the members on 1 January 2004; their term of office, and whether they are remunerated.

A member of a Police Authority also sits on a Police Discipline Appeals Tribunal considering an appeal under the Police (Conduct) Regulations 1999. Police Authorities are responsible for appointing such members, a list which is not held centrally. The Police Complaints Authority will be abolished on 31 March 2004 and all terms of appointment end on that date.

When announcing the creation of the National Offender Management Service in his speech to the House of Commons on 6 January 2004, my right hon. Friend the Home Secretary also announced the establishment of the National Offender Management Board. This will replace the Correctional Services Board. The Board includes a number of senior officials representing the Home Office, Department for Constitutional Affairs, Her Majesty's Treasury and No. 10. It has four non-executive members who are the only formal appointees. The Director General of the Prison Service is supported in his day to day responsibilities by the Prison Service Management Board which comprises the executive directors, the Prison Service Race Relations Adviser, the head of Prison Service Media Relations and the Board Secretary.

*Police Discipline Appeals Tribunal*

| | Term of office | Remunerated |
|---|---|---|
| Mr. Richard Merz | 5 years | Yes |
| Mr. Simon Russell Flint QG | 5 years | Yes |

## Re-offending

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will make a statement on levels of re-offending among prisoners with mental illness. [155908]

**Paul Goggins:** There is no central record of re-offending by prisoners with mental illness.

We do know that 6 per cent. of restricted patients under the Mental Health Act 1983 discharged in 1999 were reconvicted of a standard list offence within two years of discharge, and 1 per cent. of a grave offence.

Restricted patients make up about a quarter of offenders dealt with by way of a hospital disposal in lieu of a prison sentence.

Figures are not kept centrally for re-offending by unrestricted patients with hospital orders.

## Sentencing

**Mr. Oaten:** To ask the Secretary of State for the Home Department what steps he is taking to monitor differences in the sentencing of offenders from different ethnic groups in *(a)* England and Wales and *(b)* London. [155955]

**Paul Goggins:** Section 95 Criminal Justice Act 1991 requires the Home Office to publish statistics annually to help those involved in the administration of justice avoid discrimination against any persons on the grounds of race or sex or any improper grounds. The first edition of what has become a series of publications on Race and the Criminal Justice System was published in 1992 including demographic data and prison statistics.

The Home Office is monitoring sentences handed down by the Crown court in terms of the ethnicity of the person prosecuted. A similar programme of monitoring is being developed for magistrates courts. This data will be broken down into the 42 Local Criminal Justice areas (including London) and will also be available for England and Wales as a whole. It has already been published for a number of areas and will be published for other areas once it is of sufficient quality to be statistically acceptable as showing an accurate picture.

The "Ethnic Minorities in the Criminal Courts: Perceptions of Fairness and Equality of Treatment" study published by the Department of Constitutional Affairs (Hood, Shute and Seemungal 2003) concludes that although perceptions have improved since previous studies, more work is needed to eliminate perceived discrimination. The report reveals that although there is no hard research to prove this one way or another, around two thirds of the complaints about racial bias concerned perceived inequitable sentencing, with Black and Minority Ethnic defendants believing they had received a harsher sentence than would have been handed down to a similarly placed white defendant—CJS professionals e.g. lawyers had a stronger perception still. This is likely to be a contributory factor to low BME confidence in respecting the rights of defendants.

The CJS Race Unit will now work to establish whether there is any quantitative evidence of different sentencing between people in different BME and white populations while controlling for type of offence and other contributing or mitigating factors. If there is such evidence the Unit will consider actions to counter it, if not they will address the perception that there is

differential sentencing. The Unit envisages awarding the research contract in April 2004. First results are then expected Spring 2005 with completion Spring 2006.

### Sex Offenders

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what programmes are in place to rehabilitate high risk sexual offenders; and what the reconviction rate is of offenders who have completed the programmes. [155339]

**Paul Goggins:** Both Her Majesty's Prison Service and the National Probation Service provide treatment programmes to challenge attitudes and beliefs which offenders use to justify their crimes and increase their understanding of the harm caused to victims. In addition new skills are acquired by offenders to enable them to recognise and deal more appropriately with high risk situations and high risk mood states on release. Details of all the programmes are contained in the Home Office publication "The Treatment and Risk Management of Sexual Offenders in Custody and in the Community", copies of which have been placed in the Library.

This document also contains reconviction data on offenders who have completed the Prison Service programmes. Insufficient time has elapsed to collect similar data on the accredited community-based programmes.

### Shopworkers

**Helen Jones:** To ask the Secretary of State for the Home Department what recent discussions he has had on protecting shopworkers from violence; and if he will make a statement. [154658]

**Ms Blears** *[holding answer 12 February 2004]*: Any form of violence is totally unacceptable and must be dealt with accordingly. I fully understand the detrimental and damaging effect that crime against business has on the community.

My right hon. Friend, the Home Secretary attended the "National Respect for Shop Workers Day" organised by the Union of Shop, Distributive and Allied Workers' (USDAW) in September. The key aims were to demonstrate to the public that the Government, the retail industry and the retail trade union are campaigning together to tackle crime. The Government welcome the work USDAW has undertaken through its Freedom From Fear campaign to raise awareness of violence against shopworkers. The Government are tackling this issue, for example by:

Providing funding for training seminars for small retailers as part of the 15 million Small Retailers in Deprived Areas Scheme.

Holding a Business Crime forum for Small and Medium sized Enterprises (SME's) which was well represented by retailers.

Encouraging employers to manage work-related violence in the same way as any health and safety issue. The Health and Safety Executive has published general guidance to help employers tackle work-related violence, including specific guidance for the retail sector. This can be accessed via their website www.hse.gov.uk.

Anti-Social Behaviour Orders (ASBOs) can also be used to protect shopworkers from violence. The orders can prohibit persons entering specified areas such as shopping centres, or prohibit persons engaging in specified anti-social acts eg shoplifting, verbally abusing shopworkers, writing graffiti on a shop, or prohibit persons approaching specified persons. Breach of an ABSO is a criminal offence attracting a maximum sentence of five years imprisonment.

The number of people experiencing violence at work has actually fallen by 27 per cent. since 1999 according to the most recent British Crime Survey published on 27 January 2004.

## DEPUTY PRIME MINISTER

### Better Buildings Task Force

**Sue Doughty:** To ask the Deputy Prime Minister what his policy is on the appointment of representatives of the energy efficiency industry to his Better Buildings Task Force. [157025]

**Phil Hope:** Industry representation is essential for the successful delivery of the objectives of the Sustainable Buildings Task Group. That is why the Group contains representatives from the energy efficiency sector, as well as the volume house building, developer, water industry, and waste and timber sectors.

### Building Land (Havering)

**John Cryer:** To ask the Deputy Prime Minister how much Brownfield land is available for building in the London borough of Havering. [157327]

**Keith Hill:** The 2002 National Land Use Database of Previously Developed Land shows a total of 159 hectares of previously developed land that may be available for development in Havering. This includes 74 hectares of vacant or derelict land and buildings, and 85 hectares currently in use with the potential for development.

### Area-based Initiatives

**Mr. Edward Davey:** To ask the Deputy Prime Minister if he will list for each area-based initiative for which his Department is responsible the amount *(a)* originally budgeted for 2002–03, *(b)* not spent in 2002–03, *(c)* carried forward to 2003–04 and *(d)* budgeted for 2003–04. [152794]

**Yvette Cooper:** The information is as follows.

*£ million*

| *Programme* | *Original budget 2002–03* | *Not spent in 2002–03* | *C/F to 2003–04* | *Budgeted for 2003–04* |
|---|---|---|---|---|
| Coalfields | 15 | 0 | 0 | 22 |
| Community Chest | 14.98 | 0.6 | [1]— | 25 |
| European Regional Development Fund Areas | 210.1 | 25.2 | 25.2 | [2]230.5 |
| Liveability Fund | 0 | 0 | 0 | 7 |

£ million

| Programme | Original budget 2002–03 | Not spent in 2002–03 | C/F to 2003–04 | Budgeted for 2003–04 |
|---|---|---|---|---|
| Market Renewal Pathfinders | 25 | 21.1 | 21.1 | [3]61.1 |
| Neighbourhood Management | 11 | 0.3 | [1]— | 23 |
| Neighbourhood Renewal Fund | 300 | [4]— | [4]— | 400 |
| Neighbourhood Wardens/Street Wardens | 17.25 | 0.4 | [1]— | 10 |
| New Deal for Communities | 186 | 1.9 | [1]— | 265 |

[1] Allocations for both years in question are worked out annually on the basis of delivery plans from grant recipients. Where individual projects span two or more years across delivery plans these will be covered by the allocations given.
[2] This is the budget after the spring supplementary adjustments and includes EYF drawn down from prior years.
[3] This is inclusive of funds carried forward from 2002–03.
[4] There are no confirmed figures for Neighbourhood Renewal Fund expenditure in 2002–03. NRF Statements of Use are being analysed at present.

## Census (2001)

**Mr. Dismore:** To ask the Deputy Prime Minister what representations have been made to *(a)* him and *(b)* the Office for National Statistics concerning the accuracy of the 2001 Census by (i) the London borough of Barnet, (ii) Westminster city council and (iii) Manchester city council; and if he will make a statement. [156489]

**Keith Hill:** The Office of the Deputy Prime Minister has received a number of letters from Westminster city council and Manchester city council with regard to the population estimates based on the 2001 Census and has met with Manchester city council. The Office of the Deputy Prime Minister has received previous correspondence from my hon. Friend concerning the accuracy of the 2001 Census.

The Office for National Statistics has received a number of letters from Westminster city council, Manchester city council and the London borough of Barnet with regard to results of the 2001 Census, and population estimates based on these.

The Office for National Statistics are involved in studies with Westminster city council and Manchester city council, comparing the 2001 Census address lists with administrative records. These studies are not yet complete, but a provisional adjustment to the 2001 population estimate for Manchester, based on the results of the address matching project, was released in November.

## Community Projects

**Mr. Edward Davey:** To ask the Deputy Prime Minister if he will list projects funded by *(a)* Community Cohesion pathfinders, *(b)* Community Chest, *(c)* the Community Empowerment Fund and *(d)* the Community Champions Fund in each year from 2001–02 to 2005–06; what the budget was for each project in each year; how much funding his Department provided for each project in each year; and in which Government office of the region each project is located. [152914]

**Yvette Cooper:** The information is as follows.

*Community Cohesion Pathfinders (CCPs)*

The Community Cohesion Pathfinder areas (CCPs) are a joint initiative between the Home Office and the Neighbourhood Renewal Unit of the Office of the Deputy Prime Minister.

They are intended to pioneer programmes to break down barriers between the different community groups in given geographical areas. These groups may be arranged along social, ethnic, religious or even work-related lines.

CCPs are managed by the Home Office's Community Cohesion Unit. The programme is under way in the following 14 areas:

1. Bury metropolitan borough council
2. Charnwood borough council
3. East Lancashire Partnership (Lancashire county council, together with Burnley, Hyndburn, Pendle and Rossendale borough councils)
4. Kirklees metropolitan council
5. Leicester city council
6. Mansfield district council
7. Middlesbrough council
8. Peterborough city council
9. Plymouth city council
10. Rochdale metropolitan borough council
11. Sandwell metropolitan borough council
12. Stoke-on-Trent city council
13. London borough of Southwark
14. West London Alliance (London boroughs of Brent, Ealing, Hammersmith and Fulham, Harrow, Hillingdon and Hounslow).

CCP funding runs from February 2003 to September 2004. The first 13 of the above areas receive £285,000 over this 17-month period. The West London Alliance receives £570,000, which reflects its coverage of a much larger area covered than any of the other Pathfinders.

*Community Chest (CC)*

Community Chest (CC) grants are intended to support projects that encourage greater community involvement in local activities within the 88 neighbourhood renewal areas of England. Locally appointed intermediary VCS bodies promote and deliver the programme at a local level.

As information on individual projects is held at area level, a detailed list cannot be collated within the time available. Following are tables of CC funding paid by the Office of the Deputy Prime Minister to Government Offices in each of the English regions for the 2001–06 period, along with the number of projects funded.

| Region | ODPM Community Chest funding (£) | Number of Community Chest awards made |
|---|---|---|
| *Financial year 1: 2001–02* | | |
| East | 149,057 | 16 |
| East Midlands | 709,181 | 126 |
| London | 2,145,350 | 613 |
| North East | 1,513,672 | 389 |
| North West | 2,567,739 | 585 |
| South East | 264,003 | 60 |
| South West | 313,894 | 52 |
| West Midlands | 1,107,346 | 180 |
| Yorks and Humber | 1,300,516 | 203 |
| *Financial year 2: 2002–03* | | |
| East | 223,586 | 81 |
| East Midlands | 1,063,770 | 441 |
| London | 3,218,024 | 1,189 |
| North East | 2,164,318 | 947 |
| North West | 3,851,661 | 1,075 |
| South East | 396,004 | 282 |
| South West | 470,842 | 204 |
| West Midlands | 1,661,023 | 612 |
| Yorks and Humber | 1,950,773 | 1,004 |
| *Financial year 3: 2003–04—Based on financial returns to the end of the third quarter of the financial year* | | |
| East | 341,916 | 81 |
| East Midlands | 1,739,056 | 467 |
| London | 5,313,331 | 1,293 |
| North East | 3,549,043 | 1,356 |
| North West | 6,490,702 | 1,695 |
| South East | 585,151 | 172 |
| South West | 729,480 | 230 |
| West Midlands | 2,890,901 | 567 |
| Yorks and Humber | 3,360,419 | 916 |
| *Financial year 4: 2004–05—Projected number of awards* | | |
| East | 341,916 | 81 |
| East Midlands | 1,739,056 | 470 |
| London | 5,313,331 | 1,063 |
| North East | 3,549,043 | 1,200 |
| North West | 6,490,702 | 1,695 |
| South East | 585,151 | 172 |
| South West | 729,480 | 230 |
| West Midlands | 2,890,901 | 600 |
| Yorks and Humber | 3,360,419 | 920 |
| *Financial year 5: 2005–06—Projected number of awards* | | |
| East | 341,916 | 81 |
| East Midlands | 1,739,056 | 470 |
| London | 5,313,331 | 1,063 |
| North East | 3,549,043 | 1,200 |
| North East | 6,490,702 | 1,695 |
| South East | 585,151 | 172 |
| South West | 729,480 | 230 |
| West Midlands | 2,890,901 | 600 |
| Yorks and Humber | 3,360,419 | 920 |

*Note:*
Figures for 2001–03 are annual baselines, as funding was allowed to roll over to the next year during this period. All funding figures include administration costs, which are limited to no more than 10 per cent.

*Community Empowerment Fund (CEF)*

CEF is not a project-based initiative. It funds the establishment and development of an effective community and voluntary sector infrastructure, the Community Empowerment Network (CEN), in each of the 88 neighbourhood renewal areas of England. CENs allow the VCS to play an active part in LSPs. Annual budgets for each English region are provided as follows.

£

| Region | Community Empowerment Fund Budget 2001–02 | 2002–03 | 2003–04 | 2004–05 | 2005–06 |
|---|---|---|---|---|---|
| East | 228,033 | 228,033 | 228,033 | 228,033 | 228,033 |
| East Midlands | 905,245 | 905,245 | 905,245 | 905,245 | 905,245 |
| London | 2,654,485 | 2,654,485 | 2,654,485 | 2,654,485 | 2,654,485 |
| North East | 1,824,502 | 1,824,502 | 1,824,502 | 1,824,502 | 1,824,502 |
| North West | 2,967,301 | 2,967,301 | 2,967,301 | 2,967,301 | 2,967,301 |
| South East | 436,573 | 436,573 | 436,573 | 436,573 | 436,573 |
| South West | 465,082 | 465,082 | 465,082 | 465,082 | 465,082 |
| West Midlands | 1,132,771 | 1,132,771 | 1,132,771 | 1,132,771 | 1,132,771 |
| Yorks and Humber | 1,386,008 | 1,386,008 | 1,386,008 | 1,386,008 | 1,386,008 |

*Community Champions Fund (CCF)*

CCF is an initiative of the Department for Education and Skills. It provides grants to individuals nationwide, which focus on the development of learning and skills. It helps to deliver this through its two main objectives:

1. Developing the skills levels of individuals to enable them to act as leaders, animateurs and inspirational figures within the community;

2. Encouraging these individuals to improve the involvement of communities in regeneration and learning activity.

GOs deliver CCF through a number of intermediary organisations from the voluntary and community sector. The intermediaries promote and deliver the programme at a local level. As information on individual projects is held at area level, a detailed list cannot be collated within the time available. Overleaf are tables of CCF funding allocated by the DfES to Government Offices in each of the English regions for the 2001–04 period, along with the number of projects funded.

| Government office | Budget for region (£000) | Number of grants awarded |
|---|---|---|
| *Financial year 2001–02* | | |
| East of England | 246 | 135 |
| West Midlands | 347 | 215 |
| East Midlands | 261 | 158 |
| North West | 364 | 350 |
| North East | 277 | 170 |

| Government office | Budget for region (£000) | Number of grants awarded |
|---|---|---|
| Yorks and Humber | 317 | 163 |
| South West | 235 | 175 |
| South East | 267 | 137 |
| London | 486 | 189 |
| Total | 2,800,000 | 1,692 |
| *Financial year 2002–03* | | |
| East of England | 230 | 131 |
| West Midlands | 324 | 185 |
| East Midlands | 248 | 142 |
| North West | 344 | 197 |
| North East | 254 | 145 |
| Yorks and Humber | 297 | 170 |
| South West | 222 | 127 |
| South East | 242 | 138 |
| London | 464 | 265 |
| Total[1] | [1]2,625,000 | [1]1,500 |
| *Financial year 2003–04: Only mid-year figures available* | | |
| East of England | 227 | 80 |
| West Midlands | 302 | Late award panel |
| East Midlands | 233 | 40 |
| North West | 322 | 117 |
| North East | 238 | 58 |
| Yorks and Humber | 277 | 38 |
| South West | 213 | 67 |
| South East | 249 | 18 |
| London | 475 | Late award panel |
| Total[1] | [1]2,536,000 | [1]418 |

[1] In 2003–04, DfES funded a national evaluation of the Community Champions Fund. During 2002–04, an additional 1,530 "You and Your Community" awards were supported by the Community Champions Fund, which provided the matched funding element of a Millennium Commission award, delivered by the Scarman Trust.

### Comprehensive Performance Assessment

**Mr. Sanders:** To ask the Deputy Prime Minister what the total cost was including staffing, management and support, for the Comprehensive Performance Assessment process in local government in 2003 for *(a)* the Office of the Deputy Prime Minister, *(b)* the Audit Commission, *(c)* the Improvement and Development Agency, *(d)* local authorities and *(e)* other agencies. [156688]

**Phil Hope:** The information requested is as follows:

*(a)* The Comprehensive Performance Assessment (CPA) process in the Office of the Deputy Prime Minister (ODPM) in 2003 involved staff within the Office working directly on CPA, as well as a proportion of the time of staff across a wide range of other policy areas, and those at senior level, including Ministers with responsibility for local government policy. The total costs of the process will also have included a proportion of those relating to building, heating, lighting and computer equipment as well as stationery, postage and attending and arranging meetings and other events.

It is not possible to identify the overall cost of all this activity. The total cost of staff working full-time on CPA in 2003 was approximately £166,000.

*(b)* Details of the Audit Commission's costs in relation to the CPA process is an operational matter and the Office of the Deputy Prime Minister will ask the chief executive to write to the hon. Member and make a copy of that letter available in the Library of the House.

Information in relation to the cost of the CPA process to the bodies listed at *(c)*, *(d)* and *(e)* is not held centrally, and could be provided only at disproportionate cost.

### Council Tax

**Mr. Laws:** To ask the Deputy Prime Minister what his latest estimate is of the costs of *(a)* council tax administration and *(b)* council tax benefit administration; and if he will make a statement. [156595]

**Mr. Raynsford:** The Office of the Deputy Prime Minister's latest estimate based on 2003–04 Budget Estimate Returns from English local authorities is £337 million for council tax administration costs, and £235.7 million for council tax benefit administration costs. In 2003–04, council tax collection costs may include a small amount of NDR, rate (domestic and non-domestic) and community charge collection costs.

### Council Tenants

**Ms Oona King:** To ask the Deputy Prime Minister how many council tenants in each local authority in London have transferred to other properties owned by their local authority in each year since 1990; and how many moved into homes with fewer bedrooms. [156776]

**Keith Hill:** A table on the number of council tenants who have transferred to other properties owned by their local authority since 1990 by London borough has been made available in the Library of the Houses.

This table also includes information on how many have moved into homes with fewer bedrooms since 1995 by London borough. Previous to 1995 this information was not collected centrally. All information is reported by local authorities on their annual Housing Investment Programme Statistical Returns.

### Elected Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister when the consultation period on the powers of elected assemblies began; when it will end; who is eligible to make representations; how many representations have been received to date; and which *(a)* individuals and *(b)* organisations have made representations so far. [156999]

**Mr. Raynsford:** The core powers and responsibilities the Government proposes for elected regional assemblies are set out in our 2002 White Paper "Your Region, Your Choice: Revitalising the English Regions" (Cm 5511).

As my right hon. Friend the Deputy Prime Minister made clear to the House on 11 February 2004, *Official Report*, column 1496, we will be holding regional 'hearings' about the proposed powers of elected assemblies. The hearings will give people an opportunity to consider and discuss our proposals, and enable us to learn more about what people think about these issues.

There will be three hearings in each of the three northern regions over the next two months. The first hearings will be held on 4 March in Berwick and Blackburn. Details of the other hearings will be announced in due course and Members of Parliament will be notified of hearings in their region.

We are also interested in views from people who are unable to attend the hearings, and information about elected assemblies' powers will be available shortly to help inform such views. Copies of this information will also be placed in the House Library.

### Electoral Registration

**Mark Tami:** To ask the Deputy Prime Minister how much each local authority has spent on *(a)* voter registration and *(b)* promoting voter registration in each of the last five years. [156549]

**Phil Hope:** A table with data on the Net Current Expenditure on voter registration for 1998–99, 1999–2000, 2001–02 and 2002–03 has been made available in the Library of the House. Data for 2000–01 is not available as the data was not separately identified.

Data on promoting voter registration are not collected centrally, and could be provided only at disproportionate cost.

### Fire Sprinklers

**Mr. Dhanda:** To ask the Deputy Prime Minister if he will make it his policy to amend the building regulations in order to require the installation of fire sprinkler systems in new public leisure facilities. [156813]

**Phil Hope:** The Office of the Deputy Prime Minister is keen to improve fire safety by all reasonable means and sprinklers are part of a package of measures that can be used in buildings. Other measures include the installation of fire alarm and fire detection systems and the provision of compartmentation that restricts the spread of fire within buildings by means of sub-dividing it into compartments, separated from one another by walls and/or floors of fire resisting construction.

In the case of places of assembly, which would include public leisure facilities, the guidance document that supports the fire safety aspects of the Building Regulations, known as Approved Document B, already limits the size of fire compartments to a floor area no larger than 2,000 square metres in multi-storey buildings. These compartments can be increased to 4,000 square metres where sprinklers are provided.

However, the Office of the Deputy Prime Minister recently commenced a review of the fire safety aspects of the Building Regulations and we will be considering the role that sprinklers can play in all buildings, including places of assembly, and deciding whether the current thresholds in the guidance should be amended or indeed new ones introduced.

### Housing

**Ms Oona King:** To ask the Deputy Prime Minister pursuant to his Answer of 22 January 2004, *Official Report*, column 1464W, on housing, how many units built or acquired with social housing grant by *(a)* the Housing Corporation, *(b)* local authorities and *(c)* registered social landlords, without public subsidy, in each year since 1990 were (i) self-contained units and (ii) bedspaces. [156875]

**Keith Hill:** A breakdown of the number of self-contained dwellings and bedspaces is not held centrally, and could be provided only at disproportionate cost.

**Ms Oona King:** To ask the Deputy Prime Minister pursuant to his Answer of 22 January 2004, *Official Report*, column 1464W, on housing, how many units built or acquired with social housing grant by *(a)* the Housing Corporation, *(b)* local authorities and *(c)* registered social landlords, without public subsidy, in each year since 1990 were (i) social housing for rent and (ii) low cost home ownership. [156876]

**Keith Hill:** I will write to my hon. Friend with further details of the dwellings built or acquired with social housing grant by the Housing Corporation and local authorities for rent and low cost home ownership. A breakdown between social rent and low cost home ownership dwellings provided by registered social landlords without public subsidy is not held centrally, and could be provided only at disproportionate cost.

**Ms Oona King:** To ask the Deputy Prime Minister who has been commissioned to undertake the research projects into *(a)* learning the lessons from the Estate Renewal Challenge Fund, *(b)* guidance on houses in multiple occupation amenities, *(c)* the effectiveness of disabled faculties grant administration and *(d)* key worker housing; what the terms of reference are for each project; and when work on each will be completed. [156877]

**Keith Hill:** The information requested is as follows:

*(a)* Heriot-Watt University have been commissioned to undertake the research project: Learning the Lessons from Estate Renewal Challenge Fund (ERCF). The terms of reference are to assess progress on the individual ERCF schemes and identify transferable lessons from ERCF for the wider stock transfer programme as well as other housing investment and regeneration programmes. The study should complete in May 2004.

*(b)* The research on guidance on houses in multiple occupation amenities has not been taken forward.

*(c)* The Office of the Deputy Prime Minister, jointly with the Department of Health, is reviewing the Disabled Facilities Grant Programme in the context of the Spending Review 2004. The terms of reference for that review, and the scope of any research work that may need to be undertaken as part of it, are still being considered. The review will report later this year.

*(d) Key worker housing.* Heriot-Watt University have been commissioned to evaluate the Starter Homes Initiative (SHI). The study's main aims are to evaluate the effectiveness of the SHI, assess its impact, and give recommendations to improve future provision. The report is expected to be complete in October 2004.

NOP World were commissioned to explore recruitment and retention issues and housing preferences of key public sector workers. The study's main aim was to identify key public sector worker's future intentions (both employment and housing), the extent to which housing costs and the availability of suitable housing are affecting career choices and their preferences for different types of housing. The study was completed in December 2004.

**Ms Oona King:** To ask the Deputy Prime Minister if he will commission an assessment of the impact in London of Good Practice on Managing Under-occupation published by his Department in April 2001. [156775]

**Keith Hill:** The Office of the Deputy Prime Minister has only just received the data from the Survey of English Housing for the first three quarters of 2003–04 which we would like to take into assessing the impact to date of the good practice on Managing Under-occupation on social housing in London. I will write to my hon. Friend once the results of this exercise have been collated, and will make the information available in the Library of the House. In the light of this information I shall consider how best to monitor the position for the future.

**Mr. Hancock:** To ask the Deputy Prime Minister under what circumstances money from previously committed Housing Corporation grant schemes can be ringfenced for remodelled schemes. [156869]

**Keith Hill:** Grant from previous funded housing schemes may be recycled into new schemes, including remodelled schemes. Such schemes must meet the current Housing Corporation criteria for giving grant, which includes meeting regional and local priorities.

**Mr. Malins:** To ask the Deputy Prime Minister whether, after 1 May, citizens of the EU accession states *(a)* without dependent children and *(b)* with dependent children will be entitled to council housing provision in the UK; and if he will make a statement. [154040]

**Keith Hill:** Housing is a devolved matter and the Office of the Deputy Prime Minister's remit only extends to England.

From 1 May citizens of the EU accession states who do not have a right to reside here because they are not self-sufficient (that is, they do not have sufficient resources so as to avoid being a burden on the social assistance system) will not be eligible for social housing. This will apply regardless of whether they have dependent children.

Nationals from the eight Eastern European accession countries who are employed and comply with the Home Office's worker registration scheme will have an unconditional right to reside here and will be eligible for social housing. Nationals from the other Accession countries who are workers will also be eligible for social housing.

**Llew Smith:** To ask the Deputy Prime Minister what research was undertaken on problems created by summertime overheating of lightweight buildings prior to the decision to encourage registered social landlords to use factory-built houses. [156640]

**Phil Hope:** No specific research into summertime overheating of lightweight buildings was commissioned. The Government and the construction industry were aware of research reports from hotter countries of problems of overheating that can occur in houses of lightweight construction, but this was not considered to be relevant to the decision to encourage the use of modern methods of construction in England and Wales. Nevertheless, the issue of overheating for all types of buildings is being addressed in the review of the Building Regulations announced in the Energy White Paper.

**Andy King:** To ask the Deputy Prime Minister what powers he has to enforce appropriate standards in the housing departments of local authorities. [156114]

**Keith Hill:** The Local Government Act 1999 provides powers that can be exercised if my right hon. Friend the Deputy Prime Minister is satisfied that a local authority is failing to comply with part 1 of the Act. The provisions of the Act requires that services, including housing services, are:

responsive to the needs of citizens

of a high quality and cost effective; and

air and accessible to all who need them.

My right hon. Friend the Deputy Prime Minister will exercise intervention powers under section 15 of the Local Government Act and other comparable legislation only when there is clear evidence that an authority is failing either to discharge its functions adequately or failing to meet its statutory obligations. My right hon. Friend the Deputy Prime Minister's powers are wide ranging, from directing the council to prepare a plan or perform a specified function through to removing specified functions from the council and appointing a nominee to exercise them.

Comprehensive Performance Assessments are in place to help identify local authorities' strengths and weaknesses, and provide a basis for improvement planning which the duty of best value confers.

### Land Regeneration Trust

**Paddy Tipping:** To ask the Deputy Prime Minister what progress is being made towards establishing the Land Regeneration Trust. [155849]

**Keith Hill:** English Partnerships, Groundwork, the Forestry Commission and the Environment Agency have jointly submitted to the Office of the Deputy Prime Minister proposals for the establishment of a Land Restoration Trust. The purpose of the Trust would be to facilitate the remediation and management of brownfield sites that are not suitable for development, turning them into valuable new public open space and ensuring sustainable long-term management. The Office of the Deputy Prime Minister is currently discussing the detail of the plan with the partners and with other Government Departments. Hopefully it will be possible to conclude these discussions shortly.

### Land/Waste Reclamation

**Mr. Drew:** To ask the Deputy Prime Minister what discussions he has had with the Building Research Establishment on land and waste reclamations. [156386]

**Phil Hope:** The Building Research Establishment (BRE) has carried out research for the Buildings Division of the Office of the Deputy Prime Minister on protecting buildings from landfill gas. Buildings Division has also funded BRE to support widescale monitoring of research and guidance relating to contaminated land and to support the revision of British Standards relating to the waste management in buildings.

## Local Government Finance

**Mr. Hoyle:** To ask the Deputy Prime Minister what grants that fall outside the revenue support grant were awarded to local authorities in *(a)* Lancashire and *(b)* Chorley by his Department in each of the last three years. [156512]

**Mr. Raynsford:** A table made available in the Library of the House shows the grants within aggregate external finance distributed to local authorities in Lancashire in each of the last three years, except for general grant support (Revenue Support Grant and National Non Domestic Rates). For 2003–04, this information is taken from the information supplied by the local authorities to the Office on the Revenue Account (Special Grant) form, which gives details of their budgeted revenue grants. For the earlier years, this information is taken from the information supplied by councils on the Revenue Outturn (Income from Specific and Special Grants) form.

**Jim Knight:** To ask the Deputy Prime Minister what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156210]

**Mr. Raynsford:** The following table shows the grants within aggregate external finance distributed to authorities in Dorset in 2003–04, except for general grant support (Revenue Support Grant and National Non Domestic Rates). This information is taken in the main from the information supplied by the local authorities to the Office on the Revenue Account (Special Grant) form for 2003–04, which gives details of their budgeted revenue grants, although it also takes account of additional information supplied by the Department for Works and Pensions.

| Other inside | | 0 | 0 | 0 | 282 | 0 | 0 | 0 | 0 | 0 | 0 |
| Total | | 42,182 | 6,085 | 19,352 | 11,894 | 535 | 478 | 290 | 285 | 599 | 445 |

**Mr. Drew:** To ask the Deputy Prime Minister what plans he has to set up a separate formula spending settlement for waste; and what discussions he has had on this issue with the Local Government Association. [156385]

**Mr. Raynsford:** The Government have no plans to set up a separate formula spending share for waste. In the course of the review of formula grant distribution, which led to the new formulae introduced for 2003–04, the Office of the Deputy Prime Minister examined possible options in consultation with local government. Analyses undertaken demonstrated a very poor fit between expenditure levels on waste and any combination of plausible indicators.

### Local Government Reorganisation

**Mr. Jenkin:** To ask the Deputy Prime Minister what discussions he has had with local authorities in *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and Humber about how the costs of local government reorganisation will be funded. [157024]

**Mr. Raynsford:** None, but as previously explained in the answer given on 23 February 2004, *Official Report*, column 32W, the Office of the Deputy Prime Minister will be discussing the cost of reorganisation with local government in due course. A working group has been established to look at costs and the wider practical implications of reorganisation. Its first meeting will take place on 9 March. The Local Government Association is part of the group.

### Mobile Phone Masts

**John Cryer:** To ask the Deputy Prime Minister if he will make a statement about his powers to overturn decisions by the Planning Inspectorate to grant permission for mobile phone telephone masts. [157324]

**Keith Hill:** Planning Inspectors act in a quasi-judicial role, under delegated powers, for my right hon. Friend the Deputy Prime Minister. Once the Inspector issues a decision letter on behalf of my right hon. Friend the Deputy Prime Minister, that is his decision. If a party to the matter is dissatisfied, their recourse is through an appeal to the Court.

### New Deal

**Mr. Edward Davey:** To ask the Deputy Prime Minister what budgets have been allocated for *(a)* each New Deal for Communities partnership and *(b)* the New Deal for Communities in total for each financial year from 2003–04 to 2005–06, broken down by English region. [156473]

**Yvette Cooper:** The New Deal for Communities Programme has 39 NDC Partnerships and £2 billion has been committed to them over the 10 years of the NDC Programme. The 17 Round 1 Partnerships entered their delivery phase in 2000–01 and the 22 Round 2 Partnerships entered their delivery phase in 2001–02. Figures for 2003–04 to 2005–06 are tabled as follows. These figures are the budgets allocated to each NDC during the re-profiling exercise, which took place in early 2002.

The NDC budget is ring fenced and has end year flexibility, so the figures for 2004–05 onwards are estimates at this stage, and may be subject to change.

| | | *Budget* | |
|---|---|---|---|
| *NDC Partnership* | *2003–04* | *2004–05* | *2005–06* |
| West Ham and Plaistow | 10,195,000 | 7,600,000 | 6,500,000 |
| Shoreditch | 3,970,000 | 3,900,000 | 3,900,000 |
| Aylesbury | 5,500,000 | 7,800,000 | 8,500,000 |

### Non-domestic Rate Pool

**Mr. Dhanda:** To ask the Deputy Prime Minister if he will make a statement on the national non-domestic rate pool. [156822]

**Mr. Raynsford:** The non-domestic rates are a national tax on the occupation of property and the billing and collection of the rates is undertaken locally.

The rates revenue is collected on behalf of my right hon. Friend the Deputy Prime Minister who pays it into the national non-domestic rates pool. The revenue from the pool is then re-distributed to all local authorities (including county councils, Police and Fire) as part of the financial settlement to local authorities.

The amount a local billing authority receives in a distribution from the pool is not necessarily the same as the amount it contributed to the pool. Distributions from the pool are calculated on the basis of domestic population in the local authority area not on the number of business ratepayers or business rates revenue.

**Mr. Dhanda:** To ask the Deputy Prime Minister how much money was collected in 2003–04 from businesses in Gloucester in non-domestic rates; and how much of this was passed on to *(a)* Gloucester city council and *(b)* Gloucestershire county council. [156823]

**Mr. Raynsford:** A total of £129,720,708 was collected in non-domestic rates from businesses in Gloucestershire in 2003–04 of which Gloucester city council collected £34,588,861, under the national non-domestic rates allocation system, council receipts are related to population, rather than to the amount raised in their area. In the case of Gloucestershire, £3,836,122 was passed on to Gloucester city council and Gloucestershire county council received £151,436,097.

### Postal Voting

**Mark Tami:** To ask the Deputy Prime Minister how much was spent by each local authority on *(a)* postal vote registration and *(b)* advertising postal voting in each of the last five years. [156547]

**Phil Hope:** Information on expenditure by local authorities on postal vote registration and advertising postal voting is not held centrally and could be obtained only at disproportionate cost.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister what the cost was of each *(a)* advertisement, *(b)* regional visit, *(c)* publication and *(d)* media broadcast in connection with the information campaign on regional assemblies. [157026]

**Mr. Raynsford:** I refer the hon. Member to the answers given to the right hon. Member for Skipton and Ripon (Mr. Curry) on 5 January 2004, *Official Report*, column 149W and 6 January 2004, *Official Report*, column 342W.

### Social Rented Sector (London)

**Ms Oona King:** To ask the Deputy Prime Minister what estimate he has made of the number of homes in the social rented sector in London which are *(a)* one-bedroom above the bedroom standard and *(b)* two or more bedrooms above the bedroom standard. [156777]

**Keith Hill:** Using data from the Survey of English Housing for the years 1999–2000 to 2002–03, the estimated number of households in the social rented sector in London that are one bedroom above the "bedroom standard" is 170,000 (i.e. 20 per cent. of

households). The estimated number that are two or more bedrooms above the standard is 60,000 (i.e. 7 per cent.)

### Starter Home Initiative

**Simon Hughes:** To ask the Deputy Prime Minister how many key workers in *(a)* England and *(b)* London the Starter Home Initiative has helped to buy a home since the scheme was launched. [156562]

**Keith Hill:** By mid-February 2004, 7,500 key workers in England (including over 3,500 in London) had been helped to buy a home under the Starter Home Initiative.

### Tenancy Deposits

**Mr. Laurence Robertson:** To ask the Deputy Prime Minister what estimate he has made of the number of tenants who did not have their deposits returned at the end of their tenancy in each of the last three years; and if he will make a statement. [157309]

**Keith Hill:** The following table shows for the last three years for which information is available, the estimated figures for the number of tenancies where the deposit was withheld (in full or in part) unreasonably in the view of the ex-tenant. The Office of the Deputy Prime Minister has not sought to obtain the view of the landlord/agent.

*Tenancies where ex-tenant stated that deposit was unreasonably withheld: England*

| | *Thousand* |
|---|---|
| 2000–01 | 112 |
| 2001–02 | 99 |
| 2002–03 | 104 |
| Average | 105 |

As these estimates, which were derived from the Survey of English Housing, are subject to considerable sampling error no conclusion should be drawn about the trend.

Over the three-year period these retained deposits represented 21 per cent. of all completed tenancies where a deposit was paid.

**Mr. Laurence Robertson:** To ask the Deputy Prime Minister what steps he is taking to ensure that tenants receive their deposits back at the end of their tenancy; and if he will make a statement. [157310]

**Keith Hill:** I refer the hon. Member to the information given during the Standing Committee E on the afternoon of 24 February 2004, *Official Report*, columns 704–11.

## PRIME MINISTER

### IBM

**Mr. Gray:** To ask the Prime Minister pursuant to his answer of 11 February 2004, *Official Report*, column 1471W, on the Civil Service, whether he had been informed that IBM were subject to investigation by the Special Compliance Office of Inland Revenue in 1997; whether the then Cabinet Secretary's application declared that IBM UK were subject to Special Compliance Office investigation in 1997; when enquiries were made on IBM's standing of *(a)* Inland Revenue and *(b)* Customs and Excise as part of the approval process for the Cabinet Secretary's application to join IBM's UK advisory board; when the Prime Minister was informed that IBM were subject to Inland Revenue investigation; and when the former Cabinet Secretary advised the Prime Minister that he had resigned from IBM's UK advisory board. [156522]

**The Prime Minister:** I refer the hon. Member to my answer of 11 February 2004, *Official Report*, column 1471W and the answer provided by the Minister for the Cabinet Office on 2 February 2004, *Official Report*, column 713W.

In accordance with established procedures, Ministers are not informed of investigations into specific companies by either the Inland Revenue or Customs and Excise.

The then Cabinet Secretary submitted an application under the Business Appointment rules in accordance with the requirements of Chapter 4.3 of the Civil Service Management Code, a copy of which is in the Library of the House. There is no requirement on former civil servants to advise me that they have relinquished an outside appointment.

### House of Lords

**Mr. Hoyle:** To ask the Prime Minister if he will make a statement on the future of People's Peers. [157978]

**The Prime Minister:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for Thurrock (Mr. MacKinlay) on 15 January 2003, *Official Report*, column 632W.

### Iraq

**Mr. Cousins:** To ask the Prime Minister whether it is his policy to press for the return to the people of Iraq of unallocated resources in the hands of the UN Compensation Commission. [157059]

**The Prime Minister:** The United Nations Compensation Commission (UNCC) was established in 1991 to assess and pay claims in compensation for losses as a result of Iraq's illegal invasion of Kuwait in 1990. The UNCC has completed more than 98 per cent. of its claims work and it is the UK Government's position that this work should be completed.

UN Security Council Resolution 1483 (22 May 2003) decided that 5 per cent. of Iraqi oil revenues would be deposited in the UNCC fund to meet awards. This will continue unless an internationally recognised, representative Government of Iraq and the Governing Council of the UNCC decide otherwise.

**Lynne Jones:** To ask the Prime Minister what discussions he has had with President Bush on the allegation that Saddam Hussein attempted to procure uranium from Africa. [157136]

**The Prime Minister:** I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Linlithgow (Mr. Dalyell) on 15 July 2003, *Official Report*, column 174W.

**Mr. Cousins:** To ask the Prime Minister what reports he has received that Iraq assembled and tested a long range artillery shell packed with irradiated zirconium. [157577]

**The Prime Minister:** None.

**Tom Cox:** To ask the Prime Minister whether British officials have visited Saddam Hussein since his capture by the United States authorities. [158031]

**The Prime Minister:** No British officials have visited Saddam Hussein since his capture.

### Ministerial Speeches

**Keith Vaz:** To ask the Prime Minister how many speeches *(a)* the Minister without Portfolio, *(b)* the Leader of the House of Lords and *(c)* he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156142]

**The Prime Minister:** I and members of the Government make a number of speeches on a wide range of domestic and international issues including Iraq, Europe and public services. A list of all speeches by the Government is not maintained centrally.

Copies of my speeches are available on the Number 10 website.

My right hon. Friend the Minister without Portfolio and my noble and right hon. Friend, the Leader of the House of Lords have both made public speeches in this period. These are available from the Cabinet Office Press Office.

### Pakistan

**Mr. Dalyell:** To ask the Prime Minister what action has been taken by the UK Government to monitor the activities of Abdul Qadeer Khan since he was a research student with access to URENCO, with particular reference to the matters raised in the debate of 18 December 1979, *Official Report*, column 554 ff. [154969]

**The Prime Minister:** We have for many years been gathering information on the private network of suppliers of nuclear components operating across many countries and hinging on the activities of Dr. A Q Khan. The nature of this network is now well known to us and we, in co-operation with the US and other Governments have been engaged in closing down this network.

### Recruitment Advertising

**Pete Wishart:** To ask the Prime Minister what his Office's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155532]

**The Prime Minister:** The cost for advertising vacant posts in my Office: in 2001 £1,667; in 2002 £11,932; and, in 2003 it was £12,964. These were to fill vacancies in a number of units including information technology, security and the correspondence unit.

A difference in costs may occur because of the number of vacant posts advertised, the number of publications in which the advert is placed, the duration of the advert and the nature of the vacancy, for example specialist posts in information technology.

The adverts were published in a variety of media including the national, local and specialist press.

No expenditure was used for other general recruitment advertising.

### Secondments

**Mr. Cousins:** To ask the Prime Minister what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Office since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Office have been made to those firms; and for what (A) periods and (B) tasks. [156914]

**The Prime Minister:** Since 2001, no secondments have been made to or from my Office to these firms.

**Norman Baker:** To ask the Prime Minister if he will list the secondees from outside organisations working at 10 Downing Street, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment; and which are involved in drafting parliamentary answers. [158050]

**The Prime Minister:** None.

### Terrorism

**Mr. Cousins:** To ask the Prime Minister which Government departments are responsible for *(a)* information on and *(b)* preparation against the use of radiological material as a terrorist device; and what expenditure on decontamination equipment there has been in the last two years. [157056]

**The Prime Minister:** The Cabinet Office is responsible for crisis and consequence management co-ordination across central Government in the event of such a terrorist attack.

Information on and preparation against the use of radiological material by terrorists involves many Government Departments and agencies. Protective security against the use of radiological material as a terrorist device is the responsibility of the Home Office. International non-proliferation of radiological material for terrorist means is the responsibility of the Foreign and Commonwealth Office.

The other Departments and agencies that would have a role include the Department of Health; the Health Protection Agency (particularly the National Radiological Protection Board); the Ministry of Defence, the Department for the Environment, Food and Rural Affairs; the Health and Safety Executive; HM Customs and Excise; Department for Trade and Industry and the Department for Transport.

Over the past two years the Government have made available £54.4 million for investment in decontamination equipment for the Fire Service, Ambulance Service and Accident and Emergency Departments.

# Written Answers to Questions

*Tuesday 2 March 2004*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture and Fisheries Council

**Mr. Hood:** To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 24 February; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [157673]

**Margaret Beckett:** I represented the United Kingdom at a meeting of the Agriculture and Fisheries Council in Brussels on 24 February.

The Irish Presidency briefly presented its work programme for the first half of the year. Their general priorities were enlargement, simplification and enhancement of food safety.

The Council agreed by a qualified majority a regulation providing for tariff quotas for the importation of certain fishery products. Italy voted against because of its view that the quota for tuna loin imports was insufficient and Spain abstained because it felt that the quotas in general were too large. I supported the proposal.

The Council noted progress on technical level discussions preparatory to political discussion at the April Council on the proposals for a regulation on the protection of animals during transport. There was a discussion, and I supported the need for an early agreement and for a longer-term objective of moving trade in live animals for slaughter to a meat basis.

The Council noted a presentation from the Commission on its proposals for the financial perspective.

The Council noted a report from the Greek Minister about severe weather conditions in Greece affecting agriculture and the sympathetic response from the Commission. Greece and the Commission would pursue the assessment of this situation bilaterally.

The Council took note of a report from the Commission on its public hearing on 22 January on organic food and farming. This is preparatory to the tabling of an action plan by the Commission to the Council later in the Irish Presidency.

Under any other business, the Council noted a written report on BSE and reports from Commissioner Byrne on the current situation in regard to Avian Influenza in Asia and a recent outbreak in the US. Commissioner Byrne notified the Council that acting under comitology procedures the Commission was to introduce a ban on the importation of live poultry and certain products from the US. The Council also noted a report from Spain and Portugal about the high level of feed grain prices and indications from Finland and Sweden that there remained supplies of oats which could be used.

The Council also noted information from Italy and Portugal with support from other wine producing countries about recent changes which had been made to the use of traditional terms for wine imported from third countries. The Council noted that the Commission had explained that these changes were necessary to take account of recent discussions at WTO level.

The Council noted information from France about the low level of milk prices. A wide range of views were expressed in subsequent discussion. I made the point that this was to be expected as a result of the changes agreed last June which was reflected in the compensation payments to be introduced shortly. The Commission undertook to produce an analysis of the situation with assistance from the member states.

Finally the Commission amplified the terms of a letter which it had recently sent to all member states about the single farm payment to explain that it was simply making the point that member states which chose to operate on regional or hybrid models would need to justify this decision to the Commission as will be clarified in the Commission implementing regulations. This was noted by the Council.

### Animal Welfare

**Mr. Streeter:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the prospects of obtaining approval under Article 30 of the Treaty of Rome to ban the live transport of horses to the Continent. [153628]

**Alun Michael:** We have considered very carefully the idea that the Government could seek a ban on the grounds of public morality (Article 30 of the Treaty of Rome), but we do not believe that this would be defensible *(a)* when horses have always been slaughtered in this country in order for the meat to be exported for human consumption and *(b)* when horses are exported for a variety of purposes. That is why we have concentrated our attention on issues of horse welfare during transport in order to make sure that we have future arrangements based on horse welfare which are stronger and more robust that the current 'minimum values' rules.

### Energy White Paper

**Alan Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs when the Energy Efficiency Implementation Plan announced in the Energy White Paper of February 2003 is to be published; whether publication of the plan is expected to be within the timescale originally indicated in the White Paper; and when she expects to publish the second annual progress report on the UK Fuel Poverty Strategy. [154580]

**Mr. Morley:** As announced in a written statement by my right hon. Friend the Secretary of State for Trade and Industry on 3 February 2004, *Official Report*, columns 30–31WS, the Energy White Paper first annual report will be published shortly after the Easter recess. This will allow the Government to report on a full year from the launch of the White Paper in February 2003, as

we are legally required to do by the Sustainable Energy Act 2003, as well as to capture some key energy statistics for the relevant period. Given the importance of energy efficiency to delivery of the Energy White Paper objectives, the Government intend to publish the Energy Efficiency Implementation Plan at the same time as the Annual Report. The Government also envisage simultaneous publication of the fuel poverty strategy implementation plan and the CHP strategy as well as the second annual progress report on the UK Fuel Poverty Strategy.

### Flood Defences

**Mrs. May:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance has been issued to the Environment Agency on matching local authority funding for flood defences. [154915]

**Margaret Beckett:** No such guidance has been issued. From April 2004 the Environment Agency's flood defence service in England will be funded primarily through Defra grant in aid which will replace, in large part, the levies that local authorities have previously paid to the Agency. We have, however, left in place a power for the Agency to levy local authorities to fund works not covered by Defra grant. These levies need to be agreed by the relevant flood defence committee on which the local authorities have a majority.

Levies are also subject to a cap of three times the level of Formula Spending Share allocated to each local authority to support the levy payment.

### Horses

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much horse meat was exported in 2003. [157263]

**Alun Michael:** In 2003, 1,566 tonnes of horse meat was exported from the UK.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what *(a)* grants and *(b)* other public funding she has made available to defray the start-up costs of the National Equine Database; [156652]

(2) what the *(a)* start-up budget and the *(b)* running costs of the National Equine Database are; and from which budget it will be funded. [156654]

**Alun Michael:** Defra is making provision for funding the start up costs of the National Equine Database for the first two years, and thereafter Defra will be responsible for the on-going maintenance costs of the data that Defra will use.

We have invited tenders to supply the database, and until the procurement process is complete the estimated costs for the database have to be treated as Commercial-in-Confidence.

### Pig Industry

**Mr. Nicholas Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the business recovery scheme to which the unspent funds from the pig industry restructuring scheme was re-allocated. [155497]

**Alun Michael:** The widely welcomed Business Recovery Fund (BRF) was set up in May 2001 to help small non-farming rural businesses recover from the effects of the foot and mouth outbreak. Pig farmers were eligible to apply for the BRF, but only if they wished to be helped to diversify from farming. The Fund provided a total of some £74 million for allocation to qualifying businesses. £54 million was new money provided by the Government, and the remainder was provided by Regional Development Agencies, who administered the Fund.

### Rural Payments Agency

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* full and *(b)* part-time staff have been employed in the Rural Payments Agency in each of the last five years. [156046]

**Alun Michael:** The figures for the number of full and part-time staff employed by the Rural Payments Agency (RPA) are set out in the following table.

The RPA was inaugurated with effect from 16 October 2001.

| *From* | *Full-time* | *Part-time*[1] |
|---|---|---|
| 16 October 2001 | 2,946.00 | 196.50 |
| 31 March 2002 | 3,003.00 | 241.69 |
| 31 March 2003 | 3,020.00 | 258.46 |
| 31 March 2004[2] | 3,336.00 | 291.70 |

[1] Full-time equivalent.
[2] Forecast figure as at 31 March 2004.

## TRANSPORT

### Liquified Petroleum Gas

**Bob Spink:** To ask the Secretary of State for Transport what steps he is taking to encourage continued use of liquified petroleum gas following removal of road fuel tax support for liquid petroleum gas. [157450]

**Mr. Jamieson:** Liquified petroleum gas (LPG), has and will continue to receive considerable support from Government, not only in the form of a duty incentive (worth £75 million in terms of duty forgone in 2002–03 alone), but also through grants for vehicle conversions (the Powershift scheme), and reduced rates of vehicle excise duty for gas-powered vehicles.

As the pre-Budget report made clear, the relative environmental benefits of LPG vehicles have become less significant in recent years as a result of progressively tighter emission standards for new conventional petrol and diesel vehicles. As a result the Chancellor announced in the pre-Budget report that he will begin to gradually increase the rate for LPG over the next three years, setting duty differentials on a path towards a level commensurate with the fuel's environmental benefits. Consistent with the Government's commitment to give three-year certainty on duty differentials for alternative fuels, future differentials for the next three years will be announced at Budget 2004.

### Correspondence

**Mr. Horam:** To ask the Secretary of State for Transport when the Parliamentary Under-Secretary of State will reply to the letter of the hon. Member for Orpington of 2 October 2003, regarding the public safety zone surrounding Biggin Hill airport. [157148]

**Mr. McNulty:** I regret that the hon. Member's letter had not been answered. I have written to him today explaining that in the light of revised forecasts of numbers and types of aircraft movements we have decided to reduce the size of the public safety zones at Biggin Hill airport. The effect will be that the areas of highest risk will no longer include any residential properties and that the airport company will no longer be expected to purchase any properties in Oaklands Lane or Victoria Gardens.

### Motor Insurance

**Miss McIntosh:** To ask the Secretary of State for Transport what progress his Department is making on establishing a link between existing DVLA and motor insurance databases. [157530]

**Mr. Jamieson:** DVLA established a link with the Motor Insurance Database on 17 February 2004 which allows the agency to confirm that a vehicle is insured prior to relicensing without having to view the insurance documents.

The Motor Insurers Anti Fraud and Theft Register is also linked to DVLA and automatically updates the vehicle record when a vehicle is seriously damaged. This allows an identity check to be carried out when such a vehicle is returned to the road.

### Overseas Hauliers (UK Roads)

**Mr. Hoyle:** To ask the Secretary of State for Transport how many overseas hauliers paid to use UK roads in each of the last three years; and how much the Government received in each year. [157718]

**Mr. Jamieson:** There is currently no charging regime in the UK for overseas hauliers. The Government announced in 2002 their intention to introduce a scheme to charge all lorries using UK roads on the basis of distance travelled. The Government remain committed to introducing such a charge and my right hon. Friend the Chancellor of the Exchequer announced in the pre-Budget report his intention to publish a farther progress report during this year.

### Statutory Off Road Notifications

**Mr. Simon Thomas:** To ask the Secretary of State for Transport if he will make a statement on the *(a)* procedures and *(b)* priorities followed by the Driver and Vehicle Licensing Agency when issuing a reminder notice in the case of Statutory Off Road Notifications. [157805]

**Mr. Jamieson:** Reminder notices are issued on or around the 15th day of the month of expiry of both the Statutory Off Road Notification and the vehicle licence.

## CABINET OFFICE

### Government Cars

**Norman Baker:** To ask the Minister for the Cabinet Office if he will list Whips to whom Government cars have been allocated, indicating in each case the *(a)* make and *(b)* engine size. [157852]

**Mr. Alexander:** I refer the hon. Member to the answer I gave to him on 12 February 2004, *Official Report*, column 1569W.

### Government Services

**Mr. Heald:** To ask the Minister for the Cabinet Office how much the Government plans to spend in the next 12 months on delivering services via interactive television. [158135]

**Mr. Alexander:** Information on expenditure on delivering services via interactive television is not held centrally and could be produced only at disproportionate cost.

**Mr. Heald:** To ask the Minister for the Cabinet Office what Government services projected to be delivered electronically in 2005 will be delivered through interactive television. [158136]

**Mr. Alexander:** Government Departments continue to work towards getting all Government services online by 2005, and seek to use Digital TV (DTV) wherever appropriate. Flagship services available now on DTV or planned by 2005 include Teacher TV, NHS Direct, Jobcentre Plus and the Pensions Service. In addition, UKonline Interactive is a world-first national one-stop-service for Government on DTV, bringing together access to all nationally available DTV services and progressively rolling out access to local government services on DTV.

**Mr. Heald:** To ask the Minister for the Cabinet Office how much the Government expects to save by providing all services through electronic means by 2005. [158137]

**Mr. Alexander:** The 2005 target aims to widen and facilitate access to Government services.

The Efficiency Review led by Sir Peter Gershon is encouraging Departments to review take-up of e-services to deliver savings.

**Mr. Heald:** To ask the Minister for the Cabinet Office whether the Government expects to have all its services available online by 2005; and if he will make a statement. [158133]

**Mr. Alexander:** Departments continue to work towards the target of 100 per cent. availability by 2005.

The latest figures on progress towards the target of making Government services available electronically by 2005 show that 66 per cent. of Government services are e-enabled.

### Parliamentary Questions

**Norman Baker:** To ask the Minister for the Cabinet Office how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what

percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157518]

**Mr. Alexander:** The detailed information is not held in the form requested. However, during the period 1 January 2003 to 31 January 2004 the Cabinet Office answered 84 Named Day Questions of which 80 per cent. were answered on time and 341 Ordinary Written Questions of which 43 per cent. were answered on time.

### Websites

**Mr. Heald:** To ask the Minister for the Cabinet Office how much the Government has spent on its websites in each of the past four years. [158134]

**Mr. Alexander:** Individual Government Departments are responsible for the management and expenditure of their websites and as such expenditure figures are not held centrally by the Cabinet Office.

## SOLICITOR-GENERAL

### Fraud Trials

**Mr. Hawkins:** To ask the Solicitor-General (1) what steps she is taking following the most recent developments in the London City Bond and Operation Puma cases, in relation to *(a)* prosecution for perjury and *(b)* disclosure of documents by HM Customs and Excise to the Butterfield Inquiry into this matter; and if she will make a statement; [154656]

(2) what steps she is taking following the most recent developments in the London City Bond and Operation Puma cases; and if she will make a statement. [154655]

**The Solicitor-General** *[holding answer 12 February 2004]:* I refer the hon. Member to the answer provided by the Economic Secretary to the Treasury on 12 February 2004, *Official Report*, column 1552W, regarding the investigation jointly known as the London City Bond cases, and the review by Mr. Justice Butterfield that followed them. I also refer you to the Attorney General's statement made on 4 December 2003, *Official Report [Lords]*, column WA32, which announced the Government's intention to establish an Independent Prosecutions Office dealing with Customs and Excise prosecutions. The process will start soon to recruit a new Head to that office who will be directly accountable to the Attorney-General. As well as the developments outlined in that answer, I would draw the hon. Member's attention to some of the steps taken by Customs and Excise Prosecutions Office to improve the disclosure process in the large and complex cases prosecuted by them.

The Head of Prosecutions commissioned two reports on disclosure from CEPO's Quality Assurance team in order to assess and improve disclosure in CEPO cases. Recommendations from those reports are being taken forward.

A conference on disclosure was hosted by CEPO in December of last year attended by members of the Bar, the judiciary and defence practitioners which explored the difficulties involved in disclosure in large and complex cases, and encouraged the exchange of ideas and best practice which CEPO will take forward.

There is a current Metropolitan police investigation into the circumstances surrounding the LCB cases. No file has been received by the CPS in relation to any prosecutions arising from that investigation.

### Iraq

**Mr. Mitchell:** To ask the Solicitor-General what information the Attorney-General had received on weapons of mass destruction when he prepared his opinion on the legality of war against Iraq; whether this included information on weapons capable of being launched in 45 minutes; and whether it was indicated to him whether there were battlefield weapons or weapons deliverable to targets outside Iraq. [155417]

**The Solicitor-General:** The Attorney-General received a briefing from the Chairman of the Joint Intelligence Committee on the content of the Government dossier published in September 2002 on 19 September 2002. As I explained to the hon. and learned Member for Medway (Mr. Marshall-Andrews) in my reply to him dated 14 October 2003, the Attorney-General did not rely upon any facts or assertions contained in the September dossier as material to his conclusion set out in his statement of 17 March that Iraq had failed to comply with Resolution 1441 and that a legal base for the use of force existed in the combined effect of UN Security Council Resolutions 678, 687 and 1441.

### Katharine Gun

**Mr. Ancram:** To ask the Solicitor-General whether *(a)* she and *(b)* the Attorney General had discussions with the Director of Public Prosecutions about the case of Katharine Gun before the Crown Prosecution Service decided not to offer any evidence against her. [157846]

**The Solicitor-General:** I have not discussed the case of Katharine Gun with the Director of Public Prosecutions.

For certain offences, including those under the Official Secrets Act, the Attorney General's consent is required by statute before a prosecution can go ahead. The Director of Public Prosecutions discussed the case with the Attorney General before the CPS took the decision to offer no evidence against Katharine Gun on evidential grounds.

**Mr. Cash:** To ask the Solicitor-General for what reasons the Attorney General did not issue a nolle prosequi in the case of Katharine Gun. [158132]

**The Solicitor-General:** Under the Code for Crown Prosecutors, it is for the prosecution to keep under review the prospects of a conviction as the case progresses. Counsel in this case did so and the CPS decided not to proceed with the case, on the advice of counsel and after consultation with the Attorney General, because the evidence was such that there was no longer a realistic prospect of conviction.

A nolle prosequi would not normally be entered where the reason not to proceed with the case is, as here, an evidential deficiency.

### Parmalat

**Miss McIntosh:** To ask the Solicitor-General what discussions she has had since the Parmalat affair on

greater co-operation between regulatory authorities *(a)* internationally and *(b)* at EU level; and if she will make a statement. [156884]

**The Solicitor-General:** I have not discussed, since the Italian police investigation into Parmalat, the issue of greater co-operation between regulatory authorities internationally or at EU level.

## TRADE AND INDUSTRY

### Aerospace Industry

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry if she will make a statement on the future of aerospace manufacturing and its supply chain in Lancashire. [157713]

**Jacqui Smith:** We recognise the contribution that the North West of England has made to the UK aerospace industry in the past and the important role it continues to play as part of a highly innovative and competitive defence industry.

The Government's Defence Industrial Policy was launched in October 2002 and aims to enhance the industry's competitiveness and sustainability, while continuing to provide high quality equipment at best value for money. As part of that policy the MOD takes a range of factors into account when making major procurement decisions, and a key one is an evaluation of its impact on industrial activity regionally—both at prime contractor level and within the supply chain—and my Department actively contributes to that process.

### Bankruptcy

**Bob Spink:** To ask the Secretary of State for Trade and Industry what plans she has to reduce the 8 per cent. interest rate charged on debts determined by the Judgment Act 1838 which is levied on bankruptcy debts under Rule 6.113 of the Insolvency Act 1986; and if she will make a statement. [157831]

**Mr. Sutcliffe:** I have no plans to amend Rule 6.113 of the Insolvency Rules 1986 so that a rate of interest other than that specified in section 17 of the Judgments Act 1838 will apply to debts mentioned in sub rules (2) and (3) and outstanding at the date of the bankruptcy order. It is for the Lord Chancellor, with the concurrence of the Treasury, to make any order amending the rate of interest which applied under section 17 of that Act.

**Bob Spink:** To ask the Secretary of State for Trade and Industry what plans she has to allow discretion on the charge of an interest rate of 8 per cent. on bankruptcy debts; and if she will make a statement. [157832]

**Mr. Sutcliffe:** I have no such plans. I consider the interest rate at which judgment debts carry interest to be the appropriate rate to be applied to bankruptcy debts in those cases where the Insolvency Act 1986 provides for section 17 of the Judgments Act 1838 to be applied.

**Bob Spink:** To ask the Secretary of State for Trade and Industry what plans she has to vary the percentage of debt recovered fee she charges for performance of her general duties under insolvency legislation; and if she will make a statement. [157833]

**Mr. Sutcliffe:** A new Insolvency Fees Order will come into effect on 1 April 2004 that will include a new rate of 17 per cent. "For the performance by my right hon. Friend the Secretary of State for Trade and Industry of her general duties under the insolvency legislation in relation to the administration of the affairs of each company which is being wound up by the court" and "For the performance by the Secretary of State of her general duties under the insolvency legislation in relation to the administration of the estate of each bankrupt". However, the fee will not be applied to the first £2,000 of receipts in a case and the maximum of this fee in any one case will be limited to £100,000. The new rate will only apply to cases where the insolvency Order is made on or after 1 April 2004.

For cases where the insolvency Order has been made before 1 April 2004 the current scales will continue to be applied except in relation to the affairs of companies which are being wound-up voluntarily where the fees will be revoked from 1 April 2004.

This is only one of a number of changes being made on 1 April 2004 in relation to fees in insolvency cases. The new Fees Order, which will shortly be signed and be made available on The Insolvency Service's website (insolvency.gov.uk), seeks to simplify the fee structure applicable in relation to insolvency proceedings by reducing the number of fees payable. Hence it is not possible to make a direct comparison between any specific fee that will be prescribed in the new Fees Order with a specific fee charged under the Insolvency Fees Order 1986 or earlier legisiation.

**Bob Spink:** To ask the Secretary of State for Trade and Industry which body is responsible for *(a)* responding to complaints about and *(b)* reviewing trustees' remuneration under bankruptcy legislation. [157834]

**Mr. Sutcliffe:** Concerns regarding the remuneration of a trustee in bankruptcy should be addressed to the court dealing with the bankruptcy in question by making an application under either section 303 of the Insolvency Act 1986 or Rule 6.142 of the Insolvency Rules 1986.

### Broadband

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what assessment she has made of the likelihood of achieving 100 per cent. broadband coverage by non-wireless connection by the end of 2005; and if she will make a statement. [156464]

**Mr. Timms:** The Government's call in November 2003 for Government, public bodies and broadband providers to bring broadband to every community in the UK by the end of next year was supported by BT and other industry stakeholders.

By January 2004, broadband either by cable or ADSL was available to 85 per cent. of households and that is almost certain to rise to 90 per cent. this year. Decisions on the type of networks to be deployed are predominately for the market. It is likely that wireless will make a contribution to 100 per cent. availability.

The Government are making a significant contribution to ensure 100 per cent. broadband coverage is achieved. Between 2003 and 2006 public services will be

spending £1 billion on broadband connectivity. The Regional Aggregation Bodies (trading as Adits) are using their buying power to bring broadband to new and previously untenable areas and the Regional Development Agencies will be spending or committing a further £235 million to broadband development by 2006. This will provide opportunities for further investment by industry using a range of appropriate technical solutions, including alternatives to ADSL and cable—for example, powerline and satellite in addition to wireless.

### Call Centres

**Mr. Best:** To ask the Secretary of State for Trade and Industry what estimate she has made of the number of *(a)* call centres and *(b)* call centre jobs in Leeds. [156240]

**Ms Hewitt:** Existing information does not enable us to provide reliable figures. However, my Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations to help identify any appropriate actions which need to be taken by industry or Government in response to the increasingly global market for call centre services. This will include an examination of the main product areas in the UK call and contact centre industry that are vulnerable to growing competition from lower-wage economies; and which types of call and contract centre activity and which regions have been most affected or are most likely to be affected in the near future.

**Mr. Best:** To ask the Secretary of State for Trade and Industry what estimate she has made of the number of call centre jobs relocated abroad in the last five years. [156241]

**Ms Hewitt:** Existing information does not enable us to provide reliable figures. Official statistics do not generally separate call centre activities from the main activity of a firm or enterprise (e.g. banking). The term "Call Centre" can be used to describe a broad variety of functions and activities across a wide range of commercial, industrial and public sectors. Difficulties and differences in definition are reflected in commercial market research on call centres where estimates on the number of call centres and call centre employees vary substantially. In light of this my Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations to help identify any appropriate actions which need to be taken by industry or Government in response to the increasingly global market for call centre services.

### Cold Calling

**Mr. Truswell:** To ask the Secretary of State for Trade and Industry when the Office of Fair Trading will report on its investigation into the complaint from the National Association of Citizens Advice Bureaux regarding cold calling. [157476]

**Mr. Sutcliffe:** The Office of Fair Trading expect to report in April. They expect to make public their position on legislative options for tackling bogus traders in advance of the full report.

### E-commerce

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of UK retail was represented by on-line shopping in each quarter since January 1999; and what targets her Department has set for on-line shopping as a proportion of all UK retail. [157214]

**Mr. Sutcliffe:** Official statistics separately identifying online orders within the retail sector are not available. In 2002, the value of online orders received from households by the UK wholesale, retail, catering, travel and telecommunications sectors was £5.2 billion (excluding the financial sector). This represents an increase of 63 per cent. from the 2001 estimate of £3.2 billion. Figures for the period prior to this are not available (Source: Office for National Statistics experimental statistics[1]). These figures represent 0.3 per cent. of total sales by UK businesses (excluding the financial sector) in 2002 and 0.2 per cent. in 2001. Total UK retail sales were £230 billion in 2002 and £219 billion in 2001.

The Department does not set targets for on-line shopping.

[1] 2002 e-commerce survey of business.

### E-mail

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry what estimates her Department has made of *(a)* the number of spam e-mails sent to UK companies and *(b)* the cost to business associated with tackling spam e-mails in 2002–03. [157804]

**Mr. Timms:** The Government do not have an estimate of the number of spam e-mails sent to UK companies or the cost to businesses here in tackling spam e-mails in 2002–03, although business recipients of spam point to the impact of time spent in deleting spam messages and paying for anti-spam and anti-virus protection. The UK is actively involved in a current exercise by the Organisation for Economic Cooperation and Development which aims to develop better techniques for measuring spam and estimating its impact.

### Employment Information Booklets

**Mrs. Lait:** To ask the Secretary of State for Trade and Industry what savings she estimates will be made by the ending of the supply of printed employment information booklets *(a)* URN 03/595, *(b)* URN 03/597, *(c)* URN 00/632, *(d)* PL 517, *(e)* PL 699, *(f)* PL 700, *(g)* PL 704, *(h)* PL 707, *(i)* PL 711, *(j)* PL 712, *(k)* PL 714, *(l)* PI 716, *(m)* PL 718, *(n)* PL 724, *(o)* PL 808, *(p)* PL 810, *(q)* PL 833 and *(r)* PL 958; and how much additional grant funding will be made available to citizens' advice bureaux to cover the extra costs to their offices of receiving the booklets electronically. [156781]

**Mr. Sutcliffe:** The Department estimates savings in the region of £140,000 per annum. Booklets *(a)*, *(b)*, *(l)* and *(m)* (replaced by PI 718x) remain available in hard copy.

Acas produces leaflets on individual employment rights. These can be obtained free of charge from the Acas distribution centre on 08702 429090. Therefore I do not consider it necessary or appropriate to provide additional grant funding to Citizen's Advice Bureaux.

### Financial Services Industry

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry when her Department intends to introduce legislation on the consumer credit market in the UK. [157215]

**Mr. Sutcliffe:** On 8 December 2003 we published a White Paper setting out our proposals on the consumer credit market. This was the culmination of the first major review of the regulation of this market in 30 years. The regulatory proposals in the White Paper will be implemented by a combination of Statutory Instruments, which will be brought forward during the course of this year with the first coming into force in October 2004, and a Bill, which will be introduced when parliamentary time is available.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to promote the reporting by financial services companies of suspected cases of money laundering. [157216]

**Mr. Sutcliffe:** HM Treasury and the Home Office are jointly responsible for the UK's money laundering reporting regime. Financial services companies, along with other businesses in the "regulated sector", are required to have in place formal systems for deterring, detecting and reporting money laundering and to train their staff accordingly. The Proceeds of Crime Act 2002 and the Money Laundering Regulations 2003 substantially strengthened these requirements, for example by making it a criminal offence to fail to make a disclosure where there are reasonable grounds to know or suspect money laundering.

This Department works closely with the Treasury and Home Office in supporting this regime.

### Flexible Working

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry when her Department expects to conclude its review of the legislation on flexible working. [157220]

**Mr. Sutcliffe:** Following on from the detail I provided in my answer to my hon. Friend on 3 February 2004, *Official Report*, columns 777–78W, we continue to gather data which will form the evidence base for the review scheduled to commence in 2006. However at such an early stage it is inappropriate to speculate on the nature of the review itself, and therefore the length of time it may take.

### Football (Scotland)

**Pete Wishart:** To ask the Secretary of State for Trade and Industry what responsibilities her Department has in relation to the Scottish football industry; and if she will make a statement. [156854]

**Ms Hewitt** *[holding answer 27 February 2004]:* My Department has no responsibilities in relation to the Scottish football industry.

### Gas Storage

**Mrs. Humble:** To ask the Secretary of State for Trade and Industry if she will make a statement on her policy on the development of gas storage facilities in underground caverns formed within deep rock salt deposits. [157500]

**Mr. Timms:** As Great Britain becomes increasingly dependent on imported gas it will be important that the market continues to provide sufficient flexibility to meet demand. Gas storage projects help do this. The Government therefore welcomes proposals for new projects. They must, of course, obtain necessary planning and other regulatory consents.

### Higher Education Innovation Fund

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much money was spent on the first round of the Higher Education Innovation Fund. [157248]

**Ms Hewitt:** Around £78 million has been awarded to 89 applicants under the first round of the Higher Education Innovation Fund. A further £1 million has already been allocated to organisations to train more knowledge-transfer professionals.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the budget is for the second round of the Higher Education Innovation Fund; and how many organisations will be eligible for this funding. [157249]

**Ms Hewitt:** £187 million will be available to higher education institutions through the second round of the Higher Education Innovation Fund (HEIF 2).

132 higher education institutions in England are eligible for HEIF 2 funding.

### Local Government Finance

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what grants were awarded to local authorities in *(a)* Lancashire and *(b)* Chorley in each of the last three financial years that fall outside the revenue support grant. [157085]

**Mr. Sutcliffe:** The Department of Trade and Industry provided the following grants:

*(a) Lancashire county council*

Start-up grant of £5,000 in 2001–02 to develop a Consumer Support Network. Lancashire county council are part of the trading standards North of England regional group who received funding of £42,000 in 2001–02 and 2002–03 for regional co-ordination projects, £96,900 in 2002–03 to support an e-commerce enforcement project and £74,753 and £100,000 in 2003–04 for trading standards enforcement co-ordination projects and a consumer education project respectively.

*(b) Chorley borough council*

No grants were awarded to Chorley borough council from the Department of Trade and Industry.

### Manufacturing Skills Base

**Mr. Evans:** To ask the Secretary of State for Trade and Industry what Government schemes and initiatives have been enacted to retain the skills base in the United Kingdom following manufacturing job losses. [156984]

**Mr. Timms:** The Government's Manufacturing Strategy, which we developed in partnership with industry, trade unions and other stakeholders, aims to create a high-value manufacturing sector in the UK with a highly skilled and well paid workforce, moving away from competing on the basis of low skill and low wages. We are continuing to develop a range of initiatives under the Skills Strategy such as employer training pilots, modern apprenticeships, the growing network of Sector Skills Councils and other measures to better deploy and retain skills to improve business performance.

Where there are significant redundancies in the manufacturing sector, the Rapid Response Service works to move people quickly into new jobs, preventing them from becoming detached from the labour market. Although a trend to declining manufacturing employment has been a feature of advanced economies over the last 30 years, new jobs are still being created all the time. Around 250,000 manufacturing vacancies were reported to Jobcentre plus in the last year. Overall the UK labour market is performing well, with total employment rising by nearly 1.7 million since spring 1997, and unemployment falling in every region in Britain over the past year.

### Near Earth Objects

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will maintain the level of service provided by the *(a)* National Near Earth Object Information Centre and *(b)* the Spaceguard Centre. [155368]

**Ms Hewitt:** The British National Space Centre (BNSC) has contributed funding to the setting up and maintenance of the Near Earth Object (NEO) Information Centre based at the National Space Science Centre in Leicester. It provides information to the public and monitors NEO activity. This follows the recommendations of the Near Earth Object Task Force Report. The BNSC contract expires on 31 December 2004. The Government has not contributed funding to the Space Guard Centre in the UK.

### Online Banking

**Mr. Simmonds::** To ask the Secretary of State for Trade and Industry what discussions her Department has had with the banking sector to combat internet hackers and fraudsters from obtaining customers' online banking details through deception and other means. [157807]

**Mr. Timms:** The Department has no direct responsibility for the banking sector. As part of our normal discourse with business we do speak with the banking sector, including discussion of recent attempts to gain customers' passwords and other details. The results of these discussions are reflected in our promotion of information security best practice to business.

### Post Office

**David Taylor:** To ask the Secretary of State for Trade and Industry what procedures govern the categorisation of rural and urban post offices. [157810]

**Mr. Timms:** The decision to classify a post office branch as urban or rural is an operational matter for Post Office Ltd. The company classifies as rural any post office within a community of less than 10,000 inhabitants. Above that the post office is classified as urban. I understand that the company has a geographical mapping model that enables it to adopt a consistent approach to classification across the country.

### Public Sector Research Exploitation Fund

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much money has been spent on the Public Sector Research Exploitation Fund in each year since its inception; and how many organisations have received assistance through this fund. [157250]

**Ms Hewitt:** An award totalling over £10 million was made through the Public Sector Research Exploitation (PSRE) fund in October 2001. A second round of the PSRE fund worth almost £15 million was announced in the Science Budget for 2003–06. Money spent so far in Round 1 is as follows:

| *Financial year* | *£* |
|---|---|
| 2001–02 | 287,500 |
| 2002–03 | 7,521,860 |
| 2003–04 | 300,000 |
| Total | 8,109,360 |

A further £2,000,000 of funding has been approved but not yet drawn down.

19 applications received funding through PSRE round 1 and 16 in PSRE round 2. The organisations that have received assistance through the fund in rounds 1 and 2 are listed as follows, with their funding allocation. In collaborative applications to the fund, institutions nominate a lead establishment, shown as follows.

| *Lead Institution* | *Partner Institutions* | *Award (£)* |

[1] The Advisory Board recommended that the additional £109,360 (over and above the £10 million allocated for the PSRE Fund) be taken from the surplus from University Challenge.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many organisations have been helped by the Public Sector Research Exploitation Fund in each year since its inception. [157251]

**Ms Hewitt:** The Public Sector Research Exploitation Fund has been awarded through two competitive funding rounds. PSRE Round 1 awards were made in October 2001 with over £10 million going to 19 lead institutions. The allocation of Round 2 funds was announced in January 2004. Almost £15 million went to 16 lead organisations. For a list of organisations that have received assistance from the fund, please refer to PQ No. 157250 answered today.

### Security Breaches

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many staff are employed in her Department to tackle problems arising from information security breaches. [157257]

**Ms Hewitt:** Fourteen staff employed in my Department may potentially be involved in investigating, and tackling problems arising from, information security breaches. Others from across the Department and from our key service suppliers may assist these staff when dealing with individual cases.

### Springfields Site (USA)

**Norman Baker:** To ask the Secretary of State for Trade and Industry for what reason she has accepted responsibility on behalf of the taxpayer for the costs of clearing up the Springfields site in the United States; what steps she is taking to identify those individuals responsible for generating this environmental and financial liability; and if she will make a statement. [157865]

**Mr. Timms:** Springfields, the BNFL fuel manufacturing facility is located near Preston in Lancashire. The NDA on formation will become responsible for its clean-up.

### Sugar Regime

**Mr. Wiggin:** To ask the Secretary of State for Trade and Industry when she expects to respond to the letter to her from the Biscuit, Cake, Chocolate and Confectionery Alliance concerning reform of the sugar regime; and for what reason she has not yet responded. [157095]

**Ms Hewitt:** My office has no record of having received this letter. If the hon. Member writes to me again I will ensure that a response is sent as soon as possible.

### UK Online for Business

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry (1) what products her Department intends to introduce to rationalise the activities of UK online for business; how these will encourage the effective use of the Internet and other information and communication technologies by small and medium-sized companies; and what the projected costs are for each new product; [157241]

(2) what the budget is for the forthcoming year to promote effective use of information and communication technology by businesses. [157246]

**Mr. Timms:** Under its programme of reform of business support products my Department is launching two new products under the theme of "Achieving best practice in your business". These bring together the best of a number of existing schemes such as "UK online for business" and "Fit for the Future", as well as offering direct support for implementation of best practice business projects. The promotion of effective use of information and communication technology will underpin these products, which will have a programme budget, in the first year, of £20 million.

### Weights and Measures Act

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what progress has been made in amending the Weights and Measures Act 1985 to facilitate electronic communications. [157198]

**Mr. Timms:** The Government are in the process of identifying provisions in consumer legislation, including the Weights and Measures Act 1985, which may need to be amended. The Government aims to start public consultations on any proposed changes by March 2005.

### Written Ministerial Statement

**Mr. Andrew Turner:** To ask the Secretary of State for Trade and Industry pursuant to the Written Ministerial Statement made by the Minister for Energy, E-Commerce and Postal Services on 5 February 2004,

*Official Report*, column 48WS, on Post Office Urban Reinvention Network, (1) what his definition of dense network is; [156483]

(2) what percentage of post offices in urban deprived areas are situated in dense networks. [156484]

**Mr. Timms** *[holding answer 26 February 2004]:* Post Office Ltd. defines a dense network of surrounding offices, in the context of offices in the 10 per cent. most deprived areas, as being several accessible branches in the 0.5 to one mile range travelling distance. Each proposal will however be considered on an individual basis with regard to reasonable transport links between the branches and travel across the area generally needed for retail needs. In addition, the role of Postwatch in the consultation process ensures that each proposal is analysed on a case-by-case basis.

## INTERNATIONAL DEVELOPMENT

### Burma

**Mr. Bercow:** To ask the Secretary of State for International Development (1) how much money his Department has provided to the Burma Border Consortium in *(a)* 2002–03 and *(b)* 2003–04; [157474]

(2) what steps his Department has taken to meet the food needs of refugees in camps on the Thai-Burmese border in 2003–04; [157618]

(3) what support his Department has made available in *(a)* 2002–03 and *(b)* 2003–04 for Burmese refugees outside the country. [157638]

**Mr. Gareth Thomas:** The Department provided £600,000 to the Burmese Border Consortium in 2002–03 and 450,000 in 2003–04 to help meet the food needs of refugees in Thailand. £220,000 is being provided in 2003–04 for a border areas health programme of the World Health Organisation (WHO), which covers refugees in Thailand.

The Department is also providing support to refugees from Burma through the European Commission (EC). The EC has so far allocated 2 million euros (£2.8 million) for the Burmese Border Consortium, over the period 2002–04, 20 per cent. of which is attributable to the UK.

**Mr. Bercow:** To ask the Secretary of State for International Development how much money has been provided by his Department in *(a)* 2002–03 and *(b)* 2003–04 to assist internally displaced people in Burma and to provide education for Burmese refugees in refugee camps on the Burma-Thailand border. [157620]

**Mr. Gareth Thomas:** The Department did not support programmes specifically focused on internally displaced people in Burma in 2002–03 or 2003–04. However, internally displaced people may be among the beneficiaries of other DFID programmes during this period, such as a UNICEF-led immunisation programme in Burma for which DFID provided £567,000 in 2002–03, work by the International Committee of the Red Cross for which DFID provided £1.5 million in 2002–03, and some small grants to civil society organisations in both years.

Our support in these years to Burmese refugees in camps on the Thai-Burma border focused on meeting basic food needs. Some support for education activities has been provided in the past through the Office of the United Nations High Commissioner for Refugees as detailed in my reply to another question from the hon. Member for Buckingham.

**Mr. Bercow:** To ask the Secretary of State for International Development (1) what the projected level is of expenditure by his Department in 2004–05 on wildlife projects in Burma; and how the money will be allocated; [157621]

(2) what funding has been provided by his Department in 2003–04 for wildlife projects in Burma; and how the money was allocated. [157622]

**Mr. Gareth Thomas:** The Department has not funded wildlife projects in Burma during 2003–04 and currently has no plans to do so in 2004–05.

### Deforestation

**Mr. Hancock:** To ask the Secretary of State for International Development how much of the world's rainforests has been destroyed in each of the last 10 years to provide land purely to provide food for animals; and how much grain for humans this land could provide per year. [156966]

**Mr. Gareth Thomas:** A recent Food and Agriculture Organisation study sampled 10 per cent. of the world's tropical forests in 1980, 1990 and 2000. The key changes noted were a loss of 'closed forest' (i.e. rain forest) amounting to 70–80 million hectares per decade, and a gain in "other land cover", primarily cultivation and pastures, of an almost identical area.

It is not possible to state the proportion of forest destroyed to provide food for animals, since deforested land often has a sequence of changing uses. For example, in South America land cleared for cattle ranching is often later used for soy bean cultivation. In Africa, land cleared for small-scale landholdings is often used for both cultivation and raising livestock.

It is not possible to say how much grain for humans deforested land could provide per year owing to huge variations in land fertility.

### Economic and Social Commission for Asia and the Pacific

**Chris McCafferty:** To ask the Secretary of State for International Development if he will make a statement on the forthcoming Economic and Social Commission for Asia and the Pacific population and development meetings in *(a)* Santiago in March and *(b)* Puerto Rico in June. [157780]

**Mr. Gareth Thomas:** This year the Economic Commission for Latin America and the Caribbean will be holding a 10-year regional review of progress against the commitments made in the International Conference on Population and Development in 1994 (ICPD). The process will consist of two parts: Firstly there will be a

technical open-ended meeting of an ad-hoc working group in Santiago, Chile in March. The outcome of this will be a report of key lessons and challenges in relation to further implementation of ICPD. Secondly there will be a high-level regular meeting of ECLAC in Puerto Rico in June, which will consider the outcome of Santiago.

The UK Government will be represented at both these meetings as members of ECLAC. We are keen to emphasise the importance of the ICPD commitments and to support countries that do not wish to weaken the consensus of ICPD. DFID is particularly concerned with maintaining wording on reproductive health, rights and sexual health and avoiding unproductive arguments about issues that have already been agreed. The emphasis of the two ECLAC meetings should be on monitoring of progress of the ICPD commitments in the region and discussion around enhancing progress for the next 10 years.

### Ethiopia

**Mr. Robathan:** To ask the Secretary of State for International Development if he will make a statement on progress on human rights in Ethiopia; what indicators he is using to monitor human rights in Ethiopia; and when he expects the Ethiopian Government to set up the Human Rights Commission promised in 2000. [156828]

**Hilary Benn:** When I visited Ethiopia in February I spoke to Prime Minister Meles and members of his Government about how respect for human rights can be improved. The Prime Minister accepted there are problems, but told me of his commitment to improving this situation. He gave an undertaking to build the capacity of the judiciary and security sectors to help protect constitutional rights for all.

The Government of Ethiopia have agreed to link progress with human rights to our UK budget support agreement. The 'Establishment of a Human Rights Commission and Ombudsman' will be one indicator of progress. The target for June 2004 is for the commissioners of both bodies to be appointed. By June 2005, both bodies will be expected to produce a report outlining cases and complaints handled.

We will be monitoring progress carefully.

### Famine

**Mr. Hancock:** To ask the Secretary of State for International Development what estimate he has made of the amount of grain required to provide an adequate level of sustenance for those people living in famine. [156965]

**Hilary Benn:** DFID follows the international guidelines as set by the World Food Programme and the World Health Organisation for the provision of food in emergency situations.

The guidelines recommend a minimum of 2,100 Kcals per person per day. This is equivalent to approximately 600 g of grain. However, wherever possible, we seek to ensure a diet with an appropriate balance of nutrients. Rations are therefore not usually provided as grain alone, but typically consist of 400 g of grain, 50 g of corn soy blend, 25 g of oil, 60 g of pulses and 15 g of sugar per person per day.

Different degrees of under-nourishment require different feeding regimes. For example, severely malnourished children are usually taken into a therapeutic feeding regime that will provide 200 Kcal per kilogramme of body weight per day. The rations are usually made up of a mixture of fortified flour, oil, sugar, vitamins and mineral complex and other local foods as appropriate.

### HIV/AIDS

**Tom Brake:** To ask the Secretary of State for International Development what recent assessment his Department has made of trends in HIV/AIDS rates in countries identified by UNAIDS as the worst affected countries. [156398]

**Mr. Gareth Thomas:** DFID provides support to UNAIDS, and looks to them to provide information on the global status of the HIV/AIDS epidemic. Last December, UNAIDS launched the Global Epidemic Update (available at www.unaids.org) which provided a synthesis of trends in the epidemic in all regions. They will be producing detailed country information to launch at the World AIDS Conference in July 2004 in Bangkok.

**Tom Brake:** To ask the Secretary of State for International Development (1) what representations his Department has made to UNAIDS about changes to future exercises estimating HIV/AIDS prevalence rates in sub-Saharan Africa, to include population-based surveys as opposed to surveys which indicate trends in HIV prevalence; [156438]

(2) what representations his Department has *(a)* received from non-governmental organisations and *(b)* made to UNAIDS on over-estimates of HIV/AIDS rates in sub-Saharan Africa by UNAIDS; [156784]

(3) what research his Department *(a)* has commissioned and *(b)* plans to commission into differences between data based on population-based surveys and on ante-natal clinic-based surveys in giving reliable estimates of the level of HIV/AIDS infection in sub-Saharan Africa; [156397]

(4) what representations his Department *(a)* has made and *(b)* plans to make to UNAIDS to include population-based HIV survey data in UNAIDS' next report on the global HIV/AIDS epidemic. [156400]

**Mr. Gareth Thomas:** We have not received any representations from non-governmental organisations on over-estimates of HIV/AIDS rates in sub-Saharan Africa. This Department does not plan to commission research into the differences between data based on population-based surveys and on ante-natal clinic-based surveys in giving reliable estimates of the level of HIV/AIDS infection in sub-Saharan Africa. UNAIDS has the mandate to provide information on the status of the epidemic.

UNAIDS included information about methodological issues relating to differences between data taken from these two different sources in the Global Epidemic update, which was released last World AIDS day. They concluded

that population based surveys are likely to underestimate true HIV prevalence in most cases, because some respondents are absent from the household at the time of a survey and some refuse to participate. UNAIDS also recognise that most antenatal clinic-based surveillance systems have limited geographical coverage, which can lead to wide variations in the quality of the national estimate of HIV prevalence.

UNAIDS is now doing some analysis linking behavioural data to the surveys, to see whether and how that has affected the result of the population-based surveys. They will convene a meeting in May to analyse different results across a number of countries in sub-Saharan Africa from the two sources of data. They aim to report findings at the World AIDS Conference in Bangkok in 2004.

We have not made any specific representations to UNAIDS about changes to future exercises estimating HIV/AIDS prevalence rates in SA, to include population based surveys as opposed to surveys which indicate trends in HIV prevalence. DFID is in dialogue with them on issues around data sources for HIV estimates. UNAIDS contend that conducting ante-natal clinic-based surveys and population surveys at three to five year intervals can serve as valuable components of surveillance systems and can help improve estimates of the levels and trends in HIV prevalence. This Department supports UNAIDS in their efforts to analyse the different results from different sources, rather than relying on one source alone. All HIV estimates need to be assessed critically. Using different sources for data and interrogating the results will always provide more robust analysis than relying on one source.

**Mr. Nigel Jones:** To ask the Secretary of State for International Development what support the Department is providing for research into developing vaccines to prevent HIV/AIDS. [157486]

**Mr. Gareth Thomas:** DFID have agreed to provide a contribution of £14 million over the period January 2000 to December 2004 in support of the work of the International AIDS Vaccine Initiative (IAVI).

IAVI is a global non-profit making organisation that is working to speed the development and distribution of preventive AIDS vaccines through: mobilising support through advocacy and education; accelerating scientific progress; encouraging industrial participation in AIDS vaccine development; and assuring global access. IAVI's stated mission is to ensure the development of safe, effective, accessible, preventive AIDS vaccines for use throughout the world.

### Kuwait

**Mr. Key:** To ask the Secretary of State for International Development what the UK's contribution to the Humanitarian Operations Centre in Kuwait is; and if he will make a statement. [156358]

**Hilary Benn:** The Humanitarian Operations Centre in Kuwait was established prior to the conflict by the Coalition military and the Kuwaiti Government to support the coordination and facilitation of humanitarian operations from Kuwait into southern Iraq. The UK military contributed human resources. DFID has not contributed financially to the centre but is involved closely with it, including through the sharing of information. We have benefited from its information and co-ordination functions.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for International Development how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* Ordinary Written and *(b)* Named Day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157749]

**Hilary Benn:** Since 1 January 2003, DFID has been asked 2,358 Written Parliamentary Questions. We are unable to break this down into Ordinary Written and Named Day Questions without incurring disproportionate cost.

DFID try to respond to Parliamentary Questions within the Parliamentary deadlines whenever possible.

### Swaziland

**Tom Brake:** To ask the Secretary of State for International Development what aid his Department intends to offer Swaziland in respect of the recent declaration of a state of national emergency. [156782]

**Hilary Benn:** DFID is supporting the work of the Vulnerability Assessment Committee in Swaziland, and has provided funding to the Food and Agriculture Organisation to run a series of "seed fairs" providing tools and seeds to families to enable them to grow food. We have also provided emergency funding to UNICEF to improve water and sanitation in schools. We have no immediate plans to provide further assistance following the emergency declaration.

**Tom Brake:** To ask the Secretary of State for International Development what aid his Department will offer to Swaziland in relation to its HIV/AIDS policy. [156783]

**Hilary Benn:** DFID supports Swaziland's efforts to combat HIV/AIDS through two regional programmes—the International Partnership against AIDS in Africa (implemented by UNAIDS and ActionAid), and a programme implemented by the Southern African Development Community.

### UK Presidencies (G8/EU)

**Tom Brake:** To ask the Secretary of State for International Development what discussions he has had with ministerial colleagues in the last 12 months on the priorities the Government intend to pursue when the UK assumes the presidencies of the *(a)* G8 and *(b)* EU. [156187]

**Mr. Gareth Thomas:** I refer the hon. Member for Carshalton and Wallington to the response given by the Minister of State for Foreign and Commonwealth Affairs my hon. Friend the Member for Rotherham (Mr. MacShane) on 26 February 2004, *Official Report*, column 483W, regarding the same matter.

## DEFENCE

### Aircraft Carriers

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what discussions his Department has held with representatives of the French government about future carrier requirements and co-operation thereon. [154661]

**Mr. Ingram:** Defence Ministers routinely meet with their French opposite numbers and the UK's Future Aircraft Carrier programme has frequently been discussed in that context. There is a high level steering group which helps to facilitate UK French co-operation and, in addition, there have been regular meetings on the subject both between project officials from the UK's Defence Procurement Agency and their equivalents in the DGA and on a navy-to-navy basis. These meetings have identified several areas for potential co-operation.

### Armed Forces Compensation

**Mr. Dismore:** To ask the Secretary of State for Defence how many claims under the Armed Forces compensation scheme were successful in each of the last five years; what estimate he has made of the number of likely successful cases per year under the proposed new scheme; and if he will make a statement. [153877]

**Mr. Caplin:** The Ministry of Defence provides benefits for death, injury or illness due to service through the War Pensions Scheme and the Armed Forces Pension Scheme. The number of awards for new claims under the War Pensions Scheme in the last five years is set out as follows (the figures are taken from Table 2.5 of the recently published March edition of the War Pensions Quarterly Statistics). This includes awards where a pension was paid and those where only a gratuity was paid:

| | *Number* |
|---|---|
| 1998–99 | 6,810 |
| 1999–2000 | 7,445 |
| 2000–01 | 6,385 |
| 2001–02 | 6,955 |
| 2002–03 | 5,440 |

Current Information Technology systems do not enable us to identify the numbers who have also received attributable pensions from the Armed Forces Pension Scheme. However, the overall figure will be lower as the benefits can only be paid to those who are medically invalided.

The new Armed Forces Compensation Scheme will provide benefits for currently serving personnel for injury, ill-health or death which is caused after 5 April 2005. The number of claims is expected to build up gradually over an extended period but to remain lower than the current level of claims against the War Pensions Scheme. This is because the latter covers periods of conscription, of worldwide conflict and of much larger than at present armed forces.

### AWE Aldermaston

**Llew Smith:** To ask the Secretary of State for Defence if he will make a statement on the planned laser simulation facility at AWE Aldermaston. [156642]

**Mr. Ingram:** The Ministry of Defence are considering a new laser facility (Project ORION) at AWE Aldermaston to replace the existing laser facility which is more than twenty years old. The project is currently in the Assessment Phase.

### Beef

**Annabelle Ewing:** To ask the Secretary of State for Defence what percentage by weight of current beef supply contracts for his Department and its agencies are sourced from *(a)* British and *(b)* Scottish herds. [157870]

**Mr. Ingram:** 46 per cent. of the beef and beef products purchased for consumption by the armed forces in the United Kingdom is British. Of that total, in the past 12 months, 70 per cent. came from Scottish herds.

### Belgian Ammunition

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the rate of failure of large general purpose machine gun ammunition supplied by Belgium. [155135]

**Mr. Ingram:** There was a problem reported on the Browning 0.5" Heavy Machine Gun (HMG) when firing standard Ball (M33) and Tracer (M17) rounds on training overseas prior to Operation Telic. The ammunition was manufactured to NATO standards by the Belgian contractor FN Herstal. A thorough and immediate investigation by the contractor could not replicate the reported problem. However, it was identified that a minor increase in the loaded propellant charge, still within NATO specifications, would increase the performance of the ammunition in the weapon. This change was immediately implemented by FN Herstal, at no cost to the MOD, and the new ammunition was available within four weeks.

### Defence Export Services Organisation

**Mr. Laws:** To ask the Secretary of State for Defence what the cost of the Defence Export Services Organisation was in 2002–03; what his estimate is of the projected cost in each year to 2005–06; and if he will make a statement. [156710]

**Mr. Ingram:** Operating costs for Defence Export Services Organisation (DESO) for the last and current financial years are as follows:

| *Financial year* | *Net operating costs (£ million)* |
|---|---|
| 2002–03 | 11.944 |
| 2003–04[1] | 15.583 |

[1] Figures for 2003–04 are forecasts for the year.

The DESO budgets for financial years 2004–05 and 2005–06 have not yet been finalised, and I am withholding projections of the costs in these years under exemption 2c of the Code of Practice on Access to Government Information.

The costs of DESO are more than offset by benefits to the Defence budget arising from defence exports. Savings to the defence budget come from spreading the fixed overhead costs of equipment over the longer production runs generated by exports, from the sale of

surplus military equipment to overseas governments, and from Commercial Exploitation Levy on exports of equipment developed using public money.

### Eurofighter Typhoon

**Norman Lamb:** To ask the Secretary of State for Defence (1) how many Eurofighter Typhoons have been delivered to No. 17 Squadron, Royal Air Force; [156951]

(2) how many Eurofighter Typhoons he plans to be delivered to No. 17 Squadron, Royal Air Force; when the squadron will receive the final aircraft of its intended complement; and if he will make a statement. [156952]

**Mr. Ingram**: It is planned that four aircraft will be delivered to No. 17 Squadron, Royal Air Force. The final aircraft of its intended complement is expected to be received by April this year. To date, two have been delivered.

**Norman Lamb:** To ask the Secretary of State for Defence whether he plans to re-form No. 29 Squadron, Royal Air Force to conduct the first Eurofighter Typhoon pilot training course at RAF Coningsby; when the first Typhoon pilot training course will start; and if he will make a statement. [156953]

**Mr. Ingram:** The Eurofighter Typhoon Operational Conversion Unit is currently being re-formed as 29 Squadron at the BAE System facility at Warton, Preston, Lancashire. Re-formation of 29 Squadron will be complete when it moves to RAF Coningsby next year. Present plans are for initial instructor pilots to commence training this summer.

**Norman Lamb:** To ask the Secretary of State for Defence whether the Eurofighter Typhoons delivered to No. 17 Squadron, Royal Air Force have refuelling probes fitted and ready for use; and if he will make a statement. [156954]

**Mr. Ingram:** The Typhoons delivered to date do not have refuelling probes fitted. Early aircraft delivered without probes will be retro-fitted.

### Iraq

**Mr. Swayne:** To ask the Secretary of State for Defence what assessment has been made of the requirement for Personal Role Radios in Iraq. [154015]

**Mr. Ingram:** Personal Role Radio (PRR) is a short-range communications system designed to provide connectivity at the tactical level within small military teams, such as infantry sections. It is therefore ideal for use in Iraq and has been used extensively by UK forces since the commencement of operations. Approximately 3,500 Personal Role Radios are currently in use with British forces in Iraq.

**Mr. Keetch:** To ask the Secretary of State for Defence how many rounds were contained in the standard issue of ammunition to *(a)* infantry and *(b)* Royal Military Police in Iraq during (i) major hostilities and (ii) since the end of major war-fighting operations; whether this requirement has been met in every circumstance; and if he will make a statement. [154676]

**Mr. Ingram** *[holding answer 12 February 2004]:* The standard issue of 5.56mm ammunition provided to Army combat soldiers and other Army arms/services in Iraq has not changed from 150 rounds and 120 rounds respectively. Royal Military Police Personnel are normally issued with 120 rounds of ammunition in line with other Army arms/services. Commanders in theatre make an assessment based on local conditions as to whether adjustments to the planning allocations should be made. Over 23 million rounds of 5.56mm ammunition were delivered to Operation Telic, which was well in excess of the projected requirement of all units deployed.

**Mr. Steinberg:** To ask the Secretary of State for Defence what the average daily cost has been of the occupation of Iraq. [154940]

**Mr. Ingram:** The Ministry of Defence identifies the costs of Operations in terms of the net additional costs it has incurred. The costs that the Department would have incurred regardless of the operation taking place, such as wages and salaries, are not included. Savings on activities that have not occurred because of the operation—training exercises for example—are taken into account in arriving at the net figures.

Costs are not incurred on a regular daily basis and force levels have fluctuated considerably during 2003–04. As a result, to attempt to provide daily average costs would be misleading.

However, you may wish to know that outturn information for 2002–03 on the cost of operations in Iraq has been published as part of the MOD's Annual Report and Accounts. Operating Costs for 2002–03 for operations in Iraq total £629.531 million. Expenditure on Capital equipment amounts to £217.680 million. The grand total is, therefore, £847.211 million.

For 2003–04, funding voted at Winter Supplementary Estimates amounted to £1.2 billion and covered the cost of peacekeeping and associated Urgent Operational Requirements (UORs). The MOD has sought a further £300 million at Spring Supplementary Estimates to cover primarily the cost of the recuperation of the Department's operational capability. Thus, the total sought in 2003–04 will be £1.5 billion.

It is too early to say what costs might be incurred after 2003–04.

### Joint Strike Fighter Aircraft

**Mr. Hoyle:** To ask the Secretary of State for Defence which parts of the joint strike fighter aircraft are to be built in the UK. [156133]

**Mr. Ingram:** Production contracts have not yet been negotiated for any part of the Joint Strike Fighter and are unlikely to be awarded before 2006 on current plans.

Development work is currently under contract in the UK on a number of significant assemblies and aircraft systems, including the complete aft fuselage and tail assembly (BAES); engine components (Rolls Royce); ejection seat (Martin Baker) and electrical power, actuation and display systems (Smiths Aerospace). All work on JSF is won on a best value basis, and subject to

continuing to meet best value criteria, there is every reason to anticipate that these development contracts will lead to follow-on production contracts.

### Naval Vessels

**Dr. Julian Lewis:** To ask the Secretary of State for Defence whether the disposal of Type 22 frigates to Romania has been concluded; and if he will make a statement. [152226]

**Mr. Ingram:** The Government-to-Government Acquisition Agreement was signed on 19 December 2002, comprising the sale of two regenerated and updated warships (ex-HMS London and ex-HMS Coventry), an initial support package, and a training package for ships' complements. The agreement includes a significant offset programme to be carried out by British Industry, led by the United Kingdom Prime Project Contractor, BAE Systems, over a five-year period.

The regeneration of the ships is proceeding satisfactorily, in accordance with the agreed schedule, and on track to achieve commissioning of the first ship, due in September 2004.

**Mr. Kevan Jones:** To ask the Secretary of State for Defence if he will make a statement on the projected number of orders for naval vessels to be placed over the next 10 years. [153789]

**Mr. Ingram:** The Ministry of Defence is already undertaking a large programme of new ship procurement, including orders for six Type 45 destroyers, three Astute Class submarines and four Landing Ships Dock (Auxiliary).

Future plans include the purchase of two new aircraft carriers, further orders of Type 45 destroyers and Astute Class submarines, the Joint Casualty Treatment Ship, and the replacement of existing RFA vessels through the Military Afloat Reach and Sustainability project. The Department is also considering options for leasing new Offshore Patrol Vessels to replace the current Castle Class capability. Tenders are currently being assessed for the Nato Submarine Rescue System, which will enter service in 2006.

Looking further ahead, we expect to replace the capability provided by the Type 22 and 23 Frigates with the Future Surface Combatant. It is too early to say how the capability will be met or when orders will be placed because the project is still at the concept stage.

### Operation Telic

**Mr. Soames:** To ask the Secretary of State for Defence what equipment was purchased under the Urgent Operational Requirement process for Operation Telic 1 and 2. [147273]

**Mr. Ingram:** It is assumed that the period covered by Operation Telic 1 and 2 is from the time of deployment until the end of the first roulement of troops (November 2003). Information regarding specific Urgent Operational Requirements remains operationally sensitive and I am therefore withholding details of equipment purchased in accordance with Exemption 1 of the Code of Practice on Access to Government Information. However equipment procured using the UOR process falls into five broad areas:

enhancements to communications equipment and infrastructure;

upgrades to maritime, air (both fixed and rotary wing) and land platforms. These included improvements to environmental/desert operating capabilities, force protection, secure communications, combat ID and enhancements to associated weapons systems;

improved dismounted close combat capabilities;

improved logistics and deployable infrastructure (includes procurement of additional Temporary Deployable Accommodation); and

NBC protection measures; and enhancements to deployed medical capabilities.

**Mr. Keetch:** To ask the Secretary of State for Defence if he will list all requests for urgent operational requirements for Operation Telic stating *(a)* whether the request was approved, *(b)* the equipment requested, *(c)* the date the request was submitted, *(d)* the date the urgent operational requirement was approved and *(e)* the cost; and if he will make a statement. [151347]

**Mr. Ingram** *[holding answer 27 January 2004]:* Urgent Operational Requirements (UOR) are requested via an Urgent Statement of User Requirement generated by frontline commands or operational planners. The content of these remains operationally sensitive and I am withholding the information requested under Exemption 1 of the Code of Practice on Access to Government Information. However, approved UORs covering the deployment and fighting phases of Operation Telic fall into five broad capability areas with total approved values as follows:

| *Capability area* | *£ million* |
|---|---|
| 1. Enhancements to communications equipment and infrastructure | 56 |
| 2. Upgrades to maritime, air (both fixed and rotary wing) and land platforms. These included improvements to environmental/desert operating capabilities, force protection, secure communications, combat identification and enhancements to associated weapons systems | 270 |
| 3. Improved dismounted close combat capabilities | 36 |
| 4. Improved logistics and deploy able infrastructure | 58 |
| 5. NBC protection measures; and enhancements to deployed medical capabilities | 90 |

During the deployment and fighting phases of Operation Telic over 190 Urgent Operational Requirements were approved at a total approved cost of around £510 million. Since the end of major combat operations, a range of other UORs have been approved.

### Overseas Bribery

**Mr. Simon Thomas:** To ask the Secretary of State for Defence (1) how many allegations of overseas bribery his Department has received since *(a)* November 1997 and *(b)* February 2002; [151399]

(2) how many allegations of overseas bribery his Department has forwarded to the law enforcement agencies since *(a)* November 1997 and *(b)* February 2002; and if he will name the agencies to which allegations were forwarded, and give the dates concerned. [151398]

**Mr. Ingram:** Since 1997 the Ministry of Defence has received 11 allegations of bribery occurring overseas of which six were received after February 2002. One case was passed to the Metropolitan police in October 1999 and another to the Brunei authorities in May 2002.

Another four were investigated by the Department's Defence Fraud Analysis Unit, in some cases in conjunction with the Ministry of Defence Police authorities, at various dates between March 2000 and November 2002. Three were passed to the Royal Military Police in the period April 1999 to April 2003. One other case arising in July 2002 is being handled by the MOD Police on behalf of another government agency. An allegation passed to the Department by the Serious Fraud Office in March 2001 was the subject of an internal Departmental review.

### Research and Development

**Mr. Cousins:** To ask the Secretary of State for Defence to whom his Department distributes expenditure on research and development; how many staff are employed as a result; and how many research establishments *(a)* the Department and *(b)* its agencies have in each region and nation of the United Kingdom. [154360]

**Mr. Ingram:** The Ministry of Defence places contracts with a wide range of organisations including:

The Defence Science and Technology Laboratory (DSL), and the Meteorological Office, the two major MOD agencies which conduct research.

The Medical Supplies Agency receives funding for development of Medical Countermeasures.

Industry. Approximately 600 companies received payments against R&D contracts in the eight months to end November 2003.

Academia.

The Meteorological Office is primarily located at its new site in Exeter with a residue still at the old Bracknell sites. Figures for 2001–02, the latest date for which there are published figures showed 330 employees, to the nearest 10, were employed in research.

Dstl currently has research facilities in a number of areas in the UK. These are shown in the following table together with the number of staff employed in each region.

| *Region* | *Number of employees* |
|---|---|
| *Dorset* | |
| Winfrith | 103 |
| *Hampshire* | |
| Alverstoke | 110 |
| Farnborough | 737 |
| Porton Down | 875 |
| Portsdown | 383 |
| *Kent* | |
| Fort Halstead | 639 |
| *Worcestershire* | |
| Malvern | 226 |

In addition to these there are a further 170 staff working in small numbers on a further 25 sites.

Information about staff employed in industry and academia, as a result of MOD funding of research and development but not directly employed by the Department, is not held centrally and could be provided only at disproportionate cost.

### Royal Fleet Auxiliary

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what estimate he has made of the suitability of current Royal Fleet Auxiliary oilers for future expeditionary warfare. [146507]

**Mr. Ingram:** The Royal Fleet Auxiliary operates four classes of oilers (Wave, Leaf, Rover, and Fort Victoria). The two Wave class oilers (Wave Ruler and Wave Knight) entered service in 2003 and will remain operational until after 2025.

The Leaf and Rover classes are due to reach their expected out of service dates by 2011. They are single-hulled and so will be non-compliant with revised Marpol (International Convention for the Prevention of Pollution from Ships) regulations on the introduction of double-hulled vessels. The newer Fort Victoria ships are also single-hulled but we are currently considering ways of maintaining compliance with international legislation beyond 2010. While Marpol does not apply to vessels owned or operated by a state and used only on Government non-commercial service, as is the case with the RFA oilers, it remains MOD policy to comply with Shipping Acts and associated regulations where practicable. Consequently, MOD has a programme to phase out all non-compliant RFA vessels with a target date of 2010 based on the earliest practicable point for compliance.

As explained in my answer of 11 February 2004, *Official Report*, columns 1459–60W, the Department's programme, known as the Military Afloat Reach and Sustainability (MARS) programme, seeks progressively to replace most of the current RFA fleet, including Leaf, Rover, and Fort Victoria class oiler vessels. As part of this, these ships will be replaced by more flexible and capable vessels fully compliant with Marpol. This will significantly enhance the RFA's ability to provide the Royal Navy with its afloat support requirements.

### Royal Navy

**Mr. Martyn Jones:** To ask the Secretary of State for Defence if he will make a statement on progress on modernising the Royal Navy's chart and navigation system. [155020]

**Mr. Ingram:** In January 2004 the Ministry of Defence announced that a contract had been awarded to Lockheed Martin UK Ltd. to fit Royal Navy ships with a new electronic charting system. The system, known as WECDIS (Warship Electronic Chart Display and Information System), will provide enhanced situational awareness to ensure RN navigating capability is more accurate, efficient and responsive.

The programme is proceeding as planned and the first ship installation is scheduled to commence in June 2004.

### Salisbury Plain (Unauthorised Use)

**Mr. Key:** To ask the Secretary of State for Defence how many drivers of private civilian *(a)* motorcycles and *(b)* four-by-four vehicles have been (i) intercepted, (ii) cautioned and (iii) prosecuted for unauthorised use of Salisbury Plain Training Estate in the last 12 months; and if he will make a statement. [157298]

**Mr. Caplin:** In 2003, 41 motorcycles and 52 four-by-four vehicles were intercepted by the Ministry of Defence Police. As a result, 27 drivers were warned off military lands under the byelaws and a further 33 drivers were prosecuted.

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence how much money his Department has spent on developing the Typhoon's operational role to allow it to operate off the new aircraft carriers. [154909]

**Mr. Ingram:** No money has been spent on developing the Typhoon's operational role to operate off the new aircraft carriers. As part of the Concept Phase for the Joint Combat Aircraft project, a feasibility contract was let with BAE Systems to identify broad order costs and design issues for a number of different solutions. This contract was valued at around £2 million. The study considered the potential for adapting Typhoon for carrier operations but showed that a significant amount of re-design and investment would be required to operate Typhoon from the future carriers. Joint Strike Fighter has been selected to meet this requirement.

## TREASURY

### British Overseas Territories

**Mr. Cousins:** To ask the Chancellor of the Exchequer with which British overseas dependent territories he has arrangements for the exchange of tax information; on what dates such arrangements were made; which team in his Department or in agencies for which his Department is responsible has the task of negotiating such arrangements; and with which British overseas dependent territories there are negotiations on tax information arrangements. [157055]

**Dawn Primarolo:** The UK has Double Taxation Arrangements with Guernsey (1952), Isle of Man (1955) and Jersey (1952) (all Crown Dependencies), and the Falkland Islands (1997) and Montserrat (1947) (both Overseas Territories) all of which include provisions for the exchange of information for tax purposes. The Inland Revenue's International team is responsible for negotiating arrangements that provide for exchange of information between tax authorities. They have had discussions about new or improved exchange of information arrangements with all of the UK's overseas dependent territories that are operating as offshore financial centres.

### Child Benefit

**Mr. Goodman:** To ask the Chancellor of the Exchequer how many families are eligible to receive child benefit. [158058]

**Dawn Primarolo:** The number of families in receipt of Child Benefit are shown in "Child Benefit Quarterly Statistics", which can be found on the Inland Revenue website at: www.inlandrevenue.gov.uk/child_benefit/menu.htm.

Precise figures on the take up rate of child benefit are not available, but it is thought to be around 98 per cent.

### Company Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the cost to public expenditure of each company tax credit for each year from 2003–04 to 2006–07; and if he will make a statement. [156765]

**Dawn Primarolo:** The forecast costs for research and development tax credits, vaccines research relief and contaminated land tax credits are set out in the following table. The costs are on a receipts basis, showing when the costs are incurred by the Inland Revenue.

*£ million*

| | *2003–04* | *2004–05* | *2005–06* | *2006–07* |
|---|---|---|---|---|
| Research and Development Tax Credits | 660 | 670 | 700 | 760 |
| Vaccines Research Relief | 10 | 20 | 20 | 20 |
| Contaminated Land Tax Credits | 70 | 80 | 80 | 90 |

*Note:*
Figures are rounded to the nearest £10 million.

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will list each tax credit available to companies; what assessment he has made of the economic benefit in each case; and if he will make a statement. [156766]

**Dawn Primarolo:** Companies may be able to claim tax credits under the research and development tax credit schemes, vaccines research relief scheme or remediation of contaminated land scheme.

The Government plan to evaluate all of the impacts of these policies. However, because the policies are intended to produce benefits over the medium to longer term, it would be inappropriate to do so at present.

### Credit Cards

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer what assessment he has made of the case for introducing interest-rate limits on credit cards. [157342]

**Mr. Sutcliffe:** I have been asked to reply.

The Government are not yet persuaded of the benefits of introducing interest rate ceilings on any products. We are concerned that their introduction might cause detriment to consumers and competition, for example by encouraging imposition of additional fees and charges, that some lenders might exit the market denying some consumers access to credit, or that rates might gravitate towards the ceiling.

We have, however, commissioned research on how interest rate caps operate in other countries. We expect to publish this research in the spring of this year, and will then make a decision on the case for introducing a ceiling.

### Demography (North-West)

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what percentage of the population of *(a)* the North West and *(b)* Lancashire is over (i) 50, (ii) 55, (iii) 60, (iv) 65, (v) 75, (vi) 85 and (vii) 100 years. [157092]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Hoyle, dated 2 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking what percentage of the population of *(a)* the North West and *(b)* Lancashire is over (i) 50, (ii) 55, (iii) 60, (iv) 65, (v) 75, (vi) 85 and (vii) 100 years. I am replying in his absence.(157092)

The information requested, except for those aged 100 and over, is given in the following table. This gives percentages based on the 2002 mid year population estimates, the latest year for which figures are available.

*Percentage of the population in older age groups in the North West and Lancashire*

| *Age group* | *North West* | *Lancashire* |
|---|---|---|
| 50 and over | 33.9 | 35.2 |
| 55 and over | 27.3 | 28.4 |
| 60 and over | 21.1 | 21.9 |
| 65 and over | 16.0 | 16.7 |
| 75 and over | 7.4 | 7.9 |
| 85 and over | 1.0 | 2.0 |

*Source:*
2002 mid year population estimates, Office for National Statistics

We are not able to provide estimates for those aged 100 and over from mid year population estimates. Estimates of populations at very old ages using the standard methodology for population estimates (the cohort component method) are unreliable, especially for sub-national areas where numbers in these very old age groups may be very small.

However this information is available from the 2001 Census. It recorded that under 0.02 per cent. of the population of both the North West and Lancashire were over 100 years of age.

## Departmental Buildings/Costs

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will list London buildings occupied by *(a)* Her Majesty's Treasury, *(b)* Customs and Excise, *(c)* the Inland Revenue and *(d)* other Treasury agencies and non-departmental public bodies; what the estimated value of each publicly owned building is; and if he will make a statement. [156761]

**Ruth Kelly:** The information requested relating to buildings in London postal districts is given as follows:

*(a) Her Majesty's Treasury*

1 Horse Guards Road, SW1

*(b) Customs and Excise*

3 Griffin House, W6
London City Airport, E16
Berkeley House, N3
Jubilee House, E15
Portline House, E16
Thomas Paine House, EC1
Custom House, EC3
GSS Garage, SE1
Water Tower, SE18
Parcelforce LDC, E16
Dorset House, SE1
Unit 2 Thames Road Industrial Estate, E16
Towergate Car Park Pope Street, SE1
Towergate 163 Tower Bridge Road, SE1
Stratford Lift, E15
Mount Pleasant Postal Depot, EC1
Waterloo Terminal, SE1
Willesden EPU, NW10
Olympia Passenger Terminal
Enterprise House, SE1
New King's Beam House, SE1
Swan Lane Car Park
Stratford Car Park, E15

*(c) Inland Revenue*

Capitol House, N21
Jubilee House, E15
Euston Tower, NW1
Clifton House, NW1
New Century House, WC1
Lyndhurst House, NW7
Conquest House, WC1
Colindale Station House, NW9
Gateway House, N3
Collingwood Business Centre, N19
Surrey House, SE1
Heron House, SE23
Woolwich Crown Building, SE18
Meridian House, SE10
Lancaster House, SE1
Radnor House, SW16
Government Building, W3
19–29 Woburn Place,WC1
Charles House, W14
Solar House, SW20
11 Belgrave Road, SW1
Melbourne House, WC2
Somerset House, WC2
Bush House, SW Wing
Duchy House, WC2
22 Kingsway, WC2
Bush House, NW Wing WC2
Angel Court, SE1
Haymarket House, SW1
City Gate House, EC2
Ibex House, EC3
Empire House, E15
6–10 Church Hill, E17
Britannia House, SE1
International House, W5
31 High Street, W5
Waterford House, SW6
Candy House, W5
Tavis House, WC1
Dansom House, E17
31 Scarborough Street, E1
Steel House, SW12
Tresco House, NW1
Victory House, WC2
53 Parliament Street, SW1
Clifton House, NW1
10 Great George Street, SW1

*(d) Other Treasury Agencies/Bodies*

Eastcheap Court, EC3

Finlaison House, EC4

1 Horse Guards Road, SW1

Charles House, W14

Trevelyan House, SW1

New Court, WC2

Cityside, E1

Chase House, E14

1 Francis Grove, SW19

Lincoln House, SE1

Wingate House, W1

1 Drummond Gate, SW1

1 Myddleton Street, EC1

The only London building publicly owned and wholly occupied by my Departments is the Treasury building at 1 Horse Guards Road, which has an estimated value of £71.6 million. Other buildings are privately owned, or where forming part of the Government estate, are occupied by my departments on a shared, minor occupancy basis.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his latest estimate is of Her Majesty's Treasury core departmental annual running costs for each year from 1996–97 to 2005–06; and if he will make a statement. [156755]

**Ruth Kelly:** Details of the Department's gross administrative expenditure for 1998–99 to 2005–06 are contained in Table 5.1 of Public Expenditure Statistical Analyses 2003 (Cm 5901). The figures are on a resource basis. Figures for 1996–97 to 2001–02 were published in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601) but these are on a cash basis.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the cost of running *(a)* the Inland Revenue and *(b)* Customs and Excise in each year from 1996–97 to 2005–06; and if he will make a statement. [156759]

**Ruth Kelly:** Details of the Departments' gross administrative expenditure for 1998–99 to 2005–06 are contained in Table 5.1 of Public Expenditure Statistical Analyses 2003 (Cm 5901). The figures are on a resource basis. Figures for 1996–97 to 2001–02 were published in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601) but these are on a cash basis.

Copies of Public Expenditure Statistical Analyses are in the Library of the House and are on HM Treasury's public website (www.hm-treasury.x.gsi.gov.uk).

## Economic Activity (Northampton)

**Mr. Tony Clarke:** To ask the Chancellor of the Exchequer what the economic activity rate in the Northampton South constituency was in *(a)* 2002–03 and *(b)* 1996–97. [157008]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Tony Clarke, dated 2 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question about the economic activity rate in the Northampton South constituency. I am replying in his absence. (157008)

The table below shows the working age economic activity rates for the Northampton South constituency, covering the twelve-month periods ending February 1997 and February 2002. Information for 2002/03 is not yet available.

*Working age economic activity rates[1] in the Northampton South constituency*

| *12 month period ending February each year* | *Rates* |
|---|---|
| 1997 | 85.5 |
| 2002 | 84.4 |

[1] Economically active as a percentage of men aged 16–64 and women aged 16–59.

As with any statistical sample survey, estimates from the Labour Force Survey are subject to sampling variability.

## Employment Statistics

**Mr. Spring:** To ask the Chancellor of the Exchequer (1) by what rate employment grew on average annually in *(a)* the United Kingdom, *(b)* the Republic of Ireland, *(c)* Denmark, *(d)* Sweden, *(e)* Finland, *(f)* Germany, *(h)* the Netherlands, *(i)* Belgium, *(k)* Luxembourg, *(l)* France, *(m)* Spain, *(n)* Portugal, *(o)* Italy, *(p)* Austria, *(q)* Greece, *(r)* the area now forming the euro-12, *(s)* the EU 15 and *(t)* the United States since (i) 1992 and (ii) 1997; [157180]

(2) by what rate employment grew in each year since 1992 in *(a)* the United Kingdom, *(b)* the Republic of Ireland, *(c)* Denmark, *(d)* Sweden, *(e)* Finland, *(f)* Germany, *(h)* the Netherlands, *(i)* Belgium, *(k)* Luxembourg, *(l)* France, *(m)* Spain, *(n)* Portugal, *(o)* Italy, *(p)* Austria, *(q)* Greece, *(r)* the area now forming the euro-12, *(s)* the EU 15 and *(t)* the United States. [157181]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Richard Spring, dated 2 March 2004:*

The National Statistician has been asked to reply to your two recent Parliamentary Questions about average and annual employment growth rates for Europe and the USA. I am replying in his absence. (157180, 157181)

The attached table provides growth rates for the number of people of working age in employment in the requested countries. The data (where available) are provided for all years since 1993, together with average annual growth rates a) from 1992 and b) from 1997.

Demographic trends affect the size and the age profile of the working-age population, and are a significant driver of change in the number of people in employment. The data in the table do not take account of these effects.

*Annual and average employment growth rates for the UK and other countries, 1993–2003*

Percentage

| | Annual employment growth rates | | | | | | |
|---|---|---|---|---|---|---|---|
| | *1993* | *1994* | *1995* | *1996* | *1997* | *1998* | *1999* |
| United Kingdom | -1.3 | 0.7 | 1.1 | 1.0 | 1.7 | 1.0 | 1.2 |
| Ireland | 1.3 | 4.3 | 4.4 | 3.9 | 6.3 | 8.1 | 6.3 |
| Denmark | -1.5 | 1.4 | 1.3 | 1.0 | 1.3 | 1.6 | 1.2 |
| Sweden | — | -0.9 | 1.5 | -0.8 | -1.3 | 1.5 | 2.1 |
| Finland | -6.0 | -1.4 | 2.0 | 1.3 | 3.3 | 2.0 | 2.5 |
| Germany | -1.4 | -0.2 | 0.2 | -0.3 | -0.2 | 1.1 | 1.2 |
| Netherlands | 0.0 | 0.7 | 1.5 | 2.3 | 3.2 | 2.6 | 2.6 |
| Belgium | -0.7 | -0.4 | 0.0 | 0.3 | 0.9 | 1.8 | 1.3 |
| Luxembourg | 1.6 | 2.5 | 2.5 | 2.6 | 3.1 | 4.5 | 5.0 |
| France | -1.3 | 0.1 | 0.9 | 0.4 | 0.4 | 1.5 | 2.0 |
| Spain | -2.8 | -0.5 | 1.9 | 1.3 | 2.9 | 3.9 | 3.5 |
| Portugal | -1.2 | 0.6 | -0.1 | 1.4 | 2.5 | 2.6 | 1.2 |
| Italy | -2.5 | -1.5 | -0.1 | 0.6 | 0.4 | 1.0 | 1.1 |
| Austria | -0.6 | -0.1 | 0.0 | -0.6 | 0.5 | 1.0 | 1.4 |
| Greece | 0.8 | -0.1 | -0.4 | -0.4 | -0.5 | 4.1 | 0.0 |
| EU-12 | -1.6 | -0.3 | 0.6 | 0.5 | 0.9 | 1.8 | 1.8 |
| EU-15 | -1.6 | -0.1 | 0.7 | 0.6 | 1.0 | 1.7 | 1.7 |
| USA | 1.5 | 2.3 | 1.5 | 1.5 | 2.3 | 1.5 | 1.5 |

| | *Annual employment growth rates* | | | | *Average annual employment growth rates* | |
|---|---|---|---|---|---|---|
| | *2000* | *2001* | *2002* | *2003* | *From 1992 to date*[1] | *From 1997 to date*[1] |
| United Kingdom | 1.4 | 0.9 | 0.6 | 1.0 | 0.8 | 1.0 |
| Ireland | 4.7 | 2.9 | 1.4 | — | 4.3 | 4.6 |
| Denmark | 0.5 | 0.4 | -0.6 | — | 0.7 | 0.6 |
| Sweden | 2.4 | 1.9 | 0.2 | — | 0.7 | 1.6 |
| Finland | 2.3 | 1.5 | 0.4 | — | 0.8 | 1.7 |
| Germany | 1.8 | 0.4 | -0.6 | — | 0.2 | 0.8 |
| Netherlands | 2.2 | 1.8 | 0.9 | — | 1.8 | 2.0 |
| Belgium | 1.9 | 1.4 | -0.2 | — | 0.6 | 1.2 |
| Luxembourg | 5.6 | 5.6 | 3.1 | — | 3.6 | 4.8 |
| France | 2.6 | 1.8 | 0.6 | — | 0.9 | 1.7 |
| Spain | 3.5 | 2.3 | 1.5 | — | 1.7 | 2.9 |
| Portugal | 2.0 | 1.4 | 0.2 | — | 1.0 | 1.5 |
| Italy | 1.9 | 1.9 | 1.4 | — | 0.4 | 1.5 |
| Austria | 0.8 | 0.7 | -0.4 | — | 0.3 | 0.7 |
| Greece | -0.1 | -0.4 | -0.2 | — | 0.3 | 0.7 |
| EU-12 | 2.2 | 1.4 | 0.4 | — | 0.8 | 1.5 |
| EU-15 | 1.9 | 1.2 | 0.3 | — | 0.8 | 1.4 |
| USA | 2.5 | 0.0 | -0.3 | 0.9 | 1.4 | 1.0 |

[1] UK and US growth rates are average rates until 2003. EU rates are until 2002. All rates are average growth since 1992, except Sweden which is since 1993.

*Source:* UK—UK Labour Force Survey, Spring Quarters, Employed aged 16 and over

EU—Eurostat New Cronos database, table: "/theme3/employ/indic_y", covering those employed aged 15 and over

US—US Bureau of Labor Statistics, Current Population Survey. Employed aged 16 and over

### Inland Revenue

**Mr. Laws:** To ask the Chancellor of the Exchequer how many Inland Revenue local tax offices there are; what their running costs were in the last year for which figures are available; and if he will make a statement. [156760]

**Dawn Primarolo:** The Inland Revenue has approximately 350 local Tax Offices. However many are located in multi-occupied buildings with other Revenue Offices. For example, a building might house a Tax Office but it could also house a Contact Centre, Tax Enquiry Point, Working Families Tax Credit Office etc. It would therefore require a disproportionate amount of effort to manually extract and disaggregate the running costs attributable to local Tax Offices.

### Population Growth

**Mr. Lilley:** To ask the Chancellor of the Exchequer what estimate he has made of the growth of the population up to 2031; what that estimate would be if there were no net immigration in future; and what estimate he has made of the proportion of expected population growth which is due to net immigration and dependants. [156194]

**Ruth Kelly:** The Government Actuary's latest (2002-based) principal population projection was published in December 2003. The Government Actuary also published a range of variant projections based on alternative assumptions in January 2004. The variant projections included a 'Natural Change' projection which assumes zero net migration in future. Relevant results from the principal projection and the natural change variant projection are summarised in the following table.

*Projected population change, United Kingdom 2002–31*

Million

| | *Principal projection* | *Natural change variant projection* |
|---|---|---|
| Population at mid-2002 | 59.2 | 59.2 |
| *Population change (2002–31)* | | |
| Natural change[1] | 2.6 | 0.9 |
| Net migration | 3.8 | — |
| Other changes[2] | -0.8 | — |
| Total change | 5.6 | 0.9 |
| Population at mid-2031 | 64.8 | 60.1 |

[1] Births less deaths.

[2] The principal projection includes a downward adjustment for unattributable population change. Not migration and other changes are both assumed to be zero in the natural change variant projection.

### Private Finance Initiative

**Mr. Tyrie:** To ask the Chancellor of the Exchequer what contribution was made to each of the figures in Table B5 of the pre-Budget report 2003 by Private Finance Initiative or associated schemes that have been accounted for on the balance sheet of the public sector client; and whether the data underlying Table B5 are updated when a particular Private Finance Initiative scheme subsequently moves on- or off-balance sheet to the public sector client. [156158]

**Mr. Boateng:** The assumptions used for the spending projections underlying Table B5 are set out in paragraph B27 on page 208 of the pre-Budget report. Current and capital expenditure under PFI contracts is fully recorded in the expenditure rows of Table B5, and hence in the fiscal aggregates consistent with independently set accounting and reporting standards. Accordingly, these tables will fully reflect the balance sheet treatment of assets once this treatment has been determined.

PFI contracts where the assets concerned are on departmental balance sheets are reported in departmental accounts, together with disclosure of information relating to any contracts assessed as off balance sheet.

### Research and Development Tax Credits

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer what plans he has to publish claims from large companies for research and development tax credits. [157203]

**Dawn Primarolo:** The research and development tax credit for large companies was introduced in April 2002. Claims are made as part of a company's corporation tax self assessment. Consequently, the first claims under this scheme have only just started to be received by the Inland Revenue.

### Spirit Duty

**Angus Robertson:** To ask the Chancellor of the Exchequer if he will list each bonded warehouse licensed by Customs and Excise which stocks spirits, including *(a)* geographic location and *(b)* gross volume turnover of spirits for each financial year since 1994. [155841]

**John Healey:** Customs and Excise approve warehouses to stock excise goods in duty-suspension. Quantities of spirits released for consumption in the UK, and UK production volumes, are published in Customs' Annual Report. Details of individual warehouses are not available; Exemptions 6 (Effective management of the economy and collection of tax) and 13 (Third party's commercial confidences) of the Open Government Code apply.

The numbers of excise warehouses approved to stock alcoholic drinks which may include spirits, in each country of the United Kingdom are shown in the following table.

| *Country* | *Approved warehouses* |
|---|---|
| England | 467 |
| Scotland | 213 |
| Northern Ireland | 32 |
| Wales | 21 |

The more detailed data requested could be obtained only at disproportionate cost.

### Taxation

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of reducing corporation tax to *(a)* 25 per cent. and *(b)* 20 per cent. [157572]

**Dawn Primarolo:** Reductions in the main rate of corporation tax of this magnitude would be likely to have indirect as well as direct effects on tax revenues. The "Tax Ready Reckoner and Tax Reliefs" published with the pre-Budget report in December showed the direct effects of a one percentage point change in the main rate of corporation tax in April 2004 as £650 million in 2004–05 and £1,300 million in 2005–06.

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of raising the threshold for inheritance tax to £1 million. [157575]

**Dawn Primarolo:** The PBR projection of inheritance tax yield is £2.8 billion for 2004–5. The full year cost of raising the inheritance tax threshold to £1 million in 2004–5 would be £2.5 billion.

### Thalidomide Trust

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer when he expects to announce the conclusion of his Department's discussions with the trustees of the Thalidomide Trust about the tax treatment of payments to the beneficiaries. [157221]

**Dawn Primarolo:** The tax affairs of the Thalidomide Trust are a matter for the Trust and the Inland Revenue. I can confirm that discussions between the Trust and officials of the Inland Revenue are currently taking place on a number of issues to ensure the Trust pays the correct amount of tax and the beneficiaries claim all the tax repayments and Tax Credits to which they are entitled. If the Trust wish to make an announcement about the outcome of those discussions then that is a matter for the trustees.

**Mr. Hoyle:** To ask the Chancellor of the Exchequer if he will make a statement on recent discussions with the trustees of the Thalidomide Trust. [157687]

**Dawn Primarolo:** I can confirm that discussions between the Thalidomide Trust and officials of the Inland Revenue are currently taking place on a number of issues to ensure the Trust pays the correct amount of tax and the beneficiaries claim all the tax repayments and Tax Credits to which they are entitled. However the tax affairs of the Thalidomide Trust are confidential and a matter for the Trust and the Inland Revenue. If the Trust wish to make a statement about those discussions then that is a matter for the trustees.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

13. **Paul Flynn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the results of efforts to reduce poppy cultivation in Afghanistan. [157425]

**Mr. Rammell:** The UK Government has regular discussions with the Afghan Government, the United Nations Office on Drugs and Crime (UNODC) and international partners about progress on measures to reduce opium poppy cultivation in Afghanistan. There are no immediate solutions and no single approach to address the variety of factors which influence farmers to grow poppy. The UK is supporting the Afghan Government in implementation of their national drug control strategy with £70 million committed over three years and a dedicated counter narcotics team in place in Kabul. We also co-hosted last month a counter narcotics conference in Kabul to increase Afghan and international awareness and engagement in tackling this problem.

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the current security situation in Afghanistan. [157023]

**Mr. Mike O'Brien:** The security situation in Afghanistan remains fragile. The two lethal bomb attacks on Canadian and UK IS AF personnel in January in Kabul followed the killing of four German ISAF personnel in a similar attack in June 2003. Other attacks, such as the murder of a UN employee in November 2003 and the attack near Kandahar on 22 February in which an Australian pilot was killed and a British aid worker wounded, have targeted the international community and NGO operations outside the capital. Security in the south continues to cause concern, especially near the border with Pakistan, where extremist groups are operating. There have been fewer problems in the north, but long-standing tensions persist and these can flare up into violence.

### Iraq

14. **Richard Ottaway:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the Iraq survey group. [157426]

**Mr. MacShane:** The Iraq Survey Group is continuing to undertake investigations at sites throughout Iraq in its search for evidence of Iraq's weapons of mass destruction programmes. The Group is also engaged on translation of the huge volume of documents that it has collected, and is interviewing scientists and others who were previously employed on Iraq's weapons programmes.

They will produce a further progress report in due course.

16. **Mr. Kilfoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps have been taken to establish who was responsible for forging documents relating to attempts by Iraq to obtain uranium from Niger. [157428]

**Mr. MacShane:** We have repeatedly made clear that our assessment that Iraq sought to procure uranium from Africa was not based upon the documents submitted to the International Atomic Energy Agency which subsequently were identified as forgeries. Since these documents did not have any bearing on our assessment, the Government has taken no steps to identify the forgers.

21. **Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Office what recent discussions he has had with the UN about its future involvement in Iraq. [157433]

**Mr. Rammell:** We are in regular discussion with representatives of the United Nations, at ministerial and official level, concerning its involvement in the reconstruction of Iraq. We warmly welcome the Secretary-General's recent report on the future political process in Iraq and its proposals on UN involvement.

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the senior members of the former Iraqi regime under Saddam Hussein detained by the Coalition Provisional Authority; how many are being held in Iraq; how many are being held outside Iraq; and at what locations. [145181]

**Mr. Ingram** *[holding answer 5 January 2004]:* I have been asked to reply.

The status of the 55 "most wanted" members of the former Iraqi regime may be found on the website of the US Central Military Command. The relevant website address is: www.centcom.mil/operations/Iraqi-freedom/55mostwanted.htm.

All those in Coalition custody are currently held in Iraq at undisclosed locations.

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs by whom, and under what authority, the leaders of Saddam Hussein's regime will be brought to trial. [157020]

**Mr. Rammell:** It is for the Iraqis to decide how to try senior members of the former regime. In December 2003, the Iraqi Governing Council (IGC) established a Special Tribunal to fulfil such a task. The IGC are in the process of agreeing the rules and procedures of the Tribunal.

### Gibraltar

15. **Mr. Hammond:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he will be taking to celebrate the three hundredth anniversary of British possession of Gibraltar. [157427]

**Mr. MacShane:** I refer the hon. Member to the answer I gave to the hon. Member for Poole (Mr. Syms) earlier today.

As my right hon. Friend, the Defence Secretary, said in this House on 27 November last year, we intend to play a full part in celebrating the warm relationship that we have enjoyed with the people of Gibraltar for the past 300 years. Units of HM Armed Forces will take part in a total of more than 20 events throughout the year. My right hon. Friend the Foreign Secretary is grateful to my noble Friend Baroness Symons for representing him at the Service of Thanksgiving and

Celebration now taking place at St. Clement Danes. As he told the Chief Minister of Gibraltar earlier this month, he sends his very best wishes for the Service and for this Tercentenary year.

### Zimbabwe

17. **Kate Hoey:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on sanctions against Zimbabwe. [157429]

**Mr. Mullin:** Our policy, and that of our EU partners, is to use targeted measures against Zimbabwe's leadership as a means of pressing it to return to democratic governance which respects human rights and the rule of law. We do not support economic or trade sanctions, as these would have a negative impact on all Zimbabweans. The EU measures are targeted on the ZANU(PF) leadership and on those who are responsible for human rights abuses and do not impact on ordinary Zimbabweans. On 19 February the EU agreed, by consensus, to continue with the targeted measures for another year and to extend from 79 to 95 the number of people on the travel ban and assets freeze.

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with Commonwealth governments about tightening sanctions against members of the Mugabe regime in Zimbabwe. [157016]

**Mr. Mullin:** There are no Commonwealth sanctions on Zimbabwe. The Commonwealth suspended Zimbabwe from its Councils in 2002. Commonwealth Heads of Government decided to continue the suspension when they met in Nigeria in December 2003. Following that decision Mugabe decided to withdraw Zimbabwe from the Commonwealth. The EU does have targeted measures against Zimbabwe consisting of a travel ban, assets freeze and arms embargo. On 19 February the EU decided to continue these measures for another year and to extend by 16 the number of people on the travel ban and assets freeze. The measures are now targeted on 95 people.

**Simon Hughes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action is being taken by Her Majesty's Government to assist in the restoration of freedom and democracy in Zimbabwe. [157420]

**Mr. Straw:** The Government are providing practical and political support to civil society, human rights organisations and all those in Zimbabwe who want to see an early return to a democratically accountable government which respects human rights and the rule of law.

We are providing humanitarian assistance to millions of Zimbabwean people on the basis of need.

We are encouraging the South African government, and others in the region, to push for a return to democracy and freedom.

We have been a consistent advocate of a robust international approach. In December, we argued successfully to maintain Zimbabwe's suspension from the Commonwealth. Mugabe has since withdrawn from the Commonwealth, demonstrating that he is now incapable of meeting the Harare principles which he helped to establish.

This week, the EU extended sanctions against the Mugabe regime, rightly standing with the people of Zimbabwe, and against those responsible—Mugabe and his government—for bringing a once prosperous and successful state to the edge of total collapse. The number of those caught by the sanctions now rises from 79 to 95. Those we have added to the list include several individuals who bear particular responsibility for the abuses of human rights in Zimbabwe.

Zimbabwe's opposition party welcomed this move, saying it was "a clear indication that the international community will not fold its arms while the regime in Zimbabwe continues to trample upon people's basic human rights".

### Abdul Quader Khan

18. **Mr. Dalyell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of action taken to break up the network of Abdul Quader Khan since 18 December 1979. [157430]

**Mr. Mike O'Brien:** The intelligence community in the UK and in the US have been working on this network for several years—they identified it, monitored it, penetrated it, and finally took action against it with the result we have seen in recent weeks. We, the US Government and other Governments are now engaged in winding it up.

### Northern Uganda

19. **Valerie Davey:** To ask the Secretary of State for Foreign and Commonwealth Office what action he has taken following the recent massacre and ensuing violence in Northern Uganda. [157431]

**Mr. Mullin:** This Government deplores the brutal massacre of around 200 innocent civilians in a camp for internally displaced persons in northern Uganda which took place on 21 February. We are also extremely concerned about the ensuing inter-ethnic violence in Lira and Gulu. We are urging the Government of Uganda and local religious and community leaders to restore calm.

A UN Humanitarian Assessment Team is now in the Barlonyo area. Relief supplies have begun to be distributed to the survivors. Serious burns victims have been moved to Lira Hospital. The British High Commission and DFID remains in close contact with the United Nations and other agencies on the ground. UN assistance includes contributions from the UK.

### Saddam Hussein

20. **Jim Sheridan:** To ask the Secretary of State for Foreign and Commonwealth Office where Saddam Hussein is being held; and what legal procedures are to be taken against him. [157432]

**Mr. Rammell:** Saddam Hussein is being held as a prisoner of war by the US in Iraq. It is coalition policy not to disclose the precise location of detainees for

security reasons. It is for the Iraqis to decide what legal procedures should be taken against him. In December, the Iraqi Governing Council established a Special Tribunal to try senior members of the former regime. Iraqis are currently discussing the rules and procedures for this tribunal.

### India/Pakistan

22. **Colin Burgon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the current state of the relationship between India and Pakistan. [157434]

**Mr. Mike O'Brien:** We warmly welcome the 18 February announcement that India and Pakistan have agreed an agenda and a timetable for substantive talks to commence after the Indian General Election. This consolidates the breakthrough announced by President Musharraf and Prime Minister Vajpayee in January, and shows the willingness of both countries to address each other's concerns through peaceful engagement. We appreciate that there will be no quick or easy solutions, but wish both governments well and hope that the talks will be sustained and, in due course, lead to the resolution of all their outstanding differences, including over Kashmir.

### Antarctica

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many visitors there were to Antarctica in each year since 1995; and what projections are available for future years. [157730]

**Mr. Rammell:** The International Association of Antarctica Tour Operators (IAATO) has published the following figures on tourist visitors to Antarctica:

| *Antarctic austral season* | *Number of visitors (estimated actual figures)* |
|---|---|
| 1995–96 | 9,367 |
| 1996–97 | 7,413 |
| 1997–98 | 9,604 |
| 1998–99 | 10,013 |
| 1999–2000 | 13,826 |
| 2000–01 | 12,248 |
| 2001–02 | 11,588 |
| 2002–03 | 13,571 |

These figures include ship and land-based passenger numbers. Commercial yacht activity is included from 1997–98, and 2002–03 figures include airborne passengers making landings.

IAATO estimates that visitor numbers will increase to 20,818 for 2003–04 and 21,216 for 2004–05. However, the biggest growth in the tourist industry over the next decade is expected to be large ships and over-flights, which do not land passengers in Antarctica.

### China

**Mr. Wilkinson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the EU-People's Republic of China Dialogue. [157410]

**Mr. Straw:** I welcome the recent round of the EU/China Human Rights Dialogue which took place in Dublin on 26/27 February. The bi-annual dialogue allows the EU to raise its human rights concerns regularly with China. In addition to the usual agenda on a wide range of human rights issues, the Presidency focused on China's ratification of the ICCPR. The Presidency also handed over a list of individual cases.

### Colombia

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what visits have been made to the areas of conflict in Colombia by UK diplomatic representatives in the past year. [157710]

**Mr. Rammell:** Members of the diplomatic staff at our Embassy in Bogota travel around Colombia as widely and as frequently as they can within the constraints of local security conditions. In the past year, Embassy staff have carried out many visits outside of Bogotá, including to a range of other cities in Colombia and where possible into areas where the effects of the conflict are greatest. In the latter category, areas visited include: Cúcuta, Choco, San Vicente del Caguán, Arauca and Saravena, northern Cundinamarca (Pacho), Barrancabermeja, Sierra Nevada de Santa Marta, Amazonas, La Guajira, Monteria (Córdoba) and Antioquia; all places which have seen serious conflict in recent months.

### Diego Garcia

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the current population of Diego Garcia are *(a)* US military personnel, *(b)* UK military personnel, *(c)* civilian workers and *(d)* detainees; and if he will make a statement. [157690]

**Mr. Rammell:** The current population on the island of Diego Garcia consists of:

(a) approx 1,400 US military personnel

(b) approx 40 UK military personnel

(c) approx 1,800 civilian workers (mainly of Mauritian and Filipino nationality).

There are no detainees in Diego Garcia or elsewhere in the British Indian Ocean Territory.

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have been held with *(a)* the Chagos Refugee Association and *(b)* other groups on the possibility of return to Diego Garcia and the Chagos Islands of the original inhabitants and their descendants; and if he will make a statement. [157708]

**Mr. Rammell:** We have held many discussions with representatives of the Chagos Refugees Group, and with other persons claiming to represent the views of the Chagossian community. In that context, a team of independent experts was commissioned in April 2000 to carry out a study of the feasibility of a return to the Chagos Islands. Their report on the second phase of their study was delivered in June 2002.

In the meantime, various members of the Chagossian community, including the leaders of the Chagos Refugee Group, initiated legal proceedings against the Government in the High Court, raising, among other

things, issues relating to such a return. Though the High Court has given summary judgement in favour of the Government in these proceedings, the claimants have applied for leave to appeal and their application is still pending. No final decision has been taken on the future of the feasibility study.

### EU Constitution (Solidarity Clause)

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the Government's policy to support a solidarity clause in the constitutional treaty between EU member states in the event of attack. [157111]

**Mr. MacShane:** The Government support the proposal to establish a solidarity clause, on the basis of the language for the draft Constitutional Treaty for the EU, presented by the Italian presidency to the Inter Governmental Conference in December.

### Free Movement of Workers

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs what transitional arrangements for the free movement of workers from relevant states among the countries acceding to the European Union have been put in place by *(a)* Ireland, *(b)* Denmark, *(c)* Sweden, *(d)* Finland, *(e)* Germany, *(f)* Austria, *(g)* the Netherlands, *(h)* Belgium, *(i)* Luxembourg, *(j)* France, *(k)* Spain, *(l)* Portugal, *(m)* Italy and *(n)* Greece; what transitional arrangements EU partners have indicated they will put in place; and if he will make a statement. [154171]

**Mr. MacShane:** After Accession on 1 May, nationals from the ten new EU member states will be able to travel freely throughout the EU. However, except for nationals of Malta and Cyprus, they will not automatically be allowed to work in the existing member states. Those existing member states may, however, open their labour markets to nationals from the new member states if they so choose.

*(a)* Ireland will open their labour markets to nationals from the new member states.

*(b)* Denmark will open its labour market from 1 May, but has decided to impose a new administrative set-up with work and residence permits for new EU citizens. Citizens from the new member states will be able to stay in Denmark for a six month job-seeking period during which they will not be entitled to social benefit. This rule also applies to other EU citizens. A Work and Residence Permit will be granted for one year (as opposed to five year residence certificate for present EU member states' citizens) only if the person concerned has found a job and will be employed on the same pay and working conditions as those applying on the Danish labour market.

*(c)* Sweden will open its labour market from 1 May, but the Swedish Government has signalled its intention to introduce transitional arrangements for workers from the new member states. It has yet to bring forward formal proposals.

*(d)* Finland will impose a two-year transition period and existing controls on workers from eight of the ten new member states will apply. No restrictions will apply to citizens of Malta and Cyprus.

*(e)* Germany will apply a transition period for two years, which may be extended to seven. Existing controls on workers from the relevant eight new member states will apply.

*(f)* Austria will apply a transition period of at least two years. After that, it has indicated that it will follow Germany's lead.

*(g)* The Netherlands is not imposing a transition period. The Dutch Cabinet agreed on 23 January to introduce a system of work permits for workers from new member states from 1 May. But this proposal was rejected by the Dutch Parliament on 9 February that asked for tougher measures. On 13 February the Dutch Government came forward with new proposals which will only allow workers from new member states to work in sectors where there is a shortage of available suitably qualified Dutch or EU nationals. The Centres for Work and Income (Job Centre Plus equivalent) will decide which sectors have such a shortfall. These regulations will be effective from 1 May 2004 to 1 May 2006. An evaluation of the system will take place before 1 May 2005 to see if these restrictions can be relaxed earlier.

*(h)* Belgium will impose a transition period of at least two years.

*(i)* Luxembourg will impose a transition period of at least two years.

*(j)* France will impose a transition period of at least two years.

*(k)* Spain will apply a transition period for two years. Depending on developments in the labour market, they may allow new member states citizens full rights to work before the end of the transition period. Spain has a bilateral agreement with Poland to allow a limited number of Poles to work in Spain.

*(l)* Portugal has yet to decide whether it will open up its labour market to workers from the eight new member states.

*(m)* Italy has yet to decide whether it will open up its labour market to workers from the eight new member states.

*(n)* Greece is imposing a two year transition period.

My right hon. Friend the Home Secretary made clear UK Government policy in this House on 23 February 2004, *Official Report*, columns 23–25. The UK has decided to allow free movement of workers to those who genuinely want to come and work here. Genuine workers from the eight new member states will be allowed access to the UK labour market via a workers registration system. This will benefit the UK economy, expanding the range of skills and supply of workers available across the UK.

Maltese and Cypriot nationals will be free to work anywhere in the EU.

### Fund Expenditure

**Mr. Laws:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of expenditure on the *(a)* Drugs Assistance Fund, *(b)* Human Rights Fund and *(c)* Environment Fund for each year from 1996–97 to 2005–06; and if he will make a statement. [156606]

**Mr. Rammell:** Foreign and Commonwealth Office (FCO) expenditure on these programmes is shown in the following table:

*£ million*

| | *1996–97* | *1997–98* | *1998–99* | *1999–2000*[1] | *2000–01* | *2001–02* | *2002–03* | *2003–04*[2] | *2004–05*[3] | *2005–06*[3] |
|---|---|---|---|---|---|---|---|---|---|---|
| *(a)* Drugs Assistance Fund[4] | 0.9 | 4.4 | 5.9 | 6.0 | 6.0 | 7.3 | 10.0 | 9.4 | 9.4 | 9.4 |
| *(b)* Human Rights Fund[5] | — | — | 5.0 | 5.1 | 6.0 | 6.6 | 7.4 | 11.1 | 10.5 | 14.5 |
| *(c)* Environment Fund[6] | — | — | 0.6 | 0.9 | 2.5 | 2.9 | 3.0 | 4.8 | 4.2 | 6.3 |

[1] Outturn
[2] Budget
[3] Plan
[4] FCO programme activity in support of drugs objectives includes the former Drugs Assistance and Drugs Programme Fund, now (since 2001–02) the Drugs and Crime Fund.
[5] The Human Rights Project Fund was started in 1998–99 but was subsumed into the new Global Opportunities Fund (GOF) in 2003–04. Figures from that year onwards include Human Rights Programme activity under several strands of the GOF e.g. Engaging with the Islamic World, Re-Uniting Europe and Strengthening Relationships with Emerging Markets, but not human rights activity across all FCO programme budgets.
[6] The Environment Project Fund (EPF) was started in 1998–99 but was subsumed into the new GOF in 2003–04. The figures from that year onwards include estimated expenditure on the environment across all FCO programmes, not just the former EPF.
*Note:*
The figures for 2004–05 and 2005–06 indicate current spending plans. All future resource allocations may be subject to review in the light of changing foreign policy priorities. 2005–06 spending plans will be covered by the 2004 Spending Review.

### Haiti

**Lady Hermon:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the current situation in Haiti. [157648]

**Mr. Rammell:** The UK welcomes the constitutional succession and political process now underway in Haiti in order to promote a peaceful and lasting solution to the current crisis.

The UK welcomes the adoption of UN Security Council Resolution 1529 which authorises the deployment of a multi-national Interim Force to Haiti and declares the Security Council's readiness, within three months, to establish and deploy a UN stabilisation force that will support the continuation of a peaceful and constitutional political process.

### Hong Kong

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether China has informed him of plans to change the legal system in Hong Kong. [157820]

**Mr. Rammell:** We are not aware of any plans to change the legal system in Hong Kong. The Sino-British Joint Declaration of 1984 provided for the maintenance of the existing legal system in Hong Kong after the handover in 1997. The Joint Declaration also provides that the legal system in Hong Kong should be autonomous from the legal system of mainland China and should be vested with independent judicial power. This should remain unchanged until at least 2047.

### India and Pakistan

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the state of the relationship between India and Pakistan. [157018]

**Mr. Mike O'Brien:** We warmly welcome the recent announcement by India and Pakistan that they have agreed an agenda and a timetable for substantive talks, due to begin after the Indian General Election. Following the breakthrough in relations announced by President Musharraf and Prime Minister Vajpayee at the start of January, this agreement demonstrates the commitment of both countries to address each other's concerns. We support both governments in their efforts, recognising that the talks will be the start of a long and difficult process and hope that they will, in due course, lead to the resolution of all their outstanding differences, including over Kashmir.

### Interception of Communications

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he is empowered to authorise the interception of communications where that communication begins and terminates outside UK territory. [157921]

**Mr. Straw:** I refer the hon. Member to Sections 5, 7 and 8 of the Regulation of Investigatory Powers Act 2000.

### Iran

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Iranian Government about pluralist democratic procedures in their recent national election. [157021]

**Mr. Rammell:** In his contacts with Iranian leaders, my right hon. Friend the Foreign Secretary has made clear our support for Iran's efforts to reform. The flawed parliamentary elections held on 20 February were a setback for Iran's democratic development. On 23 February, EU Foreign Ministers expressed their deep regret and disappointment that large numbers of candidates, including many sitting deputies, had been prevented from standing, thus making a genuine democratic choice by the Iranian people impossible. For

elections in any country to be regarded as free and fair, electors must have a chance to vote for candidates with a range of views.

**Mr. John Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to prevent the flow of Shia Muslims from Iran into Southern Iraq. [157579]

**Mr. Rammell:** We are monitoring the border situation closely, and have been in contact with all Iraq's neighbours, including Iran, to urge them to take steps to ensure better border security. Within Iraq, Coalition forces have been conducting operations aimed at monitoring and reducing illegal cross-border traffic. In the long-term, we are working hard to train all Iraqi security forces, including those with responsibility for border security.

### Israel

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the stance of the Government at the International Court of Justice with regard to the reference of the Israeli security fence. [156390]

**Mr. Rammell:** The Government believe that the building of a wall on Palestinian territory is unlawful but that the International Court of Justice (ICJ) should exercise its discretion not to give an opinion on this matter on the grounds:

that an opinion is not needed by the UN and could hinder the peace process;

that it involves essentially a bilateral dispute, one of the parties to which has not consented to the ICJ's jurisdiction;

and that it would involve the determination of issues of fact, on which the necessary evidence is not before the Court.

A copy of the UK's written statement to the ICJ to this effect has been placed in the Library of the House.

### Katharine Gun

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with the Attorney-General concerning the case of Katharine Gun before the Crown Prosecution Service decided not to offer any evidence against her. [157847]

**Mr. Straw:** Because I have statutory responsibility for GCHQ, I spoke with the Attorney General by telephone on 14 February and at a meeting on 24 February about the Gun case. The purpose on both occasions was to learn about the position of the prosecuting authorities relating to the continuation of the prosecution. I took no part in the decisions relating to discontinuation of the prosecution.

I was earlier consulted by the Attorney General, in accordance with the Shawcross procedure, about public interest issues relating to the case, before he took the decision to initiate the prosecution.

### Kuwait

**Mr. Cousins:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the policy of the Government to continue *(a)* the approval of new claims in Kuwait and *(b)* the payment and settlement of claims in Kuwait under the UN Compensation Commission. [157042]

**Mr. Rammell:** The UK Government support the UN Compensation Commission's (UNCC) approval of Kuwait's submission of certain new claims relating to the 605 detainees held in Iraq following the 1990 invasion of Kuwait, and who are now believed to be dead.

The Government support the completion of the UNCC's claims processing work for all claimant states, including Kuwait, and for the payment of approved awards, to the extent that it has funds available to do so.

### Libya

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on developing British relations with Libya. [157015]

**Mr. Rammell:** Libya's announcement, on 19 December 2003, that it would dismantle its Weapons of Mass Destruction programmes opened the way to Libya's reintegration into the international community.

The visit of the Libyan Foreign Minister, Abdul Rahman Shalgam, to the UK from 9 to 10 February was tangible proof of the improving relations between Libya and the UK. Discussions covered a broad range of bilateral and regional issues.

The UK and Libya will now seek to build on these contacts to develop further our political, cultural and commercial ties, helping Libya in its aim of restructuring its economy and co-operating in tackling terrorism.

The Government will continue to seek progress on the difficulties that remain between the United Kingdom and Libya. My right hon. Friend the Foreign Secretary has had an assurance from Foreign Minister Shalgam that Libya stands by the commitments it has given on the Lockerbie bombing and on the investigation into the murder of WPC Yvonne Fletcher.

### Non-military Overseas Sites

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the overseas sites which are owned by the Government for non-military purposes; and if he will make a statement on the Government's disposals policy for them. [157164]

**Mr. Rammell:** The National Asset Register lists overseas properties (over a book value of £3,000) owned by the Foreign and Commonwealth Office. All such assets are held for diplomatic use. The latest edition of the register, published in July 2001 (Cm5221), can be found at: www.hm-treasury.gov.uk/mediastore/otherfiles/218.pdf

The Foreign and Commonwealth Office has an on-going programme of estate modernisation. Under an agreement with the Treasury, land or buildings that are surplus, not operationally effective or not providing value for money, are sold and the proceeds are then reinvested.

### North Korea

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to promote cultural and sporting exchanges between the United Kingdom and North Korea. [157539]

**Mr. Rammell:** We are not specifically promoting any cultural or sporting events between the UK and the Democratic Peoples Republic of Korea.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the *(a)* size and *(b)* value of heroin exports from North Korea in each of the last five years. [157543]

**Mr. Rammell:** There is no evidence that heroin has been trafficked through North Korea to the UK in significant quantities during the period in question.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the UNHCR in Geneva and *(b)* his counterparts in the European Union about possible visits by international inspection teams to assess prison conditions in North Korea. [157537]

**Mr. Rammell:** UNHCR's responsibility is for the welfare of refugees and, as such, it has no mandate to inspect prisons in the Democratic People's Republic of Korea (DPRK).

In the EU, the issue has been discussed by member states regularly. The resolution on DPRK at the UN Commission on Human Rights in 2003, tabled by the EU, included a specific request for the North Korean authorities to allow inspection visits by international independent monitors.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the size of the prison population in North Korea. [157538]

**Mr. Rammell:** The US Committee for Human Rights in North Korea, in a report dated October 2003, estimated the prison population of North Korea to be around two hundred thousand.

We have no access to any more accurate and reliable figures.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the nature and extent of the United Kingdom's diplomatic ties with North Korea are. [157542]

**Mr. Rammell:** The UK and the Democratic People's Republic of Korea (DPRK) established full diplomatic relations on 12 December 2000. The British Embassy in Pyongyang was established in July 2001, and the DPRK Embassy in London was established in November 2002.

Through both Embassies we ensure that we take regular opportunities to emphasise to the DPRK authorities our strong concerns on human rights and on the nuclear issue. We make clear that the scope of our co-operation with the DPRK will remain severely limited until progress is made on meeting these concerns.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of per capita income in *(a)* North Korea and *(b)* South Korea in 2004. [157544]

**Mr. Rammell:** South Korea's average income per capita in 2002 (latest year for which actual figures are available) was US$9,979. This year, the figure is expected to reach around US$12,000, owing to economic growth and appreciation of the Korean won against the US dollar.

The North Korean government does not publish economic statistics. Reliable figures for per capita incomes are therefore unavailable. However, the Bank of Korea (South Korea's central bank) estimate average per capita incomes in the Democratic People's Republic of Korea in 2002 was US$760. The figure is unlikely to have changed significantly since then.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of trade sanctions by the United States on the economy of North Korea. [157556]

**Mr. Rammell:** The US lifted trade sanctions on North Korea in 2000, although US exports of arms and certain products with possible military use remain banned. Despite the lifting of sanctions, trade flows are small—IMF figures for 2002 show the US exporting only US$25 million worth of goods to North Korea in 2002 and importing less than US$l million.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the incidence of *(a)* infanticide and *(b)* torture in prisons in North Korea. [157568]

**Mr. Rammell:** We are appalled by the reports of infanticide, torture and other inhumane treatment carried out in North Korean prisons. We have expressed our concerns regularly to the North Korean government at both ministerial and official levels, and have called for access by international monitors to verify the conditions in North Korean prisons. I recently called in the Democratic People's Republic of Korea Ambassador to register my strong concerns.

## Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many parliamentary questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157744]

**Mr. Straw:** As of 27 February 2004, 3,668 written parliamentary questions (PQs) had been tabled to my Department since 1 January 2003, of which 3031 were for ordinary written answer and 637 for answer on named day.

Since 1 January 2003, 94 per cent. of ordinary written PQs have been answered within 10 working days and 74 per cent. of named day PQs answered on time.

## Russia

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Russian Foreign Minister about EU enlargement. [157397]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary maintains regular dialogue with his Russian counterpart on a range of issues, including EU enlargement and EU/Russia relations.

### Scholarships

**Mr. Laws:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the cost of Foreign Office scholarships for each year from 1996–97 to 2005–06 (planned); what value for money assessment has been made of the scheme; and if he will make a statement. [156605]

**Mr. Mullin:** Annual costs of Foreign and Commonwealth Office (FCO) scholarships during the period are:

| | *Number of scholars* | *Cost (£ million)* |
|---|---|---|
| 1996–97 | 2,198 | 34 |
| 1997–98 | 2,259 | 36 |
| 1998–99 | 2,196 | 39 |
| 1999–2000 | 2,300 | 40 |
| 2000–01 | 2,470 | 45 |
| 2001–02 | 2,510 | 46 |
| 2002–03 | 2,568 | 48 |
| 2003–04 | [1]2,487 | [2]49 |
| 2004–05 | n/k | [2]49 |
| 2005–06 | n/k | [2]49 |

[1] estimated
[2] planned
n/k = not known

FCO scholarships include Chevening Scholarships, Marshall Scholarships, Atlantic Fellowships and the FCO contribution to the UK input into the Commonwealth Scholarship and Fellowship Plan.

An external review of FCO scholarships in 2003 examined value for money issues and recommended some reprioritisation within the Chevening scholarships scheme in particular. I will place a copy in the Library of the House.

### Surveillance

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs what requests have been made to the US authorities to undertake *(a)* interception of communications and *(b)* surveillance of (i) hon. Members and (ii) other UK citizens where such activity would require express authorisation from a senior Minister in the UK were it to be carried out by UK authorities. [157864]

**Mr. Straw:** It is the well established and long standing practice of successive Governments not to comment on operations of the Intelligence Services.

## DEPUTY PRIME MINISTER

### Council Tax

**Mr. Truswell:** To ask the Deputy Prime Minister if he will list by type of authority *(a)* the Band D council tax level set by each local authority for 2004–05, excluding precepts, *(b)* the percentage change of *(a)* from 2003–04, *(c)* the precept set by the authority's relevant Fire and Civil Defence Authority for 2004–05, *(d)* the percentage annual change represented by *(c)*, *(e)* the precept set by the relevant police authority for 2004–05, *(f)* the percentage annual change represented by *(e)*, *(g)* the sum total of *(a)*, *(c)* and *(e)* and *(h)* the percentage change of *(g)* compared to 2003–04. [156991]

**Mr. Raynsford:** Precepting authorities have until 1 March to set their council taxes for 2004–05, and billing authorities have until 11 March. The requested information will be published after all local authorities have set their council taxes and notified their figures to the Office of the Deputy Prime Minister.

**Mr. Steinberg:** To ask the Deputy Prime Minister what the total grant received from his Department is in Durham to compensate for loss in revenue from council tax consequent on student exemption from council tax. [156779]

**Mr. Raynsford:** There is no separate grant in respect of council tax revenue foregone through student exemptions.

The main central Government support for spending by the City of Durham is through redistributed business rates and Revenue Support Grant, together known as Formula Grant. The amount of Formula Grant for Durham City depends on Durham's Formula Spending Share, Durham's share of the assumed national council tax, Durham's council tax base, and the operation of the floor and ceiling damping mechanism. Where there are student exemptions this will reduce the council tax base and so result in additional Revenue Support Grant.

### Departmental Advertising

**Malcolm Bruce:** To ask the Deputy Prime Minister how much *(a)* his Department and *(b)* each agency and non-departmental public body sponsored by his Department spent on (i) advertising and (ii) information campaigns in each year since 2001–02. [149916]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002.

In the financial year 2002–03 the office spent £3,346,943 on advertising and £3,718,767 on information campaigns.

In the financial year 2003–04 the Office spent £3,411,000 on advertising and £6,882,000 on information campaigns.

In both years the majority of the spend was on Fire Safety campaign (93 per cent.).

Figures for each agency and non-departmental bodies are not held centrally and could be supplied only at disproportional cost.

### Fire Sprinklers

**Sandra Gidley:** To ask the Deputy Prime Minister what assessment he has made of the effectiveness of sprinkler systems in tackling fires in residential properties. [157368]

**Phil Hope:** The Office of the Deputy Prime Minister commissioned, in April 2001, an extensive research project with the Building Research Establishment (BRE) to consider fully the effectiveness of residential sprinklers. BRE published their research last month and a summary document of the work can be found on the Building Regulations section of the Office of the Deputy Prime Minister's website—www.odpm.gov.uk

The findings of the research indicate that residential sprinklers would appear to be generally effective in controlling fires. However, the work did show that in the case of some slow burning and shielded fires people

could still eventually be overcome by smoke inhalation. The research also found that it would not be cost effective to require the universal installation of sprinklers in all residential premises. However, the research concluded that in some types of premises, typically those where the occupants are considered to be the most vulnerable to fire, further consideration is warranted. These premises include residential care homes, high-rise houses and flats and higher risk houses in multiple occupation.

As part of our current review of the fire safety aspects of the building regulations we will be considering the findings of the BRE research to see if there is a case for introducing amendments that enable us to target the provision of sprinklers in those new and altered premises where the people are considered to be most vulnerable.

### Green Belt

**Mr. Brady:** To ask the Deputy Prime Minister what *(a)* area in hectares and *(b)* percentage of green belt land within Metropolitan authorities has been removed from green belt designation since 1997. [157920]

**Yvette Cooper:** Statistics on the extent of green belt in England were last published in 2000, based on area of green belt contained in local development plan maps existing in 1997. Officials in the Office of the Deputy Prime Minister are currently investigating the extent of designated green belt changes for authorities that have adopted new development plans since 1997. These updated statistics on green belt will be published shortly. I will write to the hon. Member when the information is available.

### Regional Planning Guidance

**Bob Spink:** To ask the Deputy Prime Minister when he will publish the new Regional Planning Guidance for East of England (RPG14). [157170]

**Keith Hill:** The East of England Regional Assembly plan to submit Draft RPG 14 in Autumn 2004; this will be followed by a period of consultation and a formal Examination in Public. The Government expects to publish the final version as a Regional Spatial Strategy for the East of England (RSS14) in summer 2006. Regional Planning Guidance documents will become Regional Spatial Strategies on commencement of the Planning and Compulsory Purchase Act currently before Parliament.

### Thames Gateway

**Bob Spink:** To ask the Deputy Prime Minister pursuant to his answer of 2 February 2004, *Official Report*, column 744W, on the Thames Gateway, by when the Gateway delivery office will be operational. [157269]

**Keith Hill:** A new Thames Gateway directorate has been established in the Office of the Deputy Prime Minister, responsible for securing delivery of the Government's agenda for the Gateway. The Thames Gateway Delivery Unit will be established as part of the new directorate with premises in the Thames Gateway in April 2004.

## ELECTORAL COMMISSION

### Voter Registration

**Mark Tami:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what steps the Electoral Commission is taking to increase levels of voter registration. [156539]

**Mr. Viggers:** The Commission undertakes national public awareness campaigns, including campaigns targeted at specific groups such as students and home-movers. It also provides support to local authority elections staff in the form of advice and best practice guidance on both the local promotion of electoral registration and the application of new legislation in this area.

The Commission is also undertaking research that will provide a better understanding of the extent and nature of under-registration, together with an assessment of the operation and impact of 'rolling registration' on levels of registration.

## CULTURE, MEDIA AND SPORT

### Alcohol Licences

**James Purnell:** To ask the Secretary of State for Culture, Media and Sport (1) what plans she has to tackle anti-social behaviour near premises with licences to sell alcohol; [157760]

(2) what discussions she has had with local councils on increasing the responsibility of landlords with alcohol licences for excessive consumption of alcohol and associated public disorder problems; [157761]

(3) what plans she has to attach conditions to licences for *(a)* public houses and *(b)* other drinking establishments. [157762]

**Mr. Caborn:** The responsibility for attaching conditions to liquor licences under current law rests with the licensing justices. Under the Licensing Act 2003, which received Royal Assent on 10 July 2003, this responsibility will be transferred to licensing authorities which, in the main, are local authorities. There are two mandatory conditions in the 2003 Act, which will be attached in all cases where a premises licence authorises the supply of alcohol. The first is that no supply of alcohol may be made at a time when there is no designated premises supervisor in respect of the premises or at a time when the premises supervisor does not hold a personal licence or it is suspended. The second is that every supply of alcohol under the premises licence must be made or authorised by a person who holds a personal licence.

The 2003 Act provides further mechanisms to promote the prevention of nuisance and crime and disorder. The Act introduces the review of licences. Interested parties and responsible authorities will be able to request that a review of a premises licence occurs on a ground which is relevant to one or more of the licensing objectives (the prevention of crime and disorder, the prevention of public nuisance, the protection of children from harm and public safety). The review may lead to modifications of the conditions

on the licence, the exclusion of certain licensable activities from the licence, the removal of the premises supervisor, or the suspension or revocation of the licence.

In addition, the 2003 Act provides powers for a magistrates court in a particular area to make an order requiring premises at or near a place of disorder, or expected disorder, to be closed for a period not exceeding 24 hours.

In addition a particular premises may be closed if a senior police officer reasonably believes there is, or is likely imminently to be, disorder on, or in the vicinity, of the premises and the closure is necessary for public safety, or alternatively if a public nuisance is being caused by noise coming from the premises and closure is necessary to prevent the nuisance. These closure orders can be for up to 24 hours and may be extended in certain situations. These powers will also be applicable to temporary events held under temporary event notices.

In addition to these provisions, the 2003 Act contains offences such as the sale of alcohol to a person who is drunk or obtaining alcohol for a person who is drunk. Before the licensing Bill was introduced, during its passage through Parliament and since Royal Assent, we have engaged in extensive and detailed consultation with the Local Government Association, the Association of London Government and the Local Authorities Co-ordinators of Regulatory Services about the provisions of the new legislation and its implementation.

### Crystal Palace

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the progress of negotiations regarding the future of Crystal Palace sports facilities; and what role the Government have played in the negotiations. [157758]

**Mr. Caborn:** As the hon. Member for Bromsgrove may be aware, it was announced on 25 February that Sport England, the Greater London Authority and the London borough of Bromley have between them secured the future of the National Sports Centre. Details of the re-development, and its timing, are yet to be finalised.

Sport England's lease will continue for a further two years. After that, the London Development Agency will take responsibility for the site. This will ensure that the Crystal Palace Grand Prix—the last major athletics event before the Athens Olympics—will take place this summer.

It has been agreed that Sport England, the Greater London Authority/London Development Agency and the London borough of Bromley will each pay one third of the maintenance costs for the first year of the agreement. After that, the London Development Agency will be solely responsible. This will be the starting point for the modernisation of the whole of Crystal Palace Park.

The Government have remained close to all partners throughout discussions.

### Departmental Budget

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport when the updated figures for her Department's budget for the next five years will be published. [157788]

**Mr. Caborn:** I refer the hon. Member to the reply I gave her on 5 January 2004, *Official Report*, column 129W.

The Department for Culture, Media and Sport's Annual Report 2004 is expected to be published in April 2004. All data will be subject to revision following the outcome of the Spending Review 2004, due in the autumn, at which time budgets for 2006–07 will be agreed.

### Departmental Christmas Card

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what the total cost was of producing her Department's Christmas card last year. [157790]

**Mr. Caborn:** The cost of the production of the DCMS Christmas card for 2003 was £1,587.50.

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how many Christmas cards were sent by her Department last Christmas. [157791]

**Mr. Caborn:** There were 3,798 Christmas cards sent out from DCMS in 2003.

### Digital Television

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the purchases necessary to receive digital television in different areas of the United Kingdom. [157514]

**Estelle Morris** *[holding answer 1 March 2004]:* There are four ways consumers can receive digital television today:

*(a) Terrestrially*

Consumers need to buy either a digital adapter (set top box) or an integrated digital television. While many people will be able to use their existing aerials, some may need to have new aerials or cabling installed to receive all services. Digital terrestrial television is now receivable in around 75 per cent. of the UK.

*(b) Through Satellite*

Consumers need to get either a digital satellite adaptor and connect it to their existing analogue TV set or a digital TV set designed to receive digital satellite signals. They will also need a dish installed outside their home. Digital satellite signals reach the vast majority of UK homes, but in a few cases reception may not be possible, because the line of sight to the satellite is obstructed, or because planning or property regulations do not permit householders to put up a dish.

*(c) Through Cable*

Consumers need a set top box provided and installed by the operator of the cable network which serves their home, if they live in a cabled area.

*(d) Through Broadband DSL*

A fourth digital platform is emerging through use of digital subscriber line technologies based on telephony network cabling. Today, this service is only available in Kingston upon Hull, and London.

More information is available on www.digitaltelevision.gov.uk.

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport what efforts her Department is making to ensure that all households that desire it have access to digital television prior to the analogue signal being switched off. [157515]

**Estelle Morris** *[holding answer 1 March 2004]:* The Department for Culture, Media and Sport is working with stakeholders, within the Digital Television Action Plan, to ensure that everyone who can currently get the main public service broadcasting channels in analogue form (BBC 1 and 2, ITV, Channel 4/S4C and Channel 5) will be able to receive them on digital systems. However, this might not be possible before switchover for a small minority of consumers. Though Digital satellite signals reach the vast majority of UK homes, in a few cases reception or installation of the necessary dish may not be possible, either for topographic or legal reasons. We are reviewing these legal constraints to ensure they are minimal and proportionate. Any further extension of the digital cable networks is a commercial matter for the operators. As for terrestrial reception, it is not possible to extend it before switchover, as signals currently have to be transmitted at low power to prevent interferences with UK and foreign analogue signals. Only switchover will allow digital terrestrial television to reach the same level of coverage as analogue.

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of *(a)* analogue and *(b)* digital television sets bought in the last five years in the United Kingdom. [157772]

**Estelle Morris:** The department holds figures for television sales in the UK up to December 2003 for the last four years only. These figures are:

| | *Number (Thousand)* |
|---|---|
| *(a)* Analogue TV sets | 18,775.8 |
| *(b)* Digital television sets | 395.9 |

These figures do not include sales of set top boxes, which allow viewers to receive digital television through analogue sets. They also do not include TV/VCR and TV/DVD combination sets.

### Mobile Phones

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how many departmental mobile phones are used by her Department; and what the total cost of calls was in the last five years. [157775]

**Mr. Caborn:** The Department for Culture, Media and Sport currently has 70 departmental mobile phones. The cost to the Department of mobile phones supplied to Ministers and officials was £25,500 in 2000–01, £21,000 in 2001–02, £29,000 in 2002–03 and £35,000 as of the end of February this year. It is not possible to provide figures prior to 2000 save at disproportionate cost.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Culture, Media and Sport how many Parliamentary Questions have been tabled to her Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157519]

**Mr. Caborn:** Ministerial colleagues and officials at the Department for Culture, Media and Sport attach great importance to answering parliamentary questions accurately and to time. We aim to ensure that all Members receive a substantive response to an ordinary written question within a working week of it being tabled and that named day questions are answered on the specified date.

1,532 House of Commons written Parliamentary Questions were tabled to the Department for Culture, Media and Sport for answer between 1 January 2003 and 26 February 2004. This figure excludes those questions either withdrawn by the Member or transferred to another Department.

1,356 ordinary written questions were answered during this period. Of these 1,131 (83.4 per cent.) were answered within 10 working days.

176 named day questions were answered during this period. Of these 105 (59.6 per cent.) were answered on the specified date or named day.

### Performance Targets

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how she will measure her Department's performance in reaching its Public Sector Agreement target to increase by eight per cent. the number of adult C2DE visitors to national museums and galleries. [157802]

**Estelle Morris:** Progress against the target is measured by using the results of periodic surveys carried out by each museum and gallery. These record the number of C2DEs visiting the museum. Progress is reported to the Department half-yearly and annually. The results are aggregated to measure progress against the PSA target.

### School Sport

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport how she will measure her Department's performance against the Public Sector Agreement target to increase the percentage of school children who spend a minimum of two hours per week on high quality physical education and school sport to 75 per cent. by 2006. [157778]

**Mr. Caborn:** As I indicated in my written answer of 5 January 2004, *Official Report*, columns 137–38W, to the hon. Member for Bromsgrove, data are now being collected for the first time—for publication in April—on the number of pupils who choose to take up the

entitlement to two hours of high-quality PE and school sport each week within and beyond the curriculum. This exercise will be repeated in future years so that performance against the PSA target can be assessed.

### Sports Funding

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how much money has been given to *(a)* football and *(b)* cricket in (i) the north-west, (ii) Lancashire and (iii) Chorley in each of the last three years; and for what purposes. [157686]

**Mr. Caborn:** Details of Lottery support from Sport England for football and Cricket from the following programmes: Community Capital, Active Community Development Fund, Safer Sports Grounds, Football Youth Development and Awards For All are as follows.

| | *Football* | | | | *Cricket* | | | |
|---|---|---|---|---|---|---|---|---|
| | *2000-01* | *2001-02* | *2002-03* | *Total* | *2000-01* | *2001-02* | *2002-03* | *Total* |
| Awards in Chorley (Number) | 1 | 4 | 2 | 9 | 2 | 1 | 1 | 7 |
| Total Sum for Chorley (£) | 4,789 | 15,272 | 6,700 | 35,165 | 5,935 | 4,198 | 4,954 | 25,879 |
| Awards in Lancashire (Number) | 44 | 39 | 60 | 143 | 30 | 34 | 40 | 107 |
| Total Sum for Lancashire (£) | 852,448 | 869,748 | 275,737 | 1,997,933 | 137,702 | 317,323 | 164,937 | 619,962 |
| Awards in North West region (Number) | 103 | 74 | 131 | 308 | 68 | 68 | 79 | 218 |
| Total Sum for North West region (£) | 1,360,352 | 4,776,147 | 1,506,483 | 7,642,982 | 1,479,590 | 1,367,864 | 822,892 | 3,670,346 |

*Note:*
Lancashire figures do not include schemes in Greater Manchester.

### Sunbeds

**Lady Hermon:** To ask the Secretary of State for Culture, Media and Sport how many public leisure facilities are equipped with sunbeds; what her Department's policy is on the provision of sunbeds in public leisure facilities; and what plans she has to phase out the use of sunbeds in public leisure facilities. [156950]

**Mr. Caborn:** There are 2,945 Public Sports Centres in England, 935 of which contain one or more sunbed.

As I am sure the hon. Member will appreciate, any decision to provide sunbeds in public leisure facilities will be for the individual local authorities to make. However, the Government acknowledge the risks to young people of exposure to ultraviolet radiation (UVR) in all of its forms and the Health and Safety Executive has published guidance for operators and customers on using sunbeds. This guidance was developed after consultation with leading experts and is accepted as good advice.

The hon. Member may be interested to know that the potential dangers involved in the use of sunbeds will be the subject of a meeting of experts and industry on 29 March 2004. The campaign will review the latest scientific evidence and develop practical recommendations for better self-regulation.

### Tourism

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many people she estimates work in tourism in *(a)* the north-west, *(b)* Lancashire and *(c)* Chorley; and how many people are employed in hotels in each case. [157685]

**Mr. Caborn:** Research carried out by the North West Development Agency's Regional Intelligence Unit estimates that the number of people working in tourism in *(a)* the north-west is 193,871, *(b)* Lancashire is 47,828 and *(c)* Chorley is 3,839. It has not been possible to estimate the number of people employed in hotels but the North West Tourist Board estimates that 90 per cent. of tourism employees in each case work in the accommodation sector.

## WORK AND PENSIONS

### Ballast Plc

**Sir Nicholas Winterton:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of the liquidation of Ballast plc, Salford Quays, on the value of the final salary occupational pensions of its former employees. [156683]

**Malcolm Wicks:** The Government are aware of the situation of the former employees of Ballast plc, but has not made an assessment of the effect the liquidation has had on their occupational pensions. However, we have great sympathy for the uncertainties they, and other people in similar circumstances, are facing in regard to their pensions.

**Sir Nicholas Winterton:** To ask the Secretary of State for Work and Pensions if he will make representations to the authorities in the Netherlands about the protection of the assets of the occupational pension schemes of former employees of the Dutch construction group Ballast Nedam NV and its liquidated UK subsidiary Ballast plc. [156684]

**Malcolm Wicks:** The Government recognise the concerns that have been expressed about the financial responsibilities of parent companies and sympathises with the position of all members of pension schemes that may not receive the pension that they expected as a result of employer insolvency. However, the legal obligation to fund a salary-related occupational scheme is with the sponsoring employer of the scheme. The holding company is not responsible for the debts of an insolvent subsidiary because the two companies have separate legal identities. Any political intervention would, therefore, be inappropriate in this case.

### Council Tax Benefit

**Bob Spink:** To ask the Secretary of State for Work and Pensions which local authorities do not actively promote the take-up of council tax benefit for elderly people. [153793]

**Mr. Pond:** The information requested is not available.

Local authorities have a statutory duty to promote awareness of council tax benefit. But we want to do more to support authorities in their role, to encourage all those who may be entitled to claim. This is why I made a written statement on 15 December 2003, *Official Report*, column 125WS, in which I announced that we will be launching a take-up campaign to raise the awareness of council tax benefit among those who are likely to be entitled and also their family, friends and carers. Working with local authorities, we will provide promotional material, and will develop guidance and advice to help ensure that procedures are in place to handle inquiries about entitlement and provide support for those, particularly pensioners, making claims.

## Child Support Agency

**Mr. Webb:** To ask the Secretary of State for Work and Pensions what the administration cost of the Child Support Agency was in each of the last six years; and what the projected expenditure is for 2003–04. [152843]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member.

*Letter from Doug Smith to Mr. Steve Webb, dated 2 March 2004:*

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked what the administration cost of the Child Support Agency was in each of the last six years; and what the projected expenditure is for 2003–04.

The net operating costs of the Agency as included in the Annual Statement of Accounts are.

| | *£ million* |
|---|---|
| 1997–98 | 225.9 |
| 1998–99 | 231.2 |
| 1999–00 | 260.3 |
| 2000–01 | 250 |
| 2001–02 | 290.4 |
| 2002–03 | 294.3 |

The projected expenditure for 2003–04 for which the Agency is directly accountable is £320 million. The actual costs will be available when the Agency Accounts are published in July 2004.

I hope this is helpful.

**Nick Harvey:** To ask the Secretary of State for Work and Pensions (1) when Child Support Agency cases initiated before March 2003 will be transferred to the new system; and if he will make a statement; [153619]

(2) whether all Child Support Agency cases will be transferred to the new system at the same time; and if he will make a statement. [153620]

**Mr. Pond:** I refer the hon. Member to the written answer I gave the hon. Member for Dartford (Dr. Stoate) on 27 January 2004, *Official Report*, column 341W.

**Mr. Drew:** To ask the Secretary of State for Work and Pensions what the timetable is for migration from the old to the new Child Support Agency scheme; and what factors affect the timetable. [155145]

**Mr. Pond:** I refer the hon. Member to the Written Answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

**Mr. Drew:** To ask the Secretary of State for Work and Pensions how many people were on each of the Child Support Agency schemes in each month since the inception of the new scheme. [155412]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr. David Drew, dated 2 March 2004:*

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many people were on each of the Child Support Agency schemes in each month since the inception of the new scheme. Because of issues associated with producing management information from the new computer system I cannot answer your question precisely in the format that it is asked. I can however indicate in the table below, the number of cases where;

either an assessment (old scheme) or a calculation (new scheme) has been completed as at each month end since March 2003, and

for old scheme cases the record is held on the "old" computer system and for new scheme cases it is held on our "new" computer system.

| | *Old scheme* | *New scheme* |
|---|---|---|
| March | 993,940 | 10 |
| April | 978,420 | 731 |
| May | 960,680 | 2,541 |
| June | 943,880 | 6,671 |
| July | 917,520 | 13,593 |
| August | 899,200 | 20,792 |
| September | 882,800 | 30,528 |
| October | 861,340 | 42,335 |
| November | 839,620 | 52,310 |
| December | 824,460 | 60,200 |

In addition there are around 120,000 "old scheme" cases operating on the new computer system. I cannot at this stage indicate the number of these cases at monthly rests. But the growth in this number toward the current total will mirror the decline in old scheme case numbers set out in the table above.

I hope that this is helpful.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the performance of the Child Support Agency's new reforms IT system; [155885]

(2) when he estimates the Department's Child Support Agency new reforms IT system recovery programme will be completed; and if he will make a statement. [155886]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr. Steve Webb, dated 2 March 2004:*

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions to make a statement on the performance of the Child Support Agency's new reforms IT system and also asked when does he estimate the Department's Child Support Agency new reforms IT system recovery programme will be completed.

The Secretary of State issued a Written Statement on the performance of the Agency on 12 February 2004. We are continuing to work with EDS on the detail of their proposed recovery plan and that has not yet been finalised.

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions if he will make a statement on the new computer programme for the Child Support Agency. [157254]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr. Lindsay Hoyle, dated 2 March 2004:*

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions to make a statement on the new computer programme for the Child Support Agency.

The Secretary of State issued a Written Statement on the performance of the Agency on 12 February 2004.

**Mr. Goodman:** To ask the Secretary of State for Work and Pensions by what date he will decide whether to cease to use the new computer system provided by EDS to assess Child Support Agency cases; and if he will make a statement. [158130]

**Mr. Pond:** I refer the hon. Member to the Written Answer I gave the hon. Member for Tamworth (Mr. Jenkins) on 12 February 2004, *Official Report*, column 1591W.

### Cockle Bed Workers

**Geraldine Smith:** To ask the Secretary of State for Work and Pensions whether the Health and Safety Executive has powers to prevent working after dark on cockle beds if this activity presents a risk of serious personal injury. [156860]

**Mr. Pond** *[holding answer 27 February 2004]:* The Health and Safety Executive (HSE) has no existing powers to impose a general ban on cockle picking after dark.

However, HSE inspectors do have the power to issue a prohibition notice on a person carrying on or in control of a work activity until the risks are remedied, if there is sufficient evidence of a breach of health and safety law.

**Geraldine Smith:** To ask the Secretary of State for Work and Pensions whether the Health and Safety Executive has powers to prohibit work on cockle beds if those activities present a risk of serious personal injury. [156852]

**Mr. Pond:** The Health and Safety Executive (HSE) has no existing powers to impose a general ban on cockle picking.

However, HSE inspectors do have the power to issue a prohibition notice on a person in control of a work activity to stop that activity until the risks are remedied, if there is sufficient evidence of a breach of health and safety law.

### Final Salary Pension Schemes

**Sir Nicholas Winterton:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to protect the final salary pension schemes of employees; what assistance is provided to those people who are denied access to their pensions following company bankruptcy; and if he will make a statement. [156686]

**Malcolm Wicks:** We are taking significant steps to protect members of defined benefit schemes. We are introducing the Pension Protection Fund, which will protect scheme members by paying compensation if their employer becomes insolvent and the pension scheme is under funded. We are also introducing a new Pensions Regulator that has the flexibility and powers to take a targeted and proportionate approach to protecting the funds held in pension schemes.

Additionally, on 23 February, we laid Regulations that strengthen members' protection when a defined benefit occupational pension scheme starts to wind up while its sponsoring employer is solvent. On 24 February, we announced changes to the priority order which applies on wind up. This will help ensure that assets of the pension scheme are shared as fairly as possible between non-pensioner and pensioner scheme members.

In the event of employer insolvency assistance is available to pension scheme members under the Employment Rights Act 1996 and the Pensions Scheme Act 1993. Under these Acts, the Redundancy Payments Directorate makes insolvency payments from the National Insurance Fund (NIF) to qualifying former employees. Claims for unpaid employees' contributions are limited to the actual amount deducted from wages during the 12 months prior to the date of insolvency. Unpaid employers' contributions for the 12 month period prior to the insolvency date are also payable, but are subject to monetary limits depending on the type of pension scheme.

### Pension Credit

**Mr. Carmichael:** To ask the Secretary of State for Work and Pensions how much money has been allocated to promote Pension Credit; what proportion of these funds will be spent on regional and local media sources; and how much money has been spent advertising the new payment in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland. [156620]

**Malcolm Wicks:** The marketing campaign for Pension Credit has been designed to be flexible, and the level of expenditure may change according to need. However, in England, Scotland and Wales, it is currently estimated that media costs, including direct mailing, television and press advertising, will be in the region of £12–£17 million, excluding VAT, to October 2004.

In Northern Ireland the Department for Social Development is responsible for the promotion and take-up of Pension Credit.

A direct mail pack to pensioner households remains at the heart of our marketing campaign for Pension Credit. From September 2003 to March 2004 this is being supported by commissioning largely national press and television advertising to introduce Pension Credit in England, Scotland and Wales.

The proportion of advertising spend in regional and local media is approximately 25 per cent., although this is likely to increase with the identification of key areas for targeting during 2004.

Actual spend from September 2003 to date is given as follows. Figures exclude VAT.

England: £7,725,000

Scotland: £759,000

Wales: £623,000

### Triplex Components

**Mr. Djanogly:** To ask the Secretary of State for Work and Pensions what assessment he has made of the situation of the employees at Triplex Components, Peterborough following the closure of its final salary pension scheme; and if he will make a statement. [156933]

**Malcolm Wicks:** The Government are aware of the situation of the employees at Triplex Peterborough and Ministers have recently met representatives of the Triplex Pension scheme.

The Government have not made an assessment of the pension fund prospects in question. However we have great sympathy for the uncertainties they, and other workers in similar circumstances, are facing with regard to their pensions.

**Mr. Djanogly:** To ask the Secretary of State for Work and Pensions how many final salary pension schemes have been wound up in (i) England and (ii) Cambridgeshire in each of the last five years. [156934]

**Malcolm Wicks:** We are unable to provide these figures. The only source of information on winding up schemes is the Pensions Schemes Registry, which is administered by the Occupational Pension Schemes Regulatory Authority (OPRA). The information on this database is limited and does not allow us to identify the location of schemes winding up.

### Winter Fuel Payments

**Dr. Evan Harris:** To ask the Secretary of State for Work and Pensions what targets the Pensions Agency has set for the issuing of Winter Fuel Payments to those eligible to receive them as *(a)* existing claimants and *(b)* new claimants. [156771]

**Malcolm Wicks:** There are no targets set for issuing Winter Fuel Payments. The majority of those who are entitled are paid automatically. We aim to ensure their payments are sent to them before Christmas. People who have not previously received a payment and who do not receive a Social Security benefit other than Child Benefit, Housing Benefit or Council Tax Benefit must claim. Provided they have claimed by the Friday of the qualifying week we aim to send them their payments before Christmas as well.

## NORTHERN IRELAND

### Population Profile

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what percentage of the population of Northern Ireland is over *(a)* 50, *(b)* 55, *(c)* 60, *(d)* 65, *(e)* 75, *(f)* 85 and *(g)* 100 years. [156377]

**Mr. Pearson:** The percentage of the Northern Ireland estimate of population (mid-2002) aged 50 years and over, 55 years and over, 60 years and over, 65 years and over, 75 years and over and 85 years and over is given in table 1 as follows. Mid-year estimates for those aged 100 and over are not routinely published. However this information is available from the 2001 Census and is given in table 2 as follows.

*Table 1: Percentage of the Northern Ireland mid-year estimate of population (2002) by various age-groups*

| *Age-group* | *Percentage of Northern Ireland population (2002 mid-year estimate)* |
|---|---|
| *(a)* 50 years and over | 29.06 |
| *(b)* 55 years and over | 23.30 |
| *(c)* 60 years and over | 17.83 |
| *(d)* 65 years and over | 13.40 |
| *(e)* 75 years and over | 6.05 |
| *(f)* 85 years and over | 1.39 |

*Table 2: Percentage of the Northern Ireland 2001 Census by age-group*

| *Age-group* | *Percentage of Northern Ireland Population (2001 Census)* |
|---|---|
| *(g)* 100 years and over | 0.01 |

### Prison Suicides

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of maintaining suicide watch observations in prisons in Northern Ireland in the last 12 months. [156324]

**Jane Kennedy:** Prisoners who are considered to be at risk of suicide or self-harm are managed within the normal prison regime and no additional staffing resources are required to keep prisoners at risk under observation.

Any costs associated with managing prisoners at risk are largely notional. Hence there has been no requirement to quantify costs in monetary terms.

### Asbestos

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what regulations apply to building contractors when asbestos is discovered in *(a)* schools and *(b)* school premises during building work; and how they are enforced. [156554]

**Mr. Pearson:** The legislation that applies in such circumstances is as follows:

1. The Health and Safety at Work (Northern Ireland) Order 1978

2. The Construction (Design and Management) Regulations (Northern Ireland) 1995

3. The Control of Asbestos at Work Regulations (Northern Ireland) 2003; and

4. The Asbestos (Licensing) Regulations (Northern Ireland) 1984

The Health and Safety Executive for Northern Ireland (HSENI) is the enforcing authority for the above legislation in relation to a wide range of work premises, including schools. HSENI adopts a risk-based approach to carrying out inspections of asbestos removal operations and insist on a very high standard of compliance with statutory provisions in relation to all such work.

### Assets Recovery Agency

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what measures are in place to monitor the operation of the Assets Recovery Agency in Northern Ireland. [156604]

**Jane Kennedy:** The Proceeds of Crime Act 2002 requires the Director of the Agency to prepare an annual plan setting out how she intends to exercise her functions during the financial year. The plan includes a statement of the objectives and any performance targets and sets out in particular how the Director intends to exercise her functions in Northern Ireland. It is referred to the Secretary of State for approval.

The Director must, as soon as possible after the end of each financial year, prepare a report on how she has exercised her functions during the financial year.

I receive regular progress reports from the Agency's Director and the Assistant Director.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the budget of the Assets Recovery Agency has been in each year since its creation. [156630]

**Jane Kennedy:** The Assets Recovery Agency became operational on 24 February 2003. Budget and resource allocation is a matter for the Home Office. The Agency's initial budget for the United Kingdom for 2003–04 is £13 million.

### Car Thefts

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many car thefts there were in Northern Ireland in each of the last five years. [156379]

**Jane Kennedy:** The information is set out in the following table.

| | *Number of thefts/ unauthorised taking of motor vehicles* |
|---|---|
| 1998–99 | 7,983 |
| 1999–2000 | 8,038 |
| 2000–01 | 8,563 |
| 2001–02 | 9,005 |
| 2002–03 | 8,317 |

### Ceasefire Breaches

**David Burnside:** To ask the Secretary of State for Northern Ireland how he defines a breach of a ceasefire; and whether any breaches of ceasefires have been made by the *(a)* Provisional IRA, *(b)* UDA and *(c)* UVF since 1 January. [156669]

**Jane Kennedy:** The Secretary of State, in making a judgment on the status of a paramilitary ceasefire, takes account of all relevant considerations, and in particular those set out in Section 3(9) of the Northern Ireland (Sentences) Act 1998. The Government do not comment on specific intelligence matters. I call upon all paramilitary groupings to stop all forms of violent activity.

### Civil Service Numbers

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many civil servants in Northern Ireland have resigned from the Civil Service as a result of the ongoing pay dispute; what recent steps he has taken to resolve the dispute; and if he will make a statement. [156977]

**Mr. Pearson:** As far as I am aware no civil servants in Northern Ireland have resigned from the Civil Service as a result of the current pay dispute. Extensive negotiations over several months did not result in an agreed pay deal for the 11 Departments of the Northern Ireland Administration this year. Management Side presented an offer worth 3.67 per cent. on 5 November. As this could not be agreed, and Trade Union Side declined to negotiate within the 3.67 per cent. envelope, we took the decision to proceed to pay the award and communicated this to staff and Trade Union Side on 27 November. I have made clear to Trade Union Side that the 3.67 per cent. deal is the maximum that can be paid. We are however open to exploring other reasonable means of resolving the dispute. The latest meeting of the Central Whitley Council between Trade Union and Management Sides took place on Thursday, 19 February, and we have agreed to hold further negotiations as a matter of urgency.

Members of the NI Civil Service working in the Northern Ireland Office are subject to separate pay negotiations involving three Unions: NIPSA, PCS and the PDA. A formal offer of 3 per cent. was made to the Unions but was rejected. NIO intend to proceed to pay the award at the end of March.

### Community Care (Delayed Discharges Etc) Act

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of the Community Care (Delayed Discharges etc.) Act 2003 in addressing delayed discharges from hospitals; and what plans he has to introduce similar provisions in Northern Ireland. [157653]

**Angela Smith:** I refer the hon. Lady to my answer on 3 November 2003, *Official Report*, column 394W. The Community Care (Delayed Discharges etc.) Act 2003, which became fully operational on 5 January 2004, places duties upon the NHS and councils relating to communication between authorities and introduces financial incentives to promptly assess and transfer patients. It is therefore premature to make an assessment

of the effectiveness of these new arrangements. I am not planning to introduce similar provisions in Northern Ireland for the reasons I have previously set out.

### Drug Use

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what assessment he has made of the work of Life Education Centres in prevention of drug use through education in Northern Ireland; and if he will make further funding available to enable the expansion of this work throughout Northern Ireland. [147381]

**Jane Kennedy:** An evaluation report based on a 3-school sample was received in April 2002.

Funding has been pledged which will allow the work of the first Life Education Centre to continue and funding has been secured to operate a second Centre until March 2004. Consideration is currently being given to continue this funding to March 2006. There are, however, no plans to extend the present provision of Life Education Centres in Northern Ireland.

### Health Services

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many MRI scans were performed in Northern Ireland in each of the last five years. [156322]

**Angela Smith:** This information could be provided only at disproportionate cost.

### Homelessness

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many homeless people there are in Northern Ireland; and what the figures were for each of the past 10 years. [151207]

**Mr. Spellar:** At 31 December 2003, 5,133 households accepted by the Housing Executive as being statutorily homeless were on its waiting list to be permanently re-housed.

Over the last 10 financial years the numbers who presented to the Housing Executive as being homeless and those accepted by it as statutorily homeless are as follows:

| | *Number presented* | *Number accepted* |
|---|---|---|
| 2002–03 | 16,426 | 8,580 |
| 2001–02 | 14,164 | 7,374 |
| 2000–01 | 12,694 | 6,457 |
| 1999–2000 | 10,997 | 5,192 |
| 1998–99 | 11,552 | 4,997 |
| 1997–98 | 12,672 | 4,956 |
| 1996–97 | 11,092 | 4,708 |
| 1995–96 | 10,768 | 4,319 |
| 1994–95 | 10,068 | 4,014 |
| 1993–94 | 9,731 | 3,971 |

### Housing Executive Properties

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many Housing Executive properties there were in each Northern Ireland housing district in each year since 2000; what steps he is taking to increase the number; and if he will make a statement. [157666]

**Mr. Spellar:** The following table sets out the number of Housing Executive properties in each of its district office areas at the end of each financial year since 2000.

| *District* | *31 March 2000* | *31 March 2001* | *31 March 2002* | *31 March 2003* | *31 January 2004* |
|---|---|---|---|---|---|
| Belfast 1 | 3,184 | 2,978 | 2,837 | 2,492 | 2,348 |
| Belfast 2 | 5,125 | 5,049 | 4,663 | 4,341 | 4,033 |
| Belfast 3 | 4,673 | 4,280 | 4,037 | 3,671 | 3,488 |
| Belfast 4 | 4,537 | 4,386 | 4,226 | 4,124 | 3,924 |
| Belfast 5 | 4,622 | 5,040 | 4,689 | 4,614 | 4,321 |
| Belfast 6 | 4,446 | 4,212 | 3,970 | 3,933 | 3,626 |
| Belfast 7 | 5,283 | 5,078 | 4,885 | 4,579 | 4,360 |
| Bangor | 3,656 | 3,551 | 3,420 | 3,266 | 3,092 |
| Newtownards | 5,223 | 5,052 | 4,848 | 4,646 | 4,447 |
| Castlereagh | 5,213 | 4,994 | 4,790 | 4,564 | 4,389 |
| Lisburn (Antrim St.) | 6,148 | 5,817 | 5,419 | 5,172 | 4,933 |
| Lisburn (Dairyfarm) | 3,060 | 2,912 | 2,698 | 2,410 | 2,221 |
| Downpatrick | 3,633 | 3,349 | 3,101 | 2,909 | 2,722 |
| Banbridge | 2,486 | 2,386 | 2,240 | 2,097 | 2,007 |
| Newry | 4,766 | 4,442 | 4,138 | 3,847 | 3,581 |
| Armagh | 2,832 | 2,671 | 2,489 | 2,335 | 2,206 |
| Lurgan | 3,978 | 3,723 | 3,559 | 3,345 | 3,137 |
| Portadown | 2,147 | 2,064 | 1,987 | 1,891 | 1,824 |
| Dungannon | 2,553 | 2,446 | 2,285 | 2,137 | 2,029 |
| Fermanagh | 2,958 | 2,794 | 2,644 | 2,481 | 2,354 |
| Ballymena | 4,269 | 4,010 | 3,790 | 3,579 | 3,391 |
| Antrim | 3,689 | 3,509 | 3,258 | 3,071 | 2925 |
| Newtownabbey 1 | 3,283 | 3,042 | 2,870 | 2,746 | 2,586 |
| Newtownabbey 2 | 3,017 | 2,830 | 2,716 | 2,597 | 2,516 |
| Carrickfergus | 2,933 | 2,799 | 2,670 | 2,444 | 2,260 |
| Larne | 2,233 | 2,135 | 2,088 | 1,890 | 1,806 |
| Ballycastle | 1,144 | 1,082 | 1,043 | 1,002 | 958 |
| Ballymoney | 1,968 | 1,879 | 1,784 | 1,707 | 1,644 |
| Coleraine | 4,159 | 4,000 | 3,828 | 3,665 | 3,549 |
| Waterloo (L'Derry) | 3,319 | 3,210 | 3,048 | 2,819 | 2,673 |
| Waterside (L'Derry) | 3,344 | 3,209 | 3,089 | 2,886 | 2,753 |
| Collon (L'Derry) | 3,454 | 3,321 | 3,184 | 2,978 | 2,783 |

| District | 31 March 2000 | 31 March 2001 | 31 March 2002 | 31 March 2003 | 31 January 2004 |
|---|---|---|---|---|---|
| Limavady | 2,050 | 1,930 | 1,841 | 1,725 | 1,653 |
| Magherafelt | 1,928 | 1,802 | 1,705 | 1,583 | 1,501 |
| Strabane | 3,141 | 2,976 | 2,855 | 2,670 | 2,515 |
| Omagh | 2,597 | 2,450 | 2,332 | 2,217 | 2,135 |
| Cookstown | 1,571 | 1,467 | 1,405 | 1,309 | 1,230 |
| Northern Ireland total | 128,622 | 122,875 | 116,431 | 109,742 | 103,920 |

Independent research commissioned by the Northern Ireland Housing Executive and carried out by the University of Ulster/University of Cambridge estimates a need for between 1,400 and 1,500 new homes per annum. The responsibility for providing all new social housing in Northern Ireland now lies with Registered Housing Associations.

### Industrial Tribunals

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland (1) how many industrial tribunal applications were lodged against the Royal Ulster Constabulary and Police Service of Northern Ireland in each of the last five years; and what the outcome was in each case; [147220]

(2) how many contested applications in industrial tribunals resulted in awards against the Royal Ulster Constabulary and Police Service of Northern Ireland in each of the last five years; and how many of these were appealed to the Court of Appeal; [147221]

(3) what criteria the Police Service of Northern Ireland uses when determining whether or not to appeal an award made by the industrial tribunal; [147222]

(4) what costs were incurred by the Royal Ulster Constabulary and Police Service of Northern Ireland in defending the industrial tribunal application by Chief Inspector Shamoon at *(a)* the industrial tribunal, *(b)* the Court of Appeal and *(c)* the House of Lords. [147223]

**Jane Kennedy:** Records for the number of industrial tribunal applications are not available earlier than 2000–01. The following table sets out the number of applications and the current status of each case from 2000–04.

*Industrial tribunal applications and current status*

| | Lodged | Ongoing | Withdrawn | Dismissed | Settled |
|---|---|---|---|---|---|
| 2000–01 | 72 | 33 | 29 | 6 | 4 |
| 2001–02 | 57 | 30 | 19 | 2 | 6 |
| 2002–03 | 55 | 48 | 6 | 1 | 0 |
| 2003–04 | 50 | 49 | 0 | 1 | 0 |

Settlement in each of these cases was in favour of the applicant and none of the settlement awards were appealed.

The chief constable takes advice from counsel when determining whether or not to appeal an award made by an industrial tribunal. I am advised that an appeal would not be lodged unless counsel advised that it was justified.

The PSNI incurred costs of £28,442.05 in respect of the industrial tribunal application by Chief Inspector Shamoon. Costs in respect of the Court of Appeal and the House of Lords were awarded against Chief Inspector Shamoon.

### Joyriding

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many people were convicted of joyriding offences in Northern Ireland in each of the past five years; how many of these incidents resulted in *(a)* fatal and *(b)* non-fatal injuries; and what steps he is taking to reduce these figures. [144345]

**Jane Kennedy:** "Joyriding" is currently not a specific offence in law so the information is not available in the format requested. The table sets out the number of convictions for taking a motor vehicle without the owner's consent from 1997 to 2001 which is the most up to date information available.

| | Taking a motor vehicle without the owner's consent |
|---|---|
| 1997 | 453 |
| 1998 | 401 |
| 1999 | 294 |
| 2000 | 328 |
| 2001 | 350 |

The following tables set out details of collisions involving stolen vehicles and hit and run collisions but the identification of those specifically relating to "joyriding" could be obtained only at disproportionate expenses.

*Road traffic collisions involving stolen vehicles[1]; 1998–2002*

| | Fatal collisions | Serious collisions | Slight collisions | Total |
|---|---|---|---|---|
| 1998 | 6 | 29 | 165 | 200 |
| 1999 | 3 | 25 | 196 | 224 |
| 2000 | 4 | 45 | 228 | 277 |
| 2001 | 6 | 50 | 231 | 287 |
| 2002 | 5 | 29 | 192 | 226 |

*Road traffic collisions involving hit and run vehicles[2] 1998–2002*

| | Fatal collisions | Serious collisions | Slight collisions | Total |
|---|---|---|---|---|
| 1998 | 6 | 44 | 483 | 533 |
| 1999 | 9 | 54 | 550 | 613 |
| 2000 | 4 | 98 | 734 | 836 |
| 2001 | 4 | 83 | 738 | 825 |
| 2002 | 6 | 103 | 659 | 768 |

[1] Stolen vehicles only include those vehicles which are known by the police to be stolen

[2] Hit and run vehicles may include vehicles which are stolen

The PSNI are involved in a number of initiatives to reduce the number of vehicles taken without the permission of the owner. In West Belfast an Auto Crime Team has been established to specifically address this issue. While such initiatives can help reduce the incidence of vehicle crime it has been recognised that a long-term strategy is required and the PSNI are working in partnership with a number of agencies and groups, to tackle this problem as part of a multi-agency project. Each District Command Unit uses a range of resources and methods to target vehicle related crime in their area as effectively as possible.

In addition to these measures the Government will publish draft legislation for Northern Ireland for consultation by the end of January, aimed at tackling so-called "joy-riding" offences. The proposed legislation will introduce two new offences: "aggravated vehicle taking", attracting a maximum prison sentence of five years and "causing death or grievous bodily injury by aggravated vehicle taking", which will attract a maximum prison sentence of 14 years. These tough new measures are part of the Government's overall strategy to specifically target and punish so-called "joy-riders".

### Learning Disabilities Strategy

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what progress has been made on the Strategy for People with Learning Disabilities; and when recommendations will be published. [156165]

**Jane Kennedy:** A great deal of work is being taken forward by the Department of Education in a range of areas to improve the levels of provision for children with learning difficulties, and in particular autism and dyslexia. While this represents a broad strategic approach, the Department is not engaged in a formal exercise to draw up a Strategy for People with Learning Disabilities.

In 2002, two Northern Ireland Education Task Groups published reports, with recommendations, on the future development of educational provision for children with autism and dyslexia. Following DE-led conferences on these areas in autumn 2002, Education and Library Boards (ELBs) have prioritised the reports' recommendations and consequently the Department has made £270,000 available in 2003–04 and up to £540,000 in 2004–05 to the ELBs to develop training needs and support measures in the field of Autistic Spectrum Disorder (ASD). An Inter Board ASD Group has been established, which will promote consistency of approach in relation to children with ASD across the five ELBs. A further £500,000 was allocated in 2003–04 to provide support and training for parents and staff in pre-school settings working with children with ASD.

DE led the collaborative North/South production of complementary parent and teacher videos/CD-ROMs and guidance material on autism. These were distributed widely across Northern Ireland in 2003. A dyslexia video/DVD ROM is also nearing completion by a joint North/South group and it is hoped to distribute this in the near future. The Education and Training Inspectorate is working to produce a "Dyslexia Friendly Schools" guide during 2004.

A Steering Group, comprising health and education authorities from Northern Ireland and the Republic of Ireland, are taking forward the development of the Centre of Excellence for children and young people with ASD at Middletown, Co. Armagh.

### Local Management of Schools

**Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland what assessment he has made of the effect of the formula for funding local management of schools on primary schools' ability to fund full teaching costs. [157319]

**Jane Kennedy:** The cost of teaching staff is met from each school's budget. The number of teachers appointed and the management structure within a school is a matter for the Board of Governors of the school to determine, taking account of the school's policies, priorities and overall financial position.

In determining the amount to be made available for allocation to schools, account is taken of the likely change to the overall teacher salary bill arising from, among other things, pay settlements. Additional resources are made available for small schools with above average teacher salary costs.

### Medical Negligence

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many medical negligence cases are pending within each health trust. [157393]

**Angela Smith:** At 31 January 2004, the number of cases pending in each Trust was as follows:

| *Trust* | *Number of Cases* |
|---|---|
| Altnagelvin Hospitals HSS Trust | 216 |
| Armagh and Dungannon HSS Trust | 37 |
| Belfast City Hospital Trust HSS Trust | 273 |
| Causeway HSS Trust | 90 |
| Craigavon and Banbridge Community HSS Trust | 15 |
| Craigavon Area Hospital Group HSS Trust | 167 |
| Down Lisburn HSS Trust | 145 |
| Foyle HSS Trust | 14 |
| Green Park HSS Trust | 53 |
| Homefirst Community HSS Trust | 19 |
| Mater Hospital HSS Trust | 103 |
| Newry and Mourne HSS Trust | 118 |
| Northern Ireland Ambulance Service HSS Trust | 1 |
| North and West Belfast HSS Trust | 9 |
| Royal Group of Hospitals and Dental Hospital HSS Trust | 482 |
| South and East Belfast HSS Trust | 9 |
| Sperrin Lakeland HSS Trust | 112 |
| United Hospitals HSS Hospital Trust | 220 |
| Ulster Community and Hospitals HSS Trust | 291 |

### Mental Health

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on the early indications of the effectiveness of *(a)* Assertive Outreach and *(b)* Crisis Response Teams in the practice of mental health locally. [151211]

**Angela Smith:** Assertive Outreach and Crisis Response Teams were established in the Northern and Southern Health and Social Services Boards in 2003. It is too early to assess the impact of these services in the Southern Board but initial indications from the

Northern Board show a degree of success. The Eastern Board plan to have Crises Response and Home Treatment Services operational by April 2004 and the Western Board have commissioned Foyle Trust to develop a Crises Response Out of Hours Pilot Service.

### Mobile Phone Masts

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many mobile telephone masts there are in each Northern Ireland constituency; and what the equivalent figures were for each year since 2000. [156939]

**Angela Smith:** Unfortunately, Planning Service is unable to provide the information of the number of mobile telephone masts in the format requested.

This is because Planning Service's computer system does not distinguish between constituencies, its records are categorised by Divisional Planning Office and Council Area. Additionally, although Planning Service has a record of applications for telecommunication equipment, which have been approved, once an application has been approved, we cannot advise if the mast has been erected or activated.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many applications there have been to construct mobile telephone masts in Northern Ireland in each year since 2000; how many of these applications have been *(a)* granted and *(b)* refused; and what the reason for refusal was in each case. [156944]

**Angela Smith:** Details of applications including full planning applications and, prior to 21 June 2002, prior approval applications for telecommunications equipment approved and refused for each year since 2000 are set out in the table.

| | *Approved* | *Refuse* |
|---|---|---|
| 2000 | 396 | 52 |
| 2001 | 450 | 94 |
| 2002 | 307 | 37 |
| 2003 | 141 | 11 |
| Total | 1,294 | 201 |

As over 200 applications have been refused, it would be extremely time consuming and resource intensive to extract and identify the reasons for refusal in each case. It would therefore be at a disproportionate cost to Planning Service.

### Occupational Therapy

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many patients are awaiting occupational therapy assessment and how many have waited for more than six months; and what the figures were at each six-month interval over the past five years. [151214]

**Angela Smith:** The figures for persons awaiting assessment by a community occupational therapist in respect of priority cases, non-priority cases and total cases are shown in the following table, for the position at quarters ending September 1998 to September 2003 (the latest date for which such information is available).

*Number of persons waiting for assessment by community occupational therapists, and number waiting for six months or more*

| | *Priority* | | *Non-priority* | | *Total* | |
|---|---|---|---|---|---|---|
| *Quarter ending* | *Total* | *6 plus months* | *Total* | *6 plus months* | *Total* | *6 plus months* |
| September 1998 | 1,627 | 88 | 7,055 | 2,042 | 8,682 | 2,130 |
| March 1999 | 1,487 | 117 | 8,358 | 2,126 | 9,845 | 2,243 |
| September 1999 | 1,965 | 292 | 9,217 | 2,921 | 11,182 | 3,213 |
| March 2000 | 1,193 | 298 | 9,658 | 3,222 | 10,851 | 3,520 |
| September 2000 | 1,819 | 240 | 11,182 | 5,515 | 13,001 | 5,755 |
| March 2001 | 1,307 | 83 | 8,081 | 4,065 | 9,388 | 4,148 |
| September 2001 | 1,356 | 67 | 8,123 | 4,010 | 9,479 | 4,077 |
| March 2002 | 1,549 | 138 | 6,806 | 2,937 | 8,355 | 3,075 |
| September 2002 | 2,052 | 307 | 7,775 | 3,124 | 9,827 | 3,431 |
| March 2003 | 1,881 | 247 | 6,604 | 2,719 | 8,485 | 2,966 |
| September 2003 | 1,880 | 243 | 6,390 | 2,370 | 8,270 | 2,613 |

### Police Ombudsman's Office

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many civilians officers from the Police Ombudsman's Office have arrested since the Office was set up. [156690]

**Jane Kennedy:** The Police Ombudsman has advised that one civilian has been arrested by her investigating officers since the setting up of the office.

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland whether he has received complaints from police officers regarding *(a)* actions by officers from the Ombudsman's Office and *(b)* investigations carried out by the Police Ombudsman. [156691]

**Jane Kennedy:** A number of officers have written to the Northern Ireland Office regarding the Ombudsman's Office. However, the Police Ombudsman's Office is operationally independent and the handling of investigations by the Ombudsman's staff is a matter for the Police Ombudsman's Office.

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what powers he has to require explanations from the Police Ombudsman on *(a)* the actions of her officers and *(b)* investigations carried out by her office. [156692]

**Jane Kennedy:** The Secretary of State has no statutory powers to require explanations from the Police Ombudsman on the actions of her officers or the investigations carried out by her office.

### Police Service of Northern Ireland

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland how many serving members of the full-time Police Service of Northern Ireland Reserve have passed entrance examinations for full-time posts in the PSNI and have not been appointed because of restrictions arising from 50:50 appointment legislation. [152460]

**Jane Kennedy:** From competitions 1 to 4, 1,706 non-Catholic and 604 Catholic applicants have qualified for appointment to the Police Service of Northern Ireland. Of these, 530 of each community background have been appointed. Of the qualified Catholic candidates, all were offered appointment, but some withdrew in the time intervening between qualification for appointment and the time of appointment.

Appointments from competition 5 have started, although the pool is not yet finalised, and the pool for competition 6 is not expected to be ready until April this year.

The information on the number of candidates who have passed the entrance examinations (i.e. have been successful in becoming qualified candidates and reaching the merit pool) more than once is taking some time to collate. As soon as the figures are available, they will be forwarded.

### Prison Officers

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many prison officers in Northern Ireland have taken sick leave in each of the past 18 months on account of work-related stress; and how many of these officers have since returned to work. [156940]

**Jane Kennedy:** The information is as follows.

*Prison Officer Grades absent suffering from work-related stress between 1 February 2003 and 27 February 2004*

| | *Number of staff absent during month* | *Number of staff who have since returned to work* |
|---|---|---|
| February 2003 | 1 | 1 |
| March 2003 | 1 | 1 |
| April 2003 | 1 | 1 |
| May 2003 | 1 | 1 |
| June 2003 | 2 | 1 |
| July 2003 | 8 | 6 |
| August 2003 | 16 | 13 |
| September 2003 | 18 | 13 |
| October 2003 | 18 | 12 |
| November 2003 | 19 | 11 |
| December 2003 | 19 | 10 |
| January 2004 | 23 | 12 |
| February 2004 | 17 | 4 |

At the end of February 2004, 13 officers remained absent due to work related stress.

Figures were not obtainable prior to February 2003 for work related stress as the computer system at that time did not differentiate between stress and work related stress.

### Prisons

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will estimate the cost of maintaining prisons in the Province in 2003–04. [156319]

**Jane Kennedy:** The estimated cost of maintaining prisons in Northern Ireland in 2003–04 is £109,581,000.

### Rates

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what research has been conducted into the impact the removal of rates relief on manufacturing premises will have on manufacturing industries; and if he will make a statement. [156460]

**Mr. Pearson:** Our assessment on the likely impact of the phasing out of industrial derating on the manufacturing industry in Northern Ireland (NI) came from a variety of different sources; for example, studies by DTZ Pieda, Invest NI as well as evidence presented during the public consultation exercise in 2002 by the DETI and DFP Assembly Committees, the CBI and local economists. The policy paper published in April last year included the Regulatory Impact Assessment, New TSN and Equality Impact Assessments. All this evidence was summarised, analysed and considered objectively and the various options were discussed openly with representatives of the business community before a final decision was made.

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what research has been conducted into the impact levying rates on vacant buildings will have on investment in deprived areas; what proposals there are for exemptions; and if he will make a statement. [156461]

**Mr. Pearson:** The decision to rate vacant non-domestic property was informed by an analysis of the potential impact on deprived areas. It concluded that the impact is likely to be positive because such property tends to be concentrated in deprived areas and the effect of the measure will be to encourage owners to bring them back into use and occupation. This New TSN analysis was published with the policy paper in April 2003.

In line with the outcomes of the consultation exercise in 2002, the exemptions to the vacant rate will largely mirror those in the rest of the UK. They will cover the situation where the occupation or use of the property is restricted or prohibited in some way, or where the person would be liable only as a proxy for someone else. Property with a net annual value of less than £2,000, property vacant for less than three months, and other properties such as listed buildings will also be exempt. It is also intended to exempt industrial property, that is factories, mines and quarries, from the vacant rate. However, standalone warehouses will not be exempt because, unlike industrial property, they can be readily converted and put on the market for sale or letting to a range of buyers or tenants.

### Residential Disabled Parking

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what criteria are used in the allocation of residential disabled car parking spaces in Northern Ireland; and if he will make a statement. [157562]

**Mr. Spellar:** I have asked the Chief Executive of Roads Service to write to the hon. Gentleman in response to this question. A copy of the letter will be placed in the Library.

### Smuggling

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on smuggling by paramilitary organisations. [146308]

**Jane Kennedy:** There is no doubt that paramilitary organisations continue to engage in organised criminality including smuggling.

While cross-border co-operation between law enforcement agencies is already very good, the Government are fully committed to working with the Government in the Irish Republic to further improve that collaboration by developing strategies and structures to enable law enforcement agencies to maximise their effectiveness against the organised criminals who use the border to smuggle.

I pay tribute to the activity of law enforcement agencies against the smugglers, which has resulted in unprecedented successes against illegal drug importation and a second year of growth in the levels of legitimate deliveries of road fuel oils into Northern Ireland, after five years of decline.

### Translink

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what the average age of rolling stock in service with Translink is; and what progress has been made with the introduction of new rolling stock to the railway network in Northern Ireland. [157671]

**Mr. Spellar:** The following table gives a breakdown by type for the different locomotives and carriages used on the Northern Ireland Railways network. This information was supplied by Translink.

| | *Age (years)* |
|---|---|
| Two GM locomotives | 8 |
| 14 De Dietrich carriages | 7 |
| Three GM locomotives | 22 |
| 11 ex-Gatwick carriages | 31 |
| *80 class:* | |
| 20 power cars | 26 |
| 19 driving trailers | 28 |
| 17 intermediate trailers | 29 |
| *450 class:* | |
| Nine power cars | 17 |
| Nine driving trailers | 17 |
| Nine intermediate trailers | 17 |

Translink also advise that the first of the 23 new trains is scheduled to be delivered in April 2004 with the remainder being delivered progressively through the rest of 2004 and the first part of 2005. Translink expect that all the trains will be in service by the Autumn of 2005.

### Social Deprivation

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what wards are in the top *(a)* 15 per cent., *(b)* 20 per cent. and *(c)* 25 per cent. of wards in Northern Ireland ranked by social deprivation according to the Noble Index. [156623]

**Mr. Pearson:** The Northern Ireland Multiple Deprivation Measures (commonly referred to as the Noble measures of deprivation) were published by the Northern Ireland Statistics and Research Agency in July 2001. I have placed details of those wards in the top 15 per cent., 20 per cent. and 25 per cent. as ranked by multiple deprivation measure score, in the Library.

### Unemployment

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what assessment he has made of the likely trends in unemployment in Northern Ireland in 2004–05; and if he will make a statement. [157275]

**Mr. Pearson:** The Government does not produce forecasts for unemployment. The Northern Ireland economy has benefited from the stability generated by the UK's strong macroeconomic framework while the performance of the labour market in particular has proved resilient in the face of global economic uncertainty.

Current Labour Market Statistics show that employment is at record levels and claimant unemployment is at its lowest rates since the mid 1970s. According to the Labour Force Survey, however, figures for the period October to December 2003 show a rise in the rate to 6.3 per cent. (48,000 people) from 5.6 per cent. a year earlier. This is still 1.7 percentage points lower than the EU15 average.

### Unused Medications

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will estimate the cost of unused medications in the last 12 months. [157343]

**Angela Smith:** The cost of unused medicines in Northern Ireland is estimated at approximately £2 million per year. Further information is contained in "Making it Better—A Strategy for Pharmacy in the Community", which can be viewed on the Department's website at www.dhsspsni.gov.uk/publications/2004/makingitbetter.html.

## PRIME MINISTER

### Electoral Registration

**Mark Tami:** To ask the Prime Minister what guidance he provides to local authorities on voter registration. [156550]

**Mr. Leslie:** I have been asked to reply.

My Department provides regular guidance and information to local electoral registration officers (EROs) on policy issues and legislative changes relating to voter registration arrangements. Separately, the independent Electoral Commission is responsible for offering advice and guidance to EROs on the detailed requirements of these and other voter registration matters.

### Parliamentary Questions

**Norman Baker:** To ask the Prime Minister if he will assess his answering practices in relation to parliamentary questions against the *(a)* Open Government Code of Conduct and *(b)* Freedom of Information Act 2000. [157922]

**The Prime Minister:** Section 1 of the Ministerial Code provides guidance to ministers on answering Parliamentary Questions which takes account of the requirements of the Code of Practice on Access to Government Information. The Freedom of Information legislation takes effect in January 2005.

## CONSTITUTIONAL AFFAIRS

### Adoption Orders

**Tim Loughton:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many adoption orders have been set aside in each of the last 10 years. [156526]

**Mr. Lammy:** This information is not collected centrally and could be provided only at disproportionate cost.

An adoption order can only be set aside in wholly exceptional circumstances. Section 52 of the Adoption Act 1976 provides for the revocation of an adoption order where a person adopted by his father or mother alone subsequently becomes legitimate on the marriage of his parents. Section 53 provides for the annulment of overseas and Hague Convention adoptions on grounds of public policy. There is no other statutory basis for revoking a validly made adoption order.

### Child Custody

**Mr. Andrew Turner:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications for orders relating to child custody were heard at each *(a)* Crown Court centre and *(b)* magistrates' court area in England in the last year for which information is available; what proportion were granted; how many were ex-parte applications; and what proportion of ex-parte applications were granted. [157609]

**Mr. Leslie:** Applications for child custody are made in the county courts and family proceedings courts and not the Crown Court. Figures showing the number of applications for a residence order and the number of orders made in the county courts and family proceedings courts in England for the year 2002 are provided in the table. No information is held centrally concerning those applications that were made ex-parte and can be provided only at disproportionate cost.

*Applications and orders made in the family proceedings courts in England, 2002*

| *Family proceedings court* | *Applications made* | *Orders made* | *Percentage orders granted* |
|---|---|---|---|
| Aldridge and Brownhills | 11 | 8 | 74.8 |
| Ashby De La Zouch | 24 | 68 | 283.3 |
| Barnsley | 39 | 24 | 62.0 |
| Berwick upon Tweed | 3 | 3 | 100.0 |
| Bexley | 37 | 28 | 75.7 |
| Blackpool | 54 | 44 | 815 |
| Bolton | 29 | 26 | 89.7 |
| Bristol | 43 | 43 | 100.0 |
| Burnley | 40 | 32 | 80.0 |
| Burnley and Pendle | 40 | 24 | 60.0 |
| Bury | 37 | 45 | 121.6 |
| Canterbury and St. Augustine | 8 | 8 | 100.0 |
| Carlisle | 40 | 32 | 80.0 |
| Central Buckinghamshire | 8 | 10 | 125.0 |
| Chichester | 8 | 4 | 50.0 |
| Chorley | 12 | 5 | 41.7 |
| Cirencester/Fairford and Tetbury | 32 | 44 | 137.5 |
| City of Salford | 35 | 62 | 177.1 |
| Claro | 21 | 19 | 87.8 |
| Coquetdale | 2 | 1 | 50.0 |
| Crawley | 24 | 12 | 50.0 |
| Derby and South Derbyshire | 72 | 76 | 105.6 |
| Doncaster | 53 | 44 | 83.0 |
| East Retford | 272 | 288 | 105.9 |
| Exeter and Wonford (East Devon) | 36 | 28 | 77.8 |
| Folkestone and Hythe | 32 | 41 | 129.7 |
| Furness and District | 47 | 53 | 112.8 |
| Gateshead | 19 | 16 | 84.2 |
| Gloucester | 51 | 57 | 113.0 |
| Godstone | 16 | 4 | 25.0 |

*Note:*

The orders made do not necessarily relate to the applications made due to the period between application and order. The figures contain imputed data.

### Court Proceedings (Adjournment)

**John Cryer:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make an assessment of the impact on victims of crime of repeated adjournments of court proceedings at crown and magistrates' courts. [157332]

**Mr. Leslie:** In the Crown court close management of ineffective trials by courts and other Criminal Justice System agencies has resulted in a reduction to 17.8 per cent. in January 2004 from the baseline of 23 per cent. set last year. Progress in the magistrates court has been slower, but is still 1.5 per cent. better than the baseline, at 29.4 per cent. in January.

Interviews with victims of crime have found that the inconvenience and emotional upheaval each adjournment causes reduces the likelihood that the victim will attend the next time.

The Government are addressing the problem of ineffective trials through the Effective Trial Management Programme, which will ensure cases are ready on the trial date. In addition, on 4 February the Government announced a £27 million award for the "No Witness, No Justice" Project. This project will ensure victims and witnesses needs are taken into account so that they are more likely to attend on the date of trial.

The impact of each is being assessed.

**John Cryer:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he is taking to reduce the number of unnecessary adjournments of court proceedings. [157333]

**Mr. Leslie:** Adjournments and ineffective hearings in criminal cases are often caused by poor case preparation. The Department for Constitutional Affairs is working with the Home Office and Crown Prosecution Service to reduce the number of ineffective trials and improve case preparation and progression, including through the Effective Trial Management Programme. All criminal courts have been directed to address the rate of ineffective trials.

### Criminal Defence Services

**Mr. Garnier:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the average cost per case of *(a)* defence counsel and *(b)* solicitors for the defence funded by the Criminal Defence Services in (i) 2001–02 and (ii) 2002–03. [149442]

**Mr. Lammy:** It is not possible to provide information in the form requested for the following reasons:

(a) work under the General Criminal Contract, carried out for hearings in the magistrates courts, is paid for by a different mechanism from hearings in the Crown court. Therefore there is no continuity of data which would readily enable us to identify total payments in cases heard in the magistrates court, and which are subsequently transferred to the Crown court and;

(b) standard fees in the magistrates courts paid to solicitors may include money subsequently paid by a solicitor to unassigned counsel for publicly funded work. Therefore is not possible to obtain average case costs split between solicitor and counsel.

### Emergency Protection Orders

**Mr. Andrew Turner:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications were heard for emergency protection orders in each county in England in the last year for which information is available; what proportion were granted; how many were ex-parte applications; and what proportion of ex-parte applications were granted. [157610]

**Mr. Leslie:** Figures showing the number of applications for an emergency protection order and the number of orders made, by each county in England for the year 2002, are provided in the following table. No information is held centrally concerning those applications that were made ex-parte and can be provided only at disproportionate cost.

*Emergency Protection Orders—applications and orders made, by county, 2002*

| County | Total applications | Total orders | Percentage orders granted |
|---|---|---|---|
| Avon | 40 | 38 | 95.0 |
| Bedfordshire | 50 | 28 | 56.0 |
| Berkshire | 15 | 10 | 66.7 |
| Buckinghamshire | 34 | 33 | 97.1 |
| Cambridgeshire | 5 | 0 | 0.0 |
| Cheshire | 0 | 0 | — |

*Emergency Protection Orders—applications and orders made, by county, 2002*

| County | Total applications | Total orders | Percentage orders granted |
|---|---|---|---|
| Cleveland and Darlington | 65 | 30 | 46.2 |
| Cornwall and Isles of Scilly | 37 | 20 | 54.1 |
| Cumbria | 19 | 15 | 78.9 |
| Derbyshire | 18 | 14 | 77.8 |
| Devon | 30 | 26 | 86.7 |
| Dorset | 0 | 0 | — |
| Durham | 16 | 4 | 25.0 |
| E Riding and N Lincolnshire | 4 | 0 | 0.0 |
| Essex | 6 | 1 | 16.7 |
| Gloucestershire | 29 | 24 | 81.9 |
| Greater London | 80 | 73 | 91.3 |
| Greater Manchester | 202 | 163 | 80.9 |
| Hampshire | 36 | 24 | 66.1 |
| Herefordshire and Worcestershire | 0 | 0 | — |
| Hertfordshire | 1 | 0 | 0.0 |
| Humberside | 57 | 50 | 87.7 |
| Kent | 26 | 28 | 707.8 |
| Lancashire | 74 | 47 | 63.5 |
| Leicestershire and Rutland | 32 | 20 | 62.5 |
| Lincolnshire | 22 | 17 | 77.3 |
| London | 364 | 274 | 75.2 |
| Merseyside | 28 | 21 | 75.0 |
| N. Somerset and S. Gloucestershire | 2 | 0 | 0.0 |
| Norfolk | 29 | 28 | 96.6 |
| North Yorkshire | 28 | 17 | 60.7 |
| Northamptonshire | 0 | 0 | — |
| Northumberland | 6 | 6 | 700.0 |
| Nottinghamshire | 134 | 119 | 88.8 |
| Oxfordshire | 35 | 32 | 91.4 |
| Shropshire | 1 | 1 | 100.0 |
| Somerset | 24 | 12 | 50.0 |
| South Yorkshire | 60 | 60 | 100.0 |
| Staffordshire | 144 | 125 | 86.8 |
| Suffolk | 9 | 3 | 33.3 |
| Surrey | 41 | 33 | 80.5 |
| Sussex | 90 | 84 | 93.3 |
| Tyne and Wear | 45 | 19 | 419 |
| Warwickshire | 44 | 44 | 700.0 |
| West Midlands | 72 | 49 | 68.7 |
| West Yorkshire | 71 | 7 | 9.9 |
| Wiltshire | 1 | 3 | 300.0 |
| National | 2,127 | 1,603 | 75.3 |

*Note:*

The orders made do not necessarily relate to the applications made due to the period between application and order. The figures contain imputed data.

### Family History Research

**Mr. Dhanda:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department can take to enable individuals researching their family history to obtain more official documents, including censuses, online. [156817]

**Mr. Leslie:** In recent years the National Archives has developed many online services aimed at family historians, including the digitisation of wills from 1384 to 1858. This and other services are available on its website at: www.nationalarchives.gov.uk. It also operates a website which acts as a gateway for online family sources throughout the United Kingdom at www.familyrecords.gov.uk. The National Archives is determined to maintain this momentum through the development of its digitisation programmes and licensing agreements with commercial organisations.

**Mr. Dhanda:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will publish online the 1911 census. [157097]

**Mr. Leslie:** I refer the hon. Member to the answers I have given to the hon. Member for Orkney and Shetland on 10 December 2003, *Official Report*, column 457W and on 18 December 2003, *Official Report*, column 1112W.

### Judicial Review

**Mr. Coleman:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the average cost to public funds of a judicial review case was in each of the last three years; [156799]

(2) what the *(a)* average and *(b)* total cost was to public funds of judicial review cases relating to decisions under section 55 of the Nationality, Immigration and Asylum Bill 2002 in 2003. [156801]

**Mr. Leslie:** The Administrative Court Office does not identify unit costs for judicial review claims.

It is not responsible for funding for "legal aid" for judicial review—that is the responsibility of the Legal Services Commission—and details of costs incurred by public authorities responding to claims are not kept by the Administrative Court Office.

The information requested therefore could be obtained only at disproportionate cost.

**Mr. Coleman:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average length to final determination was of a judicial review case in each of the last three years. [156800]

**Mr. Leslie:** The average waiting times for civil judicial review (issued after October 2000 when the new judicial review procedure was introduced) for the last three calendar years are as follows:

2001—20.9 weeks

2002—31.3 weeks

2003—31.1 weeks

The average waiting times include the periods in which cases were stood out of the list pending determination of test cases and any subsequent appeals in those matters.

**Mr. Coleman:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average length of judicial review cases relating to decisions under section 55 of the Nationality, Immigration and Asylum Act 2002 was in 2003. [156809]

**Mr. Leslie:** In 2003 the average waiting time for such cases was 19.9 weeks including the time cases were 'stood out' pending decisions in lead cases and any subsequent appeals in those lead cases.

### Video Equipment in Courts

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the quality of video equipment used in courts. [156312]

**Mr. Leslie:** All 78 Crown court have at least one set of VHS video playback equipment and some sites have this facility in each courtroom. There are currently 388 sets installed in a total of 521 courtrooms. 269 of these

courtrooms also have facilities to link to remote witness rooms so that witnesses can give evidence without attending the courtroom.

154 magistrates courts are equipped with videoconferencing facilities and video playback equipment. A total of 179 courtrooms have this facility and there are 133 rooms in which vulnerable and intimidated witnesses can give remote evidence.

10 county courts and nine Immigration Appellate Authority sites have been provided with modern "stand alone" video conferencing equipment.

This equipment has been installed in courts over the past 10 years and comprises a range of different makes and models. The vast majority of magistrates court equipment has been installed within the past three years and 20 per cent. of the Crown court installations have taken place in the past 12 months. This equipment includes VHS video and DVD players together with fixed plasma display screens.

All of the video equipment in place meets current business requirements and is being used on a regular basis during hearings and trials. A comprehensive maintenance contract ensures that any reported failure of equipment is attended to as a matter of urgency. Equipment is typically serviced twice per annum.

**Voter Participation/Registration**

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment has been made of participation rates in general elections in *(a)* the United Kingdom and *(b)* other EU countries in the last five years. [156446]

**Mr. Leslie:** While the Government are aware of participation rates in general elections in the UK and other EU countries, they have not conducted any specific research. The independent Electoral Commission reported on the outcome of the 2001 general election and has conducted research on voting intentions for the European parliamentary and London's Mayoral and Assembly elections in June 2004.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what research his Department has conducted on the implications of the introduction of compulsory participation in United Kingdom elections. [156447]

**Mr. Leslie:** None. However, the Government are aware that the independent Electoral Commission has indicated that it intends to conduct future research on the international use of compulsory voting.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what research his Department has conducted on the use of *(a)* legal and *(b)* fixed penalties to encourage higher levels of voter registration. [156448]

**Mr. Leslie:** None. Electoral Registration Officers (EROs), appointed for the purpose by local authorities, are responsible for compiling the electoral register. It is already an offence punishable upon conviction by a fine not exceeding £1,000 for a person to fail to comply with a request for information from, or to provide false information to, an ERO who is seeking to carry out his duty to prepare an electoral register.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what research his Department has carried out to ascertain why individuals do not register to vote. [156540]

**Mr. Leslie:** Research on why individuals fail to register to vote has not been carried out by this Department. However, the Government are aware that the independent Electoral Commission has published several research reports on voter engagement that have included coverage of levels of registration.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he is taking to encourage people to complete electoral registration forms. [156541]

**Mr. Leslie:** The Representation of the People (England and Wales) Regulations 2001 introduced in February 2001 a number of changes to voter registration procedures aimed both at making it easier for persons to register to vote, and at achieving more accurate and up to date electoral registers. These changes included the introduction of 'rolling registration' and enabling persons without a conventional address to register to vote. The Government ran major public information campaigns at that time to publicise these changes.

The independent Electoral Commission is now responsible for raising public awareness of registration issues.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what estimate he has made of the number of people who failed to register to vote in the UK in each of the last five years. [156542]

**Mr. Leslie:** The information requested has not been collected by the Government.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many registered postal voters there were in each constituency in the UK at the 2001 general election. [156548]

**Mr. Leslie:** The independent Electoral Commission published in January 2002 'Postal votes, proxy votes and spoilt ballot papers at the 2001 general election', which provides this information. I understand that the Commission placed copies of that document in the Library of the House at the time of publication.

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the impact of the introduction of a rolling register on levels of voter registration in the UK. [156537]

**Mr. Leslie:** The Government consider that 'rolling registration' has resulted in more accurate and up to date electoral registers. I understand that the independent Electoral Commission has commenced further research to assess the operation and impact of rolling registration on levels of voter registration. The Government will consider carefully any findings made by the Electoral Commission on this issue.

## HEALTH

### Genetically Modified Crops

**Mr. Simon Thomas:** To ask the Secretary of State for Health what ruminant feeding trials have been conducted with T25 genetically modified fodder maize; whether such trials have been *(a)* published and *(b)* peer reviewed; and if he will make a statement on the implications of such trials for the commercialisation of T25 maize. [157752]

**Miss Melanie Johnson** *[holding answer 1 March 2004]*: Ruminant feeding studies are not routinely required as part of the regulatory approval process for the marketing of new genetically modified organisms. Information on the specific GM event is used, with compositional analysis, to demonstrate whether a GM plant is substantially equivalent to its conventional counterpart. We are not aware of any published or peer reviewed reports of ruminant feeding trials conducted with T25 genetically modified fodder maize.

### Alefacept

**Mrs. Iris Robinson:** To ask the Secretary of State for Health if he will make a statement on research into Alefacept use for treating psoriasis; and what plans he has to introduce this in Northern Ireland. [157337]

**Dr. Ladyman:** We have no plans to undertake research into the use of Alefacept for treating psoriasis. Alefacept does not have a United Kingdom Marketing Authorisation. As an unlicensed medicine, doctors may prescribe it on a named-patient basis, but it will only be available on the national health service if the Medicines and Healthcare Products Regulatory Agency grants it a licence.

Decisions on health policy in Northern Ireland are the responsibility of Ministers in the Northern Ireland Office whilst the institutions are suspended.

### Allergies

**Mr. Gordon Marsden:** To ask the Secretary of State for Health what research his Department has carried out into the causes of the change in the number of people suffering from allergies. [157277]

**Dr. Ladyman:** A range of research projects on the epidemiology of allergies have recently been completed or are ongoing. The International Study of Asthma and Allergies in Childhood (ISAAC) was formed in 1991. Phase one measured the prevalence of childhood asthma, hay fever and atopic eczema for international comparisons. Phase two began in 1998 and involves more intensive studies in a smaller number of countries. The Department funded the United Kingdom contribution to phase two.

King's College London has led a £2.1 million European Commission-funded prospective study of the incidence and prognosis of allergy, allergic disease and low lung function in adults living in Europe. King's College is also participating in the Global Allergy and Asthma European Network, launched on 12 February 2004. In addition, the University of Manchester is leading a £1.2 million EC-funded investigation of the prevalence, pathogenesis, treatment and prevention of sun allergy across Europe. Sun-provoked skin reactions are one of the commonest forms of allergy.

This European and international research activity will contribute to evidence on the possible causes of the increase in allergy rates in the United Kingdom and other European countries.

**Mr. Gordon Marsden:** To ask the Secretary of State for Health what plans his Department has for extending specialised allergy services in *(a)* England and Wales, *(b)* the North West and *(c)* Blackpool. [157278]

**Dr. Ladyman:** It is the responsibility of primary care trusts, in partnership with other local stakeholders, to determine how best to use their funds to provide health services for their populations, including those with allergies.

**Mr. Gordon Marsden:** To ask the Secretary of State for Health how many *(a)* adults and *(b)* children have been recorded as suffering from allergies in (i) England and Wales, (ii) the North West and (iii) Blackpool in each of the last five years for which figures are available. [157279]

**Dr. Ladyman:** The information requested is not held centrally. Last year, in its report, "Allergy—the unmet need: a blueprint for better patient care", the Royal College of Physicians estimated that around one in six of the population is affected by allergy.

### Avian Influenza

**Keith Vaz:** To ask the Secretary of State for Health what steps he is taking to protect the population from avian influenza; and whether a vaccine will be made available. [154446]

**Miss Melanie Johnson:** As soon as avian influenza disease was reported by the Thai and United States authorities, the United Kingdom banned imports of fresh meat of poultry, poultry meat products, raw material for animal feed production, eggs for human consumption, live captive birds such as falcons and finches, unprocessed feathers and untreated game trophies, untreated poultry manure, ratites farmed and wild feathered game from those countries.

Various organisations worldwide are looking at producing a vaccine against avian influenza H5N1 including the National Institute for Biological Standards and Control in the UK. This work is estimated to take about six months.

### Cancer

**Mr. Baron:** To ask the Secretary of State for Health what estimate he has made of the proportion of cancer cases which were preventable in the last year for which figures are available, broken down by type of cancer. [150232]

**Miss Melanie Johnson** *[holding answer 26 January 2004]*: There is no safe way to estimate the numbers of cancer cases that were preventable. Smoking, poor diet and lack of exercise all play their part in causing cancers but less controlable factors such as genetic make-up and environment make identifying preventable factors difficult.

### Care Homes (Deaths)

**Mr. Greg Knight:** To ask the Secretary of State for Health (1) how many care assistants employed in care homes in England and Wales have confirmed the death of a resident in the past 12 months for which figures are available; and if he will make a statement; [153481]

(2) whether it is his policy to encourage doctors to train care assistants to confirm deaths that occur in care homes; and if he will make a statement. [153444]

**Dr. Ladyman** *[holding answer 11 February 2004]:* Under the Care Homes Regulations and the Care Homes (Wales) Regulations care home providers are required without delay to notify the National Care Standards Commission (NCSC) and the Care Standards Inspectorate for Wales (CSIW) respectively that a resident has died, including the circumstances of the death. In practice, a member of staff working in the home will notify the regulator. The NCSC and the CSIW do not collect information about which member of staff in a care home has notified them of the death of a resident.

The doctor who attended the resident during his or her last illness is responsible for certifying the cause of death. If a doctor feels unable to complete the death certificate the death is referred to the coroner for investigation.

Care home providers are responsible for ensuring that the staff working in care homes have qualifications suitable to the work they are to perform and the skills and experience necessary for such work. Providers are also expected to arrange appropriate training for their staff. We would expect this to include all aspects of dealing with the death of a resident.

### Chiropody Services

**Mr. Amess:** To ask the Secretary of State for Health what measures he is taking to improve access to chiropody services. [157141]

**Dr. Ladyman:** It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. Their responsibilities include access to chiropody services locally.

### Causes of Death

**Mr. Burstow:** To ask the Secretary of State for Health how many deaths in people over 60 since 1997 were due to *(a)* cancer, *(b)* coronary heart disease and *(c)* falls; and if he will make a statement. [156647]

**Ruth Kelly:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from John Pullinger to Mr. Paul Burstow, dated 2 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many deaths in people aged over 60 since 1997 were due to *(a)* cancer, *(b)* coronary heart disease and *(c)* falls. (156647)

The latest year for which data are available is 2002. Figures for cancer, ischaemic (otherwise known as coronary) heart disease and falls in persons aged over 60 are shown in the attached table for each year from 1997 to 2002.

*Number of deaths from (a) cancer, (b) ischaemic heart disease, and (c) falls[1] in persons aged over 60[2], England and Wales, 1997 to 2002[3]*

| *Calendar year* | *(a) Cancer[4]* | *(b) Ischaemic heart disease* | *(c) Falls[5]* |
|---|---|---|---|
| 1997 | 112,147 | 111,658 | 2,198 |
| 1998 | 112,678 | 110,425 | 2,112 |
| 1999 | 110,956 | 104,969 | 2,161 |
| 2000 | 109,564 | 98,862 | 2,460 |
| 2001[4] | 112,711 | 96,532 | 2,058 |
| 2002[4] | 113,552 | 93,578 | 1,967 |

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9)for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 and 2002. The codes used are listed below:

Cancer—ICD-9 140–208; ICD-10 C00-C97;

Ischaemic heart disease—ICD-9 410–414; ICD-10 120–125;

Falls—ICD-9 E880-E888 excluding E887; ICD-10 W00-W19.

[2] Persons aged 61 years and over.

[3] Figures are based on deaths occurring in each calendar year.

[4] The introduction of ICD-10 for coding cause of death in 2001 means that data for cancer are not completely comparable with data for years before this date. The data should therefore be interpreted with caution. The effect of the change in classification in 2001 on deaths from cancer is described in a report published in May 2002.*

[5] The data for falls for 1997 to 2000 exclude fractures of unspecified cause (ICD-9 E887), so data for these years are comparable to those for 2001 onwards. The effect of the change in classification in 2001 on deaths from falls is described in an article published in August 2003.*

* Office for National Statistics. Results of the ICD-10 bridge coding study, England and Wales, 1999. "Health Statistics Quarterly" 14 (2002), 75–83.

** Griffiths C and Rooney C. The effect of the introduction of ICD-10 on mortality from injury and poisoning in England and Wales. "Health Statistics Quarterly" 19 (2003), 10–21.

### Correspondence

**Mr. Steen:** To ask the Secretary of State for Health when he will reply to the letter from the hon. Member for Totnes dated 16 December 2003 concerning the interpretation of what constitutes a severe abnormality in relation to abortion laws. [155101]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* A reply was sent to the hon. Member on 6 February 2004.

### Cycling

**Mr. Nigel Jones:** To ask the Secretary of State for Health what assessment he has made of the benefits of cycling to the health of the nation. [156103]

**Miss Melanie Johnson:** The Department recommends that adults participate in at least 30 minutes of moderate intensity physical activity, at least five days a week and that young people participate in physical activity of at least moderate intensity for one hour per day. Leisurely cycling (around 10 miles per hour) represents one way of meeting these recommendations.

Regular cycling improves fitness significantly, reducing the risk of obesity, strokes, coronary heart disease, certain types of cancer, diabetes and osteoporosis. There are also benefits for mental health, with evidence of reduced depression and stress, improved self-esteem and confidence in performing physical tasks.

### Foundation Trusts

**Mr. Dobson:** To ask the Secretary of State for Health pursuant to his Answer of 11 February, ref 153001, if he will place in the Library the guidance he issued to first wave NHS foundation trusts. [155601]

**Mr. Hutton** *[holding answer 23 February 2004]:* Copies of the guidance and the model rules for elections to the board of governors of national health service foundation trusts have been placed in the Library.

### GM Seed

**Andrew George:** To ask the Secretary of State for Health what advice his Department has *(a)* given to and *(b)* received from the UK delegates attending European Commission regulatory standing and management committees on GM seed. [153891]

**Miss Melanie Johnson:** I refer the hon. Member to the answer provided by my hon. Friend the Minister for the Environment on 23 February 2004, *Official Report*, column 140W.

### Health Services (Worcestershire)

**Sir Michael Spicer:** To ask the Secretary of State for Health if he will make a statement on the future of Malvern Community Hospital. [157972]

**Dr. Ladyman:** West Midlands South Strategic Health Authority (SHA) reports that South Worcestershire Primary Care Trust continues to be committed to the development of a new hospital in Malvern. The project team is currently working on a business case, which will be submitted to the SHA.

### Health Visitors

**Mr. Baron:** To ask the Secretary of State for Health what the vacancy rates are for health visitors in *(a)* Lambeth and *(b)* Sutton primary care trusts. [155447]

**Mr. Hutton** *[holding answer 24 February 2004]:* The information requested is shown in the table.

*Department of Health Vacancies Survey, March 2003: Vacancies in England and each specified NHS Trust for qualified health visiting staff, 3 month vacancy rates, numbers and staff in post*

| | | March 2003 | | September 2002 | |
|---|---|---|---|---|---|
| | | *3 month vacancy rate (Percentage)* | *3 month vacancy (Number)* | *Staff in post (Whole-time equivalent)* | *Staff in post (Headcount)* |
| *England* | | 2.3 | 229 | 9,912 | 12,774 |
| *Of which:* | | | | | |
| 5LD | Lambeth PCT | 0.0 | 0 | 78 | 89 |
| 5M7 | Sutton and Merton PCT | 0.0 | 0 | 79 | 105 |

*3 month vacancy notes:*
1. Three month vacancy information is as at 31 March 2003.
2. Three month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
3. Three month Vacancy Rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
4. Three month Vacancy Rates for non-medical staff are calculated using staff in post from the Vacancy Survey, March 2003.
5. Percentages are rounded to one decimal place.

*Staff in post notes:*
1. Staff in post data is from the Non-Medical Workforce Census, September 2002.

*General notes:*
1. Vacancy and staff in post numbers are rounded to the nearest whole number.
2. Calculating the vacancy rates using the above data may not equal the actual vacancy rates.
3. Due to rounding, totals may not equal the sum of component parts.

*Sources:*
Department of Health Vacancies Survey, March 2003.
Department of Health Non-Medical Workforce Census, September 2002.

### Mercury Healthcare

**Mr. Wilshire:** To ask the Secretary of State for Health pursuant to the answer, 10 February, to Question reference 153276, whether Mercury Healthcare *(a)* are still involved in the negotiations and *(b)* are still the selected contractor. [155185]

**Mr. Hutton** *[holding answer 23 February 2004]:* On Tuesday 17 February, the Department announced that preferred bidder status for the independent sector treatment centre 'spine chain'—of which the treatment centre at Ashford is an integral part—had been switched from Mercury Healthcare to the reserve bidder, Capio UK.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for Health when he last used a train in connection with his ministerial duties. [155160]

**Ms Rosie Winterton:** As of Wednesday 25 February 2004:

My right hon. Friend the Secretary of State for Health last travelled by train during the course of his official duties on Monday 23 February 2004, from London Euston to Birmingham New Street.

My right hon. Friend the Minister of State for Health (Mr. Hutton) last travelled by train during the course of his official duties on Tuesday 10 February 2004, from London Waterloo to Southampton.

My hon. Friend the Under-Secretary of State for Health (Miss Johnson) last travelled by train during the course of her official duties on Wednesday 25 February 2004, from London St. Pancras to Sheffield.

My hon. Friend the Under-Secretary of State for Health (Dr. Ladyman) last travelled by train during the course of his official duties on Thursday 12 February 2004 from London Kings Cross to Grantham.

My noble Friend the Under-Secretary of State for Health (Lord Warner) last travelled by train during the course of his official duties on Wednesday 25 February 2004 from Birmingham New Street to London Euston.

I last travelled by train during the course of my official duties on Tuesday 6 January 2004 from Ashford to London Charing Cross.

All travel by Ministers on official business is undertaken in accordance with the rules set out in 'Travel by Ministers'.

### Neurologically Impaired Children

**Sue Doughty:** To ask the Secretary of State for Health if he will make a statement on the Government's response to the recommendation in the Chief Medical Officer's consultation paper "Making Amends" that support and compensation should be available to neurologically impaired babies, but that children with genetic or chromosomal abnormality would be excluded; and whether the recommendation would result in a difference in the support available to neurologically impaired children and their carers dependent on the cause of their neurological impairment. [156403]

**Ms Rosie Winterton:** The Department is currently analysing the many responses that were received to the consultation on "Making Amends". These responses and discussions with key stakeholders are informing the development of detailed policy, which we are aiming to publish later this year.

### Nurses (London Boroughs)

**Simon Hughes:** To ask the Secretary of State for Health what the proportion of nurses per head of population was in each borough of London in each year since 1992. [155092]

**Mr. Hutton** *[holding answer 23 February 2004]:* Data on the proportion of nurses per head of population is not held at borough area level. Data at strategic health authority area level from 1996 is shown in the table. This is the nearest alternative.

*NHS hospital and community health services: Qualified nursing, midwifery and health visiting staff including Practice Nurses employed by Unrestricted Principals and equivalents (UPEs)[1] in England, the London[2] area and each specified Strategic Health Authority area per one thousand of the population as at 30 September[3] each specified year*

*headcount per 1,000 population*

| | *1996* | *1997* | *1998*[4] | *1999*[4] | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|---|---|
| England | 6.6 | 6.6 | 6.6 | 6.7 | 6.9 | 7.1 | 7.4 |
| *of which:* | | | | | | | |
| London[2] | 7.6 | 7.6 | 7.7 | 7.9 | 7.7 | 7.9 | 8.2 |
| Q04 North West London SNA | 8.1 | 8.2 | 8.4 | 9.1 | 8.0 | 8.6 | 8.9 |
| Q05 North Central London SHA | 10.3 | 10.0 | 10.0 | 9.6 | 9.8 | 10.1 | 10.0 |
| Q06 North East London SHA | 6.4 | 6.4 | 6.3 | 6.2 | 6.0 | 6.3 | 6.5 |
| Q07 South East London SHA | 7.3 | 7.5 | 7.9 | 7.5 | 7.9 | 8.0 | 8.9 |
| Q08 South West London SHA | 6.4 | 6.4 | 6.1 | 7.4 | 7.4 | 6.9 | 7.1 |

[1] UPEs include QMS Unrestricted Principals, PMS Contracted GPs and PMS Salaried GPs.
[2] Figures for London are based on each specified Strategic Health Authority area.
[3] Practice nurse figures are as at 1 October for 1997–99
[4] Headcount Practice Nurse figures are estimated for these years.
*Note:*
The Royal Marsden NHS Trust has been included with South West London Strategic Health Authority. 1996–2001 data is estimated based on 2002 organisational structure. Figures are rounded to one decimal place

Office for National Statistics (ONS)

### Nursing Care Contributions Fees

**Mr. Burns:** To ask the Secretary of State for Health when he expects to publish the first annual review of registered nursing care contributions fees; and for what reason the review has not yet been published. [156318]

**Dr. Ladyman:** The revised monetary values attached to national health service-funded nursing care from April 2004, depending on level of need, are as follows:

Low band—£40 per week (remains the same).

Medium band—£77.50 per week (increased from £75 per week).

High band—£125 per week (increased from £120 per week).

On a case-by-case basis, primary care trusts will be able to agree an amount between £40 per week and the medium band, depending on the individual's needs.

### Out-of-hours Service

**Miss McIntosh:** To ask the Secretary of State for Health if he will make a statement on the operation of out-of-hours work for general practitioners from 1 April in North Yorkshire. [155970]

**Miss Melanie Johnson:** In common with primary care trusts (PCTs) nationally, PCTs in North Yorkshire are currently working with their local general practitioners and other organisations to develop new arrangements for out of hours services in line with the new general medical services contract and which meet the needs of their local population for a high quality, sustainable out-of-hours service.

### Pension Schemes

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what rights exist for NHS employees to transfer their pensions from schemes run by previous employers to the NHS pension scheme; what restrictions exist, with particular regard to length of remaining service with the NHS; and if he will make a statement. [155502]

**Mr. Hutton** *[holding answer 23 February 2004]:* Members of the national health service pension scheme may transfer pension benefits from a previous pension scheme into the NHS scheme. Members wishing to do so must make an application within 12 months of joining the NHS pension scheme and before age 60.

### School Nurses

**Mrs. Shephard:** To ask the Secretary of State for Health: what part in community nursing teams is played by school nurses. [153899]

**Mr. Hutton** *[holding answer 9 February 2004]:* School nurses deliver health services to the school aged population with a focus on health promotion and preventing ill health. They are generally employed by primary care trusts and work closely with visitors, child health services, social care and education.

Alongside their community nursing colleagues, school nurses will identify the health needs of the population and deliver public health and health care interventions that address local and national priorities.

### SunSmart Scheme

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Health (1) how he intends to increase the profile of *(a)* the issue of skin cancer and *(b)* methods of effective sun protection through the SunSmart scheme; [155280]

(2) how much funding will be provided for the SunSmart campaign for summer 2004; [155281]

(3) what account the SunSmart campaign will take of tanning shops. [155282]

**Miss Melanie Johnson:** A new sun awareness initiative, the SunSmart campaign, was launched in March 2003, funded by United Kingdom Health Departments and run by Cancer Research UK.

The campaign is based on the successful SunSmart campaign in Australia. The campaign has received interim funding of £50,000 this year from the UK Health Departments. Decisions on further funding for SunSmart will be made in due course.

The campaign's aim is to increase the profile of the issue of skin cancer and methods of effective sun protection. The key objectives are to increase knowledge of the causes of skin cancer, to increase awareness of actions that can be taken to prevent skin cancer and to influence positively attitudes to sun protection.

Wide dissemination of SunSmart messages will be achieved through the media and by supporting education and health professionals locally. The campaign is working with the Department for Education and Skills and teachers to develop guidelines to encourage schools to adopt their own SunSmart policies and curricular activities.

Tanning shops and the potential dangers involved in the use of sunbeds will be the subject of a meeting of experts and industry hosted by SunSmart on 29 March. The campaign will review the latest scientific evidence and to develop practical recommendations for better self-regulation.

SunSmart achieved mass media coverage for skin cancer issues in 2003, reaching 76 per cent. of UK adults, and will use similar techniques this spring/summer to keep skin cancer high profile with the public.

In addition to the SunSmart campaign, we continue to fund the Meteorological Office to provide the Ultra-Violet index in the media (television, radio, Meteorological Office website).

The Department also provides core funding to the National Radiological Protection Board, which has expertise on ultra-violet radiation issues relevant to the public health aspects of the prevention of skin cancer.

### Tuberculosis

**Simon Hughes:** To ask the Secretary of State for Health how many new cases of tuberculosis were diagnosed in London in each year since 1995. [155093]

**Mr. Hutton** *[holding answer 23 February 2004]:* The information requested is shown in the table.

Data on tuberculosis notifications are available from the Health Protection Agency at http://www.hpa.org.uk/infections/topics_az/tb/epidemiology/table5.htm.

| | *Tuberculosis notifications in London* |
|---|---|
| 1995 | 2,042 |
| 1996 | 2,190 |
| 1997 | 2,411 |
| 1998 | 2,444 |
| 1999 | 2,493 |
| 2000 | 2,834 |
| 2001 | 2,886 |
| 2002 | 2,850 |

## EDUCATION AND SKILLS

### Skilled Workers

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills what estimate his Department has made of the supply of skilled workers in key areas, with particular reference to *(a)* the construction industry, *(b)* plumbing, *(c)* the NHS and *(d)* the education system. [157586]

**Mr. Miliband:** The Skills Strategy (published in July 2003) set out our plans for identifying skill needs across the economy.

In relation to the particular areas highlighted:

*The construction industry and plumbing*

Sector Skills Councils (SSCs) are being established to identify and define the skills that employers need to raise productivity in all major sectors of the economy. Construction is one of four sectors pioneering new Sector Skills Agreements to deliver on this agenda.

Construction was highlighted as a priority curriculum area in "Success for All: Our Vision for the Future" the Government's strategy for reforming further education and training published in November 2002.

The 2003 National Employers Skills Survey shows the construction sector as having a relatively high number of skill shortage vacancies per employee in comparison to other sectors.

Forecast future requirements in the construction sector are of an annual net requirement between 2003 and 2007 of 54,000 construction workers and 6,000 plumbers. This is to replace both an ageing workforce and to meet an expansion of the sector.

Supply is expected to meet this increased future demand. In 2001/02 there were 49,000 vocational awards for construction and 11,000 for plumbing while the number of first-year construction trainees increased for the fifth year running in 2002/03.

*The NHS*

The NHS Plan acknowledged that shortages in human resources were the biggest constraint facing the NHS and set ambitious targets for increasing the NHS workforce. By March 2004 there will be 7,500 more consultants, 2,000 more GPs, 20,000 more nurses and 6,500 more therapists and other health professionals employed in the NHS than in 1999.

Furthermore, "Delivering the NHS Plan" included expected increases in the NHS work force. Between 2001 and 2008, we expect there to be increases of 35,000 nurses and midwives, 15,000 consultants and GPs and 30,000 therapists and scientists.

*The education system*

The Secretary of State for Education and Skills is responsible for ensuring an adequate supply of school teachers. Since 1997 there has been an increase of nearly 25,000 regular teachers in maintained schools in England. Recent improvements in recruitment to initial teacher training and innovative ways of remodelling the work force—with support staff helping teachers to use their professional skills to greatest effect—mean that supply is expected to continue to be sufficient. Alongside rising teacher numbers, there is also evidence of improving teacher quality.

The DfES liaises regularly with the Higher Education Funding Council for England (HEFCE) and the Learning and Skills Council (LSC) to ensure that the supply of teaching and learning is not adversely affected by labour shortage.

In addition, the DfES has responsibility—following the publication of the Green Paper, "Every Child Matters"—for children's services more broadly, including social care, and is currently developing its evidence base on the wider children's work force.

**Adult Learning**

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding has been made available for adult learning in further education colleges for each year since 1997. [154234]

**Alan Johnson:** The information requested is set out in the following table:

*Adult participation funding (including additional learning support)*

| | £ million |
|---|---|
| 1997–98 | 1,296 |
| 1998–99 | 1,321 |
| 1999–2000 | 1,346 |
| 2000–01 | 1,485 |
| 2001–02 | 1,608 |
| 2002–03 | 1,733 |

These figures represent allocations made to further education colleges funded by the Further Education Funding Council (FEFC) until 2000–01, and the Learning and Skills Council (LSC) from 2001–02.

**Business Skills Education**

**Ms Walley:** To ask the Secretary of State for Education and Skills (1) what his Department's policy is on teaching business and entrepreneurial skills to primary school children; and if he will make a statement; [155587]

(2) what funding his Department is giving to *(a)* primary and *(b)* secondary schools in (i) Staffordshire and (ii) Stoke-on-Trent to improve the business skills of school pupils; and if he will make a statement; [155588]

(3) what his Department's funding for business and entrepreneurial skills has been for each of the last 10 years in *(a)* primary schools and *(b)* secondary schools; and if he will make a statement; [155589]

(4) what his Department's budget is in 2003–04 for the funding of business skills education in primary education; and if he will make a statement; [155590]

(5) what his Department's future programmes are for improving business and entrepreneurial skills in *(a)* primary school children and *(b)* secondary school children; and if he will make a statement. [155592]

**Mr. Stephen Twigg:** Business and enterprise are covered within the Citizenship curriculum, which is compulsory in secondary schools. For example, 14 to 16-year-old pupils are taught about how the economy functions, including the role of business and financial services.

The non-statutory framework for Personal, Social and Health Education, provides for personal finance education to be taught in both primary and secondary schools, allowing teachers to cover the wide range of topics as set out in the Department's "Financial Capability through Personal Financial Education" guidance for schools. This helps to provide children with the skills they need to move into adulthood, confident in

their ability to deal effectively with a range of financial decisions. We do not disaggregate the funding schools spend on different elements of curriculum subjects.

From 2005/06 a new £60 million Enterprise Education entitlement will provide all Key Stage 4 pupils with the equivalent of five days enterprise activity which will develop enterprise capability—including personal financial capability as well as business understanding. 151 Pathfinder projects began in nearly 400 secondary schools in September 2003. They will help DfES to develop additional guidance including case studies and lesson plans. Fair Oak High School, Walton High School in Staffordshire and Blurton High School in Stoke-on-Trent, are Enterprise Pathfinder schools, receiving some £34,000 between them in the financial year 2003–04.

### Child Removals

**Tim Loughton:** To ask the Secretary of State for Education and Skills further to the Appeal Court judgment in the R *v.* Cannings case, what specific action he has initiated to review the cases of children removed from their parents in the family courts which have involved expert witness testimony from *(a)* Professor Sir Roy Meadow and *(b)* others on the expert witness list for (i) their expertise in Munchausen's syndrome by proxy and (ii) causing child death by shaking. [152136]

**Margaret Hodge:** I made a statement to the House on 23 February 2004, following the Appeal Court's judgment in the appeal against the conviction of Angela Cannings. In this statement I announced the action that I have asked local authorities with social services responsibilities to take.

First, for them to consider those cases which are affected by the Attorney-General's Review. In those cases, councils should stand ready to act in the light of the outcome of that review.

Secondly, within the next four weeks, for councils to identify and make their best efforts to review current cases. These are cases where they have commenced care proceedings in relation to a child and where the court has not yet made a final care order. In these cases councils should consider with their lawyers the implications, for those proceedings, of the Court of Appeal's judgment in the Cannings case.

Thirdly, within the next 12 weeks social services should, together with their lawyers, identify those cases where a final care order was made in the past, which involved harm to the child or a sibling, and where the making of the care order depended, exclusively or almost exclusively, on a serious disagreement between medical experts about the cause of the harm. In such cases, councils should again consider, with their lawyers, whether there are now doubts about the reliability of the expert medical evidence. If that is so and, in the light of the child's current circumstances and current best interests, they should then consider whether to apply to the court for the care order to be discharged, or whether to support any application that may be made by the parents or the child. Councils, when reviewing cases, will also need to take into account any fresh case law judgments from the appeal court that may be relevant.

Where applications to the court are made, whether by the local authority, the parents or the child it will be for the court to decide, in all cases, if the care order should be discharged.

My statement set out a route forward for the period ahead within the limits of my ability to act. With this review and with the current and forthcoming judgments in both care proceedings and appeal cases in the courts we will ensure that we are acting in the best way possible to protect the interests of children both today and in the future.

### Children Act

**Mr. Chope:** To ask the Secretary of State for Education and Skills when he will publish his final response to the Children Act Sub-Committee Report, "Making Contact Work"; and what the reasons are for the delay in publishing the response. [156574]

**Margaret Hodge** *[holding answer 26 February 2004]:* The Children Act Sub-Committee published its report "Making Contact Work" in February 2002. The then Lord Chancellor's Department published its interim response in August 2002. Following the Machinery of Government changes last year, I now have lead responsibility for child contact issues.

I have, together with my hon. Friends in the Department for Constitutional Affairs, been working carefully to consider how the family justice system and related children's services can better meet the needs of all children and their parents following relationship breakdown. We want to ensure that better outcomes are achieved for children by, where possible, helping parents agree contact arrangements without the intervention of the courts. We have also consulted widely with stakeholders and drawn on their expertise. I expect to publish the Government's response in March.

### Children's Fund

**Tim Loughton:** To ask the Secretary of State for Education and Skills (1) by what amount the Children's Fund was over-committed in financial year 2003–04; [155634]

(2) how much he estimates the Children's Fund will be over-committed in *(a)* 2004–05 and *(b)* 2005–06; [155635]

(3) how much money has been saved by reductions to the *(a)* 2004–05 and *(b)* 2005–06 allocations to the Children's Fund. [155636]

**Margaret Hodge:** The Children's Fund was over-committed by £14.6 million in 2003–04 on an allocation of £150 million. It had a projected over-commitment of the same amount for 2004–05 and 2005–06.

We have not made cuts to the Children's Fund in 2004–05 and 2005–06, indeed I expect to have spent more than the £450 million set aside for the Children's Fund by the end of 2005–06. Following discussions with the Children's Fund advisory forum of key stakeholders in the programme, we have agreed revised allocations to partnerships for 2004–05, together with a package of flexibilities that will ensure that the programme lives within its financial limits while honouring its commitments. We will be having a comprehensive dialogue about 2005–06 with partnerships and key

partners in the programme over the next few weeks, with final decisions to be taken in autumn 2004 informed by that dialogue and the outcome of the Spending Review.

### Class Sizes

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the average class size in English primary schools is; what estimate he has made of the cost of introducing a maximum average class size of 25; and if he will make a statement. [156699]

**Mr. Stephen Twigg:** The average class size in English primary schools at January 2003 was 26.3. This relates to one teacher classes only.

The Department has not made any estimate of the cost of introducing a maximum average class size of 25.

### Connexions

**Charles Hendry:** To ask the Secretary of State for Education and Skills if he will make a statement on the progress of the Connexions service towards meeting its target of reducing by one tenth the number of 16 to 18-year-olds not in education, employment or training by one tenth by November 2004. [154781]

**Margaret Hodge:** The Connexions Service is making good progress towards the target of reducing the proportion of 16 to 18-year-olds not in education, employment or training. In November 2003, Connexions Partnerships estimated that the proportion of 16 to 18-year-olds not in education, employment or training had fallen by 8 per cent. in established phase 1 and 2 Partnership areas, and 3 per cent. overall taking the new phase 3 areas into account, during the past year.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many 16 to 18-year-olds not in education, employment or training there were in each month since the Connexions service was established. [154782]

**Margaret Hodge:** The number of 16 to 18-year-olds known not to be in education, employment or training in each month since the Connexions Service was established is shown in the following table. The year-on-year increases in numbers recorded as being not in education employment or training change because of the phased roll out of Connexions Partnerships in 2002–03. The national data increases as each Partnership becomes operational. In November 2003, Connexions Partnerships estimated that the proportion of 16 to 18-year-olds not in education, employment or training had fallen by 3 per cent. overall during the previous year.

*Number of 16 to 18-year-olds known by the Connexions Service not to be in education, employment or training*

| | *2001* | *2002* | *2003* |
|---|---|---|---|
| January | — | 45,215 | 133,089 |
| February | — | 44,808 | 130,399 |
| March | — | 45,628 | 126,684 |
| April | 24,747 | 61,502 | 103,543 |
| May | 23,331 | 60,329 | 97,479 |
| June | 24,794 | 62,577 | 87,808 |
| July | 28,737 | 64,865 | 88,017 |
| August | 30,469 | 65,284 | 87,091 |
| September | 45,692 | 118,081 | 117,487 |

*Number of 16 to 18-year-olds known by the Connexions Service not to be in education, employment or training*

| | *2001* | *2002* | *2003* |
|---|---|---|---|
| October | 44,989 | 130,083 | 114,687 |
| November | 44,095 | 131,906 | 109,198 |
| December | 44,164 | 126,423 | 101,771 |

*Notes:*

1. Connexions Partnerships were rolled out over two years, with the first 15 Partnerships going live in 2001; 13 becoming operational between April and June 2002 and 16 between September and November 2002. The three remaining Partnerships became operational in 2003.
2. Data for April 2001 to March 2002 is for 16 to 19-year-olds. Data for 16–18 year olds was not available.
3. The number of 16 to 18-year-olds not in education, employment or training increases in September each year as summer school leavers enter the labour market for the first time.

**Charles Hendry:** To ask the Secretary of State for Education and Skills whether it is his Department's policy to assess the impact of the Connexions service upon previously existing services for young people. [154783]

**Margaret Hodge:** The impact of Connexions on previously existing services has been tested through a survey of 'stakeholders'—individuals and representatives of partner organisations on the Connexions Partnership Boards and Local Management Committees (e.g. local authorities, the police, health and social services, voluntary and community organisations and employers).

The survey of local partners in January 2003 found that a large majority (83 per cent.) believed that the objectives of Connexions were consistent with those of their own organisation and over 60 per cent. agreed that Connexions helped their organisation meet its own targets and objectives. Nearly eight out of 10 local partners thought that joint working between agencies providing services to young people in their areas was effective compared with 40 per cent. prior to the establishment of Connexions Partnerships.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many Connexions clients there are, broken down by *(a)* social class and *(b)* ethnic origin. [154793]

**Margaret Hodge:** Information on the social class of Connexions clients is not collected by Connexions Partnerships.

Information on the ethnic origin of Connexions clients of compulsory education age (i.e. those in school years 8–11) is not collected by Connexions Partnerships. Information on the ethnic origin of those Connexions clients who have completed school year 11 in 2003 or earlier is collected by Partnerships and is shown in the following table.

| | *Number* |
|---|---|
| Connexions clients who are of post compulsory education age (December 2003) | 2,300,364 |
| *White total* | 1,699,787 |
| White British | 1,545,354 |
| White Irish | 5,464 |
| Other white background | 59,824 |
| White not known | 89,145 |
| White and black Caribbean | 7,129 |

| | Number |
|---|---|
| *Mixed race total* | 24,009 |
| White and Black African | 2,683 |
| White and Asian | 5,317 |
| Other mixed background | 8,880 |
| *Black or black British total* | 74,018 |
| Black Caribbean | 28,869 |
| Black African | 27,335 |
| Other black background | 17,814 |
| *Asian or Asian British total* | 132,021 |
| Indian | 51,182 |
| Pakistani | 49,063 |
| Bangladeshi | 19,467 |
| Other Asian background | 12,309 |
| Chinese | 8,643 |
| Other | 44,876 |
| No ethnic information | 317,010 |

**Charles Hendry:** To ask the Secretary of State for Education and Skills what the total cost of marketing the Connexions service has been in each year since its establishment. [154808]

**Margaret Hodge:** Since the establishment of the Connexions service in April 2001, the breakdown of spend on marketing and advertising for each year of its existence is as follows:

| | [1]*Marketing and advertising* |
|---|---|
| 2001–02 | 889,073 |
| 2002–03 | [2]3,266,489 |
| 2003–04 (total committed to beginning February) | [3]3,241,000 |

[1] i.e. radio, cinema, TV advertising, campaign extension, Connexions publications, conferences)
[2] Includes £226,850 for Connexions Direct
[3] Includes £60,317 for Connexions Direct

This breakdown is for central budgets only. Data is collected centrally on the broad areas of Partnerships' expenditure but not at a level detailed enough to enable identification of how much has been spent on marketing and advertising.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many staff are employed by the Connexions service, broken down by *(a)* job title and *(b)* area partnership. [154809]

**Margaret Hodge** *[holding answer 12 February 2004]:* The following table shows the total number of staff employed by each Connexions Partnership in December 2003. Information on the number of staff employed by each Connexions Partnership by job title is not available.

Figures are expressed as "full-time equivalent" posts.

| | Total |
|---|---|
| *England* | 14,071.1 |
| *South East* | 2,163.2 |
| Berkshire | 157.6 |
| South Central | 862.1 |
| Kent | 268.7 |
| Milton Keynes Ox and Bucks | 261.2 |
| Surrey | 140.6 |
| Sussex | 473.0 |
| *London* | 1,691.3 |
| Central London | 390.5 |
| North London | 250.6 |
| South London | 229.0 |
| East London | 455.8 |
| West London | 365.4 |
| *East of England* | 1,060.2 |
| Bedfordshire and Luton | 123.7 |
| Cambs and Peterborough | 163.6 |
| Essex Southend and Thurrock | 293.5 |
| Hertfordshire | 198.8 |
| Norfolk | 134.0 |
| Suffolk | 146.6 |
| *South West* | 1,146.1 |
| Bournemouth Dorset and Poole | 128.8 |

*Source:*
NEXUS Data at December 2003.

### Consultants

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if he will list the consultants being used in the current financial year to assist in the implementation of his schools strategy. [157289]

**Mr. Miliband:** This information could be supplied only at disproportionate cost.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if he will list the consultants used by his Department in 2002-03 where the expenditure exceeded £1,000,000. [157290]

**Mr. Stephen Twigg** *[holding answer 27 February 2004]:* This information could be supplied only at disproportionate cost.

### Criminal Records Bureau

**Mr. Willis:** To ask the Secretary of State for Education and Skills what procedures are in place for carrying out Criminal Records Bureau checks on *(a)* overseas teachers and *(b)* other overseas workers coming to work in schools in the UK; and if he will make a statement. [153725]

**Margaret Hodge** *[holding answer 9 February 2004]:* My Department's guidance to employers in the education service about pre-appointment checks on teachers and other workers in schools advises that, if a person who they intend to appoint to work in a school has never lived in the UK, no purpose will be served by asking them to apply for a disclosure when they come to this country.

The Criminal Records Bureau is not able to obtain details of a person's criminal record from overseas. A limited number of overseas convictions are recorded on the Police national computer, but the data is not comprehensive.

The Bureau's Overseas Information Service provides advice to employers on the availability of criminal record information from overseas. The service currently covers 17 countries (Denmark, France, Germany, Irish Republic, Netherlands, Spain, Sweden, Poland, Canada, Jamaica, South Africa, Malaysia, Philippines, Australia, New Zealand, Italy (excluding Vatican City) and Finland). The CRB is in discussions with the 10 accession countries to the European Union and aims to provide information through the Overseas Information Service about the criminal record information available from these countries within the next few months.

Where criminal record information is not available, we recommend that employers take extra care in taking up references and carrying out other checks on a person's background.

### Drugs Education

**John Mann:** To ask the Secretary of State for Education and Skills (1) what letters of concern his Department has received from the Home Office on the issue of personal advisers on drugs education; [156026]

(2) what assessment he has made of the provision of drugs education in schools in 2004 following the abolition of the standards fund; [156027]

(3) what meetings on drugs education Ministers in his Department have held with ministerial colleagues from the Department of Health and the Home Department since September 2003; [156028]

(4) how many personal advisers working on drugs education in secondary and primary schools are to be made redundant owing to the removal of the standards fund; and what plans there are to replace their specialist input; [156029]

(5) how many personal advisers work in the classroom on drugs education; and what the figures were in 2002. [156030]

**Mr. Stephen Twigg** *[holding answer 25 February 2004]:* In line with Exemption 2 of the Code of Practice, confidential communications between Departments is not made public. It is not normal practice of Governments to release details of specific meetings or their content as some of these discussions may have taken place on a confidential basis.

The Office for Standards in Education (Ofsted) will continue to be responsible for evaluating and reporting on the school's polices and practice in drug education within personal, social and health education (PSHE) and citizenship provision as part of the school inspection process. In addition, Ofsted surveys the quantity and quality of drug education in schools on behalf of the Department. The next data collection exercise will take place during the Summer Term 2004 and report in the Autumn.

The Department does not collect data on the number of School Drug Adviser redundancies or how many school Drug Advisers work in the classroom on drug education. Their principal role is to support schools in planning and implementing effective policy and practice on drug issues rather than direct classroom delivery.

From April 2004, our main focus will be on supporting teachers' professional development. The PSHE certification programme, which sets standards for the teaching of PSHE and certificates those who meet the standards, will be rolled-out to 3,000 teachers.

Young people will continue to receive advice and support on drug issues from schools, the Connexions Service and a range of local agencies.

### Early Years Education

**Bob Spink:** To ask the Secretary of State for Education and Skills what discussions he has had with local authorities on meeting the statutory requirement to provide free early education for each three and four-year-old by April and the role of private day nursery providers in this; and if he will make a statement. [155823]

**Margaret Hodge:** Funding has been made available for expanding three year old provision since 1999, building to universal provision by April 2004. During this period local authorities have been encouraged, through published guidance, to grow provision taking into account local demand and social need and using a mixture of maintained, independent, voluntary and private providers to support parental choice.

**Bob Spink:** To ask the Secretary of State for Education and Skills whether it is his policy to phase out private providers for the nursery education grant scheme; and if he will make a statement. [R] [155826]

**Margaret Hodge:** This Government greatly values the contribution made by the thousands of private, voluntary and independent sector providers and is determined that they should continue to play a full part in the provision of early years education and child care.

**Bob Spink:** To ask the Secretary of State for Education and Skills what action he will take to ensure the continuity of provision of private sector nursery education for 3 and 4-year-olds, under the nursery education grant scheme in relatively isolated

communities which currently have a single private provider, where that provider withdraws as a result of the withdrawal of the ring-fencing of funds to local authorities. [R] [155828]

**Margaret Hodge:** From 1 April 2004 local authorities will be under a statutory duty to provide sufficient nursery education for all three and 4-year-olds in their area. Local authorities have been encouraged through published guidance, to grow provision using a mixture of Maintained, Independent, Voluntary and Private providers to support parental choice and take into account the needs of children and families.

### Education Funding

**Mrs. Humble:** To ask the Secretary of State for Education and Skills how much money was spent on school buildings in the Blackpool, North and Fleetwood constituency in each year since 1997, broken down by school. [157503]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with the priorities of their asset management plans. The Department does not, therefore, have complete information about capital investment in individual schools. This information should be held locally. However, the following table shows the total capital support made available by this Government for school buildings in Blackpool LEA since 1998–99 when Blackpool became a unitary authority.

| | *£ million* |
|---|---|
| 1998–99 | 2.6 |
| 1999–2000 | 4.0 |
| 2000–01 | 6.9 |
| 2001–02 | 8.3 |
| 2002–03 | 6.6 |
| 2003–04 | 17.0 |

We have to date also allocated indicative funding for future years worth approximately £14.4 million in 2004–05, and £5.8 million in 2005–06.

**Mrs. Fitzsimons:** To ask the Secretary of State for Education and Skills what capital funding has been received by Rochdale Council Education Department since 1996; which schools benefited from additional capital investment in each year; how much funding each school received; and how the funding has been spent. [157504]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with the priorities of their asset management plans. The Department does not, therefore, have completeinformation about capital investment in individual schools. This information should be held locally. However, the following table shows the total capital support made available by this Government for school buildings in Rochdale LEA since 1996–97.

| | *£ million* |
|---|---|
| 1996–97 | 1.0 |
| 1997–98 | 2.9 |
| 1998–99 | 4.7 |
| 1999–2000 | 2.8 |
| 2000–01 | 6.1 |
| 2001–02 | 7.1 |
| 2002–03 | 7.9 |
| 2003–04 | 12.0 |

We have to date also allocated indicative funding for future years worth approximately £69 million in 2004–05 including £56 million of PFI credits, and £4.4 million in 2005–06.

### Educational Achievement

**Mrs. Iris Robinson:** To ask the Secretary of State for Education and Skills what percentage of pupils achieved three grade As or above at A-level in each of the last five years. [155425]

**Mr. Miliband:** The percentage of 16 to 18-year-old A-level candidates achieving at least three A grades at A-level over the last five years in all schools and colleges in England:

| | *Percentage of 16 to 18-year-old A-level candidates achieving at least three A grades at A-level* |
|---|---|
| 1999 | 7.0 |
| 2000 | 7.4 |
| 2001 | 7.4 |
| 2002 | 7.9 |
| 2003 | 8.3 |

### EU Accession Countries

**Glenda Jackson:** To ask the Secretary of State for Education and Skills when the children of citizens of EU accession countries working in the United Kingdom will *(a)* be permitted to attend without charge state (i) schools, (ii) colleges and (iii) universities, *(b)* qualify for free school meals, *(c)* qualify for assistance with travel costs to and from school and *(d)* qualify for assistance in providing school uniforms. [156978]

**Mr. Stephen Twigg:** Children of citizens of EU accession countries working in the UK will have access to schools when their parents enter the UK.

Generally, students from the accession countries in colleges and universities will be entitled to receive education at the home student fee rate from the beginning of the 2004/05 academic year, in the same way as current EU students. Young people aged 16–19 in further education with home fee status are exempt from tuition fees.

Registered pupils in schools maintained by a local education authority, whose parents are in receipt of the following support payments, are entitled to receive free school meals:

Income Support (IS);

Income Based Job Seekers Allowance (IBJSA);

support under part VI of the Immigration and Asylum Act 1999;

Child Tax Credit provided they do not receive Working Tax Credit and have an annual income (as assessed by The Inland Revenue) which does not exceed £13,230.

Children who receive IS or IBJSA in their own right are also eligible to receive free school meals.

*(c)* Free transport is always necessary for a pupil of compulsory school age (5–16) who attends the nearest suitable school if it is beyond statutory walking distance. These are two miles for pupils aged up to eight and three miles for those aged eight and over. This is measured by the shortest route along which a child, accompanied as necessary, may walk with reasonable safety.

*(d)* The payment of grants for uniform or clothing is at the discretion of each local education authority, and they determine the eligibility criteria and the amount of any such support.

### Family Courts

**Tim Loughton:** To ask the Secretary of State for Educaiton and Skills what the *(a)* average and *(b)* longest waiting time is for care proceedings in family courts. [156527]

**Mr. Leslie:** The average time taken for a care case to pass through a Care Centre, which deals with the more complex cases, was 52.5 weeks in December. The average time taken for a care case to pass through a Family Proceedings Court (FPC), which deals with about half of all cases of this type, is lower. Centrally held data does not record the longest waiting time. More complete and accurate figures for both FPCs and Care Centres will be available by the end of March.

### Home Assessment Visits

**Mr. Drew:** To ask the Secretary of State for Education and Skills what the average waiting time is in Gloucestershire for a home assessment visit by Ofsted when a person in receipt of child tax credit or working tax credit needs their home to be assessed as this is the place where their children are being looked after rather than the home of the child minder. [156391]

**Margaret Hodge:** The Home Childcarer Scheme allows registered childminders to gain an additional approval to care for children in the children's home. This approval process does not involve an assessment of the children's home, where the carer is already registered by Ofsted as a child minder.

### Information Sharing

**Tim Loughton:** To ask the Secretary of State for Education and Skills what plans he has for new information referral and tracking systems; and how these will work sub-regionally to allow for effective information sharing on children and families who move across different local authorities. [155073]

**Margaret Hodge:** The Queen's Speech said that a Bill will be introduced to improve services designed to protect children. This will implement proposals contained in the Children's Green Paper "Every Child Matters", and, subject to consideration of responses to the Green Paper consultation, will include proposals for information sharing systems to enable practitioners to share early information about children and young people where this will enable better services to be provided to them and their families.

Information sharing systems must have the capacity to link together to ensure that children moving between local authority areas do not slip through the net. The Government have provided £1 million each to ten trailblazers, involving 15 local authorities, to test new ways of information sharing. The trailblazers are examining the important issue of linking databases and their experiences will inform subsequent developments.

### Minister for Children

**Tim Loughton:** To ask the Secretary of State for Education and Skills for which funding schemes the Minister for Children is responsible. [155933]

**Margaret Hodge:** Table A which sets out funding schemes where I have responsibility is as follows. It has been drawn from last year's Departmental Report and includes Sure Start, which is a cross-government programme where I work closely with Baroness Catherine Ashton who is the Minister for Sure Start in both the Department for Education and Skills and the Department for Work and Pensions. Table B is an extract from the Local Authority Social Services Letter, LASSL (2003) 7, and sets out the schemes that have transferred from the Department of Health to become my responsibility. In addition to these schemes the Home Office has transferred Family Grants, including Parentline, The Department for Constitutional Affairs has transferred Marriage and Relationship Support (MARS) grants, and Treasury have transferred the Parenting Fund.

*Table A: Extract from Table 3.2 in the Departmental Report 2003*

| | |
|---|---|
| Early Years and Child Care | |
| | Sure Start |
| Support for Young People | |
| | Connexions Service Neighbourhood Support Fund Millennium Volunteers |
| | Youth Services Children's Fund |

*Table B: Extract from the Local Authority Social Services Letter, LASSL(2003)7 Local Authority provided Children's Services*

| | |
|---|---|
| Unhypothecated Revenue | |
| | Formula Spending |
| | Safeguarding Children |
| Ring fenced Revenue Grants | |
| | Quality Protects |
| | Adoption Support and Special Guardianship |
| | Choice Protects |
| | Children's Trusts |
| | Teenage Pregnancy Local Implementation |
| | Regional Development Workers |
| | Secure Accommodation (Bed Bank) |
| Capital | |
| | SCE(R) Single Capital pot |
| | Secure Accommodation Grant |
| | Children's Services |

### Munchausen's Syndrome

**Tim Loughton:** To ask the Secretary of State for Education and Skills when he was first informed of children being wrongfully removed from their parents owing to misdiagnosis of Munchausen's syndrome by proxy; and when he was first informed that Munchausen's syndrome by proxy was responsible for serious miscarriages of justice. [152113]

**Margaret Hodge** *[holding answer 30 January 2004]:* We are not aware of any such situations. Local authorities have a duty to make inquiries where a child is thought to be at risk of significant harm, following Government guidance "Working Together to Safeguard Children".

Where a local authority should seek a Care Order in respect of a child, it will be for the courts to decide if this is appropriate.

However, I would refer you to the statement that I made to the House on 23 February 2004, in which I set out the action that I asked local authorities with social services responsibilities to take following the Appeal Court's judgment in the appeal against the conviction of Angela Cannings.

### North Korea

**Mr. Bercow:** To ask the Secretary of State for Education and Skills what steps he is taking to promote academic links between the United Kingdom and North Korea. [157540]

**Alan Johnson:** The Department for Education and Skills has no plans to promote academic links with North Korea.

### Postgraduate Education

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills how many people *(a)* applied for places on Post Graduate Certificate in Education courses, *(b)* were offered a place on a course and *(c)* successfully completed the course; in each year since 1990. [157493]

**Mr. Miliband:** Data on the number of people offered places on Postgraduate Certificate in Education (PGCE) courses is not collected. The following table shows the numbers of PGCE applicants in each year since 1991/92 and the number of candidates who accepted the offer of a place in each year since 1996/97. These are the earliest years for which this information is available. The number of entrants to PGCE courses is also shown.

| | *Applications*[1] | *Acceptances*[1] | *Entrants*[2] |
|---|---|---|---|
| *England and Wales* | | | |
| 1990/91 | — | — | 11,960 |
| 1991/92 | 24,870 | — | 15,050 |
| 1992/93 | 31,130 | — | 16,500 |
| 1993/94 | 33,650 | — | 17,690 |
| 1994/95 | 31,640 | — | 19,090 |
| 1995/96 | 33,250 | — | 19,330 |
| 1996/97 | 33,240 | 18,000 | 19,720 |
| 1997/98 | 33,300 | 20,430 | 19,480 |
| 1998/99 | 31,640 | 19,020 | 18,790 |
| 1999/2000 | 33,060 | 19,770 | 18,880 |
| 2000/01 | 34,860 | 20,990 | 21,190 |
| *England* | | | |
| 2001/02 | 37,960 | 20,040 | 21,260 |
| 2002/03 | 42,570 | 22,710 | 23,320 |
| 2003/04 | 46,710 | 25,350 | 25,780 |

*Note:*
Excludes Fast Track—Data for these years not available

The number of candidates who successfully completed PGCE courses in each calendar year from 1990 to 2002, the most recent available, is shown in the following table.

| *Year of completion* | *Completers* |
|---|---|
| *England and Wales*[1] | |
| 1990 | 9,600 |
| 1991 | 10,380 |
| 1992 | 13,460 |
| 1993 | 15,110 |
| 1994 | 16,130 |
| 1995 | 17,330 |
| 1996 | 16,900 |
| 1997 | 17,780 |
| 1998 | 17,150 |
| 1999 | 16,500 |
| 2000 | 16,160 |
| *England*[2] | |
| 2000 | 14,850 |
| 2001 | 16,150 |
| 2002 | 16,940 |

*Source:*
[1] DfES Database of Teacher Records
[2] TTA Performance Profiles

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills what steps his Department is taking to widen participation in postgraduate education. [157495]

**Alan Johnson:** The government are already investing significant sums in widening access to higher education, which will also increase the supply of potential postgraduate students. The additional funding available for science and research (up £1.25 million by 2005/06 compared to 2003/04) will also increase the volume of research and opportunities for postgraduate study. Financial support for postgraduate study is available through the Career Development Loan Scheme which is administered by my Department.

### Pre-School Play Groups

**Mr. Cameron:** To ask the Secretary of State for Education and Skills how many women are employed in the management and operation of pre-school play groups; and if he will make a statement. [156276]

**Margaret Hodge** *[holding answer 26 February 2004]:* According to the latest available data in the 2001 Childcare Workforce Survey, there were 79,800 paid employees in playgroups and preschools. Of these 14,000 were managers, 18,340 supervisors with 47,460 other workers.

99 per cent. of paid employees were female. We do not know the gender split for managers and supervisors.

### Random Drug Testing

**Mr. Amess:** To ask the Secretary of State for Education and Skills what representations he has received supporting the drugs testing of school children; and if he will make a statement. [157356]

**Mr. Stephen Twigg:** The Department has received a number of representations supporting the drug testing of pupils.

"Drugs: Guidance for Schools" highlights drug testing as one of a range of options available to headteachers to tackle drugs. The guidance spells out the issues schools should consider before employing drug testing, including gaining appropriate consent. The guidance will be sent to all schools on 9 March.

### Retention Measures

**Mr. Evans:** To ask the Secretary of State for Education and Skills what measures are in place to encourage retention of workers in the *(a)* engineering and *(b)* manufacturing fields. [156981]

**Jacqui Smith:** I have been asked to reply.

The Government's Manufacturing Strategy, which we developed in partnership with industry, trade unions and other stakeholders, aims to create a high value manufacturing sector in the UK with a highly skilled and well paid workforce, moving away from competing on the basis of low skill and low wages. We are continuing to develop a range of initiatives under the Skills Strategy such as employer training pilots, modern apprenticeships, the growing network of Sector Skills Councils and other measures to better deploy and retain skills to improve business performance.

Where there are significant redundancies in the manufacturing sector, the Rapid Response Service works to move people quickly into new jobs, preventing them from becoming detached from the labour market. Although a trend to declining manufacturing employment has been a feature of advanced economies over the last 30 years, new jobs are still being created all the time. Around 250,000 manufacturing vacancies were reported to Jobcentre plus in the last year. Overall the UK labour market is performing well, with total employment rising by nearly 1.7 million since Spring 1997, and unemployment falling in every region in Britain over the past year.

### School Meals

**Mr. Willis:** To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils in England are (i) eligible for and (ii) taking up free school meals, broken down by region. [156068]

**Mr. Miliband** *[holding answer 26 February 2004]:* The data requested have been placed in the House of Commons Library.

### School Sports Facilities

**Mr. Evans:** To ask the Secretary of State for Education and Skills what submissions have been made by his Department to the Activity Co-ordination Team regarding making school sports facilities accessible to the community during school holidays. [155350]

**Mr. Stephen Twigg:** The Department for Education and Skills is a full and active member of the Activity Co-ordination Team. The Department is responsible for developing the education strand within the team's action plan. This will seek to maximise the benefits from opening up school sports facilities for community use, including during school holidays. The Activity Co-ordination Team will publish its action plan later this year.

**Mr. Evans:** To ask the Secretary of State for Education and Skills what steps his Department is taking to encourage schools to extend access to their sports facilities through the extended schools programme. [155351]

**Mr. Stephen Twigg:** The Department for Education and Skills published extended schools guidance in October 2002. The guidance covers a range of practical issues, including information and advice on providing community access to sports facilities. A copy has been placed in the House of Commons Library.

The Department has made funding available to support local coordination and management of extended services in schools, and to create up to 240 full service extended schools, with at least one in each LEA area, by 2006. These schools will provide a prescribed core range of extended services and facilities, including sports and arts facilities.

In addition, the national PE, School Sport and Club Links strategy aims to increase the percentage of five to 16-year-olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006. The strategy promotes the extended use of school sports facilities, for example the Sport Partnerships programme is delivering increased out of school hours sports opportunities. Schools benefiting from the £686 million investment in the New Opportunities for PE and Sport and the Space for Sport and the Arts capital programmes are required to demonstrate how the new school sports facilities can be shared with other schools and opened up for community use.

**James Purnell:** To ask the Secretary of State for Education and Skills (1) how many schools have specialist sports status; and how they are being monitored to ensure they open their sports facilities to the wider community out-of-hours; [157764]

(2) which specialist schools open their sports facilities to the wider community out-of-hours. [157769]

**Mr. Stephen Twigg:** There are 228 Specialist Sports Colleges across the country. We also have three Sports Academies with another one opening in September. A further 30 Sports Colleges have been approved already for this year, and we are expecting more applications for Sports College status in the March application round.

All Specialist Schools have a community plan which spells out their commitment to their wider communities. Sports Colleges generally include the provision of out-of-hours and weekend coaching and club sports events, and these are monitored through the regular submission of progress reports to this Department. In addition, the Youth

Sport Trust commissions in-depth annual reports on Sports Colleges which survey their community activities as well as their curricular and whole-school performance.

**James Purnell:** To ask the Secretary of State for Education and Skills which universities allow use of their sports facilities by the wider community. [157768]

**Mr. Caborn:** I have been asked to reply.

All universities allow the use of their sports facilities by the wider community, although the degree to which they do so varies enormously. Sport England have commissioned a piece of research into sports provision in higher education institutions which will cover community usage of university sports facilities. The 'Audit of Sports Provision in the Higher Education Sector' will be launched on 23 March 2004.

### Special Educational Needs

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment the Government has made of the cost of education of children with special education needs *(a)* with and *(b)* without statements. [157071]

**Mr. Stephen Twigg** *[holding answer 27 February 2004]:* Figures for the costs of education of children with special education needs (SEN) with and without statements are not collected separately. However, it is possible to provide information about the overall expenditure on the education of children with SEN and to show the split of that expenditure between mainstream and special schools.

The total estimated cost of providing special needs education in 2003–04 is £3,464,836,204. Of this, it is estimated that £1,717,253,601 will be spent on pupils in mainstream schools, in addition to their normal place funding. An estimated £1,511,349,567 will be spent on pupils in special schools. This includes pupils in maintained special schools and fees for pupils in independent and non-maintained special schools. In addition, an estimated £236,233,036 will be spent in this financial year on centrally funded SEN activities. These include the costs of educational psychology services, assessment and statementing, parent partnership services and the provision of information.

### Specialist Schools (Sponsorship)

**Mr. Willis:** To ask the Secretary of State for Education and Skills if he will estimate the average amount of support that a specialist school receives through corporate and charitable sponsors. [156140]

**Mr. Charles Clarke:** On average a school applying for specialist status will receive £33,500 (67 per cent.) of the required £50,000 sponsorship from corporate and charitable sources (based on figures from the October 2003 application round). This includes an element of corporate and charitable sponsorship raised through the new Partnership Fund, which was introduced in 2002 to support schools in raising sponsorship. Schools raise the rest of the required amount through a combination of fund-raising, charitable donations from parents and other activities.

### Student Finance

**Chris Grayling:** To ask the Secretary of State for Education and Skills what estimate the Student Loan Company has made of the number of graduates who were in receipt of income contingent loans who are currently overseas; and what proportion of these have continued to make loan repayments. [155456]

**Alan Johnson** *[holding answer 27 February 2004]:* Repayments from borrowers who live overseas are made directly to the Student Loans Company (SLC). 4,700 people who should be repaying their income-contingent loan are currently living overseas. 56 per cent. of these have made no repayments because their income is below the repayment threshold of £10,000 per year; 32 per cent. have made repayments. The remainder are people who have not yet provided sufficient evidence in order for the SLC to assess their liability to repay their income-contingent loan.

### Sure Start

**Mr. Drew:** To ask the Secretary of State for Education and Skills how many people have been affected by the new rules requiring accreditation by Sure Start because their childminder looks after children in the children's home. [156392]

**Margaret Hodge:** I should clarify the situation regarding the Home Childcarers Scheme to which this question refers. The scheme was launched in April 2003 to extend eligibility to tax credits to families using childcare in their own homes. It does not impose a new accreditation requirement on home based carers—seeking approval is entirely voluntary. Prior to the introduction of this scheme if a family needed to use childcare in their own home it was not possible to have this approved, or to access the childcare element of the Working Families Tax Credit.

Currently there are 124 Home Childcarers who have been approved, by Ofsted, to care for children in the children's home. Home Childcarers can be employed by more than one family so the number of families using a Home Childcarer is unknown.

**Mr. Drew:** To ask the Secretary of State for Education and Skills how many parents have lost their entitlement to the childcare element of Child Tax Credit or Working Tax Credit because they did not possess accreditation by Sure Start of the childminder operating in the parents' home. [156393]

**Margaret Hodge:** No parents have lost their entitlement to tax credits under this scheme. The purpose of the Home Childcarer Scheme is to extend the availability of tax credits rather than to restrict it.

Prior to the Home Childcarers Scheme parents using childcare in the child's home were not eligible to claim the childcare element of the Working Families Tax Credit (now replaced by the Working Tax Credit). The introduction of this scheme has enabled some parents to claim tax credits when before they were unable to do so.

This Government are committed to extending the Home Childcarers Scheme to carers other than registered childminders and to enable more parents to benefit from the help available through tax credits. We are committed to holding a consultation on the options for an extension in spring 2004.

**Mr. Drew:** To ask the Secretary of State for Education and Skills what discussions he has held with Her Majesty's Treasury on debt problems faced by parents who have lost Child Tax Credit or Working Tax Credit because of the new Sure Start accreditation arrangements; and if he will make a statement. [156394]

**Margaret Hodge:** As the purpose of the Home Childcarer Scheme is to extend the availability of tax credits rather than to restrict it no parents have faced debt problems as a result of its introduction.

### Taiwanese Students

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills (1) how many Taiwanese nationals study at universities in the UK; [151274]

(2) what he estimates the total amount in fees paid by Taiwanese nationals at UK universities was in the last academic year for which figures are available. [153124]

**Alan Johnson:** In 2002/03 there were 4,248 Taiwanese nationals enrolled on higher education courses at UK higher education institutions.

Estimates of the total amount of fees paid by overseas nationals are not held centrally.

### University Attendance

**Mr. Hepburn:** To ask the Secretary of State for Education and Skills how many people attended university from *(a)* the Jarrow constituency, *(b)* South Tyneside local education authority and *(c)* the United Kingdom in each year since 1996. [148448]

**Alan Johnson:** Figures at constituency level are not held centrally. The available information at local education authority level covers accepted applicants to full time first degree and HND courses through the Universities and College Admissions Service (UCAS).

*Accepted applicants of all ages to full-time undergraduate courses via the Universities and Colleges Admissions Service (UCAS) from South Tyneside LEA and England*

| *Year of entry* | *South Tyneside LEA domiciles* | *English domiciles*[1] |
|---|---|---|
| 1996–97 | 497 | 220,891 |
| 1997–98 | 644 | 251,904 |
| 1998–99 | 618 | 245,914 |
| 1999–2000 | 596 | 249,883 |
| 2000–01 | 623 | 254,472 |
| 2001–02 | 655 | 269,447 |
| 2002–03 | 665 | 274,345 |

[1] Accepted applicants with unknown English domicile are excluded from the figures.

*Source:*
Universities and College Admissions Service (UCAS)

**Mr. Hepburn:** To ask the Secretary of State for Education and Skills how many school leavers attended university from *(a)* Jarrow constituency, *(b)* South Tyneside local education authority and *(c)* the United Kingdom in each year since 1996; and what percentage these were of the total number of school leavers in each of these years. [148449]

**Alan Johnson:** Figures at constituency level are not held centrally. The available information at local education authority level covers accepted applicants to full time first degree and HMD courses through the Universities and College Admissions Service (UCAS).

*Number of 18 year olds accepted for entry to full-time undergraduate courses via the Universities and Colleges Admissions Service (UCAS) from South Tyneside LEA and England*

| 2002 | 353 | 17.4 | 134,727 | 22.0 |

[1] Accepted applicants with unknown English domicile are excluded from the figures.

## HOME DEPARTMENT

### Asylum Seekers

**Simon Hughes:** To ask the Secretary of State for the Home Department how many asylum seeking households containing children or pregnant women were placed in bed and breakfast accommodation by the National Asylum Support Service under legislation other than the Housing Act 1996 and are as a consequence not included in the provisions of the Homelessness (Suitability of Accommodation) (England) Order 2003 in each of the last five years. [152333]

**Beverley Hughes** *[holding answer 2 February 2004]:* The general practice of the National Asylum Support Service is that households containing children or pregnant women are not placed in bed and breakfast accommodation in dispersal areas.

However, NASS grant funds six voluntary sector agencies to provide emergency accommodation, which is temporary accommodation provided pending dispersal, who provide a mixture of accommodation which may include bed and breakfast accommodation.

I am unable to provide the requested information and could only do so at disproportionate cost.

**Glenda Jackson:** To ask the Secretary of State for the Home Department pursuant to the answers of 25 February 2004, *Official Report*, column 277, to the hon. Member for Ross, Skye and Inverness West, (1) with which countries the Government is in negotiations, other than Tanzania, on how to process claims for asylum nearer to the country of origin; [158114]

(2) whether such claims would be for recognition of refugee status in *(a)* Tanzania and *(b)* the UK; [158115]

(3) whether the processing of such claims for non-Tanzanian nationals would be carried out in Tanzania. [158286]

**Beverley Hughes:** Apart from Tanzania, we have not yet started any negotiations with other countries. These partnerships are not about processing asylum claims nearer to the country of origin. Rather the Tanzanians are helping us to establish whether certain failed asylum seekers in the United Kingdom who claimed as Somali are in fact Tanzanian. We are also seeking to help them better manage their own refugee caseload.

### Animal Welfare

**Mr. Hancock:** To ask the Secretary of State for the Home Department pursuant to his Answer of 20 January 2004, *Official Report*, column 1205W, on animal welfare, ref 147328, with reference to recommendation 14, when the Inspectorate will be reviewed; and by whom. [155934]

**Caroline Flint:** In its report, published in July 2002, the House of Lords Select Committee on Animals in Scientific Procedures recommended that the Home Office Animals (Scientific Procedures) Inspectorate should be subject to periodic review, by a body other than the Inspectorate itself. The Committee went on to describe the Inspectorate as a "trustworthy, professional body" and also acknowledged the valuable role that it has played in creating a culture of care in establishments licensed under the Animals (Scientific Procedures) Act 1986.

In the Government's response, published in January 2003, we welcomed the Select Committee's endorsement of the integrity of the Inspectorate and of the important contribution that it has made to the welfare of animals in designated establishments. However, we recognise that public awareness of the valuable job done by the Inspectorate is poor and agree that this needs to be remedied. We have, therefore, concluded that there would be value in the Inspectorate publishing an annual report on its work. The Inspectorate's first annual report will be published in the autumn of 2004.

As to the periodic review of the Inspectorate, under Section 18 of the 1986 Act, Inspectors are responsible directly to the Secretary of State who is, in turn accountable to Parliament for their work. Inspectors are all medical or veterinary practitioners, as well as being civil servants, and are bound by medical or veterinary codes of professional conduct. In addition, in common with other Home Office staff, the Chief Inspector and members of the Inspectorate are subject to the civil service code and annual performance reviews as part of routine personnel management arrangements. In the light of these comprehensive arrangements, we do not believe that any further form of performance review is necessary. Members of the Inspectorate are highly professional and dedicated and have the complete confidence of Government Ministers.

**Mr. Hancock:** To ask the Secretary of State for the Home Department pursuant to his Answer of 20 January 2004, *Official Report*, column 1205W, on animal welfare, ref 147328, with reference to recommendation 11, which Government department is taking the lead on the systematic and visible search for 3Rs methods in toxicology; where that Department's progress can be viewed; and if he will make a statement. [155971]

**Caroline Flint:** In its report, published in July 2002, the House of Lords Select Committee on Animals in Scientific Procedures recommended that the Government and the scientific community should engage in a systematic and visible search for methods involving the 3Rs—the replacement of animal use, reduction of the number of animals used and the refinement of the procedures involved to minimise suffering—in toxicology and that the Government should nominate one department to take the lead on this.

In the Government's response to the Select committee's report, published in January 2003, we agreed that a systematic and visible effort is required. As a first step, the Home Office is currently leading a review of the scope for improving the application of the 3Rs and promoting research into alternatives through the Inter-Departmental Group on the 3Rs. Membership of the Inter-Departmental Group is drawn from the Home Office, the Department of Health, the Department for the Environment, Food and Rural Affairs, the Department of Trade and Industry, the Office of Science and Technology, the Health and Safety Executive and other agencies.

The work of the group includes exploration of the case for a United Kingdom centre for research into the 3Rs, which was also recommended by the House of Lords Select Committee, a review of the implementation of the Inter-Departmental Data-Sharing Concordat, announced in August 2000, and the review and revision of the Guidelines on Regulatory Toxicology and Safety Evaluation Studies, published in February 2001, and the statement of principles concerning animal welfare endorsed by the Home Office and other regulatory authorities in 1999—Annex 1 to the Regulatory Toxicology Guidelines.

I am currently considering the Inter-Departmental Group's further advice on the proposed United Kingdom centre for research into the 3Rs. I expect to receive the findings of the Inter-Departmental Group on the other two issues shortly and will then consider what further steps are required.

Minutes of the meetings of the Inter-Departmental Group are published on the Home Office website at http://www.homeoffice.gov.uk/docs2/interdept3rs.html.

**Mr. Hancock:** To ask the Secretary of State for the Home Department pursuant to his answer of 20 January 2004, *Official Report*, column 1205W, on animal welfare, with reference to recommendation 12, what steps the Government have taken to urge EU member states to make replacements a priority. [155972]

**Caroline Flint:** In its report, published in July 2002, the House of Lords Select Committee on Animals in Scientific Procedures recommended that the United Kingdom Government should use their influence to urge the European Union to make the development and validation of replacements for animal experiments a priority, particularly in toxicology.

In our response, published in January 2003, the Government noted the Select Committee's view and agreed that replacement should be the ultimate goal. We also explained that we do not believe that it should be made a priority at the expense of reduction or refinement, as these are where progress can be made more quickly. We are instead fully committed to the furtherance of all of the

3Rs—the replacement of animal use, reduction of the number of animals used and the refinement of the procedures involved to minimise suffering.

United Kingdom Government Departments and agencies are involved in a number of specific initiatives in the European Union to develop, validate and incorporate more advanced test methods into regulatory practice. The Government also continue to support the work of the European Centre for the Validation of Alternative Methods (ECVAM) and the head of the Home Office Animals Scientific Procedures Division is now the United Kingdom representative on the ECVAM Scientific Advisory Committee and is contributing to discussions about the future direction of ECVAM's work. The Government also warmly welcome the liaison between ECVAM and its United States counterpart, the Interagency Co-ordinating Committee for the Validation of Alternative Methods (ICCVAM), as a means of achieving greater progress, more quickly and ensuring commitment from more than one economic region. Quick gains cannot necessarily be expected, but we shall continue our efforts to persuade other member states of the importance of progress on the 3Rs.

**Mr. Hancock:** To ask the Secretary of State for the Home Department pursuant to his answer of 20 January 2004, *Official Report*, column 1205W, on animal welfare, what factors underlay the decision not to invite expert scientific opinion opposed to primate experimentation to take part in the forum, with particular reference to *(a)* Animal Aid and *(b)* Europeans For Medical Advancement. [156017]

**Caroline Flint:** The aim of the stakeholder forum, which was held on 9 January 2004, was to hold informed debate on the recommendations contained in the Animal Procedures Committee's (APC) report entitled "The use of primates under the Animals (Scientific Procedures) Act 1986—analysis of current trends with particular reference to regulatory toxicology". This in turn was to assist preparation of a ministerial response to the issues which the APC has raised.

The Home Office and the APC agreed that, in order to hold a focused debate, attendance at the forum should be limited to organisations with practical experience in the use of primates in scientific procedures, or with other particular expertise relevant to the report's recommendations.

Consequently, invitees included holders of related project licences issued under the Animals (Scientific Procedures) Act 1986, from both the commercial and academic sectors, as well as individuals from funding and regulatory organisations and other Government Departments. Groups with expertise in alternatives to animal experiments were also invited to send representatives.

It was decided that representatives from animal protection organisations such as Animal Aid and Europeans For Medical Advancement should not be invited to comment through this forum. Places at the forum were limited and the Home Office and the APC primarily wanted to test the technical basis and the practicalities of the recommendations with those experts in the use of primates best placed to contribute to such an exercise.

A report on the forum will be placed on the Home Office and APC websites in the near future, and I would be pleased to receive informed comments from any other source before I further consider all the issues raised.

### Asylum and Immigration

**Mr. Pope:** To ask the Secretary of State for the Home Department how many asylum seekers there are in *(a)* the constituency of Hyndburn and *(b)* the County of Lancashire. [156725]

**Beverley Hughes:** The information is not available in the form requested.

Statistics on the location of asylum seekers in the United Kingdom are linked to the available information on the support that the asylum seeker receives. Asylum seekers currently in the United Kingdom are either in receipt of support from the National Asylum Support Service (NASS) or from local authorities, or are supporting themselves. Statistics regarding the location of asylum seekers not in receipt of NASS support are unavailable.

The table gives data on the number of asylum seekers supported by NASS in the constituency of Hyndburn, as at the end of December 2003 (including dependants):

| | *December 2003* |
|---|---|
| In NASS accommodation | 5 |
| In receipt of subsistence only support from NASS | 5 |

*Note:*
Figures are rounded to the nearest five.

The table gives data on the number of asylum seekers supported by NASS in the County of Lancashire, as at the end of December 2003 (including dependants):

| | *December 2003* |
|---|---|
| In NASS accommodation | 6,345 |
| In receipt of subsistence only support from NASS | 745 |

*Note:*
Figures are rounded to the nearest five.

**Mr. Malins:** To ask the Secretary of State for the Home Department with which countries from which more than 1,000 asylum seekers have come to the UK within the last five years the UK *(a)* has and *(b)* does not have a readmission agreement; how many nationals from each of those countries remain in the UK; what their status is; and whether readmission agreements allow for the return of undocumented asylum seekers. [156768]

**Beverley Hughes:** There are 47 countries from which more than 1,000 applications have been made in the United Kingdom between 1999 and 2003. The countries and their numbers are contained in the list below. Of these countries, the United Kingdom has negotiated formal bilateral readmission agreements with Albania and Romania, which are currently being ratified. In addition, negotiations have commenced with Poland and will start shortly with Serbia and Montenegro. The European Commission has been mandated to negotiate Community readmission agreements on behalf of member states with Sri Lanka (negotiations have

been concluded and the agreement is being ratified), China, Turkey, Pakistan, Algeria, Albania, Russia and Ukraine. Bilateral and Community readmission agreements set out the process and evidence required for the re-documentation of returning nationals.

In addition, where it is our experience that a lack of documentation presents a barrier to removal to particular countries, the United Kingdom is working with the authorities of those countries to facilitate the process of identification and re-documentation of persons. These countries include Sri Lanka, India, Turkey, Somaliland, the Democratic Republic of Congo and China. Since October 2003 the United Kingdom has had a tripartite Memorandum of Understanding in operation governing returns to Afghanistan and very recently agreed with the Coalition Provisional Authority to effect returns to Iraq.

*Applications[1,2] received for asylum in the United Kingdom, excluding dependants, for nationalities from which the UK has received more than 1,000 asylum applications within the last five years*

| *Nationality* | *1999–2003* |
|---|---|
| Iraq | 34,575 |
| Somalia | 30,575 |
| Afghanistan | 27,945 |
| SAM[3] | 23,835 |
| Sri Lanka | 20,870 |
| China | 16,135 |
| Iran | 15,850 |
| Turkey | 15,760 |
| Zimbabwe | 14,315 |
| Pakistan | 12,950 |
| India | 9,480 |
| Democratic Republic of Congo | 7,375 |
| Romania | 7,300 |
| Sierra Leone | 5,935 |
| Algeria | 5,755 |
| Albania | 5,605 |
| Czech Republic | 5,260 |
| Nigeria | 4,710 |
| Angola | 4,640 |
| Poland | 4,570 |
| Eritrea | 3,830 |
| Burundi | 3,360 |
| Bangladesh | 3,280 |
| Jamaica | 3,250 |
| Uganda | 3,065 |
| Rwanda | 3,030 |
| Ethiopia | 2,820 |
| Russia | 2,715 |
| Sudan | 2,670 |
| Vietnam | 2,655 |
| Ukraine | 2,650 |
| Other Yugoslavia | 2,630 |
| Colombia | 2,515 |
| Congo | 2,430 |
| Nepal | 2,235 |
| Cameroon | 2,090 |
| Moldova | 2,035 |
| Croatia | 1,970 |
| Lithuania | 1,870 |
| Kenya | 1,820 |
| Ecuador | 1,770 |
| Nationality not known | 1,620 |
| Ivory Coast | 1,620 |
| Belarussia | 1,500 |
| Liberia | 1,425 |
| Macedonia | 1,280 |
| Ghana | 1,270 |
| Latvia | 1,205 |

[1] Figures are provisional and rounded to the nearest 5.
[2] May exclude some cases lodged at Local Enforcement Offices between January 1999 and March 2000.
[3] Serbia and Montenegro (SAM) replaced Federal Republic of Yugoslavia (FRY) from 5 February 2003, SAM comprises the Republic of Serbia, the Republic of Montenegro, and the Province of Kosovo (administered by the UN on an interim basis since 1999).

Information on how many nationals from each of these countries are currently in the United Kingdom is not available. This could be obtained only at disproportionate cost by examination of individual case records. In addition some applicants may leave the United Kingdom without informing the Immigration Service.

**Mr. Coleman:** To ask the Secretary of State for the Home Department how many asylum seekers were refused support under section 55 of the Nationality, Immigration and Asylum Act 2002 in 2003; and how many who were refused support appealed in the High Court. [156805]

**Beverley Hughes:** The information is not available in the form requested.

Data on numbers of asylum seekers refused under Section 55 are as follows. Data is not available on the number of asylum seekers who were refused support under Section 55 of the Nationality, Immigration and Asylum Act 2002 that subsequently appealed in the High Court.

Section 55 of the Nationality, Immigration and Asylum Act 2002 came into force on 8 January 2003, restricting the availability of National Asylum Support Service support to those asylum seekers who make an asylum application as soon as reasonably practicable.

Figures in respect of asylum seekers refused under Section 55 of the Nationality, Immigration and Asylum Act 2002 in 2003 are.

| *2003* | *Number of cases refused under Section 55 of the NIA Act 2002* |
|---|---|
| Quarter 1 | 2,850 |
| Quarter 2 | 1,830 |
| Quarter 3 | 2,810 |
| Quarter 4 | 1,925 |
| Total | 9,415 |

**Mr. Coleman:** To ask the Secretary of State for the Home Department what proportion of asylum applications were made in-country in each of the last three years. [156806]

**Beverley Hughes:** The table shows the proportion of asylum applications made in country for each of the last three years.

*Asylum applications[1] received in the United Kingdom, excluding dependants, 2001–03*

| | *2001* | *2002[2]* | *2003[3]* |
|---|---|---|---|
| Total | 71,025 | 84,130 | 49,370 |
| Port | 24,865 | 26,560 | 13,810 |
| Port percentage | 35 | 32 | 28 |
| In country | 46,160 | 57,570 | 35,560 |
| In country percentage | 65 | 68 | 72 |

[1] Figures (other than percentages) are rounded to the nearest five
[2] Revised data
[3] Provisional data

Information on the number of asylum applications is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the United Kingdom are available from the Library and from the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

**Mr. Cousins:** To ask the Secretary of State for the Home Department what the cost of accommodation contracted for by the National Asylum Support Service was in each year of the dispersal scheme; and if he will estimate the cost in the current year. [157046]

**Beverley Hughes:** The information requested is as follows:

| | *£ million* |
|---|---|
| 2000–01 | 115 |
| 2001–02 | 247 |
| 2002–03 | 319 |
| 2003–04[1] | Not available |

[1] Payments for 2003–04 are expected to be broadly in line with 2002–03 but are expected to fall thereafter, as the recent fall in new applications for NASS support feeds through.

### Criminal Assets

**Mr. Oaten:** To ask the Secretary of State for the Home Department if he will list the cash seizures that have been effected by the Assets Recovery Agency since its inception; what the value seized in each case was; and whether the order was enforced. [155962]

**Caroline Flint:** The Assets Recovery Agency has no power to seize and forfeit cash under the Proceeds of Crime Act 2002. This power is reserved to the police and Her Majesty's Customs and Excise. As at the end of January 2004 a total of 1,219 cash seizures with a total value of £55.68 million had been made in England and Wales since the powers came into force in December 2002. Cash seized can only be forfeited when a forfeiture order has been made by a magistrates' court. A total of 64 cash forfeitures have been made under the Act with a total value of £2.98 million. Details of individual cash seizures and forfeitures are not readily available and could be obtained only at disproportionate cost.

At present the minimum amount of cash which can be seized is £10,000. The threshold is to be reduced to £5,000 under The Proceeds of Crime Act 2002 (Recovery of Cash in Summary Proceedings: Minimum Amount) Order 2004 which was laid before Parliament on 24 February.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many *(a)* confiscation and *(b)* restraint orders have been made under the Proceeds of Crime Act 2002; and what the recoverable amount was in each case. [155963]

**Caroline Flint:** The confiscation and restraint powers in the Proceeds of Crime Act 2002 are triggered by offences committed after the provisions were brought into force on 24 March 2003. It will therefore be some time before confiscation cases are dealt with by the Crown Court in numbers.

As at the end of January 2004 the information available is as follows:

(a) 58 confiscation orders had been made under the Act with a total value of £1,089,849.

(b) 59 restraint orders had been made of which 40 orders have a total value of £6,276,737. Information on the value of the other 19 orders is not currently available.

In addition, the Assets Recovery Agency has 20 civil recovery cases subject to freezing orders with a total value of £12.7 million.

### Criminal Injuries Compensation

**Mr. Oaten:** To ask the Secretary of State for the Home Department what proportion of those who apply for compensation from the Criminal Injuries Compensation Authority was refused on the grounds that they have a criminal conviction, in the last year for which figures are available. [155959]

**Paul Goggins:** The Criminal Injuries Compensation Authority advise that in the 2002–03 financial year 79,248 applications were resolved. Of these 42,283 resulted in a monetary award, and 36,965 cases were rejected, of which 2,946 were rejected because of the applicant's criminal convictions. As a proportion, that is 3.7 per cent. of the resolved applications.

### Democratic Republic of the Congo

**Mr. Chaytor:** To ask the Secretary of State for the Home Department how many asylum applications there were from the Democratic Republic of the Congo in each of the last six years; and what number and percentage of applications were accepted. [144741]

**Beverley Hughes:** The table, which has been placed in the Library, gives asylum applications and initial decisions from 1997 to September 2003 for nationals of the Democratic Republic of Congo. Decisions do not necessarily relate to applications made in the same period.

Information on the number of asylum applications and initial decisions is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February 2004.

### Departmental Security

**Llew Smith:** To ask the Secretary of State for the Home Department what the staff complement of the Security Services is; what the range of payment for serving security officers is; and what proportion of security officers speak Arabic. [156638]

**Mr. Blunkett:** There are currently over 2,000 staff in the Security Service. Starting salaries range from £14,500 for administrative staff to a maximum of £26,000 for some technical specialists. The top salary is of course that of the Director General (Permanent Secretary pay range £120,000-£124,999 at 31 January 2003). For operational reasons it would be inappropriate for me to comment on the number of Arab speakers available to the service.

### Detention and Removal Centres

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what access people detained in detention and removal centres have to independent monitoring boards. [157445]

**Beverley Hughes:** People detained at immigration removal centres are able to submit a request or complaint to the Independent Monitoring Board at any time and members of the board should make themselves available to detainees whenever they are carrying out one of their regular visits. In addition, a member of the Independent Monitoring Board is obliged to visit any detainee who is subject to removal from association (Rule 40), temporary confinement (Rule 42) or special control or restraint (Rule 43) within 24 hours of the person being subjected to these rules.

### Drugs Testing and Treatment

**Miss McIntosh:** To ask the Secretary of State for the Home Department how many drugs testing and treatment orders have been issued in *(a)* North Yorkshire and *(b)* the Vale of York. [156870]

**Caroline Flint:** The information requested, for the years 2000 to 2002, is contained in the table.

*Persons sentenced to drug treatment and testing orders in North Yorkshire and the Petty Sessional Area of York, 2000–02*

| | *In North Yorkshire* | *of which, in York PSA* |
|---|---|---|
| 2000[1] | — | — |
| 2001 | 61 | 33 |
| 2002 | 73 | 27 |

[1] From October.

Statistics for 2003 will be published in the autumn of this year.

### EU Accession States

**Annabelle Ewing:** To ask the Secretary of State for the Home Department what plans he has to remove from the UK citizens of EU accession states working within the UK when they cease employment, from 1 May onwards. [156790]

**Beverley Hughes** *[holding answer 27 February 2004]*: An accession state national that ceases employment in the United Kingdom will continue to have a right of residence in the United Kingdom provided that they are self-sufficient. If they are unable to support themselves and are an unreasonable burden on the state they will be liable for removal.

**David Davis:** To ask the Secretary of State for the Home Department what evidence his Department has collated on the number of nationals from *(a)* Poland and *(b)* other EU accession states who have already arranged transportation to the UK following 1 May; and if he will make a statement. [157075]

**Beverley Hughes:** No reliable information on the numbers of nationals from Poland or other EU accession states booking transport to travel to the United Kingdom for a visit or any other purpose after 1 May is available.

### Firearms Certificates

**Mr. Todd:** To ask the Secretary of State for the Home Department what steps are being taken to publicise *(a)* the need, under the Anti-Social Behaviour Act 2003 for existing owners of air weapons and imitation firearms to apply for a firearm certificate before 30 April and *(b)* the implications of not doing so. [157996]

**Caroline Flint:** Section 37 of the Anti-social Behaviour Act 2003 gives the police the power to arrest someone carrying an air weapon (whether loaded or not) or an imitation firearm in a public place without lawful authority or reasonable excuse. There is no requirement for them to obtain a firearms certificate.

Section 39 brings into force a specific ban on the sale, purchase, transfer, acquisition and manufacture of air guns using a self-contained gas-cartridge system. Existing owners will be able to retain possession provided they obtain a firearms certificate for the gun, and have until 30 April 2004 to do so.

We have publicised these measures through "A Guide to the Anti-social Behaviour Act 2003", which was included in the "TOGETHER Campaign Pack" issued on 20 February 2004. Guidance to the police was also issued in Home Office Circular 01/2004, which was sent out on 14 January 2004. Both of these documents and other relevant information are available on the Home Office website at www.homeoffice.gov.uk.

In addition, the Home Office has produced a number of posters and leaflets which explain what people must do if they want to keep any guns they already have which use the self-contained gas cartridge system. These have been sent to all police forces for display and further distribution as they see fit. After discussion with the relevant trade organisations they have also been sent to dealers together with a special sticker to put on tins of air gun pellets as a reminder to their customers.

We are continuing to work with the police and other interested parties with a view to securing further local publicity.

### Gun Crime

**Ms Abbott:** To ask the Secretary of State for the Home Department how much Government funding, broken down by local authority area, is given to community groups working to combat gun crime. [149787]

**Caroline Flint:** In the current financial year, the Government are providing £1.5 million from recovered criminal assets specifically to support community action to help tackle gun crime and gun culture. £300,000 of this has been allocated to Disarm Trust, an independent organisation that raises money and provides support for community groups working to reduce gun crime, supports victims of gun crime and provides help for witnesses. The remainder is being distributed by eight of the Government Offices for the Regions to support community action. The funding is not broken down by local authority areas. The allocations to the eight Government Offices are set out as follows.

| Government Office | £ |
|---|---|
| London | 400,000 |
| West Midlands | 200,000 |
| South West | 75,000 |
| Yorkshire and Humberside | 75,000 |
| South East | 100,000 |
| North West | 200,000 |
| East Midlands | 75,000 |
| East of England | 75,000 |

In addition, we are providing funding for community-based programmes to tackle gun crime through the Street Crime Initiative in a number of areas. This money is in addition to other funding provided through the Government Offices, for example, to support regeneration and to tackle deprivation and social exclusion, which help to address the factors that can give rise to criminality, including gun crime.

### Health Tourism

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department, what measures are *(a)* in place and *(b)* being researched or considered by his Department to combat health tourism. [156091]

**Beverley Hughes:** Immigration Rules (HC 395 as amended) provide for anyone to be refused entry clearance or leave to enter to the United Kingdom who seeks entry for a purpose not covered by the Rules. The Rules provide for entry for the purpose of private medical treatment but not for NHS treatment. They further provide for an Immigration Office to take account of a Medical Inspector's assessment of the likely course of treatment in deciding whether a person seeking entry for private medical treatment has sufficient means at his disposal.

Immigrants who seek NHS treatment after entry to the United Kingdom may be liable to charges for such treatment in accordance with the National Health Service (Charges to Overseas Visitors) Regulations 1989 (S.I. 1989 No.306) as amended. My right hon. Friend the Minister of State for Health has recently announced proposals to amend these Regulations to remove certain loopholes that have been exploited by health tourists. In particular anyone who has no legal basis to remain in the United Kingdom will be liable to be charged for NHS treatment, except for emergencies or conditions for which they were already receiving treatment before the final determination of their status.

The Government have been undertaking a comprehensive interdepartmental review of the issues surrounding immigration and healthcare. The review is ongoing and final decisions remain to be taken.

As announced by my right hon. Friend the Home Secretary, *Official Report*, 23 February 2004, columns 23–25), from 1 May the Government will be requiring workers from the European Union (EU) accession countries (except Malta and Cyprus) to register with the Home Office. In accordance with EU Regulations, any resident of an EU member state will be entitled to receive free of charge treatment for which the need arises during a visit to the United Kingdom—the cost is met by their home country. But to be fully exempt from charges for routine hospital treatment for a pre-existing condition, patients from elsewhere in the EU will need to prove—just as for any other overseas visitor—that they meet one of the exemption criteria in the National Health Service (Charges to Overseas Visitors) Regulations, for example the exemption for those employed in the United Kingdom. This will apply to registered workers from the accession states. The Government will continue to take every step to ensure that our benefit and healthcare system is not open to abuse.

### Local Authority Asylum Costs

**Mr. Gale:** To ask the Secretary of State for the Home Department (1) when the audit of Kent county council's claim relating to asylum seeker costs will be completed; and if he will make a statement on its delay; [155027]

(2) when his Department will publish the grant rules for asylum costs for the current year; [155028]

(3) what asylum costs were paid by *(a)* his Department and *(b)* Kent county council; and if he will make a statement. [155029]

**Beverley Hughes** *[holding answer 23 February 2004]:* The audit of Kent county council's claims relating to asylum support costs is the responsibility of the District Auditor. Audit work on the claim for 2002–03 was delayed initially by work required to finalise the lists of asylum seekers eligible for support during the year. The due date for the completion of the 2002–03 audit has been set at 31 March 2004. At present the council are also investigating the exact amount of the outstanding balance for 2002–03 and this may also delay the completion of the audit.

The instructions for 2003–04 relating to Adults and Families were published in June 2003. The instructions for Unaccompanied Asylum Seeker Children (UASC) were published in January 2004.

The Home Office reimburses local councils for asylum support costs via a series of interim payments during the year. Kent county council submitted four interim claims in 2002–03 and three for the year to date in 2003–04. These have all been paid. The outstanding balance for 2002–03 is subject to investigation as mentioned above. If it is agreed that a significant amount has not been covered by the interim claims in 2002–03 then the Home Office is prepared to make a further payment against the final audited claim.

### Malawi (Work Permits)

**Tom Brake:** To ask the Secretary of State for the Home Department how many work permits have been issued to health workers from Malawi since January 2003. [156186]

**Beverley Hughes:** The number of work permits issued to Malawi health workers in the calendar year 2003 was 142.

### Mr. T. Umbalan

**Chris Grayling:** To ask the Secretary of State for the Home Department on what grounds he is considering a further application from Mr.T Umabalan of Epsom, Surrey, to remain in the UK; and if he will make a

further statement on the contents of his letter to the hon. Member for Epsom and Ewell on 10 June 2002 in relation to this case. [156181]

**Beverley Hughes:** Mr Umabalan has applied for settlement based on his long residence in the United Kingdom and for leave to remain on Human Rights grounds.

### Removals

**Keith Vaz:** To ask the Secretary of State for the Home Department how many persons were removed from the UK in each year since 1997. [156095]

**Beverley Hughes:** The number of people removed from the United Kingdom in each year from 1997 to 2002 (the latest available year) is shown in the table.

*Persons removed from the United Kingdom 1997 to 2002*[1]

| | *Total persons removed*[2] |
|---|---|
| 1997 | 31,145 |
| 1998 | 34,920 |
| 1999 | 37,780 |
| 2000 | 46,645 |
| 2001 | 49,135 |
| 2002[3] | 65,460 |

[1] Under sections 3(5), 3(6) of the Immigration Act 1971, or under section 10 of the Immigration and Asylum Act 1999.

[2] Including persons departing "voluntarily" after enforcement action had been initiated against them.

[3] Provisonal figures.

Information on the total number of people removed each year from the United Kingdom is published annually in the Home Office Statistical Bulletin "Control of Immigration: Statistics United Kingdom" and in the Command Publication of the same name. These are available from the Home Office website: www.homeoffice.gov.uk/rds/immigration1.html and from the Library. Information on the total number of people removed from the United Kingdom in 2003 is due to be published in the aforementioned statistical bulletin on the Home Office website towards the end of August 2004.

### Speed Cameras

**Mr. Evans:** To ask the Secretary of State for the Home Department how much money was raised in fines from speed cameras in each year since their inception in the Lancashire police force area. [156498]

**Caroline Flint:** Information on the revenue raised from speed offences detected by camera is not available.

Available information on the number of fixed penalties and court fines ordered to be paid for offence of 'speeding detected by camera' in the calendar years 1997 to 2001 is shown in the table for the Lancashire police force area.

Information for 2002 will be available in the spring.

Not all fines and fixed penalties will have been paid.

*Fixed penalty and court proceedings data for speeding offences detected by cameras*[1,2] *in the Lancashire police force area, 1997–2001*

| | *Fixed penalties* | | *Court Proceedings*[3] | | |
|---|---|---|---|---|---|
| *Offence and year* | *Number of tickets* | *Estimated revenue (£)* | *Number of fines* | *Total amount of fine (£)* | *Average fine*[4] |
| 1997 | 5,600 | 224,800 | 480 | 37,100 | 78 |
| 1998 | 14,700 | 588,900 | 880 | 96,000 | 109 |
| 1999 | 22,300 | 892,600 | 1,200 | 120,200 | 101 |
| 2000 | 18,400 | 796,100 | 930 | 79,800 | 86 |
| 2001 | 21,400 | 1,283,500 | 1,400 | 90,800 | 65 |

[1] Automatic cameras until 1998, all camera types from 1999.

[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.

[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

[4] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to 60.

*Note:*

Reliable data only available from 1997 onwards for speeding offences detected by camera.

### Yarl's Wood

**Alistair Burt:** To ask the Secretary of State for the Home Department (1) if he will publish in full the two reports of the Prisons Ombudsman, concerning the Yarl's Wood Detention Centre in North East Bedfordshire when he receives them; and if he will make a statement; [157105]

(2) when he expects to receive the reports from the Prisons Ombudsman, on *(a)* the circumstances surrounding the fire at Yarl's Wood on 14 February 2002 and *(b)* the allegations of racism among security staff at Yarl's Wood. [157106]

**Beverley Hughes:** I can confirm that both reports will be published in full, once I have the opportunity to consider carefully their contents.

With regard to Stephen Shaw's inquiry into the events at Yarl's Wood on 14/15 February 2002 there is an expectation that it will be submitted to me this summer.

I can confirm that a draft of Stephen Shaw's separate report into allegations of racism at Yarl's Wood has now been received. Stephen Shaw has yet to finalise the report in a form suitable for publication. When he has done so and I have considered its contents, I will make arrangements for its publication as soon as possible.

# Written Answers to Questions

*Wednesday 3 March 2004*

## LEADER OF THE HOUSE

### Parliamentary Questions

**Norman Baker:** To ask the Leader of the House how many Parliamentary Questions have been tabled to him since 1 January 2003, broken down by *(a)* Ordinary Written and *(b)* Named Day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157743]

**Mr. Hain:** Ministers have an obligation to Parliament to ensure that Members receive a substantive response to their Named Day question on the named day and to endeavour to answer an Ordinary Written question within a working week of it being tabled. Ministers and their Departments should make every effort to ensure that the live load of questions still awaiting a substantive reply should be kept to a minimum at all times.

From 1 January 2003 to Friday 27 February 2004:

102 Ordinary Written Questions were tabled, of which 100 per cent. were answered within 10 working days.

49 Named Day Questions were tabled, of which 96 per cent. were answered by the specified date.

## TREASURY

### Child Benefit

**Mr. Goodman:** To ask the Chancellor of the Exchequer what the cost to his Department of administering Child Benefit was *(a)* in total and *(b)* per claimant in the last year for which figures are available. [158077]

**Dawn Primarolo:** Child Benefit is administered by the Child Benefit Office which only became a part of the Inland Revenue on 1 April 2003 so figures for a full year are not available.

### Contraband/Counterfeit Goods (Northern Ireland)

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer if he will estimate the *(a)* quantity and *(b)* monetary value of (i) illegal fuel, (ii) cigarettes and (iii) counterfeit goods seized over the last year in Northern Ireland. [157390]

**John Healey:** The latest published seizure figures for illegal fuel in Northern Ireland are contained in HM Customs and Excise Annual Report 2002–03 (HC 52) and for other commodities in the Northern Ireland Organised Crime Task Force, Strategic Response 2002–03, which is available from their website at www.octf.gov.uk.

### National Statistics

**Mr. Meacher:** To ask the Chancellor of the Exchequer what the level of real personal disposable income was in each year since 1980; and what the percentage change was in each year compared with the previous year. [157407]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Meacher, dated 3 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question on the level of real personal disposable income. I am replying in his absence. (157407)

The information available is shown in the table. The data are presented as annual values for 1980 to 2002. Annual data for 2003 are not published until 26 March 2004.

The households' series used for these data are for the combined household and non-profit institutions serving households (NPISH) sectors. The accounts for the household and NPISH sectors are currently combined: separate estimates are not available.

*UK real households' disposable income[1]: 1980–2002*

| | *Real households' disposable income (£ billion)* [1] | *Percentage change, year-on-year* |
|---|---|---|
| 1980 | 372 | 1.7 |
| 1981 | 371 | -0.5 |
| 1982 | 369 | -0.3 |
| 1983 | 377 | 2.0 |
| 1984 | 391 | 3.7 |
| 1985 | 404 | 3.4 |
| 1986 | 421 | 4.1 |
| 1987 | 436 | 3.7 |
| 1988 | 460 | 5.5 |
| 1989 | 482 | 4.7 |
| 1990 | 499 | 3.5 |
| 1991 | 509 | 2.0 |
| 1992 | 523 | 2.8 |
| 1993 | 537 | 2.8 |
| 1994 | 545 | 1.5 |
| 1995 | 558 | 2.3 |
| 1996 | 571 | 2.4 |
| 1997 | 595 | 4.1 |
| 1998 | 597 | 0.3 |
| 1999 | 616 | 3.3 |
| 2000 | 655 | 6.2 |
| 2001 | 685 | 4.7 |
| 2002 | 696 | 1.6 |

[1] Chained volume measures, with reference year 2000.

*Source:*

UK National Accounts (ONS).

### Independent Brewers

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what recent meetings he has had with representatives of independent brewers. [157688]

**John Healey:** Treasury Ministers and officials hold meetings on a regular basis with a wide range of representative bodies. I met the Society of Independent Brewers (SIBA) on 6 February 2004 and discussions have been held with SIBA on the Customs and Excise document "Small Breweries' Relief: A Call for Evidence" published on 29 July 2003.

### Occupational Physiotherapy

**Mr. Burstow:** To ask the Chancellor of the Exchequer what steps he is taking to address the different tax treatment of in-house occupational physiotherapy and a contracted service. [157853]

**Ruth Kelly:** The Government keeps all taxes under review and any changes will be considered as part of the normal Budget process. There is currently no specific employment benefit tax relief for the cost of private health care; employees will generally be chargeable on the cost of this treatment, whether provided directly by the employer or via payment to a health provider.

Treatment provided by physiotherapists that are registered with the Health Professionals Council is exempt from VAT, whether provided in-house or purchased on a contract basis. This service remains free to patients when provided on the NHS.

### Office of Government Commerce

**Ms Walley:** To ask the Chancellor of the Exchequer what annual records are kept on Government Department purchases from portfolio contract holders by the Office of Government Commerce; and if he will make a statement. [158097]

**Mr. Boateng:** Portfolio contract holders are required to submit to OGCbuying.solutions on a quarterly basis the total value of contract sales arising from purchases made by Central Government, the Ministry of Defence, HM Prison Service and the National Health Service.

This information relates to sales totals only, and the OGCbuying.solutions does not receive or keep records of individual purchasing transactions.

### Parliamentary Questions

**Norman Baker:** To ask the Chancellor of the Exchequer how many parliamentary questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days and what percentage in respect of *(b)* were answered by the specified date. [157739]

**John Healey:** 84.4 per cent. of the 3,489 ordinary written questions tabled to the Chancellor of the Exchequer between January 2003 and February 2004 were answered substantively within 10 working days; and in the same period, 70.2 per cent. of the 544 named day questions were answered on the nominated day.

### PFI/PPP Contracts

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many *(a)* public finance initiative and *(b)* public private partnership contracts have been signed for Lancashire projects in each of the last three years, broken down by *(a)* contract amount and *(b)* project. [157693]

**Mr. Boateng:** Information on signed private finance initiative projects is submitted to the Treasury by departments. A spreadsheet of these data, which were last submitted in July 2003, is available from the HM Treasury website at: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

The spreadsheet can be searched by date of signature, capital value and region.

### Small Business Taxation

**Mr. Pickthall:** To ask the Chancellor of the Exchequer what discussions he has had with representatives of small and medium enterprises on changes to the taxation of small businesses. [157849]

**Dawn Primarolo:** Treasury Ministers meet regularly with business leaders and others to discuss a wide range of subjects, including the taxation of small business, and to consider the role the Government can continue to play in fostering enterprise, improving productivity and ensuring a competitive economy.

### Stamp Duty

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of making 2 per cent. the highest rate of stamp duty levied above existing thresholds. [157570]

**Ruth Kelly:** The revenue cost of restructuring stamp duty on property transactions according to the scheme described, which applies a 1 per cent. rate on transactions values above £60,000 and a 2 per cent. rate above £250,000, is estimated to be £1.8 billion in 2004–05. This does not include any allowance for behavioural changes.

### Tax Credits

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what representations he has received from *(a)* the Child Poverty Action Group and *(b)* other charities regarding (i) the administration of the Child Tax Credit and Working Tax Credit since 6 April 2003 and (ii) take-up rates of tax credits. [158266]

**Dawn Primarolo:** Officials from the Inland Revenue, HM Treasury and the Department for Work and Pensions meet the Child Poverty Action Group and other interest groups regularly to discuss a range of tax credits issues.

### Income Tax

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of reducing the standard rate of income tax to 21 per cent. [157571]

**Dawn Primarolo:** I refer the hon. Member to table 1.6 "Direct effects of illustrative tax changes" on the Inland Revenue website www.inlandrevenue.gov.uk/stats/tax_expenditures/ table-16.pdf.

### Thalidomide Trust

**Mr. Soames:** To ask the Chancellor of the Exchequer if he will make a statement on the current draft agreement between the Inland Revenue and the Thalidomide Trust. [158750]

**Dawn Primarolo:** The tax affairs of the Thalidomide Trust, like those of all taxpayers, are confidential and a matter for the trustees and the Inland Revenue. If the

trustees wish to make a statement about any discussions they have had with the Inland Revenue that is for them to decide.

### UK Presidencies (G8/EU)

**Tom Brake:** To ask the Chancellor of the Exchequer what discussions he has had with ministerial colleagues in the last 12 months on the priorities the Government intend to pursue when the UK assumes the presidencies of the *(a)* G8 and *(b)* EU. [156182]

**Dawn Primarolo:** I refer the hon. Member to the answer my hon. Friend the Minister for Europe gave him on 26 February 2004, *Official Report*, column 483W.

## INTERNATIONAL DEVELOPMENT

### Bangladesh

6. **Mrs. Curtis-Thomas:** To ask the Secretary of State for International Development what contribution his Department is making to the development of education in Bangladesh. [157876]

**Mr. Gareth Thomas:** My right hon. Friend approved a grant of £100 million over six years as the UK contribution to a sector-wide programme for primary education in Bangladesh which I was able to announce during my visit to Bangladesh in January. This is the largest single grant that DFID has ever made to Bangladesh. Its purpose is to help increase access to education for 2 to 3 million extra children. In addition, DFID also supports two other Government programmes and a number of education programmes run by NGOs aimed specifically at providing education to hard to reach children who would otherwise miss out, for example working children.

### Haiti

7. **Miss McIntosh:** To ask the Secretary of State for International Development if he will make a statement on aid to Haiti. [157877]

**Mr. Gareth Thomas:** A Small Grants Scheme finances development activities in basic sanitation, HIV/AIDS and rural livelihoods. Haiti also benefits from projects financed by the DFID Civil Society Challenge Fund.

The UK's main support to Haiti is provided through the European Union. The UK finances approximately 13 per cent. of the European Development Fund budget (Haiti's allocation under the latest EOF is frozen pending political progress). The UK also provides support to Haiti through its membership of the World Bank and the Inter-American Development Bank; the latter resumed lending to Haiti in 2003.

DFID will consider the imminent United Nations Flash Appeal when launched.

### Democratic Republic of Congo

8. **Norman Lamb:** To ask the Secretary of State for International Development what discussions he has held with the Department of Trade and Industry concerning the involvement of UK companies in the Democratic Republic of Congo. [157878]

**Hilary Benn:** I have raised the issue with my right hon. Friend the Secretary of State for Trade and Industry and we will be discussing it further later this month.

### India

9. **Julie Morgan:** To ask the Secretary of State for International Development what plans he has to increase aid to India. [157879]

**Mr. Gareth Thomas:** DFID provided £161 million of bilateral development assistance to India in 2002–03. In the New Delhi Declaration of January 2002 the two Prime Ministers, Tony Blair and Atal Bihari Vajpayee, looked forward to expenditure of over £300 million. We are making progress towards this budget and expect to be able to disburse some £200 million in 2003–04.

### Doha Trade Round

10. **Mr. Quentin Davies:** To ask the Secretary of State for International Development if he will make a statement on the significance for developing countries of completing the Doha trade round. [157880]

**Hilary Benn:** The benefits of the Doha round for developing countries will depend on the final outcome at the conclusion of the negotiations. This was originally scheduled for January 2005 but it is unlikely with the collapse of the WTO ministerial at Cancun that this deadline will be met. It is widely acknowledge that multilateral trade reform can have significant benefits for developing countries. For example, the World Bank estimates that eliminating all barriers to trade in goods would generate an extra US$250 billion to US$620 billion in global income, up to half of which would go to developing countries. In terms of poverty reduction, this could lift over 300 million people out of poverty by 2015.

Nonetheless, while the reforms may lead to aggregate gains in a country's economic welfare, they inevitably create losers. As well as undertaking studies on the effects of trade reform on livelihoods and food security of the poor segments of the population in developing countries, DFID is working with a number of developing country partners and through the multilateral system to link the trade agenda within countries' own development strategies. The intention is to ensure that liberalisation is accompanied by other policies to help maximise the economic opportunities for all and mitigate adverse impacts on poor households.

### Uganda

11. **Valerie Davey:** To ask the Secretary of State for International Development what the extent is of collaboration with other EU donors to ensure that humanitarian aid to Uganda is effective. [157881]

**Hilary Benn:** DFID works closely with other European Union partners and the European Commission to ensure that humanitarian assistance provided to northern Uganda is as effective as possible. European Union Heads of Mission and technical advisers based in Kampala meet regularly to consider the latest developments on the ground and to coordinate assistance to all affected areas. On a number of occasions EU donors have made joint assessment visits

to the north. The DFID office in Uganda stays in close touch with the European Community Humanitarian Office for East Africa based in Nairobi, Kenya.

Collaboration between EU member states is part of wider arrangements for coordination of humanitarian assistance to northern Uganda. In this context EU member states, as a group, work particularly closely with UN agencies and other donors.

**Mr. Blizzard:** To ask the Secretary of State for International Development what assessment he has made of the humanitarian crisis in northern Uganda; and what action he is taking to address it. [157614]

**Hilary Benn:** The humanitarian impact of the conflict in northern Uganda is severe. About 1.4 million people have been displaced across the region. Over the past 18 years, more than 20,000 children have been abducted by the brutal Lord's Resistance Army (LRA).

While the conflict persists, we will continue to play a strong role in addressing its humanitarian consequences. Over the last year we have provided £8.4 million of humanitarian assistance, which has been channelled through the World Food Programme, UNICEF and the Uganda Red Cross Society. In addition, we are supporting a number of programmes responding to the plight of children affected by the conflict. With our help, UNICEF and Save the Children Fund are improving the conditions for the large number of unaccompanied children who are sleeping in town centres at night to avoid abduction. We are helping to re-integrate ex-LRA child combatants with their families and local communities.

Along with other colleagues in the donor community including UN agencies and NGOs, we continue to monitor and assess the humanitarian impact of the situation and to consider what more we can do to assist those affected.

### Commonwealth

12. **Simon Hughes:** To ask the Secretary of State for International Development what proportion of his Department's budget will be spent in Commonwealth countries in 2003–04; and what percentage change upon the budget for 1998–99 this represents. [157882]

**Mr. Gareth Thomas:** Of the proportion of the DFID programme which goes to specific geographical destinations, Commonwealth countries received £624 million (65 per cent.) in 1998–99 and £877 million (59 per cent.) in 2002–03. This is a 40 per cent. increase in cash terms. Figures for 2003–04 are not yet available.

### HIV/AIDS

13. **Jim Dobbin:** To ask the Secretary of State for International Development what action his Department is taking to tackle HIV/AIDS in sub-Saharan Africa. [157883]

**Hilary Benn:** DFID recognises that HIV/AIDS is a terrible human catastrophe and is one of the most important development challenges facing Africa. The UK is the second largest bilateral donor of HIV/AIDS assistance in the world. In 2002–03 UK spend to address HIV/AIDS and sexual health globally amounted to over £270 million. This Department has HIV/AIDS investments in most of our 16 focus countries in sub-Saharan Africa. In addition, indirect support is being provided to address HIV/AIDS through budget support. We have committed over £25 million to support the International Partnership Against AIDS in Africa (IPAA) initiative—a regional, Africa-led initiative, and $280 million over 8 years to the Global Fund to Fight AIDS, TB and Malaria. We will make reducing the vulnerability of poor people to HIV and to the impact of AIDS a priority for the extra resources the UK will be providing to Africa in 2006.

Considerable additional financial support continues to be provided through institutions such as WHO, UNAIDS, UNFPA, and NGOs and civil society organisations in a coherent effort to combat the disease and support those already living with it.

But we are committed to doing more. The Government has published a Call for Action on HIV/AIDS. This is the first stage in an intensified effort on HIV/AIDS, and a new UK strategy will be published later in the year. The Call for Action highlights the need for: better funding, better donor co-ordination, better HIV/AIDS programmes and stronger political support. The UK has pushed for HIV to be a focus issue for the Africa Partners Forum. HIV remains a high order issue for the G8 Africa Action Plan. The UK will prioritise HIV/AIDS and Africa during the UK Presidency of the G8 in 2005.

15. **Vera Baird:** To ask the Secretary of State for International Development if he will make a statement on his Department's contribution to the global campaign to tackle AIDS. [157885]

**Mr. Gareth Thomas:** The UK is the second largest bilateral donor of HIV/AIDS assistance to developing countries. Our bilateral funding has increased seven-fold, from £38 million in 1997–98 to more than £270 million in 2002–03. The UK was instrumental in setting up the Global Fund to Fight AIDS, TB and Malaria and has committed US$ 280 million over seven years to ensure it has long term stability of funding. The Government published its Call for Action on HIV/AIDS on World AIDS Day, which emphasises the UK's commitment to AIDS and highlights the need for stronger political direction; better funding; better donor coordination and better HIV/AIDS programmes.

### Ethiopia

14. **Tony Baldry:** To ask the Secretary of State for International Development if he will make a statement on development assistance to Ethiopia. [157884]

**Hilary Benn:** As I saw during my recent visit, the problems facing Ethiopia are immense. Almost one half of its 70 million people live below the national poverty line. Hunger, HIV/AIDS and the need to provide basic services pose enormous challenges.

The time is right for the international community to play a much larger role in helping Ethiopia meet these challenges. This is what the UK intends to do. On current plans, UK development assistance will increase from £19 million this financial year to £57 million in 2005–06. This will include substantial direct budget support. We will also support the Ethiopian Government's own plans to tackle the roots of hunger.

At the same time, we will continue to respond to immediate humanitarian needs. This year, despite the good harvest, some 7.2 million people will still need support to stay alive. The reason is not a shortage of food as a whole in Ethiopia—it is poverty. During my visit, I agreed to provide immediate further assistance of £10 million to meet both food and non-food needs, including water, sanitation and health. We will continue to keep the situation under very close review.

### Employee Ownership

**Mr. Reed:** To ask the Secretary of State for International Development whether his Department provides support to governments actively to develop employee ownership of business units programmes. [157794]

**Hilary Benn:** DFID provides support to governments both directly and indirectly to develop programmes that promote employee ownership of business units. In South Africa, for example, DFID is providing a range of assistance to Government to support employee ownership of privatised enterprises. This has included assistance to the Department of Public Enterprises to incorporate employee share ownership schemes in its programme to divest the state-owned forestry company's holdings. DFID is also providing support to the Government of Serbia to implement its privatisation programme, which allows for employees to bid for up to 30 per cent. of the shares in the companies.

DFID also contributes indirectly to promoting employee ownership of business through its membership of major international financial institutions such as the World Bank Group and the European Bank for Reconstruction and Development, which actively promote employee share ownership in restructuring and privatisation programmes in a number of countries. DFID has not received requests from governments to help develop employee ownership of existing business units in the private sector.

**Mr. Reed:** To ask the Secretary of State for International Development what support his Department provides to governments undertaking privatisation programmes to enable employees to buy and run businesses. [157795]

**Hilary Benn:** Few governments have as a policy objective privatisation programmes aimed specifically at enabling employees to buy and run businesses. However, DFID provides extensive support to governments to develop the micro, small and medium enterprise sector. Our support includes assistance to governments to improve the legal and regulatory framework for enterprise; the development of financial institutions to increase the availability of finance needed to establish and operate businesses; and programmes to strengthen local management skills and business support services. These support programmes encourage and enable all entrepreneurs in the community to buy and run businesses, including employees of state-owned enterprises.

In China, for example, DFID's support to the enterprise sector combines support for state-owned enterprise reform with an enterprise development programme to promote the development of small, private businesses. This programme includes consulting and training services and a credit guarantee scheme to increase bank finance for small enterprise and is open to employees of state-owned enterprises and to the wider entrepreneurial community.

### CDC

**Gregory Barker:** To ask the Secretary of State for International Development what the airline travel policy for the directors of *(a)* CDC and *(b)* Actis is in respect of (i) European and (ii) inter-continental flights. [157826]

**Hilary Benn:** The existing CDC airline travel policy will apply to both CDC and Actis and covers all staff, including directors.

Economy class travel will be used for all flights of less than six hours duration, while business class travel is allowed for flights of over six hours duration or for overnight flights. First class travel may only be used in special circumstances such as intra-continental travel where business class is not available and is subject to prior approval.

**Gregory Barker:** To ask the Secretary of State for International Development what estimate he has made of the total cost of the reorganisation of CDC and Actis. [157828]

**Hilary Benn:** Our estimate of the total costs of the reorganisation of CDC is £11.5 million. This is made up as follows:

| | *£ million* |
|---|---|
| DFID Advisory costs | 3.5 |
| CDC Advisory and staff costs | 5.6 |
| CDC Implementation costs | 2.4 |

Both CDC and DFID have statutory duties and duties of due diligence to discharge. These have to be carried out fully and thoroughly and need properly qualified professional expertise. It was also important to find the right corporate model and to achieve the best value for money. The costs are commensurate with the degree of care and attention needed in the restructuring of a £1.1 billion enterprise.

### Chad

**Dr. Tonge:** To ask the Secretary of State for International Development what assistance has been given to Chad to deal with displaced people from Darfur, Sudan. [158593]

**Hilary Benn:** The United Nations estimates that there are 110,000 Sudanese refugees in Eastern Chad, displaced by the fighting in the Darfur region of Sudan.

We contributed £1 million to UN High Commissioner for Refugees' work in Chad in October last year. We are currently considering some further contributions to international agencies working with Sudanese refugees.

## GM Crops

**Joan Ruddock:** To ask the Secretary of State for International Development what GM crops are being grown in developing countries; and what the advantages over the comparable non-GM crops are of these crops, as cited in peer-reviewed research. [156804]

**Hilary Benn:** The bulk of GM crop production in developing countries is commercial. Of the six countries responsible for 99 per cent. of global crop production by area in 2003, four were developing countries: Argentina (21 per cent.), Brazil (4 per cent.), China (4 per cent.) and South Africa (1 per cent.). Almost all of Argentina's soybean production is now GM, while GM cotton now accounts for 58 per cent. of China's total cotton area[1]. The International Service for the Acquisition of Agri-biotech Applications publication "Global Status of Commercialized Transgenic Crops: 2003" provides more information.

A recently published report by the Nuffield Council on Bioethics contains a number of case studies detailing the actual and potential benefits of GM crops for developing countries. These are not necessarily related to yield increases but may, for example, involve reduced farmer inputs.

GM technology has the potential to provide commercial farmers in developing countries with new opportunities to increase the yield or quality of their crops. In particular, GM technology may enable farmers to protect their crops from environmental stresses and attacks from pathogens and insects.

GM technology also has the potential to improve the yield and quality of smallholder crops, where the emphasis is on increasing production without the need for increased inputs.

Decisions about the use of GM crops are, of course, a matter for developing country Governments to take.

[1] *Source:*
ISAAA, "Global Status of Commercialized Transgenic Crops: 2003"

## Iraq

**Harry Cohen:** To ask the Secretary of State for International Development what contracts have been placed by *(a)* the United States of America, *(b)* the United Kingdom and *(c)* other countries and institutions for the clearing of unexploded ordnance in Iraq; what the values of these contracts are; whom they are with; what the requirements are for which the contractors are being paid; whether sub-contracting to do the actual clearance work is provided for in the main contracts; what relationship is expected between the contractors and military forces stationed in the country, non-governmental organisations and Iraqis; and if he will make a statement. [157138]

**Hilary Benn:** DFID is supporting de-mining and the clearance of unexploded ordnance in Iraq both through non-governmental organisations (NGOs) and the UN.

DFID has signed contracts with the NGO Mines Advisory Group for work in northern Iraq (£781,639) and southern Iraq (£1,201,263). These contracts cover direct de-mining activities utilising a combination of expatriate staff and locally recruited de-miners.

In addition, DFID has funded humanitarian mine action through the United Nations Mine Action Service (UNMAS). The total provided to UNMAS is £4,357,358, including a grant of £357,358 for the purchase of plastic explosives for use in unexploded ordnance disposal. UNMAS has subcontracted the actual de-mining under these contracts to a number of international NGOs and commercial de-mining companies.

DFID expects the relationship between NGO contractors, commercial de-miners and the military to be one of close cooperation. On the military side, relevant engineer specialists of the British Battle Group have been particularly involved in this. We also encourage a focus on capacity building of Iraqi de-miners as much as possible.

Information on de-mining work funded by the US, including the establishment a 110-strong 'Iraqi Mine/UXO Clearance' NGO, can be found at www.cpa-iraq.org/pressreleases/20031213a_mines.htm.

## IT Companies (Working Conditions)

**Helen Jones:** To ask the Secretary of State for International Development what steps he is taking to encourage IT firms to ensure that all their sub-contractors in developing countries provided decent working conditions for their employees; and if he will make a statement. [157354]

**Hilary Benn:** The Government's commitment to supporting improvements in labour standards is firmly based on the International Labour Organisations' Declaration on the Fundamental Principles and Rights at Work and the core labour standards that it incorporates. The Government calls on IT firms and other businesses sourcing goods from developing countries to follow the OECD Guidelines for National Enterprise, which set out principles for responsible business conduct including labour standards.

Effective and well-judged implementation of labour standards can play an important part in the reduction of global poverty by promoting broad based economic, social and political development. The Government supports initiatives that promote corporate social responsibility in ways that reduce poverty and support growth. The Department for International Development is providing practical support to the development of socially responsible business practice through the Ethical Trading Initiative. This is an alliance of business, trade unions and non-governmental organisations committed to improving working conditions in the supply chains of its corporate members. DFID helped to establish the ETI in 1998 and our current partnership is worth £1,300,000 over three years.

## Middle East

**Dr. Iddon:** To ask the Secretary of State for International Development what plans his Department has to assist economic development in the Middle East. [157756]

**Hilary Benn:** Promoting economic growth that benefits all people in a sustainable way is one of four objectives of our Regional Assistance Plan for the Middle East and North Africa. It is also a primary

objective of our Interim Country Assistance Plan for Iraq. Copies of both papers have been placed in the Library of the House of Commons. We are working with the European Commission to help improve the effectiveness of their programmes in the region, for example by funding studies to help them strengthen trade links and private sector development. We strongly support European Investment Bank efforts to assist small and medium-sized enterprises, which are engines of growth in the region.

In Iraq, we are providing technical expertise in economic transition to the Coalition Provisional Authority, strengthening economic management capacity within Iraqi ministries, and supporting the development of small and medium-sized enterprises. We also provide bilateral assistance to Yemen and Palestine, some of which has a specific focus on economic development. Most recently, we have been working closely with the Foreign and Commonwealth Office and HM Treasury to help develop plans for the G8 group of countries and the EC to further promote economic development in the region.

### North Korea

**Mr. Bercow**: To ask the Secretary of State for International Development what estimate he has made of the scale of the movement of refugees from North Korea to China since 1995. [157545]

**Hilary Benn:** There is no accurate figure of the number of North Koreans in China because they tend to remain hidden for fear of discovery and repatriation to North Korea. Estimates vary greatly. The Ministry of Reunification in South Korea estimates that there are 10,000 long-term migrants in China. Some NGO groups estimate there are 300,000 North Koreans in China, based on surveys of villages in the border region.

The Chinese Government says that, by United Nations definitions, North Koreans who enter China illegally are economic migrants, not refugees. The UK regularly raises the question of North Korean border crossers at our biannual UK/China Human Rights Dialogue.

**Mr. Bercow:** To ask the Secretary of State for International Development if he will make a statement on his policy on development aid to North Korea. [157553]

**Hilary Benn:** The Department for International Development (DFID) does not give development assistance to North Korea; nor do we have any plans to start a bilateral programme there. DFID policy is to focus its human and financial resources on a manageable number of key country programmes where the UK has comparative advantage and expertise.

Since 1997, DFID has provided £3,298,000 in humanitarian assistance to North Korea. Most recently, DFID approved a grant of £1,023,000 to support UNICEF's work in 2004, in primary health care (including provision of essential medical supplies such as vaccinations) and improvements to the water and sanitation systems. In 2002–03 DFID provided £200,000 to the International Federation of the Red Cross for its flood prevention work, and in 2001–02 the Federation also received £75,000 for emergency assistance to flood victims and £800,000 to support the health care system through the distribution of drugs and basic medical equipment. In the same year, DFID channelled £1,200,000 through the United Nations Children Fund to support its primary health care programme.

**Mr. Bercow:** To ask the Secretary of State for International Development what assessment he has made of energy supplies in North Korea; and what steps his Department is taking to improve them. [157554]

**Hilary Benn:** Insufficient energy supplies impact on the humanitarian crisis in North Korea. Power shortages prevent effective operation of water pumping stations, thereby reducing the overall supply of water. The diminishing supplies of fuel wood compounds this problem as families are unable to boil water before use, which in turn increases the prevalence of water borne diseases and diarrhoea and malnutrition worde. Fuel wood is also used for heating and cooking.

Nevertheless, energy is only one factor in the overall humanitarian crisis in North Korea, and the Department for International Development seeks to target its assistance in a way that will have the greatest impact. DFID is currently supporting the strengthening of water and sanitation, health care and disaster mitigation. This approach is in accordance with our assessment of the situation and follows discussions with the United Nations Resident Representative for North Korea.

**Mr. Bercow:** To ask the Secretary of State for International Development how much emergency *(a)* medical and *(b)* food aid was provided by the United Kingdom to North Korea in each of the last 10 years. [157555]

**Hilary Benn:** The financial figures available go back as far as 1996, when the United Kingdom gave £23,907 to Save the Children and the World Food Programme (WFP) for a nutrition assessment, £100,000 to the International Federation of the Red Cross and Red Crescent Societies (IFRC) for the procurement and distribution of food for those still dependent on food aid following the 1995 flood, and another £100,000 for supplementary food for flood victims. The WFP also received £100,000 for supplementary food and project management costs for flood victims.

In 1997 we provided £80,000 to the IFRC for relief to provinces affected by floods following a tidal wave, and a further £495,000 for supplementary food needs for 139,000 beneficiaries.

In 1999 the Department for International Development (DFID) provided £131,459 to a pilot project run by CONCERN to increase food security and channelled £200,000 through World Vision to improve food security and promote sound agricultural practices, £120,000 through Save the Children to improve nutrition and early childhood development at national and village level, £158,437 through Oxfam to treat the public water supply in order to reduce the prevalence of water-born diseases and £625,000 to the United Nations Development Programme for its Geographic Information System and policy reform work including a micro-credit system.

In 2000, DFID provided £50,000 to the IFRC for emergency assistance to storm victims.

In 2001–02 DFID provided £1,200,000 to support UNICEF's primary health care programme, as well as £75,000 to the IFRC for emergency assistance to flood victims and £800,000 for its programme to support the health care system through the distribution of drugs and basic medical equipment.

In 2002–03 The Department provided £200,000 to the IFRC for its flood prevention work and recently approved a grant of £1,023,000 to support UNICEF's work, in 2004, in primary health care, including improvements to the water and sanitation systems as well as essential medical supplies such as vaccinations.

It should be noted that the European Commission provided approximately £37.5 million in humanitarian assistance to North Korea since 1995, of which the UK has contribution is around £6.4 million.

**Mr. Bercow:** To ask the Secretary of State for International Development what assessment he has made of food supplies in North Korea; and what steps his Department is taking to improve them. [157557]

**Hilary Benn:** Owing to the environment of secrecy and restrictions on agencies operating there, it is difficult to be certain of figures regarding the situation in North Korea. A joint study between the Government and the United Nations Children's Fund showed that 42 per cent. suffer from chronic, or stunting malnutrition and 9 per cent. of the population suffer acute malnutrition (compared with 16 per cent. of children in the Democratic Republic of the Congo). The Food and Agriculture Organisation estimates that the North Korean food output falls short of need by 944 thousand tonnes.

While significant improvements in nutrition rates have been observed through food aid and improved harvests, the international response has been marked by breaks in supply that leave aid beneficiaries vulnerable. Following a recent delay, food distribution has restarted and all but 600,000 core beneficiaries will receive cereal rations up until June.

It is important to tackle the problem of malnutrition through a balanced approach to its causes. Both DFID and the European Commission Humanitarian Office, are concerned that food aid currently accounts for 90 to 95 per cent. of requested assistance, while poor water and sanitation increases the prevalence of water-born diseases and diarrhoea, which in turn worsens malnutrition. A significant proportion of the population of 22 million have poor quality water and sanitation and only 52 per cent. have access to safe drinking water.

DFID has recently agreed to provide £1.023 million in support of UNICEF's work in water, sanitation and primary health care (e.g. vaccinations and other essential medical supplies).

The European Commission is funding targeted food aid through the WFP and other organisations. In January it agreed to give 5 million Euros. The UK contributed £3,338,000 to this.

**Mr. Bercow:** To ask the Secretary of State for Trade and Industry what discussions she has had with the Government of North Korea about its plans to install *(a)* broadband, *(b)* internet technology and *(c)* mobile phone networks. [157550]

**Mr. Mike O'Brien:** None.

## TRANSPORT

### Air Passengers (Firearms)

**Mr. Hoyle:** To ask the Secretary of State for Transport what rules apply to passengers transporting guns on air journeys *(a)* departing from, *(b)* arriving at and *(c)* passing through British airports. [157607]

**Mr. McNulty** *[holding answer 1 March 2004]:* Passengers must surrender firearms or any dangerous articles before entering the restricted zone (RZ) of the airport and cannot regain possession of them in circumstances which would enable them or others to take them onto an aircraft or undermine the security of the airport. Thus departing passengers must surrender any firearms they wish to transport to airport or airline staff prior to undergoing security screening and entering the RZ. Arriving passengers are handed back firearms upon completion of their journey in the presence of a Customs Official or police officer. Transit and transfer passengers do not regain possession of their weapons in the RZ.

HM Customs and Excise are responsible for the checking of firearms licenses and certificates at the airport.

### Chorley Railway Station

**Mr. Hoyle:** To ask the Secretary of State for Transport how much the Government are contributing towards improving Chorley Railway Station. [157716]

**Mr. McNulty:** Chorley Station is benefiting from £137,000 of grant through the "Rail Passenger Partnership" scheme, administered by the Strategic Rail Authority.

### Heathrow

**Mr. Meacher:** To ask the Secretary of State for Transport how many aircraft movements there were in each period from November to October since 1980 at Heathrow. [157409]

**Dr. Howells:** The available information is as follows:

*Air transport movements (ATMs)* [1] *at Heathrow airport: calendar years 1980 to 2002*

*Thousand*

| | *ATMs* |
|---|---|
| 1980 | 277 |
| 1981 | 250 |
| 1982 | 255 |
| 1983 | 265 |
| 1984 | 278 |
| 1985 | 288 |
| 1986 | 294 |
| 1987 | 308 |
| 1988 | 330 |
| 1989 | 347 |
| 1990 | 368 |

*Air transport movements (ATMs)* [1] *at Heathrow airport: calendar years 1980 to 2002*

| | *Thousand* |
|---|---|
| | *ATMs* |
| 1991 | 362 |
| 1992 | 388 |
| 1993 | 396 |
| 1994 | 409 |
| 1995 | 419 |
| 1996 | 427 |
| 1997 | 429 |
| 1998 | 441 |
| 1999 | 449 |
| 2000 | 460 |
| 2001 | 458 |
| 2002 | 460 |
| 2003[2] | 420 |

[1] All scheduled movements (whether loaded or empty) and loaded charter movements, but excluding empty positioning flights by scheduled aircraft, and empty charter movements.
[2] January to November 2003.

Civil Aviation Authority.

### Local Government Finance

**Jim Knight:** To ask the Secretary of State for Transport what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156204]

**Mr. McNulty:** I refer the hon. Member to the answer given by my right. hon. Friend the Minister for Local Government and the Regions (Mr. Raynsford) on 1 March 2004, *Official Report*, column 750W.

### Lorry Road User Charge

**Mr. Damian Green:** To ask the Secretary of State for Transport what representations he has received on the net cost to hauliers of the introduction of the Lorry Road User Charge; and if he will make a statement. [157040]

**Mr. Jamieson:** The Government have established a Lorry Road User Charge sub-group of the Road Haulage Forum, through which it conducts a dialogue with representatives of the haulage industry on a wide range of issues relating to the development and introduction of a charging scheme.

The Government have made clear their intention that the Lorry Road User Charge will be broadly revenue neutral for the UK haulage industry. That position has not changed. The extra revenue raised through the charge will be offset by reductions in fuel duty.

### M1

**Mr. Tony Clarke:** To ask the Secretary of State for Transport what further developments are planned to improve the *(a)* safety and *(b)* capacity of (i) junctions and (ii) carriageways on the M1 between junctions 15 and 16 to cope with the increase in traffic use arising from the Milton Keynes/Northampton sustainable communities plan. [157441]

**Mr. Jamieson:** We have no current plans for major improvements to this section of the M1. Following publication of the draft Milton Keynes and South Midlands (MKSM) Sub-Regional Strategy, the Highways Agency, together with the three affected Regional Assemblies, looked at the strategic transport impacts of the growth proposals on the highway network. Their report has been put in the Library for the public examination of the MKSM Sub-Regional Strategy which begins on 23 March 2004. We will respond to the findings of the public examination in due course.

**Mr. Greg Knight:** To ask the Secretary of State for Transport for what reasons carriageway closures are in place between junction 1 and junction 2 of the M1 motorway; when this stretch of motorway was last subject to carriageway closures; and for what reasons these works and those previously undertaken were not carried out at the same time. [157924]

**Dr. Howells:** The M1 between junctions 1 and 2 is currently being resurfaced because the road surface is coming to the end of its useful life and needs to be replaced. The opportunity is also being taken to carry out other major repairs to the infrastructure along this stretch of the motorway.

This section was last subject to significant carriageway closures at the end of 2001 for essential repairs to lighting columns and for advance drainage works in preparation for the current resurfacing scheme. A period of time was needed on this project between drainage works and resurfacing to allow the ground to dry out and settle.

### M6

**Mr. Hoyle:** To ask the Secretary of State for Transport if he will make a statement on the purpose of the planned four-lane M6. [157717]

**Mr. Jamieson:** The West Midlands to North West Multi-Modal Study produced a long-term strategy for the M6 corridor aimed at improving road, rail and other public transport links within the corridor over the next 20 to 30 years. The study clearly demonstrated that some road widening is a necessary component of a strategy aimed at tackling congestion on the M6 motorway. The Secretary of State confirmed his support for the study's recommendation, including widening the motorway from dual 3 to dual 4 lanes between junctions 11a and 19, in his announcement of December 2002.

### Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Transport how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156149]

**Mr. McNulty:** The Secretary of State has made speeches on a range of transport issues, many of which are available on the departmental website at www.dft.gov.uk.

### PowerShift Project

**Mr. Greg Knight:** To ask the Secretary of State for Transport what assessment he has made of the effectiveness of the PowerShift project; and if he will make a statement. [157925]

**Dr. Howells:** The PowerShift programme, which provides grants to encourage the purchase of low emission vehicles, has had its most successful year to date in 2003–04, with all the funding being fully committed. It is estimated that the programme will support the purchase/conversion of 4,200 vehicles in 2003–04 compared with a total of 2,139 in 2002–03 (figures from the Energy Saving Trust).

**Mr. Greg Knight:** To ask the Secretary of State for Transport what the status of the PowerShift project is; how many new applications have been processed this year; how many new applications are being dealt with; and if he will make a statement. [157926]

**Dr. Howells:** The PowerShift programme will begin accepting applications for 2004–05 shortly. The Energy Saving Trust expects to process applications for 4,200 vehicles in 2003–04. We expect applications to continue at a high level next year.

### Road Transport Directive

**Mr. Damian Green:** To ask the Secretary of State for Transport when he plans to publish the draft regulations implementing the Road Transport Directive. [158225]

**Mr. Jamieson:** We expect to publish the draft regulations implementing the Road Transport Directive by the end of May. My officials are currently analysing responses from our consultation exercise and the results of this will be published shortly.

### Speed Cameras

**Mrs. Iris Robinson:** To ask the Secretary of State for Transport how many challenges there have been to speed camera fines in the last 12 months. [148941]

**Mr. Jamieson:** I am advised by my right hon. Friend the Home Secretary that information is not held centrally on the number of people prosecuted for speeding offences who elect to challenge a fixed penalty notice.

**Mr. Baron:** To ask the Secretary of State for Transport what the costs were of *(a)* purchasing and *(b)* operating speed cameras in Essex in each of the last six (i) financial and (ii) calendar years for which figures are available. [152476]

**Mr. Jamieson** *[holding answer 3 February 2004]*: We do not hold information centrally on the costs of local and police authorities' camera operations prior to the establishment of the Safety Camera Programme in April 2000. The information on the costs of the Essex Partnership for 2000–01 and 2001–02, which is compiled by financial year, is in the following table. Capital expenditure includes the purchase of camera equipment. Revenue expenditure covers the cost of administration of the prosecution process by conditional offer fixed penalty.

£

| | *2000–01* | *2001–02* |
|---|---|---|
| *Essex* | | |
| Capital | 612,027 | 1,036,298 |
| Revenue | 1,234,453 | 2,967,465 |
| Total | 1,846,480 | 3,003,763 |

The figures for 2002–03 will be contained in the report of the third year of the safety camera cost recovery scheme, which is to be published shortly. The results of the two-year trial of the programme demonstrate that safety cameras, covering sites with known problems of speed-related accidents, reduce collisions and road injuries. The third-year report will update the data on the road safety benefits of safety cameras.

**Mr. Evans:** To ask the Secretary of State for Transport if he will take steps to remove speed cameras from non-hazardous sections of road. [156503]

**Mr. Jamieson:** The rules of the Safety Camera Programme require Partnerships to place cameras at sites or on routes with a history of speed related accidents, to review their sites regularly and to adjust enforcement strategies accordingly.

## CABINET OFFICE

### Ministerial Travel

**Mr. Heald:** To ask the Minister for the Cabinet Office if he will list the Ministers who have travelled to Big Conversation meetings in their ministerial cars. [158124]

**Mr. Alexander:** I refer the honourable Gentleman to the answer provided by my right hon. Friend the Prime Minister on 4 December 2003, *Official Report*, column 113W. Guidance on the use of official cars is set out in "Travel by Ministers". Detailed information relating to the use of cars by individual Ministers is not held centrally.

### Civil Service Bill

**Mr. Heald:** To ask the Minister for the Cabinet Office what steps are being taken to introduce a Civil Service Bill in this session of Parliament. [158122]

**Mr. Alexander:** I refer the hon. Gentleman to my statement of 21 January 2004, *Official Report*, columns 1341–49.

### Departmental Buildings

**Mr. Heald:** To ask the Minister for the Cabinet Office how many of the buildings for which his Office has responsibility are vacant. [158047]

**Mr. Alexander:** The Cabinet Office is responsible for one office building that is currently vacant, and for which the lease expires in December 2004. There is one small residential property on the Centre for Management and Policy Studies' Sunningdale Park site that is also currently vacant.

### Local Government Finance

**Jim Knight:** To ask the Minister for the Cabinet Office what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156202]

**Mr. Alexander:** I refer the hon. Member to the answer given by my right hon. Friend the member for Greenwich and Woolwich (Mr. Raynsford) on 1 March 2004, *Official Report* column 750W.

### Online Services

**Mr. Heald:** To ask the Minister for the Cabinet Office which Government services are available online. [158046]

**Mr. Alexander:** Departments report quarterly to the Office of the e-Envoy (OeE) on the progress made towards getting their services available online. Details of the services that are currently available online are published on the OeE website. The URL for the most recently published data is: http://www.e-envoy.gov.uk/assetRoot/04/00/62/72/04006272.rtf

### Public Appointments

**Mr. Heald:** To ask the Minister for the Cabinet Office how many appointments to public bodies were of people with party political affiliations in each of the last three years; and what those appointments were. [158121]

**Mr. Alexander:** Details of the number of appointments and re-appointments to public bodies of people who have declared political activity are published in the Commissioner for Public Appointments Annual Report. Summary details for the last three years are:

| | *Conservative* | *Labour* | *Liberal Democrats* | *Other*[1] | *Total* |
|---|---|---|---|---|---|
| *2000-01* | | | | | |
| Number | 150 | 452 | 79 | 55 | 736 |
| Percentage | 3.9 | 11.7 | 2.0 | 1.4 | 19.0 |
| *2001-02* | | | | | |
| Number | 94 | 502 | 87 | 44 | 727 |
| Percentage | 2.7 | 14.3 | 2.5 | 1.3 | 20.7 |
| *2002-03* | | | | | |
| Number | 111 | 407 | 74 | 55 | 647 |
| Percentage | 3.2 | 11.7 | 2.1 | 1.6 | 18.6 |

[1] Other includes Plaid Cymru, Scottish National Party, Northern Ireland political parties, Green Party, independents etc.

The term political activity encompasses activity, undertaken on behalf of a political party or candidate, that is already in the public domain. Examples include standing for political office, acting as a political agent or canvassing on behalf of a political party. Information on political affiliation is not collected.

Neither political activity (nor political affiliation) is a criterion for appointment, except in a very few number of cases where statute dictates specific representation. Details of an individual's declared political activity is published with the announcement of the appointment by the relevant sponsoring department. This information is not held centrally.

### Special Advisers

**Mr. Heald:** To ask the Minister for the Cabinet Office how many special advisers occupy offices maintained at public expense. [158123]

**Mr. Alexander:** At 1 March, there were 77 special advisers in post.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Animal Testing

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs how many animals will be tested as a result of the proposed EU REACH legislation on chemicals; and if she will set out the basis for her estimate. [155857]

**Alun Michael:** The EU proposal on REACH requires information to be gathered on chemicals in order to provide the basis for protecting human health and the environment. This information may come from a number of sources, one of which is animal testing. The Commission has estimated that this draft Regulation will require data to be gathered on approximately 30,000 chemicals. Of these, 20,000 are thought to be produced or imported in quantities of less than 10 tonnes. At this tonnage the current Commission proposal requires 25 animals per chemical. It should be remembered that in most cases the tests are expected to demonstrate that the chemical concerned is safe and therefore involves no threat to humans or animals.

The Commission proposal would require further data as tonnage increases to reflect the greater potential human and environmental exposure. Under a worst case scenario, over 1,500 animals may be needed per chemical for those produced at over 1,000 tonnes (estimated from the testing requirements of the Regulation and OECD guidelines). The tests performed need to comply with the relevant requirements for the protection of laboratory animals set out in Directive 86/609/EEC where, among other things, methods used must be refined in such a way as to minimise the amount of suffering caused to the animals concerned. Further, the chemical industry already has some of this data and there are other sources of information such as modelling of data and grouping of chemicals to read-across data from one chemical to another, all of which will reduce the amount of new testing that will be required. If recent experience from a major testing programme in the USA were to be duplicated in Europe, the number of new animal tests that will need to be undertaken will be significantly lower than the number given above.

It is an overall objective, for the UK Government, in negotiating this Regulation, to ensure that animal testing is kept to the minimum necessary to protect human health and the environment. One of the ways we aim to do this is by applying an intelligent approach to testing.

### Agriculture and Fisheries Council

**Mr. Salmond:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made with the renegotiation of the December Fisheries Council; and whether the issue of the impact of force majeure on days at sea has been addressed. [157068]

**Mr. Bradshaw** *[holding answer 27 February 2004]:* The Government has been pressing the European Commission to bring forward urgently amendments to the haddock permit scheme agreed at the December Fisheries Council. We expect to receive a proposal from the Commission for such changes in the next few days. We have also pressed the Commission to add a force

majeure provision to the measure for limiting fishing effort. We understand that the Commission are sympathetic to inserting such a provision into the legislation.

### Animal By-Products Regulations

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 February 2004, *Official Report*, column 1558W, on Animal By-products Regulations, what assessment has been made of whether adequate protection from rodents and birds might be achieved using suitable netting instead of solid walls in intermediate reception centres. [156614]

**Mr. Bradshaw:** One of the requirements of the Regulation is that Intermediate Plants must have appropriate arrangements for protection against pests such as insects, rodents and birds. While netting may offer adequate protection against birds, it is not clear how it could offer sufficient protection against insects and rodents. However, we are prepared to consider in individual circumstances if an operator can demonstrate that it does offer such protection.

### Animal Welfare

**Mr. Grogan:** To ask the Secretary of State for Environment, Food and Rural Affairs when she will respond to the Farm Animal Welfare Council report of June 2003 on welfare at slaughter; and if she will make a statement. [155936]

**Mr. Bradshaw:** We expect to issue shortly for public consultation our draft response to the Farm Animal Welfare Council's report on the welfare of red meat animals at slaughter or killing. The public consultation exercise will be widely publicised. Allowing time for comments to be considered, we expect to issue the final response document around the middle of the year.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what position her Department is taking in discussions within the European Union on maximum journey times for animals destined for slaughter. [156343]

**Mr. Bradshaw:** At the 24 February Agriculture Council the Secretary of State confirmed the Government's preference for replacing the long distance transport of animals for slaughter with a trade in meat. Until that can be achieved journey times for slaughter animals should be reduced, taking account of animal husbandry and geography.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the levels of antibiotics being fed to animals; and what the figures were 10 years ago. [156874]

**Mr. Bradshaw:** There are no comprehensive figures available on the usage of veterinary antibiotics in the UK. However since 1998 the Veterinary Medicines Directorate (VMD) has published figures on the annual UK sales of all veterinary antimicrobial products from 1993 onwards. These have been published in a series of five reports, the most recent of which, published in November 2003, details reported sales between 1998 and 2002. All of these reports are available on the VMD website (www.vmd.gov.uk) or as hard copy direct from the VMD. It is generally accepted that the pattern of reported sales of veterinary antimicrobials directly relates to the pattern of their usage in the UK.

Due to a change in the methodology VMD used to calculate these figures, reported sales before 1998 are not directly comparable with those after 1998. However taken as a whole these figures provide a baseline of sales of antimicrobials over a 10-year reporting period. They show that over the last 10 years the total reported sales of therapeutic antimicrobials have remained broadly constant (ranging between 392 tonnes and 495 tonnes of active ingredient) except for a peak in 1996 (553 tonnes). Total reported sales in 2002 amounted to 457 tonnes of active ingredient, a slight reduction from 2001 (459 tonnes) and 2000 (462 tonnes).

Reported sales of antimicrobial growth promoters have reduced from their peak of 122 tonnes in 1995 to between 23 tonnes (1999) and 46 tonnes (1998) of active ingredient over the last five years. (It is known that there are some missing data for some years so changes may not be as significant as they appear.) This reduction probably partly reflects a reduction since 1999 in the number of active ingredients authorised for use as antimicrobial growth promoters. Reported sales in 2002 amounted to 27 tonnes, compared to 43 tonnes in 2001.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* primary and *(b)* secondary legislation prohibits (i) a farmer and (ii) any other person from (A) purchasing, (B) transporting, (C) owning and (D) being legally responsible for the welfare of farm animals in circumstances where they have previous convictions for mistreating farm animals; and if she will make a statement. [157101]

**Mr. Bradshaw:** Section 3 of the Protection of Animals Act 1911 allows a court to disqualify a person convicted of causing unnecessary suffering to an animal from having custody of any animal for such a period as it thinks fit. This can mean a lifetime ban from keeping animals. This legislation applies equally to farmers and other persons responsible for looking after animals.

Article 9 and Schedule 12 of The Welfare of Animals (Transport) Order 1997, as amended, set down the conditions under which authorisations may be granted for the transport of animals. In considering whether an applicant is a fit person to hold an authorisation the Minister may have regard to any relevant circumstances, including any offences involving animal welfare.

We are considering a new system of three tiers of offences under the proposed Animal Welfare Bill. The most serious offence would refer to those involved in the fighting of animals, the second would maintain the current offence of cruelty, whilst the third would impose a statutory duty to promote the welfare of animals kept by man. In addition, we intend to increase the effectiveness of the courts' power to disqualify.

## Livestock Movements

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will lift the six-day rule which applies to auction marts and slaughterhouses. [156883]

**Mr. Bradshaw:** Livestock moving to auction markets and slaughterhouses do not trigger a six-day standstill on arrival.

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs how many calves have been refused passports because they have not been registered within 27 days in each of the last three years. [156043]

**Alun Michael:** The number of passports refused over the last three years because of late registration has been:

| | *Total passport applications received* | *Passports initially refused as late* | *Passports issued after appeal* | *Net passports refused* |
|---|---|---|---|---|
| 2001 | 2,998,238 | 2,035 | 775 | 1,260 |
| 2002 | 2,885,188 | 1,011 | 646 | 365 |
| 2003 | 2,952,404 | 3,982 | 570 | 3,412 |

## Cetaceans

**Andrew Mackinlay:** To ask the Secretary of State for Environment, Food and Rural Affairs what projections she has made of the future population of *(a)* dolphins and *(b)* porpoises within (i) British waters and (ii) European Union waters; and if she will make a statement. [156213]

**Mr. Bradshaw:** The Secretary of State has made no projections to date on the future populations of dolphins and porpoises in British and European Union waters.

However, the Government is supporting new survey work to be undertaken in 2004–05 by a consortium of international researchers, co-ordinated by the Sea Mammal Research Unit, on the distribution and abundance of small cetaceans—particularly harbour porpoises (Phocoena phocoena), bottlenose dolphins (Tursiops truncatus) and common dolphins (Delphinus delphis)—in the shelf waters of the Atlantic margin, the North Sea and adjacent waters. This work will include the development of methods of monitoring abundance and identifying population trends between major decadal surveys, and recommendations for monitoring protocols by individual species and areas.

International funding is being sought in support of this work and the UK has pledged £275,000 towards it.

**Andrew Mackinlay:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the *(a)* dolphin and *(b)* porpoise populations within (i) British waters and (ii) European Union waters; what the estimate was for these species 20 years ago; and if she will make a statement. [156214]

**Mr. Bradshaw:** Obtaining population estimates for cetaceans is difficult. There is a wide margin of error around most abundance estimates and the geographical limits of most biological populations of dolphin species are not known.

To date, major surveys of cetacean distribution or abundance have not been carried out at regular intervals. The following table gives figures from the 2002 report of the Advisory Committee on Ecosystems of the International Council for the Exploration of the Sea (ICES) illustrating the latest information on the populations and abundance of small cetaceans occurring in UK waters. The populations are given in terms of ICES areas or geographical locality. A map showing the ICES areas has been placed in the Libraries of the House.

A consortium of international researchers, co-ordinated by the Sea Mammal Research Unit, is planning to carry out a survey of the distribution and abundance of small cetaceans—particularly harbour porpoises (Phocoena phocoena), bottlenose dolphins (Tursiops truncatus) and common dolphins (Delphinus delphis)—in 2004–05. The survey area is intended to cover the shelf waters of the Atlantic margin, the North Sea and adjacent waters. International funding is being sought in support of this work and the UK has already pledged £275,000 towards it.

Reliable estimates for dolphin abundance in British and European Union waters in 1984 are not available.

## Country Code

**Mr. Peter Atkinson:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department is making on its revision of the Country Code; and whether the revised code will require dogs to be kept on a short fixed lead *(a)* near livestock and *(b)* during the bird breeding season on land to which the statutory rights of access to open country under the Countryside and Rights of Way Act 2000 applies. [156767]

**Alun Michael:** The duty to issue a code of conduct for the guidance of persons visiting the countryside lies statutorily with the Countryside Agency. The agency has been consulting widely on proposals for updating the code, which was last revised in 1981. The agency aims to publish a new code in the summer, which will include general guidance on legal responsibilities regarding dogs. The code will not introduce any new responsibilities.

The Countryside and Rights of Way Act 2000 itself requires people exercising the new right of access to keep dogs on short leads when in the vicinity of livestock, and on all access land between 1 March and 31 July. The Act also provides for local restrictions on dogs, including bans, where necessary, and allows landowners to exclude dogs for up to six weeks in any one year from fields or enclosures where lambing is taking place and for up to five years from land managed for the breeding and shooting of grouse.

The Countryside Agency has been seeking views on meeting its obligations under the Countryside and Rights of Way Act 2000 to provide guidance for people using the new right of access and for people with an interest in land to which the new right applies. Information about the statutory requirements relating to dogs will be included in communications with the public when the new right of access is introduced.

## Horses and Ponies

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many equines were slaughtered for human consumption in England in each year since 2000, broken down by type; [156566]

(2) how many tonnes of horsemeat were *(a)* produced in England and *(b)* exported from England in each year since 2000; [156567]

(3) how many tonnes of horsemeat were imported into the UK in each year since 2000; [156568]

(4) how many horses were exported from the UK to the EU in each year since 2000; [156569]

(5) how many horses, intended for slaughter, were exported from the UK to the EU in each year since 2000; and how many horses were exported to countries outside the EU; [156659]

(6) how many horses that were not intended for human consumption were slaughtered in the UK in each year since 2000. [156660]

**Alun Michael:** The information requested is given in the following table:

*UK production and trade in horses and horsemeat 2000–03*

| | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|
| *Equines slaughtered (units—England)* | 9,112 | 10,479 | 8,284 | 6,727 |

*Source*:
H M Customs and Excise
Data prepared by Statistics (Commodities & Food) Consultancy Trade and IT, ESD, DEFRA
2003 EU data is provisional and subject to amendment

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) which EU Directive or Regulation requires horse traceability for disease surveillance purposes; [156655]

(2) what recent discussions she has had with the EU about disease surveillance in horses. [156656]

**Alun Michael:** There is currently no requirement in European legislation for a horse traceability system for disease surveillance purposes, but both the Government and the horse industry consider that there is a need for a national equine database. Defra is therefore working with the industry to set up such a database that will help to implement the horse passports requirements, and underpin economic and animal health and welfare strategies for the horse and its role within the rural economy.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to the Department of implementing the minimum values legislation was in each of the last three years. [156663]

**Alun Michael:** The cost to the Department of horse and pony export licensing (commonly referred to as the minimum values legislation) in England during the last three financial years was:

£

| | *Amount* |
|---|---|
| 2000–01 | 41,643 |
| 2001–02 | 39,705 |
| 2002–03 | 43,374 |

### Illegal Imports

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for the establishment of a single agency to address legal and illegal imports of food. [155392]

**Mr. Bradshaw:** In its response to the Reports of the Foot and Mouth Disease inquiries in November 2002, the Government said that there was a case for a single agency to oversee all aspects of the management of the legal trade in imported foodstuffs, but that we would first aim to secure a step change in the co-ordination and delivery of local authority inspection of imported foodstuffs and products of animal origin within one year. We will review the first year's program with the step change project, which has been co-ordinated by the Food Standards Agency and in the light of that consider the case for an agency later in the Spring.

Responsibility for anti-smuggling checks on illegal imports of food was transferred to HM Customs and Excise in April 2003. The Government have no plans for changes in those responsibilities.

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effectiveness of local authorities in the detection of illegal meat imports that have evaded customs and border inspections. [155394]

**Mr. Bradshaw:** Local authorities have made and continue to make seizures of products of animal origin inland. Central records do not differentiate between legitimate imports which now fail to meet relevant regulations, shipments that have entered the EU through other member states and any that may have evaded customs and border inspections in the UK.

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs when she will report to Parliament on the progress of the illegal meat strategy. [155391]

**Mr. Bradshaw:** Progress against the Government's Action plan on illegal imports in 2002–03 is reported in the Annual Review of controls on imports of Animal Products. Copies have been placed in House Libraries.

The 2003–04 Action Plan is appended to the Review, and we are working with HM Customs and other responsible parties to implement it. Progress will be reported in the second annual report which will be published in early Summer.

### Illegal Meat Imports

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the sufficiency of resources allocated to HM Customs and Excise to address illegal meat imports and of how they compare with those of its equivalent in other European countries. [155847]

**Mr. Bradshaw:** We have almost doubled the amount of funding available to HMCE in 04/05 to put more resources into addressing illegal imports of meat, fish, plants, and their products. We do not have details of what resources other EU countries have in place but know that the UK is viewed as being more advanced in this area.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what role her Department has played in tackling the import of illegal meat. [156488]

**Mr. Bradshaw:** The Department for Environment, Food and Rural Affairs is responsible for policy issues relating to imports of products of animal origin and plant and plant products.

HM Customs and Excise are responsible for enforcement at points of entry to the UK and local authorities are responsible for enforcement inland.

We continue to liaise closely with HM Customs and Excise and the Food Standards Agency to ensure a coherent approach in tackling illegal imports.

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the Ad Hoc Ministerial Group 23 will consult organisations outside Government when undertaking the review of Step Change; [155396]

(2) if she will ask Ad Hoc Ministerial Group 23 to broaden the scope of the review into Step Change to include a review into the effectiveness of the Government's illegal meat strategy; [155397]

(3) when Ad Hoc Ministerial Group 23 has met; and if she will publish the minutes and agenda; [155398]

(4) if she will list the members of Ad Hoc Ministerial Group 23; and what its remit is. [155399]

**Mr. Bradshaw:** The Ministerial Committee on Illegal Imports (Misc 23) was established by the Prime Minister in July 2003 to co-ordinate policy on imports of animals, plants, fish and their products. It is composed of the following members:

Secretary of State for Environment, Food and Rural Affairs (Chair)

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster

Economic Secretary

Minister of State, Home Office (Beverley Hughes)

Minister of State, Department for Transport

Parliamentary Under Secretary of State, Department for Environment, Food and Rural Affairs (Lord Whitty)

Parliamentary Under Secretary of State, Department of Health (Melanie Johnson)

Parliamentary Under Secretary of State, Department for Culture, Media and Sport (Lord McIntosh)

Office of the Deputy Prime Minister (Phil Hope)

The Chairman of the Food Standards Agency is invited to attend.

It has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

### Knackeries/Hunt Kennels

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many knackeries were licensed in the UK in each year since 2000; [156661]

(2) how many hunt kennels were licensed in the UK in each year since 2000. [156662]

**Mr. Bradshaw:** Prior to the Animal By-Products Regulations 2003, which came into force on 1 July 2003, Knackers' Yards required approval under the Animal By-Products Order 1999. Hunt Kennels required registration under the Order.

In June 2003, before the Animal By-Products Order was revoked, there were 73 approved Knackers' Yards and 293 registered Hunt Kennels. We do not have a breakdown of how many were approved in each year.

### Motor Cycling

**Mr. David:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being taken to prevent unauthorised off-road motor cycling. [158090]

**Alun Michael:** The Forestry Commission and Countryside Council for Wales are jointly organising the Wales Off-road Motorcycle Conference to take place on 6 May. The Conference will consider how best to curtail unlawful off-road motorcycling and how to develop, as an alternative, facilities for motorcycling as a managed outdoor recreational activity.

In addition, the Government have published a consultation paper setting out its proposals for tackling the problems that can arise through the use of motorcycles and other mechanically propelled vehicles on public rights of way.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many parliamentary questions have been tabled to her Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what precentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157516]

**Alun Michael:** Records for Session 2002–03 were not maintained in such a way to enable the Department to extract the information requested without incurring disproportionate costs.

However, according to our records Defra received a total of 5,444 parliamentary questions broken down as follows:

(a) 3,836 were ordinary written;

(b) 851 were named day.

To date, in the current parliamentary session we have received a total of 1,784 parliamentary questions, broken down as follows:

(a) 1,104 were ordinary written, of which 923 were answered within 10 working days which equates to 83.6 per cent;

(b) 190 were named day and 42 were answered on the specified date which equates to 22.1 per cent.

Defra endeavours to reply to all parliamentary questions within parliamentary deadlines wherever possible.

### Peat

**Mr. Kidney:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps her Department is taking *(a)* to collect and *(b)* to publish data for the regular two-yearly monitoring of the use of peat and peat alternatives; [157173]

(2) what steps her Department is taking to meet the Biodiversity Action Plan targets for the replacement of peat in the horticulture industry. [157174]

**Mr. Bradshaw:** The latest information on monitoring of peat and alternative products for growing media and soil improvers in the UK was published by the Office of the Deputy Prime Minister in 2003. The Department now has responsibility for this issue. We are considering arrangements for a further monitoring exercise later this year with a view to publishing the data in 2005.

In the meantime we have commissioned ADAS to produce a report which will provide details of the current use of peat and growing media alternatives in the commercial horticulture sector in England.

The Waste Resources Action Programme (WRAP) is carrying out research into the use of recycled and compost materials in the production of growing media. The research includes a programme of demonstration growing trials across the UK, covering a range of plant types, growing regimes and commercial situations. The growing trials involve trials of peat-free and reduced peat formulations against a standard peat based formulation. It is expected that the results from the research will be published in April this year.

## Pollution

**Simon Hughes:** To ask the Secretary of State for Environment, Food and Rural Affairs what the concentration was of *(a)* nitrogen dioxide, *(b)* sulphur dioxide and *(c)* benzene in each (i) London borough and (ii) London ward in each of the last five years. [156666]

**Alun Michael:** The United Kingdom Automatic Urban and Rural Air Quality Monitoring Network currently has 22 sites in the Greater London area. Annual mean concentrations of each pollutant for each year between 1999 and 2003 for the London boroughs and London wards are given in tables 1, 2 and 3, for nitrogen dioxide, sulphur dioxide and benzene, respectively.

There are a total of 33 boroughs and 785 wards (1991 ward data) in London. For nitrogen dioxide there are currently 16 London boroughs and 19 London wards that have monitoring in the national network. For sulphur dioxide there are currently 10 London boroughs and 13 London wards that have monitoring in the national network. For benzene there are currently four London boroughs and four London wards that have monitoring in the national network. Data from different sites are not necessarily directly comparable due to the different locations of the sites, for example, kerbside, roadside, background and suburban. The data for all the sites within the United Kingdom Automatic Urban and Rural Air Quality Monitoring Network are available from the National Air Quality Information Archive (www.airquality.co.uk).

In addition, a number of London boroughs carry out independent monitoring which is within the London Air Quality Network. Thirty-one boroughs have nitrogen dioxide monitoring, 26 boroughs have sulphur dioxide monitoring and one borough monitors benzene.

*Table 1: Annual mean nitrogen dioxide concentrations at each site in the Automatic Urban and Rural Air Quality Monitoring Network in Greater London in 1999–2003*

[1] Pumped tube data are collected using a non-automatic technique.

### Fisheries

**Geraldine Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to regulate public fisheries. [156859]

**Mr Bradshaw** *[holding answer 27 February 2004]:* Fisheries are managed on at a European level under the Common Fisheries Policy, nationally under UK legislation, and within six miles by Sea Fisheries Committees or the Environment Agency.

There are two major reviews being carried out which could impact on the management of public fisheries; the Prime Minister's Strategy Unit's Review of the UK Fishing Industry and the Defra Review of Marine Fisheries and Environmental Enforcement which is looking specifically at the organisation of enforcement. These Reviews are due to report in the near future and it is possible that their recommendations will lead to changes in current regulations.

### Publicity Campaigns

**Malcolm Bruce:** To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* her Department and *(b)* each agency and non-departmental public body sponsored by her Department spent on (i) advertising and (ii) information campaigns in each year since its creation; what her estimate is for 2003–04; and if she will make a statement. [149723]

**Alun Michael:** The Department does not maintain separate records of its expenditure for advertising and information campaigns. The expenditure for publicity by Defra's Communications Directorate, includes marketing, advertising, publications, events, shows and direct mailings, and is recorded for the financial years since Defra's creation in June 2001 as follows.

| | £ million |
|---|---|
| 2001–02 | 6.6 |
| 2002–03 | 4.7 |
| 2003–04 | [1]3.7 |

[1] estimate

This includes communications on a wide range of matters, much of it necessary or beneficial to the public and the wide range of industries in which Defra has an interest, together with local government, voluntary organisations and other bodies.

Information relating to agencies and non-departmental bodies sponsored by the Department is not held centrally and could be gathered only at disproportionate cost.

### Recruitment Advertising

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department has spent on recruitment advertising in each year since 1997. [156453]

**Alun Michael:** As Defra was created in June 2001; information prior to this date is unavailable.

Given the current structure of the Human Resources function within the Department the information requested is available only at disproportionate cost.

### Rural Payments Agency

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will instruct the Rural Payments Agency to change its policy on accepting an initialled alteration of a figure on a subsidy claim. [156045]

**Alun Michael:** Following legal advice, the Rural Payments Agency has reviewed its procedures on accepting alterations on subsidy claims. It will no longer accept initialled alterations.

With effect from the 2004 scheme year IACS applicants are being advised that amendments must be crossed through, the correct information entered and the change signed and dated. Correction fluid is not to be used.

## DEFENCE

### Armed Forces (Irish Citizens)

**Mr. Swire:** To ask the Secretary of State for Defence how many citizens of the Republic of Ireland are serving in Her Majesty's armed forces. [155649]

**Mr. Ingram:** There are currently 65 Naval Service personnel and 200 Army personnel with a Republic of Ireland nationality shown on their Record of Service.

Insufficient data are available to produce reliable estimates for the RAF.

### Army Strength

**Mr. Keetch:** To ask the Secretary of State for Defence if he will list the *(a)* establishment and *(b)* strength of all ranks above major in the Army; and if he will make a statement. [154489]

**Mr. Caplin:** As at January 2003, the liability for officers over the rank of Major in the Army is:

| | *Number* |
|---|---|
| Lt. Col. | 1,579 |
| Col. | 546 |
| Brig. | 175 |
| Maj. Gen. | 27 |
| Lt. Gen. | 5 |
| Gen. | 2 |

The information requested on strengths of all ranks over Major in the Army is contained in Tri-Service Publication 9, a copy of which is in the Library of the House.

**Mr. Keetch:** To ask the Secretary of State for Defence for what reasons units are receiving lists of names for manning control review. [154490]

**Mr. Caplin:** The nomination of personnel for manning control action is a unit responsibility. Before January 2001 lists of individuals approaching Manning Control Points were regularly issued to Commanding Officers by the Infantry Manning and Career Management Division. In January 2001 this practice ceased. However, it subsequently proved that the information needed could not easily be taken from the relevant local computer systems. Following requests from individual units divisional lists were therefore resumed in January 2004. Commanding Officers are not required to take any action unless they believe that an individual should be subject to manning control.

### Colombia

**Jeremy Corbyn:** To ask the Secretary of State for Defence how many UK military personnel are deployed in Colombia; and how many Colombian military personnel are being trained in the UK. [157712]

**Mr. Ingram:** On the subject of the number of United Kingdom military personnel deployed in Colombia, I refer my hon. Friend to the answer I gave him on 11 June 2003, *Official Report*, column 910W.

One Colombian military officer is currently attending the Advanced Command and Staff Course at the Joint Services Command and Staff College, Shrivenham.

### Kenya

**Tom Cox:** To ask the Secretary of State for Defence how many British military exercises have taken place in Kenya in each of the last five years, broken down by *(a)* number of troops involved and *(b)* length of exercise. [158035]

**Mr. Ingram:** The details of British military exercises that have taken place in Kenya over the last five years; broken down by the number of participating troops and length of the exercise are shown in the following table:

*Army*

| | *Exercise* | | | | | |
|---|---|---|---|---|---|---|
| | *Grand Prix*[1] | *Mono Prix*[2] | *Sharp Point*[3] | *Pineapple*[4] | *Oakapple*[5] | *Crabapple*[6] |
| 1999 | 3 | 1 | 1 | 1 | 1 | 1 |
| 2000 | 3 | 1 | 1 | 1 | 1 | 1 |
| 2001 | 3 | 1 | 1 | 1 | 1 | 1 |
| 2002 | 2 | 1 | 1 | 1 | 1 | 1 |
| 2003 | 2 | 0 | 0 | 1 | 0 | 1 |
| Total number of exercises | 13 | 4 | 4 | 5 | 4 | 5 |
| Duration of each exercise (weeks) | 6 | 6 | 6 | 6 | 6 | 6 |
| Approximate number of personnel involved in each | 700 | 140 | 140 | 120 | 140 | 45 |

[1] A battalion exercise
[2] A company exercise
[3] A squadron level primary healthcare exercise
[4] A squadron level explosive ordnance clearance exercise
[5] A squadron level engineer construction exercise
[6] A troop level engineer construction exercise

### Missile Defence Centre

**Mr. Keetch:** To ask the Secretary of State for Defence what expenses are expected to be met from the Government's investment in the Missile Defence Centre; what expenses will be met by industry; how much investment is expected from industry; what outputs are expected from the centre; and if he will make a statement. [154902]

**Mr. Hoon:** The expenses incurred by the Missile Defence Centre (MDC) fall into the broad categories of running costs for the Centre itself and funding for specific technical work carried out in support of its objectives. In the period from the MDC's opening last July to the end of financial year 2003–04 the Ministry of Defence expects to contribute some £5.5 million, while the estimated contribution by industry will be some £2 million.

The outputs expected from the MDC in 2003–04 include: advice on missile defence issues; the development of models and databases to facilitate the formulation and evaluation of concepts for defending the United Kingdom against the ballistic missile threat; and the construction and testing of hardware elements of potential use to the United States Ballistic Missile Defence (BMD) programme. These outputs are intended to inform national BMD policy, establish a leading role for the UK in missile defence, and secure significant participation by UK industry in the US BMD programme.

### North Korea

**Mr. Bercow:** To ask the Secretary of State for Defence (1) what estimate he has made of the number of ballistic missiles *(a)* owned and *(b)* exported by North Korea; [157549]

(2) what assessment he has made of the biological weapons capacity of North Korea; [157548]

(3) what estimate he has made of the numerical strength of the special forces of North Korea; [157547]

(4) what assessment he has made of the *(a)* artillery and *(b)* missile launcher capacity of North Korea. [157546]

**Mr. Hoon:** Our assessment of North Korea's ballistic missile threat was published in December 2002 in the public discussion paper on Missile Defence, a copy of which is held in the Library of the House. The paper is also on the Ministry of Defence website www.mod.uk. North Korea has some hundreds of SCUD short-range ballistic missiles and NO DONG medium-range ballistic missiles in service. It is estimated that North Korea has also exported at least 400 ballistic missiles.

North Korea is a State Party to the Biological and Toxin Weapons Convention. North Korea has the infrastructure to support the development of chemical and biological weapons and we remain very concerned by persistent reports that it is pursuing programmes to develop WMD.

The North Korean Special Operations Forces totals nearly 90,000 personnel of whom roughly 40,000 are deployable combat personnel; the rest are support staff.

We estimate that the North Korean army has around 30,000 artillery pieces. North Korea possesses many thousands of launcher systems for its artillery and ballistic, air defence and coastal defence missiles.

The International Institute for Strategic Studies' annual publication 'The Military Balance' gives details of military forces and capabilities.

### Queen's Lancashire Regiment

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the future role of the Queen's Lancashire Regiment. [158263]

**Mr. Ingram:** The Queen's Lancashire Regiment is a mechanised battalion currently with 19 Mechanised Brigade in Catterick. They are due to be posted to Cyprus this month, with responsibility for the security of the Sovereign Base Area and will carry out this duty until March 2006. Additionally, from April 2004 the Battalion will have a reinforcement role in Iraq.

## CULTURE, MEDIA AND SPORT

### Gambling

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment the Government have made of the impact of the proposals in the draft Gambling Bill on consumer debt. [158317]

**Mr. Caborn:** The policy document published with draft clauses in November as Cm 6014 drew attention to the risks of people gambling sums which they could not afford, and to the measures to be included in the Bill to address these risks, which include powers for the Gambling Commission to regulate advertising, credit and inducements, as well as provision for gambling debts to become enforceable. These and other measures are intended to avoid the growth in gambling opportunities from being accompanied by growth in the incidence of problem gambling; but we have made no separate assessment in terms of consumer debt generally.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the proposals outlined in the draft Gambling Bill upon the work of social services departments. [158351]

**Mr. Caborn:** We do not think that the proposals should have any overall impact on the work of social services.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the proposals outlined in the draft Gambling Bill upon the number of casino planning and licensing applications. [158430]

**Mr. Caborn:** We expect there to be an increase, not least because the proposals envisage abolition of the provision in the current law that casinos may be established only in specified permitted areas.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the proposals in the draft Gambling Bill upon *(a)* problem gambling and *(b)* money laundering. [158345]

**Mr. Caborn:** The Regulatory Impact Assessment published in November with draft clauses as Cm 6014 noted that proposals which extended the choice and availability of gambling carried a risk of increasing problems in these areas, but drew attention to the

effective system of licensing and regulation by a new Gambling Commission, with powers and resources not currently available, intended to address this risk.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what research her Department has assessed into the links between use of gaming machines by under 18-year-olds and the prevalence of gambling problems. [158347]

**Mr. Caborn:** We have taken note of the research studies cited in the report of the Gambling Review Body (Cm 5206) and included in the survey of relevant research evidence which formed part of the 2003 report by Professor Collins for the Responsibility in Gambling Trust (a copy of which is available on the Trust's website). A number of these studies relate to gaming machine play by children and young persons.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what plans she has to commission a baseline study on the prevalence of problem gambling in the United Kingdom. [158348]

**Mr. Caborn:** The results from the prevalence study which were published in 2000, and which were taken into account by the Gambling Review Body, provide the most recent baseline. We think that it would be desirable for a further study to be carried out before the provisions of the Bill are brought into effect.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the merits of adopting a harm-indexed approach to forms of gambling. [158353]

**Mr. Caborn:** The draft Gambling Bill reflects the principle that the degree of regulation to be applied to different kinds of gambling activity should reflect the degree of regulatory risk which they involve, those risks being of harm to children and the vulnerable; unfairness to participants; or crime or disorder.

**Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the link between levels of problem gambling and restrictions on the use of gaming machines by under 18s in other European countries. [158691]

**Mr. Caborn:** There is little reliable information currently available to support possible hypotheses on this matter.

## Grants (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what grants that fall outside the revenue support grant were made available to *(a)* Lancashire and *(b)* Chorley from her Department in each of the last four financial years. [156509]

**Mr. Caborn:** The information is as follows:

*(a)* The following grants that fall outside the revenue support grant were made available to Lancashire by the Department for Culture, Media and Sport in each of the last four financial years.

Lancashire has received the following grants from Arts Council England in the last four financial years[1].

| *Financial year* | *Number of grants* | *Total amount (£)* |
|---|---|---|
| 2000–01 | 0 | 0 |
| 2001–02 | 4 | 132,000 |
| 2002–03 | 3 | 65,400 |
| 2003–04 | 14 | 35,035 |
| Total | 21 | 232,435 |

English Heritage has offered the following grants to Lancashire in the last four financial years[1]:

| | *Repair grants* | | *Heritage economic regeneration schemes* | |
|---|---|---|---|---|
| *Financial year* | *Number of grants offered* | *Total* | *Number of grants offered* | *Total* |
| 2000–01 | 6 | 302,173 | 5 | 207,850 |
| 2001–02 | 10 | 267,386 | 8 | 527,411 |
| 2002–03 | 5 | 256,793 | 6 | 299,166 |
| 2003–04 | 5 | 93,381 | 7 | 751,166 |
| Total | 26 | 919,733 | 26 | 1,785,593 |

Lancashire has received the following grants from Sport England in the last four financial years[1]:

| *Financial year* | *Number of grants* | *Total amount (£)* |
|---|---|---|
| 2000–01 | 5 | 72,790 |
| 2001–02 | 10 | 153,340 |
| 2002–03 | 9 | 135,600 |
| 2003–04 | 5 | 44,000 |
| Total | 29 | 405,730 |

In 2001–02, Lancashire county council was awarded £178,000 from the DCMS/Wolfson Public Libraries Challenge Fund for reader development activities in the Burnley area.

Bolton Museum and Art Gallery and the Tullie House Museum and Art Gallery, Preston, are partners in the North West regional hub as part of "Renaissance in the Regions" (the national framework for England's museums and galleries). The North West hub received £160,000 in 2003–04 for "Renaissance", with a further £80,000 from the Education Strategy Fund (which delivers education programmes to school-aged children). The total grant to the North West hub for the period 2003–06 will be £1.42 million for "Renaissance" and £580,000 for the Education Strategy Fund.

Lancashire County Museums Service's textile industry collections are Designated (a pre-eminent collection of national or international importance held in a non-national museum) and have been awarded the following grants through the Designation Challenge Fund since it was established in 1999:

2000–01: £32,693—Development of plans for new displays at Whitakers Mill and improvements to storage.

2001–02: £122,210—Refurbishment and development of the "Spinning a Tale" Gallery, which portrays the mechanisation of the textile industry.

2002–04: £66,749—Improve access to the Designated collections held at Helmshore Textile Museums and Queen Street Mill Museum.

In 2003–04, the North West Regional Development Agency received DCMS funding of £713,000 towards implementing their tourism strategy for the region. Lancashire will be among the beneficiaries of this funding.

Lancashire has received the following awards from the National Lottery in the last four financial years[2]:

| Financial year | Number of awards | Total amount (£) |
|---|---|---|
| 2000–01 | 480 | 21,798,686 |
| 2001–02 | 365 | 25,691,632 |
| 2002–03 | 537 | 25,800,444 |
| 2003–04 | 416 | 25,188,943 |
| Total | 1798 | 98,479,705 |

*(b)* The following grants that fall outside the revenue support grant were made available to Chorley by the Department for Culture, Media and Sport in each of the last four financial years.

English Heritage has offered Chorley the following grants in the last four financial years[1]:

| Financial year | Repair grants | | Heritage economic regeneration schemes | |
|---|---|---|---|---|
| | Number | Total (£) | Number | Total |
| 2000–01 | 1 | 7,500 | 0 | 0 |
| 2001–02 | 2 | 20,653 | 0 | 0 |
| 2002–03 | 2 | 74,000 | 0 | 0 |
| 2003–04 | 0 | 0 | 0 | 0 |
| Total | 5 | 102,153 | 0 | 0 |

Chorley has received the following grants from Sport England in the last four financial years[1]:

| Financial year | Number of grants | Total amount (£) |
|---|---|---|
| 2000–01 | 1 | 12,290 |
| 2001–02 | 1 | 12,740 |
| 2002–03 | 0 | — |
| 2003–04 | 0 | — |
| Total | 2 | 25,030 |

In 2003–04, the North West Regional Development Agency received DCMS funding of £713,000 towards implementing their tourism strategy for the region. Chorley will be among the beneficiaries of this funding.

Chorley has received the following awards from the National Lottery in the last four financial years[2]:

| Financial year | Number of awards | Total amount (£) |
|---|---|---|
| 2000–01 | 31 | 169,139 |
| 2001–02 | 42 | 3,087,645 |
| 2002–03 | 74 | 5,150,093 |
| 2003–04 | 47 | 2,352,584 |
| Total | 194 | 10,759,461 |

[1] Excluding Lottery grants.
[2] The data has been derived from the Department's Awards Database and is based on information supplied by the distributing bodies. Full details of each of these projects can be found at: http://wwwlotteryculture.gov.uk/introduction.asp

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what funding and grants are given for theatres in Chorley. [157977]

**Estelle Morris:** This is a matter for Arts Council England. I understand that there is currently no funding going to theatres in Chorley though the grant schemes operated by the Arts Council are open to all applicants who meet the published criteria.

## National Lottery

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her plans to make the distribution of National Lottery funds more responsive to public opinion. [157785]

**Tessa Jowell:** The Government made a commitment in the National Lottery Funding Decision Document to increase the public's involvement in decisions on Lottery spending. The new merged distributor will pioneer new ways to achieve this. In preparation, the Community Fund and the New Opportunities Fund are already beginning to look at new ideas for consulting local people about particular local decisions. Other options on involving the public are being explored, including some of those set out in the decision document. Lottery distributors are also working together to identify best practice and to develop options for increasing public involvement in decisions about Lottery funding themes and local Lottery spending.

**Chris Ruane:** To ask the Secretary of State for Culture, Media and Sport how much Heritage Lottery funding was given to each of the principal seaside towns in England and Wales from *(a)* the inception of the Lottery to 1997 and *(b)* 1997 to date, listed in descending order. [156039]

**Estelle Morris:** The amount of Heritage Lottery Funding that was given to each of the principal seaside towns in England and Wales from *(a)* the inception of the Lottery to, 1997 and *(b)* 1997 to date, listed in descending order was:

| | £ |
|---|---|
| *(a) Inception—31 December 1996* | |
| Brighton | 1,218,650 |
| Folkestone and Hythe | 116,000 |
| Thanet | 183,000 |
| Blackpool | 97,500 |
| Weston-Super-Mare | 71,500 |
| Conwy | 60,000 |
| Isle of Wight | 57,000 |
| Southport | 34,000 |
| Hastings and Bexhill | 7,200 |
| Bournemouth | — |
| Eastbourne | — |
| Lowestoft | — |
| Southend-on-Sea | — |
| Torbay | — |
| Whitstable and Herne Bay | — |
| Worthing | — |
| *(b) 1 January 1997 to date* | |
| Brighton | 13,130,219 |
| Hastings and Bexhill | 6,920,138 |
| Conwy | 6,765,877 |
| Southport | 5,538,238 |
| Thanet | 5,054,713 |
| Isle of Wight | 5,149,466 |
| Folkestone and Hythe | 5,412,968 |
| Bournemouth | 3,407,225 |
| Weston-Super-Mare | 1,954,475 |
| Whitstable and Herne Bay | 1,707,311 |
| Southend-on-Sea | 1,694,929 |
| Torbay | 939,100 |
| Lowestoft | 775,547 |
| Blackpool | 745,800 |
| Eastbourne | 435,650 |
| Worthing | 2,062,145 |

### Parthenon Sculptures

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from the Greek Government regarding the ownership of the Parthenon Sculptures. [157777]

**Estelle Morris:** Representations made to Government from the Greek Government have focused primarily on reuniting the Parthenon Sculptures in the planned new Acropolis Museum in Athens on a long term basis.

In giving evidence before the Culture, Media and Sport Select Committee in June 2000, the Greek Government emphasised that their current case rested on the proposal for a change in location of the Sculptures, rather than ownership issues.

In October 2002, the Prime Minister of Greece presented the Prime Minister with a copy of a proposal for the Reunification of the Parthenon Marbles in Greece which suggested that the restitution of the Marbles be carried out in the form of a long-term loan from the British Museum to the new Acropolis Museum, "bypassing the issue of ownership".

The Government have stated that they consider the Parthenon Sculptures to be a matter for the Trustees of the British Museum who are independent of Government.

### Satellite Television

**Chris McCafferty:** To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with service providers on access to free-to-view, commercial terrestrial channels, via satellite; and if she will make a statement. [157776]

**Estelle Morris:** Until May last year, the BBC paid for "solus" viewing cards enabling customers who did not wish to pay a subscription to receive the public service broadcasting channels by satellite. However, following the move of its broadcast services to a new satellite, all of the BBC's digital channels are now available via satellite without the need for a viewing card. It has therefore stopped paying for the provision of solus cards.

Following representations from the Government last year, an agreement was reached between the other main broadcasters and BSkyB to ensure that existing solus card viewers could continue receiving the other public service channels after their current cards expired in 2003. Viewers were able to purchase a new card, valid until at least 31 December 2005, for a one-off fee of £20+VAT. This offer was extended until 31 January 2004.

We understand that the broadcasters have no current plans to provide solus cards to new satellite customers. However, the Government remains committed to ensuring that analogue terrestrial broadcasting signals are maintained until everyone who can currently get the main public service broadcasting channels (BBC1 and 2, ITV1, Channel 4/S4C and Five) can receive them free-to-view via at least one of the digital platforms.

### Television Licence (Pensioners)

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will fund free television licences for pensioners. [157689]

**Estelle Morris:** The Government have already introduced free television licences for people aged 75 or over but have no plans to extend this concession to all pensioners. However, the arrangements for funding the BBC after the expiry of the Corporation's current Royal Charter at the end of 2006 are due to be considered as part of the Charter review process. The review will include a detailed examination of the concessionary arrangements.

## SCOTLAND

### Public Transport

**Mrs. Iris Robinson:** To ask the Secretary of State for Scotland what measures have been introduced to encourage use of public transport by the disabled. [155423]

**Mrs. McGuire:** The specific issues in relation to public transport in Scotland are devolved and a matter for the Scottish Executive. Nicol Stephen., MSP, is the Scottish Executive Minister with responsibility for transport.

I understand, however, that the Scottish Executive is committed to ensuring that public transport is accessible to people with disabilities.

### Supreme Court

**John Thurso:** To ask the Secretary of State for Scotland what representations he has received on the appropriate number of Scottish members of the new Supreme Court. [156769]

**Mrs. McGuire:** The consultation on the Supreme Court was undertaken by the Department for Constitutional Affairs. Responses from Scottish organisations went directly to them. My right hon. Friend has not received any representations on the number of Scottish members of the new Supreme Court.

## NORTHERN IRELAND

### Cardiology Services

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what benefits derive from local hospitals providing nurse-led cardiac care services. [157339]

**Angela Smith:** All cardiac care inpatient services in local hospitals are consultant led. Cardiology nurses involved in the provision of cardiac services deliver essential elements of the patients' care, such as lifestyle advice in the case of cardiac rehabilitation. Their skills and knowledge allow for a more holistic approach to the care of patients.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will estimate the cost of local hospitals providing a mobile coronary care service involving *(a)* a senior house officer and *(b)* nurses only. [157340]

**Angela Smith:** A number of different models currently exist for mobile coronary care units. Some are led by junior doctors, some by nurses and others by paramedics. Models of service delivery need to be flexible enough to respond to local needs including geography, demographics and existing service provision. Different types of vehicle are used and different grades of staff are involved, even within one discipline such as nursing. There is no average cost or typical unit. Any estimate of costs for a generic model therefore, whether led by doctors or nurses, would not be meaningful.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what actions doctors can take as part of a mobile coronary care service that cardiology nurses are unable to offer. [157381]

**Angela Smith:** Mobile coronary care units are staffed by cardiology nurses and/or junior doctors. There is no difference in the procedures that can be undertaken by a doctor and a nurse when involved in a call-out.

During call-outs the coronary care team has access to a telemedicine link with their base hospital, which allows them to obtain the opinion of a senior cardiac doctor if the need arises.

### Departmental Officials

**Mr. Cousins:** To ask the Secretary of State for Northern Ireland which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* Ernst and Young and *(d)* KPMG. [156906]

**Mr. Pearson:** No former Civil Servants from the 11 departments of the Northern Ireland Administration and the Northern Ireland Office have, during the calendar years 2001, 2002 and 2003, applied for permission to join PricewaterhouseCoopers, Deloitte and Touche, Ernst and Young or KPMG.

**Mr. Cousins:** To ask the Secretary of State for Northern Ireland what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* Ernst and Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156921]

**Mr. Pearson:** Since 2001 no secondments, either inward or outward, have taken place between the 11 departments of the Northern Ireland Administration and the Northern Ireland Office and the companies mentioned.

The answer excludes agencies and NDPBs.

### Doctors' Hours

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many hours on average were worked weekly by *(a)* consultants, *(b)* registrars, *(c)* senior house officers and *(d)* junior house officers at each of the Province's health trusts in the most recent period for which figures were available. [157395]

**Angela Smith:** The information requested is provided in the table. Detailed information of this nature, however, is not routinely collected by trusts and can be difficult to obtain due to the non-standard working patterns of medical staff. Where precise figures have been unavailable, a number of trusts have attempted to provide a best estimate or range.

*Number of hours (on average) worked by consultants, registrars, senior house officers and junior house officers—week beginning 26 January 2004 (unless otherwise indicated)*

| *Health and social services trusts* | *Consultants* | *Registrars* | *Senior House Officers* | *Junior House Officers* |
|---|---|---|---|---|
| Altnagelvin Group HSS Trust[1] | N/A | N/A | N/A | N/A |
| Armagh and Dungannon HSS Trust | 43.0 | 0.0 | 54.2 | 0.0 |
| Belfast City Hospital HSS Trust | N/A | 50.1 | 48.6 | 53.2 |
| Causeway HSS Trust | 43.0 | 50.7 | 45.4 | 54.8 |
| Craigavon and Banbridge Community HSS Trust[2] | 40.0–44.0 | 40.0 | 45.0 | 0.0 |
| Craigavon Area Hospital Group HSS Trust | N/A | 48.0–60.0 | 48.0–55.0 | 50.0 |
| Down Lisburn HSS Trust | N/A | 47.3 | 42.1 | 50.8 |
| Foyle Community HSS Trust | N/A | N/A | 46.5 | 0.0 |
| Greenpark Healthcare HSS Trust[3] | N/A | N/A | N/A | N/A |
| Homefirst Community HSS Trust[4] | N/A | 32.5 | 40.3 | N/A |
| Mater Infirmorum Hospital HSS Trust[5] | N/A | 53.0 | 46.0 | 54.0 |
| Newry and Mourne HSS Trust[6] | 40.0 | 58.0 | 62.0 | 56.0 |
| North and West Belfast HSS Trust | 40.0 | 40.0–48.0 | 40.0–48.0 | 0.0 |
| Royal Group of Hospitals HSS Trust | 45.0–50.0 | 45.0–50.0 | 45.0–50.0 | 50.0–55.0 |
| South and East Belfast HSS Trust | N/A | 41.9 | 48.4 | 0.0 |

*Number of hours (on average) worked by consultants, registrars, senior house officers and junior house officers—week beginning 26 January 2004 (unless otherwise indicated)*

| *Health and social services trusts* | *Consultants* | *Registrars* | *Senior House Officers* | *Junior House Officers* |
|---|---|---|---|---|
| Sperrin Lakeland HSS Trust[7] | 68.0 | 65.0 | 62.0 | 56.0 |
| Ulster Community and Hospital Group HSS Trust[8] | N/A | N/A | N/A | N/A |
| United Hospitals Group HSS Trust | N/A | 53.3 | 48.8 | 47.6 |

[1] Altnagelvin Group HSS Trust cannot readily provide number of hours worked. The majority of the doctors are contracted for a basic 40 hours per week but many are working alternative shift patterns and are on 'on call' rotas.
[2] Craigavon and Banbridge Community HSS Trust has provided approximate hours worked as the medical staff participate on 'on-call' rotas. As such, hours worked each week will vary depending on the intensity of work required in that particular week.
[3] Greenpark Healthcare HSS Trust cannot readily provide number of hours worked.
[4] Homefirst Community HSS Trust has provided figures supplied from the trust's last monitoring return. Information supplied is as at February 2004.
[5] Mater Infirmorum Hospital HSS Trust cannot provide figures for consultant hours as they are currently undertaking a diary exercise on hours worked and this information is not available at present but will be available in due course.
[6] Newry and Mourne HSS Trust have not monitored hours in the period so they can only give an approximation based on the rotas set out for each grade of staff.
[7] Sperrin Lakeland HSS Trust have provided consultant figures from 2001 Consultant Appraisal Exercise and Registrar, SHO and Junior House Officer figures from Junior Doctors New Deal Monitoring.
[8] Ulster Community and Hospitals Group HSS Trust has not provided figures due to the disproportionate cost of obtaining the information.

### Ethnic and Religious Integration

**Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland how much emphasis in targeting social need is given to integrating ethnic and religious groups. [157320]

**Mr. Spellar:** New Targeting Social Need (TSN) is Northern Ireland's main policy for tackling poverty and social exclusion and has three priority areas which focus on Employment/Employ ability, addressing inequality in other areas such as health and housing and Promoting Social Inclusion.

The Promoting Social Inclusion (PSI) element of New TSN involves Departments working, both collectively and with partners outside Government to identify and tackle factors, which can contribute to social exclusion. One of the initial priority areas identified under PSI was the position of minority ethnic people in Northern Ireland.

A formal PSI Working Group was set up to develop a strategy to promote inclusion of minority ethnic people in Northern Ireland and to tackle racial inequalities. A Race Equality Unit was established in 2001 within the Office of the First and Deputy First Minister to oversee the development of the Race Equality Strategy. The Unit's role is to lead on action—by Government and in partnership with external stakeholders—to tackle social exclusion of minority ethnic people in Northern Ireland and racial inequalities. It maintains close links with the Home Office, the National Assembly for Wales, the Scottish Executive and the administration in Republic of Ireland.

A draft of the Strategy was published for consultation in February 2003. A finalised version of the Strategy, which takes account of the results of the consultation, will be published in summer 2004.

### Fatal Shootings

**Mr. McNamara:** To ask the Secretary of State for Northern Ireland what the circumstances were of the fatal shooting involving members of the Police Service of Northern Ireland on 29 April. [145735]

**Jane Kennedy:** The Police Ombudsman advises that the fatal shooting on 29 April 2003 involving the Police Service of Northern Ireland was referred to her office and that the incident is currently under investigation.

### Giant's Causeway

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what the timetable is for the restoration of the visitor centre at the Giant's Causeway, County Antrim; and if he will make a statement. [157274]

**Mr. Pearson:** The Government have set Easter 2006 as the target date for the provision of new visitor facilities at the Giant's Causeway.

A Prior Information Notice which declares Government's intention to run parallel international competitions for both the architectural design and for the interpretation and fit out of the new facilities will be placed in the Official Journal of the European Union during week commencing 1 March 2004. This is the first step in the process and will be followed by the Formal Notice for the Architectural Design Competition which will invite expressions of interest. The architectural competition, which will be supervised by the International Union of Architects in Paris, will be run in accordance with UNESCO standard regulations for international competitions for World Heritage Sites.

### Health Service (Complaints)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many complaints were received in Northern Ireland in the last 12 months by each health trust regarding *(a)* hospital, *(b)* community and *(c)* other care. [156321]

**Angela Smith:** Information is not available in the format requested. The following table presents information on the total number of complaints received

by each Health and Social Services Trust in the year ending September 2003. The Trusts are categorised according to whether they are hospital Trusts, community Trusts, mixed (hospital and community) Trusts, or other Trusts.

*Number of complaints received by each Health and Social Services Trust in the year ending September 2003, by category of Trust*

| *Health and Social Services Trust* | *Total Number of Complaints* |
|---|---|
| Belfast City Hospital | 142 |
| Green Park | 126 |
| Mater Infirmorum | 90 |
| Royal Group of Hospitals | 418 |
| United Hospitals | 281 |
| Craigavon Area Group | 177 |
| Altnagelvin Group | 205 |
| Hospital Trusts (Total) | 1,439 |
| North and West Belfast | 160 |
| South and East Belfast | 300 |
| Homefirst | 233 |
| Craigavon and Banbridge | 71 |
| Foyle | 57 |
| Community Trusts (Total) | 821 |
| Down Lisburn | 271 |
| Ulster Community and Hospitals | 331 |
| Causeway | 471 |
| Armagh and Dungannon | 80 |
| Newry and Mourne | 123 |
| Sperrin Lakeland | 85 |
| Mixed Trusts (Total) | 1,361 |
| Northern Ireland Ambulance Service | 192 |
| Other Trusts (Total) | 192 |
| Northern Ireland Total | 3,813 |

*Note:*
Community Trusts may provide services in non-acute hospitals, as well as services outside hospital

### Autistic Spectrum Disorders

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what proportion of sufferers of autistic spectrum disorders in Northern Ireland are deemed to have a learning disability. [156382]

**Angela Smith:** The information requested is not available.

### Physiotherapy

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 4 February 2004, *Official Report*, column 946W, on physiotherapy, if he will provide six monthly totals for each of the last five years of patients who waited between three and six months for an initial physiotherapy assessment. [156439]

**Angela Smith:** Information is collected centrally on numbers of persons attending a first out-patient appointment of an episode of care with a community physiotherapist, rather than on initial physiotherapy assessments. The number of persons who had waited between three and six months for their appointment is shown in the following table. The information is in respect of six-month intervals from the quarter ending 30 September 1998 to the quarter ending 30 September 2003 (the latest date for which such information is available).

| | | *Persons who waited between three and six months* | |
|---|---|---|---|
| *Quarter ending* | *Total number of persons* | *Number* | *Percentage* |
| 30 September 1998 | 9,863 | 905 | 9.2 |
| 31 March 1999 | 10,679 | 1,505 | 14.1 |
| 30 September 1999 | 11,837 | 1,504 | 12.7 |
| 31 March 2000 | 11,704 | 2,235 | 19.1 |
| 30 September 2000 | 11,492 | 1,403 | 12.2 |
| 31 March 2001 | 13,446 | 1,995 | 14.8 |
| 30 September 2001 | 12,754 | 2,800 | 22.0 |
| 31 March 2002 | 14,154 | 2,741 | 19.4 |
| 30 September 2002 | 14,303 | 2,610 | 18.2 |
| 31 March 2003 | 15,644 | 2,632 | 16.8 |
| 30 September 2003 | 12,798 | 2,542 | 19.9 |

### Integrated Transport System

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what progress has been made in the development of an integrated transport system for Northern Ireland. [157659]

**Mr. Spellar:** The Regional Transportation Strategy for Northern Ireland 2002- 12, the underlying principles and strategic direction of which were unanimously agreed by the Northern Ireland Assembly in July 2002, sets out a strategic framework for the future planning, funding and delivery of an integrated transport system for the region.

The implementation of the RTS is overseen, monitored and reviewed by the Regional Transportation Strategy Steering Group. The Department for Regional Development has also established an External Advisory Board, the Integrated Transport Stakeholder Group which offers advice on the implementation of the RTS.

Delivery of the RTS is being progressed through three transport plans; the Belfast Metropolitan Transport Plan, the Regional Strategic Network Transport Plan and the Sub-Regional Transport Plan. Work on the BMTP is well advanced and a proposed BMTP is due for release for Equality Impact Assessment consultation in March 2004. Taking any EQIA comments into account, publication is expected later in the year.

The RSTN TP is expected to be published in summer 2004. The SRTP is being developed in association with local Development Plans and is to be completed in 2006.

### Intergovernmental Bodies

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the *(a)* cost and *(b)* number of staff was in the (i) North-South Ministerial Council, (ii) British Irish Council and (iii) Inter-Governmental Conference in each year since they were created. [156625]

**Mr. Paul Murphy:** The cost and number of staff in each year since December 1999, when these Bodies were established, are as follows.

*(a) North/South Ministerial Council*

| | Cost (£)[1] | Staff |
|---|---|---|
| 1999–2000 | 94,949 | 6 |
| 2000–01 | 737,162 | 15 |
| 2001–02 | 787,609 | 16 |
| 2002–03 | 606,889 | 16 |
| 2003–04 | [2]489,964 | 15 |

[1] Expenditure by the NI Administration which includes salaries, administration and cost of meetings.
[2] Provisional figure (up to 31 January 2004)

*(b) British-Irish Council*

Each member of the British-Irish Council is responsible for the costs of its participation. The British and Irish Governments provide the Secretariat for the Council, in co-ordination with officials of each of the other members and bear the costs between them. In addition to servicing the work of the Council, the officials are involved in carrying out a range of other duties. It is not therefore possible to provide the cost of the British-Irish Council since its inception nor to identify detailed staff numbers. However, the cost to the NI Administration for Ministerial meetings in NI and travel and subsistence costs for Ministerial meetings outside NI are as follows:

| | £ |
|---|---|
| 1999–2000 | 6,365 |
| 2000–01 | 7,420 |
| 2001–02 | 10,158 |
| 2002–03 | 19,448 |
| 2003–04 | 2,597 |

*(c) British-Irish Inter-governmental Conference*

The cost of the British-Irish Inter-governmental Conferences since 1999 can be obtained only at disproportionate cost. The expenditure of the British-Irish Inter-governmental Secretariat is met by the two governments. The costs given are in relation to the British Government since 2 December 1999.

| | Cost (£) | [1]Staff |
|---|---|---|
| 1999–2000 | [2]232 | 14 |
| 2000–01 | 488 | 14 |
| 2001–02 | 554 | 12 |
| 2002–03 | 539 | 12 |
| 2003–04 | [3]445 | 12 |

[1] Figures given include staff from the Northern Ireland Office and the Irish Government.
[2] As the British-Irish Inter-governmental Conference was established on 2 December 1999, this figure covers the period 2 December 1999 to 31 March 2000.
[3] Provisional figure (up to 31 January 2004)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many meetings of the *(a)* North-South Ministerial Council, *(b)* British-Irish Inter-Governmental Conference and *(c)* British Irish Council took place in each year since they were created. [156626]

**Mr. Paul Murphy:** The numbers of ministerial meetings that have taken place are as follows:

| Institution | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|---|
| *(a)* North-South Ministerial Council | 1 | 22 | 24 | 18 | 0 | 0 |
| *(b)* British-Irish Inter-Governmental Conference | 1 | 0 | 0 | 2 | 3 | 1 |
| *(b)* British-Irish Council | 1 | 2 | 1 | 4 | 4 | 0 |

**Olympic Bid**

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what discussions he has had with the Secretary of State for Culture, Media and Sport in relation to the London 2012 Olympic Bid; and what steps he has taken to promote Northern Ireland as a venue for events within that bid. [157655]

**Angela Smith:** Regular contact takes place with the Department of Culture, Media and Sport through an inter-departmental group on the Olympic bid and one of the issues discussed by this group is how the regions, including Northern Ireland, can benefit from the games. Northern Ireland has been suggested as a venue for the early rounds of the football tournament and there is also the possibility of hosting training and acclimatisation camps for competing countries prior to the Games. The Olympic Bid has also become a standing item on the agenda for the Sports Cabinet, which is attended by UK Sports Ministers, including the Secretary of State for Culture, Media and Sport.

**Parliamentary Questions**

**Mr. Brady:** To ask the Secretary of State for Northern Ireland how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155921]

**Mr. Paul Murphy:** This information is not held in the format requested and could be provided only at disproportionate cost. However, I would like to assure the hon. Member that my department understands the importance of providing prompt and accurate answers to all Parliamentary Questions.

**Child/Adolescent Psychiatry**

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what the longest time is for which a person has waited for child and adolescent psychiatry assessment in each board or trust area where the information is available. [157387]

**Angela Smith:** The following table details the longest time a patient has been waiting for child and adolescent psychiatry assessment at each of the health trusts in Northern Ireland which provide child and adolescent psychiatry services. The latest information available is representative of the position at 31 January 2004.[1,2]

| Provider trust | Longest wait |
|---|---|
| Down and Lisburn HSS Trust | 24 months |
| Ulster Community and Hospitals HSS Trust | 5 months |
| Foyle HSS Trust | 36 months |
| Sperrin Lakeland HSS Trust | 25 months |
| Homefirst Community HSS Trust[1] | 12 months |
| Craigavon and Banbridge Community HSS Trust | 8 months |
| Newry and Mourne HSS Trust | 12 months |
| Armagh and Dungannon HSS Trust | 23 months |
| South and East Belfast HSS Trust[2] | 3 months |
| The Royal Group of Hospitals HSS Trust | 48 months |

[1] Latest available data for Homefirst Community HSS Trust refers to patients waiting at 26 January 2004.
[2] South and East Belfast HSS Trust figures refer to patients waiting at 1 March 2004.
*Note:*
Data for all other trusts refers to patients waiting at 31 January 2004.
*Source:*
HPSS Trusts

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many individuals are waiting for assessment by child and adolescent psychiatry services. [157388]

**Angela Smith:** Information obtained from health trusts in Northern Ireland indicates that, at the end of January 2004[1,2], 1,289 children were awaiting assessment by child and adolescent psychiatry services.

*Number of children awaiting assessment by child and adolescent psychiatry services in Northern Ireland*

| Provider trust | Total number of children waiting |
|---|---|
| Down and Lisburn HSS Trust | 137 |
| Ulster Community and Hospitals HSS Trust | 95 |
| Foyle HSS Trust | 127 |
| Sperrin Lakeland HSS Trust | 176 |
| Homefirst Community HSS Trust[1] | 318 |
| Craigavon and Banbridge Community HSS Trust | 59 |
| Newry and Mourne HSS Trust | 69 |
| Armagh and Dungannon HSS Trust | 80 |
| South and East Belfast HSS Trust[2] | 56 |
| The Royal Group of Hospitals HSS Trust | 172 |
| Northern Ireland | 1,289 |

[1] Latest available data for Homefirst Community HSS Trust refers to patients waiting at 26 January 2004.
[2] South and East Belfast HSS Trust figures refer to patients waiting at 1 March 2004.
*Note:*
Data for all other Trusts refers to patients waiting at 31 January 2004.

HPSS Trusts

### Road Accidents

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what evidence he has collated on road traffic accidents caused by slow driving. [157391]

**Angela Smith:** The Police Service of Northern Ireland (PSNI) is responsible for the collection of road traffic collision statistics in Northern Ireland and I have been advised that statistics relating specifically to collisions caused by slow moving vehicles are not held.

While it is accepted that slow drivers can, on occasion, cause annoyance to other road users, there is no evidence to indicate that slow driving is a major cause of collisions.

### Speed Cameras

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland what research he has collated regarding the impact of speed cameras on the number of road traffic accidents; and if he will make a statement. [157453]

**Angela Smith:** There have been safety camera schemes similar to the initiative being piloted in Northern Ireland running in Great Britain for a number of years. In the two years of the Great Britain pilot, the number of people killed and seriously injured at camera sites fell by 35 per cent.

The Northern Ireland Safety Camera Pilot Scheme has been in operation since July 2003 and it is too early to make a valid assessment of its contribution to the reduction of road deaths and serious injuries. There is, however, every reason to believe that there is potential for reductions in deaths and serious injuries in Northern Ireland similar to those in Great Britain.

### Victims Memorial Fund

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether the Government intend to provide additional funding to the Northern Ireland Memorial Fund for Victims; and if he will make a statement. [156119]

**Angela Smith:** Since 1998, the Government have allocated more than £20 million to victims' issues. More than £7 million of this has been allocated to the Northern Ireland Memorial Fund (NIMF). A number of other initiatives have also been funded. More than £8 million has been allocated for core and project funding to groups working in support of victims. Trauma centres have been established in Belfast and Omagh and Trauma Advisory Panels have been established in each Health Board Area. We are also raising awareness across the public sector about victims' needs, and the special sensitivities required when dealing with those who have experienced traumatic events.

Significant progress has been made in a relatively short period of time but more needs to be done. That is why I am currently working to develop the next generation of victims' policy. As part of this work I am engaged in a consultation process with victims and survivors and with experts and practitioners in the field to find out more about: victims' needs; to what extent existing initiatives, including the NIMF, are meeting these needs; what are the unmet needs; and where the priorities lie. The outcome of this process, which is ongoing, will inform decisions on future policy and funding.

### Waste Recycling

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many district councils in Northern Ireland offer a household waste recycling service. [157660]

**Angela Smith:** All District Councils in Northern Ireland provide a household waste recycling service. The level of provision differs according to each council's operational and budgetary constraints. In all cases, the Waste Management Plans of councils provide for the expansion of these services to maximise recycling and the diversion of waste from landfill.

Councils provide access to recycling facilities for a range of materials at Civic Amenity Centres. These usually include glass, cans and paper. Some centres also collect plastics, wood and green waste for composting.

Civic Amenity Centres are complemented in all council areas by the provision of 'bring facilities' in supermarket car parks or other public locations. These usually consist of glass bottle banks and can banks.

## TRADE AND INDUSTRY

### Business Links

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department has taken to reduce administrative demands of Business Link projects on small businesses. [157228]

**Nigel Griffiths:** By their very nature Business Link projects offer services to SMEs and do not make additional demands upon them. Business Link Operators provide information, advice or access to experts on any aspect needed to start and expand a business and access to a range of business support solutions including DTI business support products.

### Business Regulation

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will make a statement on the 10 projects to reform the regulatory environment for small business referred to in figure 19.3 of the Trade and Industry Departmental Report, Cm 5916. [157195]

**Nigel Griffiths:** The Government remain committed to creating a business environment in which all business, especially small business, has the chance to start, grow and employ staff. It recently published its Action Plan for Small Business on 8 January 2004, which details the measures it will take to reduce the regulatory burden. The Action Plan supersedes and builds on the 10 projects, details of which are set out as follows.

| *Projects* | *Details* |
|---|---|
| Timesaver Initiative | Timesaver has been incorporated as part of the Business.gov programme. The new Businesslink.gov.uk website is a key delivery arm of the programme. |
| Carter Review of Payroll Services | There was general support for the principle of greater use of information technology. The incentive payments to encourage smaller employers with less than 50 employees to file electronically will begin from 2004–05. The electronic filing of employer returns are expected to become a universal requirement from 2010. The payroll support given by Business Support Teams and the employers' helpline will be expanding. |
| Small Firms Litmus Test | Revised Small Firms Impact Test introduced in February 2003 as part of new Regulatory Impact Assessment process. A database of businesses has been developed to assist policy makers. |
| Revitalising Local Business Partnerships | SBS introduced a Partnership Fund which aims to build on the work currently undertaken by LBPs and encourage LBPs to promote and sustain partnerships. The LBP website was launched in 2001. SBS provide a forum highlighting best practices within the partnerships. SBS have a part-time national LBP co-ordinator. A second national conference was held in June 2003 to mark the 10th anniversary of the first LBP (Barnsley). |
| Parental Leave and Dispute Resolution | Maternity and Paternity package introduced in April 2003. Dispute and Grievance Package including revised ACAS Code coming into force Oct 2004. Small business heavily involved in the shaping of the policy. |
| Disability | SBS has developed relationships with the Disability Rights Commission on the drafting of its code. SBS has worked with Employers Forum on Disability to ensure that Business Advisors can offer best-advice to small business. Input into the new Bill and other initiatives om disability are on-going. |
| Better Regulation Task Force Small Shopkeepers Report | 12 recommendations made to Government. Six were accepted, five accepted in part and one not accepted. Progress made, for example, on liquor licensing reform, single internet portal and guidance. |
| Food Standards and Food Labelling Requirements | SBS has forged closer links with the FSA and is working with the agency on the introduction of new simplified standards for the food sector. The aim is to minimise the impact on small businesses. |
| Climate Change Levy | In 2002 the SBS in conjunction with Ecotec undertook research into the impact of the Levy on small businesses. These results were fed into wider DTI work being completed on the levy. |
| Health and Safety Bill | The majority of elements within the Health and Safety Bill were transport related and were incorporated into a Transport Bill with all the health and safety issues dropped from it and not being pursued. |

### Business Support

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many firms have been helped by *(a)* grants for research and development, *(b)* grants for investigating an innovative idea and *(c)* knowledge transfer partnerships since their introduction. [157191]

**Nigel Griffiths:** The information is as follows.

*(a)* 207 Grant for R&D offers have been made between 1 June 2003 to 31 December 2003.

*(b)* 75 Grant for Investigating an Innovative Idea offers have been made between 1 June 2003 and 31 December 2003.

*(c)* Since the first Knowledge Transfer Partnerships were considered in September 2003, 130 partnerships have been approved and so far 16 of them have begun work on their projects.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much money has been spent on the Small Firms Loan Guarantee scheme since it was created; and of this total, how much has been spent on administration. [157194]

**Nigel Griffiths:** Between the start of the scheme in June 1981 and 31 March 2003 the total programme expenditure has been £482.8 million. Expenditure on administration between 1 April 2000 and 31 March 2003 is estimated at £1.97 million of which £0.37 million is included within the total of £482.8 million and £1.6 million is additional. Earlier administrative cost could be determined only at disproportionate cost.

### Consumer Direct

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will list the *(a)* responsibilities and *(b)* planned expenditure of Consumer Direct for each year between 2003 and 2006. [157196]

**Mr. Sutcliffe:** The information is as follows:

*(a)* The responsibilities of Consumer Direct are: to provide consistent consumer advice by telephone, e-mail and online, thereby improving accessibility and meeting unmet demand estimated at 400,000 to 1.5 million calls per year; to improve the quality and coverage of information for Trading Standards through access to a central consumer complaints database; and to refer consumers who need additional help and support to the agencies best placed to assist them, including Trading Standards and Citizens Advice Bureaux.

The service will provide clear, practical advice for consumers who want to: sort out problems with suppliers of goods and services; know their rights as consumers; report scams and find out how to avoid them; receive advice on how to seek out reputable traders. The overriding aim is to empower consumers to resolve issues themselves. It will not provide product specific information or recommend individual organisations or service providers, nor will it intervene with a trader on a consumer's behalf.

Consumer Direct will begin operation in four Pathfinder nations/regions this summer (Scotland, Wales, Yorkshire and the Humber, and the South West Nationwide rollout (excluding Northern Ireland) will be completed by 2007.

*(b)* The planned expenditure of Consumer Direct is:

| | *£ million* |
|---|---|
| 2003–04 | 3 |
| 2004–05 | 11 |
| 2005–06 | 16 |

This expenditure may be subject to adjustment depending on the speed of roll out following implementation of the pathfinders.

### Debt Collection Agencies

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry what regulations exist for debt collection agencies regarding the amount of evidence that must be represented to them before they take up a claim. [155662]

**Mr. Sutcliffe:** The Office of Fair Trading (OFT) licence debt collection under the Consumer Credit Act 1974. The OFT publishes guidance which is intended to set out the type of behaviour that falls within the category of unfair business practices and which call into question fitness to retain or be given a licence. The most recent guidance on debt collection was published in July 2003.

The guidance does not specify what evidence must be provided to a debt collection agency before they take up a claim but it does state that "sending demands for payment to an individual when it is uncertain that they are the debtor in question" and "ignoring and/or disregarding claims that debts have been settled" are examples of unfair practices.

The guidance also makes it clear that the creditor remains responsible for third parties acting on their behalf and states that if they "choose to do business or continue to do business with third parties engaged in questionable fitness, then their own fitness will be called into question."

A copy of the guidance can be obtained from the Office of Fair Trading, Fleetbank House, 2–6 Salisbury Square, London EC4Y 8JX.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Trade and Industry how much her Department spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154075]

**Ms Hewitt:** The Department does not centrally collect the information sought at the required level of detail and to provide it would entail disproportionate cost.

However, in 2003 as a result of the DTI Review and the subsequent need to reduce the number of competing brands and logos emanating from the Department all design work has been rationalised around the single and well-recognised DTI logo. £300,000 was spent on identity development and design guidelines—including the production of electronic stationery templates—with the purpose of saving future design costs for the Department. In addition £3,000 has been spent on new stationery, £5,000 on the website and £10,000 on new publicity materials. At all times current and future costs are being kept to a minimum—with the new design guidelines phased in as appropriate.

### Dirigibles

**Mr. Challen:** To ask the Secretary of State for Trade and Industry what research her Department has conducted on the potential *(a)* environmental and *(b)* economic benefits that could be derived from dirigibles in meeting future aviation needs. [157702]

**Mr. McNulty:** I have been asked to reply.

None. We do not envisage that dirigibles will play a significant role, if any, in meeting future air passenger transport needs.

### Disadvantaged Communities

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to encourage enterprise in disadvantaged communities. [157232]

**Nigel Griffiths:** Promoting more enterprise in disadvantaged communities and among groups of people currently under-represented in enterprise is one of the seven core strategies in the "Action Plan for Small Business" that we published in January 2004.

We have introduced, and are continuing to develop, a range of measures that includes:

establishing the Phoenix Fund with a £145 million budget to improve the quality of business support and access to finance (funding a diverse range of initiatives that target specific geographic areas as well as women, ethnic minorities, people with disabilities, offenders and refugees);

tasking Business Links to ensure that their services meet the needs of everyone in their areas interested in setting up and running their own business, irrespective of where they live;

developing enterprise areas (the 15 per cent. most deprived wards) as a means of co-ordinating better policy development;

support for the Inner City 100 Index which celebrates and role models the success of entrepreneurs from disadvantaged communities;

specific tools to help community-based social enterprises develop their business skills;

through the Phoenix Fund supporting the production of City Growth Strategies to help disadvantaged communities to put enterprise at the heart of regeneration.

### E-commerce

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what measures her Department is taking to regulate the use of *(a)* symbols and *(b)* hallmarks by web-traders. [157212]

**Mr. Sutcliffe:** The Government do not regulate directly the use of symbols and hallmarks by web-traders. Some web-traders use these devices to show that they subscribe to voluntary codes of practice for electronic commerce. The Government encourage the development of self-regulatory approaches to electronic commerce as a light touch alternative to legislation.

The Enterprise Act 2002 empowers the Office of Fair Trading to approve consumer codes of practice. These arrangements apply to consumer codes generally; they could cover codes for e-commerce, but are not specific to such codes or to symbols and hallmarks used by web-traders.

The Trade Marks Act 1994 protects signs that are used to indicate the origin of goods, and the courts have confirmed that this law applies equally to the use of such signs on the internet.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many businesses have been accredited with the TrustUK e-hallmark in each year since its inception; and what assessment her Department has made of the effectiveness of TrustUK in increasing consumer confidence for on-line shopping. [157213]

**Mr. Sutcliffe:** The number of businesses accredited with the TrustUK e-hallmark in each year since its inception is:

| | *Number of web-traders* |
|---|---|
| 2000 | 3,765 |
| 2001 | 4,500 |
| 2002 | 5,285 |
| 2003 | [1]2,941 |

[1] Decrease in numbers follows the closure of the Consumers' Association's Which? WebTrader scheme in January 2003.
Figures provided by TrustUK.

TrustUK is a private sector organisation, which was originally set up with Government endorsement by the Alliance for Electronic Business and The Consumers' Association.

The Department has participated in two reviews of the TrustUK scheme. These reviews concluded that TrustUK should switch from regulatory work to promoting best practice more generally.

In 2003, DTI decided to withdraw the secretariat services it provides to the TrustUK approvals committee. This decision took into account the pressure on DTI resources, recent changes to the legislative framework including the Enterprise Act 2002 (which sets out a new approach to codes of practice), and the Department's belief that TrustUK, as a private sector self-regulatory organisation, should be able to operate independently.

The extent to which schemes like TrustUK are able to enhance consumer confidence depends on their ability to generate demand from business and profile among consumers.

Since its launch TrustUK has achieved much. Its criteria for e-commerce codes and its "code of codes" model have attracted positive interest and among other things have influenced the European Commission's thinking on an EU-wide code scheme for e-commerce.

### Engineering/Manufacturing Jobs (North-West)

**Mr. Evans:** To ask the Secretary of State for Trade and Industry how many jobs in *(a)* engineering and *(b)* manufacturing have been lost in (i) the North West and (ii) Lancashire since 1997. [156983]

**Mr. Sutcliffe:** Although official statistics do not provide estimates of the number of jobs lost, the ONS Annual Business Inquiry does show the changes in the total number of employee jobs by region.

In the North West, there were 83,000 (or 16 per cent.) fewer employee jobs in manufacturing and 31,000 (or 15 per cent.) fewer employee jobs in engineering in 2002 compared to 1997.

In Lancashire, there were 12,000 (or 11 per cent.) fewer employee jobs in manufacturing and 1,000 (or 2 per cent.) fewer employee jobs in engineering in 2002 compared to 1997.

This information is given in the following table.

*Employee jobs in engineering and manufacturing for the North West and Lancashire*

| | *1997* | *2002* | *Net change* |
|---|---|---|---|
| *Manufacturing* | | | |
| North West | 532,000 | 449,000 | -83,000 |
| Lancashire | 106,000 | 94,000 | -12,000 |
| *Engineering* | | | |
| North West | 197,000 | 167,000 | -31,000 |
| Lancashire | 44,000 | 43,000 | -1,000 |

*Note:*
Engineering defined as SICs 27 to 35
*Source:*
1997 Rescaled Annual Employment Survey, Office for National Statistics
2002 Annual Business Inquiry, Office for National Statistics

### Industrial Disputes

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to minimise the impact of working days lost owing to labour disputes on the *(a)* public administration, *(b)* education and *(c)* health sectors. [157238]

**Mr. Sutcliffe:** The DTI does not have lead responsibility for these sectors. While the number of stoppages in 2003 was an all-time low, the Government via the lead Department concerned makes contingency plans, where appropriate, to minimise the impact on the public.

### Information Security

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry what measures her Department have taken to ensure that Government Departments are adequately protected from internet hackers and fraudsters. [157806]

**Mr. Alexander:** I have been asked to reply.

The Cabinet Office provides all Government Departments with comprehensive guidance on information security which is regularly updated as required. This includes advice on how to protect against internet hackers and fraudsters. Departments also subscribe to UNIRAS, the Government's incident reporting and alert scheme, which provides immediate warnings and advice on how to protect against the latest threats.

### Inward Investment

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many inward investment decisions were made in the United Kingdom in each year between 1999 and 2003; what the expenditure of British Trade International was on inward investment; and how many new jobs were created through inward investment. [157202]

**Nigel Griffiths:** The following figures are based on information provided by companies at the time of the announcement of the decision to invest in the UK. They are based on the companies best estimate of jobs created by the investment in its first three years. The figures take no account of subsequent developments. There is no requirement to notify UK Trade and Investment and so these figures include only those projects where UK Trade and Investment and its regional partners were involved or which have come to their notice.

Also in the table is a breakdown of inward investment expenditure by UK Trade and Investment (UKTI) formerly British Trade International. These figures include the part funding of the English Regional Development Agencies.

| | *Number of projects* | *Number of new jobs* | *UKTI inward investment expenditure (£ million)* |
|---|---|---|---|
| 1999–2000 | 800 | 54,365 | 15.3 |
| 2000–01 | 880 | 71,168 | 18.7 |
| 2001–02 | 844 | 35,362 | 18.1 |
| 2002–03 | 711 | 34,446 | 20.9 |

### Jobcentre Plus

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many away days were organised by Jobcentre Plus in 2003; and what their total cost was. [157200]

**Mr. Pond:** I have been asked to reply.

The information requested can be obtained only at disproportionate cost.

### Miners' Compensation

**Mr. Todd:** To ask the Secretary of State for Trade and Industry whether those whose mining compensation claims have been concluded based on erroneous pension calculations will receive payment of any balance due on a correct recalculation. [155595]

**Nigel Griffiths:** The Department has agreed with the claimants' solicitors that where an offer of compensation is made using the interim pensions spreadsheet in the absence of a final version of the calculator, claimants may either:

(i) accept the offer as a full and final settlement of all heads of damage, including pension loss, in which case there is no entitlement to a top-up payment; or,

(ii) accept the offer in full and final settlement of all heads of damage, except pension loss, in which case the claimant may claim a top-up payment once the calculator is finalised.

**Andy Burnham:** To ask the Secretary of State for Trade and Industry how many claims for *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger have been received to date under the Coal Health Compensation Scheme from the *(a)* Leigh, *(b)* Makerfield and *(c)* Wigan constituencies; and how many have received (i) full and final settlement and (ii) an interim award only. [156727]

**Nigel Griffiths** *[holding answer 1 March 2004]:* The figures as of 31 January 2004 are:

| | *Claims received* | *Full and final settlements* | *Interim payments* |
|---|---|---|---|
| *Leigh* | | | |
| COPD | 3,779 | 974 | 603 |
| VWF | 701 | 422 | 388 |
| *Makerfield* | | | |
| COPD | 3,015 | 675 | 453 |
| VWF | 646 | 349 | 378 |
| *Wigan* | | | |
| COPD | 2,553 | 537 | 388 |
| VWF | 366 | 180 | 186 |

Constituency figures can be found on the DTI website: www.dti.gov.uk/coalhealth. The information is complied in the middle of the month and shows the figures for the end of the previous month.

**Andy Burnham:** To ask the Secretary of State for Trade and Industry what the cumulative total paid out under the Coal Health Compensation Scheme to former miners and their families in the *(a)* Leigh, *(b)* Makerfield and *(c)* Wigan constituencies was in each of the last five years. [156728]

**Nigel Griffiths** *[holding answer 1 March 2004]:* The figures are:

£

| | *Total damages paid*[1] |
|---|---|
| *Leigh* | |
| 1999 | 443,229 |
| 2000 | 1,439,124 |
| 2001 | 3,197,967 |
| 2002 | 6,240,815 |
| 2003 | 10,999,680 |
| *Makerfield* | |
| 1999 | 337,963 |
| 2000 | 1,234,187 |
| 2001 | 2,766,916 |
| 2002 | 5,154,127 |
| 2003 | 9,114,523 |
| *Wigan* | |
| 1999 | 193,935 |
| 2000 | 772,161 |
| 2001 | 1,694,785 |
| 2002 | 3,494,4[illegible] |
| 2003 | 6,027,1[illegible] |

[1] Cumulative as at end of year.

*Notes:*

1. Statistics represent COPD and VWF claims combined.
2. Total damages paid are cumulative as at the end of the year.
3. Produced from data copy as at 22 February 2004.

Constituency figures can be found on the DTI website: www.dti.gov.uk/coalhealth. The information is complied in the middle of the month and shows the figures for the end of the previous month.

### Minimum Wage

**Simon Hughes:** To ask the Secretary of State for Trade and Industry how many people in each London borough are earning the minimum wage. [156678]

**Mr. Sutcliffe** *[holding answer 1 March 2004]:* It is not possible to provide estimates specifically for each borough of London. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 80,000 people in London stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 50,000 and 60,000 people in London benefited from the increase in minimum wage rates in October 2003.

### Ministerial Meetings

**Mr. Webb:** To ask the Secretary of State for Trade and Industry if she will list, for each bilateral meeting that she has had in the last two years with senior executives of commercial organisations, *(a)* the date of the meeting, *(b)* the commercial organisation with whom she met and *(c)* whether the meeting was at (i) her instigation and (ii) the instigation of the commercial organisation concerned. [156336]

**Ms Hewitt** *[holding answer 26 February 2004]:* I meet representatives from many commercial organisations during the course of my ministerial duties. Obtaining the information as requested could be achieved only at disproportionate cost to the taxpayer.

### North Korea

**Mr. Bercow:** To ask the Secretary of State for Trade and Industry what steps she is taking to promote trade between the United Kingdom and North Korea. [157541]

**Mr. Mike O'Brien:** HMG has not undertaken any trade promotion activity with or in North Korea in the light of North Korea's pursuit of a clandestine nuclear weapons programme. The resumption of such activity is dependent upon substantial progress being made towards a resolution of the nuclear and diplomatic issues.

**Mr. Bercow:** To ask the Secretary of State for Trade and Industry what assessment she has made of the benefits to UK firms of North Korea's legislation to exempt foreigners from dual taxation. [157551]

**Mr. Mike O'Brien:** None at present.

**Mr. Bercow:** To ask the Secretary of State for Trade and Industry what assessment she has made of the benefits to UK firms of North Korea's legislation to give foreigners investment protection guarantees. [157552]

**Mr. Mike O'Brien:** None.

### Paid Leave

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what percentage of the work force has less than three weeks' annual paid leave. [155265]

**Mr. Sutcliffe:** According to the UK Labour Force Survey 1.7 per cent. of full-time employees had less than 15 days paid holiday including bank holidays in autumn 2003 compared to 4.6 per cent. in autumn 1997. From 1999 onwards the working time regulations provided 20 days paid annual leave entitlement including bank

holidays per year. In autumn 2003, 2.5 per cent. of full-time employees had less than 20 days paid annual leave including bank holidays compared to 6.8 per cent. in autumn 1997.

### Small Business

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many small businesses have reported access to *(a)* finance and *(b)* regulation as barriers to growth in each year since 1997. [157233]

**Nigel Griffiths:** Prior to summer 2001 there were no Government surveys that collected robust information on the concerns of small businesses.

The following table records the proportion of small businesses reporting that access to finance was a barrier to growth in four surveys of small and medium enterprises conducted by the Small Business Service since 2001.

These surveys did not collect information on the proportion of small businesses reporting that regulation was a barrier to growth. They did, however, collect data on the proportion of small businesses reporting that regulation was one of the main obstacles to the success of their business. This information is also recorded in the following table.

In each survey, around two thousand owner-managers were interviewed.

*The proportion of English small businesses with 1–249 employees[1] who said that they had had a problem with raising finance and that this had slowed the growth of their business[2]*

| | Percentage |
|---|---|
| Wave 1 (summer 2001) | 6 |
| Wave 2 (autumn 2001) | 3 |
| Wave 3 (winter 2001–02) | 2 |
| Wave 4 (summer 2002) | [2]Not available |
| Wave 5 (autumn 2002) | 1 |

[1] Excludes firms with no employees.
[2] This question was not asked in Wave 4 of the Omnibus Survey.
*Source*:
Small Business Service Omnibus Survey

*The proportion of English small businesses with 1–249 employees[1] who, when asked what were the main obstacles to the success of their business, mentioned regulation[2]*

| | Percentage |
|---|---|
| Wave 1 (summer 2001) | [2]Not available |
| Wave 2 (autumn 2001) | 25 |
| Wave 3 (winter 2001–02) | 28 |
| Wave 4 (summer 2002) | 20 |
| Wave 5 (autumn 2002) | 22 |

[1] Excludes firms with no employees.
[2] This question was not asked in Wave 1 of the Omnibus Survey.
*Source*:
Small Business Service Omnibus Survey.

The results of the most recent survey of small businesses conducted by the Small Business Service (autumn 2003) will be published in summer 2004.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many national strategies for the Small Business Service have been *(a)* developed and *(b)* implemented; and how her Department intends to monitor these. [157237]

**Nigel Griffiths:** In December 2002, the Small Business Service (SBS) published "Small Business and Government—The Way Forward"—a strategic framework for a government-wide approach to helping small businesses based around seven themes identified as key drivers for economic growth, improved productivity and enterprise for all. Government have used this framework to build a single, cross-government action plan for small business. The SBS published the Action Plan on 8 January 2004.

Implementation is now underway. Progress is being monitored through a web-based implementation programme accessible at www.sbs.gov.uk which sets out milestones and target dates for the implementation of the actions, together with relevant contact points within Government. It is being updated on a regular basis.

### Takeovers

**Bob Spink:** To ask the Secretary of State for Trade and Industry what recent representations she has received from the CBI on the proposed EU Directive on Takeovers. [157902]

**Mr. Sutcliffe:** The Department received representations from, and had regular meetings with, the CBI and other business and City consultees throughout the negotiations on the EU Takeovers Directive. We expect the Directive to be finally adopted in the near future.

### Working Hours

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the *(a)* costs and *(b)* benefits of long hours working for (i) non-manual and (ii) manual workers in the UK. [155289]

**Mr. Sutcliffe:** The Department has commissioned and published a two volume study entitled "Working long hours: a review of the evidence" (DTI Employment Relations Research Series No. 16) which summarises the costs and benefits of long hours working for both manual and non-manual workers in the UK. It can be found at the following web address: http://www.dti.gov.uk/er/inform.htm.

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what position she plans to take in the Council of Ministers on the European Parliament's proposal to end the freedom of employees to work more than 48 hours a week; and if she will make a statement. [156462]

**Mr. Sutcliffe:** The Council of Ministers will exchange views on the Commission's Communication published on 5 January 2004 when they meet on 4/5 March.

The UK believes legislation should provide minimum standards of employment protection while maintaining the flexibility our individual labour market requires and which many workers prefer. We believe that maintaining the opt out allows workers choice as well as protection.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Burma

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the UN Commission on Human Rights regarding the mandate of the Special Rapporteur in respect of human rights in Burma. [157463]

**Mr. Mike O'Brien:** We fully support the efforts of Sergio Pinheiro, the UN Special Rapporteur for Human Rights. We are currently working with our EU partners on this year's Commission on Human Rights Resolution on Burma, including on Pinheiro's Mandate.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the UN Special Envoy to Burma. [157467]

**Mr. Mike O'Brien:** I am in regular contact with Tan Sri Razali Ismail, the UN Special Envoy to Burma and last met him when he visited London in July 2003. We fully support his tireless efforts to promote reconciliation in Burma and we urge the regime to allow him to return to Burma soon—he and the UN have a crucial role to play in the reconciliation process.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the treatment of Rohingya Muslims under Burma's 1982 Citizenship Law; [157469]

(2) what assessment he has made of the treatment of Rohingya Muslims in Arakan State in Western Burma. [157470]

**Mr. Mike O'Brien:** We are concerned by the issue of ethnic minority rights and the abuses suffered by ethnic groups in Burma including the Rohingya Muslims. The UK welcomes and is supportive of all efforts to encourage the Burmese military regime to enter into genuine and substantive dialogue with democratic and ethnic group leaders in Burma leading to national reconciliation.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Burmese Government about the level of political detentions in the country since May 2003; [157615]

(2) what representations he has made to the State Peace and Development Council in Burma about the release of all prisoners of conscience from prison; [157627]

(3) what representations he has made to the State Peace and Development Council in Burma about the release of Aung San Suu Kyi from house arrest; [157628]

(4) what representations he has made to the State Peace and Development Council in Burma about lifting all restrictions on the activities of the National League for Democracy and other political parties in Burma. [157632]

**Mr. Mike O'Brien:** I have repeatedly called on the Burmese regime to release Daw Aung San Suu Kyi from house arrest, to release all political prisoners and prisoners of conscience and to allow freedom of speech and activity for the National League for Democracy and all political parties. Most recently I pressed these issues when I met the Burmese Ambassador on 23 February.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of political detentions in Burma *(a)* between May 2002 and May 2003 and *(b)* since May 2003. [157616]

**Mr. Mike O'Brien:** We estimate that there were approximately 1,300 political prisoners in Burma between May 2002 and May 2003. We estimate that there are currently about 1,350 political prisoners in Burma.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of rapes committed by members of the Burmese Army in 2003. [157630]

**Mr. Mike O'Brien:** We do not have the information to make a reliable estimate.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects that the Burmese Army will complete the withdrawal of troops from *(a)* Karen, *(b)* Karenni and *(c)* other ethnic areas. [157631]

**Mr. Mike O'Brien:** It is not possible to predict when the Burmese Army will complete its withdrawal of troops from these areas.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of the use of child soldiers in Burma by the State Peace and Development Council. [157634]

**Mr. Mike O'Brien:** We are deeply concerned by reports of child soldiers in Burma. UNICEF estimates that as many as 70,000 child soldiers are in the Burmese national army and Human Rights Watch reported in October 2002 that they constituted one fifth of Burma's army and can be as young as 11-years-old. The issue has been included in successive EU co-sponsored UNGA and UNCHR resolutions. In January 2004, the UN Security Council passed a Resolution on Children Affected by Armed Conflict. We highlighted our concerns on child soldiers in Burma.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the effectiveness of the ceasefire agreement between the State Peace and Development Council in Burma and the Karen National Union; [157635]

(2) what recent discussions he has had with the Burmese Government about the establishment of a process for monitoring infringements of the ceasefire between State Peace and Development Council troops and those of the Karen National Union. [157722]

**Mr. Mike O'Brien:** When I met the Burmese Ambassador on 23 February, I welcomed the talks between the State Peace and Development Council and the Karen National Union to agree a ceasefire. I hope that these talks will lead to a permanent peace settlement.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the extent of forced labour in Burma. [157643]

**Mr. Mike O'Brien:** The Burmese Government have still to address effectively the international community's concerns over the use of forced labour in Burma. In 2002 and 2003 there was a worrying number of credible reports suggesting forced labour was widespread in Burma, especially in the border areas where the military presence remains high. At the International Labour Organization (ILO) Governing Body meeting on 20 November 2003 the EU expressed grave concern at the Burmese Government's failure to take effective action on forced labour and stressed the need to fully implement the recommendations from the ILO High Level Team report of September 2001 without any further delay. The ILO's Governing Body meeting in March 2004 will give further consideration to the situation in Burma.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last had contact with the Karen National Union; and what was discussed. [157645]

**Mr. Mike O'Brien:** I have had no direct contact with the Karen National Union.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last communicated with representatives of the State Peace and Development Council in Burma; and what the content of the exchange was. [157646]

**Mr. Mike O'Brien:** I met the Burmese Ambassador on 23 February to discuss the State Peace and Development Council plans for a National Convention. I pressed for the release of Daw Aung San Suu Kyi and all political prisoners. I stressed the need for an inclusive, transparent National Convention with a clear time-frame. We welcome the move from detention to house arrest of U Tin Oo, but we call for his and Aung San Suu Kyi's full release.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of *(a)* Karen and *(b)* Karenni people who have been displaced by the Burmese Army in each of the last three years. [157647]

**Mr. Mike O'Brien:** We estimate that approximately 140,000 refugees, mostly from Karen and Karenni States, live in refugee camps on the Thai/Burmese border. As many as one million live as illegal migrants in Thailand. We estimate there are about 630,000 internally displaced people within Burma.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights situation in Burma; and what representations he has made to the Burmese Government about the matter. [157723]

**Mr. Mike O'Brien:** There has been no significant improvement in the human rights situation in Burma. I regularly raise our concerns on humanitarian issues with the Burmese authorities, most recently when I met the Burmese Ambassador on 23 February. We co-sponsored the UN General Assembly Human Rights Resolution on Burma last December and will play an active role in the forthcoming UN Commission on Human Rights in Geneva. We strongly support the efforts of the UN Special Rapporteur for Human Rights, Sergio Pinheiro.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Burmese Government about the need for an independent investigation into the violence perpetrated in Depayin on 30 May 2003. [157726]

**Mr. Mike O'Brien:** We have repeatedly condemned the violent regime-sponsored attack on Daw Aung San Suu Kyi and her convoy on 30 May 2003. The UK co-sponsored the UN General Assembly Resolution on Burma in December 2003 that called on the State Peace and Development Council (SPDC) to hold a full and independent enquiry into Depayin with international co-operation. We await the SPDC's response.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese Government about the fate of the 11 people sentenced to death for high treason under Article 122(1) of the Penal Code. [157727]

**Mr. Mike O'Brien:** The UK opposes the use of the death penalty in all circumstances and we, together with European Union partners, call on all countries to abolish the death penalty. The EU Presidency expressed the EU's grave concern over the sentences in a demarche to the Burmese authorities in December.

### Corporate Taxation

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on the co-ordination of corporate taxation within the European Union. [157117]

**Dawn Primarolo:** I have been asked to reply.

The Government's view is that fair tax competition is the way forward for Europe, not tax harmonisation. The Government will not support any action at European level that would threaten jobs and investment or damage the competitive position of British business.

### Departmental Officials

**Mr. Cousins:** To ask the Secretary of State for Foreign and Commonwealth Affairs which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156902]

**Mr. Mike O'Brien:** Since 1998, we are unaware of any former officials of the Foreign and Commonwealth Office who have asked for permission to join Pricewaterhouse Coopers, Deloitte & Touche, Ernst and Young or KPMG.

To locate individual requests from officials earlier than 1998 would incur disproportionate costs.

### Guantanamo Bay

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the United

Kingdom recognises the legal right of the United States to build and operate a prison camp at Guantanamo Bay in Cuba. [157156]

**Mr. Mullin:** The extent to which arrangements between the US and Cuba permit the US to build and operate facilities in Guantanamo Bay is primarily a matter for the two Governments concerned.

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what information has been provided to him by *(a)* the United States Department of Defense and *(b)* other US authorities in respect of information obtained from the four detainees holding British citizenship being kept in detention at Camp Delta at Guantanamo Bay. [157157]

**Mr. Mullin:** There are nine British nationals currently detained at Guantanamo Bay.

In accordance with exemption 1 of Part 2 the Code of Practice on Access to Government Information, we do not disclose information received in confidence from a foreign government.

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the locations where British *(a)* citizens and *(b)* residents were detained before being taken to the American prison camp at Guantanamo Bay; on what dates (i) British diplomats and (ii) members of the security and intelligence services visited each detainee; and whether any British (A) citizen and (B) resident being held at Guantanamo Bay has been permitted a visit from a legal representative. [157188]

**Mr. Mullin:** In accordance with the Data Protection Act 1998, we are not in a position to give details of where the British nationals at Guantanamo Bay were detained prior to their transfer there. Exemption 15 of Part 2 the Code of Practice on Access to Government Information applies. British diplomats visited the British detainees in January 2002, February 2002, May 2002, November 2002, April 2003 and September 2003. Officials have questioned the British detainees about matters relevant to national security. The Government have a duty to protect the UK's national security. As far as we are aware, no British nationals or British residents have been permitted a visit from any legal representative.

### Hong Kong

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK passport holders live in Hong Kong. [157567]

**Mr. Mullin:** There are approximately £3.6 million British passport holders living in Hong Kong.

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs when a visit by a Minister in his Department to Hong Kong will next take place; and what talks have taken place with China on a ministerial visit to Hong Kong. [157985]

**Mr. Mike O'Brien:** Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel and occasionally not until they are under way.

The most recent visit to Hong Kong by a Foreign Office Minister was by my hon. Friend the Parliamentary Under-Secretary of State (Mr. Rammell) in December 2003.

Due to the high degree of autonomy afforded to the Hong Kong Special Administrative Region (SAR) under the "One Country, Two Systems" principle, we discuss the timing of ministerial visits to Hong Kong with the SAR Government.

### Iran

**Lady Hermon:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent elections in Iran. [157649]

**Mr. Rammell:** Over the last 10 years Iran has made progress towards greater political freedom. But the flawed parliamentary elections held on 20 February were a clear setback.

On 23 February, EU Foreign Ministers expressed their deep regret and disappointment that large numbers of candidates, including many sitting deputies, had been prevented from standing, thus making a genuine democratic choice by the Iranian people impossible. For elections in any country to be regarded as free and fair, electors must have a chance to vote for candidates with a range of views.

### Iraq

**Norman Lamb:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* Ministers and *(b)* officials from (i) his Department and (ii) other Departments have had contact with Mr. Nadhmi Auchi since the conflict in Iraq; and if he will make a statement. [142019]

**Mr. Rammell:** Pursuant to his answer on 5 January 2004, *Official Report*, column 84W.

Since replying, it has been brought to my attention that my noble Friend the Baroness Symons of Vernham Dean wrote to Mr. Nadhmi Auchi on 7 July 2003 in response to his letter to my right hon. Friend the Prime Minister on 15 May 2003 about the Anglo Arab Organisation. United Kingdom Trade and Investment (UKTI) officials also met with Mr. Auchi in June 2003, in connection with his role in the Anglo-Arab Organisation and in July sent him a list of their events in the region. Mr. Auchi also sent three invitations to the Prime Minister and his officials, all of whch were declined

**Lady Hermon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the earliest possible date for the holding of elections in Iraq; and what steps he is taking to expedite such an election. [157652]

**Mr. Rammell:** The Special Envoy of the UN Secretary-General, Lakhdar Brahimi, visited Iraq in February to look into the processes and timing of elections. His report, issued on 23 February, made clear that elections were not feasible before the end of 2004 at

the earliest. We accept this assessment and stand ready to support the UN and the Iraqis in preparing for elections based on the UN's suggested timetable. We have worked hard with the Iraqis to agree a Transitional Administrative Law, an essential step towards early elections.

### Middle East

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of the Israeli separation fence on health service provision in the Occupied Palestinian Territories. [157637]

**Mr. Rammell:** Israel's building of a barrier on occupied territory restricts the free movement of people and essential supplies—including the provision of health services—between the Occupied Territories and Israel and other countries, as well as within the Occupied Territories. We are concerned by reports that a number of Palestinians have been deprived of urgent medical attention as a result of delays at checkpoints. We continue to express our serious concerns over the route and impact of the fence to the Israeli Government. Most recently, my noble Friend the Baroness Symons of Vernham Dean raised the matter with the Israeli Defence Minister, Shaul Mofaz, in London on 12 February.

### Radio Free Asia

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the value of Radio Free Asia in *(a)* communicating news and *(b)* stimulating political debate. [157536]

**Mr. Mike O'Brien:** None.

### Secondments

**Mr. Cousins:** To ask the Secretary of State for Foreign and Commonwealth Affairs what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156925]

**Mr. Mike O'Brien:** According to our records, the following secondments have been made into the Foreign and Commonwealth Office:

*a. PricewaterhouseCoopers*

(i) One person from 1 April 2000 to 1 April 2001

(ii) Based in Management Consultancy Services in the FCO.

*b. Deloitte & Touche*

(i) No inward secondments

*c. Ernst & Young*

(i) No inward secondments

*d. KPMG*

(i) One person from 1 June 2000—1 June 2001

(ii) Based in the IT Strategy Unit (ITSU), FCO.

Our records show that no officers have been seconded to these companies since 2001.

### Uganda

**Mr. Blizzard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to seek to end the conflict in Northern Uganda. [157667]

**Mr. Mullin:** We deplore the violence perpetrated against innocent civilians by the Lord's Resistance Army in the north of Uganda. We continue to encourage the Ugandan Government to seek a peaceful resolution to this conflict and to take steps to improve prospects for dialogue.

UK support to date has focussed on humanitarian assistance (£8.4 million in the last twelve months); targeted support to reconciliation processes; promotion of human rights, international humanitarian law, and supporting the role of civil society and improving international donor coordination.

We continue to keep in close contact with the Government of Uganda and the international community to see what more we can do to help.

**Mr. Blizzard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to obtain the support of international organisations to address the conflict in Northern Uganda. [157669]

**Mr. Mullin:** We are working closely with the international community and organisations to improve donor coordination and support a resolution of the conflict in northern Uganda. The UK was instrumental in the founding of the Donor Technical Group on the North in Kampala and currently holds the position of Deputy Chair of the Group. This is widely seen as the most important co-ordinating forum on donor responses to the conflict and has contributed to the development of agreed approaches and programmes in support of conflict resolution.

**Mr. Blizzard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings his Department has had with the Ugandan Government regarding the conflict in the north of the country. [157670]

**Mr. Mullin:** We continue to raise the conflict with the Lord's Resistance Army with the Government of Uganda at official and ministerial level. My right hon. Friend the Prime Minister and I discussed the situation in northern Uganda with President Museveni during his visit to London on 29 January. We urged President Museveni to seek a peaceful solution to the conflict. We encouraged him to take steps to improve prospects for dialogue. Our High Commissioner in Kampala is in constant touch with the Ugandan President about this issue.

**Mr. Blizzard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to prevent the abduction of children in Northern Uganda by the Lord's Resistance Army. [157672]

**Mr. Mullin:** The vast majority of Lord's Resistance Army (LRA) fighters are the innocent children of civilians, abducted and forced to fight against their will. The degree of violence and the practice of making

children a main target of their war is deeply repellent. We are supporting efforts to seek a resolution to this conflict and providing support to rehabilitate children who escape their LRA captors. Over the last year the UK has given £1.3 million to UNICEF and Save the Children Fund for relief activities, and their work to protect children at risk of abduction and to reintegrate child ex-combatants into society.

### United Nations

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the establishment of a United Nations council for sustainable and human development. [157112]

**Mr. Rammell:** The UK believes the UN has an important role to play in promoting sustainable and human development. We believe the key is to strengthen the effectiveness and co-ordination of existing organisations, rather than creating new ones.

The Millennium Declaration in 2000 and the World Summit for Sustainable Development in 2002 established concrete measures for judging performance on sustainable development through the Millennium Development Goals and the Johannesburg Plan of Implementation. The UK is now working at the national and international level to meet these commitments. The UK provides substantial support for those UN bodies dealing with sustainable and human development.

The UK believes the UN must change to better reflect current demands, and is taking part in the continuing discussion on reform of the UN system. As part of this process we are looking at the work of those UN bodies dealing with sustainable and human development.

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will support the launch of an international convention for the reform of the United Nations in 2005. [157110]

**Mr. Rammell:** We do not see the need for new mechanisms to reform the United Nations, as we would prefer to work through existing processes. The UK is a strong advocate of reform at the United Nations. The effectiveness of the organisation must be enhanced to ensure that the UN is able to meet the challenges currently facing the international community. Our priorities are a Security Council that deals effectively with the full range of threats to international peace and security: we welcome the establishment by the Secretary-General of a High Level Panel to look at this issue. We are supporting efforts to revitalise the General Assembly and the Economic and Social Council, and moves to reform the development agencies. We have also strongly supported Kofi Annan's 2002 proposals to improve the UN Secretariat and its budgetary procedures. We believe that these existing processes will lead to an organisation better equipped to meet current challenges.

### Zimbabwe

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the regulations on presidential powers issued this month by the Zimbabwe Government; and what representations he has made about them. [157535]

**Mr. Mullin:** The regulations provide for the automatic detention in custody for nine days for people charged with a wide range of political and economic crimes, including those charged with advocating and organising violence, boycotts or civil disobedience under the Public Order and Security Act. They could be used to harass members of civic society, the independent media and ZANU (PF)'s political opponents.

At the General Affairs and Economic Relations Council on 23 February, EU Foreign Ministers issued a strong statement condemning the Government of Zimbabwe for its human rights abuses.

## EDUCATION AND SKILLS

### Basic Skills Training

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many adults he plans should participate in learning and skills training up to their first level 2 in each year from 2003 to 2006. [154976]

**Mr. Ivan Lewis:** We expect around 475,000 adults to participate in learning up to their first full level 2 funded by the public sector between 2003 and 2006. In addition there will be a number of learners participating in privately funded learning. We expect this privately funded learning to deliver around 180,000 adults with a first full level 2 between 2003 and 2006.

Taken together with the change in the levels of qualifications of people in the workforce through young people entering the labour market (as adults) and replacing poorer qualified retirees, we expect this level of participation to enable us to meet our commitment to increase the number of adults with a full level 2 qualification by 1 million between 2003 and 2006.

### Broadband

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what proportion of *(a)* primary and *(b)* secondary schools have a broadband connection. [157190]

**Mr. Charles Clarke:** As at December 2003, 41 per cent. of primary schools and 98 per cent. of secondary schools (49 per cent. of all schools), in England, were connected to broadband compared to just one in eight two years ago. This data has been extracted from LEA connectivity statistics.

### Computer Access

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what successor schemes there are to the Computers in Reach scheme; and what support is in place to maintain equipment acquired under that scheme. [158151]

**Mr. Charles Clarke** *[holding answer 2 March 2004]:* The Computers Within Reach Scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of

£7.1 million over two years. Those eligible were in receipt of certain working age benefits or a State Pension with minimum income guarantee.

An evaluation was conducted, and copies have been placed in the House of Commons Library. The report highlighted a number of difficulties. In view of these difficulties, we considered carefully whether to repeat the scheme against alternatives that might provide more effective access to ICT and learning opportunities for those currently without access.

At the time it was decided to channel the remaining £7.9 million into purchasing wireless technology equipment and laptops for Adult and Community Learning Centres serving deprived wards around the country.

There are no current plans to initiate any similar projects.

Each individual who received a refurbished computer from one of the contracted suppliers would as part of the agreement receive a one year warranty with the machine. All costs for maintenance and upgrades would then fall to the owner when the years warranty expired.

### Departmental Running Costs

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the running costs of his Department were for each year since 2000–01; what his estimate is of annual expenditure up to 2005–06; and if he will make a statement. [156587]

**Mr. Charles Clarke:** Details of the Department's gross administrative expenditure for 2000–01 to 2005–06 are contained in Table 5.1 of Public Expenditure Statistical Analyses 2003 (Cm 5901). The figures are on a resource basis. Figures for 2000–01 and 2001–02 were published in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601) but these are on a cash basis.

### Disabled Children

**Jim Dobbin:** To ask the Secretary of State for Education and Skills what plans he has to improve the statistics he collects on *(a)* the number of disabled children, *(b)* the type of disability affecting each child, *(c)* the severity and combination of their disabilities, *(d)* the levels of service provided for disabled children and *(e)* the adequacy of these services. [154741]

**Mr. Stephen Twigg:** The Pupil Level Annual School Census (PLASC) took place last month. For the first time the Department collected the Special Educational Needs (SEN) type, for those pupils with statements or who are classified as "school action plus". This will enable us to examine the background factors associated with particular SEN types and the attainment patterns at various Key Stages of particular groups of pupils. Since many pupils with SEN have multiple needs the data collected records their primary and secondary need.

As for levels and adequacy of services, OfSTED will be reporting to the Secretary of State in 2005 on how well schools in general are carrying out the duties which were brought in by the Special Educational Needs and Disability Act 2001. These duties focus on inclusion, providing protection from discrimination for disabled pupils and strategic planning to improve access to schools for disabled pupils. There is a clear expectation that these duties will lead to improvements in the services provided to disabled children at school.

We have improved the information we collect about the number of disabled children supported by social services through the Children in Need (CIN) Census, which shows the number of disabled children reported in the survey week who received a service during that week. The last survey was carried out in February 2003, with the local authority results from this due to be published on 26 February. (The previous survey was carried out in September/October 2001.) The results are published and shown by local authority, although not collected by type of disability nor what type of service they received.

Further information on data collection by type of SEN can be found at http://www.teachernet.gov.uk/wholeschool/sen/datatypes.

### Education and Youth Council

**Mr. Hood:** To ask the Secretary of State for Education and Skills what the outcome was of the Education and Youth Council held on 26 February; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [157915]

**Alan Johnson:** The Education, Youth and Culture Council on 26 February adopted the joint Commission/Council interim report on the detailed work programme on the follow-up to the Lisbon Objectives on education and training systems in Europe for transmission to the 2004 Spring European Council.

The proposal for a Decision to establish "Europass", a single transparency tool for qualifications and competences was discussed. This part of the discussion was held in public and televised. The Irish Presidency are aiming to reach a Common Position on this by May 2004.

The Council adopted a number of items without discussion. These included the Decision establishing new rules for the Advisory Committee on Vocational Training (ACVT), to take account of EU enlargement.

The Commission announced that it would be adopting a Communication next month on the next generation of education spending programmes. This Communication will set out the Commission's proposals for the next phase of Socrates, Leonardo da Vinci and Tempus, (2007–2013).

The Commission presented its Report on the follow-up to the Recommendation of the European Parliament and Council on mobility within the Community of students, persons undergoing training, volunteers and teachers and trainers.

Over lunch, progress on the 2004 European Year of Education through Sport was discussed. This is intended to showcase and promote the role of physical education and school sport, in particular its contribution to whole school standards and developing citizenship.

### Educational Maintenance Allowances

**Helen Jones:** To ask the Secretary of State for Education and Skills what assessment he has made of the *(a)* cost and *(b)* likely effect on participation rates of extending educational maintenance allowances to those engaged in part-time study. [156635]

**Mr. Ivan Lewis:** The minimum attendance requirement for EMA is only 12 guided learning hours per week, so the main evaluation of the pilot scheme has assessed impact on part-time as well as full-time study. We do not plan to extend EMA to those studying for less than 12 hours. The evidence from the evaluation also indicates that with EMA, young people are able to establish a better balance between part-time work and their studies.

### Examinations

**Simon Hughes:** To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* Greater London and *(b)* each London borough achieved three grade As or above at A Level in each of the last five years. [158456]

**Mr. Miliband:** The information requested is as follows:

*Part (a):*

The percentage of 16–18 year old A level candidates achieving at least three grade As at A level in Greater London in 1999 to 2003:

| *Year* | *Percentage* |
|---|---|
| 1999 | 3.8 |
| 2000 | 4.4 |
| 2001 | 4.5 |
| 2002 | 4.8 |
| 2003 | 5.1 |

*Part (b):*

The percentage of 16–18 year old A level candidates achieving at least three grade As at A level in each Local Education Authority in London in 1999 to 2003:

| | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|
| Inner London | 2.7 | 3.0 | 3.0 | 2.7 | 2.9 |
| Camden | 4.4 | 5.7 | 5.7 | 5.4 | 5.1 |
| Hackney | 0.5 | 0.6 | 1.1 | 0.7 | 0.9 |
| Hammersmith and Fulham | 3.6 | 7.0 | 4.3 | 3.6 | 5.0 |
| Haringey | 2.5 | 4.2 | 2.9 | 3.2 | 4.6 |
| Islington | 1.9 | 1.8 | 1.3 | 1.1 | 0.5 |
| Kensington and Chelsea | 5.9 | 2.0 | 2.6 | 4.5 | 6.9 |
| Lambeth | 1.0 | 0.0 | 1.1 | 0.0 | 3.8 |
| Lewisham | 2.2 | 2.5 | 3.7 | 2.4 | 2.4 |
| Newham | 1.3 | 1.9 | 1.5 | 2.8 | 1.3 |
| Southwark | 0.0 | 2.4 | 1.1 | 1.0 | 0.4 |
| Tower Hamlets | 0.5 | 0.3 | 0.6 | 1.0 | 0.1 |
| Wandsworth | 3.1 | 2.7 | 3.3 | 1.8 | 3.2 |
| Westminster, City of | 2.2 | 1.8 | 3.3 | 3.5 | 2.9 |
| Outer London | 4.1 | 4.9 | 5.0 | 5.5 | 5.9 |
| Barking and Dagenham | 1.0 | 1.5 | 1.1 | 2.6 | 1.6 |
| Barnet | 7.5 | 8.3 | 8.1 | 9.3 | 10.8 |
| Bexley | 2.8 | 3.9 | 5.0 | 5.6 | 5.4 |
| Brent | 3.4 | 3.8 | 3.7 | 5.2 | 4.3 |
| Bromley | 3.9 | 5.4 | 5.9 | 5.7 | 6.3 |
| Croydon | 2.2 | 2.3 | 2.0 | 2.4 | 3.0 |
| Ealing | 1.7 | 3.8 | 4.5 | 2.8 | 5.9 |
| Enfield | 5.3 | 5.7 | 4.8 | 5.7 | 5.2 |
| Greenwich | 1.7 | 3.0 | 1.3 | 1.4 | 2.3 |
| Harrow | 2.6 | 3.7 | 2.8 | 3.6 | 4.7 |
| Havering | 4.6 | 4.3 | 4.1 | 5.9 | 4.6 |
| Hillingdon | 3.3 | 5.3 | 4.5 | 3.0 | 4.5 |
| Hounslow | 2.0 | 2.7 | 2.3 | 3.4 | 2.6 |
| Kingston upon Thames | 5.0 | 8.0 | 10.7 | 7.8 | 8.7 |
| Merton | 3.7 | 4.4 | 1.0 | 4.6 | 4.7 |
| Redbridge | 6.1 | 5.9 | 6.0 | 6.1 | 8.5 |
| Richmond upon Thames | 3.6 | 4.2 | 3.9 | 4.6 | 5.6 |
| Sutton | 8.0 | 8.8 | 9.7 | 13.7 | 11.2 |
| Waltham Forest | 1.6 | 1.1 | 2.3 | 2.1 | 1.8 |

**Mr. Evans:** To ask the Secretary of State for Education and Skills what the value added between Key Stage 3 and GCSE/GNVQ for schools in *(a)* Ribble Valley and Fulwood and *(b)* Lancashire was excluding the results of specialist schools. [156495]

**Mr. Miliband:** The following table shows the 2003 Key Stage 3 to GCSE/GNVQ Value Added measures for *(a)* Ribble Valley parliamentary constituency and *(b)* Lancashire local education authority when (1) Specialist schools are included and (2) Specialist schools are excluded. Figures are based on maintained schools only:

| | *(a) Ribble Valley* | *(b) Lancashire LEA* |
|---|---|---|
| *(1) Specialist schools included* | | |
| KS3-GCSE/GNVQ VA measure | 99.0 | 98.8 |
| (Number of schools) | (10) | (118) |
| *(2) Specialist schools excluded* | | |
| KS3-GCSE/GNVQ VA measure | 99.0 | 99.5 |
| (Number of schools) | (6) | (85) |

These figures represent the results of one particular cohort of pupils, showing their value-added over the two years leading up to GCSE. School and LEA figures are also available in the school performance tables covering pupil value-added over the three years leading up to KS3. Similar information for each of these key stages was also published for the 2002 cohorts. Any assessment of whether particular schools or types of school are more effective than others should take into account this wider picture, as well as recognising that small differences in VA scores may not indicate significant differences in effectiveness.

### School Fire Alarms

**Bob Russell:** To ask the Secretary of State for Education and Skills who is responsible for ensuring that fire alarms in schools comply with legislation and regulations. [157946]

**Mr. Miliband:** Under health and safety legislation responsibility for fire safety, including the maintenance of fire alarm systems, rests with the employer. With community schools, community special schools, voluntary controlled schools, maintained nursery schools and pupil referral units, the employer is the local education authority. For foundation schools, foundation special schools and voluntary aided schools, the employer is usually the governing body. With independent schools, the employer is usually the governing body or proprietor.

### Kurdish

**Dr. Tonge:** To ask the Secretary of State for Education and Skills what plans he has to allow students in UK schools to take Kurdish at GCSE level. [158303]

**Mr. Charles Clarke:** The decision whether or not to offer particular subjects at GCSE is one for the awarding bodies which are independent commercial enterprises. They do not currently offer a GCSE in Kurdish. The Department has no power to prescribe that subjects outside of the statutory national curriculum should be available at GCSE. For some areas of study, such as Kurdish, which are likely to have a relatively low number of candidates, the cost of providing an examination would be an important consideration for the awarding bodies.

### Vocational Qualifications

**Mr. Willis:** To ask the Secretary of State for Education and Skills whether level 2 entitlements for adults are available to individuals who are economically inactive. [156069]

**Mr. Ivan Lewis:** As we said in our Skills Strategy White Paper, "21st Century Skills", we will create a new guarantee of free tuition for any adult without a good foundation of employability skills to get the training they need to achieve such a qualification at level 2. We intend that it will apply to those in the workforce or of working age—including the economically inactive who are seeking those employability skills—who do not already have a full level 2 qualification, and who commit to trying to achieve one. The Government already waive tuition fees for certain categories of adults receiving income-based benefits such as income support, housing and council tax benefits and those undertaking basic skills learning. Many colleges also offer free or discounted learning for other groups of people including those not on state benefits.

### Medical Students

**Dr. Kumar:** To ask the Secretary of State for Education and Skills how many students entered universities to study medicine in *(a)* 1992, *(b)* 1997, *(c)* 2001 and *(d)* 2003. [148408]

**Alan Johnson:** The available figures are given in the table and cover accepted applicants through the Universities and Colleges Admission Service (UCAS).

*Accepted applicants through UCAS to pre-medicine study at UK institutions*

| *Year of entry* | *Number* |
|---|---|
| 1992 | 4,425 |
| 1997 | 5,029 |
| 2001 | 6,240 |
| 2002 | 6,959 |

*Source:*

The Universities Central Council on Admissions (1992) and Universities and Colleges Admissions Service.

### Postgraduate Education

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills what assessment his Department has made of the impact of the proposals for higher education on the number of students choosing to continue in postgraduate education. [157496]

**Alan Johnson:** As my right hon. Friend the Secretary of State for Education and Skills stated in the Second Reading debate on 27 January, there will be a review by an independent commission, reporting to Parliament directly on the impact of the new fee regime three years after implementation. Evaluation of the impact on postgraduate education will be considered as part of that review.

My right hon. Friend has also commissioned a report to examine the Gateways into the Professions which will be led by Sir Alan Langlands. The report will examine how the public sector and the professions can sustain and improve recruitment opportunities for graduates, especially those who do not qualify for the full £3000 support. Sir Alan will be reporting to us by mid 2005.

### Pupil Numbers

**Mr. Cousins:** To ask the Secretary of State for Education and Skills how many pupils were on the roll in each secondary school in Newcastle upon Tyne in each year since April 2000; and what percentage of those students *(a)* were eligible for and *(b)* took up free school meals. [157053]

**Mr. Miliband:** The available data are shown in the table.

*Maintained secondary schools[1]: School meal arrangements Newcastle upon Tyne local education authority area—Position in January each year*

| | *Number on roll[2,3]* | *Number known to be eligible for free meals* | *Percentage known to be eligible for free meals* | *Pupils taking free school meals* | *Percentage taking free school meals* |
|---|---|---|---|---|---|
| 2000 | 17,874 | 4,572 | 25.6 | 3,123 | 17.5 |
| 2001 | 18,071 | 4,573 | 25.3 | 2,988 | 16.5 |
| 2002 | 17,805 | 4,190 | 23.5 | 2,783 | 15.6 |
| 2003 | 17,808 | 4,213 | 23.7 | 2,890 | 16.2 |

[1] Includes middle schools as deemed.

[2] Includes dually registered pupils.

[3] For 2000–02 excludes boarding pupils.

*Source:*

Annual Schools' Census

It is the Department's current policy not to publish school level information unless the schools concerned have had the opportunity to confirm the information available through processes such as the performance tables. Information on free school meals has not been confirmed in this way.

**Sandra Gidley:** To ask the Secretary of State for Education and Skills how many children were being educated at each key stage in the Romsey constituency in each school year since 1997–98. [157077]

**Mr. Miliband:** The information requested is shown in the table.

*Maintained primary and secondary schools: number of pupils by key stage[1,2]—Position in January each year 1997 to 2003 Romsey parliamentary constituency*

| | Primary | | Secondary | |
|---|---|---|---|---|
| | *Key stage 1*[3] | *Key stage 2*[4] | *Key stage 3*[5] | *Key stage 4*[6] |
| 1997 | 2,020 | 3,960 | 4,140 | 2,730 |
| 1998 | 2,010 | 4,010 | 4,140 | 2,710 |
| 1999 | 2,010 | 4,020 | 4,260 | 2,700 |
| 2000 | 1,930 | 4,120 | 4,350 | 2,720 |
| 2001 | 1,850 | 4,090 | 4,470 | 2,810 |
| 2002 | 1,750 | 4,020 | 4,490 | 2,860 |
| 2003 | 1,850 | 4,070 | 4,470 | 2,910 |

[1] Key stage based on pupils' age.
[2] Figures have been rounded to the nearest 10.
[3] Pupils aged 5 and 6 at the start of the academic year.
[4] Pupils aged 7, 8, 9 and 10 at the start of the academic year.
[5] Pupils aged 11, 12 and 13 at the start of the academic year.
[6] Pupils aged 14 and 15 at the start of the academic year.

Annual Schools' Census

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Education and Skills what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155517]

**Mr. Stephen Twigg:** My Department uses the most appropriate national, regional, trade magazine publication or website for recruitment advertising, depending on the nature of the vacancy to be filled. The media used most regularly included the *Guardian/Observer, Times/Sunday Times, TES, Economist, Ethnic Media Group* and Personnel Publications.

The following table gives the advertising costs for Civil Servants recruited to work within my Department for the years 2001/02 and 2002/03. The figures represent a significant investment in bringing into the Department, at a senior level, people with delivery skills and experience in the wider education and skills sector and beyond.

The Department for Education and Skills was established in June 2001 and therefore the figures quoted for 2001/02 are from June 2001–March 2002. The figures for 2002/03 are for a complete financial year.

£

| | *2001/02* | *2002/03* |
|---|---|---|
| Central Recruitment relating to Grades AA–Grade 6 | 187,890.24 | 134,016.11 |
| Senior Civil Service Recruitment | 111,266.54 | 256,669.66 |
| Totals | 299,156.78 | 390,685.77 |

**Mr. Evans:** To ask the Secretary of State for Education and Skills how much his Department has spent on recruitment advertising in each year since 1997. [156452]

**Mr. Charles Clarke:** The following table gives the advertising costs for civil servants recruited to work within my Department for the years 2001/02 and 2002/03. The figures represent a significant investment in bringing into the Department, at a senior level, people with delivery skills and experience in the wider education and skills sector and beyond.

The Department for Education and Skills was established in June 2001 and therefore the figures quoted for 2001/02 are from June 2001-March 2002. The figures for 2002/03 are for a complete financial year.

£

| | *2001/02* | *2002/03* |
|---|---|---|
| Central recruitment relating to Grades AA–Grade 6 | 187,890.24 | 134,016.11 |
| Senior civil service recruitment | 111,266.54 | 256,669.66 |
| Total | 299,156.78 | 390,685.77 |

### School Buildings (Cleethorpes)

**Shona McIsaac:** To ask the Secretary of State for Education and Skills if he will list *(a)* new schools, *(b)* major building projects and *(c)* major refurbishments to schools in Cleethorpes constituency since 1997. [158118]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about all the new schools, major building projects and major refurbishments in Cleethorpes. This information should be held locally. However, the following table shows the total capital support provided by this Government for school buildings in North East Lincolnshire LEA and North Lincolnshire LEA since 1997–98.

*£ million*

| | *North East Lincolnshire* | *North Lincolnshire* |
|---|---|---|
| 1997–98 | 0.858 | 0.950 |
| 1998–99 | 2.987 | 2.635 |
| 1999–2000 | 3.137 | 2.241 |
| 2000–01 | 5.550 | 5.856 |
| 2001–02 | 3.599 | 10.019 |
| 2002–03 | 7.993 | 9.945 |
| 2003–04 | 7.718 | 6.113 |

We have to date, also allocated indicative funding for future years worth approximately £7.248 million in 2004–05 and £3.366 million in 2005–06 for North East Lincolnshire, and £10.051 million in 2004–05 and £2.542 in 2005–06 for North Lincolnshire.

### School Funding (Greater London)

**Simon Hughes:** To ask the Secretary of State for Education and Skills what the *(a)* schools funding spending share, *(b)* school pupil numbers and *(c)* schools funding spending share per pupil was in (i) Greater London and (ii) each London borough in each year since 1997. [158453]

**Mr. Miliband:** Education Formula Spending Share (EFSS) replaced the former Education SSA in 2003–04. There is no equivalent to Schools Formula Spending Share (SFSS) in years prior to 2003–04 so information is given in tables showing EFSS and SSA, pupil numbers

and EFSS/SSA per pupil in Greater London and for each London borough since 1997. A copy of the tables has been placed in the Library.

### School Sports Facilities

**James Purnell:** To ask the Secretary of State for Education and Skills what recent discussions he has had with universities on the opening of their sports facilities for out-of-hours community use. [157767]

**Alan Johnson:** There have been no discussions with universities on the opening of their sports facilities for out-of-hours community use. Higher education institutions (HEIs) are autonomous organisations and it is up to individual institutions to decide on the degree of public use of their sports facilities. This will vary depending on the type of facilities, the requirements of the local community and the needs of the institutions. However, I am aware that universities are already increasingly engaged in this type of activity.

### Special Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what the age profile of teachers in special schools is; and how many newly qualified teachers were recruited by these schools in the last year for which figures are available. [157605]

**Mr. Miliband** *[holding answer 1 March 2004]:* There were 100 newly qualified[1] entrants to full or part-time service in maintained special schools in England between March 2001 and March 2002.

The following table shows regular qualified teachers in full-time service in maintained special schools in England by age, at March 2002:

[1] Includes conventional and employment based training routes.

*Special schools*

| *Age* | *Number* |
|---|---|
| Under 25 | 80 |
| 25–29 | 690 |
| 30–34 | 950 |
| 35–39 | 1,190 |
| 40–44 | 1,830 |
| 45–49 | 3,380 |
| 50–54 | 3,260 |
| 55–59 | 1,370 |
| 60 and over | 160 |
| All ages | 12,910 |

*Provisional data:*
Database of Teacher Records

### Specialist Schools

**Mr. Brady:** To ask the Secretary of State for Education and Skills what percentage of bids for specialist school status made by *(a)* faith schools, *(b)* non-faith schools, *(c)* faith schools with a comprehensive intake, *(d)* non-faith schools with a comprehensive intake, *(e)* Church of England schools, *(f)* Roman Catholic schools, *(g)* grammar schools and *(h)* Roman Catholic grammar schools have been successful. [157751]

**Mr. Miliband** *[holding answer 1 March 2004]:* The following table shows specialist school applications over the last two years.

*Specialist school applications*

| *Type of school* | *Number of applications*[1] | *Percentage of applications successful* |
|---|---|---|
| Faith schools | 249 | 58.2 |
| Non-faith schools | 1,179 | 60.4 |
| Faith schools with a comprehensive intake | 217 | 66.8 |
| Non-faith schools with a comprehensive intake | 1,036 | 59.9 |
| Church of England schools | 71 | 56.3 |
| Roman Catholic schools | 172 | 58.7 |
| Grammar schools | 87 | 70.1 |
| Roman Catholic grammar schools | [2]7 | 14.3 |

[1] These figures include some schools which have applied on more than one occasion.
[2] Given the small sample size, this data should be interpreted with caution.

The selection process for the Specialist Schools Programme is robust and transparent.

It is open to all maintained secondary schools and our aim is that all schools that are ready should become specialist.

All unsuccessful applicant schools receive detailed written feedback based on independent assessments. The Specialist Schools Trust and Youth Sport Trust provide a range of support to these and other aspiring specialist schools.

### Student Drop-out Rates

**Chris Ruane:** To ask the Secretary of State for Education and Skills what research his Department has commissioned into *(a)* student drop-out rates in the poorest communities and *(b)* the impact of benefit rules on students dropping out of access courses. [156308]

**Alan Johnson:** We are not aware of research into student drop-out rates in the poorest communities. However, the Higher Education Funding Council for England (HEFCE) has found that levels of non-completion are correlated only very weakly, if at all, with social class after taking into account prior academic record (see HEFCE submission to the Education and Employment Committee, Sixth Report, 13 March 2001, HC 124, page 121). Other research has reached similar conclusions. Examples include:

"Right Choice? A follow-up to 'Making the Right Choice'", Connor H., Pearson R., Pollard E., Tyers C., Willison R. Universities UK 2001 http://www.employment-studies.co.uk/pubs/report.php?id = 1427uuk

"Dropping Out: A study of early leavers from Higher Education" Rhys Davies and Peter Elias, DfES Research Report 386 http://www.dfes.gov.uk/research/

Research shows that non-completion is a complex process that cannot normally be explained by any single factor. The reasons (many of which are inter-related) why people leave higher education include:

incompatibility between the student and their course or institution;

lack of preparation for higher education;

lack of commitment to the course;

financial hardship;

poor academic progress; and

health or other personal reasons.

The Department is not aware of research into the impact of benefit rules on students dropping out of access courses.

The UK non-completion rate has stayed broadly the same at around 17–18 per cent. since 1991–92 and this fell to just over 16 per cent. in the figures published in December 2003 by HEFCE. This represents one of the highest completion rates in the OECD and we are determined to maintain this level of performance.

HEFCE has allocated £225 million to institutions in 2003–04 for widening access and improving retention and recognises some of the additional costs of supporting students from non-traditional backgrounds and those who are less well prepared for higher education.

### Teachers (Retirement)

**Mr. Laws:** To ask the Secretary of State for Education and Skills what plans he has to raise the normal retirement age for teachers to 65; what estimate he has made of the cost savings from raising the pension age to 65; and if he will make a statement. [156575]

**Mr. Miliband:** The retirement age of teachers is covered in the contract of employment between the teacher and their employer. Issues relating to contractual retirement ages are still under consideration in the light of the policy on encouraging longer working lifetimes in the Green Paper (GM 5865) "Simplicity, security and choice: Working and saving for retirement. Action on occupational pensions"; and considerations on how legislation on age discrimination under the EU Employment Directive EC78/2000 will be implemented in the UK.

The provisions of the Teachers' Pension Scheme are currently under review in consultation with representatives of teacher and employer associations. This review is being conducted in the context of proposals to increase the normal pension age (ie the age at which scheme members can access an unreduced pension) to 65. It is proposed that the higher pension age would apply to new teachers from 2006 and to the future service of existing teachers from 2013. The impact on scheme costs of the increase in the normal pension age and any improvements that may be made to the existing provisions of the TPS will be assessed by the Government Actuary as options are worked up in consultation with teacher and employer representatives.

### Training Boards

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the annual cost to public funds is of the *(a)* Construction Industry Training Board and *(b)* Engineering Construction Industry Training Board; and if he will make a statement. [156586]

**Mr. Ivan Lewis:** The operating costs of the Construction Industry Training Board (CITB) and the Engineering Construction Industry Training Board (ECITB) are funded from a levy on the employers in the industries they cover.

They may receive public funding from government departments or agencies to support employer training through the delivery of particular projects or initiatives. In the financial year ended December 2003 the CITB received a total of £41,685,000 and the ECITB received £1,494,000. The vast majority of this was Learning and Skills Council funding to support the delivery of Modern Apprenticeships.

### Undergraduates

**Chris Grayling:** To ask the Secretary of State for Education and Skills how many undergraduate students there were in the United Kingdom on the latest date for which figures are available broken down by *(a)* age, *(b)* nature of course and *(c)* type of institution. [145106]

**Alan Johnson:** The available figures are given in the table.

*All undergraduate students enrolled at UK institutions, 2002/03*

| | *Pre-1992* | | *Of which: Russell group*[1] | | *Post-1992* | |
|---|---|---|---|---|---|---|
| *Age* | *1st degree* | *Other UG* | *1st degree* | *Other UG* | *1st degree* | *Other UG* |
| Up to 20 years | 332,673 | 18,565 | 164,300 | 6,165 | 201,829 | 33,816 |
| 21–24 years | 125,991 | 31,785 | 59,305 | 9,118 | 131,420 | 31,147 |
| 25 years plus | 51,845 | 257,405 | 15,934 | 44,109 | 102,069 | 105,671 |
| Total | 510,509 | 307,755 | 239,539 | 59,392 | 435,318 | 170,634 |

[1] The Russell Group includes the Universities of Birmingham, Bristol, Cambridge, Leeds, Liverpool, Manchester, Newcastle-upon-Tyne, Nottingham, Oxford, Sheffield, Southampton, Warwick, Edinburgh, Glasgow, Cardiff, Imperial College of Science, Technology and Medicine, King's College London, University College London and the London School of Economics and Political Science.

Higher Education Statistics Agency (HESA) and Learning Skills Council (LSC)

### Transitional Funding

**Shona McIsaac:** To ask the Secretary of State for Education and Skills (1) which local education authorities have submitted bids for additional transitional funding to assist schools and local education authorities with financial problems; [158117]

(2) what criteria has been set down for allocating the transitional relief which has been awarded to local education authorities to help schools with budget difficulties. [158120]

**Mr. Miliband:** The information requested has been placed in the Libraries.

## WORK AND PENSIONS

### Benefit Payments

**Mr. Webb:** To ask the Secretary of State for Work and Pensions what assessment he has made of likely reasons for the increase in Income Support and Jobseekers's Allowance overpayments to non-pensioners owing to official error; and if he will make a statement. [155892]

**Mr. Pond** *[holding answer 25 February 2004]:* The loss from fraud and error in Income Support (IS) and Jobseeker's Allowance (JSA) reduced to 7.3 per cent. in March 2003, compared to the 10.4 per cent. September 1998 baseline figure. This is the lowest ever level of loss recorded and builds on our previous achievements. We have now reduced by 30 per cent. the loss for people of working age receiving IS or JSA.

The Department estimates that the rate of overpayment in IS and JSA due to official error was 1.9 per cent. of expenditure for the period April 2002 March 2003. The equivalent figure in the previous year, for the period April 2001 to March 2002, was 1.8 per cent.

The increase of 0.1 per cent. is very small compared to the margins of sampling error around the two estimates. Furthermore, a change in the methodology between 2001–02 and 2002–03 increased the estimate of official error by 0.1 per cent. In these circumstances we cannot conclude that there has been a real increase in the underlying rate of official error. Further details on the methodology change will be provided in the next National Statistics report which is due to be published in March 2004.

### Child Support Agency

**Mr. Viggers:** To ask the Secretary of State for Work and Pensions what measures are available to the Child Support Agency to enforce payment; and in how many cases these have been invoked in each of the last five years. [153034]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr. Peter Viggers, dated 3 March 2004:*

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked what measures are available to the Child Support Agency to enforce payment; and in how many cases these have been invoked in each of the last five years.

Where a non-resident parent chooses not to pay child maintenance we will seek to discuss this by telephone when we will remind them of their legal responsibility. If there is still no adequate response and the non-resident parent is employed we will usually seek to implement, through the employer, a deduction from earnings. If the non-resident parent is self-employed, or has other forms of income, we can take action through the courts. This firstly involves establishing a liability order—normally through the Magistrates Court. When that is established we can then deploy a range of alternative enforcement mechanisms, including:

Levying of distress involving the use of Bailiffs;

Establishing a third party debt order—allowing money owed to the debtor to be frozen and sent to us to cover the outstanding debt;

Establishing a charging order—registering the debt against certain assets owned by the debtor;

Registering a County Court judgement, which may affect the debtors credit rating;

Applying for a warrant to commit the debtor to prison or for an order preventing them from holding or obtaining a driving licence.

The process and subsequent actions vary slightly in Scotland.

In the last four years we have applied a deduction from earnings in the following number of cases. We do not hold reliable data prior to 1999/2000.

| | *Number* |
|---|---|
| 1999/2000 | 121,074 |
| 2000/2001 | 51,673 |
| 2001/2002 | 64,584 |
| 2002/2003 | 113,120 |

The table below shows the number of cases that were referred by caseworkers for further specialist enforcement action.

| | *Number* |
|---|---|
| 1999/2000 | 7,663 |
| 2000/2001 | 3,561 |
| 2001/2002 | 3,546 |
| 2002/2003 | 8,054 |

I hope this is helpful.

**Bob Russell:** To ask the Secretary of State for Work and Pensions if he will take steps to amend Child Support Agency regulations to disregard from maintenance calculations the service overseas allowances paid to members of Her Majesty's Armed Forces. [157558]

**Mr. Pond:** No. Child Support regulations already provide that allowances which are exempt from tax, such as the Local Overseas Allowance, are disregarded for the purposes of maintenance calculations.

### Funeral Payments

**Sir Archy Kirkwood:** To ask the Secretary of State for Work and Pensions whether funeral payments have been made to help with costs incurred of funerals arranged overseas since 1997. [157822]

**Mr. Pond:** The information is not available.

Since 1997, people with the right to reside in the UK, under European Economic Community directives, may receive help for the cost of a funeral that takes place in the European economic area or Switzerland.

As long as the other conditions of entitlement are satisfied a funeral payment may be made equivalent to that which would have been paid if the funeral had taken place in the UK. The Department does not collect centrally information regarding the number of funeral payments made for funerals held outside the UK.

## New Deal

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the cost of the New Deal for Employment was in each year from 2001–02 to 2005–06 (planned); and if he will make a statement. [156702]

**Mr. Browne:** The information is in the table.

*New Deal costs*[1]

*£ million*

| | *2001–02 Outturn* | *2002–03*[2] *Forecast outturn* | *2003–04 Plans* | *2004–05 Plans* | *2005–06 Plans* |
|---|---|---|---|---|---|
| New Deal for Young People | 308 | 339 | 340 | 320 | 320 |
| New Deal 25 plus | 213 | 254 | 255 | 259 | 261 |
| New Deal 50 plus | 87 | 106 | 56 | 16 | 10 |
| New Deal for Lone Parents | 46 | 80 | 82 | 109 | 116 |
| New Deal for Disabled People | 10 | 27 | 27 | 27 | 27 |
| New Deal for partners | 8 | 6 | 11 | 26 | 39 |

[1] Includes programme and administrative spend.
[2] Figures are rounded to the nearest million.
*Source:*
Department for Work and Pensions Departmental Report 2003

**Sir Archy Kirkwood:** To ask the Secretary of State for Work and Pensions when elements of the Regulated Social Fund have been increased and by how much in *(a)* cash and *(b)* real terms; what research he has conducted on the cost of a simple, respectful and low cost funeral in each of the last six years; how many people have received funeral payments since 1997; and what the average award was in each year. [157821]

**Mr. Pond:** Funeral payments from the Social Fund cover, in full, the cost of certain necessary charges; these include fees levied by burial authorities and crematoria. An additional sum is allowed for other funeral expenses, which give the person arranging the funeral the freedom to select items or services they consider appropriate. This additional sum was increased to a maximum of £700 from 7 April 2003.

The total average funeral payment in 2002–03 was £929. The amount awarded in many cases can be much higher but this is often offset by money available from the deceased's assets, which may be taken into account.

The available information is in the table.

*Number and average amount of Social Fund funeral payments since 1997*

*£*

| | *Number of funeral payments* | *Average amount paid* |
|---|---|---|
| 1997–98 | 48,000 | 792 |
| 1998–99 | 46,000 | 839 |
| 1999–2000 | 44,000 | 866 |
| 2000–01 | 40,000 | 892 |
| 2001–02 | 42,000 | 909 |
| 2002–03 | 45,000 | 929 |

*Note:*
Number of funeral payments is rounded to the nearest thousand
*Source:*
DWP Social Fund Policy, Budget and Management Information System

The Department does not collect information on the cost of funeral services, however the amount of a funeral payment is kept under review and we continue to consult with representatives from funeral directors' associations, church groups and other interested organisations.

The available information regarding increases in elements of the regulated Social Fund is in the table.

*Regulated Social Fund prescribed elements in cash and real terms since 1997*

*£*

| | *Cash terms* | *Real terms 2003–04 prices* |
|---|---|---|

DWP Figures

### Student Loans

**Mr. Gray:** To ask the Secretary of State for Work and Pensions (1) whether student loans can be taken into account in calculating other benefits for *(a)* the student and *(b)* the student's spouse or partner; [152468]

(2) whether Jobseeker's Allowance eligibility is affected by the claimant's partner's student loan. [152471]

**Mr. Pond** *[holding answer 3 February 2004]:* Income related benefits are intended to help people whose resources are insufficient to meet their day to day living expenses; any income available to meet those expenses is normally taken into account when working out how much benefit can be paid.

A person in receipt of an income related benefit, including JSA (income based), Income Support, Housing Benefit and Council Tax Benefit will therefore have their or their partner's student loan taken into account when calculating the amount of benefit payable. Up to £605 of a student loan may be disregarded to take into account costs of travel, books and equipment.

Benefits that are not income related, including contribution based benefits, will not be affected by a student loan.

### Migrant Workers

**Mr. Simmonds:** To ask the Secretary of State for Work and Pensions how many jobcentre plus vacancies were filled during 2002–03 by *(a)* skilled and *(b)* unskilled migrants. [157585]

**Mr. Browne:** The information requested is not available.

## CONSTITUTIONAL AFFAIRS

### Data Protection

**Mr. Chope:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) if he will require the Information Commissioner to bring legal proceedings against individuals or organisations identified as purporting to be acting as a collector in relation to data protection but acting without the authority of the Information Commissioner; [157599]

(2) what action the Information Commissioner is taking to prevent organisations passing themselves off as the Data Protection Registrar; and if he will make a statement. [157589]

**Mr. Lammy:** The Commissioner carries out his statutory duties independently of government. He has no powers under the Data Protection Act to take legal action against "collectors", but he has been working closely with the Office of Fair Trading, local trading standards services across the country and various police forces to tackle the problem. The coordinated efforts of these bodies have resulted in a number of successful legal actions and continuing investigations.

The Commissioner has been able to take action in the case of one firm, which has been using his registered trademarks. The matter is currently in the hands of his lawyers.

In addition to these measures, the Commissioner has strengthened his notification administrative procedures and his staff continue to work very hard to offer appropriate advice to the public and to help raise awareness of the activities of these "collectors".

**Mr. Chope:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what estimate he has made of the number of *(a)* individuals and *(b)* organisations which have fallen victim to bogus collectors in relation to data protection in each of the last three years; [157600]

(2) what estimate he has made of the income received by the Information Commissioner from data protection registration fees under the Data Protection Act 1998 which emanated from bogus agencies in each of the last two years; [157591]

(3) on how many occasions fees forwarded to the Information Commissioner by bogus collectors on behalf of data protection were from organisations which do not need to be registered; and what happens to such fees; [157588]

(4) if he will estimate the cost to the Information Commissioner of telephone calls, correspondence and administration arising from the activities of bogus organisations posing as collectors in relation to data protection. [157587]

**Mr. Lammy:** I understand from the Information Commissioner that in total approximately 27,000 notifications have been received via these bogus agencies. There were some 2,500 in 2001–02; 12,000 in 2002–03; and 12,500 in 2003–04. The figures available do not distinguish between individuals and organisations.

The income received amounted to £420,000 in 2002–03 and £437,500 in 2003–04.

The Data Protection Act allows organisations whose processing is exempt from the notification requirement to notify voluntarily. From the documentation submitted through the bogus agencies, it is not possible for the Commissioner to assess whether a notification is mandatory or voluntary. Refunds are given where the registration is a duplicate or where organisations contact the Commissioner and qualify for an exemption. Figures for the total number of refunds made prior to August 2003 are not available. Since that date, there have been approximately 400.

The Commissioner estimates that the costs to his office of the bogus agencies in the year 2003–04 have been in the region of £100,000.

### Legal Aid

**David Davis:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what legal aid entitlement is available to *(a)* UK citizens and *(b)* non-UK citizens when charged with (i) civil and (ii) criminal offences. [156228]

**Mr. Lammy:** There are no nationality or residency requirements for using the courts in the United Kingdom. The availability of civil and criminal legal aid follows the same basic principle. Any individual, whether they are a UK citizen or not, may make an application for civil or criminal legal aid in any of the three jurisdictions within the United Kingdom (England and Wales, Scotland, Northern Ireland). The applicant, however, must pass the relevant merits and means criteria for the civil or criminal schemes within the jurisdiction where the application is made, and, in addition, the legal proceedings for which legal aid is sought must have originated within that jurisdiction.

## DEPUTY PRIME MINISTER

### Housing

**Miss McIntosh:** To ask the Deputy Prime Minister what his response is to the Country Landowners and Business Association report on affordable housing in rural areas. [157531]

**Keith Hill:** The Office of the Deputy Prime Minister welcomes the Association's report and the contribution it is making to the debate about the balance between the need for more affordable housing in many rural areas and protection of the countryside. The report's recommendations mainly relate to the planning system and will be taken into account in finalising the proposed changes to Planning Policy Guidance on Housing (PPG3) which were consulted on last summer.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will make a statement on affordable housing in rural areas. [157533]

**Keith Hill:** The Government are acutely aware of the difficulties caused in rural, and other, areas as a result of shortages of good quality affordable housing. A comprehensive programme of action to address this, and the problems associated with poor housing conditions and low demand and abandonment, was launched by my right hon. Friend the Deputy Prime Minister in "Sustainable Communities: Building for the Future" on 5 February 2003. This specifically recognises the importance of balancing provision of additional housing in rural areas with protection of the countryside.

The action to increase affordable housing focuses on improving the effectiveness of the planning system and the establishment of four growth areas to alleviate the overall housing pressures in London and surrounding areas. The Office of the Deputy Prime Minister has also increased the target for new affordable housing provided in settlements of less than 3,000 people.

Kate Barker, a member of the Bank of England's Monetary Policy Committee, is carrying out a review of issues underlying the lack of supply and responsiveness of housing in the UK. Her interim report published on 10 December set out the major analysis of these issues and the constraints that must be overcome to meet the housing need for this and future generations. The Government look forward to her final report, which is due later in the month.

**Miss McIntosh:** To ask the Deputy Prime Minister what the level of affordable housing stock in the Vale of York was on *(a)* 1 January 1997 and *(b)* 1 January 2004. [157534]

**Keith Hill:** The available information in respect of housing provided by local authorities and registered social landlords is presented as follows for the districts surrounding and including the Vale of York constituency:

*Social Dwelling stock for surrounding districts of the Vale of York constituency, as at 1 April*

| | *Local authority*[1] | | *Registered Social Landlord*[1] | | *Total* | |
|---|---|---|---|---|---|---|
| | *1997* | *2003* | *1997* | *2003* | *1997* | *2003* |
| Hambleton | 0 | 0 | 4,648 | 4,601 | 4,648 | 4,601 |
| Harrogate | 4,806 | 4,074 | 1,375 | 2,151 | 6,181 | 6,225 |
| York | 9,497 | 8,406 | 3,064 | 3,819 | 12,561 | 12,225 |

[1] Figures for the number of dwellings in 1997 include self-contained units only, while figures for 2003 include bed spaces and self-contained units.

*Source:*
ODPM's Housing Investment Programme return and Housing Corporation's Regulatory Statistical Return.

**Mr. Hoyle:** To ask the Deputy Prime Minister what the percentage of affordable housing stock is in the Chorley constituency. [158126]

**Keith Hill:** The available information in respect of housing provided by local authorities and registered social landlords is presented as follows for the district of Chorley:

*Social dwelling stock for Chorley district as at 1 April 2003*

| | *Number* | *As percentage of total stock* |
|---|---|---|
| Local Authority | 3,271 | 7.6 |
| Registered Social Landlord | 3,011 | 7.0 |
| Total | 6,282 | 14.6 |

*Source:*
ODPM's Housing Investment Programme returns and Housing Corporation's Regulatory and Statistical Return.

**John Cryer:** To ask the Deputy Prime Minister what the average waiting time was in each of the last four years for a person to be rehoused in the London borough of Havering. [157322]

**Keith Hill:** Information provided by the London borough of Havering showing the average waiting time for rehousing a person in the borough for the last four years is as follows:

| | *Average waiting time* |
|---|---|
| 1999–2000 | 2 years 5 months |
| 2000–01 | 2 years 5 months |
| 2001–02 | 2 years 5 months |
| 2002–03 | 2 years 10 months |

**John Cryer:** To ask the Deputy Prime Minister what the waiting list figures in the London borough of Haver. g for old age pensioner housing were in each of the last four years. [157323]

**Keith Hill:** The London borough of Havering have advised the Office of the Deputy Prime Minister that in 2001–02 the average waiting time for old age pensioner housing in the borough was one year and two months; in 2002–03 it was one year and four months. The boroughs' records for 1999–2000 and 2000–01 are held manually and could be collated only at disproportionate cost.

**Mr. Purchase:** To ask the Deputy Prime Minister pursuant to his answer of 12 February 2004, *Official Report*, columns 1650–51W, on housing stock transfer, what proportion of the *(a)* interest on and *(b)* capital of the £8 billion private investment he has planned will be repaid directly from public funds. [157291]

**Keith Hill:** The new landlord is responsible for servicing the interest and capital of any private finance taken out as part of the housing transfer. No assistance is given directly from public funds.

**Mr. Purchase:** To ask the Deputy Prime Minister pursuant to his answer of 12 February 2004, *Official Report*, columns 1650–51W, on housing stock transfer, what proportion of the extra £8 billion private investment has been invested in arm's length management organisation stock *(a)* directly and *(b)* indirectly. [157292]

**Keith Hill:** To date £12 billion of private funding is being used for the purchase and improvement of housing stock that has been transferred into the ownership of Registered Social Landlords. None of it is available for investment in stock owned by local authorities and managed by Arms Length Management Organisations (ALMOs). My answer of 12 February indicated that £900 million of public funding has so far been allocated for this latter purpose.

**Mr. Purchase:** To ask the Deputy Prime Minister pursuant to his answer of 12 February 2004, *Official Report*, columns 1650–51W, on housing stock transfer, what proportion of the nearly £900 million of public funding to bring homes up to the Decent Homes standard is additional to what would have been available had the housing stock remained under local authority management control. [157293]

**Keith Hill:** All of the £900 million so far allocated under the Arms Length Management Organisation (ALMO) programme is additional to the public funding available to all local authorities which own housing stock, irrespective of whether it is managed directly or by an ALMO.

### Leasehold (Bogus Charges)

**Mr. Sheerman:** To ask the Deputy Prime Minister what progress has been made towards the implementation of the provisions of the Commonhold and Leasehold Reform Act 2002 that will protect leaseholders from bogus ground rent charges. [157490]

**Keith Hill:** The Commonhold and Leasehold Reform Act 2002 includes provisions that will make it mandatory for landlords to give leaseholders a notice specifying how much ground rent is required, when the rent is payable and what the consequences are of non-payment. The leaseholder will also be given a grace period for paying the ground rent, which will be not be less than 30 days or more than 60 days after the day of the notice.

The measures will form part of the third Commencement Order which will deal with the outstanding accounting, insurance, forfeiture, ground rent and right to enfranchise provisions in the 2002 Act. The Order and associated regulations are expected to be laid in July this year, coming into force in most cases, three months later.

### Liveability Fund

**Mr. Dhanda:** To ask the Deputy Prime Minister if he will make a statement on the sums available through the Liveability Fund. [156818]

**Keith Hill:** The Liveability Fund is providing £89 million over three years (2003–06) to assist local authorities in identifying new and innovative ways of delivering improved 'liveability' services.

The fund will support 27 pilot areas to improve parks and public spaces with grants of between £2.1 million and £3.8 million.

### Local Authority Procurement

**Mrs. Roche:** To ask the Deputy Prime Minister how many local authorities now have a procurement champion in place; and how many local authorities have completed a procurement plan to ensure best practice as recommended in the Byatt Report. [158084]

**Mr. Raynsford:** The information requested is not held centrally and could be provided only at disproportionate cost. The National Procurement Strategy for Local Government, launched in October 2003, includes milestones for 2004 for each authority to appoint a procurement champion and to develop a corporate procurement strategy, owned by chief executives, members and senior officers.

On 25 February, the Office of the Deputy Prime Minister and Local Government Association (LGA) announced nine Centres of Procurement Excellence to support authorities in implementing the National Procurement Strategy. The centres will collect information about the implementation of the Strategy in each region, including progress in appointing champions and developing corporate procurement strategies.

### Millennium Dome

**Bob Spink:** To ask the Deputy Prime Minister what estimate he has made of the *(a)* maintenance and *(b)* management costs for the Millennium Dome (i) up to the date when it passes to the private sector and (ii) for the next financial year. [157829]

**Keith Hill:** English Partnerships (EP) has budgeted in accordance with the contracts signed between EP, Meridian Delta Ltd. and Anschutz Entertainment Group in May 2002, to continue to pay core Dome management and maintenance costs until construction of the new arena starts. Similarly, while the arena is under construction, EP has budgeted for a reduced level of costs. Those costs will cease on practical completion of the arena. We are not in a position to give estimates of costs at this stage, as there are negotiations proceeding which are commercially confidential. However, once the transaction with Meridian Delta Ltd. and Anschutz Entertainment Group has gone unconditional, which is expected in June this year, I will update the House further and provide more information on the expected future level of costs.

The Office of the Deputy Prime Minister has regularly updated the House on costs incurred by EP in relation to the Dome, including its management and maintenance. The average monthly cost for management and maintenance of the Dome from January 2003 to December 2003 was £221,000, including rates, utilities, security and EP staff costs.

All costs incurred by EP since it took over responsibility for the Dome in July 2001 and including the costs of the sale process will be recovered from the sale proceeds.

### Parliamentary Questions

**Malcolm Bruce:** To ask the Deputy Prime Minister when he will reply to the question from the hon. Member for Gordon, on Departmental Advertising, tabled on 22 January 2004, reference 149916. [158399]

**Yvette Cooper:** A reply was given to the hon. Member for Gordon on 2 March 2004, *Official Report*, column 820W.

### Red Ash

**Ms Walley:** To ask the Deputy Prime Minister what his Department's guidelines are for the removal of red ash from beneath residential properties; and if he will make a statement. [158101]

**Phil Hope:** Removal of the red ash material is only required where unacceptable excessive movement has occurred to a dwelling's ground floor. It will result in considerable disruption and expense for the property owner. The Building Research Establishment (BRE) has undertaken research and produced guidance for the Office of the Deputy Prime Minister. This guide is the Special Digest 1, "Concrete in aggressive ground" which may be purchased from BRE, Watford. It deals with problems of aggressive fill beneath floor slabs.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister what the cost of securing the Regional Assemblies (Preparations) Act 2003 and enabling referendums in the three northern regions has been to date. [157027]

**Mr. Raynsford:** It is not possible to disaggregate relevant staff and overhead costs.

To date £4,000 has been incurred on the soundings exercise, and the three consultations on the arrangements for the referendums.

Expenditure has also been incurred by the Electoral Commission, which receives resources from the Speakers Committee to cover its costs.

On 17 June 2003, my right hon. Friend the Deputy Prime Minister directed the Boundary Committee for England to conduct reviews of local government structure in the three Northern Regions. It is anticipated that the Office of the Deputy Prime Minister will provide £4.5 million to the Boundary Committee for England during 2003–04 for this work.

### Standards Board for England

**Mr. Steen:** To ask the Deputy Prime Minister what budget has been allocated for the running costs of the Standards Board for England in 2004–05; what its terms of reference are; how many and what percentage of complaints have been investigated since referral; and if he will make a statement on how the Board contributes to the functions of the Local Government Ombudsman. [158398]

**Phil Hope:** The current budget provisionally allocated for the Standards Board for England in 2004–05 is £8 million, subject to approval by Parliament to the Office of the Deputy Prime Minister's main estimates. The Board's principal roles, as provided for by Part III of the Local Government Act 2000, are to appoint ethical standards officers who investigate misconduct allegations against local government members, to decide whether allegations should be referred for investigation and to issue guidance to local authorities on matters relating to the conduct of members.

Of the 5,188 allegations received by the Board up to November last year, the total referred for investigation was 1,955 (38 per cent. of the total allegations received). Of these, the total number of investigations completed was 1,014.

The remit of the Standards Board is separate from that of the Commission for Local Administration in England, and the Board has no role with regard to the Commission's functions.

## HOME DEPARTMENT

### Antisocial Behaviour Orders

**Mark Tami:** To ask the Secretary of State for the Home Department what requirements are placed on local authorities and the police to liaise on and co-ordinate *(a)* their response to and *(b)* regulation of anti-social behaviour orders. [156449]

**Ms Blears:** Before applying for an anti-social behaviour order the police and local authority have a statutory duty to consult with each other. Where the applicant is a Registered Social Landlord, British Transport Police, a Housing Action Trust or a County Council, they must consult with both the local police and local authority. It is a matter of good practice that all agencies should be involved in monitoring the order once it has been granted.

**Mark Tami:** To ask the Secretary of State for the Home Department how many anti-social behaviour orders were granted in each local authority in each of the last two years in *(a)* England and *(b)* Wales. [156538]

**Ms Blears:** The available information will be placed in the Library.

**Mark Tami:** To ask the Secretary of State for the Home Department what research his Department has carried out into the propensity of individuals who have been served with anti-social behaviour orders to re-offend. [156545]

**Ms Blears:** Siobhan Campbell, in 'A Review of Anti-Social Behaviour Orders', Home Office Research Study 236, January 2002, found that just over one third of a sample of 20 individuals given ASBOs were known to have breached their order. Fewer (30 per cent.) had committed further offences during that time. In only four cases had the individual been taken to court for both breach and a further offence.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many Anti-Social Behaviour Orders have been made in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [157115]

**Ms Blears:** Data on the number of notifications, reported to the Home Office, of Anti-Social Behaviour Orders issued in Lancashire and Chorley in the last three years are given in the table.

*The number of ASBOs issued in Lancashire and Chorley, as notified to the Home Office by all courts, from 1 January 2001 to 30 September 2003 (latest available)*

| | Area | |
|---|---|---|
| *Period* | *Lancashire* | *Of which: Chorley* |
| 1 January 2001 to 31 December 2001 | 7 | 2 |
| 1 January 2002 to 30 November 2002[1] | 11 | — |
| 1 December 2002 to 30 September 2003 | 30 | 1 |
| Total issued | 48 | 3 |

[1] Following introduction of the Police Reform Act (2002) data for December 2002 are included in the first quarter data for 2003.

### CCTV (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for the Home Department if he will make a statement on the benefits of CCTV in Chorley. [157116]

**Ms Blears:** Police operational experience and general research studies show that CCTV has considerable crime reduction and detection potential, particularly when used as part of a wider strategy.

A detailed statistical evaluation of the impact of CCTV in Chorley is currently under way. The results of this should be available later this year.

Crime levels for local Crime and Disorder Reduction Partnerships, including Chorley, have been collected and published for six types of crime: violence against the person, sexual offences, robbery, burglary dwelling, theft of motor vehicles and theft from motor vehicles.

The latest figures are contained in Home Office Statistical Bulletin 07/03 "Recorded Crime England and Wales 2002/03".

### Credit Card Fraud

**Mr. Gibb:** To ask the Secretary of State for the Home Department (1) what assessment he has made of the quantity of credit card fraud on the internet in 2003; [157094]

(2) what measures he is undertaking to counter credit card fraud on the internet; [157098]

(3) what discussions he has had with the Association for Payment Clearing Services regarding credit card fraud on the internet; [157099]

(4) for what reason he has withdrawn funding from the Dedicated Cheque and Plastic Crime Unit; [157118]

(5) what assessment he has made of the amount of credit card fraud on the internet following the rolling out of chip and PIN across the United Kingdom; [157119]

(6) what his assessment is of the effect of internet credit card fraud on the *(a)* funding of terrorism and *(b)* proliferation of illegal drugs. [157120]

**Ms Blears:** The Government do not routinely collect figures on the cost of credit card fraud, but the Association for Payment Clearing Services (APACS) estimates the cost of internet fraud in 2002 (the most recent figures available) to be £28 million accounting for 7 per cent. of all card fraud losses.

The measures taken by Home Office to counter this include a recently launched website to combat fraud over the internet. The 'e-tailing mini site' forms part of the Crime Reduction Website and provides information to help both consumers and businesses protect themselves when using the internet.

The Home Office also participates in an APACS led Steering Group to tackle 'Card Not Present' (CNP) fraud. This includes fraud over the internet. We support practical measures being introduced by the industry to increase levels of security for internet transactions. These include Address Verification Services (AVS), Card Security Code (CSC), Mastercard Secure Code and Verified by Visa which are already making a significant impact on CNP Fraud. A manual ("Spot and Stop Card Fraud Retailer Pack") resulting from the CNP Steering Group's Work provides advice to merchants on the dangers of CNP fraud and the steps which can be taken to prevent it.

The Dedicated Cheque and Plastic Crime Unit (DCPCU) was set up as a two-year pilot in April 2002. The future of the Unit is currently under consideration. A decision about the future of the unit when the pilot ends in April will be made shortly.

It is not yet possible to make a realistic assessment of any likely increase in internet fraud following the introduction of Chip and PIN but the industry is taking measures, as outlined above, to minimise the risk.

As with other types of crime some of the proceeds of internet credit card fraud may be used to finance other forms of criminal activity. The extent is not known.

**Mrs. Iris Robinson:** To ask the Secretary of State for the Home Department what information he has collated regarding altered levels of ATM fraud where the chip and PIN credit card system is used exclusively. [157380]

**Ms Blears:** I understand from the Association of Payment Clearing Services that the chip and PIN system is not used exclusively anywhere in the world. We cannot therefore draw on experience to say what may happen in terms of possible fraud migration to ATMs once Chip and PIN is fully implemented in the United Kingdom.

The upgrading of cash machines to chip and PIN technology is more secure because the user needs both the genuine card and the PIN. This is a major improvement on the magnetic stripe and PIN system where a fraudster could have used the PIN with a counterfeit card.

## Crime Statistics

**Mr. Rosindell:** To ask the Secretary of State for the Home Department how many arrests were made in the Romford area of the London borough of Havering during *(a)* 1995, *(b)* 1997, *(c)* 1999, *(d)* 2001 and *(e)* 2003. [157014]

**Ms Blears:** Information on arrests collected centrally is based on persons arrested for 'notifiable' offences at police force area level only, in England and Wales. The information does not identify individual local authority areas.

**Chris Ruane:** To ask the Secretary of State for the Home Department (1) how many criminal offences involving broken bottles or broken glasses were committed in *(a)* Wrexham, *(b)* Rhyl, *(c)* Prestatyn, *(d)* Mold, *(e)* Flint, *(f)* Deeside, *(g)* Shotton, *(h)* Abergele, *(i)* Denbigh, *(j)* Holyhead, *(k)* Amlwch, *(l)* Bangor, *(m)* Caernarfon, *(n)* Dolgellau, *(o)* Bala, *(p)* Machynlleth, *(q)* Colwyn Bay, *(r)* Llandudno, *(s)* Conwy, *(t)* Ruthin and *(u)* Llangollen, in each of the past 15 years, listed in descending order; [156036]

(2) how many criminal offences involving broken bottles or broken glasses were committed in each police authority area in England and Wales in the last year for which figures are available; [156037]

(3) how many crime and disorder incidents there were at, and between, each railway station in North Wales in each of the past 10 years, listed in descending order. [156244]

**Ms Blears:** The requested information is not available centrally.

**Mr. Evans:** To ask the Secretary of State for the Home Department how many *(a)* arrests were made, *(b)* people were charged, *(c)* cautions were issued and *(d)* convictions there were in the North West, broken down by (i) police force, (ii) constituency and (iii) local authority area in each year since 1997. [156497]

**Ms Blears:** The available information, relating to persons arrested in the North West Region, by police force area, is contained in Table A. It is limited to arrests for notifiable offences and relates to the financial years, 1999–2000 to 2002–03.

The number of persons cautioned, proceeded against at the magistrates courts (numbers of persons charged are not held centrally) and found guilty at all courts for all offences, in the North West Region, by police force area, 1997 to 2002 is contained in Table B.

Statistics on cautions and court proceedings for 2003 will be published in the autumn.

*Table A. Persons arrested for notifiable offences recorded by the police, by police force area, North West Region, 1999–2000 to 2002–03*

| *Police force area* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* |

| Total | 27,096 | 307,406 | 228,697 |

[1] These data are on the principal offence basis.

### Criminal Records Bureau

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department what methods counter-signatories will be required to use *(a)* to obtain fingerprints from applicants and *(b)* to authenticate documents provided by applicants as set out in his consultation on new draft regulations for the Criminal Records Bureau. [156059]

**Ms Blears:** The draft regulations, issued for consultation on 1 December 2003, would require Registered Bodies, or their agents, to authenticate the identity of a Disclosure applicant by examining a combination of official or other documents (for example passports, driving licences and utility bills) which will help confirm the applicant's name, date of birth and current address. Counter signatories, or those carrying out identity checking on their behalf, should be alert for signs of tampering. The Criminal Records Bureau (CRB) has issued guidelines which identify suspicious signs to be on the lookout for when examining the documents commonly presented by applicants.

The draft regulations would not require counter signatories to obtain fingerprints from applicants. We have separately consulted on the Independent Review Team's proposal that applicants for the most sensitive positions should be required to submit their fingerprints with their Disclosure application. We are currently analysing over 2,000 responses to this consultation.

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department how the Criminal Records Bureau *(a)* check and *(b)* authenticate with the issuing bodies identity documents submitted with applications. [156060]

**Ms Blears:** Since the inception of the Criminal Records Bureau (CRB) Registered Bodies have checked the identity of applicants for Disclosures. Being closer to direct contact with applicants than the CRB they are best placed to do so. We have proposed, in the consultation paper we issued in December, that Registered Bodies be made explicitly responsible for validating the identity of those for whom they seek Disclosures. The CRB has issued guidance to Registered Bodies to help them identify common official documents that may have been forged or tampered with.

The CRB continues to check that Registered Bodies, or their agents, have undertaken the necessary checks to verify the identity of applicants. Where evidence of such checks is not recorded on the Disclosure application form they are rejected by the Bureau. In addition, as part of the proposed periodic audit of Registered Bodies, CRB staff will be checking to see that Registered Bodies properly discharge their responsibilities in this area. Furthermore, as part of their anti-fraud measures the CRB checks a sample of applications against lists maintained by the UK Passport Services and DVLA of fraudulently obtained passports and driving licences.

### Domestic Violence

**Chris Ruane:** To ask the Secretary of State for the Home Department how many domestic violence incidents were reported in the last 12 months, broken down by *(a)* police authority area, *(b)* local authority area and *(c)* basic command unit; and how many and what percentage of these incidents resulted in prosecution. [156243]

**Ms Blears:** Domestic violence is not separately identified in the recorded crime statistics collected by the Home Office nor in the statistics of court proceedings, because the circumstances of the offences are not collected. While the number of incidents of domestic violence in England and Wales are measured by the British Crime Survey (BCS), figures are not available by police force area or at more local levels.

In the 2002–03 BCS there were an estimated 501,000 incidents of domestic violence in England and Wales as a whole, 35 per cent. of which were reported to the police. This is from the main face-to-face part of the survey and shows a decrease of 38 per cent. since 1997.

### Football Supporters

**Bob Russell:** To ask the Secretary of State for the Home Department whether legislation to prevent football supporters from leaving the UK to attend matches abroad applies to *(a)* players and *(b)* officials. [157608]

**Ms Blears** *[holding answer 1 March 2004]*: The provisions of the Football Spectators Act 1989 (as amended by the Football (Disorder Act 2000) apply to all residents of England and Wales. No senior player or official is currently subject to a football banning order.

### Gun Crime

**Ms Abbott:** To ask the Secretary of State for the Home Department what assessment he has made of the performance of Government-funded community groups working to combat gun crime. [149786]

**Caroline Flint:** The Government are, in this financial year, providing £1.5 million specifically to support community action to help tackle gun crime. This is in addition to other funding, including through the Street Crime Initiative, to support community-based programmes that will help to tackle gun crime.

This work is on-going, but we will take stock, at an appropriate time, of the outcomes of the projects supported in order to inform future community-based action in this area. We will be developing a dedicated website to support those working to tackle gun crime, where we can provide information about existing programmes and spread examples of good practice.

### Katharine Gun

**Mr. Hancock:** To ask the Secretary of State for the Home Department what discussions he has had in the last 12 months with the *(a)* Secretary of State for Defence, *(b)* Department for Constitutional Affairs, *(c)* Prime Minister and *(d)* Attorney General over the Katharine Gun case. [158096]

**Mr. Blunkett:** I had no discussions with the Secretary of State for Defence, or the Department for Constitutional Affairs, or the Prime Minister on this matter.

I had no discussions with the Attorney-General. However, I was copied in on the "Shawcross Exercise", the process of which the Solicitor-General has already outlined to the House on 26 February 2004, *Official Report*, column 428.

### National Asylum Support Service

**Mr. Steen:** To ask the Secretary of State for the Home Department when he will publish the full independent review into the National Asylum Support Service; and for what reason it has not yet been published. [152425]

**Beverley Hughes:** Because of the level of public interest in the review and the recommendation from the Home Affairs Committee Ministers are currently considering the matter.

### Offender Assessments

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many offenders have undergone an OASys assessment in the last 12 months; and what the average cost per assessment was. [155961]

**Paul Goggins:** On 9 January 2004, the latest date for which figures from both services are available, the Prison Service OASys IT system held assessments on some 1,400 offenders while the National Probation Service OASys IT system held assessments on some 63,800 offenders. Figures are not held centrally on use of the paper-based OASys system that pre-dated the computerised system in the National Probation Service.

Reliable unit costs are not yet available. The Prison Service and National Probation Service expect to have figures towards the end of this year when implementation of OASys IT in the two Services is further advanced.

### Parliamentary Questions

**Miss McIntosh:** To ask the Secretary of State for the Home Department when he expects to reply to the oral Question of the hon. Member for the Vale of York (ref 155764), not reached on 23 February, on the number of acceptable behaviour contracts issued. [156873]

**Ms Blears:** I refer the hon. Member to the answer I gave on 23 February 2004, *Official Report*, column 222W.

### Police

**Sandra Gidley:** To ask the Secretary of State for the Home Department how many police were allocated to front line duties in Hampshire in each year since 1997. [157096]

**Ms Blears:** Information on front line policing is not available. We are, as part of the Police Performance Assessment Framework, collecting data from forces so that we can publish a baseline estimate of front line policing for all forces. This will be a valuable tool to drive up the amount of time spent on front line duties.

Published data are in the form of total police strength by police force area.

*Number of police officers[1] in Hampshire, 1997–2003*

| *As at 31 March* | *Police officers[2]* |
|---|---|
| 1997 | 3,452 |
| 1998 | 3,490 |
| 1999 | 3,473 |
| 2000 | 3,419 |
| 2001 | 3,438 |
| 2002 | 3,480 |
| 2003 | [3]3,668 |

[1] Full time equivalents.

[2] Excludes officers seconded to NCS, NCIS and Central Services.

[3] Comparable strength.

**Mr. Laws:** To ask the Secretary of State for the Home Department what the police retirement age is; what plans he has to increase this; what estimate he has made of the cost savings that would accrue if the retirement age was lifted to 65; and if he will make a statement. [156593]

**Ms Blears:** There is no fixed retirement age for the police. Under the Police Pensions Regulations officers with at least 25 years' service may retire with an immediate pension from age 50. Officers may also retire with an immediate pension, irrespective of age, after 30 years' service, when they will have accrued maximum benefits. This means that an officer who joined at age 18½—the earliest age at which it is possible to start as a police officer—is entitled to retire at age 48½ a with a full pension. Otherwise officers become eligible to retire with an immediate pension on reaching their compulsory retirement age, which ranges from 55 to 60 depending on the rank and force of the officer concerned. Officers with less than 25 years' service who leave the police with deferred benefits will receive their pension at age 60.

The Government are currently considering options for the modernisation of police pensions to make them more flexible and affordable for future entrants. We have launched a UK-wide consultation exercise on proposals for a new police pension scheme, to be introduced by April 2006. One of the key features of our proposals is the introduction of a minimum pension age of 55 for new entrants and the raising of the deferred pension age from 60 to 65 in line with the proposed rise in the normal pension age in other public service schemes.

Information is not available on the level of savings that would be involved if the police retirement age were to be raised to 65 for all officers. If such a calculation were carried out it is arguable that the cost implications

for operational effectiveness should also be taken into account. The Department of Work and Pensions Green Paper of December 2002, in proposing a normal public service pension age of 65, recognised that services like the police and the armed forces had specific needs which made a lower pension age appropriate for their members.

### Police Funding

**David Maclean:** To ask the Secretary of State for the Home Department if he will meet inflationary costs in employment costs, pensions, and supplies and services as part of the 2004–05 funding settlement for police authorities. [151874]

**Ms Blears:** All police authorities in England and Wales will receive a 3.25 per cent. increase in general grants, above the police pay award increase of 3 per cent. and general inflation projections of 2.6 per cent.

Prospective police pensions' costs are taken into account when overall grant provision is determined.

**Miss McIntosh:** To ask the Secretary of State for the Home Department for how long *(a)* community support officers and *(b)* rural policy officers will be funded centrally; and who will pay for the officers when central funding lapses. [156872]

**Ms Blears:** All Home Office Community Support Officer (CSO) funding continues until March 2006. The potential for central funding of CSOs after March 2006 is being considered as part of the Spending Review 2004, although 21 police forces are currently employing 964 CSOs whose costs have not been funded by the Home Office.

The Rural Policing Fund is reviewed annually and there are no plans to abolish it. I am satisfied that the fund meets a genuine need to improve the policing of the most sparsely populated areas in England and Wales.

**Mr Rosindell:** To ask the Secretary of State for the Home Department how much of the cost of policing Havering is paid for by *(a)* central Government and *(b)* the local council; and what the total cost is in 2003–04. [157041]

**Ms Blears:** The Metropolitan Police Authority (MPA) set a final budget of £2.2 billion in 2003–04. £443 million was raised through the police precept on council tax and £1764 million from general grants. The internal distribution of resources is a matter for the Commissioner of Police of the Metropolis and the MPA.

I understand that Havering's police budget for 2003–04 is £17.3 million. In addition to this, Havering benefits from services provided by specialist crime and operations directorates as well as support from other pan-London operational units.

### Police/Prison Officers

**Mr. Oaten:** To ask the Secretary of State for the Home Department what surveys his Department has conducted into the views of *(a)* police officers and *(b)* prison officers in the last two years. [155063]

**Ms Blears:** The information is as follows:

*(a) Police Officers*

The Home Office has conducted the following formal surveys of police officers views over the last two years:

1. Qualitative research to inform police service communications—June 2003

2. Survey on reasons for leaving the Police Service—2002

3. Two surveys on police leadership issues—late 2002/early 2003

4. Attitudes and perceptions relating to the impact of the Stephen Lawrence Inquiry on the police—commenced 2002 and work ongoing

5. Views and experiences of recording police stops—commenced 2003 and work ongoing

6. Police effectiveness in handling racist incidents—commenced in 2002 and work ongoing

7. A monitoring and evaluation project into community and race relations training—commenced late 2002 and work ongoing

8. Quality assurance research into community and race relations training—commenced late 2002 and work ongoing

9. Review of the Police and Criminal Evidence Act 1984–2002

10. Evaluation of the new Police Misconduct Procedures—published 2003.

The Home Office is, of course, continually in dialogue with police officers at all levels, seeking their views and options on a wide range of policing issues in a less formal context.

*(b) Prison Officers*

A National Staff Attitude Survey has been administered in-house to Prison Service staff annually between 2000–2003.

1. June 2002—Survey of Prison Service staff attitudes representing 36 per cent. of staff in post.

2. November 2003—Full-census staff attitude survey of all Prison Service staff.

Copies of reports between 2000–2002 are available in the Library. The final report for 2003 will be available in the late spring/early summer 2004.

### Police Vehicles (Accidents)

**Jim Dowd:** To ask the Secretary of State for the Home Department how many people have been *(a)* killed and *(b)* injured in road traffic accidents involving police vehicles in each of the past five years. [157779]

**Caroline Flint:** The number of police and civilian fatalities and injuries arising from police responses to immediate/emergency calls and pursuits will be placed in the Library.

### Northern Ireland (On-the-run Terrorists)

**Mr. Swire:** To ask the Secretary of State for the Home Department how many on the run terrorists have been apprehended and released back into the community in the last five years. [155647]

**Mr. Paul Murphy:** I have been asked to reply.

25 people, who had left Northern Ireland without completing their sentences, have been informed that they can return to Northern Ireland without serving more time in custody. The Government's proposals for dealing with on-the-run terrorists were set out in the

paper published on 1 May 2003 alongside the Joint Declaration. These proposals would only be taken forward within the context of acts of completion.

### Vandalism (Buses)

**Simon Hughes:** To ask the Secretary of State for the Home Department how many people have been prosecuted for vandalism on buses in London in the last two years; in how many cases on board CCTV footage was used in the prosecution; and how many convictions resulted. [156570]

**Ms Blears:** It is not possible to distinguish offences of vandalism on London buses from other types of criminal damage in the Home Office figures for court proceedings, as the circumstances of individual offences are not collected centrally.

## HEALTH

### Health Service Reforms

**Mr. Burstow:** To ask the Secretary of State for Health what funding has been allocated to support the national roll-out of "Agenda for Change"; and how this funding has been allocated. [156279]

**Mr. Hutton:** Additional funding worth 0.8 per cent. of main allocations has been allocated to primary care trusts (PCTs) in 2004–05 and a further 0.8 per cent. in 2005–06 to cover the costs of implementing "Agenda for Change" in acute and specialist hospital trusts, mental health trusts, ambulance trusts and PCTs themselves. Funding for implementation costs in strategic health authorities is currently being assessed but has not yet been allocated.

Additional funding equivalent to 0.1 per cent. of total PCT allocations in 2004–05 and a further 0.1 per cent. in 2005–06 has been allocated to PCTs in areas in and around London to meet the cost of the new high cost area supplements.

### Foundation Hospitals

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the cost of administration of the foundation hospital governance system. [157593]

**Mr. Hutton:** The cost of administration of the governance system for each National Health Service foundation trust will depend on a number of factors, including the size of the membership. Experience of other membership organisations suggests that the cost of establishing and maintaining a membership base of 5,000 people is likely to be around £2.25 per member per annum. For NHS foundation trusts, these costs will not be entirely additional as they will replicate some current activity that trusts are already doing around informing the public, patients and staff about issues affecting each trust.

### Consultant Contract

**Mr. Amess:** To ask the Secretary of State for Health when he expects that the consultant's contract will be implemented. [157139]

**Mr. Hutton:** Following the agreement reached last year with the British Medical Association and the NHS Confederation, National Health Service trusts and other employing organisations were asked to use the new NHS consultants' contract for all new appointments advertised after 31 October 2003 and give all existing consultants the opportunity to indicate by 31 October 2003 whether they wished to give a commitment to the new contract.

We expect that the great majority of consultants who have given a commitment to the new contract will have agreed job plans by 31 March 2004. Where, exceptionally, there are any consultants whose job plans have taken longer to complete than other consultants, NHS trusts and other employing organisations have been asked to agree arrangements with their strategic health authority to complete the process as early as possible in the new financial year.

### Dentistry

**Tim Loughton:** To ask the Secretary of State for Health what proportion of people used the internet to access information on NHS dentists in their area in *(a)* England and *(b)* Adur, Arun and Worthing in the last year for which figures are available. [156049]

**Ms Rosie Winterton:** The Department does not collect information about the number of people who use the internet to access information on national health service dentists.

**Mr. Andrew Turner:** To ask the Secretary of State for Health how many NHS patient treatments were undertaken by dentists *(a)* in England, *(b)* in each NHS region and *(c)* in each strategic health authority area in each year since 1997. [156062]

**Ms Rosie Winterton** *[holding answer 27 February 2004]:* The information available for the number of courses of treatment carried out by the General Dental Service (CDS) by national health service region and strategic health authority in england for the years ending March 1998 to 2003, has been placed in the Library.

A course of treatment may involve one or more visits to the dentist. A patient may have several courses in a single year.

Courses of treatment for children exclude courses where a payment claim is not required, which are mainly courses where only an examination takes place.

### Domiciliary Care Agencies

**Mr. Burstow:** To ask the Secretary of State for Health which conditions have been relaxed for domiciliary care agencies registered with conditions by the National Care Standards Commission; and for what length of time they have been relaxed. [156296]

**Dr. Ladyman:** Domiciliary care agencies must comply with the Domiciliary Care Agencies Regulations 2002 in order to be registered by the National Care Standards Commission (NCSC). These requirements have not been relaxed. Conditions are set by the NCSC at the

point of registration after an assessment has been made of the fitness of the service against regulations and taking into account National Minimum Standards.

The NCSC published guidance on 12 December 2003, setting out circumstances in which conditions could be attached to registration.

### Drug-related Deaths

**Mr. Burstow:** To ask the Secretary of State for Health what progress has been made in meeting the target of reducing the number of drug-related deaths since 1999. [156291]

**Miss Melanie Johnson:** The number of drug related deaths since 1999 is shown in the table.

| | *England and Wales* | *England only* |
|---|---|---|
| 1999 | 1,571 | 1,484 |
| 2000 | 1,666 | 1,565 |
| 2001 | 1,628 | 1,528 |
| 2002 | 1,565 | 1,456 |

*Notes:*

1. Since the publication of drug related deaths in 2001 in February 2003, additional substances have become controlled. Earlier years' data have been updated to reflect these drugs. This means that the new data are comparable across the time period, despite the fact that some of the drugs were not controlled in the earlier years.
2. The 2002 figures, published by the Office for National Statistics on 26 February 2004, show a fall in the number of drug related deaths for the second consecutive year and the figure is now below the 1999 baseline.

*Source:*

Office for National Statistics.

### Equine Slaughter

**Mr. Gray:** To ask the Secretary of State for Health how many slaughterhouses are licensed for the slaughter of equines. [156565]

**Miss Melanie Johnson:** I have been advised by the Food Standards Agency that in the United Kingdom twelve slaughterhouses are licensed to slaughter equines; 11 in England and one in Northern Ireland.

### Medical Training (EU Accession States)

**Mr. Burstow:** To ask the Secretary of State for Health what assessment he has made of whether medical training in the accession states conforms to the minimum EU requirements. [156297]

**Mr. Hutton:** All accession states are committed to ensuring that the qualifications they award to doctors who began their training on or after the date of accession meet specified minimum European Community requirements. Their holders can then benefit from automatic recognition throughout the EC. Practitioners from these states who are already qualified or are currently in training must show that they either meet these requirements in full or have recent and substantial practice experience.

**Mr. Baron:** To ask the Secretary of State for Health what estimate has been made of the number of *(a)* nurses and *(b)* midwives from accession countries who will seek to work in the United Kingdom following accession. [156861]

**Mr. Hutton** *[holding answer 27 February 2004]:* No estimate has been made.

The Nursing and Midwifery Council will, in due course, will have statistics about the numbers of nurses and midwives from accession countries who join its register.

**Mr. Baron:** To ask the Secretary of State for Health whether *(a)* nurses and *(b)* midwives from EU accession countries would currently be able to work in the United Kingdom using qualifications from their home country if they were given permission to seek work in the UK. [156863]

**Mr. Hutton** *[holding answer 27 February 2004]:* Relevantly qualified practitioners from the accession states will be able to work in the United Kingdom after accession.

All nationals from the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia who find work in the United Kingdom will be required to register with the Home Office under the new Worker Registration Scheme as soon as they find work.

### Flu Vaccine

**Sandra Gidley:** To ask the Secretary of State for Health what the take-up rates for influenza vaccine were at 1 January *(a)* in England and *(b)* broken down by (i) primary care trust and (ii) strategic health authority. [154353]

**Miss Melanie Johnson:** Information on the uptake rates for flu vaccine in those aged 65 and over for 2003–04 by primary care trust and strategic health authority has been placed in the Library.

**Dr. Starkey:** To ask the Secretary of State for Health if he will change the guidelines on free influenza vaccinations to include carers. [156687]

**Miss Melanie Johnson:** Policy for those receiving free flu vaccination is currently under review. Carers are one of the groups under consideration.

### Food Supplements Directive

**Sir Nicholas Winterton:** To ask the Secretary of State for Health (1) for what reasons his Department opposed the application to the High Court in London brought by the Health Food Manufacturers Association, the National Association of Health Stores and Consumers for Health Choice for leave to appeal to the European Court of Justice against the provisions of the Food Supplements Directive; upon what date the case was heard; what the outcome of the case was; and if he will make a statement; [155194]

(2) if he will make funds available to the Health Food Manufacturers Association, the National Association of Health Stores, and Consumers for Health Choice to

enable them to proceed to the European Court of Justice with their case relating to the Food Supplements Directive; [155195]

(3) on what date in 2003 the Minister for Public Health met industry representatives to discuss their concerns about the Food Supplements Directive; on what date the Minister subsequently approached the office of Commissioner Byrne to seek a meeting to discuss those issues; on what dates the approach was subsequently pursued; and if he will make a statement on the reasons for the failure so far to arrange such a meeting. [155196]

(4) when the Minister for Public Health next expects to meet representatives of the Health Food Manufacturers Association, the National Association of Health Stores, and Consumers for Health Choice to discuss their concerns about the Food Supplements Directive; and what progress the Minister will report at that meeting; [155197]

(5) what information he has received about the timing of the case being taken to the European Court of Justice in relation to the Food Supplements Regulations; what assistance he intends to give the Health Food Manufacturers Association and the National Association of Health Stores in preparing that case; and if he will make a statement. [155198]

**Miss Melanie Johnson:** The National Association of Health Stores (NAHS) and The Health Food Manufacturers' Association (HFMA) have challenged The Food Supplements (England) Regulations 2003 and The Food Supplements (Wales) Regulations 2003 on grounds that the underlying Directive is in part invalid because of incompatibility with Community law. They sought a reference to the European Court of Justice (ECJ) regarding the validity of the relevant parts of the Directive and then the quashing of the relevant part of the England and Wales Regulations.

At a hearing on 30 January 2004 the judge gave permission for judicial review of the Regulations and ordered that there be a reference to the ECJ for a preliminary ruling in respect of the validity of the Directive. Formal reference to the ECJ is likely to take place around the end of February. I understand that the ECJ takes approximately 24 months to give a preliminary ruling; however the national court will request expedition by the ECJ.

Article 10 of the European Community Treaty imposes a duty on member states to take all appropriate measures to ensure fulfilment of the obligations arising out of the Treaty or resulting from action taken by institutions of the Community. The Government had a responsibility to ensure that the full arguments concerning the validity of the Directive were put before the court, so that it could see the reasoning on both sides before deciding whether to grant permission for the case to proceed and whether to order that a reference be made to the ECJ.

The Government have no plans to make funds available to the claimants. At the appropriate point the United Kingdom like other member states will decide on what if any observations it will make to the ECJ.

I met with industry representatives to discuss their concerns about the Food Supplements Directive on 7 October 2003.

Since then I have been seeking to arrange a discussion about the setting of EC maximum permitted levels for vitamins and minerals in food supplements with Commissioner Byrne at the earliest practical opportunity. As to the timing of this meeting, it should be noted that we do not expect the Commission's proposal on maximum levels for another two to three years and there are currently no formal EC discussions on maximum levels under way.

I have no current plans to meet representatives of the Health Food Manufacturer's Association, the NAHS and Consumers for Health Choice again. However, I will consider a further meeting when I have discussed maximum levels with Commissioner Byrne and the industry has experience of submitting safety dossiers to the European Food Safety Authority so that discussions can also cover how that process is working.

### School Fruit Scheme

**Mr. Hoyle:** To ask the Secretary of State for Health which schools in the Chorley constituency benefit from the free fruit scheme. [157255]

**Miss Melanie Johnson:** The following 50 schools in the Chorley District of Lancashire local education authority receive fruit under the National School Fruit Scheme:

Chorley All Saints Church of England Primary School and Nursery Unit

Duke Street Primary School

Highfield Primary School

Chorley, the Parish of St. Laurence Church of England Primary School

Sacred Heart Catholic Primary School, Chorley

St. George's Church of England Primary School, Chorley

Chorley St. James' Church of England Primary School

St. Joseph's Catholic Primary School, Chorley

Gillibrand Primary School

Chorley St. Mary's Catholic Primary

Chorley St. Peter's Church of England Primary School

St. Gregory's Catholic Primary School, Chorley

Buckshaw Primary School

Rivington Voluntary Aided Primary School

Adlington St. Paul's Church of England Primary School

Adlington Primary School

St. Joseph's Catholic Primary School, Brinscall

Lancaster Lane Community Primary School

Clayton-le-Woods Manor Road Primary School

Clayton-le-Woods Westwood Primary School

Anderton St. Joseph's Catholic Primary School

Bretherton Endowed Church of England Voluntary Aided Primary School

Brindle St. James' Church of England Voluntary Aided Primary School

Brindle Gregson Lane Primary School

St. Joseph's Catholic Primary School, Brindle

Christ Church Charnock Richard Church of England Primary School

St. Bede's Roman Catholic Primary School, Clayton Green

Clayton-le-Woods Church of England Primary School

Coppull Parish Church of England Primary School

Coppull St. John's Church of England Voluntary Aided Primary School

St. Oswald's Catholic Primary School, Coppull

Coppull Primary School

Croston Trinity & St. Michael's Church of England Methodist Primary School

Eccleston St. Mary's Church of England Primary School

Euxton Church of England Voluntary Aided Primary School

Euxton St. Mary's Catholic Primary School

Euxton Primrose Hill Primary School

Heskin Pemberton's Church of England Primary School

Mawdesley St. Peter's Church of England Primary School

SS Peter and Paul Catholic Primary School, Mawdesley

Balshaw Lane Community Primary School

Eccleston Primary School

Clayton Brook Primary School

St. Chad's Catholic Primary School

Whittle-le-Woods Church of England Primary School

Brinscall St. John's Church of England and Methodist Primary School

Abbey Village Primary School

Withnell Fold Primary School

Chorley Astley Park

Mayfield School

### Breast Cancer

**Mrs. Calton:** To ask the Secretary of State for Health whether the NHS will offer genetic testing of the complete BRCA2 gene instead of the current test. [156897]

**Miss Melanie Johnson:** The National Institute for Clinical Excellence is preparing guidance for the national health service in England and Wales on the identification and management of genetic risk of familial breast cancer, with which the BRCA 2 gene is associated. This is due to be published shortly and is expected to include guidance on when it is appropriate to refer individuals for genetic testing, and the type of test which should be offered.

### Hepatitis C

**Simon Hughes:** To ask the Secretary of State for Health how many new cases of hepatitis C have been diagnosed among drug users in *(a)* London and *(b)* England in each of the last five years; and if he will make a statement. [156561]

**Miss Melanie Johnson:** Laboratory reports of antibody to hepatitis C in London and England from 1999 to 2003, where injecting drug use is given as a risk factor, are shown in the table. The majority of cases of acute hepatitis C infection do not result in symptoms and therefore new infections are not usually identified. These laboratory reports do not distinguish between new and previous infections.

*Laboratory reports of hepatitis C infection in London and England 1999–2003, where injecting drug use is given as a risk factor*

| | *1999* | *2000* | *2001* | *2002* | *2003*[1] |
|---|---|---|---|---|---|
| London | 338 | 283 | 399 | 366 | 377 |
| England | 5,297 | 4,893 | 4,665 | 5,547 | 6,129 |

[1] Provisional data.

*Source:*
Health Protection Agency.

### HIV/AIDS

**Mr. Nigel Jones:** To ask the Secretary of State for Health how many new HIV positive cases were recorded in each of the last 10 years for which figures are available; how many deaths from HIV/AIDS there were in each year; how many HIV positive cases have been reported in total; and if he will make an assessment of likely future trends of the disease. [157485]

**Miss Melanie Johnson:** The numbers of new diagnoses of HIV infection and deaths in HIV-infected individuals, with or without reported AIDS, recorded in England in each of the last 10 years are shown in the table. By the end of December 2003, a total of 56,286 individuals had been reported as diagnosed with HIV infection in England since the start of the epidemic.

The latest estimates for future trends in numbers of diagnosed individuals living with HIV were published by the Health Protection Agency (HPA) at the end of 2002. They are available on the HPA website at http://www.hpa.org.uk/infections/topics_az/hiv_and_sti/publications/hiv_annual_2002.pdf.

| *Year*[1] | *Newly diagnosed HIV infections* | *Deaths* |
|---|---|---|
| 1993 | 2,404 | 1,422 |
| 1994 | 2,362 | 1,527 |
| 1995 | 2,449 | 1,528 |
| 1996 | 2,477 | 1,308 |
| 1997 | 2,512 | 652 |
| 1998 | 2,618 | 446 |
| 1999 | 2,878 | 417 |
| 2000 | 3,618 | 424 |
| 2001 | 4,716 | 422 |
| 2002 | 5,531 | 336 |

*Note:*
Numbers for recent years will rise as delayed reports are received.
*Source:*
Communicable Disease Surveillance Centre, Health Protection Agency (data to the end of December 2003).

### Hospital Regulators

**Mr. Burstow:** To ask the Secretary of State for Health how many *(a)* organisations and *(b)* regulators are entitled to (i) inspect and (ii) regulate NHS hospital trusts in England. [154009]

**Mr. Hutton:** Using the definition in The Better Regulation Task Force's report, "Independent Regulators", there are 31 bodies with the right to inspect or regulate national health service hospital trusts in England. However, 18 of these are regulators of the professions, or professional bodies, whose inspection roles apply only to training which a hospital might provide.

From 1 April 2004, the Commission for Health Improvement, the Social Services Inspectorate and the National Care Standards Commission will cease to exist. At the same time, three new bodies will be introduced: the Commission for Healthcare Audit and Inspection, the Commission for Social Care Inspection and the Foundation Trusts Regulator, but in most cases they will replace or rationalise a number of the functions of existing bodies.

### Long-term Care

**Sandra Gidley:** To ask the Secretary of State for Health what target he has set for intensive home care as a percentage of intensive home and residential care. [158053]

**Dr. Ladyman:** The Department's Public Service Agreement includes a target to increase the number of those supported to live intensively at home to 30 per cent. of all those being supported at home or in residential care by March 2006. The percentage has risen by nearly two points, from 27.2 per cent. in 2001–02 to 29 per cent. in 2002–03.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the Answer of 30 January 2004, *Official Report*, column 559W, on long-term care, how the estimates for *(a)* income from user charges for personal care at home, *(b)* savings of disability benefits and *(c)* publicly funded residents with incomes high enough to meet some care costs were derived. [156350]

**Dr. Ladyman:** In 2001–02, councils received around £320 million in income from user charges for domiciliary services. This information can be found on the Department's website. This is assumed to rise to around £350 million in 2003–04.

Savings from disability benefits were estimated in the manner described in the reply of 25 February 2004, *Official Report*, columns 466–67W.

The costs in respect of publicly funded residents with incomes high enough to meet care costs are an estimate, in the absence of data. A comparison of local authority data on the numbers of older supported residents in independent sector care homes and Department for Work and Pensions data on the numbers of older recipients of the residential allowance suggests that around 20 per cent. of older supported residents did not receive the residential allowance. This suggests that around 20 per cent. of supported residents have incomes above £168 per week, which is both the cut-off for receipt of residential allowance by older residents and the assumed level of hotel costs. This would amount to some 57,000 supported residents. If the average income of this subgroup—for which data are not available—was around £200 per week, the annual cost of free personal care for this group would be around £100 million.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 30 January 2004, *Official Report*, column 559W, on long-term care, whether there would be offsetting savings to the Department for Work and Pensions' expenditure on disability benefits for older people receiving care at home, if the personal care were to be provided free. [156466]

**Dr. Ladyman:** Free personal care would not result in any savings to the Department for Work and Pensions' expenditure on disability benefits for older people receiving care at home. This is because receipt of local authority funded home care, unlike receipt of local authority supported residential care, does not trigger loss of disability benefits.

**Mr. Burstow:** To ask the Secretary of State for Health how many people over 75 were admitted to long-term care following a fall in each year since 1997; and if he will make a statement. [156644]

**Dr. Ladyman:** Information on the number of people over 75 admitted to long-term care following a fall is not centrally available.

### Waiting Lists/Times

**Sarah Teather:** To ask the Secretary of State for Health how long on average patients suffering from Lupus (SLE) waited to obtain a hospital out-patient appointment following referral to a specialist unit by their general practitioner in *(a)* London and *(b)* England in the last period for which figures are available. [156161]

**Dr. Ladyman:** Data on waiting times for lupus patients are not collected centrally.

### Lymphoedema

**Mrs. Roe:** To ask the Secretary of State for Health what guidelines are in place to ensure that non-cancer related lymphoedema patients receive appropriate compression garments as part of their treatment for the condition. [156533]

**Dr. Ladyman** *[holding answer 2 March 2004]:* We have issued no specific guidance to hospital trusts and primary care trusts for the provision of compression garments to non-cancer related lymphoedema patients. Decisions on what treatments to offer to patients with lymphoedema are a matter for the clinicians in charge of their care.

### Medical Staff (Terms and Conditions)

**Bob Spink:** To ask the Secretary of State for Health if he will investigate conformity with *(a)* his advice Amendments to the terms and conditions of service for hospital medical and dental practitioners and *(b)* his Advance Letter, AL MD 1/01 paragraph 22, m & n, published by the Department of Health in 2001. [R] [153417]

**Mr. Hutton:** The implementation of the terms and conditions of service is the responsibility of national health service employing organisations.

Monitoring of NHS employers' activities at this level of detail is not carried out centrally.

### Mental Health Services

**Tim Loughton:** To ask the Secretary of State for Health what percentage of the assertive outreach teams are operational 24 hours per day, seven days per week. [154408]

**Ms Rosie Winterton:** As set out in the Mental Health Policy Implementation Guide (2001), assertive outreach teams do not need to be operational 24 hours per day, seven days per week, but provide evening and weekend cover.

According to the Durham adult mental health services mapping database, approximately 29 per cent. of assertive outreach teams provide access to a 24 hours per day, seven days per week on-call service. A further 41 per cent. provide evening and weekend cover.

This means that 30 per cent. of assertive outreach teams in operation do not fully comply with the service specification set out in the Mental Health Policy Implementation Guide as yet. We expect full compliance with NHS Plan targets for new teams and services by December 2004.

**Mr. Hoyle:** To ask the Secretary of State for Health what plans his Department has to increase the number of beds for mental health trusts. [154742]

**Ms Rosie Winterton:** The Government set out priorities for local services for the reform and modernisation of mental health services in the "NHS Plan and the Priorities and Planning Framework 2003–06", supported by over £300 million extra investment announced in the NHS Plan.

In line with the "NHS Plan" and the "Priorities and Planning Framework 2003–06", 500 secure beds and 320 24-hour staffed beds have been created. A further 200 long-term secure beds and 140 secure personality disorder places will be in place by the end of the year.

The Government expect that the establishment of new teams and services, including a wider range of residential and secure provision for people with severe mental ill health, designed to ensure care and treatment tailored to individual needs, will ease pressure on the existing psychiatric beds provided by mental health trusts.

## Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Health how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156150]

**Ms Rosie Winterton:** The information is as follows:

Between Monday 9 June 2003 and Sunday 1 February 2004:

My right hon. Friend the Secretary of State for Health delivered 12 speeches.

My right hon. Friend the Minister of State for Health (Mr. Hutton) delivered nine speeches.

My hon. Friend the Under-Secretary of State for Health (Miss Johnson) delivered 19 speeches.

My hon. Friend the Under-Secretary of State for Health (Dr. Ladyman) delivered 27 speeches.

My noble Friend the Under-Secretary of State for Health (Lord Warner) delivered seven speeches.

I have delivered 19 speeches.

These speeches were made outside of Parliament, in connection with official duties and copies of the speeches can be obtained from the Department of Health website at www.dh.gov.uk

## Nursing

**John Cryer:** To ask the Secretary of State for Health how many additional nurses have been employed in the Barking, Havering and Redbridge Hospitals Trust since *(a)* 1997 and *(b)* 2001. [157328]

**Mr. Hutton:** Barking, Havering and Redbridge Hospitals National Health Service Trust was established in 2001. Figures for qualified nursing, midwifery and health visiting staff are shown in the table.

*NHS hospital and community health services: Qualified nursing, midwifery and health visiting staff in the Barking, Havering and Redbridge Hospitals NHS Trust as at 30 September each specified year*

| | *Headcount and Percentage headcount* |
|---|---|
| 2001 | 1,761 |
| 2002 | 1,814 |
| Increase | 53 |
| Percentage increase | 3.0 |

*Source:*
Department of Health Non-Medical Workforce Census.

**Mr. Amess:** To ask the Secretary of State for Health what measures the Government are taking to ensure that the NHS does not employ nurses and other medical staff from developing countries with whom they do not have a bilateral agreement or memorandum of understanding. [157142]

**Mr. Hutton:** All national health service employers involved in international recruitment are strongly commended to adhere to the code of practice published by the Department in 2001. One of the guiding principles of this code is that developing countries should not be targeted for recruitment. We have issued a list of developing countries that the NHS should not actively recruit from. A copy of this code is available at: www.dh.gov.uk/PolicyAndGuidance/HumanResourcesAndTraining/MoreStaff/fs/en.

We publish a list of recruitment agencies who have agreed to comply with the code. NHS bodies are strongly commended to use recruitment agencies on that list. We monitor compliance to the code of practice through information supplied by strategic health authorities.

**Mr. Burstow:** To ask the Secretary of State for Health how many nursing students qualified but did not join the Nursing Register in each year since 1996. [156280]

**Mr. Hutton:** This information is not collected centrally but can be obtained from the Nursing and Midwifery Council, which is an independent statutory body.

## Pharmacies (Security)

**Mr. Lansley:** To ask the Secretary of State for Health (1) what measures he has taken in the context of the NHS contract with pharmacists to support security measures on their premises; [155583]

(2) how many pharmacists on contract to the NHS were victims of crime on their premises in 2003. [155584]

**Ms Rosie Winterton:** The Royal Pharmaceutical Society of Great Britain's code of ethics and standards requires pharmacy premises to be safe for the public and staff working there. Currently, pharmacists can contact

their local pharmaceutical committee, primary care trust or police to find out what additional support and advice is available locally on security measures that they can employ.

The Counter Fraud and Security Management Service (CFSMS) was launched in April 2003 with a remit encompassing policy and operational responsibility for the management of security in the national health service. The remit can be defined as protecting people and property so that the highest standards of clinical care can be achieved. This includes tackling violence against staff and professionals working in the NHS.

From April 2004, all health bodies will be required to nominate a suitable person to perform the role of local security management specialists (LSMS). These LSMS will be trained by the CFSMS, so that they can take the lead for security management work within the NHS, including primary care.

While security has not been raised in recent contractual discussions, the CFSMS will shortly be meeting the pharmaceutical services negotiating committee to discuss what support on security management the CFSMS and the LSMS can give to community pharmacies.

Information on the number of community pharmacists owning, or employed by companies, with NHS contracts who were victims of crime on their premises is not collected or held centrally.

### Retirement Age

**Mr. Laws:** To ask the Secretary of State for Health what plans he has to raise the normal retirement age for NHS staff; what estimate he has made of the cost savings from raising the pension age to 65; and if he will make a statement. [156576]

**Mr. Hutton:** There is no nationally determined retirement age for nurses and other non medical staff.

Hospital, public health and community doctors employed under the existing terms and conditions of service are required to retire at age 65, although there is provision for an employing authority to extend employment in a locum capacity beyond 65. Consultants are free to transfer to the 2003 consultant contract under which there is no age restriction to practice.

There is no age restriction on doctors in the personal medical services (PMS). The requirement that existing general medical services doctors cannot act as principals after age 70 is removed from 1 April 2004. Fitness to practice will be assessed by rigorous and objective tests which will replace the existing arbitrary age limit.

The national health service pension scheme is currently subject to review. It is too early to provide an estimate of the cost implications of any changes that may be considered as a part of that review.

### Rural Health Care

**Dr. Murrison:** To ask the Secretary of State for Health if he will make a statement on progress made towards primary care targets set out in the Rural White Paper. [154904]

**Mr. Hutton:** Progress made towards the primary care commitments set out in the Rural White Paper was included in the Rural White Paper Review, published by the Department for Environment, Food and Rural Affairs on Wednesday 14 January 2004.

### Schizophrenia

**Mrs. Iris Robinson:** To ask the Secretary of State for Health if he will estimate the financial cost of schizophrenia to the NHS in 2003. [154574]

**Ms Rosie Winterton:** Information relating to the financial cost of treating schizophrenia is not collected centrally and no estimate can be made.

### Care Workers (Statutory Requirements)

**Phil Sawford:** To ask the Secretary of State for Health what assessment he has made of the average cost of complying with statutory requirements for each individial care worker in respect of *(a)* criminal records checks, *(b)* NVQ training, *(c)* health and safety training, *(d)* manual handling training, *(e)* food hygiene training, *(f)* first aid training and *(g)* other statutory requirements. [158236]

**Dr. Ladyman:** The cost to an employer for a Criminal Records Bureau check is £29 for an enhanced check and £24 for a standard check. This will increase to £33 and £28 respectively as of 1 April 2004.

National Vocational Qualification training is not a statutory requirement on all individual social care workers. However the Department's National Minimum Standards set out the proportions of staff that should have achieved NVQ qualification in each type of service provision in order for that provision to be registered by the National Care Services Commission.

For strategic planning purposes, the Department accepts the cost estimate from Topss England, the national training organisation for social care, which is £1,000 per NVQ qualification. This is very approximate because NVQ qualifications differ substantially across the levels, and every worker brings different experience and learning capacity to their assessments.

In respect of other training, it is for the employer of social care workers to ensure that their staff training meets statutory requirements, which vary between different care settings, and no data collection is made centrally of the costs.

To assist employers in this, in addition to the substantial general finance settlement increases to local councils, and the existing Department's Training Support Programme Grant (£56 million), the Department introduced a new National Training Strategy Specific Grant to councils for 2003–04 of £25 million, rising to £31 million next year, and a provisional £95 million the year after. For 2003–04, this grant has a condition attached that councils must spend 50 per cent, of their allocation on workers in the private and voluntary sectors. For 2004–05 and 2005–06 this grant will become a Specific Formula Grant, and cease to be ring fenced, therefore without any conditions. Also the Department funds Topss England £15 million per annum to support the implementation of their National

Traininmg Strategy. In addition to the Department's grants, funding is being drawn into the system from many other sources, most notably the Learning and Skill Councils.

### Sunbeds

**Lady Hermon:** To ask the Secretary of State for Health what recent assessment he has made of the risk to health of sunbed use; what steps he has taken to ensure sunbed users are made aware of the health risks arising from sunbed use; and if he will make a statement. [156948]

**Miss Melanie Johnson:** Reports on the effects of ultra-violet radiation (UVR) from the National Radiological Protection Board, the International Commission on Non-Ionising Radiation Protection and the British Medical Association conclude that there is no direct evidence that sunbed exposure causes skin cancer. By far the greatest source of UVR exposure is the sun. That is why we have taken measures to encourage the public to protect themselves and their children from the risks of unsafe exposure to the sun. We have, with key stakeholders, developed the SunSmart campaign, run by Cancer Research UK. The campaign was launched in March 2003 and funded by the United Kingdom Health Departments. Campaign leaflets and posters were sent to all general practitioner surgeries, secondary schools and health promotion units. Subject to further funding, the forthcoming campaign for summer 2004 will build on the success of last year's campaign.

The potential dangers involved in the use of sunbeds will be the subject of a meeting of experts and industry hosted by SunSmart on 29 March. The campaign will review the latest scientific evidence and develop practical recommendations for better self-regulation.

The Government acknowledge the risks to young people of exposure to UVR in all of its forms. On sunbeds specifically, the Health and Safety Executive has published guidance for operators and customers of solaria. Included in the advice was that people under 16-years-old should not use sunbeds and that a limit of 20 sessions per year should be observed. This advice was developed after consultation with leading experts and is accepted as good advice.

### Tuberculosis

**Dr. Murrison:** To ask the Secretary of State for Health what the reasons are for the increase in tuberculosis in London; and if he will make a statement on the remedial action he proposes. [153363]

**Mr. Hutton:** Homelessness, living conditions, ethnic distribution as well as improved reporting and surveillance have led to the increase of reported cases of tuberculosis in London.

### Wanless Report

**Mr. Burstow:** To ask the Secretary of State for Health which conclusions and recommendations in the report "Securing our Future Health: Taking a Long-Term View", by Mr. Derek Wanless, his Department does not accept. [153113]

**Mr. Hutton:** My right hon. Friend the Chancellor of the Exchequer, announced in the 2002 Budget that the Government accepted the conclusions of the Wanless Review. In order to deliver reform, my right hon. Friend also announced in his 2002 Budget historic sustained levels of increase in national health service funding, an average annual increase of 7.3 per cent., in real terms for the five years 2003–04 to 2007–08.

# Written Answers to Questions

*Thursday 4 March 2004*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agricultural Subsidies

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost of UK agricultural subsidies and price support in areas which are not dependent on the Common Agricultural Policy in the last year for which figures are available; and if she will make a statement. [156602]

**Alun Michael:** Commodities not subject to a Common Organisation of the Market include potatoes, horsemeat, honey, coffee, alcohol, cork and vinegars derived from alcohol. UK subsidies or price support for these areas are negligible or non-existent.

### Calf Passports

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs what happens to male calves which are refused passports because the owner failed to register them within 27 days. [156044]

**Alun Michael:** In the first instance the animal's keeper has the right to appeal against the decision to refuse a passport if he thinks there are special or extenuating circumstances.

If the appeal is unsuccessful, the animal may live out its life on the farm it is on. It may not be moved to other premises and it may not enter the food chain at the end of its life.

If the keeper does not wish to keep the calf it may be moved under licence to a knacker's yard or other facility for destruction.

### Milk Pricing

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Office of Fair Trading's recent re-examination of the supermarkets' code, with specific reference to milk pricing. [156442]

**Alun Michael:** The report of the review by the Office of Fair Trading of the operation of the Supermarket Code of Practice was published on 20 February 2004. It made no reference to milk pricing which falls outside the scope of the Code.

We welcome the publication of the report and the OFTs decision to undertake a focused compliance audit of the supermarkets' dealings with suppliers. We hope that this will provide a firm evidence base for future action.

### European Landscape Convention

**Mr. Gordon Prentice:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress the Government are making with the European Landscape Convention; and when it will be *(a)* signed and *(b)* ratified. [157480]

**Alun Michael:** Defra has been considering with other interested Government Departments and agencies the possible costs and benefits to the UK of signing and ratifying the Council of Europe European Landscape Convention. No decision has yet been taken as to whether the UK will sign and ratify but I expect a decision to be made later this year.

### Fisheries

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the accuracy of assessments made by the *(a)* UK Government and *(b)* European Commission on the attributes of fish discarded by fishing vessels operating in UK waters. [152369]

**Mr. Bradshaw:** These data are obtained by discard officers employed by the UK fisheries research agencies. They are collected in accordance with EC Regulation 1639/, which applies to all member states, and the precision levels of data relating to discards are set out in Chapter III E(1)c, H(1)e of that regulation. The European Commission makes use of the estimates made by member states, and may aggregate them when required.

### Large Combustion Plants Directive

**Paddy Tipping:** To ask the Secretary of State for Environment, Food and Rural Affairs how trading of sulphur dioxide and nitrous oxides within the national emission reduction plan proposed by her Department for implementation of the Large Combustion Plants Directive would operate, with particular reference to the Commission's decision that trading of pollutant emissions will only be allowed where emissions fall below best available techniques. [155897]

**Alun Michael:** The general principles of an emissions trading scheme were set out in the National Emissions Reduction Plan submitted to the European Commission in November 2003. The plan is available on the Defra website. The details of any such scheme would be defined in close consultation with the potential participants depending on the Government's final decision on the UK's approach to implementing the Large Combustion Plants Directive.

Plants within such a scheme would be able to trade allowances freely but would still have to comply, at all times, with all other relevant legislation, including the Integrated Pollution Prevention and Control Directive which requires the application of best available techniques.

### Minor Highways and Byways (Vehicle Use)

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions she has had with groups representing users

of mechanically propelled vehicles in connection with plans to restrict their use of minor highways and byways; and if she will make a statement; [157306]

(2) what representations she has had from groups representing users of mechanically propelled vehicles regarding their use of minor highways and byways; and if she will make a statement; [157307]

(3) if she will make a statement on plans to restrict the use of byways and minor highways by mechanically propelled vehicles. [157308]

**Alun Michael:** During the course of last year I met the Trail Riders Fellowship, the Land Access and Recreation Association, the Royal Automobile Club, the Byways and Bridleways Trust Council, and the Auto-Cycle Union last year to discuss the use of mechanically propelled vehicles on rights of way.

The Government have subsequently published a consultation paper setting out its proposals for tackling the problems which can arise. So far 10 groups representing users of mechanically propelled vehicles have responded.

The consultation period ends on 19 March. When I have had an opportunity to consider all the responses, I will invite representative groups to meet me to discuss the issues. We will announce the Government's intentions on the way ahead in due course.

### Scotland/UK Concordats

**Annabelle Ewing:** To ask the Secretary of State for Environment, Food and Rural Affairs what amendments have been made to the Concordats between the Scottish Executive and the UK Government on co-ordination of European policy issues concerning agriculture; and what representations she has received from the Scottish Executive to amend the Concordats. [157869]

**Alun Michael:** There have been no amendments concerning agriculture made to any Concordats on co-ordination of European policy issues. Defra has not received any representations from the Scottish Executive to amend the Concordats.

### Beekeeping

**Chris McCafferty:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of highly resistant varroa mites have been reported in the last 12 months in *(a)* England, *(b)* Scotland and *(c)* Wales. [157782]

**Mr. Bradshaw:** The number of new cases of pyrethroid-resistant varroa mites reported in apiaries in England and Wales in the last 12 months is 59 and nine respectively. There have been no such cases reported in Scotland.

## CULTURE, MEDIA AND SPORT

### Commonwealth Games

**Mr. Fallon:** To ask the Secretary of State for Culture, Media and Sport what representations were made by her Department to the Commonwealth Games Federation General Assembly concerning the selection of disabled sports for the 2006 Commonwealth Games; and whether she will make further representations on behalf of *(a)* bowls and *(b)* other excluded sports. [158832]

**Mr. Caborn:** None. The programme for elite athletes with disabilities at the 2006 Games was decided by the Commonwealth Games Federation General Assembly following representations made by the International Paralympic Committee (IPC) and the Melbourne 2006 games committee. The General Assembly agreed to increase the number of disability events from 8 to 12 from a list of 17 submitted by the IPC.

This Government are committed to promoting disability sport and appreciates the popularity of bowls in this country. However, the selection process was the sole responsibility of the General Assembly and it would be inappropriate for Ministers from this Department to attempt to intervene.

The Federation believe that the selection by the General Assembly offers the widest range of opportunities—within a limited programme—for the majority of athletes with disabilities from across the Commonwealth.

### Regional Museums

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to increase the funding of regional museums. [158144]

**Estelle Morris:** The Department for Culture, Media and Sport's allocation of resources from Spending Review 2002 already includes a very significant increase in funding for regional museums, from £10 million in 2003–04 to £30 million in 2005–06. One of our aims is to use that funding, which underpins the Renaissance in the Regions programme, to lever in funding from other sources.

Recently we have doubled our contribution to the joint DCMS/Wolfson museums and galleries improvement fund, to provide a total annual fund of £4 million, and have extended its coverage to regional museums with designated collections and to museums participating in Renaissance in the Regions. DCMS and the Department for Education and Skills are also investing £2.6 million in the current financial year in education and community projects carried out by partnerships of national and regional museums.

In preparing the Departmental submission to the 2004 Spending Review, we will consider the needs of regional museums alongside other priorities and pressures during the 2005–08 period.

### Television Reception

**Mr. Gibb:** To ask the Secretary of State for Culture, Media and Sport what measures she is taking to tackle problems caused to television reception as a consequence of transmissions by TETRA masts. [158566]

**Estelle Morris:** TETRA systems in the UK are licensed to operate on frequencies within the bands 380 to 385 MHz; 390 to 395 MHz; 410 to 430 MHz; 871 to 876 MHz and 916 to 921 MHz. Television broadcasting operates on channels outside these bands; within the range 470 to 862 MHz. Interference should not therefore

occur to TV reception from TETRA transmissions provided that the TETRA systems are operating in accordance with their licence conditions and the standard of installation of the TV receiver including its aerial system are satisfactory.

Ofcom, the independent regulator of communications is responsible for managing civil use of the radio spectrum including the investigation of legitimate reports of television and radio interference. Ofcom has published information on improving radio and TV reception to avoid interference, including specific advice on cases involving TETRA. In all such cases reported to Ofcom to date, the problems have been attributable to the performance of the consumers own TV aerial amplifiers which have been found to have a pass band wide enough to boost the TV signal and, inadvertently, the TETRA signals. In most cases a suitable filter between the amplifier and TV aerial will resolve the interference. Consumers in these cases have been advised to take up the problems with their suppliers.

## SCOTLAND

### Whisky

**John Thurso:** To ask the Secretary of State for Scotland what meetings he has had with representatives of the Scottish whisky industry in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [156802]

**Mrs. McGuire:** The Secretary of State for Scotland met representatives from the Scotch Whisky Association twice in 2001 and 2002, once in 2003 and thus far, once in 2004.

## WORK AND PENSIONS

### Benefit Overpayments

**Mr. Webb:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the amount of overpayments made owing to official error in each social security benefit paid by his Department; and if he will make a statement. [158768]

**Mr. Pond:** The latest available information is in the table.

*Estimates of the amounts of overpayments due to official error in 2002–03*

*£ million*

| *Benefit* | *Official error overpayment 2002–03* |
|---|---|
| Income Support | 140 |
| Minimum Income Guarantee | 50 |
| Jobseekers Allowance | 110 |
| Housing Benefit (see Note 2) | 100 |
| Incapacity Benefit and Severe Disablement Allowance | 43 |
| Long-Term Benefits (Retirement Pension, Widow's Benefit, and Bereavement Benefit) (see Note 3) | 14 |

*Notes:*

1. All figures are sample-based estimates and are subject to sampling error and other uncertainties.
2. The reported figure for housing benefit relates only to the 85 per cent. of expenditure covered by the housing benefit review. It does not include an allowance for overpaid expenditure due to non-residence at address, a small part of which may be the result of official error.
3. Official error on long-term benefits is a very low proportion of expenditure, and sample is a very small one which excludes some types of cases. The resulting estimate is the best available but is subject to considerable uncertainty.
4. The figures for income support, minimum income guarantee, jobseeker's allowance and housing benefit have been published in national statistics publications which report on the Department's performance against Public Service Agreement targets to reduce fraud and error.
5. Estimates are not available for official error in other benefits in 2002–03. Estimates of official error overpayments were published in reports on the benefit review exercises undertaken on disability living allowance, in 1997 and invalid care allowance (now called carer's allowance) in 1996. These out-of-date figures are not reliable indicators of the current level of official error in these benefits. A new review of disability living allowance will take place this year and provide an updated figure for that benefit.

### Benefit Payments (Pensioners)

**Mr. Willetts:** To ask the Secretary of State for Work and Pensions what proportion of pensioners he expects to be on means-tested benefits in 2005. [146749]

**Malcolm Wicks:** We estimate that 33 per cent. of individuals aged 60 years or older will be in receipt of either Pension Credit, Housing Benefit or Council Tax Benefit, or some combination of these benefits, in 2005.

### Medical Assessments

**Chris Ruane:** To ask the Secretary of State for Work and Pensions how many complaints he has received from hon. Members concerning disability living allowance and attendance allowance medical examinations in the areas covered by *(a)* Leeds, *(b)* Birmingham, *(c)* Manchester, *(d)* Newcastle, *(e)* Sutton, *(f)* Bootle, *(g)* Bristol, *(h)* Glasgow, *(i)* Wembley, *(j)* Edinburgh and *(k)* Cardiff disability benefit centres in the last 12 months. [156041]

**Maria Eagle:** The numbers of complaints from hon. Members, recorded by the Medical Services National Customer Relations Team (NCRT), concerning disability living allowance and attendance allowance medical examinations in the last 12 months is 48. Numbers cannot be broken down by region and relate to inquiries from MPs to the Secretary of State and the Group Director of the DCD.

*Source:*
Medical Services National Customer Relations Team database, covering the period 1 March 2003 to 27 February 2004

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Work and Pensions how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for Ordinary Written Answer; and what the greatest number of days taken to answer such a Question was. [155919]

**Maria Eagle:** The average number of working days is 12.6 and the greatest number of working days is 130. We are committed to providing hon. Members with timely and accurate replies to Parliamentary questions.

**Norman Baker:** To ask the Secretary of State for Work and Pensions how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* Ordinary Written and *(b)* Named Day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157748]

**Maria Eagle:** During the period from 1 January 2003 to 31 January 2004 we answered 2,335 ordinary written questions, of which 65 per cent. were answered within 10 working days. During the same period we answered 463 named day questions, of which 66 per cent. were answered on the day specified and 90 per cent. within 10 working days. We are committed to providing hon. Members with timely and accurate replies to Parliamentary questions.

### Pension Scheme Wind-ups

**Mr. Roy:** To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* total amount of money lost by pension holders in company schemes where that pension scheme has wound up after the failure of the company and *(b)* the number of people who have lost pension provision in such circumstances. [158152]

**Malcolm Wicks:** Estimating the value of pensions lost and the number of people affected due to scheme wind-up and company insolvency, is fraught with numerous difficulties. We do not have information that tells us whether a scheme wind-up is due to company insolvency. Nor do we have information at an aggregate level on the fund assets and liabilities of schemes winding-up.

The extent of pensions lost depends on many different factors—such as the maturity of the scheme (that is, the age profile and retirement status of members), and the funding position before starting winding-up. The latter in turn is highly sensitive to investment decisions and conditions in the financial markets.

Data is severely limited in these areas, and as a result the Government does not have reliable estimates of the amount of money lost or the number of people affected.

### Pensions

**Mr. Hoban:** To ask the Secretary of State for Work and Pensions if he will make a statement on delays to processing entitlement to retirement pensions for the recently widowed. [158702]

**Malcolm Wicks:** Where pensioners are recently widowed, they may be entitled to have their pensions increased by virtue of the National Insurance contributions paid by their deceased spouses. The assessment of any entitlement to an increased pension is carried out by the National Pension Centre in Newcastle. While this assessment is being carried out, widows will continue to receive their own pensions and can also apply for interim payments to top this up.

The National Pension Centre also deals with new claims for pensions from people who have previously been divorced or widowed, and changes of circumstances for over four million pensioners who have their pensions paid direct into a bank account.

A recent build up of work in the Centre has been caused largely as a result of the Centre temporarily dealing with some work appropriate to the 26 Regional Pension Centres. As that work will return to the Regional Centres, and an additional 100 staff have been employed, the work at the National Pension Centre should be returned to normal levels by June. The number of cases outstanding where the pensioner has been recently bereaved has been reduced from over 20,000 at the end of December to just over 14,000 currently.

**Mr. Hoban:** To ask the Secretary of State for Work and Pensions what target has been set for the processing of entitlements to retirement pensions for the recently widowed; and whether this target is being met. [158703]

**Malcolm Wicks:** There is no target set specifically for the processing of entitlements to retirement pensions for the recently widowed. Where pensioners are recently widowed, they may be entitled to have their pensions increased by virtue of the National Insurance contributions paid by their deceased spouses. The assessment of any entitlement to an increased pension is carried out by the National Pension Centre in Newcastle.

When notified that a pensioner has been recently widowed, The National Pension Centre will assess whether the bereaved spouse can have their own pension increased, based on the contribution payments of their deceased partner. The National Pension Centre aims to deal with 95 per cent. of such changes within 17 days. As at the end of December performance against this target for the year was at 90.6 per cent.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions (1) how many people above state pension age he estimates are not drawing a state retirement pension because they have deferred taking a state pension; and if he will make a statement; [158767]

(2) how many *(a)* men and *(b)* women drawing state retirement pensions are receiving increments because they deferred drawing that pension beyond state pension age, broken down by the length of time for which that pension was deferred. [158770]

**Malcolm Wicks:** It is not possible to say exactly how many people are deferring their State Pension at a single point in time because it is not necessary to inform the Department for Work and Pensions of an intention to defer.

However, estimates from the Government Actuary's Department suggest that approximately 120,000 pensioners in total are not drawing their state pension at the moment.

Information on current pensioners who have deferred their pension is not available in the form requested, but there are currently around 1.14 million pensioners in total with increments, of whom 893,000 are women. These figures include a small number of people who have inherited increments from their partner's contribution record and will have not actually deferred retirement themselves.

## WALES

### Former Departmental Officials

**Mr. Cousins:** To ask the Secretary of State for Wales which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156889]

**Mr. Hain:** The Wales Office has been staffed entirely by secondees from other Government Departments who would need to seek any necessary permission from their parent Department.

### New Hospitals

**Mr. Jon Owen Jones:** To ask the Secretary of State for Wales what the value of the capital expenditure on new hospitals built in Wales is in the last five years for which records are available. [156960]

**Mr. Touhig:** Capital expenditure for building new hospitals in Wales comes from different sources that are not identified in central recording systems as exclusively for building new hospitals.

The following table contains information on the total value of capital expenditure on the NHS in Wales for the last five years.

| *Financial year* | *£ million* |
|---|---|
| 1998–99 | 110.288 |
| 1999–2000 | 97.713 |
| 2000–01 | 91.611 |
| 2001–02 | 140.176 |
| 2002–03 | 123.388 |

### New Schools

**Mr. Jon Owen Jones:** To ask the Secretary of State for Wales what the value of the capital expenditure on new schools built in Wales is in the last five years for which records are available. [156961]

**Mr. Touhig:** Capital expenditure for building new schools in Wales comes from different sources that are not identified in central recording systems as exclusively for building new schools.

The following table contains information on the total value of capital expenditure on schools in Wales for the last five years, and includes pre-primary, primary, secondary and special schools.

| *Financial year* | *£000* |
|---|---|
| 1998–99 | 55,323 |
| 1999–2000 | 51,727 |
| 2000–01 | 70,421 |
| 2001–02 | 84,215 |
| 2002–03 | 89,926 |

### Secondments

**Mr. Cousins:** To ask the Secretary of State for Wales what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156917]

**Mr. Hain:** None.

## TREASURY

### Public Spending and Employment

14. **Dr. Desmond Turner:** To ask the Chancellor of the Exchequer what assessment he has made of the relationship between levels of public spending and levels of employment. [158480]

**Dawn Primarolo:** UK public spending as a percentage of GDP is close to the OECD average, but the UK has one of the highest employment rates in the OECD. Across OECD countries there is no systematic relationship between levels of public spending and levels of employment.

### Crossrail Project

15. **Simon Hughes:** To ask the Chancellor of the Exchequer what assessment he has made of the implications for his Department of the Government agreeing to support the Crossrail project following the completion of the Montague Report; and if he will make a statement. [158481]

**Mr. Boateng:** Crossrail is a matter for my right hon. Friend the Secretary of State for Transport. I understand he is now considering the detailed advice that he has received from Adrian Montague.

### Growth/Consumer Spending

16. **Mr. Ian Taylor:** To ask the Chancellor of the Exchequer what assessment he has made of the last three years UK economy trend figures for growth and consumer spending; and if he will make a statement. [158482]

**John Healey:** Over the past three years real consumer spending has grown at a faster rate than GDP, supporting the economy through a prolonged period of subdued global demand.

### IMF Expenditure Forecasts

17. **Mr. Forth:** To ask the Chancellor of the Exchequer what recent discussions he has had with representatives of the International Monetary Fund regarding expenditure forecasts. [158483]

**Mr. Boateng:** The Chancellor of the Exchequer and officials from HM Treasury had detailed discussions with representatives from the IMF during December in preparation for the UK's Article IV Report. The concluding statement of the IMF's Mission was published immediately after the visit on 18 December.

### Tax Credits

18. **Kevin Brennan:** To ask the Chancellor of the Exchequer what estimate he has made of the net direct taxation payable in this financial year by a married

couple with two children and an income of £20,000 from one partner's work, taking into account the impact of tax credits. [158484]

**Dawn Primarolo:** The direct tax burden on a single earner family with two children and gross earnings of £20,000 per year is 9.5 per cent. in 2003–04.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what discussions he has had with officials from *(a)* the Department for Work and Pensions and *(b)* the Inland Revenue regarding take-up ratio of tax credits. [158267]

**Dawn Primarolo:** Officials from the Inland Revenue and HM Treasury have had discussions on the size of the population expected to benefit from the Child and Working Tax Credits. The Department for Work and Pensions does not administer tax credits.

### Employment Target

19. **Mr. Blizzard:** To ask the Chancellor of the Exchequer if he will make a statement on his aim to achieve full employment. [158485]

**John Healey:** The Government's long-term goal is employment opportunity for all—the modern definition of full employment. Its aim is to ensure a higher proportion of people in work than ever before by 2010. The Government's strategy for delivering employment opportunity for all is based on maintaining macroeconomic stability and ensuring a dynamic and flexible labour market that equips people to adapt to change.

### Disabled People

20. **Mr. Goodman:** To ask the Chancellor of the Exchequer what recent discussions he has had with the Inland Revenue relating to people with disabilities. [158487]

**Dawn Primarolo:** Treasury Ministers discuss a range of issues with the Inland Revenue, including those relating to people with disabilities.

### Tax Concessions (Works of Art)

21. **Chris Bryant:** To ask the Chancellor of the Exchequer what plans he has to extend tax concessions for those who give major works of art to UK national galleries. [158488]

**Dawn Primarolo:** The Chancellor of the Exchequer considers all taxes as part of his annual Budget judgment.

### Civil Servants (Relocation)

22. **Mr. Grogan:** To ask the Chancellor of the Exchequer when he expects to publish Sir Michael Lyons' report on the relocation of civil servants and other public sector workers to the regions. [158489]

**Mr. Boateng:** Sir Michael Lyons intends to publish his final report into the scope for relocating public sector activities out of London and the South East later this month. I understand that no specific date has yet been determined.

### International Development

23. **Mr. Tom Harris:** To ask the Chancellor of the Exchequer if he will list his public spending commitments to 2006 for International Development. [158490]

**Mr. Boateng:** As set out following the conclusion of Spending Review 2002 in July 2002, the Department for International Development's budget for this Financial Year is £3.64 billion. This will rise to £3.78 billion next year and will reach £4.53 billion in financial year 2005–06. This represents the largest ever increase in UK aid levels.

### Euro (Ministerial Speeches)

24. **Keith Vaz:** To ask the Chancellor of the Exchequer how many speeches he has made in the last 12 months in support of the Government's policy on the euro. [158491]

**John Healey:** My right hon. Friend the Chancellor said in his EMU statement to the House on 9 June:

"a modern long-term and deep-seated pro-European consensus in Britain about Britain's role in Europe and Europe's role in the world can and will be built."

Since then Treasury Ministers, have held a variety of meetings to discuss the euro in England, Scotland, Wales and Northern Ireland. In addition, Treasury officials have held over 150 meetings with opinion formers in Britain and Europe.

### Aggregates Levy

**Annabelle Ewing:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the cost to industry in Scotland of the aggregates levy since its introduction; [157858]

(2) what estimate he has made of the impact on local authorities in Scotland of the aggregates levy since its introduction; [157859]

(3) what change there has been in imports of aggregates into the UK since the introduction of the aggregates levy. [157860]

**John Healey:** I refer the hon. Lady to the answer I gave to my hon. Friend the Member for North-West Leicestershire (David Taylor) on 21 January 2004 *Official Report*, column 1256W).

### Customs and Excise

**Mr. Hoyle:** To ask the Chancellor of the Exchequer if he will estimate the amount of *(a)* illegal fuel, *(b)* beer, *(c)* wine and spirits, *(d)* cigarettes and *(e)* counterfeit goods seized in each of the last three years in (i) the UK, (ii) the North West and (iii) Lancashire. [157975]

**John Healey:** HM Customs and Excise routinely publish UK seizures statistics for oil, alcohol and cigarettes. The latest published figures are contained in Customs' Annual Report 2002–03 (HC 52). Regional figures are not available.

Data on non-excise counterfeit products seized by Customs is contained in the European Commission's annual report on counterfeit and pirated goods, which is available on their website at www.europa.eu.int

### Earnings

**Mr. Martyn Jones:** To ask the Chancellor of the Exchequer what the rise in earnings was for each region of the UK for 2002–03, listed in descending order. [157661]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mr. Martyn Jones, dated 4 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question on the rise in earnings for each region of the UK between 2002 and 2003. I am replying in his absence. (157661)

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period. This is the standard definition used for NES tables.

The following table gives the percentage increase in gross weekly pay for 2002 to 2003 for the regions as requested.

*Percentage increase in average gross weekly earnings[1] between 2002 and 2003 in each of the regions of the United Kingdom (ranked in descending order of earnings increase)*

*Percentage*

| *Region* | *Percentage increase in average weekly earnings* |
|---|---|
| South West | 4.2 |
| East | 4.2 |
| Wales | 3.7 |
| Yorkshire and The Humber | 3.7 |
| Northern Ireland | 3.7 |
| East Midlands | 3.6 |
| North West | 2.6 |
| Scotland | 2.3 |
| London | 2.0 |
| North East | 2.0 |
| West Midlands | 2.0 |
| South East | 1.4 |

[1] Earnings of full time employees in the UK on adult rates, whose pay for the pay period was unaffected by absence

*Source:*
ONS New Earnings Survey, April 2003

### Customs and Excise

**Mr. Gardiner:** To ask the Chancellor of the Exchequer what assessment has been made of the effectiveness of the customs strike force and the level of protection provided in Welsh ports of entry. [155390]

**John Healey:** To meet the challenge of 21st century smuggling, HM Customs and Excise, in Wales and across the UK, have developed their tactics, replacing traditional, predictable and less productive activities with more intelligence-led targeted operations. Experience demonstrates that the most efficient and effective way to do this in many areas is to use flexible mobile strike force teams. With these teams, Customs can deploy larger numbers, less predictably and with greater impact.

### Road User Pricing

**Mr. Damian Green:** To ask the Chancellor of the Exchequer if he will make a statement on the *(a)* the proposed date for implementation of the Lorry Road User Charge and *(b)* its tax implications for the UK haulage industry. [158221]

**John Healey:** The Government published "Modernising the taxation of the haulage industry—lorry road user charge: progress report two" in May 2003, in which we set out the timescale on which we hoped the Lorry Road User Charge would be implemented, depending on what the market tells us can be delivered by when. We also said that the charge would be offset through fuel duty reductions for lorry operators, so that overall those who buy fuel in the UK will pay no more tax as a result of the introduction of the charge. A further progress report will be issued shortly.

### Supporting People Programme

**Mr. Dhanda:** To ask the Chancellor of the Exchequer what guarantee he is able to give about funding levels for the Supporting People programme in 2004–05. [156878]

**Yvette Cooper:** I have been asked to reply

On 12 February, the Government announced funding of £1.8 billion for the Supporting People programme in 2004–05.

### Taxation

**Mr. Redwood:** To ask the Chancellor of the Exchequer what the cost to public funds would be of abolishing capital gains tax, but charging all gains made in less than two years to income tax. [157573]

**Dawn Primarolo:** The information requested could be provided only at disproportionate cost.

## DEFENCE

### Administrative Expenditure

**Mr. Soames:** To ask the Secretary of State for Defence if he will place in the Library a copy of the financial delegation for the Ministry of Defence relating to running costs and other current administrative expenditure relating to personnel costs of the armed forces. [158776]

**Mr. Ingram:** I have today placed a copy of the delegation in the Library of the House.

### Defence Finance

**Angus Robertson:** To ask the Secretary of State for Defence if he will estimate the current value of investments held by the *(a)* Army, *(b)* Navy and *(c)* RAF; and if he will make a statement. [142029]

**Mr. Ingram:** The total value of MOD investments as at 31 March 2003 was some £430 million. Further information is published in Note 9 of the Ministry of Defence Annual Report and Accounts 2002/03 (HC1125 of 30 October 2003). This document is available in the Library of the House and on the MOD's website. The investments are mainly managed centrally and therefore are not attributed by Service.

### Future Rapid Effects System

**Mr. Robathan:** To ask the Secretary of State for Defence (1) whether his Department classifies the Future Rapid Effects System programme as *(a)* a system and *(b)* a vehicle; [157596]

(2) whether the winner of the Future Rapid Effects System Systems House competition will be disqualified from playing a major role on the industrial side of the programme; [157597]

(3) whether the proposed Systems House approach is the preferred way forward for the Future Rapid Effects System programme. [157598]

**Mr. Ingram:** The Future Rapid Effect System (FRES) will provide a family of network-capable armoured vehicles that will form a key part of network enabled capability. We expect to make an announcement on the assessment phase for the FRES programme shortly.

### Gurkhas

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on *(a)* the future of Gurkha regiments in the British Army and *(b)* back filling by Gurkhas in other regiments. [158262]

**Mr. Ingram:** There are currently no plans regarding the future of Gurkha regiments. The Defence White Paper published last December provides the policy context for shaping the structure of the armed forces. Subsequently, the details of individual units within that structure will need to be further developed, but presently no decisions have been taken.

Gurkhas are not routinely tasked as individuals to back fill other army regiments. Previously, specific Gurkha sub-units, known as Gurkha Reinforcement Companies, were established in order to fill a specific operational manning requirement during a period of under-recruiting. However, improved manning levels have since reduced this requirement.

### Heavy-lift Aircraft

**Mr. Hoyle:** To ask the Secretary of State for Defence how many aircraft were hired to help with heavy lift in each of the last three years; and what types of aircraft were hired. [158260]

**Mr. Ingram:** The following heavy-lift aircraft have been chartered in the last two financial years and in the current financial year to date:

| | *Antonov AN-124* | *Ilyushin IL 76* |
|---|---|---|
| 2001–02 | 86 | 23 |
| 2002–03 | 176 | 23 |
| 2003–04 | 52 | 7 |

### Iraq

**Mr. Keetch:** To ask the Secretary of State for Defence how many complaints against UK troops in Iraq have been upheld; what action has been taken; and if he will make a statement. [142178]

**Mr. Ingram** *[holding answer 9 December 2003]:* Complaints against UK troops in Iraq are dealt with by local commanders in accordance with established disciplinary procedures. The vast majority of complaints are of a minor nature and are, as a result generally not recorded centrally.

**Mr. Barnes:** To ask the Secretary of State for Defence if he will make a statement concerning the death in British Army custody in September 2003 of Baha Mousa in Basra; what action has been taken or is pending against the soldiers involved; whether compensation has been *(a)* offered to and *(b)* accepted by his family; and whether he will accept an independent inquiry into the circumstances of Mr. Mousa's death. [147706]

**Mr. Ingram:** The death of Baha Mousa is the subject of an ongoing investigation by the Royal Military Police who, in exercising their constabulary powers, are fully independent of the Army chain of command. It would be inappropriate to comment until their investigation is complete.

The UK has not admitted liability for Baha Mousa's death but a payment has been accepted by Mr. Mousa's family.

**Mr. Swayne:** To ask the Secretary of State for Defence how much was spent to repair and reconstruct civilian infrastructure by UK forces within the first 100 days of the end of high intensity fighting in Iraq. [150220]

**Mr. Ingram:** In collecting the costs incurred by UK forces, we do not separately identify those incurred on repair and reconstruction of civilian infrastructure. However, it is estimated that, in 2003–04, some £9.9 million will be spent on quick impact projects, which enhance the security of UK forces. Such projects include the refurbishment of schools and health clinics, renovation of police stations, supplying oxygen to hospitals, and the repairing and re-supplying of water and sewerage works. This is separate from the cost of reconstruction, on which the Department for International Development is leading.

**Mr. Evans:** To ask the Secretary of State for Defence what budget his Department has allocated for entertaining troops in Iraq. [158223]

**Mr. Ingram:** There is no specific budget set aside for the entertainment of troops in operational locations. Instead, an assessment, based on the number of troops deployed on the operation, is made to determine how many events should be provided.

Just over £0.5 million has been approved to be spent on entertainers visiting troops in Iraq in 2003–04. No costs were incurred in 2002–03. In addition to this cost, entertainers may be provided with some limited non-cash assistance, such as transport, accommodation or food, should this be possible given operational pressures. The Services Sound and Vision Corporation incur an additional cost, extending their normal peacetime service to the United Kingdom forces stationed overseas, to those deployed operationally in Iraq. For 2003–04, the additional cost for that activity is estimated at around £4 million.

It might be helpful to put these figures in the context of the overall net additional cost of military operations in Iraq which, for 2003-04, is forecast at around £1,500 million.

**Sir John Stanley:** To ask the Secretary of State for Defence on what date the Permanent Secretary in his Department was first informed as to which Iraqi weapons the 45 minute claim in the Iraqi weapons of mass destruction dossier applied. [158773]

**Mr. Hoon:** The Permanent Secretary first became aware of the intelligence which indicated that chemical and biological munitions could be with Iraqi military units and ready for firing within 45 minutes in early September 2002. He became aware that the intelligence referred to battlefield weapons soon after the publication of the Government's dossier on Iraq's weapons of mass destruction.

### RAF Colerne

**Mr. Gray:** To ask the Secretary of State for Defence whether the plans for the United States Emergency Hospital planned for RAF Colerne in 1984 were ever implemented; and whether there are similar plans now. [157923]

**Mr. Ingram** *[holding answer 2 March 2004]:* I am not aware of any plans for a United States Emergency Hospital at Colerne in 1984, and there are no such plans for the future. The army took over the site from the RAF in 1978, and it is now the base for the 21 Signal Regiment (Air Support).

### Royal Yeomanry

**Mr. Soames:** To ask the Secretary of State for Defence if he will make a statement on the future of the Royal Yeomanry. [158775]

**Mr. Ingram:** There are currently no plans to change the role of the Royal Yeomanry. The Defence White Paper published last December provides the policy context for shaping the structure of our armed forces. The detailed roles, function and tasks of individual units within that structure are being developed, but no decisions have been taken.

### War Veterans (Ireland)

**Andrew Mackinlay:** To ask the Secretary of State for Defence how many Second World War *(a)* veterans and *(b)* war widows he estimates are resident in the Irish Republic; and if he will make a statement. [158833]

**Mr. Ingram:** This information is not available in the format requested.

Available data shows that the number of war pensions in payment in respect of post 1939 service, for those where residence is recorded as being in the Republic of Ireland, is as follows; War Disablement Pension 825 and War Widows Pension 255.

## TRADE AND INDUSTRY

### Iraq

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry if she will list the contracts let by the Coalition Provisional Authority for selling Iraqi oil and gas. [155286]

**Mr. Timms:** The State Oil Marketing Organisation (SOMO) sells all exportable hydrocarbons on behalf of the Ministry of Oil. SOMO forms part of the Ministry of Oil.

### Balance of Trade

**Simon Hughes:** To ask the Secretary of State for Trade and Industry what the balance of trade between Greater London and *(a)* the rest of the United Kingdom, *(b)* the European Union and *(c)* the rest of the world was for each year since 1997. [158433]

**Mr. Mike O'Brien:** According to information published by HM Customs and Excise, the balance of trade in goods between the London region and EU and non-EU countries are given in the following table. Information on trade between regions of the United Kingdom is not available. Information on trade in services cannot be cross-classified by UK region and partner country.

*Greater London Balance of Trade in goods*

*£ billion*

| | [1]*EU* | *Non-EU* |
|---|---|---|
| 1997 | -5.8 | -12.1 |
| 1998 | -7.5 | -13.1 |
| 1999 | -8.5 | -13.8 |
| 2000 | -8.0 | -13.2 |
| 2001 | -5.0 | -12.4 |
| 2002 | -0.8 | -12.1 |

[1] Figures for trade with the EU refer only to traders above the Intrastat threshold. Nationally, such traders account for over 97 per cent. of the value of UK trade in goods.

### Biomass Electricity Project, Winkleigh

**Mr. Burnett:** To ask the Secretary of State for Trade and Industry what financial and other inquiries were made by *(a)* her Department and *(b)* the South West Regional Development Agency before it announced the conditional grant made to Peninsula Power in respect of the proposed Biomass Electricity project at Winkleigh, Devon; and what inquiries are being made now. [157144]

**Mr. Timms** *[holding answer 27 February 2004]:* South West RDA made no financial inquiries into Peninsula Power since it is not funding the core operation costs of that company. The RDA purchased 36 acres of land at Winkleigh Airfield to ensure that the opportunity to build the proposed biomass plant is not lost before the issues are properly considered as part of the planning process. The RDA has undertaken the necessary due diligence in relation to the acquisition of the land.

The RDA has also provided further funds to ensure feasibility studies are comprehensively carried out and fully available to the public. It will insist that the

consultants appointed to undertake the studies provide a "Deed of Warranty" to ensure the quality of the work undertaken.

The DTI grant to the developer from the Capital Grants Scheme is an arrangement under which payments are only made in arrears of agreed milestones and where matching funding has been provided. As yet no payments have been made under the DTI grant. When assessing the original application for the grant, the DTI followed its laid-down procedures and which involved the advice of independent advisers.

Should the plant obtain all the necessary planning and environmental consents, then Peninsula Power has an option to purchase all or part of the site from South West RDA at market value. At that point, the RDA will not dispose of the land to Peninsula Power unless it is satisfied that all the necessary funding to complete any approved project is in place, necessitating the undertaking of financial checks at the appropriate time.

**Mr. Burnett:** To ask the Secretary of State for Trade and Industry what steps *(a)* she and *(b)* the South West Regional Development Agency have taken to satisfy themselves that the advanced gasification and turbine technology for the proposed Biomass Electricity project at Winkleigh, Devon is proven and will not fail; and what their findings were. [157143]

**Mr. Timms** *[holding answer 27 February 2004]:* The DTI has considered the technology as part of its Bio-Energy Capital Grant scheme which allows development of technology processes. The South West RDA does have a wider interest in gasification technology in the region and will be appointing independent consultants to appraise the technology. The consultants will specifically report on the gasification technology proposed at Winkleigh and will liaise closely with DTI. The findings will be made available to the public.

**Mr. Burnett:** To ask the Secretary of State for Trade and Industry if she will list the payments *(a)* authorised and *(b)* paid by (i) her Department and (ii) the South West Regional Development Agency towards the proposed Biomass Electricity Generation project at Winkleigh, Devon. [157146]

**Mr. Timms** *[holding answer 27 February 2004]:* The South West RDA authorised project funding of £623,900 to acquire 36 acres of land and pay for feasibility studies (an Environmental Impact Assessment, a Biomass Feedstock and Market Development Study and an Economic Impact Assessment) and limited technical costs (including costs towards a public consultation exercise).

The feasibility studies and technical work will provide results that will have wider implications for other, similar, projects in the region. The studies will also be made fully available to the public, including the local community, key regional partners and other developers.

To date (26 February 2004) the SWRDA has paid £338,200 for the acquisition of the land. In total £384,391 has been paid to date (26 February 2004) including other associated costs.

### Broadband

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of UK domestic broadband connections use services with downstream specifications in excess of 2Mbps. [157189]

**Mr. Timms:** The proportion of UK domestic broadband connections using services with downstream specifications in excess of 2Mbps is not held by the Department.

Telecommunications operators have assured the Department they review regularly their range of broadband services to see whether they are meeting consumer demand for higher speed services. It is estimated by Analysys Consulting Ltd. that by end December 2003, mass-market asymmetric 4Mbps services were available to 11 per cent. of the UK population from exchanges where the local loop has been unbundled.

### Broadband/Mobile Phones

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what discussions she has had with representatives of other political parties concerning her strategy to encourage growth in the broadband and third-generation mobile phone sectors; and if she will make a statement. [156179]

**Mr. Timms:** There have been no formal discussions with representatives of other political parties concerning our strategy to encourage growth in the broadband and third-generation mobile phone sectors.

### Business Links

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what her estimate is of the current levels of *(a)* prompted and *(b)* unprompted awareness of Business Link branded services among small businesses. [157197]

**Nigel Griffiths:** In December 2002, prompted awareness of Business Link was 74 per cent. and unprompted awareness was 17 per cent. A further survey measuring awareness of Business Link is currently being undertaken.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what action the Small Business Service can take in relation to an underperforming Business Link operator. [157206]

**Nigel Griffiths:** The actions available to the SBS, under the terms of section 5 of the Business Link Operator (BLO) Operator Agreement, in full to address underperformance by BLOs are:

to write formally to the BLO highlighting concern over performance levels and advising them that should performance not improve further action would be taken; requiring the BLO to undergo a Business Performance Review (BPR), that examines the problems faced by the BLO and recommends actions to resolve the problems. The BLO would then need to agree a remedial plan with their SBS or RDA contract management team based on the outcome of the BPR, the implementation of which is closely monitored by the SBS or RDA contract management team;

not automatically extending the BLO's contract to a third year and serving notice that unless performance significantly improves, the contract will terminate in two years;

if an agreed remedial plan has not been fully implemented the SBS can withhold funding from the BLO until it is satisfied the plan has been implemented in full. The amount of withheld funding can be up to 33 per cent. (depending on the extent of the failure to implement the remedial plan) and;

in extreme circumstances the failure to implement a remedial plan can be considered a material breach of the contract and a written notice to terminate the contract served.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of businesses helped by each of the UK business link organisations are still operating. [157209]

**Nigel Griffiths:** While information is not collected from individual business link organisations regarding the survival of businesses that they have assisted. A tracking study of a group of Barclay's bank business customers demonstrated that businesses that received help from Business link organisations and business agencies had a higher survival rate, with 76 per cent. still trading after two years, compared with 63 per cent. of the control group.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what measures are in place to encourage businesses to use Business Link; and what proportion of applicants for *(a)* the Smart Scheme and *(b)* the Grant for Research and Development has (i) discussed their application with their local Business Link operator and (ii) maintained dialogue with Business Link throughout the period of their project. [157227]

**Nigel Griffiths:** Businesses are encouraged to use Business Link by a nationally-undertaken programme of paid advertising, including online advertising, sponsorship, events, public relations activity and publications distribution. Businesses are also encouraged to use Business Link through partnerships with third parties and intermediaries, such as banks.

In addition, businesses are encouraged at a local and regional level to use Business Link through promotional activity undertaken by individual Business Link Operators.

*(a)* The most recent, independent evaluation of Smart, which published its findings in 2001, found that 50 per cent. of those surveyed had used public business service providers, including Business Link, as a source of additional support in relation to their projects, either at the application stage or subsequently,

*(b)* The Grant for Research and Development was introduced in June 2003 and early indications are that two fifths of applicants have used Business Link services in preparing their applications. The proportion which has maintained a dialogue is not known.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of time her Department's Business Link staff spent on managing the Business Link Network in each year since its inception. [157229]

**Nigel Griffiths:** The current Business Link network of 42 Operators over 45 areas in England was launched in April 2001. The Small Business Service's nine regional teams (around 50 staff), with support from their Head Office set up and managed the contracts. The majority of their time was spent working with Business Link Operators and regional partners to develop the network. The Small Business Service is now increasingly concentrating on influencing policy and delivery decisions across government both in Whitehall and in the regions, and up to a third of the regional staff will be undertaking different roles in line with this new strategy by the end of March 2004.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many people are employed as part of the national network of e-business advisers located in the Business Link. [157247]

**Nigel Griffiths:** 151.

### Business Support

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many firms have been helped by the Small Firms Loan Guarantee scheme since its introduction. [157192]

**Nigel Griffiths:** Since the Small Firms Loan Guarantee began in June 1981, up to the end of January 2004, 88744 loans have been guaranteed. Some small firms may have benefited from more than one loan.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much money has been spent on *(a)* grants for research and development, *(b)* grants for investigating an innovative idea and *(c)* knowledge transfer partnerships since they were introduced; and of each total, how much has been spent on administration. [157193]

**Mr. Timms:** *(a)* and *(b)* expenditure for the Grant for R and D and Grant for III from 1 June 2003 to 31 January 2004 is as follows:

| | *Programme spend (£)* | *Administration*[1] *(£)* |
|---|---|---|
| Grant for R and D | 950,000 | |
| Grant for Investigating an Innovative Idea | 270,000 | 3,189,000 |
| Former Smart scheme[1] | 32,768,000 | |

[1] From 1 April 2003 to 31 January 2004

*Note:*
Administration of all three programmes is unified.

*(c)* Since Knowledge Transfer Partnerships (including the former TCS programmes) were introduced approximately £20.5 million has been spent. The administration costs to date are approximately £1.75 million.

### Business Support Schemes

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 5 February 2004, *Official Report*, column 998W, on business support schemes, if she will list the *(a)* service costs to run and *(b)* cost of the programme delivered by (i) the Small Firms Loan Guarantee, (ii) Grant for Research and Development, (iii) Grant for Investigating an Innovative idea and (iv) Knowledge Transfer Partnerships between 2003–07. [155357]

**Nigel Griffiths:** The forecast costs of the new Business Support Products for the financial years 2003–04 and for

2004–05 are listed in the table below. Allocations for future years will be agreed as part of the 2004 Spending Review process. Grant for Research and Development and Grant for Investigating an Innovative Idea were introduced on 1 June 2003 to replace and enhance the Smart scheme. Since that date administration of all three has been unified and it is not possible to apportion service costs between them. The same applies to Knowledge Transfer Partnerships which was introduced in 1 June 2003 to replace TCS.

*£ million*

| *Business support product* | *2003–04 Service costs* | *2003–04 Cost of programme* | *2004–05 Service costs* | *2004–05 Cost of programme* |
|---|---|---|---|---|
| Small Firms Loan Guarantee | 0.702 | 52.85 | 0.702 | 65 |
| Grant for Research and Development (including Smart) | 3.83 | 40 | 3.83 | 26 |
| Grant for Investigating an Innovative Idea | | 0.6 | | 3 |
| Knowledge Transfer Partnerships (formerly TCS) | 2.4 | 25. 6 | 2.4 | 25. 6 |

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 5 February 2004, *Official Report*, column 998W, on business support schemes, (1) if she will list the new business support products that are due to be made available in April; and how much money is to be spent on these products;. [157178]

(2) she will list the new products that have replaced business support schemes that are *(a)* already in place and *(b)* to be introduced this year; and what the projected cost is of each product. [157224]

**Ms Hewitt:** Four new business support products are already in place. These are: Grant for Investigating an Innovative Idea, Grant for Research and Development, Knowledge Transfer Partnerships, and Small Firms Loan Guarantee.

Five further new business support products will be introduced in the first half of this year. These are Knowledge Transfer Networks, Grant for Collaborative Research and Development, Access to Best Business Practice, Support to Implement Best Business Practice, and Finance to encourage investment in specific areas of England.

The timing of the introduction of the tenth business support product, Enterprise Capital Fund, is dependent upon the current notification to the European Commission for State Aids Clearance.

The Department's annual expenditure on each product will be kept under review by the Investment Committee to ensure products' impact on productivity and value for money.

The Business Cases presented to the Investment Committee currently project expenditure to be as follows:

| | *£ million* |
|---|---|
| Grant for Collaborative Research and Development | 134 |
| Knowledge Transfer Partnerships | 36 |
| Grant for Research and Development | [1]33 |
| Knowledge Transfer Networks | 17 |
| Grant for Investigating an Innovative Idea | 3 |
| Small Firms Loan Guarantee | 49 |
| Access to Best Business Practice | 10 |
| Support to Implement Best Business Practice | 20 |
| Finance to encourage investment in specific areas (provisional title) | 125 |
| Enterprise Capital Fund | Subject to EU notification |

[1] £100 million over three years

## Call Centres

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* call centres and *(b)* call centre jobs in (i) the North West and (ii) Lancashire. [157083]

**Ms Hewitt:** The Government is well aware of the heightened interest and concerns expressed about the offshoring of UK service operations, including call centre operations. My Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations to help identify any appropriate actions which need to be taken by industry or Government in response to the increasingly global market for call centre services. This will include an examination of the main product areas in the UK call and contact centre industry that are vulnerable to growing competition from lower-wage economies, which types of call and contract centre activity and which regions have been most affected or are most likely to be affected in the near future.

The North West Development Agency is working with the University of Central Lancashire and a wide range of other private and public sector partners on a new initiative, Call North West, in an aim to drive up the skills and productivity of the region's contact centres. Call North West will be formally launched on 24 March.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many jobs in *(a)* the north west and *(b)* Lancashire in call centres have relocated abroad in each of the last three years. [157084]

**Ms Hewitt:** Existing information does not enable us to provide reliable figures. Official statistics do not generally separate call centre activities from the main activity of a firm or enterprise (e.g. banking). The term "call centre" can be used to describe a broad variety of functions and activities across a wide range of commercial, industrial and public sectors. Difficulties and differences in definition are reflected in commercial market research on call centres where estimates on the number of call centres and call centre employees vary substantially.

## Colombia

**Jeremy Corbyn:** To ask the Secretary of State for Trade and Industry what support her Department has

offered to BP for its exploration activities in Colombia; and what meetings have been held with company representatives in the last six months. [157711]

**Mr. Mike O'Brien:** Through the British embassy in Bogota, in particular, UK Trade and Investment offers a range of services to UK exporters and to UK investors in Colombia. While London based officials have had little contact with BP there, officials in Bogota have regular contact with the company (the largest foreign investor in Colombia) on a range of issues of mutual interest. In October 2003, the embassy's First Secretary (Trade and Investment) made an introductory call on the new company president offering support to their activities in Colombia and, in February, the ambassador hosted a dinner, offered to the Minister of Mines and Energy where BP's president, and heads of other British companies were present.

Further meetings at various levels will continue to be held with BP over the coming months.

### Enterprise Culture

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what discussions her Department has had with *(a)* other Government departments and *(b)* the EU to develop a strategy promoting an enterprise culture. [157235]

**Nigel Griffiths:** The Small Business Service has recently co-ordinated and published a cross government action plan for small business based around seven strategic themes, one of which relates to the development of an enterprise culture. The development of that strategic theme involved discussions with a number of other departments, including the Department for Work and Pensions, the Department for Education and Skills, and the Home Office.

At EU level, we responded to the European Commission's Green Paper on Entrepreneurship at the end of June 2003, including references to actions which could raise the level of awareness of enterprise, such as an enterprise day or week across the EU, which would complement the UK strategy.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what initiatives her Department is supporting to encourage entrepreneurial attitudes among young people; what discussions her Department has had with the Department for Education and Skills about building enterprise awareness in schools and universities; and whether her Department expects to implement the recommendations of the Davies review on enterprise activity offered to pupils by 2005–06. [157236]

**Ms Hewitt:** The DTI has supported Enterprise Insight in developing a national campaign to promote enterprise to young people and those who influence them (including teachers, careers advisers etc). This campaign will have as its focal point an annual Enterprise Week the first of which will be from 15 to 21 November this year. Enterprise Week will include national and regional activities and celebrations of entrepreneurial achievement.

The DTI also supports the activities of Young Enterprise, in offering young people practical experience of what enterprise entails through simulated entrepreneurial situations. Specifically, through the SBS it supports YE's Graduate Programme, Masterclass and Innovation Awards.

The DTI is also working closely with the DfES and the Treasury in taking forward the recommendations of the Davies Review. From 2005–06 all Key Stage 4 pupils will receive the equivalent of 5 days enterprise activity, which develops enterprise capability—innovation, creativity, risk-management and risk-taking, and financial and business understanding. 151 Enterprise Pathfinder projects were launched last September, covering nearly 400 secondary schools in England, from which DfES will derive guidance for all schools prior to launching the £60 million enterprise education entitlement in September 2005. A second wave of Pathfinders will start in September 2004.

The two Departments are also supporting the National Council for Graduate Entrepreneurship. Building on existing good practice, the aims of the council will be to raise the profile of entrepreneurship and starting a business as a career option within Higher Education Institutions (HEIs), including both universities and other higher education establishments, with the objective of increasing the numbers of students and graduates who give serious thought to this. It will therefore work with all interested parties to encourage and create an entrepreneurial culture amongst students and graduates.

### Enterprise Shows

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry where enterprise shows have been held this year; and what assessment she has made of the effectiveness of enterprise shows in encouraging business start-up. [157234]

**Nigel Griffiths:** As stated in the Government's[1] Action Plan for Small Business, we are collaborating with the Regional Development Agencies (RDAs) to run a programme of enterprise shows which are being planned.

[1] A government action plan for small business : making the UK the best place in the world to start and grow a business, published by DTI January 2004 (DTI/Pub 6993/10k/01/04/NP. URN 03/1592).

### Export Licences

**Mr. Godsiff:** To ask the Secretary of State for Trade and Industry how many export licences have been granted for the delivery of gas centrifuges or parts thereof over the last five years; and in respect of which countries. [158063]

**Nigel Griffiths:** Since May 1997, the Government have published an Annual Report on Strategic Export Controls containing details of all goods authorised for export from the UK and to which destinations. Copies of the Annual Report (up to and including 2002) are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 Annual Report. The annual report summary for the goods in question is 'Uranium isotope separation equipment'.

### Internet Security

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry what measures her Department is taking to ensure that small businesses are adequately protected from internet hackers and fraudsters. [157809]

**Mr. Timms:** I refer the hon. Member to my answer given to the hon. Member for Eddisbury (Mr. O'Brien), on 1 March 2004, *Official Report*, columns 633–34W.

### Miners' Compensation

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry whether the death of a miner after a filed compensation claim changes the claim's level of priority, with particular reference to the status of the miner's wife. [157218]

**Nigel Griffiths:** No.

### Non-departmental Public Bodies

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will list *(a)* executive non-departmental public bodies and *(b)* advisory non-departmental public bodies sponsored by her Department; and what budget was set for each year between 1998 and 2008. [155323]

**Ms Hewitt:** The Department's Executive and Advisory NDPBs are listed in the Cabinet Office's annual publication "Public Bodies".

The following bodies have been formed as Executive or Advisory NDPBs since 1 April 2003 and will be included in the Public Bodies 2004.

Competition Service—Executive NDPB

Hearing Aid Council—Executive NDPB

Advisory Committee on Carbon Abatement Technologies—Advisory NDPB

Sustainable Energy Policy Advisory Board—Advisory NDPB

UK National Authority Advisory Group—Advisory NDPB

Budgets for individual NDPBs, which may reflect income in addition to Grant in Aid, are typically settled in separate corporate or business planning discussions. Details could be supplied only at disproportionate cost.

However, Grant in Aid support for these bodies is published annually in DTI's entry in Central Government Supply Estimates (Main Supply Estimates).

Grant in Aid for future years will be published annually in Central Government Supply Estimates (Main Supply Estimates).

Copies of "Public Bodies" and the Department's estimates are available in the Libraries of the House.

### Nuclear Decommissioning

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what assessment she has made of the cost of *(a)* building, *(b)* operating and *(c)* decommissioning (i) next generation nuclear and (ii) combined cycle gas turbine facilities. [158561]

**Mr. Timms:** The Department has published estimates of the cost of electricity generation from a variety of technologies, including next generation nuclear and combined cycle gas turbine facilities. These are contained in a report published in February 2002 available at: www.dti.gov.uk/energy/greenhousegas/index.shtml.

The Performance and Innovation Unit at the Cabinet Office also published similar estimates in its 2001 Energy Review. These are available at: www.number-10.gov.uk/su/energy/1.html

### One NorthEast (UK Land Estates Partnership Deal)

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry what the value was of the assets of One North East which were included in the partnership deal with UK Land Estates; and what the value of contracts placed with UK Land Estates by ONE has been since its commencement. [157047]

**Nigel Griffiths:** The contractual documentation for the limited partnership, which is proposed will be called North East Property Partnership, is not yet complete.

The Agency has placed no contracts with the partnership to date as it has yet to come into existence.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Trade and Industry how many parliamentary questions have been tabled to her Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157746]

**Ms Hewitt:** The following figures are for the whole of the 2002–03 sessions. Of the 2,867 ordinary written questions, 2,706 (94 per cent.) were answered within 10 working days. Of the 723 named day written questions, 247 (34 per cent.) received a substantive reply on the named day.

### Post Office

**Mr. Andrew Turner:** To ask the Secretary of State for Trade and Industry what the average percentage decline in post office business between March 2000 and March 2003 was for post offices in *(a)* the top 10 per cent.of urban deprived wards and *(b)* urban areas; and what percentage of the decline during that period she attributes to changes in the benefits system. [156482]

**Mr. Timms** *[holding answer 26 February 2004]:* The information sought relates to operational matters and I have asked the Chief Executive of Post Office Ltd. to reply direct to the hon. Member.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry how much money has been paid in compensation to sub-post masters and mistresses of closing post offices; and how many post offices have been closed in each of the last five years. [158586]

**Mr. Timms:** I understand from Post Office Ltd. that net closures of post offices in each of the last five years were:

| *Year to end March* | |
|---|---|
| 1999 | 233 |
| 2000 | 382 |
| 2001 | 547 |
| 2002 | 262 |
| 2003 | [1]345 |

[1] Including 102 closures under the urban reinvention programme which commenced in October 2002.

Compensation is paid only to those subpostmasters whose office close under the terms of the urban reinvention programme. Post Office Ltd. produces data on branch closures, including those under the urban reinvention programme, on a quarterly basis. The total amount paid in compensation to subpostmasters in respect of the 694 post offices closed under the urban reinvention programme to end December 2003, the latest quarter for which this information is available was £38,111,410.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry what assessment she has made of the part played by *(a)* Postwatch and *(b)* Post Office Limited in the Urban Network Reinvention Programme. [158594]

**Mr. Timms:** Post Office Ltd.'s urban reinvention programme is essential if a viable and sustainable countrywide post office network is to be maintained and to meet the changing needs of customers. The company will ensure that at the end of the programme, at least 95 per cent. of the population in urban areas will still live within a mile of their nearest post offices.

Postwatch has an important role in the programme in examining each individual closure proposals and monitoring the programme overall. I understand that, of some 1,600 closure proposals notified to them, over 200 have been withdrawn, deferred or modified during or after the consultation process.

Although the vast majority of urban reinvention closure proposals have attracted little criticism, concerns expressed about the consultation arrangements led me to ask Post Office Ltd. to review the arrangements and to propose changes to make them more inclusive and responsive. These changes were announced in my written statement of 5 February.

### Regulatory Impact Assessments

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry whether regulatory impact assessments undertaken in relation to EU legislation are full assessments. [155259]

**Nigel Griffiths:** All regulations, including those resulting from EU legislation, that have a cost to or benefit for business are required to have a full Regulatory Impact Assessment (RIA). Copies are placed in the Libraries of the House.

While EU legislation is being developed, a partial RIA is prepared in order to inform the policy development process. The RIA remains a partial RIA while the legislative proposal itself is under development.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report*, column 649W, on regulatory impact assessments, what assessment she has made of the frequency with which the costs and benefits of regulations to consumers are considered in the course of regulatory impact assessments. [155490]

**Nigel Griffiths:** The Regulatory Impact Assessment (RIA) process requires policy makers to assess the impact on all areas of society affected by a proposal. Where appropriate, therefore, the impact on consumers will be assessed in the RIA.

An estimate of the frequency with which consumers are referred cannot be provided without incurring disproportionate cost.

All RIAs must include a competition assessment which looks at the impact of a proposal on UK customers.

### Regulatory Reform Orders

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry which regulatory reform order have been used to amend burdensome primary legislation since 2001. [155319]

**Nigel Griffiths:** The Department is currently committed to a total of 10 Regulatory Reform Orders by the end of 2005.

The Department has completed one Regulatory Reform Order removing the 20 Partner Limit on business partnerships. A further two removing the Sunday Trading Reporting Requirements for large stores and Patent Law improvements are undergoing Parliamentary scrutiny.

### Russia (Nuclear Co-operation)

**Llew Smith:** To ask the Secretary of State for Trade and Industry whether the United Kingdom Atomic Energy Authority was involved under the G8 Global Partnership Programme or its predecessor bilateral nuclear co-operation agreements with Russia in the towing of the Russian nuclear submarine K159 (November Class SSN) to the breaker's yard. [157498]

**Nigel Griffiths:** No.

### Secondments

**Norman Baker:** To ask the Secretary of State for Trade and Industry if she will list the secondees from outside organisations working in her Department, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment; and which are involved in drafting parliamentary answers. [158052]

**Ms Hewitt:** The following table shows all secondees from external organisations presently working in the Department of Trade and Industry. The table indicates the name of the secondee, their employer, the position of

the secondee and the name of the DTI directorate to which the secondee is attached, and the secondment start and finish dates.

Secondees may, where appropriate in the course of their responsibilities, be asked to contribute to the drafting of parliamentary answers.

| *Name* | *Employer* | *DTI post held* | *Secondment start date* | *Secondment finish date* |
|---|---|---|---|---|

### World Trade Organisation

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Trade and Industry if she will remove at least two of the Singapore issues from the remaining trade negotiations in the interest of multilateral trade. [156329]

**Mr. Mike O'Brien:** EU Trade Ministers agreed on 2 December 2003 that the European Community should "unbundle" the four Singapore issues and explore alternative, more flexible approaches, including the possibility of removing some, or all, of the Singapore issues from the Doha Round.

The UK has made clear since before Cancun that we do not see investment and competition as priorities in the Doha Development Agenda. It is clear there is substantial opposition to negotiations on these issues in the WTO on the part of developing countries and we should take account of these views.

### Small Business Representation

**Brian Cotter:** To ask the Secretary of State for Trade and Industry if she will list the small business representatives on each of the Department's group boards. [156680]

**Nigel Griffiths:** Of the current group board independent members, four have a background in small business: Richard Maudslay (Business Group Board), Patricia Calway (Fair Markets Group Board), Caroline Whitfield (Innovation Group Board) and Shahzad Khan MBE (Innovation Group Board).

Advice to DTI on the needs of small business comes from the Small Business Council (SBC) and the Ethnic Minority Business Forum (EMBF). The SBC advises on the needs of existing and potential small business in order to increase their opportunities for success and growth. It also advises on the effects on such businesses of the activities and potential activities of Government. The EMBF advises on the right help and advice that

black and ethnic minorities need to start and successfully grow their businesses. The majority of members of both these advisory non-departmental public bodies are small business representatives. Further information on both can be found on the Small Business Service website at www.sbs.gov.uk.

### Smart Award Scheme

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what measures she is taking to improve the effectiveness of the Smart scheme in increasing the profitability of award-winners' businesses. [155260]

**Nigel Griffiths:** Business Link engage with businesses in receipt of Smart as well as other SMEs to help them build their capability for growth.

### UK Online for Business

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will publish the feedback received by her Department from stakeholders in UK online for business. [157242]

**Nigel Griffiths:** Useful feedback has been received from a variety of Intermediaries, major IT partners and business organisations on the value of the UK online for Business programme. The feedback is for internal use and is not being published.

Some objective feedback came in the form of the report published by the Economist Intelligent Unit in 2003 on e-Readiness, which described UK online for business as one of the world's strongest and most innovative government projects supporting e-business.

### University Challenge Seed Funds

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry when it was decided to withdraw separate funding for University Challenge Seed Funds; and why this decision was taken. [157214]

**Ms Hewitt:** The Government announced in July 2002 in its strategy document "Investing in Innovation—A strategy for science, engineering and technology", that it would increase the funds available for the Higher Education Innovation Fund (HEIF). In addition it would combine funding previously allocated to University Challenge and Science Enterprise Challenge into the budget for the second round of HEIF. In this way the Government is supporting knowledge transfer in Higher Education Institutions (HEIs) through a single stream of funding, alongside that for teaching and research, simplifying the funding landscape and allowing HEIs greater flexibility in targeting available resources at their identified priority areas.

£45 million has been invested in University Challenge since 1999

£78 million was invested in the first round of the Higher Education Innovation Fund (three year period)

£187 million will be invested in the second round of the Higher Education Innovation Fund (two year period)

### Vehicle Disposal

**Mr. Bill O'Brien:** To ask the Secretary of State for Trade and Industry what measures will be put in place to inform the public about the disposal of end of life vehicles in relation to the End of Life Vehicles Directive; and if she will make a statement. [157981]

**Mr. Timms:** A number of publicity initiatives are to be taken, at the most appropriate times, to inform the public about their rights and responsibilities in regard to end-of-life vehicles (ELVs), as a consequence of the regulations which bring the ELV Directive into effect in the UK. Aspects of the regulations to be covered by publicity include the Certificate of Destruction to be issued by authorised treatment facilities, and the entitlement to "free take-back" of ELVs, of any age, from 2007. The system which the Government is proposing to introduce to deliver this last aspect is set down in a Consultation Document, issued by the Department on 4 February, entitled the End-of-Life Vehicles (Producer Responsibility) Regulations 2004, copies of which have beenplaced in the Libraries of the House.

## INTERNATIONAL DEVELOPMENT

### Burma

**Mr. Bercow:** To ask the Secretary of State for International Development what assessment he has made of the effectiveness of his Department's contribution to the United Nations High Commissioner for Refugee's protection role on the Burma-Thailand border. [157617]

**Mr. Gareth Thomas:** In 2001–02, DFID provided £1 million to the Office of the United Nations High Commissioner for Refugees (UNHCR) programme 'Care and Protection for Refugees from Burma in Thailand'. This programme was targeted towards the Burmese refugees residing in Thailand (approximately 110,000 at that time) and focused on:

ensuring the admission and reception procedures for new arrivals in Thailand adhere to international standards;

seeking access to asylum seekers at the border and working with the Thai authorities to establish a fair and transparent procedure for determining admission of new asylum seekers;

continuing to search for a durable solution for this refugee population;

facilitating, in cooperation with other UN agencies and NGOs, provision of care and social support to the refugee population;

continuing to promote accession to the 1951 Refugee Convention.

UNHCR faced many challenges during the period of activities which impacted on its ability to progress its objectives, including lack of access to both sides of the Thai-Burma border, continued insecurity in border areas of Burma, and continued problems with the definition and application of refugee admission criteria in Thailand. However, despite these constraints UNHCR continued the critical dialogue with the Government of Thailand on protection-related issues, including conducting re-registration of new arrivals and continued advocacy to prevent forced return. UNHCR also liaised with operational UN agencies and NGOs to facilitate provision of adequate living conditions within the camps. Within its care and protection activities, UNHCR implemented programmes to identify, prevent and respond to sexual and gender based violence,

provided vocational training for refugees, educational materials for school age children, and mine risk education.

In addition to supporting UNHCR Thailand, my Department also provided £607,000 to UNHCR Burma in 2002–03. The UNHCR Burma programme focused on Repatriation and Reintegration for a target population of 86,000 returnees from Bangladesh in Northern Rakhine State. Its purpose is to help establish conditions for safe, dignified, and sustainable reintegration of Burmese refugees and to mitigate potential obstacles to successful reintegration. The programme includes monitoring of forced labour, issuance of identity and residency documents for new returnees, training for returnees in language and market oriented skills, health and education services through the Myanmar Mother and Child Welfare Association, and training for the authorities in refugee and human rights law.

**Mr. Bercow:** To ask the Secretary of State for International Development if he will break down by programme his Department's £4 million allocation for the bilateral programme for Burma. [157619]

**Mr. Gareth Thomas:** DFID's projected expenditure on bilateral programmes from its Burma aid framework allocation during the current financial year breaks down as follows:

| | £ |
|---|---|
| a. Grant to UN Administered Fund for HIV/AIDS in Burma | 2,200,000 |
| b. DFID financed Technical Assistance for work of UN HIV/Aids Fund | 120,779 |
| c. Grant to the BBC World Service Trust for Radio Soap Opera in support of HIV/AIDS education and improved livelihoods of poor people | 588,972 |
| d. Grant to NGO for Basic Health Care Programmes in Wa and Kachin | 125,071 |
| e. Grant to Christian Aid for Burmese Border Consortium food aid and relief programmes on the Thailand-Burma Border | 450,000 |
| g. Grant to World Health Organisation (WHO) for co-ordination of health services at Thailand-Burma Border | 220,000 |
| h. Small grants to civil society organisations | 90,000 |
| Total projected expenditure in 2003–04 | 3,794,822 |

**Mr. Bercow:** To ask the Secretary of State for International Development what assistance with the supply of medicines his Department is providing for the 995 Karenni and 678 Karen internally displaced persons in the Muthraw district of Burma. [157625]

**Mr. Gareth Thomas:** DFID is not providing assistance with the supply of medicines that target internally displaced persons in the Muthraw district of Burma. We provide support, through the Small Grants Scheme managed by the British Embassy in Rangoon, for a community based organisation to operate a mobile medical clinic in Kayah State which has also visited the Muthraw district.

## CDC

**Gregory Barker:** To ask the Secretary of State for International Development what the cost of corporate entertaining by CDC was for the last seven years; and what the budget for corporate entertainment by *(a)* CDC and *(b)* Actis is for the next three years. [157842]

**Hilary Benn** *[pursuant to his reply, 1 March 2004, Official Report, c. 618W]:* The costs of corporate entertainment by CDC over the last seven years were as follows:

| | £ |
|---|---|
| 1997 | 66,000 |
| 1998 | 101,000 |
| 1999 | 114,000 |
| 2000 | 88,000 |
| 2001 | 78,000 |
| 2002 | 81,000 |
| 2003 | 66,000 |

The corporate entertainment budgets for CDC and Actis for 2004 are £16,000 and £118,000 respectively. Although the combined level is higher than recent years, it reflects the need for the new investment management company, Actis, to establish itself in all its the markets worldwide, to promote its investment Funds and to attract third party investors.

Budgets for subsequent years have not yet been set.

## Iraq

**Mr. Battle:** To ask the Secretary of State for International Development what representations he has made to the Agricultural Reconstruction and Development Programme for Iraq to ensure that poorer farmers do not suffer from higher prices for irrigation water; and if he will make a statement. [157435]

**Hilary Benn:** The USAID-supported Agricultural Reconstruction and Development Program for Iraq (ARDI) is undertaking surveys in the agriculture and natural resources sectors in Iraq in order to provide information for future policy-making by the Iraqi Ministry of Water Resources.

As part of this work, ARDI advisers are working with the Ministry to consider options for the reform of tariffs on water used in irrigation. The aims of such reforms would be to generate revenue to cover the operating expenses of the irrigation system and to encourage the efficient and sustainable use of scarce water resources.

DFID secondees are not closely involved in the agriculture or water resources sectors in Iraq. However, advisers from other Coalition partners in these sectors are aware of the need to put in put in place measures which will improve the situation of poor farmers on a long-term sustainable basis.

### United Nations Officials Transcripts

**Clive Efford:** To ask the Secretary of State for International Development on which dates his Department received transcripts of telephone conversations of the Secretary General of the UN; what action was taken in response to the information they contained; and whether the Department raised concerns about how the transcripts were acquired with the relevant authorities. [158400]

**Hilary Benn:** It has been the practice of successive Governments neither to confirm nor to deny allegations relating to the security and intelligence agencies.

## CONSTITUTIONAL AFFAIRS

### Public Record Office (Irish Historical Documents)

**Mr. Paul Marsden:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list documents on Kilmainham Gaol held by the Public Record Office. [156299]

**Mr. Leslie:** Information is available on the National Archives' electronic catalogue, 'available at www.nationalarchives.gov.uk An initial search revealed that some of the documents are held in the following series: AO2, HO45, SP34 and Tl. The National Archives of Ireland in Dublin also holds some material relating to Kilmainham Gaol.

**Mr. Paul Marsden:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the documents relating to the courts-martial of those indicted following the Easter Uprising in Dublin in 1916 held by the Public Record Office. [156300]

**Mr. Leslie:** Information is held on the National Archives' electronic catalogue, available on the internet at www.nationalarchives.gov.uk An initial search revealed that some documents are held in Series WO71 and WO141.

**Mr. Paul Marsden:** To ask the Parliamentary Secretary, Department for Constitutional Affairs which documents are held by the Public Record Office written by *(a)* P. H. Pearse, *(b)* Thomas J. Clarke, *(c)* Thomas Macdonagh, *(d)* Edward Daly, *(e)* William Pearse, *(f)* Michael O'Hanrahan, *(g)* Joseph Mary Plunkett, *(h)* John MacBride, *(i)* Sean Heuston, *(j)* Michael Mallin, *(k)* Eamonn Ceannt, *(l)* Con Colbert, *(m)* Thomas Kent, *(n)* Sean MacDiarmada, *(o)* James Connolly and *(p)* Sir Roger Casement. [156304]

**Mr. Leslie:** It is not possible to identify documents which may have been written by the names listed, without detailed research into the records held by the National Archives. Because this research would have to cover a very large number of documents, a full answer to the hon. Member could be provided only at disproportionate cost. However, more information about Government records which have been transferred to the National Archives can be accessed through its web site at: www.nationalarchives.gov.uk

### Small Claims Track

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what percentage of the cost of running the small claims track was recovered from the payment of court fees by litigants in the last period for which figures are available; [155383]

(2) what percentage of the costs of the small claims track in Middlesbrough court was recovered from court fees paid by litigants in the last year for which figures are available. [155384]

**Mr. Leslie:** The approximate unit cost to the Court Service of processing a claim from issue of proceedings to judgment at a small-claims hearing in 2002–03 was £527. For the purpose of calculating the unit cost the divisor is the number of claims allocated to the small claims track. In 2002–03 this was 80,496 (England and Wales). The total cost of small claims that are defended is therefore £42,421,392.

The percentage of cost recovered from fees paid by litigants was 103 per cent. This allows for income and cost associated with small claims that did not go to a hearing or were not defended. The cost of the small claims hearing itself, (included in the figure of £527) is based on the average length of a small claims hearing published in Judicial Statistics 2002 (table 4.11).

In 2003 a total of 482 small claims were allocated to track at Middlesbrough county court, indicating a total cost of £254,014. It is impossible to carry out valid comparisons of cost and income at local level. This is because a significant proportion of fee revenue is accounted for centrally at the Claims Production Centre (Northampton). The CPC issues claims on behalf of all county courts in England and Wales.

### University Complaints

**Ms Walley:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the Government's policy is in respect of the availability of legal aid for those intending to refer university complaints to the proposed new Independent Adjudicator as set out in the Higher Education Bill; and if he will make a statement. [158299]

**Mr. Lammy:** It is intended that the Office of the Independent Adjudicator for Higher Education (OIA), which has been established by the higher education sector, will be the designated operator of a scheme for the review of student complaints should the Higher Education Bill become law. The OIA is not a judicial scheme. It operates along similar lines to other Ombudsman-type schemes and will be free to complainants, and therefore legal aid should be unnecessary.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Burma

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese Government about the country's procedure for trial. [157462]

**Mr. Mike O'Brien:** We are concerned about the Burmese authorities' procedure for trial. We believe that Burmese trials continue to fall short of international fair

trial standards. I regularly raise our concerns on human rights issues with the Burmese authorities, most recently when I met the Burmese ambassador on 23 February.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Burmese Government to review the sentences of those political prisoners who have been sentenced in trials which did not meet international standards of fairness; [157464]

(2) what representations he has made to the Government of Burma about the continued detention of 23 people arrested on 30 May 2003. [157724]

**Mr. Mike O'Brien:** We have repeatedly called on the Burmese regime to fully release all political prisoners and to allow them to play an active role in national reconciliation in Burma.

We are concerned about the Burmese authorities' procedure for trial. We believe that Burmese trials continue to fall short of international fair trial standards. I regularly raise our concerns on human rights issues with the Burmese authorities, most recently when I met the Burmese ambassador on 23 February.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Burmese Government about ensuring that the National Convention incorporates extensive human rights safeguards in a new constitution for the country; [157465]

(2) what discussions he has had with the Burmese Government about the timetable for reconvening the National Convention to draft a new constitution and conduct the transition to democracy. [157623]

**Mr. Mike O'Brien:** The Burmese ambassador called on me on 23 February to discuss the State Peace and Development Council's plans to reconvene the National Convention. We had a full and frank discussion. I made clear that the National Convention should be an inclusive, transparent process with a clear timeframe. I have repeatedly called on the Burmese regime to ensure that human rights in Burma are fully respected.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the level of access of the Rohingya people in Burma to *(a)* markets, *(b)* employment, *(c)* education and *(d)* medical care. [157472]

**Mr. Mike O'Brien:** Many people in all parts of Burma have only limited access to employment opportunities, education, and medical care. These problems are compounded in Northern Rakhine State by the additional travel and other restrictions placed on the Rohingya people, which in some cases also limit their access to markets. We provide support to the United Nation High Commission for Refugees who are working to improve conditions in Northern Rakhine State.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of the confiscation of Rohingya land for *(a)* use as Burmese army camps and *(b)* the settlement of other people. [157473]

**Mr. Mike O'Brien:** We are aware of allegations of land confiscation but are unable to independently verify these.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the extent of the use of human minesweepers in Burma. [157629]

**Mr. Mike O'Brien:** We are aware of allegations of instances where villagers or prisoners have been forced to assist with mine clearance, including by inappropriate and dangerous methods. The 2003 Landmine Monitor, published by the International Campaign to Ban Landmines, alleges three cases of 'atrocity demining' in 2002.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the extent of the destruction of crops and food supplies by the State Peace and Development Council in Burma. [157633]

**Mr. Mike O'Brien:** Instances of destruction of crops and food supplies by the State Peace and Development Council forces is rare in the large parts of the country. However, there are credible reports of such activity in areas where armed conflict continues.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of *(a)* looting, *(b)* burning and *(c)* extortion by the State Peace and Development Council in Burma. [157636]

**Mr. Mike O'Brien:** Instances of looting and burning by State Peace and Development Council (SPDC) forces or other authorities are rare in the majority of the country. However, in the areas where armed conflict continues there are numerous allegations of looting and burning of property, and other human rights abuse, by SPDC forces. We judge that some of these allegations are credible. Restrictions on travel by British embassy personnel in Rangoon makes it impossible to independently verify individual allegations.

A certain level of extortion is widespread throughout the country. At the lowest and most common level it includes the extraction of small sums of money, by police and military personnel, at roadside and other checkpoints. We are aware also of frequent instances where 'contributions' to local projects, entertainment for VIP guests, additional charges for electricity and other services, etc. are extracted from householders under threat of jail sentences or other punishment, by civilian authorities.

Within conflict affected areas there are reports of threats and extortion being used, by military and anti-SPDC forces, to extract food, labour, information and other assistance from local villagers.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of deaths from the use of landmines in Burma in each of the last five years. [157641]

**Mr. Mike O'Brien:** A reliable estimate of the number of deaths from landmines is not possible, since many deaths (as opposed to injuries which require medical treatment) are unreported and unrecorded.

The 2003 Landmine Monitor (published by the International Campaign to Ban Landmines) notes that in 2002 there were at least 114 landmine casualties reported in Burma, but only one of these, a military officer, was reported as being killed. It also notes that the number of landmine casualties appears to have been increasing in the last 5–6 years.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of internally displaced people in Burma who have died of starvation in each of the last five years. [157642]

**Mr. Mike O'Brien:** We do not hold figures for the number of internally displaced people (IDPs) in Burma who have died of starvation in each of the last five years.

IDPs are largely concentrated in areas where there is continuing conflict between the State Peace and Development Council forces and forces belonging to ethnic nationality organisations. Some have been forcibly relocated to 'resettlement' camps and villages. Others remain in hiding in remote areas. All IDPs, particularly those hiding in the jungle, are extremely vulnerable to a range of ills—including starvation, but also to disease, lack of medical care, lack of shelter, ongoing fighting and abuse by armed forces.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last had contact with the Karenni National Progressive Party; and what was discussed at that meeting. [157644]

**Mr. Mike O'Brien:** I have had no direct contact with the Karenni National Progressive Party.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Burma about the Emergency Provisions Act 1950. [157725]

**Mr. Mike O'Brien:** None.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people in Karenni state who remain in need of *(a)* food, *(b)* shelter and *(c)* protection. [157639]

**Mr. Mike O'Brien:** Karenni State has an estimated population of 259,000 people. It is one of the least developed areas in Burma. There are large numbers of people who suffer from deficiencies in food, shelter and protection (as there are in other parts of Burma).

Between two thirds and three quarters of the area of the state is believed to be under the control of various armed ethnic organisations who have reached ceasefire agreements with the State Peace and Development Council. Although many problems remain in these ceasefire areas, the situation for ordinary villagers is better than in the areas where armed conflict continues.

In the areas of Karenni State where armed conflict continues, food, shelter and protection needs are particularly severe. Population displacement means that the numbers of people involved is probably considerably less than a quarter of the state's population. Among the most vulnerable are those internally displaced people who have been forced to leave their villages and who remain hiding in the jungle. Accurate estimates are hard to obtain, but their number probably reaches several thousand.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the numbers of Burmese State Peace and Development Council soldiers brought into Karenni state from Karen areas since 1 December 2003. [157640]

**Mr. Mike O'Brien:** We are aware of reports of increased military activity in southern Karenni State since December 2003. We are also aware of reports of an associated increase in instances of human rights abuse and internally displaced people. Some estimates of numbers and disposition of troops are available. The most comprehensive of these are provided by the Karen People's Progressive Party and Karen National Union forces and publicised by groups such as the Free Burma Rangers. They state that up to 1,000 new troops have been brought into the region. Other evidence for increased activity in this area is quite strong. But independent verification of troop numbers is not possible.

## Iraq

**Sir John Stanley:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he received advice from officials within his Department that a war against Iraq might be illegal. [158143]

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government received advice on the legality of war on Iraq from Government legal advisers which did not concur with the advice given by the Attorney-General. [158522]

**Mr. Straw:** The Government's legal advice on the legal basis for the use of force against Iraq came from the Attorney-General, who made a statement in Parliament on 17 March 2003 which set out his view.

I supplemented this with a letter of the same date to the Chairman of the Foreign Affairs Committee, which was also sent to every right hon. and hon. Member.

**Sir John Stanley:** To ask the Secretary of State for Foreign and Commonwealth Affairs on what date the Permanent Secretary in his Department was first informed as to which Iraqi weapons the 45 minute claim in the Iraqi weapons of mass destruction dossier applied. [158774]

**Mr. Mike O'Brien:** I refer the right hon. Gentleman to the answer given to him by my right hon. Friend the Foreign Secretary on 10 February 2004, *Official Report*, column 1305W. The Permanent Under-Secretary at the Foreign and Commonwealth Office was informed of the particular weapons referred to in similar circumstances and with the same timings as the Foreign Secretary.

## Russia

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what sanctions against Russia are planned by EU member states if Russia does not accept the terms of the partnership and trade agreements within the European Union. [157396]

**Mr. Mike O'Brien:** We are currently working on the basis that Russia will agree to extend the Partnership and Co-operation Agreement (PCA) to the enlarged EU from May 1.

The European Commission, in consultation with member states, is seeking to agree a text of a Draft Protocol with Russia to extend the PCA, while expressing willingness to address Russia's legitimate concerns about EU enlargement.

The Commission has yet to present formal proposals to member states for sanctions in the event that Russia fails to extend the PCA to the new member states from 1 May.

### Secret Intelligence Service

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether members of the secret intelligence services were in New York in February 2003. [158112]

**Mr. Straw:** In line with the long-standing practice of successive Governments, to comment on the deployment of security and intelligence service officials would be inappropriate. The security and intelligence services are not within the scope of the Code of Practice on Access to Government Information (Part 1, paragraph 6).

### Sudan

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs, (1) what action he is taking to find an independent mediator, acceptable to both sides, to bring an end to the conflict in Darfur; [158093]

(2) what contribution the UK will make to ensure that the peace agreement in Darfur is maintained. [158094]

**Mr. Mullin:** We are urging all parties to the conflict in Darfur to re-establish a ceasefire, preferably with international monitoring, permit humanitarian access to all those in need, and resume talks to find a peaceful solution.

We are in almost daily contact with the Government of Sudan and the various Darfur groups. We are working closely with the EU and the US, and have offered to facilitate the peaceful resolution of the conflict. We have suggested that there may be a role for the international community, including the UK, in assisting in the implementation of a peace agreement.

### United Nations (Surveillance)

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have received from the Governments of *(a)* Angola, *(b)* Cameroon, *(c)* Chile, *(d)* Guinea, *(e)* Mexico and *(f)* Pakistan in respect of allegations made by Katharine Gun that the diplomatic missions of these states in New York were electronically bugged by British and United States security services. [158113]

**Mr. Straw:** The British embassy in Mexico City received a Note Verbale from the Mexican Government on this issue. We have not received such correspondence from the other countries mentioned.

## NORTHERN IRELAND

### Anaesthetists

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many anaesthetists were working in the NHS in Northern Ireland in each year since 2000, broken down by health board area. [157658]

**Angela Smith:** The information requested is provided in the following table.

*Number of anaesthetists working within HSS[1] trusts as at 31 December 2000, 31 December 2001, 31 December 2002 and 31 December 2003 broken down by health board area (headcount and WTE)*

| | *31 December 2000* | | *31 December 2001* | | *31 December 2002* | | *31 December 2003* | |
|---|---|---|---|---|---|---|---|---|
| *Health board* | *Headcount* | *WTE[2]* | *Headcount* | *WTE[2]* | *Headcount* | *WTE[2]* | *Headcount* | *WTE[2]* |
| Eastern board | 101 | 97.87 | 101 | 98.78 | 107 | 103.20 | 116 | 112.20 |
| Northern board | 14 | 13.64 | 17 | 16.64 | 17 | 16.64 | 16 | 15.64 |
| Western board | 20 | 20.00 | 21 | 21.00 | 22 | 22.00 | 26 | 25.50 |
| Southern board | 19 | 19.00 | 19 | 19.00 | 20 | 20.00 | 20 | 19.71 |
| Total | 154 | 150.51 | 158 | 155.42 | 166 | 161.84 | 178 | 173.05 |

[1] Health and Social Services.
[2] Whole-time equivalent.

### Curriculum

**Mr. Andrew Turner:** To ask the Secretary of State for Northern Ireland in what ways the Northern Ireland curriculum differs from the National Curriculum. [157848]

**Jane Kennedy:** The National Curriculum is similar, though not identical, to the Northern Ireland Curriculum. Both prescribe a number of compulsory subjects at different key stages. The main difference lies in the fact that Northern Ireland has six compulsory cross-curricular themes which are taught through a range of subjects. These cover Information Technology, Education for Mutual Understanding, Cultural Heritage, Health Education and at post primary level, Economic Awareness and Careers Education.

### Football

**Kate Hoey:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 23 February 2004, *Official Report*, column 161W, on football, on what governance and accountability arrangements agreement has not yet been reached. [158323]

**Angela Smith:** Agreement has not yet been reached between the Department of Culture, Arts and Leisure and the Irish Football Association (IFA) on recommendations for the re-structuring of the IFA that have emerged from an independent economic appraisal process commissioned by the Sports Council for Northern Ireland in accordance with normal accountability arrangements for public funds.

### New Acute Hospital (South-west)

**Mr. Tony Clarke:** To ask the Secretary of State for Northern Ireland what consultations have been held on the location for the new acute hospital in the South West of Northern Ireland; what discussions he has had on this with *(a)* his predecessor and *(b)* members of the suspended executive; and what views they held. [157439]

**Angela Smith:** The report of the Acute Hospitals Review Group, which included a recommendation on the location of the new acute hospital for the South West, was issued for consultation between 30 June 2001 and 31 October 2001. The paper "Developing Better Services: Modernising Hospitals and Reforming Structures", which set out proposals for future hospital services in Northern Ireland including the location of the new acute hospital for the South West, was issued for consultation between 12 June 2002 and 31 October 2002. I have had no discussions on this matter with my predecessor, Des Browne, or with former members of the Executive Committee of the Northern Ireland Assembly. I have, however, held discussions with a number of MLAs who have requested to meet me to give me their views on the implications of the decision on the location for the new acute hospital for the South West. These views have extended from a wish to have the decision overturned to a concern to have enhanced services for people in the Tyrone and Mid-Ulster area.

### New Schools

**Mr. Jon Owen Jones:** To ask the Secretary of State for Northern Ireland what the *(a)* value and *(b)* number of new schools built in Northern Ireland is in the last five years for which records are available. [156959]

**Jane Kennedy:** Records are not readily available about the value and number of new schools that have been built in each of the last five years. However, over the last five years significant investment has been announced for new schools, and for major extensions and refurbishment of existing schools, as follows:

| | *Projects* | *£ million* |
|---|---|---|
| 1999–2000 | 16 | 67.1 |
| 2000–01 | 18 | 72.2 |
| 2001–02 | 25 | 132 |
| 2002–03 | 33 | 175.2 |
| 2003–04 | 43 | 263 |

This is a total of 135 school projects at a total value of £709.5 million.

### Threshold Payments

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland what schools are experiencing a financial deficit as a result of the payment of threshold payments, broken down by area board; and if he will make a statement. [157455]

**Jane Kennedy:** Teachers' threshold costs are part of a teacher's salary. They form only one element of a range of costs that have to be met from a school's budget. It is not possible to establish the precise reasons why a school's delegated budget is in deficit as there can be many factors involved.

### Windsor Park, Belfast

**Kate Hoey:** To ask the Secretary of State for Northern Ireland what element of soccer strategy money has been set aside for improvements to Windsor Park, Belfast. [158324]

**Angela Smith:** To date no element of Soccer Strategy money has been set aside for improvements to Windsor Park, Belfast. However, an indicative sum of £3 million is earmarked from Soccer Strategy money for playing facilities generally. The playing facilities component of the Soccer Strategy is currently being subjected to independent economic appraisal. Improvements to Windsor Park could be considered as part of that component. I will, though, wish to be satisfied that recommendations in relation to Governance and that accountability arrangements provide appropriate safeguards for public funds, before any element of Soccer Strategy money, including that for playing facilities, could be released.

## EDUCATION AND SKILLS

### Child Care

**Mr. Goodman:** To ask the Secretary of State for Education and Skills how many civil servants in his Department are assisting with the review of childcare policy; what *(a)* organisations from outside the Department and *(b)* other Departments are assisting with the review; what body or committee within the Department is co-ordinating the review; when he expects to publish the review; and if he will make a statement. [158131]

**Dawn Primarolo** *[holding answer 2 March 2004]:* I have been asked to reply.

The Childcare Review was announced by the Chancellor in Budget 2003. An inter-departmental ministerial steering group was set up to oversee the review, jointly chaired by Margaret Hodge and me.

A working group of officials, supporting the ministerial steering group, is chaired by HM Treasury, with representatives from the Department for Education and Skills, Department for Work and Pensions, Department of Trade and Industry, Department of Health, the Women and Equality Unit, the Social Exclusion Unit at the Office of the Deputy Prime Minister and No. 10. Within HM Treasury and the Sure Start Unit most of the work being done by the review would have been required anyway for the Spending Review. There are no civil servants working

full time on the Childcare Review and those working on it have taken it on as part of their normal responsibilities.

The review has consulted external bodies, receiving 50 responses, and held bi-lateral meetings with the main groups working in this area.

The results of the review will be reflected in the Spending Review, the outcome of which will be published in the summer.

### Foundation Degrees

**Malcolm Bruce:** To ask the Secretary of State for Education and Skills how many *(a)* women and *(b)* men (i) applied to, (ii) enrolled in and (iii) graduated in courses in higher education in each year since 1997, broken down by (A) humanities, social studies and languages courses, (B) physical sciences and mathematics courses, (C) engineering and technology courses, (D) medicine and dentistry and (E) other courses. [143148]

**Alan Johnson:** The information requested is taken from the Universities and Colleges Admissions Service (UCAS) and the Higher Education Statistics Agency (HESA). Figures are given in the table.

I apologise to the hon. Member for the delay in replying. There have been an unusually high number of questions over the last few months, and the data for 2003 graduates did not become available until after Christmas.

*Applicants, accepted applicants and first degree graduates by subject and gender. 1997/98 to 2002/03*

*Source:*
Universities and Colleges Admissions Service and Higher Education Statistics Agency.

**Mr. Bercow:** To ask the Secretary of State for Education and Skills if he will list by education authority in England and Wales the proportion of school leavers who have entered higher education in each of the last five years. [149188]

**Alan Johnson:** The available information is taken from the Universities and Colleges Admissions Service (UCAS) and covers applicants, domiciled in English Local Education Authorities, accepted onto full time first degree and HND courses at UK institutions. Figures for Wales are the responsibility of my right hon. Friend the Secretary of State for Wales.

Figures are given in a table that has been placed in the Library.

### School Meals

**Helen Jones:** To ask the Secretary of State for Education and Skills (1) what steps he is taking to reduce the amount of salt in school meals; and if he will make a statement; [158647]

(2) what research his Department has carried out into the salt content of school meals; and if he will make a statement. [158648]

**Mr. Stephen Twigg:** The Department's guidance 'Healthy School Lunches' makes various recommendations for reducing salt in cooking and what to use as an alternative. The guidance can be viewed on the website www.dfes.gov.uk/schoollunches

The Department for Education and Skills, together with the Food Standards Agency, has taken forward a project looking at school meals in 80 secondary schools in England. The project is assessing the food provided; consumption; and nutrient intake. The project is also looking at the use of salt in food preparation and availability at meal times. The results of this research will be published late spring 2004, and will inform future policy decisions on this issue.

### School Photos

**Mr. Burns:** To ask the Secretary of State for Education and Skills (1) whether he plans to issue clarification to local education authorities on the guidance he has issued on the photographing of children at school; and if he will make a statement; [150531]

(2) when the hon. Member for Chelmsford will receive an answer to his question reference 150531 which received a holding answer on 26 January 2004. [157919]

**Margaret Hodge** *[holding answers 26 January 2004 and 2 March 2004]:* My Department has published information on its website in response to inquiries from schools about using video and photographic images of pupils in school publications, or on the internet. In brief, that advises that schools should obtain parental permission to publish images of pupils, they should not identify individual pupils, and that photographs of pupils should be kept secure.

We were told last year that some local authorities and schools had misinterpreted that advice: either applying it to the use of cameras and videos by parents when

filming or photographing school events, or using it to form the basis of policies relating to the publication of photographs in local newspapers. As a result we revised the advice to make it clear that it does not apply to those areas and that schools and local education authorities are free to set their own policies about those issues in light of local circumstances and sensitivities.

The Newspaper Society and the Society of Editors recently raised concerns about some schools unwillingness to allow the publication of photographs of pupils in the local press. Representatives of both societies met with officials of my Department last week to discuss the issues and officials agreed to consider amplifying the information on the Department's website about that.

### Schools (Vending Machines)

**Mr. Ben Chapman:** To ask the Secretary of State for Education and Skills (1) how many schools he estimates raise funds from food and drink vending machines; [158686]

(2) what estimate he has made of the number of schools raising funds from food and drink vending machines. [158947]

**Mr. Miliband:** This information is not collected centrally. Schools are free to install food and drink vending machines and collect income from them. We would encourage schools to consider doing this as part of a whole-school approach to promoting a healthy diet rather than for purely financial reasons, and to strike a sensible balance in the food and drink sold. This policy underlies the 'Food in Schools' initiative, which will include projects on healthier vending as announced on 5 January 2004.

### Specialist Schools

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills if he will list each *(a)* specialist school and *(b)* non-specialist school designated under section 104 of the School Standards and Framework Act 1998, together with the number of pupils they have selected in each of the last six years. [155623]

**Mr. Miliband:** The information requested has been placed in the Libraries.

### Student Loan/Debt

**Dr. Cable:** To ask the Secretary of State for Education and Skills what the outstanding stock of student debt owed to public funds was *(a)* on 1 March 1997 and *(b)* on the latest date for which figures are available; and how much of each sum was (i) debt in arrears and (ii) debt written off. [158653]

**Miss Melanie Johnson:** The total amount outstanding for publicly-owned debt, the arrears value, and the amount which has been written off or cancelled during the financial year are shown in the table. The data reflect the position at the end of each financial year. Data at 1 March are not available. The answer refers to both mortgage-style and income-contingent loans.

*Publicly-owned student loan debt: United Kingdom*

*£ million*

| | *1996–97* | *2001–02*[3] | *2002–03*[1] |
|---|---|---|---|
| Total amount outstanding at the end of the financial year[2,3] | 2,691.0 | 8,394.0 | 10,827.5 |
| *Of which:* | | | |
| Arrears value[4] | 11.2 | 131.7 | [5] — |
| Amount written off/cancelled during the financial year | 0.9 | 1.4 | 2.6 |

[1] Provisional.
[2] The amount outstanding is after repayments of income contingent loans according to the latest known information. The SLC are notified of repayments by the Inland Revenue usually within one year of the end of the tax year they relate to, e.g. there will be some borrowers who have repaid their accounts in full in financial year 2002–03 but this will not be reported until the reconciliation has been made with SLC records.
[3] Includes loans not yet due for repayment.
[4] The arrears value is the overdue amount and does not include administration charges
[5] Not yet available.
*Source:*
Student Loans Company.

**Dr. Cable:** To ask the Secretary of State for Education and Skills what information on individual student debt is made available to credit rating agencies. [158654]

**Alan Johnson:** We do not make information on student loans available to credit reference agencies (CRAs) for credit scoring. CRAs do, however, have access to information in the public domain, including county court judgments (CCJs), which may be obtained by the Student Loans Company against default on student loans.

**Dr. Cable:** To ask the Secretary of State for Education and Skills what order of precedence state student debt has in relation to other creditors in personal bankruptcy proceedings. [158655]

**Alan Johnson:** Student debt in relation to other creditors in bankruptcy proceedings is treated like all other non-preferential debts and has no precedence over any of these debts.

There is a clause amendment relating to preferential creditors which will be debated in the Higher Education Bill Standing Committee on Tuesday 9 March (afternoon session).

**Mr. Pickthall:** To ask the Secretary of State for Education and Skills what plans he has to extend the incentive for teachers on repayment of student loans beyond June 2005. [157850]

**Mr. Charles Clarke:** An evaluation of the current pilot of the Repayment of Teachers' Loans scheme is under way. This will inform decisions on the future of the scheme.

## PRIME MINISTER

### Iraq

**Sir John Stanley:** To ask the Prime Minister on what date the Chairman of the Joint Intelligence Committee was first informed as to which Iraqi weapons the 45-minutes claim in the Iraq's weapons of mass destruction dossier applied. [158771]

**The Prime Minister:** The Joint Intelligence Committee Chairman was aware in September 2002 that the 45 minutes claim referred to battlefield munitions. As he told Lord Hutton, battlefield munitions were interpreted as covering multiple rocket launchers and artillery with ranges of up to 40 kilometres.

**Sir John Stanley:** To ask the Prime Minister on what date the Cabinet Secretary was first informed as to which Iraqi weapons the 45-minutes claim in the Iraq's weapons of mass destruction dossier applied. [158772]

**The Prime Minister:** I refer the right hon. Member to the answer the Foreign Secretary gave him on 10 February 2004, *Official Report*, column 1305W. The Cabinet Secretary was informed of the particular weapons referred to in similar circumstances and with the same timings as my right hon. Friend the Foreign Secretary.

### Official Secrets Act

**Mr. Shepherd:** To ask the Prime Minister who is to chair the review of the Official Secrets Act 1989; and if he will make a statement. [158687]

**The Prime Minister:** The Official Secrets Act, as with all areas of the criminal law, is kept under review. The Home Secretary has made it clear that the Home Office is considering the implications of recent events for this legislation.

### People's Peers

**Mr. Andrew Mitchell:** To ask the Prime Minister what the *(a)* attendance and *(b)* voting records have been of each People's Peer since each was appointed. [157460]

**The Prime Minister:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for Pendle (Mr. Prentice), on 13 November 2003, *Official Report*, column 430W.

### Sensory Deprivation

**Adam Price:** To ask the Prime Minister what the Government's policy is on the use of sensory deprivation by members of the security forces. [158883]

**The Prime Minister:** Members of the armed forces may only use blindfolds on apprehended individuals for reasons of operation security, such as the movement through military sensitive areas. No other forms of sensory deprivation are permitted.

### Temporary Staff

**Matthew Taylor:** To ask the Prime Minister how many staff his Office employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much his Office paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158242]

**The Prime Minister:** As at 1 October 2003, there were five temporary members of staff, approximately 2.3 per cent. of the total staff in my Office. These were to fill vacancies in information technology and in secretarial and administrative support. Final cost figures for 2003–04 are not yet available.

The total cost for temporary staff for 2001–02 was £99,249 (five temporary staff) and in 2002–03 was £165,554 (eight temporary staff).

A difference in costs may occur because of the nature of the temporary post and the number of temporary staff required, for example to cover the significant increase in volume of correspondence to my Office resulting in over one million letters over the last year alone.

## DEPUTY PRIME MINISTER

### Supporting People Programme

**Mr. Hoyle:** To ask the Deputy Prime Minister what the funding levels for Supporting People are in Lancashire in 2003–04. [157692]

**Yvette Cooper:** The final Supporting People grant awarded to Lancashire in 2003–04 was £30,781,847 to meet the costs of housing related support services and in 2004–05 it is £30,728,125. The Lancashire Supporting People team also received £767,000 to help with the administration of the programme in 2003–04 rising to £814,000 in 2004–05.

**Mr. Dhanda:** To ask the Deputy Prime Minister if he will make a statement on the future of the Supporting People programme. [156812]

**Yvette Cooper:** On 12 February, the Government published the report of the Independent Review and announced funding of £1.8 billion for the Supporting People programme in 2004–05.

The review has found that there are wide variations in unit costs between authorities and that £1.8 billion is too much to pay for the legacy services. The Government are concerned to ensure that value for money is achieved and that valuable services for the vulnerable are sustained. That is why the Office of the Deputy Prime Minister has asked the Audit Commission to undertake detailed inspections of local authorities with high unit costs, to inform the Spending Review and funding allocations for 2005–06.

The Office of the Deputy Prime Minister is also drawing up a comprehensive programme of work to take forward some of the recommendations of the review.

**Mr. Dhanda:** To ask the Deputy Prime Minister when he expects to announce funding levels for the authorities administering the Supporting People programme. [156819]

**Yvette Cooper:** On 12 February, the Government announced funding of £1.8 billion for the Supporting People programme in 2004–05. Administering Authorities were informed of their individual allocations on the same day.

**Mr. Dhanda:** To ask the Deputy Prime Minister what discussions he has had with the Chancellor of the Exchequer in connection with funding for the Supporting People programme in 2004–05. [156820]

**Yvette Cooper:** On 12 February, the Government announced funding of £1.8 billion for the Supporting People programme in 2004–05. This announcement followed an extensive consideration of the Independent Review report of the programme and discussions between the Office of the Deputy Prime Minister and partner Departments.

**Mr. Hancock:** To ask the Deputy Prime Minister when the review of the budget of the Supporting People programme will be completed; and when the Supporting People teams will be advised of their budgets for 2004–05. [156880]

**Yvette Cooper:** The Independent Review of the Supporting People programme is now complete. On 12 February, the Government published the report of the Independent Review and announced funding of £1.8 billion for the Supporting People programme in 2004–05. Administering authorities were informed of their individual allocations on the same day.

**Mr. Hancock:** To ask the Deputy Prime Minister when he will implement procedures for Supporting People teams to bid for growth monies in making capital bids to the Housing Corporation. [156886]

**Yvette Cooper:** The 2004–05 Supporting People grant allocations includes a one off revenue allocation for the current round of Housing Corporation capital awards. The Office of the Deputy Prime Minister does not intend introducing a Supporting People bidding round to provide additional revenue for new schemes in future years.

The total Supporting People grant in England for 2004–05 is £1.8 billion. The management of these grants is now firmly a matter for each Supporting People Administering Authority.

In the longer term the intention is to introduce an allocations formula. If authorities wish to commission new services the necessary revenue may be achieved through the re-modelling or de-commissioning of existing services.

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will make a statement on funding for the Supporting People programme in Lancashire for 2004–05. [157734]

**Yvette Cooper:** The Supporting People grant allocated to Lancashire for 2004–05 is £30,728,125 to meet the costs of housing related support services. In addition to this grant the Lancashire Supporting People team will also receive £814,000 during 2004–05 to help with the administration of the programme.

**Mr. Drew:** To ask the Deputy Prime Minister what plans he has to redefine the definition of housing-related support under Supporting People. [151772]

**Yvette Cooper:** Following the recommendations in the Independent Review of the Supporting People Programme, we will be looking at whether there is a need to make clearer the definition of what is housing-related support.

### Area-based Initiatives

**Mr. Edward Davey:** To ask the Deputy Prime Minister what the projected budgets are for each area-based initiative which receives funding from his Department, for *(a)* 2004–05 and *(b)* 2005–06, broken down by English region. [156471]

**Yvette Cooper:** The allocations issued to area-based initiatives by region for the years sought are set out in the following tables.

*2004–05*

*£ million*

| *Region* | *Coalfields* | *Community Chests* | *European Regional Development Fund Areas* | *Housing Market Renewal Pathfinders*[1] | *Liveability*[1] |
|---|---|---|---|---|---|

| Total | 14.75 | 525.00 | 10.37 | 268.19 |

[1] Not all of the budget has yet been allocated to individual initiatives.

### Audit Commission

**Sir Paul Beresford:** To ask the Deputy Prime Minister what the gross expenditure of the Audit Commission was in each year since 1992–93; and how many full-time equivalent staff it had in each year. [158650]

**Mr. Raynsford:** The information requested is as follows:

£000s

| | 12 months to 31 October: | | | | | |
|---|---|---|---|---|---|---|
| | *2003* | *2002* | *2001* | *2000* | *1999* | *1998* |
| Gross Income | 217,100 | 213,917 | 178,524 | 144,345 | 111,596 | 105,156 |
| Gross Expenditure | 216,300 | 213,695 | 178,119 | 143,940 | 110,561 | 104,850 |
| Operating surplus/deficit | 800 | 222 | 405 | 405 | 1,035 | 306 |
| FTE | 2,392 | 2,437 | 2,271 | 1,885 | 1,600 | 1,403 |

| | *7 months to 31 October 1997* | 12 months to 31 March: | | | | | |
|---|---|---|---|---|---|---|---|
| | | *1997* | *1996* | *1995* | *1994* | *1993* | *1992* |
| Gross Income | 57,574 | 91,945 | 92,395 | 88,881 | 82,864 | 77,479 | 63,765 |
| Gross Expenditure | 58,236 | 93,175 | 92,509 | 88,979 | 82,788 | 74,334 | 61,639 |
| Operating surplus/deficit | -662 | -1,230 | -114 | -98 | 76 | 3,145 | 2,126 |
| FTE | 1,306 | 1,300 | 1,324 | 1,354 | 1,299 | 1,265 | 1,154 |

*Notes:*
1. Source is the AC Statutory accounts published annually, except for the forecast to 31 October 2003 which is based on Management accounts.
2. Operating expenditure is before notional costs of capital applied, in accordance with Government Accounting requirements.
3. Increase in headcount and expenditure since 1992 reflect increases in the role and responsibilities of the AC, as follows:
In April 2000 the Audit Commission was given additional responsibility for carrying out Best Value Inspections of local government services. During 2002 Comprehensive Performance Assessment (CPA) was introduced and since rolled out to all local authorities.
In 2003 the Commission took on responsibility for Inspecting Housing associations.
Between 1997 and 1998 the AC gained new responsibilities for joint inspections of LEA's with Ofsted.
In 1996 the AC gained new responsibilities for joint inspections of social service authorities with Department of Social Security

### Casinos

**Sue Doughty:** To ask the Deputy Prime Minister what plans he has to create a separate use class for casinos. [158352]

**Keith Hill:** On 27 November 2003 I issued a Written Ministerial Statement setting out the changes the Government intends to make to the Town and Country Planning Use Classes Order. The Government have no plans to create a separate use class for casinos.

**Jim Knight:** To ask the Deputy Prime Minister what requirements he is considering to link future casino developments to regeneration in areas of deprivation; and if he will make a statement. [156195]

**Yvette Cooper:** As explained in the Joint Statement issued by the Department for Culture, Media and Sport and the Office of the Deputy Prime Minister in August 2003, the Government consider that leisure developments of regional significance are likely to provide a major contribution to regeneration, and therefore expects regional planning bodies to identify suitable broad locations for such uses, where they deem it appropriate.

The largest casinos (such as 'resort' casinos) are candidates for this approach, although the Government are still considering the types of casino to which regional planning policy should apply.

### Council Tax

**Mr. Keetch:** To ask the Deputy Prime Minister what discussions he has had with the leader of Herefordshire Council about its setting of council tax in Herefordshire for 2004–05; and if he will make a statement. [158646]

**Phil Hope:** My right hon. Friend, the Member for Greenwich and Woolwich and I have held a number of private meetings with individual local authorities to discuss their planned council tax rises for 2004–05. I met Herefordshire Council on 24 February.

### Departmental Spending

**Mr. Curry:** To ask the Deputy Prime Minister what the cost of information and public relations campaigns conducted by his Department was since May 2002. [146049]

**Yvette Cooper:** Since May 2002 the Office of the Deputy Prime Minister has spent £10,600,767 on information or public relations campaigns. The majority of this (93 per cent. or £9,858,713) was in connection with the on-going fire safety campaign.

**Mr. Pickles:** To ask the Deputy Prime Minister how much his office spent on information campaigns and advertising in 2003–04 to date. [145275]

**Yvette Cooper:** The Office of the Deputy Prime Minister has spent to date a total of £6,882,000 on information campaigns and advertising in the financial year 2003–04, of which 93 per cent. was for the Fire Safety Campaign.

### Fire Safety

**Mr. Jim Cunningham:** To ask the Deputy Prime Minister what plans he has for regulations specifying that *(a)* alarms and *(b)* sprinklers be present and functioning in all homes. [158278]

**Phil Hope:** The Office of the Deputy Prime Minister's approach to the provision of smoke alarms is primarily based upon regulation for new and altered buildings and education for elsewhere. Since 1992, the guidance which supports the fire safety aspects of the Building Regulations, known as Approved Document B, has suggested, in the case of new houses (including bungalows), that at least one electrically operated smoke detector should be provided on every storey. The requirement is enforced through the building control system.

For existing properties we pursue a policy of persuasion and education on the benefits of such devices. The Government have undertaken a number of national television campaigns promoting smoke alarm ownership and maintenance. This has been very successful. Ownership has increased from nine per cent. in 1987 to its present figure of 80 per cent. of households.

In addition, Part 1 of the Housing Bill provides for the replacement of the housing fitness standards by the Housing Health and Safety Rating System (HHSRS), which brings a risk assessment approach to the assessment of hazards in housing, including fire. Where a hazard from fire has been assessed, local authorities will have discretion to require such things as adequate means of escape from fire, appropriate fire detection and alarm systems and sprinkler systems. This does not mean that such measures will be required in every building but they may be appropriate where justified by the risk.

In relation to sprinklers we commissioned, in April 2001, an extensive research project with the Building Research Establishment (BRE) to consider fully the effectiveness of residential sprinklers. BRE published their research in February and a summary document of the work can be found on the Building Regulations section of the Office of the Deputy Prime Minister's website www.odpm.gov.uk.

As part of our current review of the fire safety aspects of the Building Regulations the Office of the Deputy Prime Minister will be considering the findings of the BRE research to see if there is a case for introducing amendments that enable us to target the provision of sprinklers in those new and altered residential premises where the people are considered to be most vulnerable.

### Homeless Units (Lancashire)

**Mr. Hoyle:** To ask the Deputy Prime Minister how many homeless units operate in Lancashire; and how many homeless units are to be built in Lancashire. [154317]

**Yvette Cooper:** Specific information on the number of existing homeless dwellings operating in Lancashire and the number of homeless dwellings to be built in Lancashire is not held centrally and could be provided only at disproportionate cost.

In 2003–04 there were an estimated completion of 160 dwellings in Lancashire for social rent of which some, for example, could be used to accommodate homeless households.

### Housing Targets

**Mr. Hoyle:** To ask the Deputy Prime Minister what targets his Department has set for *(a)* rented, *(b)* affordable and *(c)* part rent-part buy housing in council districts. [158127]

**Keith Hill:** No such targets have been set centrally. Local authorities are however required under section 87 of the Local Government Act 2003 to draw up housing strategies for their area and should include targets for affordable housing and other housing needs based on up to date survey information.

### Indices of Local Deprivation

**Ms Buck:** To ask the Deputy Prime Minister when he will publish revised indices of local deprivation. [156879]

**Yvette Cooper:** The Office of the Deputy Prime Minister hopes to publish the revised Indices of Deprivation (ID 2004) in spring 2004.

### Correspondence

**Mr. Andrew Turner:** To ask the Deputy Prime Minister when he will reply to the letter to his Department of 29 January from the Leader of the Isle of Wight Council. [158826]

**Yvette Cooper:** The Office of the Deputy Prime Minister's records show that only one letter has been received from the Leader on the Isle of Wight Council this year. This letter was dated 26 February. A reply was sent on 4 March.

### Landfill

**Mr. Sheerman:** To ask the Deputy Prime Minister what discussions he has had with the Department for Environment, Food and Rural Affairs concerning the role of local authorities in meeting the requirements of the Landfill Directive. [159038]

**Keith Hill:** The Office of the Deputy Prime Minister works closely with the Department for Environment, Food and Rural Affairs to achieve sustainable waste management. This involves discussions, both bilaterally and collectively across Government, on a range of matters including meeting the requirements of the Landfill Directive and the role of local authorities.

### Neighbourhood Warden Schemes

**John Cryer:** To ask the Deputy Prime Minister what discussions officials at his Department have had with *(a)* councillors and *(b)* officers at the London Borough of Havering regarding the continuation of neighbourhood warden schemes; and if he will make a statement on their outcome. [157325]

**Yvette Cooper:** Officials from the Government Office for London met with the neighbourhood warden scheme manager and a councillor from Havering on 11 February.

The warden scheme has yet to secure mainstream funding from the London Borough of Havering and they are still considering their options.

**John Cryer:** To ask the Deputy Prime Minister what guidance he has issued to local authorities to assist them in mainstreaming funding for neighbourhood wardens schemes; and what the estimated cost to local authorities is of mainstreaming funding of neighbourhood warden schemes. [157326]

**Yvette Cooper:** The Office of the Deputy Prime Minister has provided no direct advice to local authorities but it has provided a raft of information and advice to warden schemes themselves on how they might raise funding from mainstream funding.

The Office of the Deputy Prime Minister's funding to neighbourhood warden schemes for 2003–04 was £4.7 million. Local authorities would need to find this level of funding if they wished to fund all warden schemes at the same level.

**John Cryer:** To ask the Deputy Prime Minister which *(a)* local authorities and *(b)* housing associations in England (i) are and (ii) are not mainstreaming funding for neighbourhood warden schemes. [157329]

**Yvette Cooper:** The following table lists the areas where housing associations and local authorities are committed to sustaining their first round warden schemes after March 2004, when the Office of the Deputy Prime Minister funding for their pilot schemes ceases.

| | *Area* | *Accountable body* |
|---|---|---|
| 1. | Dacorum | LA |
| 2. | Huntingdon | HA |
| 3. | Norwich | LA |
| 4. | Lincolnshire | LA |
| 5. | Leicestershire | HA |
| 6. | Nottingham | LA |
| 7. | Derby | HA |
| 8. | Liverpool (1 of 2 schemes) | LA |
| 9. | West Lancashire | LA |
| 10. | Longsight | LA |
| 11. | Sale West | LA |
| 12. | Wirral | LA |
| 13. | Burnley | LA |
| 14. | Manchester Longridge | HA |
| 15. | Macclesfield | HA |
| 16. | Knowsley | LA |
| 17. | Breightmet and Bolton | HA |
| 18. | Bury | Voluntary Sector |
| 19. | Oldham | LA |
| 20. | North Manchester | LA |
| 21. | Bolton | HA |
| 22. | Salford | LA |
| 23. | Lewisham | LA |
| 24. | Merton | LA |
| 25. | Southwark | LA |
| 26. | Sutton | LA |
| 27. | Birmingham Atwood Green | LA |
| 28. | Wolverhampton | LA |
| 29. | Walsall | LA |
| 30. | Stoke | HA |
| 31. | Wyre Forest | HA |
| 32. | Coventry | LA |
| 33. | Leeds | LA |
| 34. | Sheffield | LA |
| 35. | Kirklees | LA |
| 36. | Sheffield | Voluntary Sector |
| 37. | Barnesley | LA |
| 38. | Doncaster | LA |
| 39. | Wakefield | LA |
| 40. | Rotherham | LA |
| 41. | Exeter | AL |
| 42. | Portsmouth | LA |
| 43. | Horsham | AL |
| 44. | Milton Keynes | LA |
| 45. | Canterbury | LA |
| 46. | Slough | LA |
| 47. | Guildford | LA |
| 48. | Hastings | LA |
| 49. | Rushmore | HA |
| 50. | Stockton | LA |
| 51. | Darlington | LA |
| 52 | South Tyneside | LA |
| 53. | Middlesbrough | HA |
| 54. | Sedgefield | LA |
| 55. | Sunderland Plains Farm | HA |
| 56. | North Tyneside | LA |
| 57. | Merthyr Tydfil | LA |
| 58. | Cardiff | LA |
| 59. | Gwynedd | LA |
| 60. | Caerphilly | LA |
| 61. | Swansea | LA |

Local Authorities (LAs) in Barnet, Hillingdon, Avon and Somerset and Wigan as well as a Housing Association (HA) in Islington have decided not to sustain their wardens schemes. In two cases the wardens will be replaced by Police Community Support Officers.

13 LAs, three HAs and two voluntary schemes have not yet made a final decision about the future of the warden scheme.

### Planning Advice (Showmen)

**Mr. Hoyle:** To ask the Deputy Prime Minister what advice his Department gives to local councils on the provision of planning permission for the storing of showmen's equipment and living quarters; and if he will make a statement on the need for this provision. [158581]

**Keith Hill:** Planning policy relating to travelling showpeople is set out in DOE Circular 22/91 'Travelling Showpeople' which gives advice to local planning authorities on how to address the needs of travelling showpeople. Emphasis is placed on local authorities engaging in early discussion with travelling showpeople before planning applications are made, and in order to ensure that their needs are taken into account in preparing their Local Plans. Local authorities are also urged to give every assistance to help showpeople identify sites to buy or rent.

### Police/Fire Authorities (Funding)

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will make a statement on the percentage increase in funding that he deems to be reasonable for *(a)* fire authorities and *(b)* police authorities in the next financial year. [158506]

**Phil Hope:** The 2004–05 Local Government Finance Settlement was approved by Parliament on 5 February.

Single service fire authorities (i.e. the metropolitan fire authorities and the combined fire authorities in shire areas) plus the fire-part of the GLA received a 4.23 per cent. increase in grant on a like-for like basis with 2003–04 (i.e. after adjusting for changes in function and funding). Fire services in shire areas that have not been subject to Local Government Reorganisation are provided by the Shire County. Shire Counties also provide services such as education, social services and highway maintenance for these areas. It is not possible to identify the amount of grant such authorities receive for fire.

Police authorities excluding the City of London and the Metropolitan Police Authority plus the police-part of the GLA received a 3.26 per cent. increase in grant on a like-for-like basis with 2003–04. The City of London also provides services such as education, social services and highway maintenance. It is not possible to identify the amount of grant it receives for police.

**Port Clarence, Stockton**

**Mr. Hancock:** To ask the Deputy Prime Minister how much English Partnerships plans to invest in the development of Port Clarence in Stockton. [156613]

**Yvette Cooper:** English Partnerships and One North East are looking at options for the re-development of Port Clarence. A decision about English Partnerships' involvement has yet to be made.

**Regeneration (Havering)**

**John Cryer:** To ask the Deputy Prime Minister how much funding was allocated for regeneration in the London Borough of Havering in the last six years. [157330]

**Yvette Cooper:** The London Borough of Havering have advised the Office of the Deputy Prime Minister that the amount of funding which has been allocated to regeneration projects in the borough since 1997 is as follows:

| *Programme* | *Source* | *Date* | *Funding £ million* | *LBH Match Funding £ million* |
|---|---|---|---|---|
| London Riverside—ODPM allocation from Sustainable Communities Funding | ODPM | 2004–2008 | 8 | n/a |
| New Horizons for Harold Hill Regeneration of deprived communities | SRB Allocation administered through LDA | 1999–2004 | 3.8 | 2 |
| London Riverside in the Heart of the Thames Gateway | SRB Allocation administered through LDA | 1999–2007 | [1]32.2 | 2.2 |
| Centre of Excellence in Manufacturing and Engineering | DTI | 2002–2004 | 4.3 | — |
| London Riverside—site preparation | EU Objective 2 | 2001–2002 | 5.4 | — |
| Romford Town Centre | SRB administered through LDA/ Groundwork | 1997–2006 | 1 | 1.7 |

[1] Programme covers London Boroughs of Barking and Dagenham and Havering and Thurrock. Havering is likely to have received 60–70 per cent. of the total allocation by the end of the programme although this includes contributions to the Centre of Excellence in Manufacturing and Engineering, which is in Havering, but serves a wider area.

In addition to these allocations there have been further allocations to the borough from the LDA 2 programme and significant direct investment from the LDA in site acquisition and development.

London Borough of Havering (LBH) match funding is included specifically and related to the regeneration programmes listed. In addition the Council has allocated approximately a further £3.5 million towards regeneration activity from 1997–98 to 2003–04 to support and deliver a variety of programmes over that period.

**Regional Assemblies**

**Mr. Jenkin:** To ask the Deputy Prime Minister pursuant to paragraph 6.7 of Cm.5511, where the Government intends that elected regional assemblies for *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber would initially be accommodated. [155144]

**Mr. Raynsford:** Before reaching a decision, the Government will consult the regional chambers in the North East, North West and Yorkshire and the Humber and take their views on the preferred initial locations.

**Regional Development Agencies**

**Mr. Edward Davey:** To ask the Deputy Prime Minister what contribution his Department has made, or plans to make, to the regional development agencies' single pot for each financial year from 2003–04 to 2005–06; and if he will make a statement. [156474]

**Mr. Raynsford:** The Office of the Deputy Prime Minister's planned contribution is as follows:

| | *ODPM contribution (£ million)* |
|---|---|
| 2003–04* | 1,524 |
| 2004–05 | 1,456 |
| 2005–06 | 1,513 |

*Note:*
Includes HM Treasury cost of capital charge at 3.5 per cent. and * 2003–04 figures includes End Year Flexibility drawn down at spring Supplementary Estimates.

These very substantial sums reflect the Regional Development Agencies' crucial role as partners in the delivery of the Government's plans for sustainable communities. The RDAs are key agents in achieving, for example, the Office of the Deputy Prime Minister's objectives for raising the levels of regional prosperity and social inclusion and for delivering effective programmes to help raise the quality of life for all in urban areas and other communities.

### Single Neighbourhood Renewal Unit

**Mr. Edward Davey:** To ask the Deputy Prime Minister what the *(a)* budget or projected budget for the Single Neighbourhood Renewal Unit wardens funding channel and *(b)* budget or projected budget for all area-based initiatives funded by the Single Neighbourhood Renewal Unit wardens funding channel is for financial years (i) 2002–03, (ii) 2003–04, (iii) 2004–05 and (iv) 2005–06, broken down by English region. [156476]

**Yvette Cooper:** The following table outlines the budgets for Neighbourhood Renewal Unit warden funding for years 2002–03, 2003–04, 2004–05 and 2005–06. The Wardens budget does not fund any other area based initiatives.

*NRU warden funding*

£000

| English regions | 2002–03 | 2003–04 | 2004–05 | 2005–06 |
|---|---|---|---|---|
| London | 5,274 | 7,909 | 6,955 | 5,145 |
| South West | 763 | 1,319 | 1,170 | 370 |
| South East | 2,068 | 2,248 | 1,782 | 980 |
| North West | 3,166 | 3,753 | 2,860 | 1,440 |
| North East | 1,367 | 966 | 846 | 0 |
| East Midlands | 884 | 895 | 763 | 346 |
| West Midlands | 2,239 | 2,635 | 2,177 | 1,239 |
| Yorkshire and the Humber | 2,206 | 2,606 | 1,946 | 841 |
| Eastern | 1,038 | 945 | 682 | 0 |
| Total | 19,005 | 23,276 | 19,181 | 10,361 |

### Traffic Wardens

**Chris Ruane:** To ask the Deputy Prime Minister how many traffic wardens were employed by each local authority area in each of the last three years, broken down by police authority area. [158215]

**Caroline Flint:** I have been asked to reply.

Our information relates only to traffic wardens employed by police authorities, not local authority parking attendants. I refer my hon. Friend to the chart attached to the answer I gave to Question Number 259.

No record is kept centrally of the number of parking attendants employed by local authorities or by contractors who carry out enforcement on their behalf..

### Urban Regeneration Companies

**Mr. Edward Davey:** To ask the Deputy Prime Minister what funding was provided *(a)* by his Department in total and *(b)* through non-departmental public bodies to each Urban Regeneration Company for 2003–04; and what funding is projected in each case for 2004–05. [156475]

**Yvette Cooper:** The Office of the Deputy Prime Minister does not provide funding directly to any Urban Regeneration Company (URC). All funding is provided by the partners in each URC. This usually comprises the local Regional Development Agency (RDA), the local authority or authorities, and English Partnerships (EP). The table below shows the estimated revenue funding provided/projected by EP and the various RDAs to the individual URCs for 2003–04 and 2004–05. Funding for development projects is not normally provided to the URCs themselves; expenditure on projects is incurred by the partners on the basis of strategies agreed by the URCs.

*Revenue allocations to URCs*

£

| URC | 2003–04 | 2004–05 |
|---|---|---|
| Bradford City Regeneration | 710,000 | 360,000 |
| CPR Regeneration | 500,000 | 500,000 |
| Catalyst Corby | 500,000 | 500,000 |
| Derby Cityscape | 500,000 | 500,000 |
| Gloucester Heritage | n/a | 500,000 |
| Hull Citybuild | 650,000 | 650,000 |
| Leicester Regeneration | 500,000 | 500,000 |
| Liverpool Vision | 791,000 | 791,000 |
| New East Manchester | 620,000 | 620,000 |
| Sandwell | 500,000 | 500,000 |
| Sheffield One | 710,000 | 710,000 |
| Sunderland Arc | 520,000 | 520,000 |
| The New Swindon Company | 500,000 | 500,000 |
| Tees Valley Regeneration | 500,000 | 500,000 |
| Walsall | n/a | 470,000 |
| West Lakes Renaissance | 200,000 | 200,000 |

*Notes:*
1. Bradford and West Lakes do not receive revenue funding from English Partnerships (EP)
2. All other figures are collated EP and Regional Development Agency estimates
3. Gloucester and Walsall were only established towards the end of FY 2003–04

## HEALTH

### Bed Rails

**Sandra Gidley:** To ask the Secretary of State for Health how many bed sides of double-bar design with more than 120mm between the rails he estimates are in use in *(a)* the NHS and *(b)* residential and nursing homes; and if he will make a statement. [158055]

**Dr. Ladyman:** This information is not held centrally.

### Bed-blocking

**Norman Baker:** To ask the Secretary of State for Health what recent assessment he has made of the performance of East Sussex county council in tackling bed-blocking. [158881]

**Dr. Ladyman:** Between 111 and 132 East Sussex residents have been reported as delayed for the past four weeks, with just over half of these delays attributable to social services reasons. This highlights some of the problems that can occur without effective partnership working between health and social care providers.

### Cycle Accidents

**Mark Tami:** To ask the Secretary of State for Health how many serious accidents involving cyclists there were in the UK in each of the last five years. [156551]

**Mr. Jamieson:** I have been asked to reply.

The following table shows the number of fatal and serious accidents involving pedal cyclists in the UK in each of the last five years.

*Numbers of accidents involving pedal cyclists: UK*

| *Year* | *Fatal or serious accident* |
|---|---|
| 1998 | 3,477 |
| 1999 | 3,358 |
| 2000 | 2,938 |
| 2001 | 2,812 |
| 2002 | 2,571 |

### Dentistry

**Mr. Burstow:** To ask the Secretary of State for Health how many NHS orthodontists there have been in each year since 1997. [154436]

**Mr. Hutton:** The information requested is shown in the table.

*Hospital/Public Health Medicine and Community Health Services (HCHS): Dental staff within the Orthodontics specialty*

*Numbers (headcount)*

| | *All staff* | *Of which: Consultant* |
|---|---|---|
| 1997 | 509 | 153 |
| 1998 | 501 | 153 |
| 1999 | 504 | 157 |
| 2000 | 513 | 161 |
| 2001 | 506 | 154 |
| 2002 | 508 | 161 |
| March 2003 | n/a | 174 |
| June 2003 | n/a | 181 |

[1] Data as at 30 September each year, except 2003 data which is at 31 March and 30 June.
n/a = Data not available due to data being taken from the mini censuses that collected consultants only.
*Source:*
Department of Health medical and dental workforce census

The number of national health service consultant orthodontists, working in the NHS, increased by 18 per cent. between September 1997 and June 2003.

### Foundation Trusts

**Mr. Burstow:** To ask the Secretary of State for Health what safeguards are in place to prevent foundation trust boards of governors being taken over by special interest groups. [154011]

**Mr. Hutton:** All National Health Service foundation trusts are required to have a majority of governors elected by members of the public and patient constituencies. The Health and Social Care (Community Health and Standards) Act 2003 requires all NHS foundation trusts to take steps to ensure that the membership is representative of those eligible to be members. The democratic process is designed to secure a balance of interests on the board of governors. In addition, NHS foundation trusts may include provisions in their constitution, and in particular the provisions relating to elections to the board of governors, designed to prevent the board from becoming dominated by a single issue group. The Independent Regulator will want to be satisfied that the provisions proposed by the applicant trust meet the statutory requirements before granting an authorisation.

### General Practitioners

**Andy Burnham:** To ask the Secretary of State for Health how many general practitioner vacancies there were in each primary care trust on 1 March. [158689]

**Mr. Hutton:** The last Recruitment and Retention Vacancy (RRV) survey took place between 1 April 2002 and 31 March 2003. Information on the number of general practitioners (GP) vacancies in each primary care trust (PCT) that occurred during this period has been placed in the Library.

The RRV survey is a count of all GP vacancies that have occurred during each year. It will include existing posts that doctors have left and also new posts created to increase the workforce, even where they were filled very quickly. The number of vacancies in part, is a result of there being more posts overall, reflecting the Government's plan to increase the GP workforce.

**Simon Hughes:** To ask the Secretary of State for Health how many general practitioners there were per head of population in *(a)* England and *(b)* each London primary care trust in each of the last five years for which figures are available. [155274]

**Mr. Hutton** *[holding answer 23 February 2004]:* The latest available data for unrestricted principals and equivalents (UPEs) per 100,000 population is September 2002. Information is available since 1998 for England and information is available since 2001 at a London primary care trust level and has been placed in the Library.

### Health (Government Funding)

**David Davis:** To ask the Secretary of State for Health how much was spent from central Government funds per capita on health in *(a)* the East Riding of Yorkshire and *(b)* the UK for each of the last five years. [155328]

**Mr. Hutton:** Information relating to the per capita expenditure in the East Riding area and England is shown in the table. The information is based on the East Riding and Hull Health Authority area up to 2001–02 and then the North and East Yorkshire and Northern Lincolnshire Strategic Health Authority for 2002–03. Information for the rest of the United Kingdom is a matter for the devolved administrations and the Northern Ireland Office.

*£ per head*

| | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|---|---|
| East Riding and Hull Health Authority | 624.72 | 722.28 | 787.13 | 863.59 | n/a |
| North and East Yorkshire and Northern Lincolnshire Strategic Health Authority | n/a | n/a | n/a | n/a | 943.10 |
| England | 659.76 | 763.79 | 825.38 | 926.13 | 991.07 |

*Notes:*

1. The total amount of central Government funds spent on health cannot be analysed by health authority area. Expenditure per capita is calculated on health authority areas from the expenditure reported in health authorities and related primary care trusts.

2. The health authority and all England expenditure figures are not prepared on a consistent basis as some elements cannot be accounted for at the health authority level. The majority of general dental services expenditure and an element of pharmaceutical services expenditure is included in the England total but not in the individual health authority accounts or primary care trust summarisation schedules. This expenditure is separately accounted for by the Dental Practice Board and Prescription Pricing Authority respectively.
3. Expenditure is taken from audited health authority summarisation forms and primary care trust summarisation schedules which are prepared on a resource basis and therefore differ from cash allocations in the year. The expenditure is the total expenditure by the relevant health authorities, and the commissioner costs of the primary care trusts. Figures are given in cash terms.
4. Allocations per weighted head of population provide a much more reliable measure to identify differences between funding of health authorities and primary care trusts.
5. Figures for 1998–99 to 2001–2002 have been prepared using gross expenditure figures. This is to ensure consistency between years. Figures for 2002–2003 based on strategic health authority areas have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning healthcare or other services.
6. In many health authorities, there are factors which distort the expenditure per head. These include:
the health authority acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and
asset revaluations in NHS Trusts being funded through health authorities or primary care trusts.
7. For these reasons expenditure per head cannot be compared reliably between health authorities or between different years.
*Sources:*
1. Health authority audited summarisation forms 1998–99 to 2001–02.
2. Strategic health authority audited summarisation forms 2002–03.
3. Primary care trust audited summarisation schedules 2000–01 to 2002–03.
4. Weighted health authority population figures 1998–99 to 2002–03.

### Infection Control

**Mr. Burstow:** To ask the Secretary of State for Health how much of the additional funding announced in January 2001 for infection control has been spent. [157569]

**Mr. Hutton:** The additional funding announced in January 2001 was for improving decontamination in national health service hospitals in England. £112 million has been allocated to NHS trusts for that purpose so far.

### Information Technology

**Mr. Burstow:** To ask the Secretary of State for Health what the projected cost of the National Programme for Information Technology in the NHS was when it was originally announced; what the latest available projected cost is; and if he will make a statement. [154989]

**Mr. Hutton:** The projected costs for the national programme for information technology (NpfIT) in the national health service were announced in the strategy document, "Delivering 21st Century IT in the NHS", as £2.3 billion for the period up to March 2006. Central funding for the NPfIT is to be made available from the Spending Review 2002 as follows—£370 million in 2003–04, £730 million in 2004–05 and £1.2 billion in 2005–06.

We are on schedule and on budget to spend £2.3 billion on centrally procured IT by March 2006.

Future expenditure will form part of the ongoing financial management processes within Spending Review 2004 and future envelopes. By 2008, IT funding will be in line with the levels proposed within the Wanless Review; that is, 4 per cent., of total NHS expenditure.

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the cost of *(a)* training and *(b)* installation for the National Programme for Information Technology in the NHS; and from which budgets the funding will be taken. [154990]

**Mr. Hutton:** Central funding for the National Programme for Information Technology (NPfIT) in the national health service is to be made available from the Spending Review 2002 as follows—£370 million in 2003–04, £730 million in 2004–05 and £1.2 billion in 2005–06.

Training plans are still evolving as is to be expected when approaching a phased programme of implementation and roll out of new applications, systems and services. The training requirements are not solely related to the NPfIT as general IT skills are now an everyday element for any public service and service-based organisation. The move to e-learning and development and the NHSU will both create more demand for computer and online skills and provide more channels and solutions to bring training to people.

As the Department completes the more detailed plans for each geographical cluster and local service provider contract, it will be able to map out the extent of IT support for clinical practice and patient care over the phased implementation of the NPfIT. This will generate clearer training requirements and will enable the Department to consider the most appropriate ways of providing training and development and produce firmer costs.

The delivery of the NPfIT and any costs related to the implementation are included within the overall envelope of central funding. In line with normal commercial practice, the final pricing structure included in each contract and the fine details of the bids are confidential.

**Mr. Burstow:** To ask the Secretary of State for Health what restrictions have been placed on bidders for the National Programme for Information Technology in the NHS making public statements about the project; whether these restrictions are usual Government practice; and what the reasons are for the restrictions. [154991]

**Mr. Hutton:** The National Programme for Information Technology (NpfIT) in the national health service follows normal Government and commercial practice in regard to managing procurements and contracts and has drawn upon standard guidance from the Office of Government Commerce. This is available at www.ogc.gov.uk/sdtoolkit/reference/ogc library/procurement/cup59d.pdf. This precludes suppliers from

discussing their contracts or the key elements relating to the subject matter of their contracts without the agreement of the Department.

Contractors and employees of the programme are contractually required to comply with this protocol. The reasons for this are to ensure consistency, avoid confusion, and to enable any issues or proposals to be managed efficiently. It is also important to ensure that normal commercial and business rules of confidentiality are observed.

### Medicines Management

**Mr. Burstow:** To ask the Secretary of State for Health whether the National Care Standards Commission will publish its findings on the medicines management standard in care homes. [156295]

**Dr. Ladyman:** Yes. The National Care Standards Commission expects to publish its findings in a report to be issued in March.

### Midwifery Council (Registration Fees)

**Mr. Burstow:** To ask the Secretary of State for Health what assessment his Department has undertaken of the impact of the Nursing and Midwifery Council's proposed fee increase on the number of nurses nearing retirement renewing their registration; and if he will make a statement. [154586]

**Mr. Hutton:** It is for the Nursing and Midwifery Council to decide and justify any increase in registration fees that it proposes. Any increase is subject to Privy Council approval, and the Privy Council will carefully consider all arguments expressed when the time comes.

### NHS Consultants

**Tony Baldry:** To ask the Secretary of State for Health how many staff grade posts within the NHS he expects will be made consultant posts in the next 12 months. [156458]

**Mr. Hutton:** There are no central plans to convert staff grade posts into consultant posts over the next 12 months. National health service trusts can, if they feel there is a need, make proposals to their postgraduate deanery to increase the numbers of locally funded specialist training posts. These may be funded by conversion of staff grade posts and may eventually lead to additional consultant posts.

### NHS Finances

**Mr. Burstow:** To ask the Secretary of State for Health if he will list the *(a)* information requests and *(b)* data collections (i) made by and (ii) supplied to his Department concerning NHS finances; when they are collected; when they are available for publication; and at what level of NHS organisation the information is collected. [154584]

**Mr. Hutton:** I refer the hon. Member to the reply I gave on 10 February 2004, *Official Report*, column 1411W.

In addition, special health authorities also supply annual accounts, capital charge estimates and financial monitoring data to the Department.

Annual accounts are published locally by individual national health service bodies. The accounts data collected by the Department is summarised and published. The most recent such publication was in March 2003, in respect of the summarised 2001–02 accounts.

NHS annual accounts data is also used by the Department in the preparation of the Departmental Resource Account. The 2002–03 Resource Account was published in January 2004.

### NHS Land

**Mr. Burstow:** To ask the Secretary of State for Health how much NHS land has been included on the register of surplus public sector land which can be sold off on the open market. [154099]

**Mr. Hutton:** This Department has recently agreed that surplus property owned by National Health Service trusts and primary care trusts are no longer required for the benefit of the NHS should be placed on the newly established Register of Surplus Public Sector Land. This will further the Government's objective of making the best use of such land. The NHS has been informed and detailed guidance on these arrangements will shortly be issued. It is anticipated that the NHS will be major users of the register, including as purchasers of surplus public land owned by other bodies.

### NHS Services (Greater London)

**Simon Hughes:** To ask the Secretary of State for Health how much money has been allocated to NHS services in *(a)* Greater London and *(b)* each London borough in each of the last three years. [158440]

**Mr. Hutton** *[holding answer 3 March 2004]:* The following tables show the allocations for health authorities and primary care trusts in London over the last three years. The Department does not have a breakdown by London borough.

*Allocations to London health authorities: 2001–02 and 2002–03*

*£000*

| *Health authority*[1] | *2001–02* | *2002–03* |
|---|---|---|
| Barking and Havering | 305,009 | 333,897 |
| Barnet | 248,445 | n/a |
| Barnet, Enfield and Haringey | n/a | 725,055 |
| Bexley and Greenwich | 345,432 | n/a |
| Bexley, Bromley and Greenwich | n/a | 635,109 |
| Brent and Harrow | 371,479 | 432,599 |
| Bromley | 218,662 | n/a |
| Camden and Islington | 396,403 | 477,910 |
| Croydon | 242,431 | 274,247 |
| Ealing, Hammersmith and Hounslow | 581,735 | 676,038 |
| East London and The City | 598,866 | 702,986 |
| Enfield and Haringey | 387,770 | n/a |
| Hillingdon | 184,100 | 203,317 |
| Kensington, Chelsea and Westminster | 361,234 | 436,168 |
| Kingston and Richmond | 256,722 | 284,506 |
| Lambeth Southwark and Lewisham | 695,407 | 829,552 |
| Merton, Sutton and Wandsworth | 498,646 | 563,125 |
| Redbridge and Waltham Forest | 351,329 | 399,542 |
| Total | 6,043,669 | 6,974,051 |

[1]There were health authority mergers on 1 April 2001

*Allocations to London primary care trusts—2003–04*

*£000*

| *Primary care trust* | *2003–04* |
|---|---|
| Barking and Dagenham | 153,449 |
| Barnet | 303,125 |
| Bexley | 181,941 |
| Brent | 291,023 |
| Bromley | 264,585 |

| Lewisham | 283,282 |
| Newham | 276,635 |
| Redbridge | 160,654 |
| Richmond and Twickenham | 161,752 |
| Southwark | 282,305 |
| Sutton and Merton | 324,770 |
| Tower Hamlets | 237,707 |
| Walthamstow, Leyton and Leytonstone | 163,981 |
| Wandsworth | 275,795 |
| Westminster | 263,876 |
| Total | 7,548,174 |

## NHS Trusts

**John Austin:** To ask the Secretary of State for Health what the estimated deficit or underspend for each NHS trust in London is in the current financial year; and what cumulative deficit is being carried forward in each case. [154922]

**Mr. Hutton:** Audited information on the financial position of national health service trusts will be published in their individual annual accounts. This data will be available centrally in the autumn. We have no plans to publish un-audited information.

**John Austin:** To ask the Secretary of State for Health what discussions he has had with Queen Elizabeth Hospital NHS Trust about ward closures; and if he will make a statement. [154924]

**Mr. Hutton:** I have had no discussions. It is for strategic health authorities (SHAs) to performance manage the national health service. I am assured by South East London SHA that, although Queen Elizabeth Hospital NHS Trust faces a number of financial pressures, it is working with its partners to manage them and to avoid any unnecessary or inappropriate impact on patient care.

**Mr. Hurst:** To ask the Secretary of State for Health what the cost was of payments to retiring or resigning NHS trust chief executives in each year since 1990 to 2003. [156012]

**Mr. Hutton:** This information is not identified separately in trust financial returns.

**Mr. Hurst:** To ask the Secretary of State for Health what the salary was of the chief executive of each NHS trust in 2003. [156013]

**Mr. Hutton:** The Department does not hold this information centrally but has asked national health service trusts to include the information in their annual accounts.

**Mr. Cummings:** To ask the Secretary of State for Health what the budget for the Centrally Funded Initiative and Services Special Allocation was for 2003–04; whether this budget has been committed; and whether reserves from the budget will be used to meet overspends in existing primary care trust budgets in 2003–04. [155591]

**Mr. Hutton:** The current budget for Centrally Funded Services and Initiatives and Special Allocations in 2003–04 is £13,030 million. This budget is fully committed and contains no reserve element.

## Out-of-hours Service

**Miss McIntosh:** To ask the Secretary of State for Health whether the top-up sum available to primary care trusts to pay individual general practitioners for out-of-hours service will reach at least the current investment level. [155682]

**Mr. Hutton:** The investment in out-of-hours services has been doubled to £92 million from 2004–05. This is in addition to the average of £6,000 primary care trusts (PCTs) will receive for every general practitioner opting out of the responsibility to provide out of hours services. A further £28 million will be made. available to PCTs facing the biggest challenges in developing their out-of-hours services.

## Overseas Doctors

**Mr. Burstow:** To ask the Secretary of State for Health how many overseas doctors passed their Professional and Linguistic Assessments Board examination in 2002. [156293]

**Mr. Hutton:** The Professional and Linguistic Assessment Board examination is administered by the General Medical Council. 2,955 overseas doctors passed Part II of the examination in 2002.

## Paediatric Training

**Tony Baldry:** To ask the Secretary of State for Health (1) how many national training numbers have been issued in paediatrics in the last 12 months; and how many he expects to issue in the next 12 months; [156456]

(2) what estimate he has made of the number of national training numbers needed in paediatrics to comply with the EU Working Time Directive; what advice he has received from the Royal College of Paediatrics on this; and if he will make a statement. [156457]

**Mr. Hutton:** In 2003–04, 100 locally funded national training numbers (NTNs) were allocated to paediatrics. In 2004–05, a further 15 locally funded NTNs will be allocated. In addition, an extra 155 NTNs have been proposed for paediatrics through other initiatives.

To support the implementation of the Working Time Directive (WTD), strategic health authorities have agreed further additional training places with trusts, for which we will issue NTNs. The number of these is not yet available.

The Royal College of Paediatrics and Child Health has carried out a survey looking into WTD compliance within hospitals providing acute services for children. The Department is considering the results of the survey.

### Primary Care Trusts

**Mr. Neil Turner:** To ask the Secretary of State for Health which constituencies in England are covered *(a)* in whole and *(b)* in part by each of the primary care trusts in England. [154139]

**Mr. Hutton** *[holding answer 9 February 2004]:* The information requested has been placed in the Library.

**Mr Watts:** To ask the Secretary of State for Health how long he expects it to take fully to implement the new funding system for primary care trusts. [158183]

**Mr. Hutton:** A wide ranging review of the funding formula, used to inform the allocation of resources to primary care trusts (PCTs), has recently taken place.

The new formula was used to set PCT target allocations for the latest round of national health service revenue allocations, covering the period 2000–06.

The Department is committed to bringing PCTs to their target allocation as soon as is practicable.

**Mr. Andrew Turner:** To ask the Secretary of State for Health pursuant to the answer to question reference 154873, how many patients attending from each primary care trust outside Sussex sending more than 10 patients received *(a)* financial assistance with travel costs, *(b)* financial assistance with carers' travel costs and *(c)* financial assistance with carers' accommodation costs. [157611]

**Ms Rosie Winterton** *[holding answer 2 March 2004]:* The Department does not collect this information centrally.

### Public Bodies

**Sandra Gidley:** To ask the Secretary of State for Health what estimate has been made of the costs of the Commission for Healthcare Audit and Inspection in its first five years of operation. [154467]

**Mr. Hutton:** A preliminary estimate of the cost of the Commission for Healthcare Audit and Inspection's (CHAI) operation for its first year of operation was £60 million. No estimates have been made for subsequent years.

CHAI, as an independent body, will refine the estimates of its costs for its first three years. These will be contained in its first corporate plan, a copy of which will be placed in the Library when it is published.

### Hospital Staff (Attacks)

**Paul Flynn:** To ask the Secretary of State for Health how many attacks against hospital staff were recorded in *(a)* all hospitals in England and *(b)* hospitals in England with the Red Card Scheme in each of the last three years. [153293]

**Mr. Hutton:** The information requested is not available centrally.

The following statistics on violence within the National Health Service are available for 2002–03.

*Estimated violent or abusive incidents in the NHS 2002–03*

| *Organisation Type* | *Estimated total number of incidents* | *Estimated number of incidents per 1,000 staff per month* |
|---|---|---|
| Acute Trusts | 38,000 | 6 |
| Primary Care Trusts | 21,000 | 12 |
| Ambulance Trusts | 5,000 | 16 |
| Mental Health and Community Trusts | 51,000 | 34 |
| All Organisations | 116,000 | 11 |

No comparable statistics are available for earlier years.

### Speech Therapy

**Mr. Jim Cunningham:** To ask the Secretary of State for Health (1) what assessment he has made of the effects of Agenda for Change on speech therapists; [154620]

(2) what research his Department has commissioned into the effects on recruitment and retention of speech therapists of the implications of Agenda for Change for pay levels of speech therapists. [154621]

**Mr. Hutton:** On average national health service staff will receive a 5.9 per cent., increase in basic pay over time as a result of Agenda for Change (in addition to annual pay uplifts) though this will vary for different staff groups and individuals.

The impact of Agenda for Change for all staff groups, including speech and language therapists, is currently being tested in a range of early implementer sites. The evidence and learning from these sites will be reviewed by the UK Health Departments, NHS trades unions and NHS employer representatives before the planned national roll out in October 2004.

### Stroke

**Dr. Cable:** To ask the Secretary of State for Health how many stroke consultants there are *(a)* in the NHS and *(b)* with specialist qualifications in strokes. [154949]

**Mr. Hutton:** The Department does not collect numbers of stroke consultants.

Stroke treatment is normally undertaken by consultants specialising in geriatric medicine, neurology and rehabilitation medicine, but it is not possible to say how many of the consultants within these specialties have specialist qualifications in strokes.

### Temporary Vacancies

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 11 February 2004, *Official Report*, columns 1546–47W, on NHS Professionals, what proportion of temporary vacancies in NHS trusts he estimates are filled from NHS Professionals' own bank; what proportion are filled via NHS Professionals passing on the details to approved private agencies; and if he will make a statement. [156354]

**Mr. Hutton:** In January 2004, NHS Professionals filled 65 per cent. of the vacancies notified to it from its own bank. Private recruitment agencies had access to the remaining 35 per cent., of which they filled 25 per cent. 10 per cent. remained unfilled.

### Working Time Directive

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 11 February 2004, *Official Report*, column 1548W, on the Working Time Directive, whether his Department expects the NHS to be compliant with the Directive for doctors in training from 1 August; and if he will make a statement. [156353]

**Mr. Hutton:** The Working Time Directive will be a legal requirement for doctors in training from 1 August 2004 and we expect national health service employers to comply with the legislation. Strategic health authorities are currently working with their respective trusts locally on plans to achieve compliance.

## HOME DEPARTMENT

### Asylum Seekers

**Mr. Malins:** To ask the Secretary of State for the Home Department how many Afghanistan citizens have *(a)* applied for asylum, *(b)* been granted asylum, *(c)* been granted (i) exceptional leave to remain and (ii) indefinite leave to remain, *(d)* been refused leave and *(e)* have been removed in each of the last four years for which figures are available. [142579]

**Beverley Hughes** *[holding answer 8 December 2003]*: The table provides the available information, showing the number of asylum applications, initial decisions and removals of Afghans for the last four years. Initial decisions do not necessarily relate to applications made in the same year. Nor do removals necessarily relate to initial decisions or appeal outcomes in the same year.

The United Kingdom Government opened negotiations with the Afghan Transitional Administration on return issues following the change of regime in Afghanistan. These negotiations resulted in the signing of a tripartite Memorandum of Understanding by the UK Government, the Afghan Transitional Administration and the United Nations High Commission for Refugees (UNHCR) in October 2002. The MoU establishes a framework for returns from the UK to Afghanistan. Since then, voluntary returns have commenced under the terms of that Memorandum, and from April 2003 regular enforced returns have been successfully implemented. We will continue to work with the Afghan Transitional Administration to ensure that returns to Afghanistan are sustainable.

Information on asylum applications, initial decisions and removals is published quarterly. The next publication will be available at the end of February 2004 on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

*Asylum applications[1] received in the United Kingdom, excluding dependants, initial decision[2] 2000—2003, nationals of Afghanistan*

| | *Applications* | *Initial Decisions* | *Grants of Asylum* | *Grants of ELR* | *Grants of Humanitarian Protection* | *Grants of Discretionary Leave* | *Total refusals[3]* | *Grants of ELR under backlog criteria[4]* | *Non compliance* |
|---|---|---|---|---|---|---|---|---|---|
| 2000 | 5,555 | 2,590 | 375 | 695 | n/a | n/a | 1,515 | 10 | - |
| 2001(r) | 8,920 | 12,365 | 2,320 | 7,500 | n/a | n/a | 2,545 | n/a | n/a |
| 2002(P) | 7,205 | 8,175 | 115 | 4,765 | n/a | n/a | 3,300 | n/a | n/a |
| 2003(P) | 2,290 | 3,920 | 40 | 204 | * | 350 | 3,320 | n/a | N/a |

[1] figures rounded to nearest 5, with '*' = 1 or 2.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] May include some refusals under non compliance grounds.
[4] Includes persons departing 'voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds
(r) Revised figures
(P) Provisional figures
N/A Not applicable

*Removals and voluntary departures[1] of Afghan asylum applicants, excluding dependants, 2000 to September 2003*[2,3,4(E)]

| | *2000* | *2001* | *2002(P)* | *Jan-Sept 2003(P)[5]* |
|---|---|---|---|---|
| Afghanistan | .. | 125 | 395 | 460 |

[1] Includes persons departing 'voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five, with * = 1 or 2.
[3] Figures may include a small number of dependants leaving under Assisted Voluntary Return Programmes.
[4] Figures exclude dependants of asylum seekers removed. Data on dependants removed have only been collected since April 2001.
[5] Data on the nationality of asylum seekers removed in the final quarter of 2003 will be published in May 2004.
(E) Data have been estimated due to data quality issues.
(P) Provisional figures.
(..) Not available.

### Brain Injuries (Police Training)

**Bob Russell:** To ask the Secretary of State for the Home Department whether *(a)* police training for recruits and *(b)* in-service training for police officers includes awareness of how to respond to members of the public with acquired brain injuries. [157560]

**Ms Blears:** The 15 week Probationer Training Programme delivered by Centrex to all new police recruits, incorporates a First Aid course consisting of five modules to the Association of Chief Police Officers (ACPO) approved Common Minimum Standards.

The course includes management of a casualty with head and associated injuries, convulsion and stroke. It teaches how to recognise signs and symptoms, examine and treat injury, obtain medical help, adopt the correct position, provide reassurance and monitoring. Training also includes life saving, illness in public places, and dealing with sudden death if required. In addition to testing the knowledge, understanding and skills on all these issues, probationers would also be assessed on attitudes and behaviour.

In police forces, specialist courses are delivered to officers as needed. Members of the public who enter custody at police stations are assessed and medical advice sought where appropriate.

### Cockling

**Geraldine Smith:** To ask the Secretary of State for the Home Department what Immigration Service operations had been carried out regarding cockle picking in *(a)* Morecambe Bay and *(b)* elsewhere prior to the operation on Pilling Sands on 19 June 2003. [156857]

**Beverley Hughes** *[holding answer 27 February 2004]:* The Immigration Service has assisted the police with various incidents involving cockle pickers prior to 19 June 2003. These include:

the arrest of 12 Chinese nationals in Mostyn on 31 October 2002

the arrest of 20 Chinese nationals on the Wirral on 31 October 2002

the apprehension of five Chinese nationals in Bagillt on 13 November 2002.

**Geraldine Smith:** To ask the Secretary of State for the Home Department how many people were arrested picking cockles in Morecambe Bay on 5 August 2003. [156371]

**Beverley Hughes** *[holding answer 26 February 2004]:* The police arrested 37 Chinese cockle pickers in Morecambe Town on 4 August 2003.

**Geraldine Smith:** To ask the Secretary of State for the Home Department how long immigration officials took to reach Morecambe when police arrested 37 people on Chatsworth Road, Morecambe on 4 August 2003; and whether the police were called as a result of complaints from members of the public. [156372]

**Beverley Hughes** *[holding answer 26 February 2004]:* I understand the police received telephone calls during early August 2003 concerning groups of apparently illegal Chinese immigrants and related either to the occupation of local premises or cockling on local public fisheries. On 4 August the police attended a local address following further complaints of suspicious activity. Police records show that they started to arrest Chinese cockle pickers at 4.35 p.m on 4 August 2003.

Police records indicate that they first contacted the Immigration Service about this activity during the evening of 4 August.

The Police made a significant number of arrests and made arrangements for the safe accommodation overnight of the detainees at police custody suites in the area.

During the morning of 5 August Immigration Service's Liverpool office drew together a team and the equipment necessary to interview, fingerprint, photograph and serve illegal entry papers on the Chinese nationals, as appropriate. Having completed checks during the morning against the relevant databases and obtained an interpreter, an Immigration Officer from Liverpool arrived at Lancaster Police Station at 1.24 p.m to assist the police with identifying the immigration status of those who did not appear on Home Office records.

Two Immigration Officers continue to provide their full time support to the police in the area.

**Geraldine Smith:** To ask the Secretary of State for the Home Department if he will make a statement correcting the information the hon. Member for Morecambe and Lunesdale received from the right hon. Member for Stretford and Urmston (Beverley Hughes) regarding immigration enforcement action on 6 August 2003, in Morecambe Bay; and if he will initiate an urgent inquiry into the reasons for which this inaccurate information was provided by his Department. [156373]

**Beverley Hughes** *[holding answer 26 February 2004]:* I wrote to my hon. Friend on 19 February to explain that I had been given the incorrect location for the operation on 6 August by officials, and I expressed regret about this error. This operation had in fact taken place on cockle beds on the Wirral.

Following my hon. Friend's letter of 19 February which highlighted various discrepancies to me in the information I had provided, I initiated an internal enquiry that evening to establish the facts. This has been conducted by a Director in the Immigration Service and the initial results were reported to me this week. There are further investigations still to be completed.

**Geraldine Smith:** To ask the Secretary of State for the Home Department (1) if he will make a statement on the Police and UK Immigration Service operation in Morecambe Bay at the sandbank close to Morecambe Town on 5 August 2003 as described in a letter to the hon. Member for Morecambe and Lunesdale from the right hon. Member for Stretford and Urmston (Beverley Hughes) dated 12 February; [156374]

(2) if he will name the sandbank close to Morecambe Town where a police and UK immigration operation took place on 5 August 2003 as described in a letter to the right hon. Member for Morecambe and Lunesdale from the hon. Member for Stretford and Urmston (Beverley Hughes) of 12 February; and if he will estimate the distance from the sandbank to Morecambe Town; [156370]

(3) what *(a)* police and *(b)* immigration service operations have been carried out at the sandbanks close to Morecambe town. [156970]

**Beverley Hughes:** The matter has now been fully investigated and it is clear that some details of the information given to me by officials and reproduced in my letter of 12 February about the Immigration Service's role in the events on the 4 and 5 August were not wholly accurate and I regret that as a result my hon. Friend was not given the full picture. However, the broad outline of that picture was correct—that on those days there was police-led activity in the Morecambe Bay area involving Chinese cockle pickers which the Immigration Service supported.

## Crime

**Mr. Rosindell:** To ask the Secretary of State for the Home Department how many crimes have been *(a)* reported and *(b)* recorded as being solved in the Romford area of the London borough of Havering during (i) 1995, (ii) 1997, (iii) 1999, (iv) 2001 and (v) 2003; [157012]

(2) how many *(a)* burglaries, *(b)* car thefts, *(c)* acts of vandalism, *(d)* muggings, *(e)* rapes, *(f)* sexual assaults, *(g)* indecent assaults and *(h)* violent attacks were reported in the Romford area of the London borough of Havering during (i) 1995, (ii) 1997, (iii) 1999, (iv) 2001 and (v) 2003. [157013]

**Ms Blears:** For details of recorded crime figures for Havering, I refer the hon. Member to the reply I gave him on 14 October 2003, *Official Report*, column 18W. Details for detections in Havering are given in the table.

*Havering: Recorded crime for six key offences*

| | *Offences recorded* | *Detections* |
|---|---|---|
| *Violence against the Person* | | |
| 1999–2000 | 2,661 | 975 |
| 2000–01 | 2,787 | 945 |
| 2001–02 | 3,225 | 1,144 |
| 2002–03 | 3,901 | 1,268 |
| *Sexual Offences* | | |
| 1999–2000 | 145 | 64 |
| 2000–01 | 158 | 55 |
| 2001–02 | 173 | — |
| 2002–03 | 178 | — |
| *Robbery* | | |
| 1999–2000 | 240 | 60 |
| 2000–01 | 392 | 59 |
| 2001–02 | 549 | 63 |
| 2002–03 | 479 | 57 |
| *Burglary Dwelling* | | |
| 1999–2000 | 837 | 119 |
| 2000–01 | 897 | 40 |
| 2001–02 | 1,109 | 63 |
| 2002–03 | 1,058 | 140 |
| *Theft of a motor Vehicle* | | |
| 1999–2000 | 1,749 | 154 |
| 2000–01 | 1,842 | 107 |
| 2001–02 | 1,883 | 134 |
| 2002–03 | 1,654 | 111 |
| *Theft from a Vehicle* | | |
| 1999–2000 | 2,120 | 49 |
| 2000–01 | 2,143 | 26 |
| 2001–02 | 2,374 | 42 |
| 2002–03 | 2,230 | 37 |

**Mr. Brady:** To ask the Secretary of State for the Home Department pursuant to the answer to question reference 154635 on 24 February, what guidance on crime pattern analysis his Department issued to police forces prior to 2003. [157696]

**Ms Blears:** No formal guidance has been issued although research studies have been published relevant to this area. Those studies published prior to 2003 are:

Read, T. and Oldfield, D. (1995) Local Crime Analysis. Crime Detection and Prevention Series Paper 65, London: Home Office.

Clarke, R.V. and Eck, J. (2003) Become a Problem-Solving Crime Analyst. Jill Dando Institute of Crime Science.

## Drug Treatment and Testing Orders

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many drugs testing and treatment orders have been issued in *(a)* Lancashire and *(b)* Chorley since 2000. [157680]

**Caroline Flint:** The information requested, for the years 2000 to 2002 is contained in the table.

*Persons sentenced to drug treatment and testing orders in Lancashire and the Petty Sessional Area (PSA) of Chorley, 2000–02*

| | *In Lancashire* | *Of which, in Chorley PSA* |
|---|---|---|
| 2000[1] | — | — |
| 2001 | 126 | 6 |
| 2002 | 165 | 10 |

[1] From October.

Statistics for 2003 will be published in the autumn of this year.

## Engagements

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department if he will make a statement on the meeting on 16 September 2003 between the Minister of State for Crime Reduction, Policing and Community Safety and representatives of Naturewatch; and when he expects to hold a follow-up meeting with the Chief Constable of North Wales. [157436]

**Ms Blears:** I very much welcomed the opportunity to meet representatives of Naturewatch to hear their concerns about the law and other issues in relation to badger-baiting. I made clear once again the Government's utter abhorrence of such practices. Primary responsibility for legislation on the protection of badgers rests with colleagues in Defra. I noted the concern of Naturewatch that there should be clear statistics as to the scale of abuse. Convictions of the main offences under the Protection of Badgers Act 1992, which are imprisonable, are recordable on the Police National Computer. This allows information about

offences and offenders to be shared among police forces. However, since the offences in the Act are among the great number which are triable only summarily, the proposition that they should be made notifiable for the purpose of crime statistics (which focus on offences triable on indictment) presents great problems. I made it clear that I would wish to take the views of the Chief Constable of North Wales, who leads on wildlife crime matters within the Association of Chief Police Officers, on other possible options. My officials have been in touch with him, and I am anxious that this work should be taken forward as quickly as possible.

### Fixed Penalty Fines

**Mr. Key:** To ask the Secretary of State for the Home Department what assessment he has made of the costs and benefits of equipping *(a)* Home Office constabularies and *(b)* Highways Agency traffic management staff with hand-held GPS card readers for on-the-spot payment of fixed penalty fines. [156723]

**Caroline Flint** *[holding answer 3 March 2004]:* No such assessment has been made. There is no requirement to pay fixed penalty fines on the spot.

The provisions of the fixed penalty system for road traffic offences are set out in Part III of the Road Traffic Offenders Act 1988, as amended by the Road Traffic Act 1991. The recipient of a fixed penalty notice has the option of paying the penalty within 28 days or requesting a court hearing if the issue of the notice is disputed.

Provision for Highways Agency traffic officers is included in the Traffic Management Bill, currently before Parliament. The Bill does not seek to give the traffic officers a power to issue fixed penalty notices.

### Identity Cards

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will commission an independent analysis to evaluate the various hypotheses about the effects of introducing identity cards. [157033]

**Beverley Hughes:** The Government does not propose to commission such an analysis. It has conducted a lengthy consultation exercise on different options for implementing an identity cards scheme, my right hon. Friend the Home Secretary set out the benefits of an identity cards scheme in his statement to the House on 11 November 2003 and his publication 'Identity Cards: The Next Steps' (CMD 6020) and we have announced that there will be a further opportunity for consultation when the draft Bill is published.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the option of introducing an identity card system with no central register. [157035]

**Beverley Hughes:** An identity card scheme without a central register would have less protection against people establishing multiple identities than one where there was a single, highly verified record of identity.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what measures will be in place under the current identity card proposals to ensure the trustworthiness of the staff operating *(a)* the identity database system and *(b)* other databases that include the ID number. [157037]

**Beverley Hughes:** The Government will build on the arrangements which are already in place for administering personal databases such as those adopted by the UK Passport Service.

### Illegal Immigrants

**Mr. Paice:** To ask the Secretary of State for the Home Department (1) how many of the illegal Chinese immigrants arrested in King's Lynn have been deported;. [155545]

(2) how many of the illegal Chinese immigrants arrested in the Wirral in November 2002 have been deported; [155546]

(3) how many of the illegal Chinese immigrants arrested at Morecambe in August 2003 have been deported; [155547]

(4) what prosecutions have taken place in connection with *(a)* the arrest of Chinese immigrants in King's Lynn, *(b)* the arrest of Chinese immigrants in the Wirral in November 2002 and *(c)* the arrest of Chinese immigrants at Morecambe Bay in August 2003. [155548]

**Beverley Hughes** *[holding answer 23 February 2004]:* The Chinese Government has very strict conditions for re-documenting their citizens and will only accept their return once they have verified their exact identity. This causes problems for many countries that wish to repatriate Chinese illegal immigrants and failed asylum seekers, as those who do not wish to return are careful to conceal their true identity. Chinese officials seconded to the Immigration Service have recently provided assistance in identifying Chinese nationals to enable their return. We are now working on an arrangement to make this assistance permanent.

We have made it clear to the Chinese that we urgently need to find a solution to the problem of re-documenting those who continue to conceal their identity in order to frustrate return, and are working together to find a way forward to enable us to significantly increase returns to China.

My understanding is that activity by the Immigration Service on the Wirral in October 2002, in King's Lynn in the summer of 2003, and in the Morecambe Bay area in August 2003 has not led to any prosecutions against any individuals under immigration law. Although 120 Chinese nationals were interviewed by the Immigration Service on those occasions, they were not willing to provide evidence which could be used to support a prosecution against those who may have facilitated their entry into the United Kingdom or employed them illegally.

To date one of these Chinese nationals who had committed an immigration offence has been removed from the United Kingdom and two are in detention awaiting issue of travel documents and removal.

The Immigration Service is actively considering the status of the Chinese nationals apprehended on these three occasions who have not been removed to date and who are not legally in the United Kingdom.

### Lancashire Police

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many arrests were made in the Chorley constituency in each year since 1997. [157677]

**Ms Blears:** Information on arrests collected centrally is based on persons arrested for 'notifiable' offences at police force area level only, in England and Wales. The information does not identify individual local authority or constituency areas.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many police officers Lancashire Police Force had in each year since 2000; and how many *(a)* were on the front line and *(b)* had desk jobs in each year. [157679]

**Ms Blears:** Police strength information is set out in the table.

| *Year as at 31 March* | *Lancashire police strength* |
|---|---|
| 2000 | 3,179 |
| 2001 | 3,255 |
| 2002 | 3,304 |
| 2003 | 3,339 |
| December 2003 | [1]3,549 |

[1] Record level

Further information on the deployment of officers on particular duties is not available. Police officers perform a variety of roles and not all officers occupy posts devoted solely to front line or administrative duties. The Home Office will be making available later in the year an assessment of the proportion of time spent by police officers on front line activities in each force in England and Wales in 2003–04.

### People Trafficking

**Mr. Simmonds:** To ask the Secretary of State for the Home Department what steps his Department has taken to combat trafficking of people into Britain from *(a)* China and *(b)* the Far East. [158327]

**Beverley Hughes:** The Government is committed to tackling the crime of human trafficking in all its guises, and operates an intelligence led approach to the policing of human trafficking. Reflex, a UK wide multi-agency taskforce to combat organised immigration crime, which includes people trafficking and smuggling, was established in 2000. At present, Reflex has a number of operations focused on disrupting organised Chinese, Far Eastern and other criminal gangs some of which involves close liaison with our European partners and source countries.

### Police Incident (Manchester)

**Mr. Blizzard:** To ask the Secretary of State for the Home Department if he will make a statement on the incident of alleged police brutality in Greater Manchester shown on television news in the week beginning on 16 February. [157303]

**Ms Blears:** The incident is being investigated by West Yorkshire Police, under the supervision of the Police Complaints Authority.

It would not be appropriate to comment on this case while the investigation is on-going.

### Police Support Staff

**John Cryer:** To ask the Secretary of State for the Home Department if he will list the duties performed by police support staff; and if he will make a statement on their effectiveness in supporting the work of the Metropolitan Police. [157331]

**Ms Blears:** Police staff perform a valuable role in the policing of London. The Commissioner of Police for the Metropolis informs me that as of the end of December 2003, there were 543 Traffic wardens, 1,157 community support officers and 11,772 other police staff working for the Metropolitan Police Service. They have a wide range of duties, with many of them in direct support of operational policing.

### Registered Doorkeepers

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department if he will list the areas in which the security industry regulations will be rolled out, broken down by date; how many persons are employed as doorkeepers in each area; how many places on courses designed to provide qualifications for registration there are; how many of these currently employed have already qualified for registration; and what contingency arrangements are in place to meet shortfalls in supply of registered doorkeepers. [157835]

**Ms Blears** *[holding answer 1 March 2004]:* The table details the rollout schedule for door supervisor licensing by the Security Industry Authority (SIA), along with estimated numbers of persons working as door supervisors.

| *Region* | *Application Start Date* | *SIA licence required from* | *Estimated number of door supervisors* |
|---|---|---|---|
| Hampshire and Isle of Wight | 1 March 2004 | 4 June 2004 | 2,883 |
| South West | 1 June 2004 | 23 August 2004 | 7,742 |
| Wales | 14 June 2004 | 6 September 2004 | 4,380 |
| Midlands | 5 July 2004 | 18 October 2004 | 12,410 |
| North West | 9 August 2004 | 15 November 2004 | 10,589 |
| North East | 6 September 2004 | 13 December 2004 | 11,732 |
| East | 4 October 2004 | 3 January 2005 | 7,511 |
| South East | 25 October 2004 | 28 February 2005 | 19,366 |
| London | 3 January 2005 | 11 April 2005 | 11,272 |

Information about the number of training places is not held centrally, however, the SIA has received assurances from the awarding bodies that there will be sufficient capacity to meet demand in any given region prior to the onset of licensing in that region.

As at 13 February 2004, 137 individuals have successfully completed the SIA approved training course in Hampshire and the Isle of White and it is estimated that a further 300 meet the SIA competency requirements by virtue of their existing recognised training qualifications. These figures are subject to constant change as the rollout progresses.

Responsibility for ensuring that there are sufficient door supervisors to meet demand lies with the leisure industry and door supervisor providers. Under the provisions of the Licensing Act 2003, local authorities will be able to require that a specified number of SIA licensed door supervisors will be on duty at specified times as a condition of a premises licence. The SIA are continuing their communications campaigns to ensure the industry are aware of their responsibilities, and to encourage the highest level of participation in the scheme. With the SIA, we will monitor carefully the impact of licensing on the supply of door supervisors.

## Speed Cameras

**Simon Hughes:** To ask the Secretary of State for the Home Department how many fines were issued for speeding camera convictions in *(a)* Greater London and *(b)* each London borough in each year since 1997. [158442]

**Caroline Flint:** Available information on the number of fixed penalties and court fines for the offence of 'speeding detected by camera' in the calendar years 1997 to 2001 is shown in the table for Greater London. It is not possible from the data collected centrally to identify each London Borough.

Information for 2002 will be available in the Spring.

*Fines and fixed penalties data for speeding Offences detected by camera[1,2] within Greater London[3], 1997—2001*

| | *Total fined at all courts* | *Fixed Penalty Notices issued* |
|---|---|---|
| 1997 | 2,500 | 15,300 |
| 1998 | 2,900 | 14,200 |
| 1999 | 2,600 | 13,000 |
| 2000 | 2,200 | 44,100 |
| 2001 | 4,500 | 52,100 |

[1] Automatic cameras until 1998, all camera types from 1999
[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[3] The Metropolitan and City of London police combined.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

## Telecommunications Masts

**Mr. Hunter:** To ask the Secretary of State for the Home Department what representations he has received about the advice given in PPG8: Telecommunications, that where proposals to locate telecommunications masts meet with the standards of the International Commission on Non-Ionising Radiation Protection, it should not be necessary for a local planning authority to consider further health effects of the proposal. [158274]

**Keith Hill:** I have been asked to reply.

The Office of the Deputy Prime Minister receives many representations on matters relating to the telecommunications industry. The information about representations and responses to such representations is not readily available in the breakdown requested and could be provided only at disproportionate cost.

## Traffic Wardens

**Chris Ruane:** To ask the Secretary of State for the Home Department how many traffic wardens were operating in police authority areas in each of the last 15 years, listed in descending order according to the biggest disparity between the first and last year. [158072]

**Caroline Flint:** The number of traffic wardens employed by each of the police authorities in England and Wales for the last four years is given in the table, which also shows the percentage increase or decrease in numbers between the first and last years. Figures for the years prior to 1999–2000 are not recorded centrally.

Under the provisions of the Road Traffic Act 1991, local authorities can apply for parking restrictions in their areas to be decriminalised and enforced by the authority under civil law. Many have now done so, and this has helped lead to a marked decline in traffic warden numbers.

*Selected Indicators* — *Traffic Wardens*

| *Values* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *Percentage Decrease* | *Increase* |

| Warwickshire | 8 | 9 | 9 | 9 | — | 12.5 |

## TRANSPORT

### Aircraft Security

**Mr. Cousins:** To ask the Secretary of State for Transport what steps he *(a)* has taken and *(b)* plans to take to protect British civil aircraft from man-portable projectile attack. [157058]

**Mr. McNulty:** Terrorist threats, including from man-portable air defence systems (MANPADs), are assessed on a continual basis and appropriate counter-measures are developed and reviewed accordingly. For the MANPAD threat this includes work on both ground-based and on-board security measures. It would not be appropriate on security grounds to disclose details about this work.

### Chorley Transport Interchange

**Mr. Hoyle:** To ask the Secretary of State for Transport how much Government funding was provided for the building of the Chorley transport interchange. [157715]

**Mr. McNulty:** The total Government borrowing approval provided to build the Chorley transport interchange was £3,731,000.

This includes the two separate contracts for the new Chorley bus interchange (£3.267million) and the refurbishment of Chorley railway station (£464,000).

### Cycling

**Mr. Nigel Jones:** To ask the Secretary of State for Transport (1) how much the Department spent on the promotion of cycle helmets in each of the last five years; and what assessment has been made of the cost-benefit achieved in terms of injuries prevented from *(a)* helmets and *(b)* other methods of reducing risk to cyclists; [158024]

(2) what monitoring methods are used to assess the effectiveness of cycle helmets in reducing the *(a)* number and *(b)* severity of head injuries; and whether these methods would detect changes in the number and severity of head injuries arising from increased use of cycle helmets. [158025]

**Mr. Jamieson:** Since the creation of the Department for Transport in May 2002, the following has been spent on cycle safety campaigns, which include the promotion of cycle helmet wearing.

*2002–03*

'Cyclesmart' campaign, targeting 7–11 year olds

£19,630

'Cyclesense' campaign, targeting teenage boys

£25,480

*2003–04*

'Cyclesmart' campaign

£26,450

'Cyclesense' campaign

£136,550

My Department commissioned research on the effectiveness of cycle helmets, including the relative risk of injury to cyclists with and without helmets, by way of a literature review, and this was published in November 2002 (Road Safety Research Report No.30), a copy of which was placed in the Library. The conclusion from the review was that helmets have been found to be effective at reducing the incidence and severity of head, brain and upper facial injury, particularly for children. A fully quantified cost benefit review comparing the effectiveness of helmets and other methods of reducing risk to cyclists is not possible since many measures, such as education, training and publicity, are not fully quantifiable. The Department therefore pursues a comprehensive package of measures. This is proving effective, and deaths and serious injuries to cyclists in 2002 were 34 per cent. down compared with the 1994–98 baseline for our Road Safety Strategy.

Our casualty data does not allow us to monitor the number and severity of head injuries due to increased use of helmets because it does not identify injury by specific parts of the body. However, in addition to the periodic monitoring we carry out of the wearing rates for cycling helmets, we plan to initiate further research to explore the possible relationship between cycling casualties and cycling levels to throw further light on this subject.

**Mr. Keetch:** To ask the Secretary of State for Transport what plans he has to encourage cycling in the City of Hereford; and if he will make a statement. [158645]

**Mr. McNulty:** We have allocated Herefordshire Council just over £11 million to spend on local transport schemes throughout the district in 2004–05 under the Council's Local Transport Plan (LTP) which includes measures to increase cycle usage. The Council's last annual progress report on its LTP showed a 4.8 per cent. increase in cycling in 2002–03. Hereford is also one of the seven shortlisted towns looking for support from the Department for a sustainable travel town initiative. Two towns will soon be selected to apply a package of measures to promote not only cycling, but also walking and public transport. We have budgeted £7.5 million for this initiative, which will run for five years.

### Dibden Bay Container Port

**Dr. Julian Lewis:** To ask the Secretary of State for Transport pursuant to his answer of 26 February 2004, *Official Report*, column 529W, on the Dibden Bay container port proposal and the New Forest National Park proposal, for what reason he declined to state whether or not he would make it his policy not to announce his decision on the port before the result of the public inquiry into the National Park is known; and if he will make a statement. [158828]

**Mr. Jamieson:** The answer I gave on 26 February 2004, *Official Report*, column 529W, stated that the publication of the report of the public inquiry into the proposal for the creation of a New Forest National Park was a matter for my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs.

A decision on the proposal for a new container port at Dibden Bay must be taken under a different statutory process and the timing of an announcement should therefore be separate from that for an announcement on a national park. It would not be appropriate to make it a policy not to announce a decision on the port before publication of the New Forest inquiry report. Issues relating to the proposals for the creation of a New Forest National Park were addressed at the public inquiry into proposals for a container port at Dibden Bay.

### Integrated Kent Franchise

**Hugh Robertson:** To ask the Secretary of State for Transport if he will publish the passenger usage data for *(a)* Faversham, *(b)* Selling, *(c)* Lenham, *(d)* Harrietsham and *(e)* Hollingbourne that the Strategic Rail Authority used in the consultation document on the Integrated Kent franchise for Faversham. [158827]

**Mr. McNulty:** The figures in the table are expressed as passenger journeys per day, using data for the year ending March 2003, and are based on ticket sales for journeys which either start, finish or interchange at the stations concerned.

*Passenger data for year ending March 2003*

| | *Ticket sales* |
|---|---|
| Faversham | 5,205 |
| Selling | 173 |
| Lenham | 459 |
| Harrietsham | 180 |
| Hollingbourne | 105 |

*Source:*
South Eastern Trains

### Local Authority Grants (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for Transport what grants were awarded by his Department to local authorities in *(a)* Lancashire and *(b)* Chorley in each of the last three financial years that fall outside the revenue support grant. [157266]

**Mr. McNulty:** I refer my hon. Friend to the answer given by my right hon. Friend the Minister for Local Government and the Regions on 1 March 2004, *Official Report*, column 749W.

### Port Security

**Mr. Cousins:** To ask the Secretary of State for Transport what steps he *(a)* has taken and *(b)* plans to take to (i) screen incoming cargo containers for chemical and biological agents and (ii) make available radiation detectors at ports. [157057]

**John Healey:** I have been asked to reply.

My right hon. Friend the Home Secretary is responsible for protective security. I am the Minister responsible for HM Customs and Excise who are primarily responsible for screening cargo entering the United Kingdom. Customs work closely with the Home Office and the Police on security at ports.

Incoming cargo is screened for a variety of illicit materials. The Government does not give detailed information about these procedures as this information may be useful to terrorists. In this connection Exemptions 1, 4 and 7 of the Code of Practice on Access

to Government Information apply. Following the announcement of new funds for counter-terrorism measures which the Chancellor made in last year's Budget (HC 500), Customs and the Home Office will be wording together to deploy screening equipment at UK points of entry to detect the illicit importation of radioactive materials.

### Railways

**Richard Ottaway:** To ask the Secretary of State for Transport what steps are being taken to relieve overcrowding on services operated by *(a)* South Central and *(b)* Thameslink. [157863]

**Mr. McNulty:** Under the Strategic Rail Authority's new franchise agreement with Go Via, capacity will be increased when a new fleet of trains is provided on South Central services from 2005. The two-year extension of the Thameslink franchise, effective from 1 April 2004, incorporates an option to provide additional capacity and services primarily on the Wimbledon loop where the route is most constrained. This proposal is subject to securing additional rolling stock and meeting value for money and affordability considerations.

**Mr. Godsiff:** To ask the Secretary of State for Transport how his Department defines overcrowding in respect of rail travel. [158062]

**Mr. McNulty:** There is no definition for crowding on the railways. However, all rail operators are required to provide a frequency of service and adequate capacity to prevent excessive crowding and to have in place strategies for dealing with regular systematic crowding when it occurs.

**Mr. Truswell:** To ask the Secretary of State for Transport how many railway carriages which could be returned to passenger use are in storage; where they are being stored; and what instructions he has given to the Strategic Railway Authority regarding the disposal of railway carriages which have the potential for re-use. [156171]

**Mr. McNulty:** Carriages capable of reuse are principally those being replaced by new trains on cross country and the west coast main line. Primary responsibility for deciding their future use, if any, lies with their owners and operators. However, the Strategic Rail Authority's Rolling Stock Strategy encourages the cascading of surplus carriages to other uses and there have already been cases where this has happened. The number in storage at any one time fluctuates as vehicles are progressively withdrawn from service and others are redeployed or scrapped.

**Norman Baker:** To ask the Secretary of State for Transport when he expects to make a statement on proposals for a crossing of the railway line at Beddingham on the A27. [158882]

**Mr. McNulty:** I announced the decision on the final proposals for the Southerham to Beddington stretch of the A27 yesterday. The hon. Gentleman and other interested parties were informed in the usual manner.

**Simon Hughes:** To ask the Secretary of State for Transport if he will allow regional passenger transport authorities to bid to run franchises. [158763]

**Mr. McNulty:** Passenger Transport Authorities as local authorities are precluded from being franchisees by Section 25 of the Railways Act 1993. Only where a rail network has been designated as exempt from franchising, as with the Merseyrail network, can a Passenger Transport Authority be considered to run services on that network. My right hon. Friend the Secretary of State said in his statement to the House on 19 January that the current rail review would consider the scope for devolving more decision-making to the Passenger Transport Executives.

### Road Haulage Forum

**Mr. Damian Green:** To ask the Secretary of State for Transport if he will make a statement on the future of the road haulage forum. [158222]

**Mr. Jamieson:** The road haulage forum will continue to meet as long as all sides think it worthwhile. I expect the next meeting to be in April.

### Road Scheme Funding

**Mr. Damian Green:** To ask the Secretary of State for Transport what monitoring systems exist to ensure that funds allocated to local authorities for road improvement and maintenance schemes are not used for other purposes. [158233]

**Mr. McNulty:** Integrated Transport block and maintenance allocations are issued as part of the Single Capital Pot and are unringfenced to give authorities greater flexibility over how they spend their funds. Local authorities may spend the funding as they wish on the services they provide in line with local priorities and in order to deliver the targets in their local transport plans (LTPs). When we are considering future capital allocations for local authorities, one of the factors taken into account is how local authorities have spent their LTP allocations and their performance in delivering their targets.

The Chief Finance Officer of each local authority is required to complete an audit form each year to confirm what LTP resources have been used in the previous financial year. These returns are audited by the Audit Commission.

### Road Transport Directive

**Mr. Damian Green:** To ask the Secretary of State for Transport what procedures he plans to introduce to facilitate enforcement of the Road Transport Directive in respect of drivers of foreign registered vehicles operating in the United Kingdom. [158226]

**Mr. Jamieson:** Our approach to enforcing the Road Transport Directive is outlined in our consultation document, which was published on 21 October 2003 and entitled "Consultation on the UK's proposal for implementing the Working Time Directive for mobile workers in the Road Transport Sector". A copy is available in the House Libraries, or can be downloaded from the DfT website at www.dft.gov.uk/freight/rtd.

My officials are presently analysing replies from the consultation exercise and we should be able to announce the results and our approach to enforcement very shortly.

### Transport Action Clean-up Programme

**Mr. Kidney:** To ask the Secretary of State for Transport what funding has been *(a)* budgeted for and *(b)* spent on the Transport Action Clean-Up programme in each financial year since 2001–02; and what the budget is for 2004–05. [157916]

**Mr. Jamieson:** The CleanUp programme is one of the Transport Energy programmes administered by the Energy Saving Trust (others include Powershift and the New Vehicle Technology Fund). As such, funding for CleanUp must be balanced against requirements for all the Transport Energy programmes. In total, the DfT allocated £26 million to these three programmes in 2003–4 and has committed the same amount for 2004–5. Grant and budget funding allocated to the CleanUp programme since 2001–2 is shown in the table.

*£ million*

| | *Clear up grants budget* | *Clear up grants actual* |
|---|---|---|
| 2001–2 | 8.0 | 7.4 |
| 2002–3 | 10.0 | 8.4 |
| 2003–4 | 9.0 | 13.0 |
| 2004–5 | 7.0 | n/a |

To meet the increase in demand in 2003–4, the Trust has redirected funding from marketing and promotional activities to help meet the additional spend on grants.

### Speed Cameras

**Mr. Evans:** To ask the Secretary of State for Transport what guidelines he issues regarding the positioning of speed cameras, with particular reference to mobile speed cameras. [156502]

**Mr. Jamieson:** The 'Handbook of rules and guidance for the operation of the national road safety camera programme for England and Wales', deals with the positioning of fixed and mobile speed cameras. Copies were placed in the Libraries of the House on 5 December 2003.

### Websites

**Matthew Taylor:** To ask the Secretary of State for Transport what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997 and (ii) 2003–04 until the latest date for which figures are available of (A) developing and (B) maintaining (1) his Department's website and (2) each website for which his Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155852]

**Mr. McNulty:** The information requested has been placed in the Libraries of both Houses. The details in this response refer to the Department for Transport web site and associated web sites since late May 2002 when the Department came into existence. Similar details for previous years could be provided only at disproportionate cost. Development costs are provided for all sites. Costs in 'other terms' by which we understand you to mean staff overheads cannot be provided without incurring disproportionate cost.

In respect of (C) Unique hosts—we understand you to mean the number of 'hosting services' (virtual and dedicated) that we are contracted to use. The DfT is contracted to use one dedicated hosting service for all web sites referenced in this response.

# Written Answers to Questions

*Friday 5 March 2004*

## CONSTITUTIONAL AFFAIRS

### Katharine Gun

**Mr. Hancock:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions he has had in the last 12 months with the Secretary of State for Defence on the Katharine Gun case. [158781]

**Mr. Leslie:** None.

## TRANSPORT

### Classic Cars (Vehicle Excise Duty)

**Mrs. May:** To ask the Secretary of State for Transport what extra revenue has accrued for each year since 1997; and what he estimates the projected extra revenue will be for the next 10 years, as a result of freezing the threshold of vehicle excise duty exemption for classic cars at the year 1973, compared with the rolling 25-year exemption previously in operation. [158218]

**Mr. Darling:** Since 1997 the Government have sought to restructure Vehicle Excise Duty so that it reflects the environmental impacts of vehicles. This is in keeping with the Government's aim to ensure that the UK meets its legally binding Kyoto targets for the reduction of carbon emissions. The rolling 25-year exemption was abolished in 1998 because it was inconsistent with this environmental focus.

Currently the VED exemption in respect of all vehicles registered before 1 January 1973 costs the Exchequer over £40 million per annum. If the rolling 25-year VED exemption for cars had continued to the present day, the additional costs to the Exchequer in terms of revenue foregone would have been close to £9 million in 2003–04 alone. The total additional cost since 1997 would have been a little over £20 million. Precise figures would require detailed analysis of vehicle stock data, including engine sizes of all extant 25 to 30-year-old vehicles. Future revenue implications will depend on vehicle ownership and use patterns, and in particular on how quickly older vehicles are scrapped.

### Cycling

**Mr. Paul Marsden:** To ask the Secretary of State for Transport how many miles of cycle paths there were in each year since 1997. [159316]

**Mr. McNulty:** The Department does not hold this information for the 1997–98 financial year. The following table lists cycle tracks and cycle lanes in kilometres constructed by local authorities for subsequent years.

*Number of cycle tracks and lanes from 1997–98 to 2002–03 (kilometres)*

| | *Cycle track* | *Cycle lane* | *Total* |
|---|---|---|---|
| 1998–99 | 210 | 145 | 355 |
| 1999–2000 | 221 | 178 | 399 |
| 2000–01 | 810 | 399 | 1,209 |
| 2001–02 | 804 | 405 | 1,209 |
| 2002–03 | 1,348 | 2,118 | 3,466 |

### Railways

**Linda Perham:** To ask the Secretary of State for Transport what recent assessment he has made of the need for high-speed rail services. [156083]

**Mr. McNulty:** The Strategic Rail Authority discussed the feasibility of a north-south high-speed line in its Strategic Plan 2003 as part of its long-term planning. But the priority is for the railway to concentrate on improving its current performance on the existing network.

**Simon Hughes:** To ask the Secretary of State for Transport what the most recent figures are for *(a)* reliability, *(b)* punctuality, *(c)* public performance measures and *(d)* complaints for each train operator operating services in Greater London in each of the last five years. [158659]

**Mr. McNulty:** The Strategic Rail Authority (SRA) measures train performance by the Public Performance Measure (PPM) which combines reliability and punctuality. It is published by train operator in the SRA's quarterly National Rail Trends (NRT). The latest publication covers performance to the year ending 30 September 2003 and is placed in the Library of the House. The next edition, Quarter 3 2003–04, covering performance to 31 December 2003 will be published on 11 March.

Until March 2003, complaints data by train operator were published in the SRA's six monthly *On Track* publication. Copies of *On Track* are placed in the Library of the House. In future, complaints data by train operator will appear annually in Quarter 4 of NRT which will also act as an annual compendium of statistics. This will be published in the summer.

**Mr. Cummings:** To ask the Secretary of State for Transport if he will make a statement on the re-opening of railway stations at *(a)* Easington, *(b)* Colliery and *(c)* Horden. [159317]

**Mr. McNulty:** There are no current plans to re-open these stations.

**Mr. Webb:** To ask the Secretary of State for Transport whether Network Rail has exemption from the Wildlife and Countryside Act 1981 in respect of track maintenance work. [158909]

**Dr. Howells:** NR is bound by the provisions of the Wildlife and Countryside Act 1981 (as amended). There is no specific exemption for Network Rail, but exceptions are provided which may sometimes be utilised by NR to maintain the safety and reliability of the railway.

### Road Improvements

**Simon Hughes:** To ask the Secretary of State for Transport if he will estimate real terms cost inflation for road improvement projects in Greater London for each year since 1997. [158661]

**Mr. McNulty:** Information on real-terms cost inflation is not recorded on an annual basis for road projects. Since July 2000, Transport for London, under the Mayor, have been responsible for road improvement projects in London, excluding motorways, which remain the responsibility of the Highways Agency.

### Spitting

**Mr. Paul Marsden:** To ask the Secretary of State for Transport what police procedures oversee the use of DNA kits issued by Metroline bus company used to identify spitting offenders. [159046]

**Mr. McNulty:** The London Borough of Brent's Operational Command Unit in partnership with Metroline will soon be piloting the use of DNA kits on buses to aid the identification of spitting offenders. Protocols as to the use of DNA kits are currently being established. This pilot scheme is expected to commence in April and is expected to run for six months.

### Transport Projects (London)

**Simon Hughes:** To ask the Secretary of State for Transport if he will list the dates of the formal meetings he has had with the Mayor of London about transport projects in London. [158765]

**Mr. McNulty** *[holding answer 4 March 2004]:* The Secretary of State and other Ministers have regular meetings with the Mayor of London on a range of topics.

## CABINET OFFICE

### Cabinet (Disclosures)

**Mr. Heald:** To ask the Minister for the Cabinet Office what *(a)* advice and *(b)* guidance is given to former members of the Cabinet concerning disclosures of (i) Cabinet deliberations and (ii) classified documents. [159407]

**Mr. Alexander:** The obligations on former Ministers are set out in paragraph 18 of the ministerial code. On leaving office, Ministers are reminded of these obligations.

### Correspondence

**Mr. Kaufman:** To ask the Minister for the Cabinet Office when the Chancellor of the Duchy of Lancaster will reply to the letter to him dated 8 January from the right hon. Member for Manchester, Gorton with regard to Ms V. Bromage. [157906]

**Mr. Alexander:** This correspondence was received for the first time in the Cabinet Office on 1 March. The issues raised are matters for the Department of Constitutional Affairs and your letter has therefore been passed to the noble Lord, the Lord Filkin who I understand will reply shortly.

### Ministerial Visits

**Mr. Heald:** To ask the Minister for the Cabinet Office if he will place in the Library a list of the overseas visits undertaken by ministers in his Department since 1999 indicating in each case by *(a)* destination, *(b)* purpose of visit, *(c)* size of party, *(d)* composition of party, *(e)* cost to public funds of each party and *(f)* the capacity in which the Minister was sent. [159346]

**Mr. Alexander:** The Government have published the overall costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500 on an annual basis since 1997. The last list for the period 1 April 2002 to 31 March 2003 was published by the Prime Minister on 16 July 2003, *Official Report*, column 482W. The next list for the period 1 April 2003 to 31 March 2004 will be published as soon as possible after the end of the financial year.

Copies of previous lists are available in the Library of the House.

### Online Services

**Mr. Heald:** To ask the Minister for the Cabinet Office what recent representations he has received on the effectiveness of the Government's targets for the online delivery of services. [158045]

**Mr. Alexander:** The Government continue to receive representations from stakeholders on the 2005 e-delivery target.

In September 2002 this target was extended to focus on delivering benefits to customers by achieving high levels of use for key services.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Abattoirs

**Mr. O'Hara:** To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions were brought by her Department against abattoirs for breaches of *(a)* fresh meat hygiene regulations and *(b)* animal welfare regulations in each of the calendar years 2002 and 2003; how many separate charges were contained within these prosecutions; on how many of the charges convictions were secured; how many charges were withdrawn by her Department before they were determined by the courts; and what the total sum of legal costs incurred by her Department in the pursuit of these charges was. [158071]

**Mr. Bradshaw:** Not all of the detailed information requested is recorded centrally, in particular how many charges were withdrawn, but a summary is provided in the following table. The information covers both this Department and the Food Standards Agency, which is responsible for meat hygiene prosecutions, as well as being involved with animal welfare cases.

| *Meat hygiene prosecutions* | *2002* | *2003* |
|---|---|---|
| Number of prosecutions | 6 | 10 |
| Charges on which convictions secured | 29 | 26 |
| Legal costs incurred in pursuit of the charges | 16,724 | 36,648 |

| *Meat hygiene prosecutions* | *2002* | *2003* |
|---|---|---|
| *Animal welfare prosecutions* | | |
| Number of prosecutions | 4 | 7 |
| Charges on which convictions secured | 7 | 42 |
| FSA legal costs incurred in pursuit of the charges | 14,187 | 19,907 |
| Defra legal costs incurred in pursuit of the charges | 3,392 | 4,999 |

### Animal Welfare

**Mr. David:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to improve the welfare of animals in slaughterhouses. [158641]

**Mr. Bradshaw:** There are extensive provisions in the Welfare of Animals (Slaughter or Killing) Regulations 1995 designed to protect the welfare of animals both immediately before, and during, the slaughter process. In addition the Farm Animal Welfare Council published a report in 2003 on the welfare of red meat animals at slaughter. The report included 94 recommendations for improving animal welfare. The Government will be issuing shortly for public consultation their draft response to these recommendations.

**Mr. David:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have to make compulsory the stunning of animals before religious slaughter. [158640]

**Mr. Bradshaw:** The Government's draft response to the recommendations in the Farm Animal Welfare Council's report on the welfare of red meat animals at slaughter, including the recommendation that all animals should be stunned prior to slaughter, will be issued for public consultation shortly.

### Bovine TB

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 February 2004, *Official Report*, column 1441W, on bovine TB, what criteria were used to assess the humaneness of the pesticide fumigants approved for the destruction of rabbits and moles. [158427]

**Alun Michael:** The Control of Pesticides Regulations 1986 (COPR) requires pesticides to be humane and this issue in relation to approved vertebrate control agents was considered by the Advisory Committee on Pesticides in 1996.

Quantification of "humaneness" was attempted using the assumptions

*(a)* that the extent to which a fumigant is humane is universally related to the degree of distress,

*(b)* that increased severity of symptoms indicates the degree of distress caused, and

*(c)* that increased duration of symptoms increased distress. Since effects resulting in the death of an intoxicated animal will probably involve severe symptoms at least in extremis, the duration of severe symptomatology is used as a major determinant in assessment of humaneness. For judging the severity of symptoms reported among the following data listed, the criteria described in "Pain and Distress in Laboratory Rodents and Lagomorphs: Report of the Federation of Laboratory Animal Science Associations Working Group on Pain and Distress" have been used as a guide.

The Working Group on Methods for Assessing the Humaneness of Vertebrate Pesticides concluded that pain, distress and suffering could not be measured objectively but that a subjective assessment of humaneness was possible, based on physiological and behavioural data, knowledge of mode of action and post-mortem reports.

The Littlewood report (1965) recommended that procedures (or in this case conditions) which are known to cause pain in humans should be assumed to do so in other vertebrates unless convincing evidence is available to the contrary.

### Cats

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of disease in humans have been attributed to TB infection in cats. [158006]

**Miss Melanie Johnson:** I have been asked to reply.

There have been no reported cases of tuberculosis infection in humans attributed to infection in cats.

### Cetaceans

**Andrew Mackinlay:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of *(a)* dolphins and *(b)* porpoises killed each year (i) by British fishing vessels, (ii) in British waters, (iii) by vessels of other European Union countries and (iv) in European Union waters; and if she will make a statement. [156216]

**Mr. Bradshaw:** On the basis of research conducted on behalf of Defra by the Sea Mammal Research Unit, estimates have been made of bycatch in UK fisheries. In the offshore bass fishery total bycatches are of the order of 90 dolphins per year, which represents less than 0.1 per cent. of the most recent estimate of common dolphin abundance in the south-west. Annual porpoise bycatch totals for gill net and tangle net fisheries in the south west cannot be determined at present, but bycatch rates estimates are likely to be in the region of 500 porpoises per year. Porpoise bycatch estimates for the North Sea and the west of Scotland are around 490 animals per year.

However, bycatch information from other member states whose vessels operate in these fisheries and elsewhere around the UK is not available so it is not possible to produce reliable estimates of dolphin and porpoise bycatch deaths within the UK 200-mile limit. In particular, it should be noted that UK vessels in the offshore bass fishery in the south west represent only a small proportion of the total effort in the fishery.

### Cockle Beds

**Geraldine Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs under what powers, and for what reasons, the North-West and North Wales Sea Fisheries Committee may close cockle beds. [156858]

**Mr Bradshaw** *[holding answer 27 February 2004]*: The North-West and North Wales Sea Fisheries Committee may close cockle beds in their district for the purposes of fishery management or for controlling the rate of exploitation of the cockle stocks therein. The closure must be for a specified period and undertaken only after consultation with scientists and local cockle fishermen. Sea Fisheries Committees' byelaws are made under the Sea Fisheries Regulation Act 1966 (as amended).

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154068]

**Alun Michael:** Defra spent the following sums on establishing a new identity since the Department was created in June 2001. Details of expenditure on branding within the predecessor departments could be obtained only at a disproportionate cost.

*Breakdown of branding costs*

| | £ |
|---|---|
| Scoping/consultancy | 122,620 |
| Identity design and Brand architecture | 48,000 |
| Web design | 18,460 |
| Other brand activity | 139,977 |
| 2002–03 total | 329,057 |
| | |
| Estimated cost of replacing signage | 100,000 |
| 2003–04 total | 100,000 |

### Horses

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many horses were *(a)* slaughtered for meat and *(b)* exported for slaughter in the last year for which figures are available. [157264]

**Alun Michael:** In 2003, 6,727 horses were slaughtered in licensed red meat slaughterhouses in England. I am advised that no live horses were exported for slaughter in 2003.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs who will administer the National Equine Database. [156653]

**Alun Michael:** The National Equine Database will be jointly administered by industry and Defra though the precise mechanism has yet to be decided.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to revoke the minimum values legislation; [156664]

(2) if she will amend the minimum values legislation to prevent the export of live horses for slaughter. [156665]

**Alun Michael:** I wrote to the hon. Member on 14 November 2003 explaining our intention to review the minimum values legislation in the light of proposed changes to the European directive on the welfare of animals during transport. There appears to be some misapprehensions about the existing legislation which has been in place for many years. The minimum values legislation applies to certain types of working horse (but only if they are exported for work) and to ponies. It does not apply to other horses. We have considered carefully whether we could ban the export of horses for slaughter but this would be inconsistent with the approach taken consistently by successive Governments and we believe that we cannot restrict the free movement of horses which is why our focus has been on achieving improved regulation in the UK and across Europe to reduce cruelty and improve the welfare of animals during transport.

### Local Government Finance (Dorset)

**Jim Knight:** To ask the Secretary of State for Environment, Food and Rural Affairs what grants were awarded to local authorities in Dorset by her Department in financial year 2003–04 that fall outside the revenue support grant. [156208]

**Alun Michael:** I refer the hon. Member to the answer given by the Minister of State at the Office of the Deputy Prime Minister (Mr. Raynsford) on 1 March 2004, *Official Report*, column 750W.

### Milk

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will set up a meeting with milk producers, representatives of supermarkets, dairy farmers and members of her Department to discuss farmgate prices of milk. [156507]

**Alun Michael:** Price negotiation between producers and processors, or processors and supermarkets, are a private commercial matter in which the Government cannot and should not get involved, as competition rules have to be respected. It would be inappropriate for me to discuss private price negotiations and I have no plans to do so. However, Ministers frequently meet representatives from all parts of the dairy supply chain and are therefore aware of the issues. The Dairy Supply Chain Forum, chaired by my noble Friend Lord Whitty, has been looking at collaborative solutions to improve supply chain efficiency, and address some of the other underlying causes of low farmgate prices.

### Persistent and Bioaccumulative Chemicals

**Mr. Lazarowicz:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the adequacy of the controls contained in the proposed EU chemicals regulation on the use of persistent and bioaccumulative chemicals. [158953]

**Alun Michael:** The European Commission proposes that substances of very high concern shall not be used unless an authorisation for that use has been granted to the user or supplier. Substances of very high concern are defined as carcinogens, mutagens and substances toxic to the reproductive system (CMRs) categories 1 or 2; substances which are persistent, bioaccumulative and

toxic (PBT); very persistent and very bioaccumulative (vPvB); or substances, such as those having endocrine disrupting properties or those having PBT and vPvB properties which do not meet the above criteria and which are identified as causing serious and irreversible effects to humans or the environment on a case by case basis.

The Government support the aims of the authorisation process to ensure that the risks from substances of high concern are properly controlled and that these substances may be eventually replaced by suitable substances or technologies with the aim of reducing risks to human health and the environment. The Government welcome the inclusion of substances meeting the PBT criteria as being subject to the authorisation procedure.

### Pesticides

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the mode of action of *(a)* aluminium phosphide and *(b)* hydrogen cyanide is in terms of its effects on small mammals when used as a pesticide. [157930]

**Alun Michael:** The following modes of action apply to all mammals, not just small ones.

*(a) Phosphine:*

The primary mode of toxic action of phosphine is considered to be inhibition of cytochrome oxidase in the respiratory metabolism pathway, with additional direct cytotoxicity. Exposure to high concentrations of phosphine leads in vertebrates to a profound fall in blood pressure, followed by death. Lower concentrations cause pulmonary oedema and respiratory failure which may be fatal.

*(b) Hydrogen Cyanide:*

Cyanide combines with the ferric iron atom in haem proteins (eg cytochromes) in vertebrate tissues, impairing their capacity to undergo oxidation and reduction in the normal electron transport process. It can cause death extremely rapidly, primarily by inactivating cytochrome oxidase in tissues.

### Poultry

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances the Little Red Tractor mark could be awarded to chicken produced in Thailand. [156651]

**Alun Michael:** The Red Tractor is a privately-owned logo which is administered by an independent company, Assured Food Standards. The logo can be used only under licence from that company and only on food that is produced in accordance with standards laid down in an assurance scheme approved by the company, by a member of such a scheme. We understand that no chicken produced in Thailand meets these eligibility requirements.

### Seriously Disadvantaged Areas

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs which constituencies are in severely disadvantaged areas. [156112]

**Alun Michael:** The severely disadvantaged areas are those areas of land within less favourable areas of the UK, which are handicapped, principally by reason of high altitude, harsh climate, short growing season, low fertility, difficult topography or remoteness. They are defined in statutory maps and in England lie within the following constituencies:

Barnsley West and Penistone County Constituency
Barrow and Furness County Constituency
Berwick-Upon-Tweed County Constituency
Bishop Auckland County Constituency
Blackburn Borough Constituency
Bolton North East Borough Constituency
Bolton West County Constituency
Bradford South Borough Constituency
Bradford West Borough Constituency
Bridgwater County Constituency
Burnley Borough Constituency
Burton County Constituency
Bury North Borough Constituency
Calder Valley County Constituency
Chorley County Constituency
City of Durham County Constituency
Colne Valley County Constituency
Copeland County Constituency
Halifax Borough Constituency
Hazel Grove County Constituency
Hereford County Constituency
Hexham County Constituency
Heywood and Middleton County Constituency
High Peak County Constituency
Huddersfield Borough Constituency
Hyndburn Borough Constituency
Keighley County Constituency
Lancaster and Wyre County Constituency
Leominster County Constituency
Ludlow County Constituency
Macclesfield County Constituency
Middlesbrough South and East Cleveland County Constituency
Morecambe and Lunesdale County Constituency
North Cornwall County Constituency
North Devon County Constituency
North East Derbyshire County Constituency
North Shropshire County Constituency
North West Durham County Constituency
Oldham East and Saddleworth County Constituency
Pendle Borough Constituency
Penrith and The Border County Constituency
Pudsey Borough Constituency
Ribble Valley County Constituency
Richmond (Yorks) County Constituency
Rochdale County Constituency
Rossendale and Darwen Borough Constituency
Ryedale County Constituency
Scarborough and Whitby County Constituency
Sheffield, Hallam County Constituency
Sheffield, Hillsborough County Constituency
Shipley County Constituency
Shrewsbury and Atcham County Constituency

Skipton and Ripon County Constituency
South East Cornwall County Constituency
South West Devon County Constituency
St. Ives County Constituency
Staffordshire Moorlands County Constituency
Stalybridge and Hyde County Constituency
Stone County Constituency
Taunton County Constituency
Teignbridge County Constituency
Tiverton and Honiton County Constituency
Torridge and West Devon County Constituency
Totnes County Constituency
Truro and St. Austell County Constituency
Vale of York County Constituency
Wakefield County Constituency
West Derbyshire County Constituency
Westmorland and Lonsdale County Constituency
Workington County Constituency

### Sheep Quota

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs how many units of United Kingdom sheep quota were leased-out but remained unused by the recipient farmers in *(a)* 2002–03 and *(b)* 2003–04. [158431]

**Alun Michael:** The number of sheep quota units leased out in England is set out in the following table. These figures relate to the 2003 and 2004 sheep quota trading periods respectively. The figure for 2004 is an interim figure because the trading period closed on 4 February 2004 and a proportion of notifications remain to be processed.

| *Year* | *Units leased* |
|---|---|
| 2002–03 | 822.057 |
| 2003–04 | 428,424 |

It is not possible to confirm the number of leased quota units that recipient farmers did not use to support sheep premium payments. This is not monitored as there is no requirement in European legislation for farmers to use quota they have leased in.

The information for other countries within the UK is a matter for their respective Devolved Assemblies.

### Single Farm Payments

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the impact of her proposed arrangement for single farm payments upon land values *(a)* before and *(b)* after 2012; [157102]

(2) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* intensive dairy, *(b)* extensive dairy, *(c)* intensive beef, *(d)* extensive beef, *(e)* intensive suckler cow, *(f)* extensive suckler cow, *(g)* intensive sheep and *(h)* extensive sheep farming systems (i) before and (ii) after the end of the transitional period in 2012; [157127]

(3) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* intensive mixed and *(b)* extensive mixed holdings (i) before and (ii) after 2012; [157129]

(4) what assessment she has made of the anticipated per hectare payments to farmers in England under her proposals for single farm payments after 2012 for farms *(a)* within and *(b)* outside severely disadvantaged areas; [157103]

(5) if she will publish each of the assessments her Department made of the anticipated impact of her preferred option for the further payment of single farm payments *(a)* during and *(b)* after the transitional period; [157104]

(6) what assessment she has made of the impact of her proposed arrangement for single farm payments upon farms of *(a)* supported crops and arable and *(b)* unsupported crops and arable (i) before and (ii) after 2012; [157130]

(7) what assessment she has made of the impact of her proposed arrangement for single farm payments upon farm gate prices across each sector *(a)* before and *(b)* after 2012; [157131]

(8) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* the future structure of farming, *(b)* farm and farmland ownership, *(c)* agricultural productivity, *(d)* agricultural profitability, *(e)* farm gate prices across all main sectors, *(f)* the viability of the present farm structure, *(g)* the future number of farms and *(h)* the future number of agriculture and agriculture-related jobs; [157123]

(9) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* farm tenancies and *(b)* farm rents (i) before and (ii) after 2012; [157124]

(10) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* traditional, *(b)* small, *(c)* part-time and *(d)* family farms in England (i) before and (ii) after 2012; [157132]

(11) what assessment she has made of the impact of her proposed arrangement for single farm payments upon *(a)* new entrants and *(b)* farmers seeking to retire during the period (i) up to and (ii) beyond 2012; [157133]

(12) what assessment she has made of the impact of her proposed arrangement for single farm payments upon the preponderance of tenanted *(a)* farms and *(b)* farmland (i) before and (ii) after 2012; [157125]

(13) what assessment she has made of the impact of her proposed arrangement for single farm payments upon the *(a)* viability and *(b)* number of farms in (i) upland and (ii) severely disadvantaged areas. [157126]

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the impact of single farm payments on *(a)* farms that are rented, *(b)* owner farms, *(c)* upland farms, *(d)* middlehill farms, *(e)* lowland farms, *(f)* dairy farms, *(g)* beef farms, *(h)* sheep farms, *(i)* arable farms and *(j)* mixed farms, in Chorley. [157704]

**Alun Michael:** Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in the Secretary of State's Statement to the House on 12 February.

## DEFENCE

### Afghanistan

**Tom Brake:** To ask the Secretary of State for Defence if he will make a statement on UK troop levels in Afghanistan. [156737]

**Mr. Hoon:** We currently have around 490 members of the armed forces deployed in Afghanistan, mostly serving with either the International Security Assistance Force in Kabul, or with our Provincial Reconstruction Team in Mazar-e Sharif.

### A400M

**Mr. Hoyle:** To ask the Secretary of State for Defence when the A400M will be delivered; and how many aircraft have been procured. [157564]

**Mr. Ingram:** The in-service date of the A400M (defined as acceptance into service of the seventh aircraft) is 2011. We expect delivery of the final (twenty-fifth) aircraft to be in 2015.

### Aircraft Carriers

**Mr. Hancock:** To ask the Secretary of State for Defence what plans he has to reduce the size of the proposed new aircraft carriers. [154627]

**Mr. Ingram:** The Future Carrier programme is currently in its Assessment Phase. The Department has not sought to fix the dimensions of the aircraft carriers during this stage. Instead, parameters such as the ships' size will reflect the design required to meet our capability requirements. It is to be expected that the design of the ships will evolve as the Department seeks to balance, in conjunction with industry, overall performance, time and cost as part of normal Assessment Phase activity.

### Defence Logistics Organisation

**Mr. Djanogly:** To ask the Secretary of State for Defence when he expects the assessment of the feasibility of co-locating additional parts of the Defence Logistics Organisation alongside or close to the existing Ministry of Defence site at Abbey Wood in Bristol to be completed. [157312]

**Mr. Ingram:** I expect to make an announcement on this issue before the summer. This will need to be followed by more detailed work on the development of options for possible collocation.

### Eurofighter Typhoon

**Norman Lamb:** To ask the Secretary of State for Defence when Initial Operating Capability on the Eurofighter Typhoon is intended to be achieved; what the Beneficial Use Date for the Typhoon is; and if he will make a statement. [156955]

**Mr. Ingram:** Typhoon will provide a meaningful "initial operating capability" when squadron pilots can begin training. At this point it is considered that they will begin to contribute to defence outputs, and this therefore signifies the Beneficial Use Date for accounting purposes. This is currently planned to be achieved during 2005.

**Norman Lamb:** To ask the Secretary of State for Defence whether he is seeking liquidated damages for the delays to the entry into service of the Eurofighter Typhoon; and if he will make a statement. [156956]

**Mr. Ingram:** Liquidated damages for the delays to the entry into service of Typhoon will be recovered in accordance with our entitlements under the contracts.

### Irish Guards (Kenya Exercise)

**Hugh Robertson:** To ask the Secretary of State for Defence if he will make a statement on 1 Battalion, the Irish Guards exercise in Kenya planned for autumn 2004. [159265]

**Mr. Ingram:** It is currently planned that 1st Battalion, the Irish Guards will conduct training at Archer's Post, in Kenya, on Exercise GRAND PRIX over the period 16 September—27 October 2004.

Exercise GRAND PRIX is a battalion group infantry exercise, and provides an opportunity for the Battalion to develop further its collective training skills, while suitably balancing its other activities in 2004, which are focussed on Public and State Ceremonial Duties in London.

### MOD Fire Service

**Dr. Julian Lewis:** To ask the Secretary of State for Defence when he expects to make *(a)* a decision and *(b)* an announcement on whether the Ministry of Defence Fire Service will be retained or privatised. [158692]

**Mr. Ingram** *[holding answer 4 March 2004]:* This issue is being considered as part of the Airfield Support Services Project, which is seeking to establish the most cost-effective method of maintaining a full airfield support service including management and administration, without compromising operational capability and/or safety. No decision has yet been made about the outcome of this project and we will only do so following full and careful considerations of all the options. Although we are moving towards this point, I am not yet in a position to say exactly when this will be.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what estimate he has made of the comparative cost per firefighter per hour during the firefighters' strike of emergency cover by an armed forces' firefighter and a firefighter employed by a private firm under contract to his Department. [158693]

**Mr. Ingram** *[holding answer 4 March 2004]:* The full cost of using armed forces fire fighters during the fire fighters strike was approximately £17 per hour. No fire fighters employed by private contractors under contract to this Department were deployed on such duties.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what surveys his Department have undertaken to assess the willingness of firefighters employed by private contractors to serve in war zones during hostilities. [158694]

**Mr. Ingram** *[holding answer 4 March 2004]:* As part of Fire Study 2000, a comprehensive investigation into the organisation of the Department's fire services, a survey was carried out to assess whether fire fighters engaged directly by the Department, and those employed by private contractors, would be willing to serve as Sponsored Reserves, which could involve serving overseas in hostile environments.

No other specific surveys of fire fighters have been carried out by the Department.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what insurance cover is given to *(a)* his Department's fire service personnel and *(b)* privately contracted firefighters when attending (i) road traffic accidents and (ii) other civil emergencies. [158695]

**Mr. Ingram** *[holding answer 4 March 2004]:* The Ministry of Defence does not purchase insurance policies but pays claims for compensation directly from its current expenditure. Claims are paid in accordance with the Department's legal liability to make payment.

MOD Fire Fighters are covered for compensation if they should suffer injury or death as a result of negligence on the part of MOD while attending road traffic accidents or other civil emergencies to the same extent as when they are carrying out other official duties. Similarly, if MOD Fire Fighters were to cause injury or death to another individual, or damage to property belonging to another person, while attending road traffic accidents then MOD, not the fire fighter involved, would be liable to pay compensation to that person.

If MOD Fire Fighters should suffer injury or death as a result of negligence on the part of another person or organisation then MOD would not be legally liable to pay them compensation. Instead they, or their estate, would have to claim from the person concerned. However MOD does have a scheme called ToPaS, under which legal advice and assistance can be obtained, without cost, to enable a claim to be brought.

Under the rules governing Military Aid to the Civil Community, MOD requires local authorities to indemnify the Department against any costs, such as paying compensation, which may be incurred in providing Aid, such as attending road

traffic accidents.

Where the fire service is provided to the Department by a private contractor then it is the contractor who is responsible for making all the necessary insurance arrangements for their employees.

### Officers (Leave)

**Mr. Keetch:** To ask the Secretary of State for Defence how many *(a)* majors and *(b)* brigadiers are between postings; how long each has been on leave; and if he will make a statement. [156073]

**Mr. Ingram:** Less than five Regular Army officers in these ranks are between postings on compassionate leave, unpaid leave or awaiting placement. None of the periods between postings have lasted longer than eight months to date.

Due to the low numbers involved this information cannot be broken down by Rank or duration because this could identify individuals and breach disclosure and confidentiality policy.

**Mr. Keetch:** To ask the Secretary of State for Defence how many senior officers are between postings in the *(a)* RAF and *(b)* Royal Navy, broken down by (i) rank and (ii) length of time on leave; and if he will make a statement. [156074]

**Mr. Ingram:** As at 1 March 2004, there are currently no senior officers in the RAF between postings and on leave.

In the Navy, as at 1 February 2004 there was one Commander between postings who had been waiting for a new post for seven days.

### Procurement Programmes

**Mr. Martyn Jones:** To ask the Secretary of State for Defence if he will make a statement on progress with introducing *(a)* the Viking all-terrain protected vehicle for the Royal Marines, *(b)* the Army's Boxer Multi-role Armoured Vehicle and *(c)* the Defence Information Infrastructure Programme. [157285]

**Mr. Ingram:** Deliveries of the Viking all-terrain protected vehicle continue according to programme, with 27 vehicles delivered to date. The In Service Date remains on track for April 2004 when 30 vehicles are due to have been delivered. A pilot Operator/Maintainer course has begun at the Armoured Training Centre, Bovington, to support the introduction of this equipment.

On the Multi-role Armoured Vehicle, I refer my hon. Friend to the statement I made on 17 July 2003, *Official Report*, column 71WS, about the UK's decision to withdraw from this tri-national programme.

The Defence Information Infrastructure Programme (DIIP) is progressing well. The procurement of the Future Defence Information Infrastructure is also progressing well. The Future DII team are currently in negotiations with three short-listed bidders and are on target for announcement of the preferred bidder in early 2005. Commencement of delivery is due to follow during 2005, with Full Operating Capability expected in 2008.

### Service Postal Deliveries (Iraq)

**Mr. Hancock:** To ask the Secretary of State for Defence what factors underlay the decision to cancel the facility for service people in Iraq to receive parcels from home free of charge. [158777]

**Mr. Ingram:** The postal packet service, whereby named service personnel on Operation Telic were able to receive packets weighing up to 2 kg from friends and relatives free of charge, was introduced at a time when a combination of the austere conditions and the operational situation meant that service personnel did not have access to the toiletries and consumables normally available through the Expeditionary Forces Institute (the deployable arm of NAAFI). By April 2004 the rollout of Expeditionary Forces Institute facilities will be complete allowing service personnel full access to toiletries and small consumables. In addition the Operational Welfare Package is now fully deployed; this includes: a free 20 minute phone call to anywhere in the world once a week, free access to the internet, a period of rest and recuperation of two weeks in a six month deployment, a generous allocation of TVs and radios to enable access to the British Forces Broadcasting Service, videos and DVDs, free books and access to leisure facilities that include gymnasia. Personnel still receive free aerogramme letters (blueys) and e-letters (e-blueys). While the concession for free packets has been withdrawn, packets weighing up to 2 kg can still be sent at a concessionary rate of £7.23, equivalent to the Royal Mail first class inland rate. Continued provision of the free postal packet service cannot be justified under these circumstances and when other operations in other parts of the world are not in receipt of this service.

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence what funding was given to fund the original design work for Typhoon to operate off aircraft carriers. [158504]

**Mr. Ingram:** I refer the hon. Member to the answer I gave him on 2 March 2004, *Official Report*, column 795W.

## HEALTH

### Alcohol Abuse

**Sandra Gidley:** To ask the Secretary of State for Health (1) what his Department's policy is on seeking to prevent alcohol-related harm among older people; [157366]

(2) what assessment he has made of the extent of alcohol abuse among older people. [157367]

**Miss Melanie Johnson:** 21 per cent. of men and 12 per cent. of women aged over 65 drink on a daily basis, although the vast majority of do not misuse alcohol.

The Government's Alcohol Harm Reduction Strategy for England due to be published shortly will set the future direction for the development of alcohol prevention and treatment for all groups in the population, including older people.

The Government also recently launched "Choosing Health?", a consultation on improving people's health. The consultation will seek views on the role that Government, the national health service, the media, other organisations and people themselves can play in making the nation healthier. The consultation will offer the opportunity to have a wide ranging national debate about improving the health of all, including older people.

### Bed Rails

**Sandra Gidley:** To ask the Secretary of State for Health how the Medicines and Healthcare Products Regulatory Agency will ensure that bed rails with more than 120mm between the rails will no longer be used in the NHS and in care homes; and if he will make a statement. [158056]

**Miss Melanie Johnson:** The Medicines and Healthcare products Regulatory Agency (MHRA)'s role is to provide guidance to the National Health Service and care providers regarding safety and best practice of medical devices and healthcare products. NHS trusts and care homes have a responsibility to act upon MHRA advice and ensure that with reference to the MHRA Medical Device Alert MDA 2004/007, they do not have beds with twin bar rails as described either in use or in storage. Within the social and independent care sectors, the National Care Standards Commission (NCSC) is currently responsible to ensure that operators act upon MHRA's advice, where relevant, during their routine inspections of these establishments. This role will be taken over by the Commission for Social Care Inspection in April 2004.

### Body Mass Index

**Mr. Burstow:** To ask the Secretary of State for Health if he list the average body mass index in *(a)* England, *(b)* each region and *(c)* each strategic health authority in 2002. [156285]

**Miss Melanie Johnson:** Figures for average body mass index for adults and children in England and by region for 2002 are available from the Health Survey for England and are shown in the table. Figures by strategic health authority are not available.

*Mean body mass index (BMI) by Government Office Region and Sex*

*All with a valid height and weight measurement 2002* *Percentage*

| | *Government Office Regions* | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| *BMI (kg/m2)* | *North East* | *North West* | *Yorks and The Humber* | *West Midlands* | *East Midlands* | *East of England* | *London* | *South East* | *South West* | *England* |
| Men aged 16+ | 27.7 | 26.9 | 27.3 | 27.4 | 27.3 | 27.2 | 25.9 | 26.8 | 26.6 | 26.9 |
| Women aged 16+ | 26.8 | 26.8 | 26.7 | 27.4 | 27.3 | 27.3 | 26.6 | 26.2 | 26,0 | 26.7 |
| Boys aged 0–15[1] | 18.8 | 18.0 | 17.6 | 18.3 | 18.2 | 17.9 | 18.2 | 18.0 | 18.0 | 18.1 |
| Girls aged 0–15[1] | 19.0 | 18.8 | 18.3 | 18.6 | 18.6 | 18.1 | 18.7 | 18.3 | 18.0 | 18.5 |

*Mean body mass index (BMI) by Government Office Region and Sex*

*All with a valid height and weight measurement 2002* *Percentage*

| | Government Office Regions | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| *BMI (kg/m2)* | *North East* | *North West* | *Yorks and The Humber* | *West Midlands* | *East Midlands* | *East of England* | *London* | *South East* | *South West* | *England* |
| *Bases* | | | | | | | | | | |
| Men | 170 | 462 | 331 | 263 | 291 | 343 | 337 | 466 | 306 | 2,969 |
| Women | 222 | 505 | 387 | 355 | 344 | 330 | 411 | 564 | 337 | 3,509 |
| Boys | 225 | 568 | 437 | 353 | 372 | 415 | 475 | 638 | 355 | 3,868 |
| Girls | 223 | 536 | 390 | 398 | 316 | 428 | 487 | 619 | 378 | 3,776 |

[1] Age rounded to the nearest integer.

Health Survey for England, Department of Health.

## Breast Feeding

**Sandra Osborne:** To ask the Secretary of State for Health what measures are being taken to promote guidance on, and the benefits of breast feeding to new mothers in the hospital setting. [157998]

**Miss Melanie Johnson:** The NHS Priorities and Planning Framework target to increase breastfeeding initiation rates by two percentage points a year between 2003 and 2006, focussing on disadvantaged groups, supported by the Commission for Health Improvement's Infant Health Indicator, will encourage primary care trusts and their maternity services to promote breastfeeding in the hospital setting.

The Department provides advice and guidance on breastfeeding and related issues to mothers and health professionals through a variety of publications. In addition, the Department will be providing advice and guidance, drawing from existing best practice, to health professionals as part of this year's National Breastfeeding Awareness Week between 9 and 15 May.

## Cancer Treatment

**Mrs. Calton:** To ask the Secretary of State for Health (1) what plans he has to publish information on waiting times for treatment of cancers not covered by NHS Cancer Plan targets before 2005; [157771]

(2) what progress has been made towards meeting the targets for cancer treatment in the NHS Cancer Plan. [157773]

**Miss Melanie Johnson:** The primary purpose of the NHS Cancer Plan is to save more lives. Reducing waiting times is key to achieving this. The ultimate goal in the NHS Cancer Plan is to offer patients a maximum one month wait from an urgent referral for suspected cancer to the beginning of treatment. Where patients wait longer, this should be because of the needs of the diagnostic process or their personal choice, not because of in-built delays in the system of care. We hope to achieve this goal by 2008.

Current waiting times targets are milestones towards this. Data on achievement of current targets from urgent general practitioner referral to treatment for acute leukaemia, children's and testicular cancers and breast cancer and from diagnosis to treatment for breast cancer, are published quarterly on the Department's website for strategic health authorities and trusts, at: http://www.performance.doh.gov.uk/cancerwaits. Data on achievement of future cancer plan waiting times targets of one month from diagnosis to treatment and two months from urgent general practitioner referral to treatment for all cancers will be published once these targets have been implemented in 2005.

**Mrs. Calton:** To ask the Secretary of State for Health what assessment his Department has made of the incidence of melanoma by *(a)* age group and *(b)* strategic health authority. [157800]

**Ruth Kelly:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from John Pullinger to Mrs. Calton, dated 5 March 2004:*

The latest year for which figures are available is 2000. The numbers and rates of newly diagnosed cases of melanoma of the skin by age group are published in 'Cancer statistics: registrations, England 2000. Series MB1 no.31. London: The Stationery Office, 2003' on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=8843&Pos=4&ColRank=1&Rank=240 This publication shows that 17 per cent. of melanoma cases occurred in young adults (15–39 years) compared with 4 per cent. of all cancers.

Directly age standardised registration rates of newly diagnosed cases of-malignant melanoma of the skin[2] in England by strategic health authority for 2000 are given in the table.

*Directly age standardised[1] rates per 100,000 population of newly diagnosed cases of malignant melanoma of the skin[2] in England, by strategic health authority, 2000*

| *Strategic health authority* | *Males* | *Females* |
|---|---|---|
| England | 9.7 | 11.2 |
| Norfolk, Suffolk and Cambridgeshire | 10.8 | 11.4 |
| Bedfordshire and Hertfordshire | 9.3 | 10.0 |
| Essex | 9.6 | 13.5 |
| North West London | 6.6 | 5.5 |
| North Central London | 15.1 | 15.1 |
| North East London | 7.2 | 4.4 |
| South East London | 8.3 | 8.8 |
| South West London | 10.0 | 12.7 |
| Northumberland, Tyne and Wear | 6.4 | 8.9 |
| County Durham and Tees Valley | 9.3 | 10.9 |

Office for National Statistics

## Capital Projects

**Mr. Luff:** To ask the Secretary of State for Health (1) for what reasons he imposed a retrospective cut-off date for approvals for local capital projects proposed by primary care trusts; [157962]

(2) how many primary care trusts have informed his Department of the possible cancellation of local capital projects as a result of *(a)* the decision to change the method of funding allocations and *(b)* the imposition of a retrospective cut-off date. [157964]

**Mr. Hutton:** Significant new revenue funding will be made available to support public and private capital investment in the primary care estate, based on local prioritisation of development proposals. Baseline allocations for 2004–05 have been notified to all primary care trusts, and these take account of new developments contractually agreed by 30 September 2003. This date was set to allow sufficient time for robust baselines to be established and notified to PCTs. An additional element of growth funding to support prioritised developments contractually agreed after that date will be allocated to lead-PCTs.

We are not aware that any schemes have been cancelled at this time.

## Chiropody Statistics

**Mr. Burstow:** To ask the Secretary of State for Health if he will set out for *(a)* England and *(b)* each strategic health authority the KT23 statistics for each year since 1996. [144757]

**Dr. Ladyman:** The available information is published in NHS Chiropody Services, Summary Information for 2002–03, England and is available in the Library and at http://www.doh.gov.uk/public/kt230203. The tables show England figures for 1996–97 to 2002–03 and strategic health authority (SHA) figures for 2002–03; SHAs came into existence in April 2002 and comparable data for earlier years are not readily available due to service reconfigurations.

*Chiropody contacts, England, 1996–97 to 2002–03*

*England* *Thousand*

| | Initial contacts (new episodes of care) | First contacts (different persons receiving care) | Total face-to-face contacts[1] |
|---|---|---|---|
| 1996–97 | 966 | 2,447 | 8,352 |
| 1997–98 | 927 | 2,419 | 8,305 |
| 1998–99 | 878 | 2,362 | 8,054 |
| 1999–2000 | 853 | 2,317 | 7,895 |
| 2000–01 | 837 | 2,264 | |
| 2001–02 | 837 | 2,216 | |
| 2002–03 | 826 | 2,161 | |

[1] The collection of data about total face-to-face contacts was discontinued from 1 April 2000

Form KT23

## Cholesterol

**Mr. Paul Burstow:** To ask the Secretary of State for Health if he will estimate the prevalence of raised blood cholesterol in *(a)* men and *(b)* women in each region; and if he will make a statement. [154583]

**Miss Melanie Johnson:** Figures available from the Health Survey for England 1998 are shown in the table. In this survey, cholesterol was considered to be raised at a level of 6.5 mmol/l or over.

*Prevalence of raised cholesterol by Government Office Region and sex—Adults 16+ with a valid sample*

*Raised cholesterol (percentage >=6.5 mmol/l)* *1998*

| Government Office Regions | Men (percentage) | Women (percentage) | Men (bases) | Women (bases) |
|---|---|---|---|---|
| North East | 27.1 | 28.5 | 288 | 337 |
| North West | 16.9 | 20.7 | 669 | 720 |
| Yorkshire and the Humber | 17.9 | 22.5 | 531 | 591 |

*Prevalence of raised cholesterol by Government Office Region and sex—Adults 16+ with a valid sample*

*Raised cholesterol (percentage >=6.5 mmol/l) 1998*

| Government Office Regions | Men (percentage) | Women (percentage) | Men (bases) | Women (bases) |
|---|---|---|---|---|
| West Midlands | 20.3 | 23.8 | 492 | 589 |
| East Midlands | 14.8 | 21.7 | 453 | 483 |
| East England | 16.2 | 21.8 | 537 | 577 |
| London | 16.7 | 17.4 | 527 | 614 |
| South East | 19.6 | 24.2 | 810 | 945 |
| South West | 16.5 | 22.4 | 539 | 572 |

*Source:*
Health Survey for England , Department of Health

The quality indicators for the new general medical services contract include cholesterol management for patients with coronary heart disease. This will reinforce general practitioners' current work to deliver the quality standards set out in the national service framework for coronary heart disease, which are driving the present trend in increasing statin prescriptions.

### Continuing Care Criteria

**Mr. Burstow:** To ask the Secretary of State for Health what plans he has to evaluate the continuing care criteria sent to his Department by strategic health authorities. [158639]

**Dr. Ladyman:** There are no plans to hold a centrally conducted evaluation of the fully funded National Health Service continuing care eligibility criteria of each strategic health authority (SHA). It is the responsibility of each SHA to be satisfied that its criteria meet the legal requirements.

### Detoxification Beds

**Mrs. Gillan:** To ask the Secretary of State for Health how many detoxification beds for treatment as an inpatient are available in England and Wales. [150760]

**Miss Melanie Johnson:** The Department does not have data on the number of detoxification beds that are available for treatment as an in-patient in England.

However, it is estimated that there are 157 in-patient services in England with detoxification beds.

The number in Wales is a matter for the National Assembly for Wales.

### Fall-Related Injuries

**Mr. Burstow:** To ask the Secretary of State for Health how many *(a)* attendances at accident and emergency and *(b)* admissions to hospital for fall-related injuries in people aged 60 years and over there have been in each year since 1997. [156645]

**Dr. Ladyman:** Centrally-held data on attendances at accident and emergency departments do not contain sufficient details to identify those who attended because of a fall. The number of people aged 60 and over who were admitted to national health service hospitals in England as a result of a fall is recorded in the Hospital Episode Statistics count of Finished Admission Episodes. The figures are shown in the table.

| | *Finished Admission Episodes (falls over 60)* |
|---|---|
| 1997–98 | 127,665 |
| 1998–99 | 127,817 |
| 1999–2000 | 118,567 |
| 2001–02 | 115,373 |
| 2002–03 | 120,356 |

*Note:*
A finished admission episode is the period of impatient care under one consultant within one healthcare provider. Total episodes are only an approximation of the total number of in-patients, as a patient may have more than one admission in a year. Figures are adjusted to compensate for both coverage and missing or invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted in this way.

### Fossetts Farm Treatment Centre

**Mr. Amess:** To ask the Secretary of State for Health whether planning permission has been granted for the proposed treatment centre at Fossetts Farm, Southend-on-Sea. [157528]

**Mr. Hutton:** A planning application was logged with the landowners of the proposed site for the treatment centre at Fossetts Farm on 12 December 2003. This application will be reviewed by the local authority's planning committee.

### General Practitioners

**Mr. George Osborne:** To ask the Secretary of State for Health how many patient visits to general practitioners he estimates there were in the last 12 months for which figures are available. [158213]

**Mr. Hutton:** The most recent data show that there were an estimated 217 million consultations with general practitioners in England between April 2000 and March 2001, the most recent year for which figures are available.

### HIV/AIDS

**Mr. Nigel Jones:** To ask the Secretary of State for Health what assessment he has made of the effectiveness of drugs used for treating patients who are HIV positive; and if he will make a statement. [157483]

**Miss Melanie Johnson:** Combination anti-retroviral drug therapies have proved very effective for the majority of people with HIV, in reducing the severity of symptoms and prolonging quality of life.

The British HIV Association (BHIVA), the members of which include the majority of leading HIV/AIDS clinicians, has developed a detailed set of guidelines for the use and monitoring of combination anti-retroviral drugs, and the regimens recommended by BHIVA are widely, accepted by the national health service. The guidelines, and their use by the NHS, are audited annually.

**Mr. Nigel Jones:** To ask the Secretary of State for Health what the cost was of *(a)* testing for HIV/AIDS and *(b)* treating HIV/AIDS patients in each of the last 10 years for which figures are available. [157484]

**Miss Melanie Johnson:** Information on the cost to the National Health Service of HIV and AIDS testing and treatment is not held centrally.

The sums allocated by the Department to the NHS for HIV and AIDS prevention, treatment and care in England since 1 993–94 are shown in the table. From April 2002, the special allocations for HIV prevention, treatment and care were added to NHS baseline funding according to the target distribution of HIV across England, and are no longer separately identified.

*£ million*

| *Year* | *NHS allocation* |
|---|---|
| 1 993–94 | 214.4 |
| 1 994–95 | 214.0 |
| 1995–96 | 244.7 |
| 1996–97 | 237.7 |
| 1997–98 | 251.9 |
| 1 998–99 | 281.4 |
| 1999–2000 | 286.4 |
| 2000–01 | 289.4 |
| 2001–02 | 331.0 |

### Hospices

**Mr. Hoyle:** To ask the Secretary of State for Health what estimate he has made of the savings to the NHS from *(a)* adults and *(b)* children using hospice services instead of hospital services. [157910]

**Miss Melanie Johnson:** No such estimates have been made.

### Hospital Waiting Lists

**Mr. Burstow:** To ask the Secretary of State for Health which hospitals have closed lists for treatment. [155154]

**Mr. Hutton:** The Department does not collect this information from national health service trusts.

Primary care trusts (PCTs) are responsible for commissioning sufficient activity from NHS trusts and other providers to meet the needs of their local population. The levels of activity required from NHS trusts should be specified in service agreements (SAs) and will represent a ceiling to the trusts' contractual obligations.

Where there are no SAs in place or the activity level specified in a SA have already been met by the trust, the PCT are responsible for commissioning additional activity to meet the needs of their patients.

HSC 2002/007 (Securing Service Delivery: Commissioning Freedoms of Primary Care Trusts) and HSC 1998/198 (Commissioning in the new NHS), copies of which are in the Library, provide further information.

### Hospital-acquired Infection

**Mr. Burstow:** To ask the Secretary of State for Health what recent assessment he has made of the incidence of hospital-acquired infection among women using maternity services; and if he will make a statement. [156284]

**Miss Melanie Johnson:** National information on the incidence of hospital-acquired infections amongst women using maternity services is not available. Options for collecting surveillance data are being kept under review and implementation of the Chief Medical Officer's report, "Winning Ways Working together to reduce Healthcare Associated Infection in England", will help reduce infection rates.

### Mental Health

**Mr. Hoyle:** To ask the Secretary of State for Health how many people suffer dementia in *(a)* Lancashire and *(b)* Chorley; and how many are (i) under and (ii) over 65 years of age. [157090]

**Miss Melanie Johnson:** There is no routine collection of information at national or local level about the number of people living with dementia. The research quoted by the older people's national service framework in 2001 estimated that approximately 600,000 people in the United Kingdom have dementia of whom there are about 17,000 people under the age of 65.

### Mumps Vaccine

**Mr. Jenkin:** To ask the Secretary of State for Health what restrictions are in place on the import of mumps vaccine; and what volumes of vaccine have been imported in each month since January 2003. [155128]

**Miss Melanie Johnson:** Single mumps vaccines are unlicensed imported medicines. The importers of which are required to be licensed by the Medicines and Healthcare products Regulatory Agency (MHRA). Every importer must notify the MHRA on each occasion they intend importing an unlicensed medicine and there is a legal restriction on the maximum quantity they may import per notification (a maximum of 25 single administrations). This applies to all imported unlicensed medicines. Each notification is an intention to import and does not necessarily reflect the number of doses actually imported or used. The information on the actual number of doses imported is not held by the MHRA.

### National School Fruit Scheme

**Mr. Kaufman:** To ask the Secretary of State for Health which schools in the Manchester, Gorton constituency will benefit from the free fruit scheme. [156310]

**Miss Melanie Johnson:** The following 24 schools in Gorton are receiving fruit under the National School Fruit Scheme:

Abbey Hey Infant School
Acacias Primary School
All Saints Primary School
Alma Park Primary School
Aspinal Primary School
Birchfields Primary School
Chapel Street Primary School
Crowcroft Park Primary School
Gorton Brook School
Gorton Mount Primary School
Old Hall Drive Primary School
Richmond Park School
Sacred Heart Roman Catholic Infant School Manchester
St Andrew's CofE Primary School
St Francis RC Primary School
St James' CofE Primary School

St John's CofE Primary School
St Joseph's RC Primary School Manchester
St Kentigern's Catholic Primary School
St Luke's CofE Primary School
St Mary's RC Primary School Manchester
St Richard's RC Primary School
Stanley Grove Community Primary School
Wilbraham Primary School

**Mrs. Brooke:** To ask the Secretary of State for Health (1) what the timetable is for extending the National School Fruit Scheme to all regions in England; [157603]

(2) when he will extend the National School Fruit Scheme to the South West Region. [157604]

**Miss Melanie Johnson** *[holding answer 1 March 2004]*: The National School Fruit Scheme will entitle children aged four to six in local education authority maintained infant, primary and special schools to a free piece of fruit every school day. The scheme is already in operation in the West and East Midlands, London and the North West. Most eligible schools in the North East will join the scheme in March 2004 and the remainder in April. Schools in the remaining four regions will join the scheme during the autumn term 2004.

## New Hospitals

**Mr. Jon Owen Jones:** To ask the Secretary of State for Health what the *(a)* value and *(b)* number of all new hospitals built in each of the regions of England is in the last five years for which records are available. [156962]

**Mr. Hutton:** The following table lists the new hospital schemes (all private finance initiative and public capital funded schemes over £10 million) which have opened within the last five years (since March 1999) and the strategic health authority (SHA) within which they are sited. 28 SHAs replaced the eight national health service executive regional offices in 2002).

| *Strategic health authority* | *Scheme (NHS hospital/Trust)* | *Value (£ million)* |
|---|---|---|
| Avon, Gloucestershire and Wiltshire | Royal United Hospital Bath redevelopment | 35 |
| Avon, Gloucestershire and Wiltshire | United Bristol Hospital for Sick Children | 19 |
| Avon, Gloucestershire and Wiltshire | Swindon and Marlborough NHS Trust | 100 |
| Bedfordshire and Hertfordshire | Luton and Dunstable Hospital NHS Trust | 15 |
| Bedfordshire and Hertfordshire | Royston, Buntingford and Bishop Stortford PCT | 15 |
| Birmingham and the Black Country | Birmingham and Solihull Mental Health | 18 |
| Birmingham and the Black Country | Royal Wolverhampton Hospitals NHS Trust | 13 |
| County Durham and Tees Valley | County Durham and Darlington Acute Hospitals NHS Trust—North Durham | 61 |
| County Durham and Tees Valley | County Durham and Darlington Acute Hospitals NHS Trust—Bishop Auckland | 48 |
| County Durham and Tees Valley | South Tees Acute Hospitals NHS Trust | 122 |
| County Durham and Tees Valley | County Durham and Darlington Acute Hospitals—Chester-le-Street | 10 |
| Coventry, Warwickshire, Herefordshire and Worcestershire | Hereford Hospitals NHS Trust | 64 |
| Coventry, Warwickshire, Herefordshire and Worcestershire | Worcestershire Acute Hospitals NHS Trust | 87 |
| Cumbria and Lancashire | Blackpool Victoria Hospital—Phase 5 | 27 |
| Cumbria and Lancashire | North Cumbria Acute Hospitals (Cumberland Infirmary) | 67 |
| Essex | Basildon and Thurrock | 21 |
| Greater Manchester | South Manchester University Hospitals NHS Trust | 67 |
| Greater Manchester | Rochdale Healthcare NHS Trust | 24 |
| Greater Manchester | Fairfield General—Bury | 20 |
| Hampshire and Isle of Wight | Southampton General Hospital—Cancer Care Unit | 17 |
| Kent and Medway | Dartford and Gravesham NHS Trust | 94 |
| Kent and Medway | Swale PCT | 14 |
| Kent and Medway | Medway DGH Development | 51 |
| Norfolk, Suffolk and Cambridgeshire | Norfolk and Norwich NHS Trust | 158 |
| North and East Yorkshire and Northern Lincolnshire | Hull and East Yorkshire Hospitals NHS Trust | 22 |
| North and East Yorkshire and Northern Lincolnshire | Harrogate Healthcare NHS Trust | 27 |
| North Central London | Camden and Islington Mental Health and Social Care Trust (MH unit) | 21 |
| North Central London | Barnet and Chase Farm Hospitals NHS Trust | 54 |
| North East London | North East London Mental Health NHS Trust | 11 |
| North East London | East London and The City Mental Health NHS Trust (Newham) | 15 |
| North East London | Homerton Hospital Acute Services | 16 |
| North West London | West London Mental Health NHS Trust | 12 |
| North West London | Bromley Healthcare NHS Trust | 118 |
| North West London | West Middlesex University Hospitals NHS Trust | 60 |
| Northumberland, Tyne and Wear | Northumbria Healthcare NHS Trust (Wansbeck) | 18 |
| Northumberland, Tyne and Wear | Northumbria Healthcare NHS Trust (Hexham) | 29 |
| Northumberland, Tyne and Wear | City Hospitals Sunderland | 15 |
| Shropshire and Staffordshire | North Staffordshire Combined Healthcare NHS Trust | 28 |
| South East London | Queen Elizabeth Hospital NHS Trust (Greenwich) | 96 |
| South East London | King's Healthcare NHS Trust | 76 |
| South East London | Queen Mary's Hospital Sidcup | 15 |
| South East London | Oxleas | 11 |
| South West London | St. George's Healthcare NHS Trust | 46 |
| South West Peninsula | Cornwall Partnership NHS Trust (Bodmin) | 10 |
| South Yorkshire | Central Sheffield University Hospitals Stonegrove) | 24 |

| Strategic health authority | Scheme (NHS hospital/Trust) | Value (£ million) |
|---|---|---|
| South Yorkshire | Central Sheffield University Hospitals (Cardiothoracic Unit) | 15 |
| Surrey and Sussex | West Sussex Health and Social Care | 22 |
| Surrey and Sussex | Guildford and Waverley PCT (Farnham) | 29 |
| Surrey and Sussex | Royal Sussex County Hospital | 40 |
| Thames Valley | Buckinghamshire Hospitals NHS Trust | 45 |
| Thames Valley | Berkshire Healthcare NHS Trust | 30 |
| Thames Valley | Royal Berkshire and Battle Hospital NHS Trust | 84 |
| Trent | Queens Medical Centre—Nottingham University Hospital NHS Trust | 17 |
| West Yorkshire | Calderdale and Huddersfield NHS Trust | 65 |
| West Yorkshire | Leeds Community and Mental Health Services Teaching NHS Trust | 47 |

## NHS Dentists

**Geraldine Smith:** To ask the Secretary of State for Health what progress has been made with recruitment of NHS dentists in Morecambe and Lunesdale. [156853]

**Miss Melanie Johnson:** From April 2005, primary care trusts will have a duty to secure the provision of primary dental services. With these new responsibilities will go the £1.3 billion financial resources currently held centrally. PCTs will in future be able to use these resources to meet local oral health needs.

Cumbria and Lancashire Strategic Health Authority reports that Morecambe Bay PCT is currently recruiting dentists to work in the dental access centres and other national health service premises in Morecambe Bay.

**Mr. Evans:** To ask the Secretary of State for Health how many NHS dentists there were in each year since 1997 in *(a)* Lancashire and *(b)* Ribble Valley and Fulwood. [157093]

**Miss Melanie Johnson:** The information in the table shows the number of National Health Service dentists on a head count basis for the four former health authorities in Lancashire and for East Lancashire Health Authority, which covers Ribble Valley and Fulwood. The figures are at September each year from 1997 to 2001 and for Cumbria and Lancashire Strategic Health Authority for September 2002.

Information for September 2003 is not yet available.

*National Health Service—Number of dentists[1] September each year*

| Health Authority | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 |
|---|---|---|---|---|---|---|
| Lancashire[2] | 617 | 649 | 649 | 639 | 671 | - |
| Ribble Valley and Fulwood[3] | 190 | 201 | 195 | 200 | 210 | - |

*Notes:*

[1] NHS dentists include dentists working in the General Dental Service (GDS), Hospital Dental Service (HDS), Community Dental Service (CDS), Personal Dental Service (PDS) and Salaried Dentists in the GDS. Dentist working in more than one dental service are included in each service apart from dentists working in both PDS and GDS who are counted in the GDS only.

[2] The four former health authorities in Lancashire: Morecambe Bay, North West Lancashire, East Lancashire and South Lancashire.

[3] ast Lancashire Health Authority.

## NHS Property

**Mr. Oaten:** To ask the Secretary of State for Health what tenders are being considered for the disposal of NHS property. [151124]

**Mr. Hutton:** Commercially confidential discussions are still taking place and an announcement will be made shortly.

## Paediatric and Adolescent Obesity

**Mr. Burstow:** To ask the Secretary of State for Health how many finished consultant episodes there were for *(a)* paediatric and *(b)* adolescent obesity treatment in (i) England and (ii) each strategic health authority in each year since 1996. [156282]

**Miss Melanie Johnson:** The numbers of finished consultant episodes by age group in national healthservice hospitals in England, where the primary diagnosis is obesity, are shown in the table.

| | Paediatrics (1–12 years) | Adolescents (13–19 years) | Other (neonates, 20+ years) | Grand total |
|---|---|---|---|---|
| 1996–97 | 105 | 49 | 692 | 846 |
| 1997–98 | 118 | 55 | 654 | 827 |
| 1998–99 | 159 | 66 | 863 | 1,088 |
| 1999–2000 | 153 | 80 | 866 | 1,099 |
| 2000–01 | 173 | 77 | 962 | 1,212 |
| 2001–02 | 181 | 89 | 878 | 1,148 |
| 2002–03 | 239 | 202 | 1,001 | 1,442 |

*Source:*

Hospital Episode Statistics (HES), Department of Health.

## Physical Fitness

**Dr. Murrison:** To ask the Secretary of State for Health what measures have been taken to promote *(a)* physical fitness and *(b)* healthy eating among the elderly. [153814]

**Miss Melanie Johnson:** Older people are at increased risk of a range of lifestyle-related diseases and conditions. Increased levels of physical activity and healthy eating are particularly valuable in maintaining independent living.

Accordingly, the national service framework for older people requires joint action between the National Health Service and councils to ensure that older people have fair access to advice about lifestyle including nutrition and physical activity.

The Department, in partnership with the Countryside Agency and Sport England, is launching 10 local exercise action pilots, that will test the effectiveness of different community approaches to increasing levels of physical activity. Five pilots have a community-wide approach and the remainder target specific populations, including younger and older people.

The Department is leading the development of a comprehensive food and health action plan, working across Government and with the food industry to establish a coherent and effective programme of activities on nutrition in order to achieve a healthier diet for people in England. The plan will address healthy eating at all stages of life, including older people. Meanwhile, the Food Standards Agency promotes healthy eating for older people with its Eating in Later Life leaflet and relevant content on its website.

### Primary Care Trusts

**Mr. Neil Turner:** To ask the Secretary of State for Health what the ratio is of general practitioners per 1,000 population in each English primary care trust. [154140]

**Mr. Hutton:** The latest figures available for unrestricted principals and equivalents per 1,000 population in England on a primary care trust (PCT) level is for September 2002. This information has been placed in the Library.

### Pulmonary Disease

**Mr. Burns:** To ask the Secretary of State for Health (1) what assessment he has made of the National Institute for Clinical Excellence guidelines on the management of chronic obstructive pulmonary disease in primary and secondary care; and if he will make a statement; [155109]

(2) what steps he will take following the recommendations by the National Institute for Clinical Excellence to ensure that all patients with chronic obstructive pulmonary disease have access to a multidisciplinary healthcare team; [155110]

(3) whether, following the recommendations by the National Institute for Clinical Excellence, he will make it a priority for all hospitals and general practitioner surgeries to have access to non-invasive ventilation for the treatment of people with severe chronic obstructive pulmonary disease; [155111]

(4) whether, following the recommendations by the National Institute for Clinical Excellence, he will make it a priority for all hospitals and general practitioner surgeries to have access to *(a)* a spirometer and *(b)* adequate training in the use of spirometry; [155112]

(5) if, following the recommendations by the National Institute for Clinical Excellence, he will provide funding for pulmonary rehabilitation courses to run in every hospital for all patients who consider themselves functionally disabled by chronic obstructive pulmonary disease. [155113]

**Dr. Ladyman** *[holding answers 1 March 2004]*: The National Institute for Clinical Excellence's guidance on chronic obstructive pulmonary disease (COPD) in primary and secondary care has not yet been published. It would be inappropriate to make a statement until the publication of the NICE'S formal guidance on COPD.

Primary care trusts, in partnership with local stakeholders, have the responsibility for deciding what services to provide for their populations, including those with respiratory disease. They are best placed to understand local health needs and commission services to meet them.

### Sexual Health and HIV

**Jim Dobbin:** To ask the Secretary of State for Health what criteria were used in appointing members of the Independent Advisory Group on sexual health and HIV. [156477]

**Miss Melanie Johnson:** The chair and members of the Independent Advisory Group on Sexual Health and HIV were appointed following an open competition and interview process in accordance with the Guidance on Appointments to Public Bodies, issued by the Office of the Commissioner for Public Appointments. The committee has specific posts to ensure a wide range of expertise is represented across sexual health. The qualities, experience and skills criteria were made available for the specific and generic requirements for these posts. All applicants were assessed against these criteria. Members have been appointed for a period of four years and are required to subscribe to the code of best practice for board members of public bodies.

**Jim Dobbin:** To ask the Secretary of State for Health if he will make a statement on the recommendation of the Independent Advisory Group on sexual health and HIV that the right of parents to opt their child out of sex and relationship education and personal, social and health education on any grounds including those of faith or religion should be explicitly ended. [156478]

**Miss Melanie Johnson:** Formal sex and relationship education is taught through compulsory science lessons and during personal/social and health education (PSHE). Parents and carers have the right to withdraw their child from some, or all, PSHE lessons, but not statutory science lessons. If a parent decides to exercise this right, then the school should provide information about the lessons being missed and ideas for other sources of support for them to fulfil the task of educating their child. We have no plans to remove this right.

### Smoking Clinics

**Mr. Tony Clarke:** To ask the Secretary of State for Health how many smoking clinics are run by the NHS in England, broken down by health authority; and how many have been guaranteed funding for the next three years. [157440]

**Miss Melanie Johnson:** We do not collect this information centrally. All primary care trusts have received funding for the three years 2003–04 to 2005–06 to commission stop smoking services to meet the needs of their populations. The services may be in the form of a clinic or on a one-to-one basis, depending on local circumstances.

### Tuberculosis

**Dr. Murrison:** To ask the Secretary of State for Health what steps he has taken to improve levels of immunity to tuberculosis in London. [153362]

**Miss Melanie Johnson:** A London-wide tuberculosis group has been established to take forward specific areas of work such as refocusing the way in which TB services are organised.

## CULTURE, MEDIA AND SPORT

### Departmental Communications

**Matthew Taylor:** To ask the Secretary of State for Culture, Media and Sport how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158161]

**Mr. Caborn:** 18 members of DCMS staff work in the communications field, of which 14 are Government Information and Communication Service staff. Of these 18 members of staff, 10 are press officers; none are special advisers; and eight others work on publicity, internal communications and administration.

### Digital Television

**Bob Spink:** To ask the Secretary of State for Culture, Media and Sport when Freeview digital television services will be available throughout the *(a)* Benfleet, *(b)* Hadleigh and *(c)* Canvey Island areas. [158125]

**Estelle Morris:** Ofcom inform us that most postcodes in Benfleet, Hadleigh and Canvey Island can currently receive Freeview digital television services from the Bluebell Hill transmitter. However many households in these areas will not be tuned into this transmitter as it is located in a different ITV region.

Other transmitters in the area do not emit sufficient power to offer a full range of services and in order to protect existing analogue services against interference, the signal strength cannot be increased until digital switchover.

The Government are committed to ensuring that all households who can currently receive analogue signals will be able to receive digital television when switchover takes place.

Viewers in Essex wishing to view all of the Freeview digital services are advised to check their postcode on the Digital Television Group's website: www.dtg.org.uk http://www.dtg.org.uk and if necessary, contact a reputable aerial installer about carrying out an aerial check. We suggest they contact the Confederation of Aerial Industries Ltd. (CAI) at Fulton House Business Centre, Fulton Road, Wembley Park, Middlesex HA9 0TF, telephone: 020 8902 8998.

### Environmentally Sustainable Procurement

**Mr. Sheerman:** To ask the Secretary of State for Culture, Media and Sport in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159099]

**Estelle Morris:** Copies of the Department's recently published sustainable development strategy are available in the Libraries of both Houses. Objective 2 of the strategy (sustainable estate management) highlights the fact that DCMS is the first Government Department to commission and purchase significant quantities of wood furniture from fully certified and accredited sources. We intend to encourage suppliers and contractors to develop environmentally preferable goods and services at competitive prices. Furthermore, the Department has supported innovation in this area via the National Endowment for Science Technology and the Arts, (NESTA), a Non Departmental Public Body. Last year NESTA made an award of £90,500 to a firm in Surrey which has developed a technology which produces a high quality paper pulp from straw. The technique uses only half the energy and fewer chemicals than traditional systems, with no harmful environmental effects.

### Local Government Finance (Dorset)

**Jim Knight:** To ask the Secretary of State for Culture, Media and Sport what grants were awarded to local authorities in Dorset by her Department in financial year 2003–04 that fall outside the revenue support grant. [156211]

**Mr. Caborn:** I refer my hon. Friend to the answer given to him by my right hon. Friend the Minister for Local and Regional Government on 1 March 2004, *Official Report*, column 750W.

### National Lottery

**Lady Hermon:** To ask the Secretary of State for Culture, Media and Sport what percentage of the National Lottery budget assigned for good causes was awarded to organisations in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in each year since its introduction. [158874]

**Estelle Morris:** The table shows what percentage of funding each area received. This is derived from the Department's database of lottery awards, which is based on information supplied by the distributing bodies.

*Percentage*

| *Area* | *1994* | *1995* | *1996* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|---|---|---|
| England | 54.84 | 73.27 | 57.39 | 76 | 77.45 | 75.89 | 72.35 | 71.78 | 65.88 | 60.08 |
| Scotland | 38.23 | 9.69 | 9.33 | 10.05 | 8.76 | 7.62 | 7.29 | 9.67 | 9.73 | 11.95 |
| Wales | 6.93 | 8.9 | 2.54 | 5.83 | 5.31 | 5.18 | 4.58 | 4.19 | 5.34 | 5.25 |

*Note:*
Due to the numbers being rounded up or down, the figures do not all total 100 per cent.

There are geographical areas that can benefit from a Lottery grant other than the four home countries. This can be because grants have varying catchment areas, or because the grant is a sum of money to be split up and spread out among different areas. For this reason, the figures also included the percentage of funding that has gone to projects that benefit England and Wales, Great Britain, the UK and overseas awards.

**Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport how much funding *(a)* each London borough and *(b)* Greater London has received from National Lottery grants in each of the last five years. [158434]

**Estelle Morris:** Total Lottery funding in each London borough in each of the last five financial years is shown in this table. This is derived from the Department's database of Lottery awards, which is based on information supplied by the distributing bodies.

## National Television Licensing Authority

**Mr. Kaufman:** To ask the Secretary of State for Culture, Media and Sport if she will instruct the National Television Licensing Authority to *(a)* assess the compatibility with data protection legislation of its statement in the current advertising campaign that its database lists every home without a television licence and *(b)* report that assessment to her. [157457]

**Tessa Jowell:** The BBC is the statutory Licensing Authority and the Government have no power to instruct the Corporation on matters relating to the administration of the television licensing system. However, the BBC has confirmed that, as data controller for the TV licensing database, it requires its agent, TV Licensing, to comply fully with data protection legislation and to undertake regular reviews to ensure continued compliance. The BBC does not believe that the information held by TV Licensing on unlicensed addresses contravenes data protection legislation.

**Mr. Kaufman:** To ask the Secretary of State for Culture, Media and Sport if she will instruct the National Television Licensing Authority *(a)* not to undertake any advertising campaign that could be

construed as containing threats or menaces and *(b)* to abandon forthwith the poster campaign using the statement Get One, or Get Done. [157458]

**Tessa Jowell:** The BBC is the statutory Licensing Authority and the Government have no power to instruct the Corporation on matters relating to the administration of the television licensing system. However, the BBC has indicated that all television licensing campaigns undergo a series of legal compliance checks before they are approved by the Corporation and are placed in the public domain.

### Recruitment (Civil Servants)

**Matthew Taylor:** To ask the Secretary of State for Culture, Media and Sport what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158194]

**Mr. Caborn:** The cost of recruitment of civil servants to the department for Culture, Media and Sport for the financial years 2002–03 and 2003–04 to date are shown in the table. Equivalent information for earlier years is no longer available.

£

| *Recruitment* | *2002–03* | *2003–04* |
|---|---|---|
| Contracted out | 41,700 | 33,153 |
| In-house | 72,331 | 30,616 |
| Total | 114,031 | 63,769 |

### Rugby Super League

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport when a Minister in her Department last watched a Rugby Super League match as part of his or her official duties; where it was; and between which teams. [158615]

**Mr. Caborn:** I attended the Warrington Wolves versus Wakefield Trinity Wildcats Rugby Super League Game on Saturday 21 February where I officially opened Warrington's superb new Halliwell Jones Stadium and witnessed a thrilling win for the Wolves.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Culture, Media and Sport how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158251]

**Mr. Caborn:** The Department for Culture Media and Sport currently employs 22 temporary staff through an employment agency. This is 4.5 per cent. of the current total staff currently employed by the department.

The cost of temporary workers for the last three financial years is shown as follows:

2001–02: £290,736.

2002–03: £338,366.

2003–04: £387,740 (estimated for full financial year).

## HOME DEPARTMENT

### Information Technology (Misuse)

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many Home Office staff have been *(a)* disciplined and *(b)* dismissed for misusing IT hardware or software in the last two years. [158465]

**Fiona Mactaggart:** The figures, so far as information is available in the form requested, are as follows:

| *Department/Staff* | *2002* | *2003* |
|---|---|---|
| *Home Office* | | |
| Disciplined | 80 | 23 |
| Dismissed | 5 | 5 |
| *Prison Service Agency* | | |
| Disciplined | 2 | 6 |
| Dismissed | 1 | 0 |
| *UK Passport Agency* | | |
| Disciplined | [1]— | 15 |
| Dismissed | 0 | 0 |
| *Forensic Science Service* | | |
| Disciplined | 5 | 1 |
| Dismissed | 0 | 0 |

[1] Indicates that no comprehensive figures available.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for the Home Department what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155531]

**Fiona Mactaggart:** I refer the hon. Member to my previous answer on 11 February 2004, *Official Report*, column 1511W.

The expenditure detailed in my previous answer reflects the costs of advertising vacant or new posts in both the central Home Office and the Immigration and Nationality Directorate. Costs for advertising general recruitment schemes for the Immigration and Nationality Directorate are also included in the total. To provide separate details of the costs of such schemes could be done only at disproportionate cost.

**Mr. Evans:** To ask the Secretary of State for the Home Department how much his Department has spent on recruitment advertising in each year since 1997. [156454]

**Fiona Mactaggart:** I refer the hon. Member to my previous answer on 11 February 2004, *Official Report*, column 1511W. Figures for the years 1997–1999 are not available.

## NORTHERN IRELAND

### Manufacturing Employment

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland how many people were employed in the manufacturing sector in Northern Ireland during the last five years, broken down by parliamentary constituency. [157276]

**Mr. Pearson:** Estimates of the number of employee jobs below Northern Ireland level are available only from the biennial Census of Employment and the most up to date figures relate to September 2001.

Estimates of manufacturing jobs for each parliamentary constituency area from the last three Censuses of Employment can be found in the table.

*Northern Ireland employee jobs in the manufacturing sector by parliamentary constituency area*

| *Parliamentary constituency area* | *September 1997* | *September 1999* | *September 2001* |
|---|---|---|---|
| Belfast East | 9,689 | 9,506 | 9,537 |
| Belfast North | 5,228 | 4,617 | 4,377 |
| Belfast South | 3,279 | 2,767 | 2,819 |
| Belfast West | 2,546 | 2,785 | 2,801 |
| East Antrim | 5,085 | 4,925 | 4,883 |
| East Londonderry | 5,748 | 5,964 | 5,276 |
| Fermanagh and South Tyrone | 7,304 | 7,541 | 7,103 |
| Foyle | 9,015 | 7,987 | 6,640 |
| Lagan Valley | 6,040 | 6,488 | 7,322 |
| Mid-Ulster | 5,682 | 6,052 | 6,418 |
| Newry and Armagh | 4,163 | 4,075 | 3,958 |
| North Antrim | 8,151 | 8,160 | 7,201 |
| North Down | 3,073 | 2,809 | 2,399 |
| South Antrim | 6,706 | 6,591 | 6,505 |
| South Down | 3,496 | 3,551 | 3,268 |
| Strangford | 5,243 | 4,916 | 4,624 |
| Upper Bann | 12,583 | 12,193 | 10,494 |
| West Tyrone | 4,893 | 4,883 | 4,561 |
| Northern Ireland | 107,924 | 105,810 | 100,186 |

*Source:*
NI Census of Employment

## TRADE AND INDUSTRY

### Buildings (Aerodynamically Generated Wind Noise)

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry what standards relating to *(a)* noise and *(b)* other factors regulate aerodynamically generated wind noise from (i) very tall and (ii) massive building structures in built-up areas; and what plans she has to re-examine such standards. [157061]

**Keith Hill:** I have been asked to reply.

The Office of the Deputy Prime Minister has not set any standards relating to noise or other factors to regulate aerodynamically generated wind noise from very tall or massive building structures in built-up areas.

### Business Link

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the reasons are for *(a)* regional and sub-regional differences in the change of annual expenditure of Business Link operators since 2001–02 and *(b)* the fall in annual expenditure in over half of Business Link operators since 2001–02. [155262]

**Nigel Griffiths:** Business Link Operators (BLOs) draw down funding from a number of different sources and contracts. BLO budgets, and therefore expenditure levels, are often determined by the level of funding available at a particular time in their respective regions and sub-regions. This results in naturally occurring year on year variances.

For instance funding from Regional Development Agencies and local Strategic Partnerships fluctuates year on year depending on regional and sub-regional priorities. 2001–02 also saw many BLOs playing key roles in combating the after effects of foot and mouth disease by administering additional national, regional and sub-regional funding aimed at assisting rural businesses and communities.

Additionally, some of the movement in annual expenditure levels can be attributed to the Small Business Service Core Services budget. The allocation formula in 2001–02 and 2002–03 was the same, however the data making up the component parts of the allocation formula is updated, where possible, each year leading to shifts in funding.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what indicators are in place to measure customer *(a)* perception and *(b)* satisfaction with Government services for small businesses. [157230]

**Nigel Griffiths:** The indicators measuring business perception are: awareness of Business Link and understanding the services offered by Business Link. The indicators measuring customer satisfaction are: overall customer satisfaction and perceived business benefit. These form part of the Performance Management Framework established for the Business Link network which includes eight indicators.

Small businesses' perceptions that their concerns are being taken into account by Government will be measured by the responses to the question 'How much do you feel that Government takes into account the concerns of small businesses?' in the Small Business Survey 2003, which is managed by the Small Business Service.

Indicators to measure customer satisfaction with all Government services for small businesses are being developed in conjunction with other Government Departments.

### Business Regulation

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much money she estimates will be saved by UK businesses as a result of the removal or reform of the 147 regulations announced in the pre-Budget report. [153423]

**Nigel Griffiths:** Regulatory Impact Assessments will be produced by the relevant departments identifying benefits and savings from these measures as appropriate. Copies of these will be placed in the Libraries of the House.

### Export Credits Guarantee Department

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry whether the Export Credits Guarantee Department has *(a)* received and *(b)* paid

claims under political risk insurance in connection with the Dabhol-Enron Power Plant in India since 3 June 2003; and if she will make a statement. [156071]

**Mr. Mike O'Brien:** ECGD is examining claims under the Overseas Investment Insurance Policies issued in connection with the Dabhol project and therefore no claim has been paid. Details of the claim made by the banks on ECGD are commercially confidential under Exemption 13—Third Party's Commercial Confidence of the Code of Practice on Access to Government Information.

### Gas Quality

**Mr. Tynan:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 19 January 2004, *Official Report*, column 1037W, on gas quality, whether research has been commissioned as part of the consultation process into the number of domestic appliances that would require *(a)* replacement and *(b)* modification. [155556]

**Mr. Timms:** In accordance with my written statement of 8 January 2004, *Official Report*, column 13WS, my Department, working with the Health and Safety Executive and the Office for Gas and Electricity Markets, has now moved into Phase 2 of the gas quality exercise—the identification of policy options, and public consultation. No decisions have yet been taken on commissioning research. This will be appropriately advertised in due course if deemed necessary.

### Internet Access

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to help small and micro businesses counter their proportionally greater cost of maintaining access to the internet than larger businesses; and what assessment her Department has made of *(a)* the price difference between commercial and household access charges for small and micro businesses and *(b)* the price difference between narrowband dial-up offers and broadband offers. [157207]

**Mr. Timms:** Government action to help small business maintain access to the Internet include the following improvements to the R&D Tax Credit with an extension of the first year ICT capital allowances as a result of the Budget for 2003 to 2004:

A reduction in the minimum tax-deductible allowance for IT equipment from £25,000 to £10,000 has enabled more small and medium sized enterprise to claim the SME Tax Credit;

An extension of 100 per cent. of the first year capital allowances for small businesses investing in information and communications technology for another year.

In January 2004, the Department produced guidelines on Home Computing Initiatives in association with Dfes and the Cabinet Office to help businesses take advantage of the £500 annual tax exemption on loaned computer introduced by the Chancellor in 1999. This exemption enables businesses to loan computers to their employees as a tax-free benefit and helps smaller businesses maximise organisational performance through improved ICT skills.

A mass-market broadband solution defined as broadband priced to target residential and small businesses alike is available to approximately 85 per cent. of the UK population. This definition excludes more expensive high-capacity leased lines frequently used by larger firms.

Oftel's Business Use of the Internet: Small and Medium Business Survey (Q 14, August 2003), revealed that 44 per cent. of UK SMEs included in the survey with broadband internet access having previously used a narrowband connection, decided to upgrade because broadband was a similar price to their previous internet connection.

### National Business Angels Network

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report*, column 647W, on the National Business Angels Network, if she will make a statement on the effectiveness of the National Business Angels Network. [155358]

**Nigel Griffiths:** An external evaluation of the National Business Angels Network took place early in 2003 that examined all aspects of its operation, including its matchmaking activities. The Department no longer funds this element of the National Business Angels Network's operations.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will make a statement on the role of the National Business Angels Network in the Single Pathway to Market initiative; and what *(a)* administrative and *(b)* programme funding it will receive from her Department for each year between 2004 and 2008. [157199]

**Nigel Griffiths:** The National Business Angels Network is a private company and its role in the Single Pathway to Market is entirely a matter for the company and its Board. The Department is not providing any funding for this initiative.

### Nuclear Decommissioning

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the cost of nuclear decommissioning over the next 10 years on the price of electricity. [158535]

**Mr. Timms:** The Department has not made such an assessment. Electricity prices, including those for electricity generated by BNFL and British Energy (BE), are determined by the market under NETA and reflect the underlying market situation, giving appropriate signals to enable market players to respond.

From April 2005, the Nuclear Decommissioning Authority (NDA) will take responsibility for the decommissioning and clean up of BNFL's nuclear sites and for the Magnox fleet of nuclear power stations, pending their decommissioning and eventual closure. The revenue accrued from Magnox generation will contribute towards the NDA's clean up costs.

Under BE's proposed restructuring plan, the Government will take financial responsibility for the company's historic spent fuel liabilities and will

underwrite BE's new arrangements for funding decommissioning and uncontracted liabilities to the extent that BE's contributions are insufficient.

### Radioactive Waste

**Mr. Watson:** To ask the Secretary of State for Trade and Industry what representations she made to the Secretary of State for Environment, Food and Rural Affairs on the future of Nirex Ltd. *(a)* in advance of and *(b)* following the announcement on 16 July 2003 by the Secretary of State for Environment, Food and Rural Affairs on making Nirex independent of industry. [158644]

**Mr. Timms:** Disclosure of this information—internal advice and discussion—is covered by exemption 2 of the Code of Practice on Access to Government Information between Government Departments and it has not been the practice of successive Governments to disclose exchanges of this nature.

### Sakhalin II

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry what account she will take of the potential impact of building onshore pipelines through salmon spawning streams when assessing the Sakhalin II phase 2 oil and gas project under consideration for support by the Export Credits Guarantee Department. [157905]

**Mr. Mike O'Brien:** ECGD and the other potential lenders are still discussing the river crossing methods with Sakhalin Energy and want to ensure that the chosen methods are environmentally acceptable.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry whether the Sakhalin II phase 2 oil and gas project under consideration for support by the Export Credit Guarantee Department will involve construction of an undersea pipeline through the feeding ground of the western grey whale. [158074]

**Mr. Mike O'Brien:** Sakhalin Energy's plan is for an undersea pipeline to cross the southern point of the whales' northern feeding ground. ECGD is awaiting further information on this issue and will want to be sure that the potential impact on the Western Gray Whales is minimised. I am aware of the range of issues to which this project gives rise and I will approve support only if I am satisfied that these have been addressed.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry when a decision on whether to support the Sakhalin II phase 2 will be taken by the Export Credit and Guarantee Department. [158075]

**Mr. Mike O'Brien:** I refer the hon. Member to the reply that I gave to the hon. Member for Merionnydd Nant Conwy (Mr. Llwyd) on 26 February 2004, *Official Report*, columns 406–07W.

I am aware of the range of issues to which this project gives rise, and I will approve support only if I am satisfied that these have been satisfactorily addressed.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry what account she intends to take of the risk and potential impact of earthquake damage to the on and offshore oil and gas pipelines on Sakhalin Island when she assesses the Sakhalin II phase 2 project for support by the Export Credit Guarantee Department. [158081]

**Mr. Mike O'Brien:** Sakhalin Island is in an active earthquake zone. During due diligence on the Sakhalin II project, ECGD will want reassurance that effective measures are being taken by Sakhalin Energy Investment Company to minimise any potential damage to the facilities of the project including both on and off-shore oil and gas pipelines, from earthquakes.

Details of action being taken by SEIC to mitigate the risk of damage from earthquakes can be found on their website www.sakhalinienergy.com.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry whether the Sakhalin II phase 2 oil and gas project under consideration for support by the Export Credit Guarantee Department will involve the dumping of waste into the Gulf of Aniva. [158271]

**Mr. Mike O'Brien:** I am informed that the Sakhalin Energy wants to dispose of dredge sediment at a site in the Gulf of Aniva that has been licensed by the Russian Authorities. ECGD and the other potential lenders want to be sure that any disposal at this site is environmentally acceptable.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry what formal consultation has been undertaken by the Export Credit Guarantee Department on the Sakhalin II phase 2 oil and gas project. [158273]

**Mr. Mike O'Brien:** ECGD publicly disclosed its consideration of the project and invited comments on 23 May 2003.

ECGD officials have also taken part in meetings and corresponded with relevant stakeholders, including environmental NGOs, from both Sakhalin and the UK.

Sakhalin Energy has undertaken public consultation on Sakhalin and will shortly be publishing an updated Public Consultation and Disclosure Plan.

### Smart Award

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans her Department has to commission a new independent evaluation of the Smart scheme. [157239]

**Nigel Griffiths:** None. The Smart scheme closed in August 2003.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 12 February 2004, *Official Report*, column 1629W, on Smart awards, what percentage of the total programme costs was devoted to deregulatory initiatives in each year between 2000 and 2003. [157270]

**Nigel Griffiths:** None. The smart programme provided grants to help with the cost of researching and developing new, technology innovative products and processes.

## WORK AND PENSIONS

### Better Government for Older People

**Sandra Gidley:** To ask the Secretary of State for Work and Pensions (1) how many organisations have received a presentation from Better Government for Older People in each year since it was established; [157079]

(2) which *(a)* housing associations, *(b)* fire and police authorities and *(c)* voluntary organisations have subscribed to Better Government for Older People; [157080]

(3) which *(a)* primary care trusts, *(b)* care trusts and *(c)* hospital trusts have subscribed to Better Government for Older People; [157081]

(4) which *(a)* local authorities and *(b)* local strategic partnerships have subscribed to Better Government for Older People. [157082]

**Malcolm Wicks:** The information requested is not held centrally by the Department for Work and Pensions. Such information as is available is held by Better Government for Older People (BGOP) and has been placed in the Library.

### Pension Credit

**Simon Hughes:** To ask the Secretary of State for Work and Pensions (1) what the average Pension Credit payment is in *(a)* Greater London and *(b)* each London borough; [159255]

(2) how many pensioners are *(a)* eligible for and *(b)* in receipt of Pension Credit in (i) Greater London and (ii) each London borough; [159256]

(3) how many pensioners were in receipt of the Minimum Income Guarantee in *(a)* Greater London and *(b)* each London borough at the last date on which it was paid. [159257]

**Malcolm Wicks:** Information on the number of pensioners in receipt of the Minimum Income Guarantee in *(a)* Greater London and *(b)* each London borough as at 3 October 2003 is shown in the table.

Information on the number of people who are eligible for Pension Credit is not available in respect of individual local authority areas. However, we estimate that approximately 450,000 pensioner households (approximately 500,000 individuals) in the London Government Office Region (rounded to the nearest 50,000) are eligible for Pension Credit. Information on numbers of Pension Credit recipients in the London boroughs and average levels of award is given in the table.

| | *Minimum Income Guarantee at 3 October 2003* | | *Pension Credit at 31 January 2004* | | |
|---|---|---|---|---|---|
| | *Households* | *Individuals* | *Households* | *Individuals* | *Average weekly award per household (£)* |
| London GOR | 214,155 | 252,615 | 238,535 | 282,585 | 60.07 |
| City of London. | 130 | 145 | 135 | 150 | 62.26 |
| Barking and Dagenham | 5,700 | 6,640 | 6,570 | 7,755 | 50.05 |
| Barnet | 8,205 | 9,700 | 9,015 | 10,675 | 62.14 |
| Bexley | 4,425 | 5,120 | 5,600 | 6,615 | 44.51 |
| Brent | 9,150 | 11,040 | 9,740 | 11,780 | 72.19 |
| Bromley | 5,935 | 6,735 | 7,205 | 8,300 | 45.35 |
| Camden | 7,170 | 8,240 | 7,640 | 8,765 | 64.77 |
| Croydon | 7,775 | 9,100 | 9,190 | 10,860 | 54.07 |
| Ealing | 8,680 | 10,420 | 9,460 | 11,385 | 69.60 |
| Enfield | 8,465 | 10,360 | 9,565 | 11,780 | 58.23 |
| Greenwich | 6,790 | 7,950 | 7,705 | 9,085 | 53.57 |
| Hackney | 9,120 | 10,715 | 9,610 | 11,270 | 67.99 |
| Hammersmith and Fulham | 4,900 | 5,545 | 5,320 | 6,010 | 61.18 |
| Haringey | 7,965 | 9,460 | 8,490 | 10,125 | 66.16 |
| Harrow | 5,840 | 7,195 | 6,415 | 7,915 | 73.07 |
| Havering | 5,655 | 6,530 | 6,960 | 8,210 | 43.41 |
| Hillingdon | 5,320 | 6,270 | 6,130 | 7,290 | 55.39 |
| Hounslow | 5,855 | 7,010 | 6,540 | 7,825 | 62.44 |
| Islington | 7,435 | 8,655 | 7,865 | 9,150 | 64.61 |
| Kensington & Chelsea | 4,365 | 4,905 | 4,730 | 5,305 | 65.79 |
| Kingston upon Thames | 2,595 | 3,015 | 3,170 | 3,720 | 50.39 |
| Lambeth | 8,395 | 9,545 | 9,210 | 10,520 | 61.67 |
| Lewisham | 7,605 | 8,665 | 8,580 | 9,850 | 53.81 |
| Merton | 3,880 | 4,560 | 4,675 | 5,555 | 53.12 |
| Newham | 9,815 | 12,180 | 10,335 | 12,825 | 67.86 |
| Redbridge | 6,720 | 8,165 | 7,430 | 9,060 | 61.49 |
| Richmond upon Thames | 2,870 | 3,210 | 3,520 | 4,010 | 48.56 |
| Southwark | 8,335 | 9,565 | 9,320 | 10,760 | 58.14 |
| Sutton | 3,745 | 4,250 | 4,635 | 5,345 | 45.12 |
| Tower Hamlets | 10,135 | 12,960 | 10,485 | 13,355 | 68.71 |
| Waltham Forest | 7,395 | 8,880 | 8,205 | 9,915 | 57.42 |
| Wandsworth | 7,375 | 8,460 | 8,240 | 9,510 | 57.71 |
| Westminster | 6,425 | 7,415 | 6,850 | 7,905 | 68.47 |

*Notes:*

1. Numbers of recipients are rounded to the nearest five.
2. Average awards are rounded to the nearest penny.
3. Individual recipients include a small number of partners under age 60.
4. Figures exclude a small number of clerical cases. There were 820 Pension Credit clerical cases in London GOR at 31 January 2004.

### Winter Fuel Payments

**Dr. Evan Harris:** To ask the Secretary of State for Work and Pensions how many eligible pensioners had applied for and had not received Winter Fuel Payments by *(a)* 1 December 2003, *(b)* 1 January and *(c)* 1 February. [156772]

**Malcolm Wicks:** The number of eligible applicants at each of the specified dates is not available. Such information as is available is set out in the table.

| *Date to:* | *Applications made* | *Payments made* |
|---|---|---|
| 1 December 2003 | 223,644 | 196,716 |
| 1 January 2004 | 239,636 | 218,271 |
| 1 February 2004 | 252,864 | 238,544 |

The balance comprises applications from people who are not entitled to a payment, cases held pending the issue of a payment and applications which have yet to be processed.

Some further payments will be made at the end of March.

## SOLICITOR-GENERAL

### R *v.* Allen

**Mr. Cash:** To ask the Solicitor-General if she will make a statement on the exercise of the Attorney-General's power to enter a nolle prosequi in the light of R *v.* Allen (1862 1B&S)850. [159188]

**The Solicitor-General:** The Attorney-General has power to enter a nolle prosequi which stays criminal proceedings in the Crown court. The case of Allen (1862) 1 B&S sets out that although he should generally hear the parties before entering the nolle he is the judge of whether the nolle should be entered or not and he has no obligation to hear the parties before so doing.

A nolle prosequi acts as a stay upon the proceedings. It puts an end to a prosecution but does not operate as a bar or discharge or acquittal on the merits. Dicta from Crompton J. in the case of Allen suggests that a nolle prosequi puts an end to a prosecution but this issue has never been fully litigated.

Applications to the Attorney-General asking him to direct a nolle prosequi most usually come from the defendant rather than the prosecutor as the prosecutor has a substantial range of powers to end a prosecution.

The most common use of the Attorney-General's power to direct a nolle prosequi is in cases when the defendant cannot attend court for plea or to attend trial because of physical or mental incapacity, which is expected to be permanent.

## DEPUTY PRIME MINISTER

### Asylum

**Mr. Oaten:** To ask the Deputy Prime Minister how many households, whose former home was provided by the National Asylum Support Service, were accepted as priority homeless in each local housing authority for each year since 2000. [155035]

**Yvette Cooper:** Cases of priority homelessness acceptance where a household lost its last settled home because of a requirement to leave the National Asylum Support Service (NASS) accommodation have been separately distinguished on local authorities' quarterly statistical returns to the Office of the Deputy Prime Minister since April 2002. Latest available information, as reported in each quarter, is available in the Libraries of the House.

### Housing

**Ms Oona King:** To ask the Deputy Prime Minister whether it is his policy that the owner of a house in multiple occupation will be required to hold a licence for *(a)* the whole property and *(b)* each room within the property; and if he will make a statement on the level of fees. [158548]

**Keith Hill:** The licence for a House in Multiple Occupation will be held either by the owner of the property or a managing agent, depending on which of those persons is the more suitable to hold the licence. The licence will be in respect of the whole property.

Licence fees will be payable on the application for a licence and will normally be chargeable once every five years. The fee payable will be determined by reference to the number of habitable dwellings in the House in Multiple Occupation, subject to a maximum charge per dwelling. The Office of the Deputy Prime Minister are in discussion with the Local Government Association on the level of that maximum charge, but that is likely to be in the region of £110.00 per dwelling for a five-year licence.

**Simon Hughes:** To ask the Deputy Prime Minister what his projections are, for *(a)* the demand level for affordable housing in Greater London, *(b)* the level of public subsidy that will be required to meet these demand levels in Greater London and *(c)* the number of affordable houses which will be provided in Greater London through public subsidy in to each of the next 15 years. [158764]

**Keith Hill:** The London Housing Board's London Housing Strategy 2003 identifies 306,000 additional households, 20,400 per year, over the period to 2016. In addition there is backlog of unmet need of 112,000 households. The London Housing Strategy 2003 has a target of 23,000 new homes per annum by 2005–06, of which 10,000 housing completions should be affordable. The London Housing Board has begun the preparation of the next long-term housing strategy for the capital to cover the period up to 2016, which will take account of the detailed housing requirements study the Greater London Authority is currently carrying out. On 21 October last year my right hon. Friend the Deputy Prime Minister announced £2.1 billion for investment in housing in London for the next two years. I expect to

make an announcement in the next few weeks on the Housing Corporation's Annual Development Programme of £1.5 billion for affordable housing in the capital for 2004-05 and 2005-06.

**Simon Hughes:** To ask the Deputy Prime Minister how many properties have been provided in each London borough by the Housing Corporation in its London approved development programme in each of the last five years. [158446]

**Keith Hill:** Information about the number of properties that have been provided through the Housing Corporation's Approved Development Programme in each authority in London in each of the last five years is being collated. I will write to the hon. Member and will make a copy available in the Library of the House.

### Landlords

**Patrick Mercer:** To ask the Deputy Prime Minister for what reason rent officers are *(a)* obliged to investigate private landlords and *(b)* not obliged to investigate registered social landlords. [158984]

**Keith Hill:** Where requested to do so by a local authority, the Rent Service is obliged to assess the rental value of a property let to a tenant of a private landlord or a Registered Social landlord in connection with a claim for Housing Benefit.

Housing Benefit regulations set out the circumstances in which cases are referred to the Rent Service. In respect of tenants of private landlords, local authorities must refer claims on which rent allowance may be awarded, or where they have been notified of a change relating to rent allowance, or where a prospective occupier is likely to make a claim for rent allowance. In respect of tenants of Registered Social Landlords, local authorities may refer the case where they consider that the dwelling is too large or the rent is unreasonably high. In such cases the local authority must state the reason for the application, and the rent officer must make a determination in the normal way.

In respect of properties let to tenants of private landlords or Registered Social Landlords, where the tenancy commenced before 15 January 1989, the landlord or tenant may ask the Rent Service to determine a fair rent for a property.

### Planning

**Mr. Sheerman:** To ask the Deputy Prime Minister when the Department is planning to release Planning Policy Guidance Note 10; and if he will make a statement. [159036]

**Keith Hill:** Planning Policy Guidance Note 10 "Planning and Waste Management" will be replaced by a planning policy statement in line with the update of the PPG series. The aim is to consult on a draft of the new PPS10 in the first half of this year.

**Mr. Chidgey:** To ask the Deputy Prime Minister what plans he has to bring forward proposals for legislation to ensure that companies providing water and sewerage services are made statutory consultees to local authorities in the planning process. [159124]

**Keith Hill:** Water and sewerage undertakers will be statutory consultees on local development documents under the new arrangements being introduced under the Planning and Compulsory Purchase Bill.

Local authorities are advised to consult water and sewerage undertakers on planning applications. These non-statutory arrangements appear to be working satisfactorily and will continue.

**Andy King:** To ask the Deputy Prime Minister what action the Department has taken to ensure there is full consultation with *(a)* schools and residents in close proximity to and *(b)* local authorities responsible for proposed sites of Tetra masts. [159377]

**Keith Hill:** Current planning guidance for all electronic communication developments is set out in Planning Policy Guidance Note 8 (revised) (PPG8). The Office of the Deputy Prime Minister has also issued a Code of Best Practice on Mobile Phone Network Development.

PPG8 requires that where a base station site is on or near a school the operator consults the relevant body of the school or college prior to submitting an application to the local planning authority. The Code sets out the factors that should be taken into account by network operators and local planning authorities in determining whether a school or college should be consulted.

PPG8 also strongly encourages telecommunications operators and local planning authorities to carry out annual discussions about rollout plans for each authority's area. The Code includes more detailed recommendations for managing the relationship between mobile operators and local planning authorities and the process of public consultation.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Beef

**Annabelle Ewing:** To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage by weight of current beef supply contracts for his Department and its agencies are sourced from *(a)* British and *(b)* Scottish herds. [157861]

**Mr. Mike O'Brien:** This detailed information could be provided only at disproportionate costs.

Foreign and Commonwealth Office restaurant and catering services are contracted out to a range of suppliers. Of the beef provided by our principal supplier, we are told that the amount currently sourced from British herds is 90 per cent. of which 10 per cent. comes from Scottish Herds.

### Belize/Guatemala

**Chris Ruane:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action his Department is taking to help bring about a long-term solution to the territorial border disputes between Belize and Guatemala. [159269]

**Mr. Mike O'Brien:** The UK continues to support fully the Organisation of American States (OAS) sponsored process as the best means to secure a negotiated settlement, and is a member of the OAS-facilitated Belize-Guatemala 'Group of Friends'.

When my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Rammell) visited Belize and Guatemala from 14–17 January, he reaffirmed the UK's continued support for Belize and Guatemala in their pursuit of a definitive settlement to their territorial dispute, within the framework of the OAS-facilitated process.

We are supporting the OAS-sponsored Confidence Building Measures in Belize and Guatemala through the FCO/DFID/MOD Global Conflict Prevention Pool. £1.8 million has been allocated this financial year. Our projects are aimed at reducing tensions, encouraging co-operation between security agencies and addressing the underlying causes of conflict.

## British Prisoners Overseas

**Mrs. Gillan:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens are serving custodial sentences in foreign gaols, broken down by country. [159290]

**Mr. Mullin:** The figures for the number of British citizens detained overseas are collated on a quarterly basis. The most recent quarter for which we have figures is the quarter ending 31 December 2003.

The following table lists the countries in which British citizens are imprisoned and gives the numbers detained in each, as of 31 December 2003. The totals do not differentiate between those awaiting trial/sentencing and those serving custodial sentences.

The figures represent those prisoners who either requested Consular assistance or who gave permission to the local authorities to notify the Consul of their arrest.

| *Country* | *Number of prisoners* |
|---|---|
| Albania | 1 |
| Antigua and Barbuda | 10 |
| Argentina | 5 |
| Australia | 201 |
| Austria | 6 |
| Azerbaijan | 1 |
| Bangladesh | 1 |
| Barbados | 24 |
| Belgium | 28 |
| Brazil | 33 |
| Cambodia | 1 |
| Canada | 15 |
| China | 12 |
| Colombia | 6 |
| Costa Rica | 7 |
| Croatia | 1 |
| Cuba | 3 |
| Cyprus | 5 |
| Czech Republic | 1 |
| Denmark | 11 |
| Ecuador | 8 |
| Egypt | 8 |
| Ethiopia | 1 |
| Finland | 2 |
| France | 241 |
| Germany | 105 |
| Greece | 12 |
| Grenada | 9 |
| Guyana | 6 |
| Hungary | 1 |
| Iceland | 1 |
| India | 28 |
| Indonesia | 8 |
| Ireland | 75 |
| Israel | 2 |
| Italy | 21 |
| Jamaica | 125 |
| Japan | 43 |
| Korea (South) | 4 |
| Kuwait | 1 |
| Luxembourg | 3 |
| Madagascar | 2 |
| Malawi | 1 |
| Malaysia | 3 |
| Malta | 5 |
| Mexico | 3 |
| Morocco | 3 |
| Nepal | 1 |
| Netherlands | 47 |
| New Zealand | 19 |
| Nicaragua | 1 |
| Nigeria | 1 |
| Norway | 5 |
| Oman | 3 |
| Pakistan | 12 |
| Panama | 8 |
| Peru | 22 |
| Philippines | 19 |
| Poland | 2 |
| Portugal | 13 |
| Qatar | 1 |
| Romania | 6 |
| Russia | 1 |
| St. Lucia | 8 |
| Saudi Arabia | 4 |

| South Africa | 21 |
| Spain | 283 |
| Surinam | 4 |
| Sweden | 15 |
| Switzerland | 8 |
| Syria | 1 |
| Taiwan | 23 |
| Thailand | 34 |
| Trinidad and Tobago | 29 |
| Turkey | 5 |
| United Arab Emirates | 20 |
| United States of America | 690 |
| Venezuela | 24 |
| Vietnam | 1 |
| Yemen | 5 |
| Zimbabwe | 2 |
| Total | 2,440 |

## Correspondence

**Tony Lloyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letters from the hon. Member for Manchester, Central of *(a)* 27 October 2003 regarding Mr. IHT, reference GV100/81730, *(b)* 12 December 2003 regarding Ms AY, *(c)* 13 December 2003 regarding Mrs. EA, *(d)* 7 November 2003 regarding Mr. MOS, reference Yemen 4781/03 and *(e)* 4 December 2003 regarding Mr. SM, reference GV100/83947. [158568]

**Mr. Mullin:** I apologise that my hon. Friend has not received replies to his letters. The letter concerning Mrs. EA was not received at my office and the letter concerning Mr. MOS was addressed to UKvisas but not initially received there. I now have copies of both letters. UKvisas is making the necessary enquiries with our diplomatic posts overseas. The other three letters were not replied to due to an administration error in UKvisas. I will reply to my hon. Friend on all these cases as soon as possible.

### Cyprus

**Mr. Rosindell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress with the Kofi Annan plan for Cyprus. [157903]

**Mr. MacShane:** I refer the hon. Member to the answer I gave to the hon. Member for Surrey Heath (Mr. Hawkins) on 27 February 2004, *Official Report*, column 580W, and also to the reply my right hon. Friend the Foreign Secretary gave to the hon. Member for Taunton (Mr. Flook) in the House on 2 March 2004, *Official Report*, column 748. We will keep the House informed as matters progress.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will next visit Gibraltar; and how he will celebrate the 300th anniversary of British rule in Gibraltar. [157986]

**Mr. MacShane:** I refer my hon. Friend to the answer I gave the hon. Member for Poole (Mr. Syms) in the House on 2 March 2004, *Official Report*, column 749. Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not the practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel and occasionally not until they are under way.

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the future of Gibraltar. [159087]

**Mr. Mike O'Brien:** I refer my hon. Friend to the answer I gave the hon. Member for East Worthing and Shoreham (Tim Loughton) on 16 December 2003, *Official Report*, column 1417.

### Iran

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what new information has been *(a)* made available by the Iranian authorities and *(b)* discovered by the International Atomic Energy Agency inspectors in respect of Iran's nuclear programme since the trilateral agreement with Iran, France and Germany, concluded in 2003. [158237]

**Mr. MacShane:** Since the signing of the trilateral agreement, Iran has made a declaration to the International Atomic Energy Agency (IAEA) covering its nuclear programmes. The IAEA Director-General presented a report of the Agency's findings to the IAEA Board of Governors' meeting in November 2003 and will present a further report at the next meeting, scheduled for the week beginning 8 March. The text of the November report is available on the IAEA's internet website at www.iaea.org.

### Iraq

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the United Kingdom experts working as part of the Iraq Survey Group have full access to the Iraqi declaration to the United Nations Security Council on its weapons of mass destruction programmes dated 8 December 2002. [157155]

**Mr. MacShane:** UK experts on the ground in Iraq do not have direct access to the declaration.

They are, however, supported by analysts in the Ministry of Defence, by whom they were briefed before departing for Iraq and whom they are able to consult at any time about any aspect of Iraq's WMD programmes.

### Legal Aid

**David Davis:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations have been made to partners in the EU concerning provision of legal aid to UK citizens arrested on civil or criminal charges. [156227]

**Mr. Mullin:** There is no EU directive in force concerning the provision of legal aid to EU nationals in other member states who have been arrested on civil or criminal charges. The Foreign and Commonwealth Office has made no representations on this issue. The provision of legal aid is subject to each member state's domestic law or bilateral agreements with the UK. If a British national detained in an EU country is denied legal aid when that British national believes they have an entitlement, under local law or bilateral agreement, our consular staff stand ready to raise that individual's concerns with the local authorities. Although not affecting the types of cases raised in this question, a new directive concerning legal aid in cross-border civil or commercial disputes will come into effect in November 2004.

### Turkey

**Dr. Tonge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Turkish Government regarding *(a)* the imprisonment of Mr. Abdullah Ocalan and *(b)* visits to Mr. Ocalan by the Red Cross. [158301]

**Mr. MacShane:** We have not made representations to the Turkish Government regarding the imprisonment of Mr. Ocalan or on visits to Mr. Ocalan by the Red Cross/Crescent. However, we monitor Mr. Ocalan's imprisonment closely and officials from the British embassy in Turkey have discussed the situation with Mr. Ocalan's lawyers. We continue to make frequent representations on human rights reform, including the rights and conditions for all prisoners, for example, during the ongoing bilateral human rights dialogue, the next round of which will be in late spring 2004.

**Dr. Tonge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the (*a*) EU and (*b*) Turkish Government on language and broadcasting rights in Turkey. [158302]

**Mr. MacShane:** My right hon. Friend the Foreign Secretary frequently discusses this issue at the European Councils. the Council Conclusions in December referred to the need for further efforts regarding cultural rights. Our strong support for Turkey's EU candidature means we are always looking for ways to help Turkey meet the Copenhagen political criteria, which include cultural rights. The Foreign Secretary reiterated our position during his visit to Istanbul on 3 March.

During my visit to Turkey in January this year, I raised the need for prompt implementation of all reforms with ambassador Sungar, Head of the European Secretariat General and Foreign Minister Gul. At official level, monthly EU working groups discuss progress on reforms, including those mentioned by the hon. Member. Officials in the British embassy in Turkey follow the situation closely by means of their contacts with all levels of Turkish civil society and Government.

### Zelimkhan Yanderbiyev

**Mr. Blunt:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on (*a*) the arrest by Russian authorities of two Qatari sportsmen and (*b*) the arrest of two Russians in Qatar following the assassination of Zelimkhan Yanderbiyev. [158587]

**Mr. Mike O'Brien:** We understand that three Russian citizens were arrested in Qatar following the murder of Zelimkhan Yanderbiyev. We support the authorities in Qatar in their continuing investigations, and expect Russia to co-operate fully. We also understand that two men with connections to Qatar were detained by the Russian authorities in Moscow on 26 February.

### Zimbabwe

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take harsher measures against the Zimbabwe Government. [159086]

**Mr. Mullin:** We agree on the need for tough measures against the Mugabe Government. With our strong support, the European Union decided on 19 February to increase the number of senior Zimbabwean figures on its travel ban and assets freeze from 79 to 95 and to extend those measures for a further 12 months. The measures are specifically targeted on the ZANU-PF leadership and others with direct responsibility for human rights abuses, eroding press freedoms, and harassing civil society.

We do not want to impose harsher measures such as trade and economic sanctions which would hurt the Zimbabwean people. They are already suffering enough as a result of ZANU-PF's ruinous policies.

## EDUCATION AND SKILLS

### Estonia

**Lembit Öpik:** To ask the Secretary of State for Education and Skills what joint projects he has undertaken with the Estonian Government to (*a*) support the education systems in Estonia and (*b*) share best practice from the UK education sector; and if he will make a statement. [157438]

**Alan Johnson:** Our programme of co-operation with the Estonian Ministry of Education and Research includes a School Leadership skills project for young Estonian Headteachers, help with further development of Estonian vocational education and training policies and with strategic planning and quality assurance approaches.

Estonian Headteachers have visited UK schools, LEAs and the National College for School Leadership and British teachers have visited Estonia to look at effective use of ICT in schools. UK and Estonian teachers will be able to share best practice in education through the Global Gateway, a new international website to facilitate school partnerships. There is an ongoing programme of joint seminars, conferences and working groups on topics such as lifelong learning and skills, the role of parents in school governing bodies, ICT in education, education—business links and higher education reform. We are also encouraging and facilitating links between Estonian and UK universities.

### Learning and Skills Council

**Sir Paul Beresford:** To ask the Secretary of State for Education and Skills what the total gross expenditure was of the Learning and Skills Council in each year since it was established. [158649]

**Miss Melanie Johnson** *[holding answer 4 March 2004]:* Extracts from the LSC's published accounts for both years are set out in the following table. The Annual Report and Accounts of the Learning and Skills Council (LSC) for 2002–03 were laid before the House on 12 February 2004. I am pleased that the LSC continued to make good progress in its second full year of operation. It managed a budget of over £7 billion, including successfully taking responsibility for our schools sixth form budget of over £1 billion. It has worked effectively with schools, colleges and training providers to drive forward radical and lasting improvements in the range and quality of post-16 education and training.

*£000*

| | *Year ended 31 March 2003* | *19 months ended 31 March 2002* |
|---|---|---|
| *Programme Expenditure* | | |
| Young People | 4,057,349 | 2,411,493 |
| Adults | 2,427,229 | 2,243,658 |
| Standards and Capital | 737,458 | 463,403 |
| Other | 134,703 | 14,737 |
| Programme total | 7,356,739 | 5,133,291 |
| *Administration Expenditure* | | |
| Staff Costs | 134,195 | 144,625 |
| Other Costs | 89,070 | 94,902 |

£000

| | Year ended March 2003 | 19 months ended 31 March 2002 |
|---|---|---|
| Depreciation | 13,441 | 9,614 |
| Admin total | 236,706 | 249,141 |
| Total | 7,593,445 | 5,382,432 |

Notes:
1. The Report and Accounts for the period to 31 March 2002 cover a 19 month period, and were laid on 8 April 2003.
2. The LSC's budget for 2002-03 was increased in-year, to take forward new work on Employer Training Pilots, Centres of Vocational Excellence, Teachers Pay Initiative and "Success for All".
3. The LSC budget for 2003-04 is £8.4 billion.

### Milk

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many children in *(a)* Lancashire and *(b)* Chorley receive free school milk from (i) central and (ii) local sources. [157980]

**Mr. Stephen Twigg:** The Department for Education and Skills does not collect any data on school milk provision.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for Education and Skills when he last used a train in connection with his ministerial duties. [155165]

**Mr. Stephen Twigg:** My right hon. Friend the Secretary of State last used a train, in connection with his ministerial duties, on 24 February 2004. All ministerial travel on official business is undertaken in accordance with the rules set out in "Travel by Ministers".

### National Recognition Information Centres

**Mr. Nigel Jones:** To ask the Secretary of State for Education and Skills (1) what future roles he expects the UK's National Recognition Information Centres to play in *(a)* labour mobility and *(b)* the recruitment of international students; and what plans he has for the continuation of their work; [157360]

(2) if he will make a statement on the use he makes of the UK National Recognition Information Centres' knowledge and experience of international education and training standards in the policy-making process; and what use was made of it in assessing UK education and training standards by global comparison, with particular reference to *(a)* teaching and *(b)* early years education. [157373]

**Alan Johnson:** The principal value of the UK National Recognition Information Centre (NARIC) and the UK National Reference Point for Vocational Qualifications (NRP) is to the individuals, universities, colleges, employers and wide-range of other organisations that use their advice on the comparability of international and UK qualifications. Through this work, the UK NARIC and the NRP play a key and continuing role in achieving student and labour mobility objectives, and in promoting UK qualifications overseas. The information they provide helps to inform policy-making across the education and training sectors, alongside other international comparators. The UK NARIC supports, in particular, the Prime Minister's Initiative to attract more international students to the UK by maximising the accessibility and transferability of international qualifications, by providing information for students, and by helping UK institutions to make sound admissions decisions.

**Mr. Nigel Jones:** To ask the Secretary of State for Education and Skills if he will make a statement on the contribution he expects the UK's National Recognition Information Centres to make in the reform of European higher education through the Bologna process. [157361]

**Alan Johnson:** The UK Government work with the UK National Recognition Information Centre (NARIC) and other stakeholders on the development of the Bologna process of European higher education reform in the UK and to influence the debate on the way forward. Recognition of qualifications is key to achieving many of the goals of the Bologna process. Through its operation and network activities, UK NARIC already plays a vital and continuing role, building bridges between education systems and qualifications and in furthering recognition policies across Europe.

### Overseas Students

**Helen Jones:** To ask the Secretary of State for Education and Skills what steps he is taking to secure the repayment of tuition fees from European Union students after they graduate; and if he will make a statement. [158612]

**Alan Johnson:** The Student Loans Company (SLC) are responsible for ensuring repayments are made when they fall due, and have well established procedures for recovering loans from graduates living and working outside the UK. All students taking out a loan are required to sign a declaration agreeing to repay, even if they move abroad, and SLC have a range of sanctions that can be imposed on defaulters. Officials and SLC are exploring ways to ensure the most robust and effective loan recovery mechanisms are in place by the time the first graduate contributions from EU students are due to be collected.

**Helen Jones:** To ask the Secretary of State for Education and Skills what estimate he has made of the number of overseas students who will enter universities in England in the next five years. [158613]

**Alan Johnson:** The projected number of EU and non-EU overseas students in English Higher Education institutions in 2003/04 and 2004/05 as published in the Department Annual Report 2003 is shown in the table. These projections are based on a number of assumptions and should be treated with caution. The numbers include, on a headcount basis, full and part-time students on undergraduate and postgraduate courses.

*Non-UK, EU and non-EU overseas resident students attending English universities (000)*

| | 2003/04 | 2004/05 |
|---|---|---|
| EU Students | 71 | 74 |
| Non-EU Overseas Students | 136 | 145 |

Detailed projections for later years are currently being prepared, and will be published in the Department Annual Report 2004 this April.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Education and Skills how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157517]

**Mr. Stephen Twigg:** Ministers take responses to Parliamentary Questions very seriously, and try to answer within the Parliamentary deadline wherever possible. Since 1 January 2003, 3,743 ordinary written questions have been tabled to the Department for Education and Skills, 72 per cent. of which were answered within 10 working days. 797 named day questions were tabled in the same period. We are unable to provide the percentage of those questions answered by the specified date without incurring disproportionate cost.

### Problem Gambling

**Sue Doughty:** To ask the Secretary of State for Education and Skills (1) if the Government will include problem gambling in the Personal Health and Social Education element of the curriculum; [158315]

(2) what assessment he has made of the impact of problem gambling on educational achievement among 12 to 15 year olds. [158350]

**Mr. Stephen Twigg:** Through Personal, Social and Health Education (PSHE) all pupils should learn about responsibility and the consequences of their actions. Personal finance education, delivered through the framework for PSHE, enables pupils to develop financial responsibility and links financial decisions and actions with value judgements. Schools may choose to specifically address problem gambling, but we have no plans to require them to do so.

No assessment has been made by the Department of the impact of problem gambling on education achievement of 12 to 15 year olds.

### Pupil Numbers

**Sandra Gidley:** To ask the Secretary of State for Education and Skills what the *(a)* average and *(b)* maximum class size in Hampshire was at Key Stage (i) 1, (ii) 2 and (iii) 3 for each year since 1997. [157286]

**Mr. Stephen Twigg:** The information requested is shown in the tables.

*Average class size[1]: Hampshire, Portsmouth and Southampton local education authorities position in January each year*

| | Hampshire[2] | Hampshire[3] | Portsmouth[3] | Southampton[3] |
|---|---|---|---|---|
| 1997 Key Stage 1 | 27.5 | — | — | — |
| Key Stage 2 | 28.2 | — | — | — |
| Pupils aged mainly under 14 in maintained secondary schools | 23.9 | — | — | — |
| 1998 Key Stage 1 | — | 28.0 | 27.8 | 27.0 |
| Key Stage 2 | — | 28.6 | 28.1 | 28.8 |
| Pupils aged mainly under 14 in maintained secondary schools | — | 24.3 | 23.9 | 23.5 |
| 1999 Key Stage 1 | — | 27.8 | 27.5 | 27.0 |
| Key Stage 2 | — | 28.6 | 28.7 | 28.4 |
| Pupils aged mainly under 14 in maintained secondary schools | — | 24.9 | 24.8 | 24.4 |
| 2000 Key Stage 1 | — | 27.3 | 26.1 | 26.8 |
| Key Stage 2 | — | 28.7 | 28.6 | 28.6 |
| Pupils aged mainly under 14 in maintained secondary schools | — | 25.0 | 24.9 | 23.4 |
| 2001 Key Stage 1 | — | 26.3 | 25.3 | 26.2 |
| Key Stage 2 | — | 28.4 | 28.2 | 28.7 |
| Pupils in year groups 7, 8 and 9 in maintained secondary schools | — | 25.0 | 24.1 | 24.4 |
| 2002 Key Stage 1 | — | 26.0 | 24.8 | 26.7 |
| Key Stage 2 | — | 28.0 | 27.6 | 28.1 |
| Pupils in year groups 7, 8 and 9 in maintained secondary schools | — | 25.0 | 24.7 | 23.5 |
| 2003 Key Stage 1[3] | — | 26.2 | 25.1 | 26.2 |
| Key Stage 2 | — | 28.1 | 26.9 | 28.2 |
| Pupils in year groups 7, 8 and 9 in maintained secondary schools | — | 24.9 | 24.0 | 24.5 |

Annual Schools' Census

### School Meals

**Mr. Randall:** To ask the Secretary of State for Education and Skills what the Department's policy is on encouraging the provision of hot school meals. [158494]

**Mr. Stephen Twigg:** In guidance "Healthy School Lunches", produced to assist caterers to implement the requirements of the nutritional standards regulations, the Secretary of State strongly recommends that some hot food should be available. However, he does not have powers to require a school to provide hot food. The guidance can be viewed on our website: www.dfes.gov.uk/schoollunches.

### School Sports Facilities

**James Purnell:** To ask the Secretary of State for Education and Skills what plans he has to ensure that schools open their sports facilities to the wider community out-of-hours. [157763]

**Mr. Stephen Twigg:** I refer my hon. Friend to the answer given to the hon. Member for Ribble Valley (Mr. Evans) on 2 March 2004, *Official Report*, column 884W.

**James Purnell:** To ask the Secretary of State for Education and Skills how many schools in *(a)* England, *(b)* each region and *(c)* each Parliamentary constituency open their sports facilities for community use out-of-hours. [157766]

**Mr. Stephen Twigg:** We do not currently hold the data requested and they could be provided only at disproportionate costs.

### Schools Funding

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what the administrative cost of the Standards Funds grants is for 2003–04. [159186]

**Mr. Miliband:** This information is not collected centrally.

### Special Educational Needs

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many children were first identified as having special educational needs *(a)* before the start of compulsory schooling, *(b)* at primary school and *(c)* at secondary school in the last year for which figures are available. [157153]

**Mr. Stephen Twigg:** Information is not collected about numbers of children first identified as having special educational needs. However, figures are available for children for whom new statements were issued. The last year for which figures are available is 2002.

During 2002, statements were made for the first time for 7,120 children aged under 5. 15,690 statements were issued for children aged 5–10 and 7,910 for children aged 11–19.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment he has made of the distribution of children with special educational needs across maintained schools; and what impact publication of the arrangements made by local education authorities to monitor admissions of children with special educational needs has had on that distribution. [157175]

**Mr. Stephen Twigg:** The following table shows the distribution of children with special educational needs (SEN)—with and without statements of SEN—across maintained primary and maintained secondary schools in England.

*Number and percentage of schools by percentage of pupils with SEN*

| | Primary schools | | Secondary schools | |
|---|---|---|---|---|
| *Pupils with SEN* | *Number* | *Percentage* | *Number* | *Percentage* |
| Up to 5 per cent. | 682 | 3.8 | 258 | 7.5 |
| 5 per cent. up to 25 per cent. | 13,864 | 77.6 | 2,616 | 76.1 |
| 25 per cent. up to 35 per cent. | 2,459 | 13.8 | 373 | 10.9 |
| 35 per cent. up to 50 per cent. | 761 | 4.3 | 170 | 4.9 |
| 50 per cent. and above | 95 | 0.5 | 19 | 0.6 |
| Total number of schools | 17,861 | | 3,436 | |

*Source:*

Statistics of Education—Special Educational Needs in England: January 2003 Issue Number 09/03, published November 2003

Local Education Authorities' Admission Forums consider how well admission arrangements work locally, including arrangements for the admission of children with special educational needs. As Admissions Forums became mandatory only on 20 January 2003, it is too early to determine the impact they will have had on promoting protocols for the admission of these children.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what progress the Department has made in developing descriptions for types of special educational needs for use in the Pupil Level Annual Schools Census. [157177]

**Mr. Stephen Twigg:** Draft descriptions of types of special educational need were developed in autumn 2002. These were then sent to a sample of schools, local authorities and voluntary organisations for consultation at the end of November 2002. The descriptions were amended in the light of the responses received and the final version sent to local authorities in June 2003 and also placed on the Department's website.

In September 2003, copies of the guidance were sent to all maintained and non-maintained schools to enable them to prepare for the Pupil Level Annual Schools Census in January 2004.

There are eleven categories of need described in the guidance, grouped into the four main areas of difficulty set out in the SEN Code of Practice 2001. From January 2004, data on pupils type of need will be collected for all pupils with a statement of SEN and those at "school action plus".

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many schools have been awarded the Special Educational Needs Quality Mark; and how many have failed to meet the criteria for its award. [158089]

**Mr. Stephen Twigg:** The Government do not run a scheme of Special Educational Needs Quality Marks.

### Statemented Children

**Dr. Cable:** To ask the Secretary of State for Education and Skills to whom responsibility for the on-costs falls when a child has a statement and the child has quantified support of a given number of hours from a learning support assistant. [157359]

**Mr. Stephen Twigg:** Local education authorities are under a statutory duty, by virtue of section 324(5)(a) of the Education Act 1996, to arrange the special educational provision specified in statements they maintain for children, unless a child's parent has made suitable arrangements.

## PRIME MINISTER

### Katharine Gun

**Mr. Hancock:** To ask the Prime Minister what discussions he has had in the last 12 months with the *(a)* Department for Constitutional Affairs and *(b)* Attorney-General on the Katharine Gun case. [158095]

**The Prime Minister:** I had no discussions with the Department for Constitutional Affairs on this matter.

I had no discussions with the Attorney-General. However, I was copied in on the "Shawcross Exercise", the process of which the Solicitor-General has already outlined to the House on 26 February 2004, *Official Report*, column 428.

After the decision to discontinue the case had been made, the Attorney-General confirmed this to me.

**Mr. Hancock:** To ask the Prime Minister what discussions he has had in the last 12 months with the Secretary of State for Defence on the Katharine Gun case. [158780]

**The Prime Minister:** None.

## TREASURY

### Asthma

**Simon Hughes:** To ask the Chancellor of the Exchequer how many deaths from asthma there were in *(a)* Greater London and *(b)* each London borough during the last five years. [158444]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Simon Hughes, dated 5 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many deaths from asthma there were in *(a)* Greater London and *(b)* each London borough during the last five years. (158444)

The latest year for which the figures requested are available is 2002. Figures for the five-year period 1998 to 2002 are given in the attached table.

*Deaths from asthma[1] in Greater London,[2] and London boroughs,[2,3] 1998 to 2002, aggregated[4]*

| | *Number of deaths* |
|---|---|
| *Greater London* | 850 |
| *London Boroughs* | |
| Barking and Dagenham | 17 |
| Barnet | 31 |
| Bexley | 21 |
| Brent | 38 |
| Bromley | 35 |

*Deaths from asthma[1] in Greater London,[2] and London boroughs,[2,3] 1998 to 2002, aggregated[4]*

| | *Number of deaths* |
|---|---|
| Camden | 17 |
| Croydon | 52 |
| Baling | 40 |
| Enfield | 33 |
| Greenwich | 27 |
| Hackney and City of London [3] | 24 |
| Hammersmith and Fulham | 10 |
| Haringey | 25 |
| Harrow | 23 |
| Havering | 20 |
| Hillingdon | 32 |
| Hounslow | 32 |
| Islington | 19 |
| Kensington and Chelsea | 14 |
| Kingston upon Thames | 19 |
| Lambeth | 32 |
| Lewisham | 32 |
| Merton | 35 |
| Newham | 34 |
| Redbridge | 26 |
| Richmond upon Thames | 27 |
| Southwark | 20 |
| Sutton | 37 |
| Tower Hamlets | 20 |
| Waltham Forest | 16 |
| Wandsworth | 22 |
| City of Westminster | 20 |

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for 1998–2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001–2002. The codes used are listed below:

Asthma-ICD-9 493; ICD-10 J45-J46.

Details of the effect of the change in classification in 2001 are described in a report published in May 2002:

Office for National Statistics. Results of the ICD-10 bridge coding study, England and Wales, 1999. Health Statistics Quarterly 14 (2002), 75–83.

[2] Usual residents of these areas.

[3] City of London is included with the figure for Hackney to avoid disclosure of small numbers.

[4] Deaths occurring in each calendar year.

## Money Laundering

**Mr. Llwyd:** To ask the Chancellor of the Exchequer how many alternative or parallel remittance brokers have been registered as money service businesses since the introduction of the Money Laundering Regulations 2001. [158899]

**Ruth Kelly:** Customs and Excise are required to keep a register of money service operators, under the 2001 Money Laundering Regulations. The register does not distinguish between conventional and alternative or parallel remittance brokers. To provide a breakdown of the overall number of businesses on the register would entail a disproportionate cost.

## Carers

**Sandra Gidley:** To ask the Chancellor of the Exchequer what estimate he has made of the number of people providing unpaid care to people aged 65 and over. [158054]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from John Pullinger to Sandra Gidley, dated 5 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question about the estimate of the number of people providing unpaid care to people aged 65 and over. I am replying in his absence. (158054)

The General Household Survey (GHS), carried out by the Office for National Statistics (ONS) asked a module of questions on care-giving in 2000 (the most recent year available). The GHS 2000 "Carers" report, showed that around 11% of adults in Great Britain (representing 4.7 million people) were caring for someone aged 65 and over. These estimates have been obtained by weighting the survey results to the relevant population estimates. As with any statistical sample survey, estimates from the GHS are subject to sampling variability.

In 2000 as in previous years, 'carers' were defined as people who were looking after, or providing some regular service for, a sick, disabled or elderly person living in their own or another household. Certain types of caring have been excluded: caring for someone in the capacity of volunteer for a charity or other organisation, caring for someone receiving care in an institution, providing financial support only, and caring for someone with a temporary illness or disability (as defined by the respondent). It is not possible to identify from this data source whether carers were paid or unpaid.

The 2001 Census asked a question about whether people provided unpaid care for a family member or friend, and for how many hours. Around 5.2 million people in England and Wales reported that they were providing unpaid care for a family member or friend, including over a million providing more than 50 hours a week. Around 950,000 people aged 65 and over provided care of this sort, including around 340,000 providing more than 50 hours a week. The Census did not collect information on the ages of those to whom care was given.

Further information on carers from the 2001 Census and other sources is available on the National Statistics website at http://www.statistics.gov.uk/cci/nscl.asp?id=8467

## Causes of Death

**Simon Hughes:** To ask the Chancellor of the Exchequer what the latest figures for the death rate from *(a)* cancer and *(b)* coronary heart disease are in (i) Greater London, (ii) each London borough and (iii) the UK; and what they were in 1997. [158403]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Simon Hughes, dated 5 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the latest figures for the death rate from *(a)* cancer and *(b)* coronary heart disease in (i) Greater London, (ii) each London borough and (iii) United Kingdom; and what they were in 1997. (158403)

The latest year for which the figures requested are available is 2002 and these are given, with figures for 1997, in the table.

*Death rates[1] from cancer and coronary heart disease[2] in Greater London,[3] London boroughs[3,4] and the United Kingdom, 1997 and 2002[5]*

*Age-standardised death rates per 100,000 population[1]*

| City of Westminster | 209 | 181 | 115 | 108 |

[1] Rates per 100,000 population standardised to the European Standard Population.

[2] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for1997, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2002. The codes used are listed as follows:

Cancer (malignant neoplasms)—ICD-9 140–208; ICD-10 C00-C97;

Coronary Heart Disease—ICD-9 410–414; ICD-10 I20-I25.

[3] Usual residents of these areas.

[4] Figures for the City of London are not presented in the table because the annual number of deaths is too small to calculate age-standardised mortality rates.

[5] Deaths occurring in each calendar year in England and Wales, and deaths registered in each calendar year in Scotland and Northern Ireland.

## Corporation Tax

**Tony Lloyd:** To ask the Chancellor of the Exchequer what assessment he has made of the impact upon existing prospective stock transfer associations of the Inland Revenue's decision to disallow certain repairs expenditure being offset for corporation tax purposes when housing stock has been transferred to stock transfer associations. [158039]

**Dawn Primarolo** *[holding answer 4 March 2004]:* The Inland Revenue has given its view of the implications for corporation tax of certain contracts developed by a major accountancy firm.

## Earnings

**Simon Hughes:** To ask the Chancellor of the Exchequer what proportion of *(a)* male, *(b)* female and *(c)* all full-time workers in (i) Greater London and (ii) each London borough had hourly gross earnings (A) including and (B) excluding overtime of below (1) £7.58, (2) £5.68 and (3) £4.20. [158401]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Simon Hughes, dated 5 March 2004:*

The National Statistician has been asked to reply to your recent question on the proportion of *(a)* male, *(b)* female and *(c)* all full-time workers in (i) Greater London and (ii) each London Borough which had hourly gross earnings (A) including and (B) excluding overtime of below (1) £7.58, (2) £5.68 and (3) £4.20. I am replying in his absence. (158401)

I attach two tables showing the average gross hourly pay including and excluding overtime.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period. The tables show earnings according to employees' place of work, rather than usual residence. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent sample of all employees who are members of pay-as-you-earn, (PAYE) schemes, but because of its sampling frame, it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality. A large number of estimates have been removed from the lists due to the suppression criteria. The information is based on the 2003 NES, the latest survey for which data are available. The area of Greater London is defined by grouping together all the boroughs of London.

*Percentage of full time employees whose average gross hourly pay (including overtime) in 2003 fell below three stated thresholds*

| | Male employees' pay thresholds | | | Female employees' pay thresholds | | | All employees' pay thresholds | | |
|---|---|---|---|---|---|---|---|---|---|
| *Area* | £7.58 | £5.68 | £4.20 | £7.58 | £5.68 | £4.20 | £7.58 | £5.68 | £4.20 |
| *Percentage of employees whose pay (including overtime) falls below threshold* | | | | | | | | | |
| Great Britain | 26.4 | 8.5 | 1.2 | 36.8 | 14.7 | 1.9 | 30.3 | 10.9 | 1.4 |
| Greater London | 14.7 | 5.3 | 0.8 | 18.1 | 7.7 | 1.6 | 16.0 | 6.2 | 1.1 |
| *London Boroughs* | | | | | | | | | |
| City of London | 3.2 | — | — | — | — | — | 3.6 | — | — |
| Barking and Dagenham | 17.6 | — | — | — | — | — | 18.6 | — | — |

Great Britain and London

This table provides an estimate of the proportion of *(a)* male, *(b)* female and *(c)* all full-time workers in (i) Greater London and (ii) each London Borough had hourly gross earnings (A) including overtime and (B) excluding overtime of below (1) £7.58, (2) £5.68 and (3) 4.20.

*Notes:*

1. The definition of Greater London is the total of all London Boroughs.
2. Information is provided for average gross hourly earnings including and excluding overtime to and relates full time employees on adult rates whose pay for the survey pay period was unaffected by absence.
3. "—" Data have been suppressed due to confidentiality or quality
4. The New Earnings Survey release criteria currently require that any estimate:

*(a)* of a mean is based on a sample size of at least 30 and that the associated standard error does not exceed 5 per cent.

*(b)* of a quantile such as a percentile, quartile or median, or of a percentage, is based on a sample size of at least 10 and that the sample size is either at least 225 or that the relative standard error is less than 20%.

5. Estimates are produced for those people who work in a borough.

*Source for earnings data:*

New Earnings Survey, April 2003

### Economic Activity

**Mrs. Humble:** To ask the Chancellor of the Exchequer what the economic activity rate in the Blackpool, North and Fleetwood constituency was in *(a)* 1996–97 and *(b)* 2002–03. [157501]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mrs. Joan Humble, dated 5 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question on the economic activity rate in the Blackpool North and Fleetwood constituency. (157501)

The table below shows the working age economic activity rates for the Blackpool North and Fleetwood constituency, covering the twelve-month periods ending February 1997 and February 2002. Information for the twelve month ending February 2003 is not yet available.

*Working age economic activity rates[1] in the Blackpool North and Fleetwood Constituency*

| *12 month period ending February each year* | *per cent* |
|---|---|
| 1996–97 | 71.8 |
| 2001–02 | 75.2 |

[1] Economic activity as a percentage of men aged 16–64 and women aged 16–59.

As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

### EU Regulatory Burden

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer what representations he has received from industry regarding the burden of regulation deriving from the EU; and if he will list the regulations in question. [158852]

**Ruth Kelly:** The Chancellor received a number; of representations about the regulatory environment for business, including from business organisations such as the Institute of Directors and the British Chambers of Commerce. None of these representations named specific EU regulations, although a joint letter from the BCC, FSB, IoD, CBI and FPB welcomed the joint EU Presidency Initiative on Regulatory Reform, announced on 26 January.

The Government are considering carefully how best to implement the measures arising from the EU's Financial Services Action Plan (FSAP). Implementation of the FSAP needs to strike the right balance between not placing too great a burden on the financial services industry, whilst ensuring that consumers are adequately protected. The way to achieve this is through good consultation and cost benefit analysis and through adoption of the better regulation agenda generally.

### Family Support

**Mr. Goodman:** To ask the Chancellor of the Exchequer if he will break down the projections for total support to families given in the 2003 pre-budget report for *(a)* 2003–04 and *(b)* 2004–05 by (i) child benefit, (ii) child tax credit, broken down by (A) family element, (B) child element and (C) disability, (iii) childcare credit, (iv) statutory maternity pay, (v) maternity allowance, (vi) maternity expenses and (vii) other support. [158059]

**Dawn Primarolo:** The Pre Budget Report provided estimates of financial support for children through tax credits, Child Benefit and other benefits. The figures did not include expenditure on maternity related benefits. Information on expenditure on Child Benefit and other

benefits for children is published in the Benefit Expenditure Tables on the Department of Work and Pensions' website at www.dwp.gov.uk/asd/asd4/expenditure.asp.

Tax credit awards are based initially on a family's previous year income but the level of entitlement is determined by current year income. Estimates of expenditure on tax credits and on the components of tax credits are therefore subject to revision until awards are finalised after the end of the year. Updated estimates of expenditure on tax credits will be provided in the Budget.

### Financial Services Authority

**Jonathan Shaw:** To ask the Chancellor of the Exchequer how many complaints the Financial Services Authority has investigated from small businesses regarding banks; and if he will make a statement. [158355]

**Ruth Kelly:** The Financial Ombudsman Service (FOS) is responsible for dealing with complaints from small businesses regarding banks. In the current financial year to date (to end February 2004) the FOS has investigated 205 complaints from small businesses about banking products.

### London Population

**Simon Hughes:** To ask the Chancellor of the Exchequer what the size of the population in *(a)* Greater London and *(b)* each London borough was in each of the last five years; and what projections have been made for the next five years. [158447]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from John Pullinger to Simon Hughes, dated 5 March 2004*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning the size of the population of Greater London and each London borough for the last five years and the projected population for the next five years. I am replying in his absence. (158447)

Attached is a table showing the mid-year population estimates for Greater London and each London borough from 1998 to 2002.

There are currently no official subnational population projections consistent with this series. The last official long-term subnational population projections were 1996-based and did not take into account the 2001 Census and subsequent revisions to the mid year population estimates. The Office for National Statistics is currently working on 2002-based subnational population projections, which will be consistent with these mid year estimates and will be published in August 2004.

*Mid-year estimates of the usually-resident population of London boroughs: 1998–2002*

*Thousands*

| | *1998* | *1999* | *2000* | *2001* | *2002* |

Office for National Statistics

### Ministerial Direction

**Dr. Cable:** To ask the Chancellor of the Exchequer on how many occasions since 1 June 2003 he has been informed of a minister issuing a direction to an accounting officer as set out in paragraphs 14 to 17 of the Treasury document, The Responsibilities of an Accounting Officer; on what grounds each note was issued; and if he will make a statement. [158300]

**Ruth Kelly:** The Treasury has not been informed of any directions issued by Ministers to Accounting Officers under this guidance, since the reply I gave the hon. Member on 30 October 2003, *Official Report*, column 311W.

### Recruitment

**Matthew Taylor:** To ask the Chancellor of the Exchequer what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158179]

**Ruth Kelly:** The costs of recruiting staff fall largely to individual teams, and are charged to team budgets. Therefore information on the total cost of recruiting staff is not available centrally and could be provided only at disproportionate cost.

### Tax Returns

**Mr. Heald:** To ask the Chancellor of the Exchequer how many individual tax returns have been filed online in each year since the service became available. [158041]

**Dawn Primarolo:** I refer the hon. Gentleman to the answer my hon. friend the Financial Secretary gave him on 5 March 2003 *Official Report*, 1063W–64W, and the answers I gave to him on 9 September 2003, *Official Report*, 276W–77W and 15 January 2004, *Official Report*, 868W.

### Teenage Pregnancies

**Simon Hughes:** To ask the Chancellor of the Exchequer how many teenage pregnancies there were in *(a)* Greater London and *(b)* each London borough in each year since 2000. [158404]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from John Pullinger to Simon Hughes, dated 5 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many teenage pregnancies there were in a) Greater London, and b) each London borough, in each year since 2000.1 am replying in his absence. (158404)

The numbers of teenage pregnancies for London and for each London borough, for 2000 to 2002 (the latest year for which figures are available), are shown in the attached table.

*Conceptions to women aged under 18 by London borough: 2000–02*

*Number of conceptions*

| *Area of usual residence* | *2000* | *2001*[1] | *2002*[1] |

| Wandsworth | 202 | 173 | 175 |
| City of Westminster | 119 | 87 | 101 |

[1] Provisional figure.
[2] Provisional estimate.
[3] City of London has been combined with Hackney due to its small numbers of usual residents.

### Trusts (Tax Treatment)

**Mr. Swayne:** To ask the Chancellor of the Exchequer what plans he has to change the tax treatment of the property portion of trusts. [158821]

**Dawn Primarolo:** As stated in the Pre-Budget Report the tax treatment of trusts is under review by the Inland Revenue. They have consulted with interested parties about simplifying and modernising trust taxation and an announcement about this will be made in the Budget.

### Unemployment (London)

**Simon Hughes:** To ask the Chancellor of the Exchequer what the rate of unemployment in *(a)* Greater London and *(b)* each London borough was in each year since 1997. [158406]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Simon Hughes, dated 5 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question on unemployment in London. (158406)

The attached table gives unemployment rates for Greater London and for each London Borough, for each twelve month period ending in February from 1997 to 2002, the latest period for which information is available.

As with any statistical sample survey, estimates from the LFS are subject to sampling variability. This is a particular issue given the small sample sizes at borough level.

*Unemployment rate[1] in Greater London and London boroughs: 12 month period ending February each year*

*Percentage*

| | *1997–98* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* |
|---|---|---|---|---|---|
| Greater London | 9.1 | 7.9 | 7.3 | 6.9 | 6.6 |
| Barking and Dagenham | 9.6 | 10.2 | [2]— | 5.9 | 6.4 |
| Barnet | 6.6 | 5.4 | 5.6 | 5.9 | 4.9 |
| Bexley | 5.4 | 7.0 | 7.3 | [2]— | [2]— |
| Brent | 12.6 | 11.2 | 7.5 | 9.2 | 9.4 |
| Bromley | 4.5 | 5.5 | 3.8 | 3.7 | 3.9 |
| Camden | [2]— | 7.9 | 6.5 | 6.4 | 8.2 |
| City of London | [2]— | [2]— | [2]— | [2]— | [2]— |
| Croydon | 6.1 | 5.8 | 6.8 | 5.3 | 5.7 |
| Ealing | 9.5 | 6.4 | 7.7 | 7.3 | 6.3 |

ONS Labour Force Survey.

### Working Tax Credit

**Lady Hermon:** To ask the Chancellor of the Exchequer for what reasons delays are occurring in the payment of working tax credit for those who have changed jobs in Northern Ireland; what steps he is taking to eliminate these delays; and if he will make a statement. [158282]

**Dawn Primarolo** *[holding answer 4 March 2004]:* The Inland Revenue is not aware of problems leading to delays in payment when people change jobs in Northern Ireland. The Inland Revenue will be pleased to look into any individual cases where people consider that they have experienced delays.

## INTERNATIONAL DEVELOPMENT

### North Korea

**Mr. Bercow:** To ask the Secretary of State for International Development what assessment he has made of food supplies in North Korea; and what steps his Department is taking to improve them. [157557]

**Hilary Benn** *[pursuant to his reply, 3 March 2004, Official Report, c. 921W]:* The European Commission is funding targeted food aid to North Korea through the World Food Programme and other organisations. In January it agreed to give 5 million euros. The UK contributed around £680,000 to this, not £3,338,000 as stated in the previous answer.

### South Africa

**Mr. Chidgey:** To ask the Secretary of State for International Development if he will make a statement on the land expropriation laws which are set to come into effect in South Africa in April. [159039]

**Hilary Benn:** The South African Constitution authorises expropriation of property under certain conditions for a public purpose or in the public interest. The Constitution specifically states that the public interest includes the nation's commitment to land reform.

South Africa's approach to land reform has three main planks: the restitution of land rights to those unfairly dispossessed between 1913 and 1994; a programme of redistribution to transform the racial pattern of agricultural land ownership; and land tenure reform, including particularly reform of communal land tenure arrangements in the former homeland areas.

The South African Government plan to introduce amendments to the Restitution of Land Rights Bill to allow the Minister for Lands to purchase, acquire or expropriate land for the purpose of a restitution award.

Under the restitution process most urban claims have been settled. South Africa is now addressing the more difficult and complex rural cases, involving overlapping and competing claims. The amendments are designed to assist in determining the outcome in the most intractable cases. Any land expropriated under this process will be for the benefit of those who have a legitimate claim on that land.

Expropriation of land will be undertaken within the rule of law and will attract compensation in accordance with the Constitution of South Africa. The Amendments to the Bill require that the constitutional rights of the existing landowner/holder must be complied with and that the amount of compensation paid and the time and manner of payment must be agreed to by all parties, or by the Courts; and must be just and equitable, balancing the public interest and the interest of those affected.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for International Development how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department or its predecessors paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158255]

**Hilary Benn:** DFID has no central record of agency workers employed in either of our two headquarter offices in London and East Kilbride. We have only limited information readily available on the total of agency workers employed, and their respective costs, for the last three financial years. To research and obtain detailed information requested would incur a disproportionate cost to the organisation.

# Written Answers to Questions

*Monday 8 March 2004*

## LEADER OF THE HOUSE

### Welsh Language

**Mr. Llwyd:** To ask the Leader of the House what recent changes there have been in the use of the Welsh language in the conduct of public business by the House; and if he will make a statement. [158026]

**Mr. Hain:** The most recent change in the use of the Welsh language in the formal proceedings of the House followed the First Report of the Procedure Committee in 2000–01 (HC 47). On 5 March 2001, the House endorsed the Committee's recommendation that Welsh could be used by Select Committee witnesses giving evidence in Westminster, as well as in Wales.

### Westminster Hall

**Bob Spink:** To ask the Leader of the House if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [160094]

**Mr. Hain:** Since its creation in 1999 Westminster Hall has proved itself a popular and valuable debating chamber covering a wide variety of political issues. Government Departments take into consideration the topic of the debate and the division of ministerial responsibilities when deciding which Minister should respond. It is not necessarily the case that the Minister most suited to responding will be the most senior Minister in any given Department. However, all Ministers who respond to debates in Westminster Hall do so with the full authority of the relevant Secretary of State.

## TRANSPORT

### Air Quality

**Miss McIntosh:** To ask the Secretary of State for Transport what action the Government are taking to improve air quality, with particular reference to use of alternative road fuels. [159326]

**Mr. Jamieson:** Alternative fuels receive considerable support from Government, in the form of significant fuel duty incentives, grants for vehicle conversions under the PowerShift Programme, and reduced rates of Vehicle Excise Duty and company car tax for cleaner vehicles. In the December 2003 pre-Budget report, the Chancellor published the Alternative Fuels Framework, which sets out the basis on which support will, in future, be provided for clean, low carbon road transport fuels. In particular, it includes a commitment to provide three-year certainty on duty differentials for all alternative fuels from Budget 2004.

### Air Safety

**Mr. Paul Marsden:** To ask the Secretary of State for Transport if he will list in descending order airlines using British airports by their air safety records. [159313]

**Mr. McNulty:** The safety of UK airlines is overseen by the Civil Aviation Authority to a high standard. Foreign airlines operating to the United Kingdom are required to be operated in accordance with the minimum safety standards established by the International Civil Aviation Organisation. They are regulated by aviation authorities of their home states.

### Alternative Fuels

**Miss McIntosh:** To ask the Secretary of State for Transport what assessment he has made of the impact of changes in grants for people to convert vehicles to run on liquefied petroleum gas. [159322]

**Mr. Jamieson:** Currently, grants are available for the purchase/conversion of vehicles to run on liquefied petroleum gas under the Powershift and CleanUp programmes administered by the Energy Saving Trust. In 2003–04 these two programmes provided grants for the purchase/conversion of around 3,000 vehicles. In response to this year's increase in demand for these programmes, the Trust have discussed the appropriate level of Powershift and CleanUp grants for next year with stakeholders, and estimate that a similar number of vehicles will be converted/purchased during 2004–05.

**Miss McIntosh:** To ask the Secretary of State for Transport what steps the Government is taking to meet its targets on use of *(a)* compressed natural gas and *(b)* hydrogen as road fuels. [159323]

**Mr. Jamieson:** Our plans for encouraging the promotion and use of clean, low carbon vehicles and fuels are set out in the Powering Future Vehicles Strategy, published in July 2002. The Government has no formal targets for the use of compressed natural gas (CNG) or hydrogen as road fuels. But it supports the development and use of these and other clean, low carbon fuels in a number of ways, including through fuel duty differentials and other fiscal incentives, and by means of purchase grants to offset the additional cost of vehicles operating on these fuels. The Chancellor of the Exchequer confirmed in the Pre-Budget Report in December 2003, for example, that compressed natural gas (CNG) would continue to benefit from the very low fuel duty levels it currently enjoys for at least another three years. We are also currently supporting the trials of three hydrogen-powered buses in London, and subject to the outcome of these trials the Government intends to exempt hydrogen from fuel duty for a limited period in the future to encourage further development and uptake.

### Bardon Signal Box

**David Taylor:** To ask the Secretary of State for Transport what the estimated cost of the planned alteration work to Bardon Signal Box on the Leicester to Burton railway line is. [158609]

**Mr. McNulty:** This is an operational matter for Network Rail. I have passed this question to Network Rail, for them to respond directly to the hon. Member.

## Bus Passes

**Mr. Paul Marsden:** To ask the Secretary of State for Transport if he will list for each local authority the cost of a bus pass for pensioners. [159349]

**Mr. McNulty:** Under the Transport Act 2000, all local authorities are required to issue a bus pass free of charge to older and disabled people entitling the holder to local bus travel within their district for at least half the single journey bus fare. However, local authorities are able to offer more generous schemes or alternative schemes to the statutory minimum if they wish. Many local authorities offer alternative travel schemes, which entitle older people to greater travel benefits and in some cases an annual fee is charged for the pass for these alternative schemes. The cost and extent of the alternative pass varies from one local authority to another. Those that charged for the pass for an alternative scheme, following the introduction of the statutory minimum scheme in June 2001, are listed in the following table, which is reproduced from Transport Statistics Bulletin "Concessionary Bus Fares Schemes England 2001", a copy of which is available in the House of Commons Library. This is currently being updated and the latest information will be published later this year. Other authorities providing an alternative scheme may offer the pass free of charge.

*Table: Local authorities that in 2001 charged a fee for an alternative concessionary travel scheme in addition to the statutory minimum half fares with a free pass*

| *Name of authority* | *Annual fee (2001)* | *Alternative concession* |
|---|---|---|
| Basildon, Essex | £100 | Free travel in district |
| Bracknell Forest UA | £40 | Free travel for those aged 75 or more. |
| Braintree, Essex | £110 | Free travel in district |
| Brentwood, Essex | £54 | Free travel in district |
| Bridgnorth, Shrops | £30 | Free travel in whole county |
| Colchester, Essex | £159.45 | Free travel, plus travel tokens |
| Darlington UA | £52 or £62 | £52 for free travel in urban area, £62 for free travel in all UA |
| Dartford, Kent | £5 | Fee to get flat fare of 20p within borough |
| East Staffordshire | £10 | Free travel |
| Eden, Cumbria | £5 | Free travel in district |
| Harlow, Essex | £33 | Free travel in district |
| Hertsmere, Herts | £36 | Free travel in district |
| Ipswich, Suffolk | £1 | District scheme for 25p flat fare |
| Maldon, Essex | £150 | Free travel |
| Middlesbrough UA | £10 | Fee for fare reductions |
| North Wiltshire | £5 | For reduced rate travel |
| Preston, Lancashire | £10 | For free travel for those aged 70 or over |
| Redcar and Cleveland UA | £12 | Fee for fare reductions |
| Sevenoaks, Kent | £20 | Fee to get flat fare of 20p |
| Shrewsbury and Atcham, Shrops. | £115 | For free travel in the borough, half fare in the county, also produces a £15 permit for reduced rate travel |
| Slough UA | £30 | Fee to get free travel in UA |
| South Buckinghamshire | £20 | Permit gives free travel from age 70 |
| St Albans, Herts | £57 | Free travel in district |
| Stevenage, Herts | £25 | Free travel in district |
| Stockton on Tees UA | £5 | Fee for fare reductions |
| Suffolk Coastal | £13.50 | Fee for fare reductions |
| Telford and The Wrekin UA | £80 | Free travel throughout UA, half fare in Shropshire and to some towns beyond |
| Three Rivers, Herts | £25 | Free travel in district |
| Worcester City | £8 | Allows 25p flat fare or 40p return fare |
| Wyre, Lancs | £5 | Reduced rate travel |

## Computerised MOT Test

**Mr. Hancock:** To ask the Secretary of State for Transport what the *(a)* expected in-service delivery date and *(b)* cost of the computerised MOT test were when the contract was let; and what they are expected to be now. [159594]

**Mr. Jamieson:** The information is as follows:

*(a)* in the original contract the expected start of roll-out date for the computerised service was May 2002 at a transaction charge per recorded test of £1.07.

*(b)* the current contract stipulates that roll-out of the service should have started by mid-February 2004 with no increase in transaction charge. The start of the Vehicle and Operator Services Agency's (VOSA) testing has been delayed following slippage in SBS Software and an independent review of progress has recommended changes to plans to reduce risk and allow for additional testing. In the light of the review team's recommendations VOSA are discussing a revised programme with SBS. Discussions are not yet complete—but on current expectations the service is unlikely to be rolled out until late 2004.

**Mr. Hancock:** To ask the Secretary of State for Transport what penalty clauses are available for his Department to invoke should Siemens fail to deliver the computerisation of the MOT test *(a)* on time, *(b)* within cost estimates and *(c)* to the specification. [159595]

**Mr. Jamieson:** This is a PFI contract between my Department's Vehicle and Operator Services Agency (VOSA) and Siemens Business Services (SBS) and SBS bear the risk of late or unsatisfactory delivery of the service. The contract provides that if MOT Computerisation is not delivered:

*(a)* on time—SBS would not receive payments under the contract until the computerised service is available to MOT stations and delay would reduce the term of the contract. Therefore SBS would be penalised by extra costs as well as reduced income and profit;

*(b)* within cost estimates—under the contract SBS would bear the risk of increased development costs. They could also be subject to claims for liquidated and other damages for extra VOSA costs if they are responsible for delays;

*(c)* to the specification—the system will not be rolled out to MOT stations until it has satisfactorily completed field trials against the specification. SBS would bear the cost of corrective action to meet the specification and of consequent delays and would not receive any payments until the service is operational. Under the contract VOSA can withhold some transaction payments from SBS if the operation of the system does not meet specified minimum service levels.

As with any PFI contract VOSA has termination rights in specified circumstances.

### Cycling

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport how the Government are planning to focus resources on the provision of a bicycle-friendly road network within its 10 year Transport Plan. [156866]

**Mr. McNulty:** Local authority investment in cycling has increased by more than a third since 2001–02 and we will continue to encourage such investment. The Department has also obtained reports on highway authority provision for, and promotion of, cycling, with a view to encouraging specific actions to increase cycling levels. The Department's design guidance will also be updated.

### Dibden Bay Container Port

**Dr. Julian Lewis:** To ask the Secretary of State for Transport whether he has received from the promoters of the Dibden Bay container port proposal a legally binding undertaking for an environmental mitigation compensation scheme in the vicinity of Dibden Bay. [159499]

**Mr. Jamieson:** No.

### Disabled Drivers

**Miss McIntosh:** To ask the Secretary of State for Transport what plans the Government has to address road fuel poverty *(a)* in remote and rural areas and *(b)* for disabled drivers. [159324]

**Mr. McNulty:** Transport and accessibility are vitally important factors in social exclusion in remote and rural areas. The Government's strategy for improving access to jobs and key services for people in remote and deprived areas is set out in the SEU Report "Making the connections" which the DfT is responsible for implementing. The strategy contains 37 key policies, which crucially do not just involve improving transport but changing where and how services are delivered. Sixteen of the policies have already been implemented and a further thirteen policies and initiatives are under way, including a project to improve travel information and journey planning for job seekers.

Fuel duty rates and other forms of motoring taxation are a matter for the Chancellor of the Exchequer, who takes decisions on a Budget by Budget basis taking a range of economic, social and environmental factors into consideration. Some disabled people, for example, are able to claim an exemption from Vehicle Excise Duty, which can mean a saving of up to £165 a year.

### Driving (Mobile Phones)

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport if he will make a statement on the progress of the Government's message of safer driving with particular reference to using mobile telephones while driving. [156865]

**Mr. Jamieson:** Good progress is being made on the government's message of safer driving, which is taken forward under the THINK! road safety publicity campaign. THINK! uses a range of media channels—TV, radio, press, posters etc.—to provide a national platform to complement regional police and local authority activities. In addition it encourages broader support from private sector partners and works to generate media interest in road safety issues. Current awareness of THINK! stands at 71 per cent. among all drivers and 89 per cent. among male drivers under 35-years-old.

The THINK! campaign covers various themes throughout the year. The dangers of driver distraction caused by use of mobiles phones while driving was a key safety message in spring last year. More recently, we ran promotional activity to publicise the new regulations regarding hand held mobile phones introduced in December 2003.

Activity included national radio advertising, national press advertising, e-mail information to the top 1,000 UK companies/central and local government departments, a national press release, plus use of Variable Message Signs on motorways. We also produced new guidance, including leaflets, posters and information on the THINK! and DfT websites, for road safety officers in Local Authorities and others.

Research carried out for the Department by TNS in February 2004 showed that 96 per cent. of drivers were aware of the new mobile phones law. The research also showed that, there was an increase in the number of drivers claiming to keep their mobile phones switched off while driving, from 17 per cent. in November 2003 to 23 per cent. in February 2004.

The Department will continue to re-iterate the dangers of driver distraction surrounding the use of mobile phones, focussing on the simple message "Switch off before you drive off". Radio advertising ran in January 2004 and advertising in cinemas runs from 5 March 2004 for three weeks.

### Driving Tests

**Mr. Heald:** To ask the Secretary of State for Transport how many driving theory tests were booked in each year since 19 December 2001; and what proportion of such tests was booked online. [159329]

**Mr. Jamieson:** The total number of theory tests booked, and the proportion booked online, since 19 December 2001 when the facility to book via the Driving Standards Agency's website became available are:

| | *Total number of theory test bookings* | *Percentage booked online* |
|---|---|---|
| December 2001 | 56,460 | 0.278 |
| 2002 | 1,484,944 | 9.382 |
| 2003 | 1,486,261 | 24.497 |
| 2004 to date | 129,326 | 39.761 |

### Emissions Regulations

**Simon Hughes:** To ask the Secretary of State for Transport what plans he has to introduce statutory regulation on emissions from *(a)* motorcycles and *(b)* powered two-wheel vehicles. [159179]

**Mr. Jamieson:** Emissions from new motor cycles and other powered two wheeled machines are already regulated by the Motor Cycles Etc (EC Type Approval) Regulations 1999 (S.I. 1999 No. 2920) as amended by The Motorcycles Etc. (EC Type Approval) (Amendment) Regulations 2003. The former mandates the emissions standards in EU directive 97/24/EC to be met by all new machines entering service from 17 June 2003. The 2003 regulations mandate the more stringent two stage standards in EU directive 2002/51/EC for new motorcycles entering service from 1 July 2004 and from 1 January 2007.

### Flying (Urban Areas)

**Mr. Tyrie:** To ask the Secretary of State for Transport what representations he has received for changes to be made to the Rules of the Air to limit helicopters and other recreational aircraft from flying over urban areas. [159319]

**Mr. McNulty:** I receive letters from time to time, from individual members of the public, requesting for reasons of safety, privacy and nuisance that helicopters and light aircraft should be restricted from flying over urban areas.

A number of respondents to the consultation in 2000 on "Control of Noise from Civil Aircraft" suggested that the height restrictions specified in Rule 5 (Low Flying) of the Rules of the Air Regulations 1996 should be tightened so as to lessen noise. However, that consultation did not specifically encompass the Rules of the Air regulations, which are primarily safety-related.

**Mr. Tyrie:** To ask the Secretary of State for Transport what assessment has been made of the danger and nuisance of *(a)* helicopters and *(b)* other recreational aircraft from flying over urban areas. [159877]

**Mr. McNulty:** I refer the hon. Member to the answer I have given today (ref 159319).

### Greener Vehicles

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport how his Department is working with the Treasury to provide greater purchase incentives for smaller, cleaner vehicles. [156867]

**Mr. Jamieson:** The Government provides a number of incentives to encourage the purchase and use of clean, low carbon vehicles. The Vehicle Excise Duty regime, for example, is structured so that those who choose the cleanest, most fuel efficient vehicles can save themselves up to £110 a year (or up to £165 if they choose a fully electric car). The new company car tax system introduced in April 2002 provides very large incentives to encourage the purchase of clean, fuel-efficient cars. Early evidence suggests that it has already had a significant impact in the company car market. And, under the Government's PowerShift programme, which is administered by the Energy Saving Trust, purchase grants are available to incentivise the market for clean, low carbon vehicles and technologies. Officials in my Department work closely with their colleagues in the Treasury and Inland Revenue on these and other transport taxation issues.

### Hybrid Cars

**Mr. Paul Marsden:** To ask the Secretary of State for Transport how many hybrid petrol/electric cars were sold in the United Kingdom in each year since 1997. [159314]

**Mr. Jamieson:** The following table, based on vehicle registration data, sets out the number of hybrid electric cars sold since 2001—the earliest year for which this data is available.

| | *Number of cars sold* |
|---|---|
| 2001 | 568 |
| 2002 | 281 |
| 2003 | 373 |

The Government support the take-up of clean, low carbon vehicles, including hybrid electric vehicles, primarily through purchase grants and fiscal incentives, including the $CO_2$-linked graduated Vehicle Excise Duty and Company Car Tax systems. New hybrid electric models have recently been launched, and manufacturers are predicting total sales in excess of 2,000 vehicles for 2004.

### Post Buses

**Mr. Paul Marsden:** To ask the Secretary of State for Transport what Government financial support is available to post buses. [159032]

**Mr. McNulty:** Local authorities are able to use the Department's Rural Bus Subsidy Grant to support post bus services. These services may also be eligible to claim Bus Service Operator's Grant from the Department. Post bus projects have been awarded funding under our Rural Bus Challenge competition. I understand that the Countryside Agency has also provided funding to support post buses. In addition of course local authorities may use resources from the Revenue Support Grant for this purpose.

### Rail Services (Gloucester)

**Mr. Dhanda:** To ask the Secretary of State for Transport what assessment he has made of the viability of a new railway station in Gloucester. [159792]

**Mr. McNulty:** The Strategic Rail Authority is looking into the business case for and operational implications of a new parkway station near Gloucester. A report on the work is due to be completed shortly.

### Recovery Vehicles

**Mr. Chope:** To ask the Secretary of State for Transport what action the Government have taken to give accredited recovery vehicles *(a)* higher priority in congested traffic and *(b)* permission to run on the hard shoulder as set out at paragraph 3.143, of the White Paper, "A New Deal for Transport: Better for Everyone". [159409]

**Mr. Jamieson** *[holding answer 5 March 2004]:* Following discussion between the emergency services, officials from the Department for Transport and the Highways Agency and representatives of vehicle rescue and recovery operators, in November 2003 the Association of Chief Police Officers produced agreed guidance on use of the hard shoulder. The guidance makes clear that general use of the hard shoulder by recovery vehicles would not be appropriate where traffic is free flowing or where congestion has been caused by an unplanned incident. Where the latter has occurred, priority must be given to the emergency services. However, it identified certain circumstances where recovery services could be permitted to use the hard shoulder, for example where drivers or passengers of broken down vehicles are considered to be at risk and traffic is stationary or very slow moving for an extended period. Authority for such use is granted on a case by case basis by the police.

### Road Accidents

**Simon Hughes:** To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries there have been in road accidents in (i) Greater London and (ii) each London borough in each of the last five years. [158660]

**Mr. Jamieson:** The information requested is shown in the following table.

*Killed and seriously injured road casualties by London borough: 1998–2002*

*Casualties*

| | *1998* | *1999* | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|
| *Barking* | | | | | |
| Killed | 3 | 7 | 6 | 3 | 9 |
| Seriously injured | 126 | 99 | 107 | 108 | 92 |
| *Barnet* | | | | | |

## Road Safety

**Mr. Paul Marsden:** To ask the Secretary of State for Transport how many road traffic accidents took place in 2003 where interference by children distracting bus drivers was a contributory factor to the accidents. [159033]

**Mr. Jamieson:** This information is not available.

**Mr. Paul Marsden:** To ask the Secretary of State for Transport which local authorities use pre-wetted salt when road salting, broken down by Highways Agency area. [159345]

**Mr. Jamieson:** This information is not collated centrally. Local authorities decide upon their de-icing techniques and the materials they will use in the light of local climatic conditions and the nature of their highway network.

## Shipping

**Mr. Carmichael:** To ask the Secretary of State for Transport how many *(a)* UK and *(b)* foreign ships failed port side inspections in the UK in each of the last five years; and how many people have been employed to undertake port side inspections in each of the last five years. [158949]

**Mr. Jamieson:** The number of ships which failed port side inspections in each of the last 5 years was as follows.

*(a)* UK inspections of UK and other Red Ensign Group flagged ships:

| | *Number of ships Detained* |
|---|---|
| 1998–99 | 12 |
| 1999–2000 | 13 |
| 2000–01 | 4 |
| 2001–02 | 11 |
| 2002–03 | 4 |

*(b)* Port state control inspections of foreign ships:

| | *Number of ships Detained* |
|---|---|
| 1998–99 | 155 |
| 1999–2000 | 106 |
| 2000–01 | 116 |
| 2001–02 | 118 |
| 2002–03 | 132 |

Specific information about those employed for ship inspection work was collected from 1999. Since then the number of people employed to undertake port side inspections each year was as follows:

| | *Staff compliment* |
|---|---|
| 1999–2000 | 94 |
| 2000–01 | 94 |
| 2001–02 | 101 |
| 2002–03 | 102 |

**Mr. Carmichael:** To ask the Secretary of State for Transport what steps he is taking to protect UK merchant ships from piracy and armed attacks. [158950]

**Mr. Jamieson:** My Department has taken the following actions in recent years to counter piracy, and to raise awareness among the international community.

Ensured that the topic is covered in the bi-annual meetings of the UK National Maritime Security Committee. This provides a forum for senior staff in the UK maritime industry and trade associations to consider action to tackle the problem.

Participated in several IMO regional Missions and Seminars, presenting UK government actions and chairing working groups and syndicates. These seminars have played an important role in raising awareness of the incidence and impact of piracy and armed robbery at sea. Often the work is to make the regions where the "pirates" are based accept that there is a problem.

Jointly, with the FCO, provided the UK financial support for the IMO programme of Missions and Seminars, including funding the participation of two Metropolitan police officers with expertise in investigating acts of piracy.

Jointly, with the Metropolitan police, prepared an IMO draft Code of Practice on the investigation of acts of piracy and armed robbery at sea. DfT Chaired the IMO Correspondence and Drafting Groups and the Code has now been issued as an IMO circular (MSC Circular 984) and this was adopted at the MO General Assembly in November 2001.

DfT has also produced an IMO draft paper on the problem of "Phantom" (stolen) ships and this has also been issued as an IMO Circular and adopted at the IMO General Assembly.

Produced and ensured the widespread availability of the Marine Guidance Note (MGN 241) advising UK ship operators and seafarers on steps to protect against attack by pirates/armed robbers at sea. This advice was issued in November 2002.

Taken the lead in promoting the inclusion of piracy in the United Nations General Assembly (UNGA) annual resolution on the oceans.

Raised the topic in bilateral meetings with officials and ministers from overseas countries.

### Speed Cameras

**Mr. Amess:** To ask the Secretary of State for Transport what proportion of fees from speed cameras in Essex was reinvested in road safety measures in each of the last five years. [158786]

**Mr. Jamieson:** Essex has been participating in the safety camera cost recovery scheme since April 2000. Receipts from safety camera fines resulting in areas participating in the scheme may be applied solely to the installation and operation of approved safety camera installations. I refer the hon. Member to my answer of 23 February 2004, *Official Report*, column 53W, to the hon. Member for Billericay (Mr. Baron) for details of the receipts received by the Essex Safety Camera Partnership. Other investment in road safety measures is funded within local authorities1 and national road programmes. Before the setting up of the safety camera cost recovery scheme in April 2000, fine revenue from camera activity in Essex accrued in whole to the Consolidated Fund.

**Mr. Andrew Turner:** To ask the Secretary of State for Transport pursuant to his answer of 24 February 2004, *Official Report*, column 343W, if he will list the partners in each partnership. [159636]

**Mr. Jamieson:** The partners comprise the relevant police authorities, highway authorities and magistrates courts committees, and for some partnerships local health authorities also.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Transport how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158246]

**Mr. McNulty:** The Department for Transport was formed on 29 May 2002. Due to Machinery of Government changes information on temporary staff working in DfT(C) is only available from December 2002. At any one time the Department employs approximately 47 temps through employment agencies which represents approximately 2 per cent. of the total staff employed. For the period December 2002 to March 2003 the total cost paid to employment agencies was £277,855 and £793,542 for the period April 2003 to January 2004.

### Track Maintenance

**Mr. Webb:** To ask the Secretary of State for Transport if he will investigate whether Network Rail's planned activities in respect of clearing trackside vegetation in the Westerleigh area are *(a)* consistent with Network Rail's environmental policy and *(b)* no more than is required for safety purposes. [158908]

**Mr. McNulty** *[holding answer 5 March 2004]:* This is an operational matter for Network Rail. I have passed this question to Network Rail, for them to respond directly to the hon. Member.

### Vehicle Excise Duty

**Mr. Paul Marsden:** To ask the Secretary of State for Transport how many car owners failed to pay for car tax discs in each year since 1997. [159315]

**Mr. Jamieson:** Vehicle excise duty evasion is measured by roadside surveys. The last two were carried out in 1999 and 2002. The best estimate of total unlicensed stock in GB in 1999 was 1.52 million vehicles and in 2002 1.76 million vehicles.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Combined Heat and Power

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the capacity of the combined heat and power unit run by her Department is: [154208]

(2) when she last conducted an environmental audit on the combined heat and power unit run by her Department; [154209]

(3) what assessment she has made of *(a)* the sustainability, *(b)* the effectiveness and *(c)* the efficiency of her Department's combined heat and power unit; [154210];

(4) what the latest figure for cost per unit of operating the Department's combined heat and power plant is; [154211]

(5) what estimate she has made of damage to *(a)* information technology equipment and *(b)* stationery within her Department caused by the Department's combined heat and power unit; [154212]

(6) when she will reply to the questions on her Department's combined heat and power unit of 5 February from the hon. Member for Vale of York, reference 154208, 154209, 154210, 154211 and 154212. [156341]

**Alun Michael:** Defra currently operates one combined heat and power system on its estate. This is at its Weybridge site occupied by the Veterinary Laboratories Agency.

The capacity of the system is 1 megawatt, it was installed in 2000 and to date no environmental audit has been conducted on it. While no assessment has yet been made on its sustainability it is proving effective being very reliable and producing electrical power for the site at a cost per unit of 0.709p per kwh. A study is currently underway to review its efficiency.

Since the plant has been in use no damage has been caused to information technology equipment nor stationery.

### Common Agricultural Policy

**Dr. Cable:** To ask the Secretary of State for Environment, Food and Rural Affairs what the total

Government expenditure on agriculture was in each of the last five years; and what proportion of each total required payments under the Common Agricultural Policy. [155889]

**Alun Michael:** Total public expenditure on agriculture and EU receipts under the CAP over the past five years are provided in the table. The increase in expenditure in 2001–02 was due to the foot and mouth crisis.

| *Financial year* | *Total public expenditure on agriculture £ million* | *EU receipts under the CAP £ million* | *EU receipts under the CAP as a proportion of total public expenditure on agriculture Percentage* |
|---|---|---|---|
| 1 April 1998 to-31 March 1999 | 3,482 | 2,941.7 | 84.5 |
| 1 April 1999 to 31 March 2000 | 3,161 | 2,674.4 | 84.6 |
| 1 April 2000 to 31 March 2001 | 3,042 | 2,534.8 | 83.3 |
| 1 April 2001 to 31 March 2002 | 4,663.9 | 2,320.3 | 49.75 |
| 1 April 2002 to 31 March 2003 | 3,119.2 | 2,619.2 | 84 |

*Source*:
The total public expenditure figures provided in the table have been taken from the relevant Agriculture in the United Kingdom publications and the EU receipts from the relevant Annual Report and Accounts of the Intervention Board and Rural Payments Agency (founded October 2001).

### Illegal Animal Products

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs when the pilot project using detector dogs to find illegal animal products will be concluded. [158831]

**Mr. Bradshaw** *[holding answer 4 March 2004]:* The pilot using detector dogs began in September 2002 and ran for six months to end March 2003.

The dogs were found to be effective and were taken on permanently by HM Customs and Excise when they took over enforcement responsibility of anti-smuggling measures in relation to illegal imports of products of animal origin on 11 April 2003.

### Milk

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the farm-gate value of cows' milk produced by the dairy herd in England was in the last year for which figures are available. [157936]

**Alun Michael:** Defra collects farm-gate price information for England and Wales. As the figures are based on data supplied by the purchasers of raw milk, as opposed to the producers, we are unable to provide a regional breakdown of price or differentiate milk produced on farms located in England and Wales.

We have estimated the farm gate value of cow's milk by the dairy herd in England and Wales for 2003 to be £2,034 million.

### Farming

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the extent to which problems English farmers face affect farmers in Scotland, Wales and Northern Ireland differently. [156111]

**Alun Michael:** The following table illustrates variations in Net Farm Income between the four UK countries. It highlights a welcome overall recent upward trend in Net Farm Incomes in each of the four countries. One of the most important drivers of UK farm incomes has been and will continue to be the exchange rate which has had a positive impact on all countries within the UK in recent years.

*Net farm income by country and type of farm*

*Average net farm income per farm (£000 per farm)*

| | *Accounting years ending on average in February* | | | | |
|---|---|---|---|---|---|
| | *1999–2000* | *2000–01* | *2001–021* | *2002–031* | *2003–042* |
| *At current prices* | | | | | |
| *England* | | | | | |
| Dairy | 9.4 | 14.0 | 30.7 | 18.3 | 20.5 |
| Cattle and sheep (less favoured areas) | 5.3 | 5.8 | 7.9 | 18.0 | 19.0 |

[1] Excluding farms subjected to compulsory foot-and-mouth disease cull.
[2] Provisional.

Further information on the situation of agriculture in England, Scotland, Wales and Northern Ireland can be found in the following publications.

Defra, on behalf of the UK Agricultural Departments, publishes the annual report "Agriculture in the United Kingdom" (AUK). This describes agricultural and environmental developments during the previous year, reporting on each of the main agricultural commodities and containing information on agricultural incomes. Details on the circumstances of Agriculture in the four UK countries are given in tables 2.3 and 2.4 of AUK. Copies of AUK are placed in the House Library and more information can be found on the Defra website at: http://statistics.defra.gov.uk/esg/publications/auk/default.asp

In addition to this, a more detailed breakdown of information on agriculture in each of the UK countries is provided in the following specialist publications:

England: Farm Accounts in England
http://statistics.defra.gov.uk/esg/publications/fab/default.asp

Wales: Aggregate Agricultural Output and Income 2002
http://www.wales.gov.uk/kevpubstatisticsforwalesheadline/content/agriculture/2003/hdw20030227-e.htm

Northern Ireland: Statistical Review of Northern Ireland Agriculture 2002
http://www.dardni.gov.uk/econs/spub0018.htm

Scotland: Scottish Agriculture—Output, Input and Income Statistics
http://www.scotland.gov.uk/library5/agri/oiis02.pdf

### Fisheries

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* the European Commission and *(b)* other EU member states regarding proposals to reduce cetacean by-catch in the past year. [155945]

**Mr. Bradshaw:** The importance of reducing dolphin and other small cetacean by-catch has been raised by the UK at ministerial level with the Fisheries Commissioner on a number of occasions and bilaterally with France. In particular, the UK has pressed in February 2003 for the introduction of a observer programme across the EU to broaden the information available about which fisheries, and which vessels, are involved in the dolphin by-catch problem.

Following this, the Commission published, on 24 July 2003, a draft Council regulation concerning the incidental by-catch of cetaceans in fisheries. Discussions on this proposal are currently taking place at official level and will come to a future Council of Minister's meeting for adoption.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to place observers on UK fishing vessels to examine the causes of the cetacean by-catch. [155947]

**Mr. Bradshaw:** As part of Defra-funded research, the Sea Mammal Research Unit (SMRU) has in recent years placed observers on UK vessels in a number of fisheries to monitor small cetacean by-catch.

As part of a new five year Defra-funded contract which started in 2003, SMRU has continued to place observers on UK vessels in the offshore bass fishery and plans to monitor other pelagic trawl fisheries and selected gillnet fisheries. This work is intended to provide improved estimates of annual by-catch levels of harbour porpoise and common dolphins, and to improve our understanding of how, where and why such events occur.

### Market and Coastal Towns Initiative

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs what her latest estimate is of the costs of the Market and Coastal Towns Initiative in each year from 2000–01 to 2005–06 (planned); and if she will make a statement. [156600]

**Alun Michael:** The Rural White Paper stated that £37 million over three years (2001–04) would be made available to fund regeneration in market towns. This funding has been delivered through

(a) the Regional Development Agencies (£32 million) and matched with funding from partners; and

(b) the Countryside Agency (£5 million) for work on Health Checks for individual Towns, the Beacon Towns Network, and the Best Practice Programme.

When the announcement of the funding was made, it was envisaged that 100 towns would benefit from this funding. I am pleased to report that, through the innovative methods used in each of the regions, currently 227 towns are receiving support.

Future funding is being reviewed as part of the Modernising Rural Delivery process. At the same time Defra is working with the Countryside Agency to assess the outcomes from the initiative, with a report due in June, and are in discussion with the Regional Development Agencies on evaluation of the initiative in the regions.

### Rights of Way

**Mr. Goodman:** To ask the Secretary of State for Environment, Food and Rural Affairs what consultations with groups representing people with disabilities she had before issuing her consultation document, Use of Mechanically Propelled Vehicles on Rights of Way. [159259]

**Alun Michael:** Last December I met a number of groups representing people with disabilities, under the banner Countryside For All, to discuss rights of way issues. We will look carefully at the responses from such groups to our consultation document.

**Mr. Goodman:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent responses from groups representing people with disabilities she has had on her consultation document, Use of Mechanically Propelled Vehicles on Rights of Way. [159261]

**Alun Michael:** By 4 March we had had responses from the Kent branch of the National Federation of the Blind; the Access Group for Kent and Canterbury; and County Mobility in Cheshire.

**Mr. Rendel:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for section 34*(a)* of the Road Traffic Act 1988. [159694]

**Alun Michael:** I made a written Ministerial statement to the House on 9 December 2003, *Official Report*, column 81WS. The Government will not be implementing section 34A of the Road Traffic Act 1988. New proposals have been put forward in the Government consultation paper, "Use of mechanically propelled vehicles on Rights of Way".

**Mr. Key:** To ask the Secretary of State for Environment, Food and Rural Affairs when she issued the Departmental Circular on Traffic Regulation Orders described in Proposal 1 of her consultation on the use of mechanically propelled vehicles on rights of way. [159273]

**Alun Michael:** We will issue the Departmental Circular shortly. The Circular will explain the range of powers available to regulate the use of mechanically propelled vehicles, including the power to make traffic regulation orders.

### Varroa Mites

**Chris McCafferty:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in developing an effective treatment against highly resistant varroa mites. [157781]

**Mr. Bradshaw:** Recent experience both on the European Continent and in North America has shown that there is a spread of resistance to most medicament treatments applied to control the varroa mite. Misuse of proprietary products or use of illegal treatments has been found to be the cause of resistance in most cases.

In the UK, resistance to the two pyrethroid-based varroacides, Apistan and Bayvarol, was first detected in Devon in 2001. Resistance was detected early through the monitoring programme conducted by the Central Science Laboratory's (CSL) National Bee Unit. This enabled action to be taken prior to the widespread colony collapse which has been experienced in other countries. Continued monitoring by beekeepers and CSL demonstrates that resistance is still localised. In many parts of the UK pyrethroids retain their high efficacy.

The introduction to the UK market in 2003 of Apiguard, a non-pyrethroid-based treatment for varroa, now means that beekeepers are able to apply this product to their colonies, ideally as part of an Integrated Pest Management (IPM) approach to combating pyrethroid-resistant mites.

Measures funded by Defra to protect bee health include training and technical advice to beekeepers in order to help them become more self-reliant through improved bee husbandry, in particular dealing with varroa. Defra is also currently funding research investigating the use of entomopathogenic fungi as possible microbial control agents of varroa.

## INTERNATIONAL DEVELOPMENT

### Commission for Africa

**Mr. Drew:** To ask the Secretary of State for International Development how the members of the Commission for Africa were chosen. [159379]

**Hilary Benn:** The members of the Commission for Africa have been personally invited to participate by the Prime Minister.

**Mr. Drew:** To ask the Secretary of State for International Development whether the Commission for Africa will take evidence in Africa. [159381]

**Hilary Benn:** Yes. The Commission will be seeking evidence from African institutions, civil society and citizens including through seminars, participation in debates and commentary on work in progress. Commissioners such as Prime Minister Meles of Ethiopia, Finance Minister Trevor Manuel of South Africa and K.Y. Amoako (Executive Secretary of the UN Economic Commission on Africa) will also bring African perspectives to the debate.

## HIV/AIDS

**Tom Brake:** To ask the Secretary of State for International Development (1) what representations his Department has received from *(a)* the UN, *(b)* the EU and *(c)* NGO sources on channelling more aid money towards fighting malaria in sub-Saharan Africa on the basis that HIV/AIDS rates in sub-Saharan Africa were stabilising; [156423]

(2) what representations his Department has received from *(a)* the UN, *(b)* the EU and *(c)* NGO sources that HIV/AIDS rates are stabilising in Africa. [156437]

**Mr. Gareth Thomas:** DFID has received no representations to channel more aid assistance towards fighting malaria on the basis that HIV/AIDS rates are stabilising in Africa, or, any specific representations about trends in HIV/AIDS rates. The global UNAIDS epidemic update of December 2003 (available at www.unaids.org) records that among some populations in sub-Saharan Africa, for example in Zambia, and groups, for example, pregnant women, HIV rates are stabilising. However, UNAID's overall conclusions are that we are not witnessing a decline in sub-Saharan Africa's epidemic. Even if prevalence rates stabilise it may not mean that infection rates have dropped. Rather, it may mean that a persistently high number of new infections is offset by an increasing number of deaths. In such cases it will still be necessary to fully support prevention programmes, while scaling up provision for treatment and care. In terms of African countries where the UK's support is predominantly through budget support, decisions on the balance of investment between different public health priorities are for country governments to make.

DFID has contributed £48 million over the period September 1999 to March 2004 to Roll Back Malaria who operate globally but with priority given to sub-Saharan Africa where the burden is highest. We have committed $280 million over eight years to the Global Fund to Fight AIDS, TB and Malaria.

## Malaria

**Mr. Pike:** To ask the Secretary of State for International Development what discussions he has had with countries affected by malaria on the economic impact on *(a)* public services and *(b)* the stability of their societies. [157792]

**Mr. Gareth Thomas:** Malaria is a leading cause of mortality and morbidity in many poor countries, limiting social and economic development. The UK, as part of an international effort, is committed to reducing the impact of malaria. We support the Roll Back Malaria partnership, and look to it to inform us on the impact of malaria in developing countries.

DFID is in regular contact with health officials in developing countries and provides assistance through its support to developing country programmes. As part of the international effort, we are working to ensure that the Roll Back Malaria partnership lends its support to nationally led programmes, processes and strategies, and provides sound evidence-based support for the effective use of additional resources from the Global Fund to Fight AIDS, TB and Malaria.

**Mr. Pike:** To ask the Secretary of State for International Development what assessment he has made of the *(a)* economic and *(b)* social impact of malaria on developing countries. [157793]

**Mr. Gareth Thomas:** Malaria is a leading cause of mortality and morbidity in many developing countries, limiting economic and social development. It is understood to be both a disease of poverty and a cause of poverty. Annual economic growth in countries with high malaria transmission is lower than in countries without malaria and in some African countries it penalises economic growth by up to 1.3 per cent. per year. This leads to substantial differences in GDP between countries and severely restrains the economic growth of the entire region.

The social impact of malaria includes the loss of earnings, human pain and suffering. It hampers children's social development and educational opportunities. The disease affects individual and household decision-making in ways that have a negative impact on economic productivity and growth.

As part of an international effort, the UK is committed to reducing the impact of malaria. We provide support through global partnerships such as Roll Back Malaria and the Global Fund to Fight AIDS, TB and Malaria as well as supporting country programmes (projects, support to health sectors and general budget support).

## Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for International Development how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156151]

**Hilary Benn:** I have made a number of speeches on a wide range of domestic and international issues. Copies of speeches, where available, can be found on the Departmental website at www.dfid.gov.uk

## Nepal

**Mr. Colman:** To ask the Secretary of State for International Development how much aid his Department gave to Nepal in each year since 2000; how much aid it plans to give in 2004; and if he will break down the total in each case by category. [R] [158855]

**Mr. Gareth Thomas:** UK bilateral aid to Nepal since 2000 is as follows:

*£000*

| *Financial year* | *Technical co-operation* | *Project or sector aid* | *Grants/other aid in kind* | *Humanitarian assistance* | *Total DFID programme* |
|---|---|---|---|---|---|
| 1999–2000 | 11,119 | 2,092 | 1,636 | — | 14,847 |
| 2000–01 | 13,686 | 2,742 | 1,267 | — | 17,695 |
| 2001–02 | 18,750 | 1,805 | 659 | 2,201 | 23,414 |
| 2002–03 | 24,599 | 2,038 | 1,156 | 94 | 27,887 |

In the financial years (FY) 2003–04, DFID is on track to spend approximately £30 million in Nepal, and the aid framework for FY 2004–05 is set to increase to £35 million.

**Mr. Colman:** To ask the Secretary of State for International Development which non-governmental organisations based in the UK are financially supported by his Department to work in Nepal. [R] [158856]

**Mr. Gareth Thomas:** We are supporting three projects in Nepal under our Civil Society Challenge Fund. These are:

| *Agency* | *Project* | *Budget 2004–05* |
|---|---|---|
| Handicap International | Handicap in Development | 85,000 |
| Minority Rights Group | Promoting rights | 28,218 |
| Nepal Leprosy Trust | Problems of Stigma | 84,000 |

In addition we are also providing £56.26 million in strategic support to 15 major UK based non-governmental organisations in the form of Partnership Programme Agreements. A number of these organisations currently support activities in Nepal, including VSO who have 29 volunteers working in the Nepalese education sector.

### Recruitment

**Matthew Taylor:** To ask the Secretary of State for International Development what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158186]

**Mr. Gareth Thomas:** DFID currently undertakes all its recruitment in-house, and does not therefore delegate or contract out any of its recruitment procedures.

No figures are available for the cost of recruitment of civil servants for DFID for the financial years since 1996–97. To obtain this information would incur a disproportionate cost to DFID.

## HOME DEPARTMENT

### Anti-terrorism Legislation

**Ms Oona King:** To ask the Secretary of State for the Home Department how many people have been detained under United Kingdom anti-terrorism legislation since 11 September 2001; how many are in detention; how many of the total number detained have been charged; and how many are Muslims in each case. [156754]

**Mr. Blunkett:** 16 people have been certified and detained under Part 4 of the Anti-Terrorism Crime and Security (ATCS) Act, of whom 14 remain in detention. Anonymised details are provided at the Home Office website at: www.homeoffice.gov.uk/docs3/atcsa_detainees.html

Under the Terrorism Act, Section 41 relates to the power of a constable to arrest, and detain for up to 14 days, without warrant a person whom he reasonably suspects to be a terrorist. A full 14 day detention is subject to judicial approval at various stages of the detention. From 11 September 2001 to 31 January 2004, 544 individuals were arrested and subsequently detained under this power.

In addition, six people have been convicted and detained for offences under that act. Of these, four have now left detention.

Schedule 7 of the Terrorism Act 2000 allows an examining officer at a port or border control post to detain a person for up to nine hours (starting from the time at which the examination begins) in order to determine whether the person has been involved in the commissioning, preparation or instigation of acts of terrorism. To date, 47 people have been detained under this power.

Details of convictions under the Terrorism Act 2000 are provided on the Home Office website at: www.homeoffice.gov.uk/docs3/tatc_arrest_stats.html

I do not believe that the religion of an individual is relevant to whether or not they may be involved in terrorism and this information is not collated centrally.

### Identity Cards

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how the introduction of identity cards will protect people from identity fraud and theft. [157005]

**Beverley Hughes:** The incorporation of advanced biometric information into identity documents and the development of an electronic national identity register were announced by my right hon. Friend the Home Secretary in his statement on a national identity cards scheme on 11 November. These measures would provide a unique link between the identity card and the person to whom it was issued. They would also protect people from identity fraud and theft by:

(a) helping to ensure that fraudsters could not set up multiple identities;

(b) providing United Kingdom residents with an easy and secure way of proving their identity;

(c) allowing Government Departments who provide a public service and authorised private sector organisations to identify with whom they are dealing.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department (1) what personal information will be contained on the National Identity Register; and what legal and procedural safeguards will limit access to an identity cardholder's record on the National Identity Register; [157006]

(2) who will have access to the information stored on the national identity card database. [157039]

**Beverley Hughes:** Data held on the National Identity Register will be basic identity information—such as name, address, date of birth, immigration status and a confirmed biometric—and this will be set out in statute.

The legislation will allow the cards scheme to be used by any authorised service—public or private—to establish identity with the consent of the card-holder, but with strict limits on the information available.

While police and other organisations will not have routine access to data stored on the National Identity Register, there will, in statute, be specified circumstances for disclosure from the National Identity Register, for example, in cases of serious crime. This will be subject to independent oversight as at the present time.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how, under the current proposals, individuals will gain access to services where an identity card is required if their card is lost or stolen. [157259]

**Beverley Hughes:** An identity card, although very helpful to public services as a reliable means of proving identity, would not become mandatory until a specific further parliamentary decision on a move to compulsion. Where the identity card is used to access public services we will want to ensure that procedures are in place to help those whose card has been lost or stolen, especially in cases of emergency. We will be giving detailed consideration to how this will be achieved.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department (1) how his Department measures the amount of public support for the identity card proposal; [157301]

(2) what the reasons were for discarding 5,000 responses to the Entitlement Card consultation. [157302]

**Beverley Hughes:** During July 2002 and January 2003 the Home Office carried out extensive research into public attitudes to the proposals for what were then known as entitlement cards. The results of this research were published as "Identity Cards: A Summary of Findings from the Consultation Exercise on Entitlement Cards and Identity Fraud" (Cm 6019 of November 2003).

The Government did not discard 5,000 responses. The publication included a section on page 63 breaking down the 5,031 replies received via the website of a privacy organisation and explaining how these replies had been received.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what his policy is on whether an identity card scheme should be under the control of a new independent statutory body. [158721]

**Beverley Hughes:** The Government will address this in the draft legislation announced in the Queen's Speech and will consider the comments which will be received on the draft Bill.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what assessment he has conducted of the *(a)* costs and *(b)* consequences of a major breach of the national identity card database. [158709]

**Beverley Hughes:** The security and integrity of the database are integral to maintaining trust in the identity cards scheme. Home Office officials are already working with security experts to ensure that security issues are considered from the start of the database design, and with other Government Departments which have similar databases with similar security needs, such as the United Kingdom Passport Service.

The specifications and design of the database and its security features will take into account security advice from the earliest stages. The design process will include threat and vulnerability assessments. Threats which will be assessed will include unauthorised internal and external access to data. These threat and vulnerability assessments will examine the risks and consequences of attacks on the databases and weigh up the costs and benefits of various defence strategies.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how identity cards will enable the identification of illegal immigrants in the UK if it will not be compulsory to carry the card. [158712]

**Beverley Hughes:** The National Identity Register will link each individual's record to a biometric that is unique to that person. This means that even without a card being produced, it will be possible to check someone's biometric information directly with the National Identity Register to establish his or her identity. This could be done with the person's consent or without consent in certain limited circumstances such as establishing the identity of persons who have been arrested for deceiving an immigration officer as to their real identity.

**Chris Ruane:** To ask the Secretary of State for the Home Department how many identity cards for young people purchasing alcohol and tobacco are in circulation; and what plans he has to change these arrangements. [156040]

**Beverley Hughes:** There is no national proof of age card and therefore no figures are held centrally for the number of cards issued by the various existing card schemes.

The Government's plans for a national identity cards scheme would provide a nationally accepted, useful and secure way of proving and determining age when young people wish to purchase age restricted products such as alcohol. However, this is some way in the future—the introduction of plain identity cards on a phased basis would, on current plans, begin during 2007–08.

In the shorter term, the Government have a strong interest in initiatives like the British Retail Consortium's Proof of Age Standards Scheme (PASS) which establishes a common standard for issuing the various proof of age cards that are available. This should go some way towards assisting retailers in recognising and accepting reputable cards when requesting proof of ID and for young people to prove their age.

### Security Passes

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many security passes have been reported *(a)* lost and *(b)* stolen by staff in departmental agencies in the last 12 months. [147976]

**Fiona Mactaggart:** The total number of security passes reported lost or stolen by departmental agencies for the year ending 31 December 2003 was 227: 215 lost and 12 stolen.

Passes issued by the agencies do not afford the holder access to central London Home Office buildings and Ministers.

## CABINET OFFICE

### Civil Servants (Pay)

**Mr. McGrady:** To ask the Minister for the Cabinet Office what pay award was awarded to civil servants in Great Britain on 1 April 2003. [158633]

**Mr. Alexander:** Pay outside of the Senior Civil Service is delegated to individual Departments and agencies. Information on individual pay awards is not held centrally.

The pay ranges for Senior Civil Servants were increased by 2.25 per cent. Individual Senior Civil Servants received performance related pay awards of between 0 and 9 per cent. depending on their personal contribution.

### Contingency Planning

**Patrick Mercer:** To ask the Minister for the Cabinet Office what part virtual reality equipment plays in enabling Sir David Omand to provide central co-ordination for contingency planning and the resilience capability programme. [158979]

**Mr. Alexander:** Computer-based scenario work is used extensively in developing the UK's civil contingency doctrine and planning, including the resilience capability programme.

In addition, the Emergency Planning College at Easingwold is studying the feasibility of adapting military synthetic environment technologies for the training of joint, multi-agency emergency management teams fundamental to the UK's resilience under a collaborative arrangement with the Defence Procurement Agency's Training and Simulation Integrated Project Team.

**Patrick Mercer:** To ask the Minister for the Cabinet Office what arrangements are in place for those involved in contingency planning to receive appropriate professional and career development. [158980]

**Mr. Alexander:** The Emergency Planning College at Easingwold is the primary provider of training and professional development for emergency planning staff employed in the public sector, including local government and the emergency and health services. The latter groups account for some 80 per cent. of the college's annual training throughput of 6,500. The college currently delivers a range of generic courses reflecting the diverse requirements of its customers.

Major changes in the training regime have been under development since last summer. These will take effect in September 2004, when the college will introduce a new programme based on a spine of core courses and a range of optional modules tailored to meet specific needs. This architecture reflects best practice and will provide the foundation for subsequent professional and academic accreditation of the college's courses across the span from NVQ to postgraduate.

### Asset Sales

**Mr. Heald:** To ask the Minister for the Cabinet Office what assets were sold by his Department in each year since 1997 to date; what the value of each item was; and if he will estimate the value of asset sales planned for 2003–04 and 2004–05. [159344]

**Mr. Alexander:** Assets that are routinely disposed of include plant and machinery, which in the main comprise motor cars, owned by the Government Car and Despatch Agency, and fixtures and fittings, which includes office furniture and IT equipment.

*Fixed asset disposals at Net Book Value (NBV) for the Cabinet Office*

£000

| Year ended 31 March | Amount |
|---|---|
| 2000 | 1,698 |
| 2001 | 1,703 |
| 2002 | 1,608 |
| 2003 | 14,928 |
| 2004 | [1]4,274 |
| 2005 | [2]— |

[1] Estimate
[2] Not available

Details prior to 2000 are not held.

### Better Regulation Taskforce

**Mr. Heald:** To ask the Minister for the Cabinet Office what account is taken of the promotion of sustainable development in the work of the Better Regulation Taskforce. [159335]

**Mr. Alexander:** The Better Regulation Task Force advises the Government on action to ensure that regulation and its enforcement meet the principles of good regulation. The Task Force's principles are entirely consistent with our commitment to sustainable development and we seek to apply them when implementing policy. For example, the Government has accepted the helpful recommendations made by the Task Force in its report "Environmental Regulation: Getting the Message Across" (July 2003) on ways to improve the implementation of regulations on producer responsibility.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the most recently enacted legislation is which he proposes to repeal following a report of the Better Regulation Taskforce. [159339]

**Mr. Alexander:** The Government seeks to act on the recommendations of the Better Regulation Task Force wherever possible. Major reforms currently

underway, or recently enacted, that follow earlier recommendations made by the Task Force include the reform of planning law, liquor licensing and fire safety.

### Business Regulations

**Mr. Heald:** To ask the Minister for the Cabinet Office how many proposals to impose new regulations on business have been dropped following regulatory impact assessments. [159340]

**Mr. Alexander:** I refer the hon. Member to the answer I gave my hon. Friend the Member for North Norfolk (Norman Lamb) of 2 February 2004, *Official Report*, column 715W.

### Civil Contingencies Bill

**Mr. Heald:** To ask the Minister for the Cabinet Office what plans he has to table amendments to the Civil Contingencies Bill. [158901]

**Mr. Alexander:** Following a commitment given to the hon. Member for Sheffield Hallam during Committee Stage, the Government will amend the Bill to require a declaration of compatibility with the Human Rights Act to be made when emergency regulations are brought forward.

The Government will also amend the Bill to make provisions regarding cross-border co-operation, following a commitment given to the hon. Member for Orkney and Shetland. This follows discussions with the Scottish Executive.

The Government will keep the need to table further amendments to the Bill under review.

### Information and Communication Service

**Mr. Heald:** To ask the Minister for the Cabinet Office what the expenditure of the Government Information and Communication Service's operations within the Cabinet Office was *(a)* in the latest year for which figures are available and *(b)* in 1996–97; and if he will make a statement. [159576]

**Mr. Alexander:** I refer the hon. Member to the answer I gave to the hon. Member for Lewes (Norman Baker) on 14 January 2004, *Official Report*, column 767W.

### New Deal for Disabled People

**Mr. Heald:** To ask the Minister for the Cabinet Office how many people have been employed in *(a)* central Government and *(b)* the public sector under the New Deal for Disabled People. [159342]

**Mr. Alexander:** 20 people joined the Civil Service under the New Deal for Disabled People in the period 2 July 2002 to 1 October 2003. Data for the most recent quarter ending 1 January 2004 is not yet complete, but at least 12 people have joined under the scheme during that quarter.

Data on the number of people that have been employed in the public sector (excluding the Civil Service) under the New Deal for Disabled People is not collected centrally.

### Non-departmental Public Bodies

**Mr. Heald:** To ask the Minister for the Cabinet Office what the expenditure by non-departmental public bodies of the Office was in *(a)* 1996–97 and *(b)* the latest year for which figures are available in (i) cash, (ii) real terms and (iii) as a percentage of gross national product. [159333]

**Mr. Alexander:** The expenditure by non-departmental bodies of the Cabinet Office in cash and real terms for 1996–97 and 2002–03, the latest year for which figures are available, is set out in the following table.

*Expenditure by non-departmental bodies of the Cabinet Office*

| *Financial year* | *Cash terms £ million* | *Real terms £ million* | *As percentage of gross national product* |
|---|---|---|---|
| 1996–97 | 1.047 | 1.212 | 0.00014 |
| 2002–03 | 2.088 | 2.088 | 0.00019 |

## DEFENCE

### Defence Housing (Aldershot)

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how many *(a)* single living units and *(b)* married quarters in the Aldershot constituency (i) are unoccupied and (ii) have been unoccupied for three months or more. [156830]

**Mr. Caplin:** As at 26 February, of a total of 1,808 family quarters in the Aldershot constituency, 247 were unoccupied. 113 of the properties had been unoccupied for more than three months. Unoccupied service family housing may be allocated or under offer to incoming families, awaiting modernisation or earmarked for disposal.

Services single living accommodation (SLA) in the Aldershot constituency comprises 6,643 bed spaces, shared between two sites, Aldershot and Minley. Of these, some 1,064 are currently unoccupied. Some vacancies are unavoidable, since various groups have to be accommodated separately from others, for example, female personnel from male, and successive training troops from each other.

No figures are available that identify those bed spaces unoccupied for more than three months.

### Departmental Buildings

**Mr. Laws:** To ask the Secretary of State for Defence if he will list the *(a)* land and *(b)* buildings in central London owned by (i) his Department, (ii) its agencies and (iii) the UK armed forces, giving the value in each case. [156709]

**Mr. Caplin:** The following major properties in central London are used by the Ministry of Defence (including agencies and service personnel).

| Building | Description | Freehold or leasehold |
|---|---|---|
| Horse Guards* | Offices | Freehold |
| Northumberland House* | Offices | Freehold |
| Old War Office* | Offices | Freehold |
| The Citadel* | Offices | Freehold |
| Main Building* | Offices | Freehold |
| Chelsea Barracks* | Barracks | Freehold |
| Wellington Barracks* | Barracks | Part Leasehold and part Freehold |
| Clerkenwell Road | Offices | Leasehold |
| ACIO, The Strand | Shop with offices | Leasehold |
| Castlewood House | Offices | Leasehold |
| Regents Park Barracks* | Barracks | Leasehold |
| St. John's Wood Barracks | Barracks | Leasehold |
| Metropole Building | Offices | Leasehold |
| Great Scotland Yard* | Offices | Leasehold |
| St. Giles Court | Offices | Leasehold |
| RCDS Seaford House* | Offices | Leasehold |
| St. George's Court | Offices | Leasehold |
| Ibex House | Offices | Leasehold |
| Hyde Park Barracks* | Barracks | Leasehold |
| Rochester Row | Offices and barracks | Leasehold |

*Notes:*
1. Central London has been defined as the area within the Central London congestion charging zone but includes major buildings adjacent to that area.
2. Married quarters and buildings used solely by visiting forces and reserve forces are excluded.
3. The National Asset Register, (NAR), published by HM Treasury provides a valuation of those assets denoted by * in the table. A copy of the NAR has been placed in the Library of the House and can be accessed on the HM Treasury website at http://www.hm-treasury.gov.uk. It should be noted that this is an asset valuation as at 19 July 2001 and does not represent the disposal value of these buildings.

### Hydrographic Office

**Mr. Laws:** To ask the Secretary of State for Defence what his latest estimate is of the net asset value of the hydrographic office; and if he will make a statement. [156608]

**Mr. Caplin:** The estimated net asset value of the United Kingdom hydrographic office at 31 January 2004, as represented by total assets less current liabilities, was £65.2 million.

### Inglis Barracks

**Mr. Dismore:** To ask the Secretary of State for Defence what the timetable for the services vacating the Inglis Barracks, Mill Hill site is; what steps are *(a)* being taken and *(b)* to be taken, concerning the marketing of the site; what plans he has to ensure the preservation of the officers' mess and war memorial as part of future development; what discussions his Department has had with the planning authority concerning the future use of the site; and if he will make a statement. [158285]

**Mr. Caplin:** The British Forces Post Office presently situated at Inglis Barracks and Frith Lane, Mill Hill is planned to move to RAF Northolt. The relocation of BFPO forms part of a wider consolidation of the MOD estate in London through Project MODEL (Ministry of Defence Estate London). The timetable for the relocation depends on the construction of a new operational facility at RAF Northolt, and the current project programme suggests that construction work will not be finished until the first quarter of 2007 at the earliest.

Following completion of the new facility, at RAF Northolt, there would then be a period of approximately six months to transfer operations to RAF Northolt and to decommission the Mill Hill site in readiness for disposal. These dates are subject to the MOD's usual project approval process.

Preliminary discussions have already taken place with the Local Planning Authority and others, such as English Partnership on the future re-use of the site with a view to developing over the next 12 months a development framework document for the Inglis Barracks site and the surrounding area. The negotiations will address the future of both the officers' mess and war memorial.

Additionally, the issue of military heritage is being considered at length and all interested parties will be involved in discussions to ensure that these aspects are treated in an appropriate manner.

Once the outcome of the work we have in hand is known, we will decide how best to take forward the marketing of the site.

### Iraq

**Mr. Keetch:** To ask the Secretary of State for Defence how many accidental killings of civilians in Iraq have been reported by British forces since the end of combat operations, in addition to the 17 cases now under investigation; and if he will make a statement. [146850]

**Mr. Ingram** *[holding answer 14 January 2004]*: None. As well as the cases under investigation UK forces have reported 19 Iraqi civilian fatalities. All involved assailants attacking British forces and in defending themselves the soldiers involved were acting clearly within their Rules of Engagement.

**Adam Price:** To ask the Secretary of State for Defence if he will name the six Iraqis who have died in British custody in Iraq giving the *(a)* approximate time, *(b)* date and *(c)* place of their deaths; and which regiments were responsible for their detention at the time of their deaths. [147713]

**Mr. Ingram:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for Leyton and Wanstead (Harry Cohen) on 19 January 2004, *Official Report*, column 918W.

We do not release details of units who are involved in any incident that has been the subject of an SIB investigation, unless the case is referred for court martial.

All deaths occurred within the United Kingdom area of operations in Iraq.

### Personnel Budgets (Scotland)

**Angus Robertson:** To ask the Secretary of State for Defence (1) how much of its total personnel budget the *(a)* Army Personnel Centre, *(b)* Army Training and Recruiting Agency, *(c)* Defence Dental Agency, *(d)* Defence Bills Agency and *(e)* Armed Forces Personnel and Administration Agency spent in Scotland from the start of financial year 2003–04 to December 2004, (i) in monetary terms and (ii) as a percentage of the total; and if he will make a statement; [159354]

(2) how much of its total personnel budget the *(a)* Defence Analytical Services Agency, *(b)* Defence Housing Executive, *(c)* Defence Intelligence and Security Centre, *(d)* Defence Estates, *(e)* Defence Geographic and Imagery Intelligence Agency and *(f)* Naval Manning Agency spent in Scotland from the start of financial year 2003–04 to December 2004, (i) in monetary terms and (ii) as a percentage of the total; and if he will make a statement; [159355]

(3) how much of its total personnel budget *(a)* Service Children's Education, *(b)* the Duke of York's Royal Military School, *(c)* the Naval Recruiting and Training Agency, *(d)* the RAF Personnel Manning Agency, *(e)* the RAF Training Group Defence Agency and *(f)* the Warship Support Agency spent in Scotland from the start of financial year 2003–04 to December 2004, (i) in monetary terms and (ii) as a percentage of the total; and if he will make a statement; [159356]

(4) how much of its total personnel budget the *(a)* Defence Procurement Agency, *(b)* Defence Transport and Movements Agency, *(c)* Medical Supplies Agency, *(d)* Defence Communications Services Agency, *(e)* Defence Storage and Distribution Agency and *(f)* Veterans Agency spent in Scotland from the start of financial year 2003–04 to December 2004, (i) in monetary terms and (ii) as a percentage of the total; and if he will make a statement; [159357]

(5) how much of its total personnel budget the *(a)* British Forces Post Office, *(b)* Defence Vetting Agency, *(c)* Defence Medical Education, and Training Agency, *(d)* Disposal Services Agency, *(e)* Pay and Personnel Agency, *(f)* Defence Aviation Repair Agency and *(g)* Meteorological Office spent in Scotland from the start of financial year 2003–04 to December 2003, (i) in monetary terms and (ii) as a percentage of total; and if he will make a statement; [159358]

(6) how much of its total personnel budget the *(a)* United Kingdom Hydrographic Office, *(b)* Defence Export Services Organisation, *(c)* Defence Medical Services, *(d)* Army Base Repair Organisation *(e)* Defence Evaluation and Research Agency and *(f)* Defence Secondary Care Agency spent in Scotland from the start of financial year 2003–04 to December 2003, (i) in monetary terms and (ii) as a percentage of total; and if he will make a statement. [159359]

**Mr. Caplin:** Regional spending figures for personnel costs are not held centrally and could be provided only at disproportionate cost.

### Service Personnel (Demobilisation)

**Miss McIntosh:** To ask the Secretary of State for Defence what resources his Department has allocated to replace the EU Konver programme, to help servicemen and women in moving from the armed forces to civilian occupation. [158620]

**Mr. Caplin:** The two Konver programmes which ran from 1993–94 and from 1995–99 were aimed at areas affected by the running down of defence-related industries and military installations, and the measures funded included training for new jobs, support for other businesses, in particular small and medium-sized enterprises, and the conversion and re-use of ex-military land.

The Ministry of Defence's resettlement programme which supports Service leavers moving from the armed forces to civilian life predated the Konver programme and was not affected by the closure of Konver II in 1999. Until October 1998, the career transition services programme was managed in-house, and the current contract placed in 1998, is not due to expire until September 2005. Arrangements are currently in hand to retender this requirement for a further period of at least seven years.

### Suez Medal

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how long on average it has taken to process claims for the campaign medal for those ex-service personnel who served in the Suez Canal zone between 1951 and 1954. [156831]

**Mr. Caplin:** At this stage it is not possible to give a meaningful average figure. Over 34,000 claims have been received, the majority by the Army Medal Office (AMO), which has had to spend more time than is usual to acknowledge the huge number of letters which have arrived in the last four months. This has delayed the assessing of individual claims, though the backlog of letters requiring acknowledgement has now been cleared. The AMO are aiming to process between 250 and 300 cases a week, but many variables can and do impinge on this target.

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how many claims his Department has received for campaign medals for those ex-service personnel who served in the Suez Canal zone between 1951 and 1954 from *(a)* former Naval personnel, *(b)* former Army personnel and *(c)* former RAF personnel. [156833]

**Mr. Caplin:** The Ministry of Defence has received the following applications from veterans and their families up to week ending 20 February 2004.

| *Service* | *Number of applications* |
|---|---|
| Royal Navy | 1,521 |
| Royal Marines | 622 |
| Army | 25,048 |
| Royal Air Force | 7,076 |
| Total applications | 34,267 |

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how many of his Department's personnel are processing claims for a campaign medal for those ex-service personnel who served in the Suez Canal Zone between 1951 and 1954; and when he expects this process to be complete. [156834]

**Mr. Caplin:** The number of people who are dealing with applications for the new campaign medal for service in the Suez Canal Zone varies to meet the demand. Some staff are occupied full-time on this task, particularly with assessing individual entitlement to the medal, while support staff are working both on the Canal Zone medals and others as part of their duties. The individual medal offices have the following staff addressing this task:

Royal Naval Medal Office: four staff assessing claims, plus one part-time clerk ordering and despatching the medals.

Royal Marines Medal Office: overall one half of one person.

Army Medal Office: Nine staff directly processing claims, plus three people acknowledging claims, stamping and despatching medals.

Royal Air Force Medal Office: overall three personnel receiving, assessing and despatching medals.

It is not possible to say when the process will be complete as it will depend entirely on when veterans and their families apply for the medal.

### Radioactive Contamination (Hebrides)

**Mr. MacDonald:** To ask the Secretary of State for Defence if he will place a copy of the Summary Report of Radioactive Contamination problems at the RA Range Hebrides and the decontamination of the Radiac Source Store and Compound, produced by Naval Radiation Protection Services, in September 1980, in the Library. [156722]

**Mr. Caplin:** Arrangements are in hand to de-classify the report, and, as soon as this has been done, a copy will be placed in the Library of the House.

### Welsh Infantry

**Mr. Llwyd:** To ask the Secretary of State for Defence what the *(a)* establishment and *(b)* current strength is of each of the regular Welsh infantry battalions; and where they are located. [158896]

**Mr. Caplin:** The establishment, strength and location of the Welsh Infantry Battalions, as at 1 January 2004, are included in the following table:

| *Regiment* | *Unit establishment* | *Unit strength* | *Location* |
|---|---|---|---|
| 1st Battalion, The Royal Regiment of Wales | 741 | 680 | Barker Barracks Paderborn Germany |
| 1st Battalion, Welsh Guards | 618 | 660 | RAF St. Athan Vale of Glamorgan Wales |
| 1st Battalion The Royal Welsh Fusiliers | 668 | 620 | New Mons Barracks Aldershot |

## MINISTER FOR WOMEN

### Equal Pay

**Simon Hughes:** To ask the Minister for Women what the difference in pay in Greater London was between *(a)* full-time and *(b)* part-time (i) male and (ii) female workers in each year since 1997. [158445]

**Ms Hewitt:** The following table shows the mean hourly pay gap in Greater London between *(a)* men and women in full-time employment and *(b)* men in full-time employment and women in part-time employment in each year since 1997.

*Percentage*

| | *Pay gap between men's and women's full-time mean hourly earnings* | *Pay gap between men's mean full-time hourly earnings and women's mean part-time hourly earnings* |
|---|---|---|
| 1997 | 23.4 | 45.7 |
| 1998 | 23.3 | 45.1 |
| 1999 | 23.3 | 45.2 |
| 2000 | 22.7 | 48.0 |
| 2001 | 23.0 | 51.1 |
| 2002 | 23.0 | 48.9 |
| 2003 | 23.6 | 46.0 |

*Note:*
Figures for men's part-time hourly earnings are not available due to small sample sizes.

## TREASURY

### Unemployment (Anniesland)

**John Robertson:** To ask the Chancellor of the Exchequer what the most recent figure is for unemployment in Glasgow, Anniesland. [158619]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr John Robertson, dated 8 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in the Glasgow Anniesland Parliamentary Constituency. (158619)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following the internationally standard International Labour Organisation definitions. For Parliamentary constituencies, information about unemployment rates, but not levels, is available, subject to the sample size being sufficiently large. However, the sample size for Glasgow Anniesland is too small to give reliable estimates of unemployment.

ONS also publishes data on the number of people claiming Jobseeker's Allowance (JSA). In January 2004 there were 1,864 JSA claimants in the Glasgow Anniesland Parliamentary Constituency. This represents 4.9 per cent. of the working age population of the area.

### Child Trust Fund

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what assessment he has made of the impact of the proposed EU investment services directive on the sales regime for Child Trust Funds. [158614]

**Ruth Kelly:** The Government are continuing to work with the Financial Services Authority on the development of the regulatory regime for the Child Trust Fund. The Government believe that its plans for the Child Trust Fund are consistent with the draft version of the investment services directive agreed by the Council in October 2003.

### Work Force

**Mr. Simmonds:** To ask the Chancellor of the Exchequer what the change has been in the net size of the work force in the UK since 1997. [157812]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mark Simmonds, dated 8 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about skilled migrant workers in the NHS and in the Education sector. (157584)

The attached table gives the available information from the Labour Force Survey (LFS) for the three month period ending in November 2003. "Migrant" workers have been identified from the survey as those people working in the UK whose nationality is not British. The survey does not analyse data specifically according to "skills", but for this purpose "skills" have been represented in terms of a person's highest qualification.

As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

*Non-British nationals of working age[1] working in the NHS and the education sector, by highest qualification held—3-month period ending November 2003*

*Thousands*

| | *Health authority or NHS trust* | *Education sector[2]* |
|---|---|---|
| *Highest qualification* | | |
| Degree or equivalent | 41 | 23 |
| Higher education | 35 | [3] |
| GCE A-level or equivalent | [3] | [3] |
| GCSE grades A-C or equivalent | [3] | [3] |
| Other qualifications | 36 | 10 |
| No qualification | [3] | [3] |

[1] Applies to all men aged 16 to 64 and women 16 to 59.
[2] This includes university, polytechnic or other grant funded educational establishments.
[3] Sample size too small for reliable estimate.
*Source:*
ONS—Labour Force Survey

### Debt Relief

**Mrs. Calton:** To ask the Chancellor of the Exchequer whether sufficient funds are available from the money committed by the G8 in Canada in 2002 for the Heavily Indebted Poor Countries fund for top-up debt relief to provide the sum required for Ethiopia to meet the sustainable debt to export ratio set by the World Bank. [158574]

**John Healey:** Following the enhancement of the HIPC Initiative in 1999, it became apparent that some countries would reach Completion Point with deteriorated debt indicators compared to the projections at Decision Point. As a result, the Initiative provides the option of additional debt relief, or 'topping-up', at Completion Point, beyond that committed at Decision Point, when exceptional and exogenous factors have caused a substantial deterioration in a country's long-term debt sustainability. At the G8 summit in Kananaskis, leaders agreed to fund the financing shortfall in the HIPC Trust Fund, pledging up to an extra US $1 billion, part of which would be used to cover additional costs of topping up.

Ethiopia is shortly expected to reach its HIPC Completion Point with a debt-to-export ratio in excess of the 150 per cent. target set by the IMF and World Bank, and so should be eligible for consideration for topping up. The UK has been working closely with the Ethiopian government and supports the case for topping up. The potential costs have not been finalised, but it is expected that the resources pledged in 2002 will cover the costs for the HIPC Trust Fund.

**Mrs. Calton:** To ask the Chancellor of the Exchequer whether the paper, prepared by the World Bank on Completion Point for Ethiopia, has been presented to the Boards of the *(a)* World Bank and *(b)* Interntional Monetary Fund. [158576]

**John Healey:** Ethiopia is expected to reach Completion Point in the HIPC Initiative shortly. The Completion Point paper has yet to be presented to the Boards of either the World Bank or the IMF.

**Mrs. Calton:** To ask the Chancellor of the Exchequer what assessment he has made of the date by which the *(a)* World Bank and *(b)* International Monetary Fund will decide on the Completion Point for Ethiopia. [158592]

**John Healey:** The Executive Boards of the World Bank and the IMF were scheduled to discuss Ethiopia's Completion Point at the end of February 2004. New dates for these meetings are expected to be set shortly. The UK has been working closely with the Ethiopian government and supports the case for topping up Ethiopia's debt relief at Completion Point.

### Equitable Life

**Lady Hermon:** To ask the Chancellor of the Exchequer on what date he expects to publish the Penrose Report on Equitable Life. [158873]

**Norman Lamb:** To ask the Chancellor of the Exchequer when he will publish the Penrose Report. [159633]

**Ruth Kelly:** The Penrose Report on Equitable Life is being published today in full, copies of which are available in the Library of the House (HC 290).

### EU Savings Directive

**Mr. Streeter:** To ask the Chancellor of the Exchequer what assessment he has made of the effect of the EU Savings Directive on UK dependent territories. [159421]

**Dawn Primarolo:** I refer the hon. Gentleman to the reply I gave to the hon. Member for Ribble Valley (Mr. Evans) on 12 December 2002 *Official Report*, column 475W.

**Mr. Streeter:** To ask the Chancellor of the Exchequer what the status is of the EU Savings Directive; and whether he intends to implement it in the *(a)* UK and *(b)* dependent territories before ensuring that it applies equally in other states with a similar financial services industry. [159422]

**Dawn Primarolo:** The EU Savings Directive was adopted by ECOFIN on the 3 June 2003. The proposed commencement date of 1 January 2005 in the Directive is contingent on agreements being in place with Switzerland, Andorra, Liechtenstein, Monaco, and San Marino to apply from the same date equivalent measures as in the Directive, and on arrangements being in place with the associated and dependent territories listed in Article 17 of the Directive to apply from the same date the same measures as in the Directive.

## Fuel Duty

**Mrs. Spelman:** To ask the Chancellor of the Exchequer what assessment he has made of the impact on air quality of the increase in fuel duty on liquefied petroleum gas in the Pre-Budget Report 2003. [158820]

**John Healey:** I refer the hon. Lady to the reply I gave on 1 March to the hon. Member for Castle Point (Bob Spink) *Official Report*, column 690W.

## National Statistics

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what the death rates from *(a)* cancer and *(b)* coronary heart disease were in (i) the North West and (ii) each Lancashire constituency or district in each of the last three years for which figures are available. [158825]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Lindsay Hoyle dated 8 March 2004:*

As National Statistician, I have been asked to reply to your recent question concerning what the latest death rates from *(a)* cancer and *(b)* coronary heart disease are in (i) the North West and (ii) in each Lancashire constituency or district in each of the last three years for which figures are available. (158825)

The latest year for which the figures requested are available is 2002 and these are given, with figures for 2000 and 2001, in the attached table.

*Death rates[1] from cancer and coronary heart disease[2] in the north west Government office region[3] and local authorities in the former county of Lancashire,[3,4] 2000 to 2002[5].*

| | *Age standardised death rates per 100,000 population[1]* | | |
|---|---|---|---|
| | *2000* | *2001* | *2002* |
| *Cancer* | | | |
| North West | 211 | 208 | 205 |
| Blackburn with Darwen | 208 | 198 | 218 |
| Blackpool | 211 | 229 | 218 |
| Burnley | 215 | 181 | 235 |
| Chorley | 224 | 200 | 175 |
| Fylde | 193 | 170 | 177 |
| Hyndburn | 207 | 228 | 207 |
| Lancaster | 182 | 176 | 201 |
| Pendle | 168 | 195 | 177 |
| Preston | 178 | 212 | 208 |
| Ribble Valley | 168 | 200 | 156 |
| Rossendale | 164 | 205 | 188 |
| South Ribble | 206 | 193 | 203 |
| West Lancashire | 203 | 203 | 192 |
| Wyre | 207 | 180 | 179 |
| *Coronary heart disease* | | | |
| North West | 157 | 155 | 146 |
| Blackburn with Darwen | 175 | 171 | 165 |
| Blackpool | 172 | 146 | 137 |
| Burnley | 168 | 166 | 152 |
| Chorley | 163 | 134 | 144 |
| Fylde | 138 | 130 | 119 |
| Hyndbum | 165 | 177 | 151 |
| Lancaster | 141 | 155 | 133 |
| Pendle | 157 | 134 | 154 |
| Preston | 164 | 158 | 130 |
| Ribble Valley | 137 | 135 | 122 |
| Rossendale | 166 | 146 | 149 |
| South Ribble | 144 | 144 | 125 |
| West Lancashire | 151 | 143 | 146 |
| Wyre | 142 | 122 | 124 |

[1] Rates per 100,000 population standardised to the European Standard Population.
[2] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001–2002. The codes used are listed below:
Cancer (malignant neoplasms)—/CD-9 140–208; ICD-10 COO-C97;
Coronary Heart Disease—1CD-9 410–414; ICD-10 120–125.
[3] Usual residents of these areas.
[4] The former county of Lancashire comprises the current county and the unitary authorities of Blackburn with Darwen and Blackpool.
[5] Deaths occurring in the calendar years 2000 to 2002.

## Private Schools

**Mr. Byers:** To ask the Chancellor of the Exchequer if he will estimate the revenue which would be raised if VAT were to be applied to private school fees. [159785]

**John Healey:** The provision of education in return for fees in private schools is exempt from VAT, in accordance with the requirements of the European Union VAT Directives on which UK VAT law is based.

The cost of the VAT exemption for private education, as last published in the Tax ready reckoner and tax reliefs' in December 2003, was estimated at £150 million.

## Stamp Duty

**Mr. Jim Cunningham:** To ask the Chancellor of the Exchequer what assessment his Department has made of the case for amending the stamp duty brackets in this year's Budget. [158656]

**Ruth Kelly:** All aspects of the tax system are kept under review as part of the annual budget process.

## Temporary Staff

**Matthew Taylor:** To ask the Chancellor of the Exchequer how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158240]

**Ruth Kelly:** HM Treasury presently employs around 30 staff at any one time through employment agencies, some 3 per cent. of the total employed. Payments to such agencies were £788,000 in 2001–02; £927,000 in 2002–03; and £983,000 in the first 11 months of 2003–04.

## Websites

**Matthew Taylor:** To ask the Chancellor of the Exchequer what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997 and (ii) 2003–04 until the latest date for which figures are

available of (A) developing and (B) maintaining (1) his Department's website and (2) each website for which his Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155854]

**Ruth Kelly:** The Treasury's public website (www.hm-treasury.gov.uk) is run by the department's publishing and internet unit. At present, 3.5 full time equivalent staff work on web-based projects.

The direct costs of running the site over the last 12 months was £84,613.32. During this period, the site had 38 million page views and more than two million visitors. For information on costs for earlier periods, I refer the hon. member to the replies I gave the hon. member for Buckingham (John Bercow) on 23 March 2003 (*Official Report*, column 60W) and to the hon. member for Arundel and South Downs on 19 December 2001 (*Official Report*, column 321W).

The Treasury also maintains the Euro preparations website (www.euro.aov.uk') at a cost of £32,782 in the current financial year, £36,793 during 2002–03, £59,030 during 2001–02 and £30,399 during 2000–01. The site has received 1.7 million visits since the site was re-launched by the Chancellor in March 2001.

In co-operation with the Cabinet Office, the Treasury maintains the Invest to Save Budget website (www.isb.gov.uk1) at a cost of £11,515 during 2000–01, £41,959 during 2001—02, £11,116 during 2002–03 and £62,875 during 2003–04 when the website and the database of project information that is accessed through it was redeveloped.

The department is currently participating in the joint Treasury, Bank of England and Financial Services Authority financial continuity website and has paid £5,705.80 in development costs during this financial year.

Other smaller sites run and managed by the Treasury are maintained by the Publishing unit with assistance from the Information Services (*Official Report*, column 60W) and to the hon. member for Arundel and South Downs on 19 December 2001 (*Official Report*, column 321W).

## TRADE AND INDUSTRY

### Beagle 2 Project

**Mr. Blunt:** To ask the Secretary of State for Trade and Industry how much public money was spent on the Beagle 2 project. [158577]

**Ms Hewitt:** The Government made a financial commitment of up to £20 million to the Beagle 2 project. The Particle Physics and Astronomy Research Council contributed to the Mars Express Mission through the European Space Agency's science programme and additionally awarded grants totalling £5 million in support of Beagle 2's science instruments and their operation. The Millennium Commission also provided £1 million towards the Beagle Operations Centre.

### Broadband

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what role Ofcom will have in promoting the take-up of broadband. [157243]

**Mr. Timms:** The Communications Act 2003 (c.21) Part 1, page 3 sets out the general duties of Ofcom in carrying out their functions, including the desirability of encouraging the availability and use of high speed data transfer services throughout the United Kingdom.

The Government believe that a competitive market is key to the successful promotion of broadband. Ofcom is continuing to promote effective and sustainable competition in the broadband market.

Ofcom is consulting on its Annual Plan until 11 March 2004. In this, Ofcom proposes to publish a broadband consumer guide in Summer 2004 to help and encourage consumers to take advantage of the choices and services available to them.

### Business Output

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what the level of business output in *(a)* the North West and *(b)* Lancashire was in the last year for which figures were available. [157914]

**Jacqui Smith:** The value of business output in 2000, measured by gross value added, and calculated as the sum of all sectors excluding the public sector, was as follows:

| | *£ billion* |
|---|---|
| Northwest | 70.8 |
| Lancashire | 13.8 |

### Business Statistics

**Mr. Llwyd:** To ask the Secretary of State for Trade and Industry how many businesses registered for bankruptcy in *(a)* London, broken down by borough and *(b)* Wales, broken down by local authority, in each of the past three years. [158038]

**Mr. Sutcliffe** *[holding answer 3 March 2004]:* Insolvency figures are only available on the basis of the Official Receivers Office dealing with the cases, therefore it is not possible to identify precisely insolvencies in London or Wales. Both company and individual insolvencies are included in the following table, as the individual bankruptcy figures only include the self-employed along with consumer bankruptcies. Company

insolvencies are made up of Company Compulsory Liquidations and Creditors Voluntary Liquidations of which only Company Compulsory Liquidations are available on an Official Receivers Office basis. The table gives annual figures for the number of individual Bankruptcies and Company Compulsory Liquidations dealt with by the Official Receivers Office in London and combined for the offices of Cardiff and Swansea.

| | *2001* | *2002* | *2003* |
|---|---|---|---|
| *Individual bankruptcies and Company Compulsory Liquidations registered at the Official Receivers Office in London* | | | |
| Individual bankruptcies | 1,427 | 1,457 | 1,933 |
| Company Compulsory Liquidations | 911 | 1,147 | 864 |
| *Individual bankruptcies and Company Compulsory Liquidations registered at the Official Receivers Offices in Cardiff and Swansea* | | | |
| Individual bankruptcies | 951 | 1,018 | 1,054 |
| Company Compulsory Liquidations | 167 | 184 | 169 |

### Business Support

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what evaluation her Department has made of the regional development agency-led business support pilots in the *(a)* North West, *(b)* West Midlands and *(c)* East Midlands; and how these regions compare to non-participating regions. [157231]

**Jacqui Smith:** The independent research organisation, ECOTEC Research and Consulting Ltd., was commissioned in December 2003 to make an initial qualitative assessment of the progress of the 3 Regional Development Agency-led pilots, compared to non-participating regions.

Fieldwork for the evaluation is still in progress, and findings will be available in late spring.

**Brian Cotter:** To ask the Secretary of State for Trade and Industry what money her Department has allocated for business support schemes; and how much of this money has gone unclaimed in each of the last five years. [149478]

**Ms Hewitt:** The following table shows the final net allocation for the programmes defined as Function A: Promotion of enterprise, innovation and increased productivity in the Departmental Estimates and Expenditure Plans Reports/Departmental Report for the years 1998–99 to 2002–03.

| *Financial year* | *Final allocation (£million)* |
|---|---|
| 1998–1999 | 596.4 |
| 1999–2000 | 647.7 |
| 2000–01 | 693.3 |
| 2001–02 | 793.4 |
| 2002–03 | 779.7 |

Under business support schemes businesses normally make applications that, where they meet the relevant scheme criteria, result in offers being made by the Department. Information on the amount of such offers which go unclaimed, in the sense that they are not taken up, is not readily available and could be compiled only at disproportionate cost.

### Consumer Credit

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what the highest *(a)* store card interest rate and *(b)* bank credit card rate in the UK are; and if she will make a statement on the effect on consumers of the rates charged. [159088]

**Mr. Sutcliffe** *[holding answer 5 March 2004]:* The Department does not collect data on the interest rates charged by lenders.

The credit market is a competitive market. It is, however, clearly important that charges for credit should be clear and that consumers understand how much they will have to pay for borrowing. The Office of Fair Trading is currently undertaking a study into the store card market, which is expected to be completed shortly. Our proposals for reform of consumer credit legislation, published in the White Paper "Fair, Clear and Competitive: the Consumer Credit Market in the 21st Century", will among other things ensure that all consumer credit advertising, including the advertising of credit cards, is clear, fair and not misleading and that APRs are advertised on a consistent basis.

The consultation period closes on 15 March 2004 and I anticipate that the new regulations should come into force on 31 October 2004.

### Consumer Direct

**Mr. Andrew Mitchell:** To ask the Secretary of State for Trade and Industry what the budget of Consumer Direct is for the next three financial years. [157461]

**Mr. Sutcliffe:** The budget of Consumer Direct for the next three financial years is:

| | *£ million* |
|---|---|
| 2003–04 | 6 |
| 2004–05 | 11 |
| 2005–06 | 16 |

This may be subject to adjustment depending on the speed of roll out following implementation of the Consumer Direct pathfinder nations/regions this summer. The pathfinders are Scotland, Wales, Yorkshire and Humberside and the South West.

### Credit Card Fraud

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to address the concerns of on-line consumers about credit card fraud. [157273]

**Mr. Sutcliffe:** The Consumer Protection (Distance Selling) Regulations 2000 protect consumers against payment card fraud including credit cards. The Regulations apply to contracts made at a distance including on-line ones. The Card issuer is required to reimburse consumers the full amount in the event of fraudulent use of the consumer's card.

In addition, the Consumer Credit Act 1974 allows consumers to recover the cost of a purchase made by credit card from either the supplier or the credit card provider in the event of a breach of contract or misrepresentation. This provides additional protection should a consumer be unable to trace the supplier. The Banking Code says that the consumer's liability for misuse of a card will be limited unless there is evidence that the consumer has acted fraudulently or without reasonable care.

The Home Office has recently launched a website to combat fraud over the internet. The 'e-tailing mini site' forms part of the Crime Reduction Website and includes information to help on-line consumers protect themselves from fraud. The website address is http://www.crimereduction.gov.uk/etailing.

### Directors' Remuneration

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry if she will list the respondents to the consultation document Rewards for Failure—Directors Remuneration—Contracts, Performance and Severance; and if she will list those respondents who *(a)* advocated legislative provisions and *(b)* did not want legislation to address executive remuneration. [159350]

**Jacqui Smith:** There were 112 responses in all, from a wide range of parties: institutional investor, companies, trades unions, accountants, remuneration advisers and many representative organisations. Some responses were sent in confidence. These apart, all responses are available for inspection on application to the DTI Library.

The consultation was principally about best practice options, but sought views on three questions relating to possible legislative changes arising from recommendations of the Company Law Review. Of these, there was majority support only for that which asked whether companies legislation should provide for the prohibition of rolling contracts having a notice or contract period in excess of the period permitted by section 319 of the Companies Act 1985.

### Employment Regulation

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many recommendations were made by the recent Better Regulation Task Force report on employment regulation; how many have been implemented by her Department; and by what methods. [155321]

**Nigel Griffiths:** The Better Regulation Task Force (BRTF) made 12 recommendations in its report of May 2002. The Government published their response to this report, accepting the recommendations, in August 2002. This explains how the recommendations are being taken forward and is available from the Libraries of the House.

The Government response to the report can be found at: http://www.dti. gov.uk/er/brtfresponse.htm.

### Export Credits Guarantee Department

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what the Export Credits Guarantee Department's maximum liability was in each financial year since 1998–99 *(a)* in the passenger aircraft sector, *(b)* in the renewable energy sector excluding large hydro-energy and energy from waste technologies, *(c)* in the non-renewable energy sector, *(d)* for exports to the United States, *(e)* in the defence aircraft sector and *(f)* for large hydro-energy exports. [151681]

**Mr. Mike O'Brien:** ECGD does not categorise its business precisely in line with the question but, from information available, ECGD's maximum possible liability on future amounts at risk at the end of each of the Financial Years for the categories listed was as set out in the table.

It is important to note that maximum liability is not the actual amount of cover.

*£ million*

| *Sector* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|---|---|
| *(a)* Passenger aircraft sector | 3,602 | 4,392 | 5,192 | 5,256 | 4,570 |
| *(b)* Renewable energy sector | 105 | 42 | 40 | 33 | 13 |
| *(c)* Non-renewable energy sector | 3,718 | 4,726 | 5,227 | 3,688 | 3,123 |
| *(d)* United States | 351 | 533 | 752 | 762 | 654 |
| *(e)* Defence aircraft sector | 779 | 714 | 1,304 | 1,117 | 1,229 |
| *(f)* Large hydro-energy sector | 122 | 92 | 66 | 47 | 13 |

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry whether the Export Credits Guarantee Department had received the Human Rights Watch report of January 1999 on human rights abuses in connection with the Dabhol power project in India when it provided overseas investment insurance for the project. [158564]

**Mr. Mike O'Brien** *[holding answer 4 March 2004]*: ECGD had not received a copy of the Human Rights Watch report at that time.

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what assessment the Export Credits Guarantee Department made of the social, environmental and human rights impact of the Dabhol

Power Project before it provided overseas investment insurance to banks for investing in the project; if she will place in the Library the relevant documentation; and if she will make a statement. [158567]

**Mr. Mike O'Brien** *[holding answer 4 March 2004]*: ECGD did not at the time have a policy on social, environmental and human rights impact assessment. As a result, no such assessment was carried out.

Following the publication of its Business Principles in December 2000, ECGD's assessment of projects now takes into account the Government's international policies, including those on sustainable development, environment and human rights.

### Fireworks

**Mr. Dismore:** To ask the Secretary of State for Trade and Industry what progress is being made on the control of fireworks. [158284]

**Mr. Sutcliffe:** Under the Fireworks Act 2003 we have already made the Fireworks Regulations 2003 which came into force on 22 December. These Regulations make it an offence for the under 18s to possess fireworks in public places and for all members of the public to possess the large and powerful category 4 fireworks used at professionally organised displays.

Also we are currently consulting on draft regulations to be made under the Consumer Protection Act 1987 to enshrine in law the firework industry's voluntary ban on air bombs.

Preliminary consultations on implementing the remainder of the Fireworks Act are continuing and draft regulations will be published during the first half of this year to introduce a national curfew banning the use of fireworks during anti-social hours; a noise limit of 120 decibels on consumer type fireworks; a compulsory training course for operators of public displays and a new licensing system for the sale of fireworks.

### Gender Equality

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry what action she is taking to ensure equality between men and women in the workplace. [155807]

**Ms Hewitt:** The Government are taking action on a number of fronts to ensure equality between men and women in the workplace. We are continuing to improve the workings of the Equal Pay Act and the Sex Discrimination Act, for example through the introduction of the Equal Pay questionnaire in April 2003 and our planned consultation on speeding up and simplifying equal value tribunals. The Government are taking forward policies to tackle the pay gap that help secure equal pay, and broader causes of the pay gap, such as women's lower level of work experience and the part-time pay gap. The Government have led by example in committing all Civil Service departments and agencies to review their pay systems and produce action plans to close any equal pay gaps. The Government have also provided funding for the EOC to develop equal pay tool kits so all organisations can carry out equal pay reviews.

In addition, we are working to remove existing barriers to equality, such as our work to promote women's access to sectors where they are currently under-represented, and to increase diversity in the boardroom. We have introduced measures to help parents maintain links with the world of work and better balance their work and home lives, which will contribute to a reduction of the pay gap. The Government have provided funding to expand childcare provision to meet the changing needs of families. The Government also welcome the EOC's investigation into modern apprenticeships and the concentration of men and women in different professions.

### Labour Disputes

**Simon Hughes:** To ask the Secretary of State for Trade and Industry what estimate she has made of the average cost of working days lost owing to labour disputes in Greater London in the *(a)* public and *(b)* private sector in each year between 1995 and 2003. [158432]

**Mr. Sutcliffe:** The DTI does not make these estimates. The Office for National Statistics provides statistics on the number of stoppages and days lost through industrial action. Their latest set of statistics for the United Kingdom show that the number of working days lost in 2003 fell to 497,000 and the number of stoppages is at an all time low.

### Landfill Directive

**Dr. Whitehead:** To ask the Secretary of State for Trade and Industry what arrangements she is making to ensure that the United Kingdom complies with the provisions of the Landfill Directive relating to the disposal of tyres. [159020]

**Mr. Timms:** The Landfill Directive requires the introduction of a ban on the disposal of most whole used tyres to landfill from July 2003, and this has been achieved by The Landfill (England and Wales) Regulations 2002. Regulations have also been introduced covering Scotland and Northern Ireland. Shredded tyres are also due to be banned from disposal to landfill, and this ban will take full effect from July 2006.

**Dr. Whitehead:** To ask the Secretary of State for Trade and Industry what proportion of end-of-life tyres were disposed of in ways that met the terms of the EU Landfill Directive in 2003. [159021]

**Mr. Timms:** The data to compile used tyre statistics for 2003 are currently being collected. Provisional figures suggest that value was recovered from around 80 per cent., based on 450,000 tonnes of used tyre arisings. This recovery rate is significantly higher than in previous years.

**Dr. Whitehead:** To ask the Secretary of State for Trade and Industry what arrangements she is making to ensure that all UK end-of-life tyres will be shredded prior to 2006. [159022]

**Mr. Timms:** The infrastructure to reprocess used tyres continues to grow, as evidenced by provisional statistics for 2003 showing a recover rate of around 80 per cent. used tyre arisings. It follows that tyres are being increasingly diverted from landfill disposal, which figures suggest is running at around a quarter of 2001

levels. Companies have already installed significant shredding capacity, both as a pre-treatment stage prior to recovery or as a means of reducing transport costs. The requirement to shred tyres, prior to landfill disposal until July 2006, should not therefore present undue difficulty for the industry.

### Minimum Wage

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many companies have been convicted of breaking the rules on the minimum wage in each year since its introduction; and what assessment she has made of the effectiveness of *(a)* compliance teams and *(b)* local enforcement pilot projects in improving compliance with the minimum wage. [157222]

**Mr. Sutcliffe:** The following table provides details of the number of employers investigated by the Inland Revenue where non-compliance with the minimum wage was found.

| | *Number of employers* |
|---|---|
| 1999–000 | 1,280 |
| 2000–01 | 2,119 |
| 2001–02 | 1,937 |
| 2002–03 | 1,996 |
| 2003–04[1] | 1,813 |

[1] To 31 January 2004.

The Inland Revenue enforce the minimum wage on behalf of the DTI through a service level agreement with the DTI. Both Departments monitor performance to ensure value for money is achieved. We intend to evaluate on the effectiveness of the local enforcement pilot projects later this year.

**Annabelle Ewing:** To ask the Secretary of State for Trade and Industry what plans she has to allow citizens of EU accession states to claim, from 1 May onwards, the national minimum wage while (i) living and (ii) working in the United Kingdom. [156971]

**Mr. Timms** *[holding answer 27 February 2004]:* The National Minimum Wage Act 1998 provides that all qualifying workers who work in the UK are entitled to be paid at least the national minimum wage regardless of their country of origin.

We have announced that individuals from the accession states will be entitled to work in the UK provided they meet certain conditions. These will include registering with the Home Office under its workers' registration scheme, which was announced last week.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many people in each Lancashire constituency are earning the minimum wage. [157187]

**Mr. Sutcliffe:** It is not possible to provide estimates of the number of people earning the national minimum wage specifically for each Lancashire constituency. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 130,000 and 160,000 people in the North West benefited from the increase in minimum wage rates in October 2003.

### National Business Angels Networks

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the costs of the matchmaking activities element of the National Business Angels Networks was; and when it was decided not to continue funding this element. [157240]

**Nigel Griffiths:** It is not possible to identify, separately, the costs of the matchmaking activities element of the National Business Angels Network. As I stated in my earlier reply of 2 February 2004, *Official Report*, column 647W, it was as a result of the findings of the external evaluation that we decided not to provide any funding for these activities from the start of the current financial year.

Our current agreement letter makes it explicit that NBAN's matchmaking facility is expected to operate separately from the rest of its activities and that no DTI grant monies should be used to subsidise this element.

### Packaging

**Mr. Sheerman:** To ask the Secretary of State for Trade and Industry what steps she is taking to enforce regulations limiting excessive packaging on products. [159009]

**Jacqui Smith:** The Packaging (Essential Requirements) Regulations 2003 state that packaging volume and weight must be the minimum amount to maintain necessary levels of safety, hygiene and acceptance for the packed product and for the consumer. The regulations are enforced by local Trading Standards Officers who work closely with the packaging industry and producers to advise them on best practice in packaging design and to resolve complaints of excessive packaging. A recent study commissioned by the DTI highlights the extensive changes brought about since the introduction of the Essential Requirements. These relate to improvements in packaging design, including minimisation. This report can be viewed at www.dti.gov.uk/sustainability/packagingfinalreport.pdf and is also available from the DTI publications order line (0870 150 2500) by quoting unique reference number 03/1364.

### Parliamentary Questions

**Brian Cotter:** To ask the Secretary of State for Trade and Industry when she will respond to the question tabled by the hon. Member for Weston-Super-Mare on 19 January 2004 on funding for business support schemes. [159267]

**Ms Hewitt** *[holding answer 5 March 2002]:* I have replied today.

### Post Office

**Norman Baker:** To ask the Secretary of State for Trade and Industry what contribution her Department is making following the announcement by the Secretary of State for Environment, Food and Rural Affairs

on 16 July 2003, to facilitate the reconfiguration of NIREX as a body entirely independent of the nuclear industry. [158910]

**Mr. Timms** *[holding answer 5 March 2004]*: The Department is continuing to work with Defra and other departments to determine the future of Nirex.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry if she will make a statement on the future of Post Office Ltd. [159181]

**Mr. Timms** *[holding answer 5 March 2004]*: There are many challenges facing Post Office Ltd. in ensuring that its network of post offices can remain viable and sustainable. The Performance and Innovation Report published in 2000 showed quite starkly that the post office network had not kept pace with the changing needs of its customers and was suffering from lack of investment. A strong management team has been put in place and given the task of turning the company round and building a commercially successful future for the network, by introducing new products and services to bring in new customers.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry what assessment has been made of the ability of Post Office Ltd. adequately to serve all those in local communities who need access to local post offices, with particular reference to the Network Reinvention Programme. [159182]

**Mr. Timms** *[holding answer 5 March 2004]*: Post Office Ltd. is committed to ensuring that, at the end of the network reinvention programme, nationally at least 95 per cent. of the urban population will still live within one mile of a post office and the majority within half a mile.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry what assessment has been made of the conformity of *(a)* Post Office Ltd. and *(b)* Postwatch with the guidance offered in the Office of the Deputy Prime Minister Performance and Innovation Unit Report 2000 in each year since 2000. [159183]

**Mr. Timms** *[holding answer 5 March 2004]*: The recommendations of the Cabinet Office Performance and Innovation Unit's 2000 Report on modernising the post office network were accepted in full by the Government. In line with the Report, several have now been fully implemented, and implementation of others continues in conjunction with Post Office Ltd. and other stakeholders.

In line with the Performance and Innovation Unit's recommendation, the Postal Services Commission reports annually on the post office network and copies are available in the Libraries of the House.

### Public Service Agreement

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans she has to publish regional analyses of her Department's net spending on Promotion of Enterprise, Innovation and Increased Productivity for 2002–03. [157217]

**Ms Hewitt:** My Department's spring 2003 Departmental Report (Cm 5916, May 2003) provided regional breakdowns of Government funding for 2002–03 for the Regional Development Agencies and expenditure on Regional Selective Assistance (Chapter 10, figures 10.1 and 10.2). Updated information will be detailed in the spring 2004 Departmental Report, which is due to be published in April 2004.

The Public Expenditure Statistical Analyses (PESA) 2003 (Cm 50901, May 2003) provided a more wide-ranging analysis of public expenditure by country and region for 1998–99 to 2001–02. The 2004 edition will be published alongside this spring's Departmental Reports.

### Refrigerators

**Miss McIntosh:** To ask the Secretary of State for Trade and Industry how many *(a)* non-domestic and *(b)* domestic refrigerators were bought in each year since 1997. [158087]

**Jacqui Smith:** The data requested are not available from official sources.

### Regional Economic Strategies

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans her Department has to introduce a standardised method of monitoring and reporting on delivery of regional economic strategies by each regional development agency. [157223]

**Jacqui Smith:** I refer the hon. Member to my answer given on 19 January 2004, *Official Report*, column 1043W.

### Renewable Energy

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry which projects have benefited from the Renewable Energy Initiative of the Export Credit Guarantee Department. [151991]

**Mr. Mike O'Brien:** The Renewable Energy Initiative (R.E.I) has so far produced 24 initial inquiries, and we are hopeful that over time some of these will develop into firm business. The REI was never going to produce quick wins but is about raising awareness.

### VAT Registration

**Brian Cotter:** To ask the Secretary of State for Trade and Industry how many businesses have *(a)* registered and *(b)* de-registered for VAT since 1997 in each of the 88 deprived local authorities in England. [156712]

**Ms Hewitt:** *[holding answer 26 February 2004]*: The Neighbourhood Renewal Unit has defined 88 local authorities in England as being deprived for the purposes of targeting the Neighbourhood Renewal Fund. The number of VAT registrations and de-registrations for each deprived local authority between 1997 and 2002 is available from the Libraries of the House. Data for 2003 will not be available until autumn 2004.

### Working Time

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many initiatives designed to support innovative working time reform have been sponsored by her Department since 1997; and at what cost. [158843]

**Mr. Sutcliffe:** The Work Life Balance Challenge Fund has helped employers develop and implement flexible working policies through 448 projects, helping some 1.2 million employees, at a cost of £10.5 million over the last three years. As a result over 80 per cent. of these employers report that they permit some of their employees to adopt flexible working-time arrangements. The Work Life Balance Campaign has spent £1.2 million this year promoting flexible working, producing publicity materials such as our current "50 cases studies" booklet. This helps employers see how firms can adapt flexible work policies, and shows such policies are generally inexpensive but often produce substantial savings. The campaign also helps to sponsor events including the Work Life Balance Trust week-long awareness campaigns that take place each September, and increases awareness of the benefits of work-life balance for those who have to care for elder dependents.

In addition, from April 2003, mothers and fathers with children under six or disabled children under 18 have the right to request a flexible working pattern, which equates to 3.7 million employees eligible to make a request. In the RIA before implementation of the flexible working law we estimated the total recurring costs to employers at £296 million: implementation costs of £6 million, with a £34 million one-off cost; request handling £114 million; and accommodating changes to working patterns £176 million. As the legislation has been in operation for less than a year we do not have confirmation of these estimates at this time.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what discussions she has had with *(a)* the British Chambers of Commerce, *(b)* the Federation of Small Businesses, *(c)* the Confederation of British Industry and *(d)* Labour Members of the European Parliament regarding the UK opt-out from the Working Time Directive. [158845]

**Mr. Sutcliffe:** My right hon. Friend the Secretary of State meets with the CBI on a monthly basis to discuss a variety of issues, including Working Time. To my knowledge, my right hon. Friend the Secretary of State has not discussed Working Time with either the British Chambers of Commerce or the Federation of Small Businesses; however, my hon. Friend the Minister for Small Business and Enterprise and I have with the Federation of Small Businesses very recently, although they did not ask for Working Time to be on the agenda on either of these occasions. My right hon. Friend the Secretary of State has telephoned Stephen Hughes MEP about the Working Time Directive and I visited the European Parliament on 20 January and saw several MEP's including Gary Titley and Claude Moraes. Officials in my Department frequently meet various organisations, representing all sides of business and employees, to discuss Working Time including the opt-out.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what her policy is on the *(a)* reform and *(b)* removal of the UK opt-out from the Working Time Directive. [158846]

**Mr. Sutcliffe:** The Government are committed to the retention of the opt-out from the 48-hour weekly working time limit. We are concerned to hear about possible misuse of the opt-out but do not believe that this is a reason to abolish it. It is better, we believe, if it were to be established that there are problem areas, to consider what safeguards are necessary to ensure that it works properly.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry when she will reply to the question tabled by the hon. Member for Eddisbury on 5 February on the UK opt-out from the EU Working Time Directive. [158847]

**Mr. Sutcliffe:** The PQ tabled by the hon. Member for Eddisbury on 5 February, was answered on 26 February 2004, *Official Report*, column 497W.

## WORK AND PENSIONS

### Benefit Payments

**Ian Lucas:** To ask the Secretary of State for Work and Pensions how many adults are in receipt of *(a)* Disability Living Allowance, *(b)* Incapacity Benefit and *(c)* Attendance Allowance in each of the local authority wards in Wrexham for the latest year for which figures are available; and what percentage of the population this represents. [158714]

**Maria Eagle:** The numbers of adults in receipt of the benefits listed, in each of the local authority wards in Wrexham, is indicated in the table.

| | *Disability Living Allowance* | | *Incapacity Benefit* | | *Attendance Allowance* | |
|---|---|---|---|---|---|---|
| *Ward name*[2] | *Number of recipients*[3] | *Percentage of population*[4] | *Number of recipients*[3] | *Percentage of population*[4] | *Number of recipients*[3] | *Percentage of population*[4] |
| Acton | 240 | 9.73 | 195 | 11.47 | 160 | 20.86 |
| Borras Park | 110 | 5.11 | 120 | 7.34 | 65 | 12.45 |

[1] Wards are based on 2003 Ward boundaries.
[2] Number of Recipients—DLA aged 17 and over, IB aged 16 and over, AA aged 65 and over.
[3] Percentage rates based on relevant resident populations from the 2001 Census (DLA Population aged 16 and over, IB Population aged 16–65, AA Population aged 65 and over).
[4] All ward level benefit data is the latest currently available, August 2002.

*Notes:*
1. The figures given for incapacity benefit exclude residual severe disablement allowance cases.
2. All benefit counts have been rounded to a multiple of five to protect the confidentiality of individual claimants, percentages have been rounded to two decimal places.

*Source:*
IAD Information Centre, Department for Work and Pensions.

**Mr. Dhanda:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to simplify the procedure for individuals wishing to request the direct payment of their benefits. [156825]

**Mr. Pond:** Continual monitoring and evaluation throughout the conversion process has resulted in the implementation of a number of improvements to letters, leaflets, scripts and the forms that customers complete. We will continue to monitor our operational processes closely and will make further changes if we see any evidence in future that these are not working effectively.

## Disabled People

**Simon Hughes:** To ask the Secretary of State for Work and Pensions how many projects in Greater London received funding to promote participation by disabled people in the workplace in each year since 1997. [158450]

**Maria Eagle:** Jobcentre Plus run a number of national programmes to help disabled people overcome barriers to employment; all of these are available in London.

The New Deal for Disabled People (NDDP) supports the Government's commitment to "work for those who can and support for those who cannot" and is designed to help people with disabilities and health conditions in finding and sustaining paid employment. NDDP is the first programme specifically designed to support people on disability and health-related benefits into employment. Participation in NDDP is entirely voluntary.

The Access to Work programme is open to disabled people already in employment (including self-employment), people changing jobs and unemployed people about to start work. It helps towards the additional employment costs resulting from disability.

In April 2001, the former Supported Employment Programme was modernised and renamed Workstep; it places greater emphasis on developing disabled people and helping them move into mainstream employment where possible.

Work Preparation is an individually tailored programme that enables people to overcome barriers to work associated with their disability, and prepares them to join the labour market with the necessary confidence to find and keep work.

The Job Introduction Scheme provides a weekly grant of £75 towards the employment costs incurred during the first few weeks of employment. This is usually paid for six weeks but may be extended to a total of 13 weeks. The scheme is for use at the discretion of Jobcentre Plus staff in situations where a disabled applicant is considered suitable, but the employer has genuine doubts about the individual's ability to cope with the proposed job or place of work.

### Ethnic Minority Outreach Programme

**Keith Vaz:** To ask the Secretary of State for Work and Pensions when he plans to announce the extension of the Ethnic Minority Outreach Programme. [156122]

**Mr. Browne:** My right hon. Friend the Chancellor of the Exchequer, announced the extension of the Ethnic Minority Outreach Programme in July 2002 as part of the 2002 Spending Review 'Opportunity and Security for All'.

The additional £14 million funding will be available from April 2004 for two years. My right hon. Friend the Secretary of State has no plans to make a further announcement at this time.

### Ministerial Visits

**Keith Vaz:** To ask the Secretary of State for Work and Pensions (1) if he will make a statement on his recent visit to Leicester; [156123]

(2) if he will make a statement on his visit to open the outreach centre provided by Business-to-Business (UK) Ltd. [156126]

**Mr. Browne:** My right hon. Friend has not visited Leicester recently. However, I was pleased to be able to visit the two Jobcentre Plus Offices in Charles street and Wellington street, Leicester on 4 February 2004, where I met staff, employers and partners who work in or use the offices. Jobcentre Plus in Leicester now offers a truly modern service, offering a range of job and benefit help to its customers—including access to more than 400,000 vacancies Europe-wide.

I also visited Leicester on 25 November 2003 to open the Business-to-Business service, awarded a contract by Jobcentre Plus to deliver Outreach services to the local ethnic minority population. I look forward to seeing the results generated by this innovative provision.

### New Deal

**Paul Holmes:** To ask the Secretary of State for Work and Pensions how much funding has been allocated to advertising for each of the New Deal programmes in each year since 1997; and if he will make a statement. [153462]

**Mr. Browne:** The available information on advertising media spend for the New Deal programme since 1997 is in the table.

| | *New Deal programme* | *Spend*[1] *(£)* |
|---|---|---|
| 1997–98 | New Deal | 3,571,000 |
| | New Deal for Lone Parents | 54,000 |
| 1998–99 | New Deal | 4,381,000 |
| | New Deal for Lone Parents | 1,400,000 |
| 1999–2000 | New Deal | 261,000 |
| | New Deal for Lone Parents | 655,000 |
| | New Deal for Partners | 201,000 |
| 2000–01 | New Deal 50 Plus | 2,270,000 |
| | New Deal for Lone Parents | 1,588,000 |
| 2001–02 | New Deal 25 Plus | 613,000 |
| | New Deal for Disabled People | 350,000 |
| 2002–03 | New Deal for Musicians | 33,000 |
| 2003–04[2] | New Deal | 5,800,000 |

[1] Figures are rounded to the nearest thousand and exclude VAT.
[2] Allocated budget.

*Notes:*
1. Unless otherwise specified, spend is for generic New Deal advertising.
2. Figures exclude provision to advertise some local New Deal activities. This information is not held centrally and could be obtained only at disproportionate cost.

*Source:*
COI Communications.

### Students

**Chris Ruane:** To ask the Secretary of State for Work and Pensions what joint projects his Department is conducting with the Department for Education and Skills to increase the number of students entering *(a)* access courses and *(b)* further education; and what progress has been made to date. [156803]

**Mr. Browne:** This Department is not conducting any joint projects with the Department for Education and Skills to increase the number of students entering access courses and further education.

However, through Work Based Learning for Adults, this Department does offer people access to a range of occupational skills training and gives them the opportunity to work towards a recognised qualification that will increase their chances of finding work.

We also contribute to the Department for Education and Skills' target on Basic Skills by screening clients for basic skills needs, making referrals for assessment and then offering training to those who need it.

### Trust Beneficiaries

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions (1) for what reason distributions from trusts are disregarded by the Department for the purposes of assessing care and means tested benefits, with particular reference to beneficiaries of the Macfarlane and Eileen trusts; and if he will make a statement. [154979]

(2) for what reasons the Department does not permit beneficiaries of the Thalidomide Trust to discount their distributions when being assessed for care and means tested benefits; and if he will make a statement. [154981]

**Maria Eagle:** The purpose of means tested benefits is to safeguard against anyone falling below a standard set by Parliament as being the minimum subsistence level. They are paid out of public funds and do not require

National Insurance contributions to have been paid by the beneficiaries. The rules on the treatment of income and capital strike a balance between protecting people who are less well off and protecting the taxpayer by ensuring that help is directed towards people who need it most.

The Macfarlane and Eileen Trusts exist to help people who have been infected with HIV from contaminated blood products received as part of NHS treatment and are government funded. At the time the trusts were set up, there was considerable stigma attached to HIV and AIDS and it was considered inappropriate that people should have to disclose their condition to benefits staff. As such, it was decided that there should be no need to disclose payment from the Macfarlane or Eileen trusts.

The Thalidomide Trust is a private scheme funded by pharmaceutical companies responsible for producing thalidomide. It is treated in the same way as other personal injury payments; capital that is placed in trust for an individual can be disregarded. Income from an individual's trust can also be disregarded as long as the income is used for other than day to day living expenses. We have no plans to change these arrangements.

The financial assessment for residential accommodation is assessed by the Department for Health. Payments from the Eileen and Macfarlane trusts are disregarded; payments from the Thalidomide Trust are taken into account in the same way as they are for assessing means tested benefits. For Home Care charges, councils have a minimum requirement to follow the capital rules for residential care; however, councils can be more generous if they wish.

## CULTURE, MEDIA AND SPORT

### Sporting Opportunities (Children)

10. **Mrs. Calton:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her Department's progress on her Public Service Agreement target to enhance the take-up of sporting opportunities by five to 16-year-olds. [158925]

**Mr. Caborn:** Data on the number of pupils who choose to take up the entitlement to two hours each week of high-quality PE and school sport within and beyond the curriculum are currently being collected for the first time. The results will be published in April.

Initial findings from Phase 1 School Sport Partnerships, published last week, provide compelling evidence of the difference that School Sport Partnerships are making.

### Second World War

11. **Hugh Bayley:** To ask the Secretary of State for Culture, Media and Sport what plans the Heritage Lottery Fund has to mark the 60th anniversary of the end of the Second World War. [158926]

**Estelle Morris:** Lottery distributors recognise this important anniversary. The New Opportunities Fund has announced an initiative called "Veterans Reunited" and the Heritage Lottery Fund will make a further announcement shortly on how it expects to lend its support.

### School Playing Fields

12. **Miss McIntosh:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on lottery funding for school playing fields. [158927]

**Mr. Caborn:** Lottery funding will continue to be made available for the provision of new school sports facilities—including playing fields.

The Government have put in place a number of measures to safeguard existing playing fields and to ensure that effective community use is being made of them.

### Museums

13. **David Taylor:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the contribution of museums to the UK economy in each of the last three years; and if she will make a statement. [158928]

**Estelle Morris:** The National Museums and Galleries sponsored by my Department attract around 9 million tourists from overseas annually and so make a significant contribution to our economy. In this context, I look forward to the publication tomorrow of the report by the National Museums' Directors' Conference: "Valuing Museums", and to considering its findings.

14. **Mr. Hugo Swire:** To ask the Secretary of State for Culture, Media and Sport how many museums in receipt of grants from the National Lottery have closed in each of the past three years. [158929]

**Estelle Morris:** No museum registered through the MLA, and which has been in receipt of grants from the National Lottery, has closed in the past three years. We have information only on registered museums.

### Rugby Union

15. **Mr. Randall:** To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with the authorities representing rugby union about the improvement of stadia. [158930]

**Mr. Caborn:** I recently met Howard Thomas, Chief Executive of Premier Rugby, to discuss his proposal for the creation of a Rugby Union Stadia Development Trust to help rugby clubs improve the capacity of their stadia.

### Horse Racing

16. **Mr. Laurence Robertson:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the progress of the Office of Fair Trading investigation into the control of horse racing. [158931]

**Mr. Caborn:** The racing authorities are in continuing discussion with the OFT about their response to the Rule 14 notice which it issued. It remains my hope that these discussions produce a satisfactory outcome.

## Digital Television

17. **Michael Fabricant:** To ask the Secretary of State for Culture, Media and Sport what progress has been made with the digital television action plan with respect to the dates for analogue switch-off in different regions; and if she will make a statement. [158933]

**Tessa Jowell:** We are working with the stakeholders, within the Digital Television Action Plan, to ensure that the availability and affordability criteria set for switchover are met so that we can, if we choose, take the decision to order the switching off of analogue terrestrial transmission by 2010. We expect implementation of this to be phased over four years, region by region. The exact timetable and the order in which regions will be switched has yet to be determined. We are having discussions with the stakeholders and will undertake a public consultation before we announce the timetable.

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to encourage the sale of digital television sets; and if she will make a statement. [158718]

**Estelle Morris:** Consumers who are planning to buy a new television set should be able to make an informed choice between buying a television set with digital decoder integrated into it, and a television set that will require a set top box to enable it to be used for viewing digital television broadcasts. Through the Digital Television Action Plan, we are working with broadcasters, manufacturers, retailers and consumer representatives to make sure that consumers have clear and consistent information, including helpful messages about the benefits of digital equipment.

## Licensed Premises (Policing Costs)

19. **Mr. John Denham**: What assessment she has made of the implications of allowing police authorities to raise a levy on city centre licensed premises to pay for policing costs. [158935]

**Mr. Caborn:** We do not consider that the case has yet been made for imposing a compulsory levy on licensed premises for the costs of policing. We believe that the right way forward is through voluntary schemes where they can be justified. The implementation of the Licensing Act 2003 and the Alcohol Harm Reduction Strategy for England to be published shortly will do a great deal to address the issues that the honourable Member has previously raised about the policing of the night-time economy.

## Arts Council Grants

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport (1) if she will list the Arts Council grants for capital projects by *(a)* name and *(b)* funding level for each year since 1998; [159232]

(2) if she will list by *(a)* name and *(b)* the revenue funding level the Arts Council grants paid in each year since 1998 to (i) dance companies, (ii) theatre/drama companies, (iii) opera companies, (iv) visual arts organisations, (v) literature organisations and (vi) other arts organisations. [159234]

**Estelle Morris:** The information requested could be provided only at disproportionate cost.

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport if she will list the Arts Council grants for Capital projects broken down by funding level, which were agreed but not commenced, as at 1 March 2004. [159233]

**Estelle Morris:** The following table supplied by Arts Council England lists all Capital projects where the first payment has not yet been made. Awards made in the recent Grants for the Arts Capital round, announced in February this year, have not been included. In total the list comprises 54 projects totalling £77,105,741.

| *Applicant* | *Programme name* | *Award amount (£)* |

### Athletics Track (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what grants can be made available for the provision of an athletics track in Chorley. [157976]

**Mr. Caborn:** Applications for grants for the provision of new athletics facilities can be made to the following programmes: Community Club Development Programme administered by Sport England, New Opportunities on Physical Education in Schools scheme administered by the New Opportunities Fund. Applications for grants for the refurbishment of existing athletics facilities can be made to Sport England.

### BBC Charter Review

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what budget has been set for the BBC Charter review process. [157796]

**Tessa Jowell:** Provision for Charter Review is made within the overall departmental budget. The first phase for which figures are available is the public consultation, which is expected to cost around £330,000 in the 2003–04 financial year, excluding staff costs.

### Cricket Tour (Zimbabwe)

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport if she will instruct the England and Wales Cricket Board not to proceed with its planned tour of Zimbabwe this year. [159231]

**Mr. Caborn:** The decision to tour in Zimbabwe is entirely a matter for the ECB. There are no powers for the Government to intervene in any way. However, because of the deteriorating political and human rights

situation in the country, I do not support the tour, in the same way that I would not support any activity capable of being used by the Mugabe regime for propaganda purposes.

## National Lottery

**Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport how much Heritage Lottery funding has been awarded in *(a)* Greater London and *(b)* each London borough in each of the last five years; and how many projects were awarded funding. [158435]

**Estelle Morris:** These figures have been supplied by the Heritage Lottery Fund. Both tables have figures for each London borough, in each of the last five financial years. The figure in brackets is the number of decisions made.

*Table (a): Lottery funding from the Heritage Lottery Fund, (excluding awards for all grants)*

### North-West (Transport Links)

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will hold discussions with the Secretary of State for Transport about improving *(a)* rail and *(b)* road links to the North West to allow quicker access for tourists. [158616]

**Mr. Caborn:** The Department for Culture, Media and Sport (DCMS) works with the Department for Transport to ensure that tourism priorities are given due consideration in transport policy.

On 1 April 2003, the North West Regional Development Agency (NWDA) took on strategic responsibility for tourism in the North West region. DCMS has issued guidance to all the Regional Development Agencies (RDAs) on how tourism should be incorporated in their Corporate Plans and Regional Economic Strategies; this includes the importance of linking regional tourism strategies with regional transport strategies.

I understand that the three northern RDAs have commissioned a 20-year transport vision for the North of England, due to be launched in April 2004. It will recommend a number of strategic transport projects that will seek to improve the economic performance of the North, including tourism in the North West.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many people travelled by *(a)* road and *(b)* rail to holiday in (i) the North West and (ii) Lancashire in 2003. [158617]

**Mr. Caborn:** I understand from the North West Tourist Board that statistics on tourism performance for 2003 will not be available until the middle of the year. I will write to my hon. Friend again once the figures have been received.

### Public Libraries

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimates she has made of public library spending in each year since 1990 on *(a)* information and communications technology equipment, *(b)* building renovations, *(c)* book stocks and *(d)* audio-visual material stocks; and if she will make a statement. [158967]

**Estelle Morris:** This information is not held centrally. However, information about expenditure on libraries, including expenditure on book and audio-visual material stocks is contained in the annual Chartered Institute of Public Finance and Accountancy Public Library Statistics, copies of which are available in the Library of the House.

### Remembrance Services

**Mr. Peter Duncan:** To ask the Secretary of State for Culture, Media and Sport (1) how much has been allocated from the New Opportunities Fund to fund travel expenses of ex-servicemen and women wanting to travel to remembrance services in each year since its introduction; [158968]

(2) for how long the New Opportunities Fund has provided travel expenses to ex-servicemen and women wanting to attend remembrance services in *(a)* the UK and *(b)* Europe; [158969]

(3) if she will make a statement on the provision of financial aid through the New Opportunities Fund to help ex-servicemen and women travel to remembrance services; [158971]

(4) what criteria were used when deciding whether individual servicemen and women are entitled to benefit from the funding of their travel expenses to remembrance services by the New Opportunities Fund; [158973]

(5) how many servicemen and women have benefited from the funding of travel expenses to remembrance services by the New Opportunities Fund in each of the last three years for which figures are available. [158974]

**Estelle Morris:** The New Opportunities Fund launched its Heroes Return scheme on 9 February 2004. This scheme is providing £10 million funding for Second World War veterans their wives or husbands, widows or widowers, and, where required, carers to visit the overseas areas where the veterans saw active service. The main criterion is that ex-servicemen and women saw active service with or alongside the British Armed Forces in the Second World War. Further details on the Heroes Return can be obtained from the Veterans Agency on 0800 169 2277.

A second scheme, Home Front Recall, will be launched later in the spring. This will provide funding projects and events in the UK for veterans and others within the broader community to commemorate the events leading to the end of the Second World War. More details of how this scheme will operate will be available when it is launched.

The New Opportunities Fund has not previously operated a scheme in relation to veterans, but the National Lottery as a whole has provided over £3 million of funding to veterans and veterans organisations since 1995.

**Mr. Peter Duncan:** To ask the Secretary of State for Culture, Media and Sport whether ex-servicemen and women from *(a)* Scotland, *(b)* Northern Ireland, *(c)* Wales and *(d)* England are entitled to equal

financial aid through the New Opportunities Fund to travel to remembrance services in (i) the UK and (ii) Europe. [158970]

**Estelle Morris:** On (i), the New Opportunities Fund will shortly be launching its Home Front Recall scheme, which will fund the costs of commemorative projects and events in the UK to mark the events that led to the end of the second world war. Details of the application process for grants will be announced when the scheme is launched later in the spring, but it will be a UK-wide scheme providing funding in all four UK countries.

On (ii), the New Opportunities Fund launched its Heroes Return scheme in February 2004. This scheme provides funding for second world war veterans, their wives or husbands, widows or widowers, and, where required, carers to visit the areas in Europe (and, indeed, other parts of the world) where the veterans saw active service. It is a UK-wide scheme and veterans from Scotland, Wales, Northern Ireland and England are entitled to equal financial assistance.

**Mr. Peter Duncan:** To ask the Secretary of State for Culture, Media and Sport what representations she received from ex-servicemen and women during the creation of the initiative by the New Opportunities Fund to fund their travel expenses to remembrance services. [158972]

**Estelle Morris:** The New Opportunities Fund (NOF), as part of its role in developing the Heroes Return scheme, has discussed the scheme widely with veterans and veterans' organisations. In particular, the fund has worked closely with the Confederation of British Service and Ex-service Organisations (COBSEO), which is the representative body for the UK's veterans' organisations, since the Heroes Return scheme was first proposed. In addition, the fund has arranged meetings with many of the major veterans organisations, such as the Royal British Legion. COBSEO and NOF are currently running seminars across the UK to explain the nature of the Heroes Return scheme directly to a large number of veterans' organisations.

### S4C

**Mrs. Helen Clark:** To ask the Secretary of State for Culture, Media and Sport when she expects to complete the review of the funding for S4C. [158932]

**Tessa Jowell:** Following a request from the S4C Authority, I have commissioned an independent review of S4C, to be carried out by Roger Laughton, Head of Bournemouth University Media School. He will be assisted by Meurig Royles as Welsh language assessor. I have asked Mr. Laughton to report back to me at the beginning of May.

### Tourism Prospectus

**Mr. Sanders:** To ask the Secretary of State for Culture, Media and Sport when her Department expects to release the Tourism Prospectus announced on 17 November 2003. [159253]

**Mr. Caborn:** It is anticipated that the Prospectus will be released by the early summer. The first round of consultation last year produced a number of valuable contributions from stakeholders. These have been reflected in a new draft, which will be sent out for final stakeholder consultation in the next few weeks. The Prospectus will be an agreed statement of actions and responsibilities between the major players in tourism, both in the public and private sectors.

### Weymouth Transmitter

**Jim Knight:** To ask the Secretary of State for Culture, Media and Sport when the Weymouth transmitter will be upgraded. [159236]

**Estelle Morris:** Broadcasters, through contracts with transmission operators, are responsible for maintaining the terrestrial network. But until the analogue signals are turned off, there will not be enough frequencies available to enable all the transmitters to carry digital terrestrial services. We believe that digital switchover could be achieved between 2006 and 2010, subject to our affordability and availability criteria being met.

## NORTHERN IRELAND

### Cancer

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many people have died from cancer in Northern Ireland in each of the last 10 years. [157336]

**Mr. Pearson:** The following table gives the number of deaths registered in Northern Ireland each year from 1993 to 2002 caused by "malignant neoplasms"[1].

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes C00-C97 (2001–2002) and the Ninth Revision (ICD-9) codes 140–208 (1993–2000).

*Number of registered deaths by year in Northern Ireland caused by "malignant neoplasms"*

| | *Deaths* |
|---|---|
| 1993 | 3,624 |
| 1994 | 3,595 |
| 1995 | 3,491 |
| 1996 | 3,623 |
| 1997 | 3,589 |
| 1998 | 3,648 |
| 1999 | 3,552 |
| 2000 | 3,541 |
| 2001 | 3,696 |
| 2002 | 3,652 |

### Citizenship Ceremonies

**Lady Hermon:** To ask the Secretary of State for Northern Ireland whether citizenship ceremonies will take place in Northern Ireland. [157825]

**Mr. Paul Murphy:** Yes, the Nationality, Immigration and Asylum Act 2002 applies to all parts of the United Kingdom.

### Alternative Power Sources

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what recent progress has been made in the development of alternative power sources in Northern Ireland; and if he will make a statement. [157657]

**Mr. Pearson:** During the past year, the ability of the Northern Ireland electricity system to accommodate a broad range of renewable energy generation has been fully assessed, as has the potential for generating electricity from tidal streams in the waters around Northern Ireland.

Renewable energy generation connected to the Northern Ireland grid increased from 45 megawatts in 2002 to 86 megawatts in 2003. All of this increase was wind based, although important projects using wood waste (five megawatts) and landfill gas (four megawatts) will be completed during 2004.

The Department of Agriculture and Rural Development is currently assessing the economic potential of biomass for energy generation in Northern Ireland and will report its conclusions in the autumn.

I intend to support the development of renewable energy by introducing a Renewable Obligation from April 2005 and I will be consulting shortly on the draft scheme of operation and legislation for the Obligation.

### Assembly Deputy Speakers

**David Burnside:** To ask the Secretary of State for Northern Ireland what the *(a)* role and *(b)* cost of the deputy speakers of the Northern Ireland Assembly has been since suspension. [156668]

**Mr. Paul Murphy:** The status of the Deputy Speakers, under Section 39 of the Northern Ireland Act 1998, has not been affected by suspension but, since they have not been required to exercise any statutory functions, they have not received any payment as Deputy Speakers.

### Assets Recovery Agency

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how much has been recovered by the Assets Recovery Agency in Northern Ireland from people associated with *(a)* Loyalist paramilitaries and *(b)* Republican paramilitaries since its creation. [156609]

**Jane Kennedy:** Currently 24 cases are under active investigation by the Assets Recovery Agency in Northern Ireland with a total asset value of over £8 million. The agency has frozen assets in a total of four cases and adopted a further two cases for taxation. These cases involve around £2.7 million of assets. The cases cover the whole range of organised crime among all groupings and areas across Northern Ireland.

### Belfast City Airport

**Lady Hermon:** To ask the Secretary of State for Northern Ireland when he will report the outcome of the review into the current planning agreement affecting Belfast City airport; and if he will make a statement. [159274]

**Angela Smith:** While Belfast City airport has formally requested a review of the current planning agreement, Planning Service has not yet been advised of what changes to the agreement they are proposing. However, to move this issue forward a meeting with representatives of the City airport has been scheduled for 10 March 2004.

I am, therefore, not yet in a position to advise when the outcome of such a review will be known.

### Disability Discrimination

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what plans he has to extend provisions against discrimination against people on grounds of disability. [152593]

**Mr. Spellar:** We are committed to the elimination of discrimination against disabled people in Northern Ireland and are continuing to build on the significant impact made by the Disability Discrimination Act (DDA). We intend to extend the DDA to provide further protection for people with disabilities.

New Regulations, the Disability Discrimination Act 1995 (Amendment) Regulations (Northern Ireland) 2004, will extend and improve protection for disabled people in the field of employment and vocational training from 1 October 2004.

A number of measures in relation to transport will extend protection for disabled people in Northern Ireland. The Department of the Environment intends to begin consultation in April 2004 on proposals to implement the Government's commitment on making (public hire) taxis accessible to disabled people.

The Department of the Environment also intends to extend provisions relating to the carrying of guide dogs, hearing dogs and other prescribed categories of dogs to licensed drivers of private hire vehicles in mid 2004.

The Northern Ireland Executive agreed in principle to proceed to removal of the transport exemption in Northern Ireland. It is proposed to issue a Northern Ireland consultation document on the removal of the exemption based on the consultation by the Department for Transport in Great Britain by May 2004.

In education, Special Educational Needs and Disability legislation, which will effectively extend the provisions of the DDA to education in Northern Ireland, is in preparation and is expected to be made later this year.

Finally, the single Equality Bill which will harmonise (extending and updating where appropriate) existing anti-discrimination legislation in Northern Ireland, including that relating to disability, will be the subject of a Green Paper public consultation in the spring.

By extending the legislation in these ways we will strengthen and improve civil rights for disabled people.

### Government Records

**Mr. Paul Marsden:** To ask the Secretary of State for Northern Ireland which documents are held by his office written by *(a)* P. H. Pearse, *(b)* Thomas J. Clarke, *(c)* Thomas Macdonagh, *(d)* Edward Daly, *(e)* William Pearse, *(f)* Michael O'Hanrahan, *(g)* Joseph Mary Plunkett, *(h)* John MacBride, *(i)* Sean Heuston, *(j)* Michael Mallin, *(k)* Eamónn Ceannt, *(l)* Con Colbert, *(m)* Thomas Kent, *(n)* Sean MacDiarmada, *(o)* James Connolly and *(p)* Sir Roger Casement. [156302]

**Mr. Paul Murphy:** It is not possible to identify documents, which may have been written by the names listed, without detailed research covering a large number of documents. A full answer could therefore be provided only to the hon. Member at disproportionate cost. Government records are normally transferred to the National Archives after 30 years and information on these records can be accessed through its website at: www.nationalarchives.gov.uk

### Electronic Voting

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what plans he has to bring forward proposals to amend legislation to enable the piloting of electronic counting of votes in *(a)* local council, *(b)* Assembly and *(c)* Westminster elections in Northern Ireland; and if he will make a statement. [158281]

**Mr. Spellar:** As I indicated in my reply of 15 December to the hon. Lady, *Official Report*, column 737W, the Government is interested in hearing views from interest parties on ensuring that election counts are as efficient and effective as possible. I am aware that the Chief Electoral Officer for Northern Ireland is looking at the issue of electronic counting.

### Fisheries

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what progress has been made in introducing transitional aid for Northern Ireland fishermen affected by this year's sea closures; and if he will make a statement on the timescale for aid. [158637]

**Mr. Pearson:** A transitional aid scheme has been drawn up in consultation with the local industry and is currently under consideration by the European Commission. My officials are pressing the Commission for their views, but I am not able to judge when I shall be in a position to announce the launch of the scheme.

### GM Crops

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what his Department's policy is on the growing of genetically modified crops in Northern Ireland. [158871]

**Angela Smith:** The Department of the Environment is the competent authority within the UK regulatory system for the control of the deliberate release and marketing of genetically modified crops in Northern Ireland. The Department deals with applications to grow GM crops on a case-by-case basis and decisions are taken following advice received from the UK's statutory advisory body, the Advisory Committee on Releases to the Environment. There are currently no applications for GM trials or commercial growing in Northern Ireland.

Northern Ireland Ministers are working closely with their counterparts in the rest of the UK, in considering the overall policy for genetic modification, based on the available evidence following the results of the farmscale trials and the outcome of the recent GM dialogue, and intend to set out their conclusions shortly.

### Killyleagh Development

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland when the Department of Environment intends to make a statement on the proposed Gocean development in Killyleagh. [158531]

**Angela Smith:** I have now received a detailed report on this proposal and intend to make a decision very soon.

### MRSA

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what guidance is available to *(a)* doctors, *(b)* nurses and *(c)* other healthcare personnel on preventing the spread of MRSA in hospitals in Northern Ireland. [158872]

**Angela Smith:** The Chief Medical Officer issued guidance to the Northern Ireland health service on MRSA and the management and control of hospital infection, and on resistance to antibiotics and other antimicrobial agents, in 1999 and 2000, respectively. Leaflets and pamphlets on MRSA are also available from the Department of Health, Social Services and Public Safety for patients and their relatives, and in the form of guidelines for residential and nursing home staff for the management of residents with MRSA. The Department issued an Antimicrobial Resistance Action Plan in 2002 and is taking forward many of its recommendations. Professional journals such as that of the Hospital Infection Society are also a valuable resource for healthcare personnel in their efforts to prevent the spread of MRSA and similar nosocomial infections.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many people have died from MRSA in each hospital in Northern Ireland since 2000; what steps he is taking to reduce such deaths; and if he will make a statement. [158876]

**Angela Smith:** The information requested is not available.

Surveillance, which is an important tool in the fight against infection, is quantified in Northern Ireland by the reports of MRSA blood cultures published by the Communicable Disease Surveillance Centre. Its second annual report, for 2002–03, indicated that the overall rate of patient episodes of MRSA bacteraemias in acute hospital trusts showed a slight reduction, from 218 to 228 over the previous year while 39.1 per cent. of staphylococcus aureus patient episodes were MRSA compared to 39 per cent. These figures compare favourably with England and Scotland.

Considerable resources have been devoted to addressing nosocomial infections, including MRSA, in the last three years. Hand hygiene has been particularly encouraged in hospitals. Figures indicate that there are currently 15 per cent. fewer prescriptions being written for antibiotic drugs than there were in 1998.

### Northern Ireland Assembly Commission

**David Burnside:** To ask the Secretary of State for Northern Ireland what the *(a)* role, *(b)* composition and *(c)* budget of the Northern Ireland Assembly Commission has been since suspension. [156667]

**Mr. Paul Murphy:** Although the membership of the Northern Ireland Assembly Commission remained unchanged following suspension, the provisions of paragraph 8 of the Schedule to the Northern Ireland Act 2000 prevent the Assembly Commission from meeting and transfer the Assembly Commission's functions to me, as Secretary of State for Northern Ireland. The Assembly Commission has therefore had no role or budget since suspension.

### Northern Ireland Electricity

**Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland what criteria were used to decide whether to *(a)* purchase and *(b)* dispose of Northern Ireland Electricity lands at Camlough, Co.Armagh in relation to the aborted pump storage of electricity generation project. [157318]

**Mr. Pearson:** The lands were vested in the early 1970s to facilitate the intended development by the former Electricity Board for Northern Ireland of a pump storage electricity generation project. The compensation paid to the landowners was based on the assessed open market value of the lands at that time.

Since the project did not proceed, the lands are being disposed of by Northern Ireland Electricity plc in accordance with a Disposal Strategy drawn up by the company and approved by the then Electricity Regulator under the terms of a formal Consent in 1997. The lands have been offered back to their original owners or their successors in title at the prices originally paid.

### Paramilitary Activities

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what his assessment is of the involvement of the *(a)* Provisional IRA, *(b)* INLA, *(c)* Real IRA, *(d)* UDA, *(e)* UVF and *(f)* LVF in (i) punishment beatings, (ii) drug trafficking and dealing, (iii) intelligence gathering and (iv) violence. [156631]

**Jane Kennedy:** Both Loyalist and Republican paramilitary groups have been involved in paramilitary style attacks, intelligence gathering and violence. Paramilitaries have also been involved in drug trafficking and dealing. The Government do not comment on specific intelligence matters. It is now time for all paramilitary groupings to bring their activities to a complete and permanent end.

### Police (North Belfast)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many police vehicles were assigned for patrol in North Belfast in each year since 1996. [156627]

**Jane Kennedy:** The number of vehicles deployed on a daily basis within Northern Ireland (previously the three Sub-Divisions of Antrim Road/North Street/Tennent Street) over the years in question were:

| | *Number* |
|---|---|
| 1996 | 13 vehicles—10 Sub-Divisional Mobile Patrols and three Neighbourhood Patrols |
| 1997 | 13 vehicles—10 Sub-Divisional Mobile Patrols and three Neighbourhood Patrols |
| 1998 | 13 vehicles—10 Sub-Divisional Mobile Patrols and three Neighbourhood Patrols |
| 1999 | 13 vehicles—10 Sub-Divisional Mobile Patrols and three Neighbourhood Patrols |
| 2000 | 13 vehicles—10 Sub-Divisional Mobile Patrols and three Neighbourhood Patrols |
| 2001 | 11 vehicles—Eight District Mobile Patrols and three Neighbourhood Patrols |
| 2002 | 11 vehicles—Eight District Mobile Patrols and three Neighbourhood Patrols |
| 2003 | 11 vehicles—Six Response Policing Patrols and five Sector Policing Patrols |

### Police Ombudsman's Office

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what powers of arrest officers from the Police Ombudsman's Office of Northern Ireland have over civilians. [156689]

**Jane Kennedy:** The Police and Criminal Evidence (Application to Police Ombudsman) Order (Northern Ireland) 2000 provides that certain powers set out in the Police and Criminal Evidence (Northern Ireland) Order 1989, including some general powers of arrest, will apply in relation to formal investigations by the Ombudsman under section 56 of the Police (Northern Ireland) Act 1998. In addition, section 56(3) of that Act gives certain officers of the Ombudsman, for the purpose of conducting or assisting in the conduct of a formal investigation, the powers and privileges of a constable and these would include a power to arrest civilians.

### Power Cuts

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many unexpected power cuts there were in Northern Ireland in the last three years for which figures are available; what the cause was in each case; and what steps he is taking to secure the continuity of the power supply in Northern Ireland. [157656]

**Mr. Pearson:** The following table gives a breakdown of the unexpected power cuts recorded on the NIE network between 2001 and 2003. It does not distinguish between minor cuts of very short duration and more extensive power failures.

*Unexpected power cuts recorded on the NIE network*

| *Direct Cause of power cut* | *2001* | *2002* | *2003* |
|---|---|---|---|
| Weather and environment | 2,012 | 1,614 | 1,516 |
| Ageing, wear and tear NIE equipment | 2,001 | 2,072 | 1,753 |
| Third party | 1,439 | 1,387 | 1,213 |
| Vandalism | 118 | 112 | 120 |
| Transient faults | 2,601 | 2,526 | 2,078 |
| Other faults (birds, animals, manufacturing faults etc.) | 215 | 211 | 222 |
| Total | 8,386 | 7,922 | 6,902 |

I am satisfied that both the generation and supply of electricity in Northern Ireland are adequate to meet expected demand for at least the next five years.

The Department of Enterprise, Trade and Investment (DETI) works closely with the Northern Ireland Authority for Energy Regulation (NIAER) and the industry to ensure continuity of supply through a variety of measures. These include extensive investment

in the transmission and distribution network to ensure that there is minimum disruption of power supplies due to network related problems. Northern Ireland Electricity (NIE) has invested some £418 million in the period 1998 to 2003 and this has contributed to a significant reduction in the incidence of power cuts related to network ageing, wear and tear, transient faults and to adverse weather conditions.

European Directive 2003/54/EC Schedule 4 requires member states to monitor security of supply issues, reporting every two years to the Commission on findings and measures taken to address problems. Such monitoring is currently the joint responsibility of DETI and the NIAER.

### Safety Strategy (Older People)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland when he will publish the Community Safety Strategy for Older People. [156580]

**Mr. Paul Murphy:** A draft Community Safety Strategy for Older People is currently being completed and will be issued for consultation later this month.Community safety and the removal of the fear of crime from older people is a central issue within the Community Safety Strategy for Northern Ireland, and the focus of the strategy being drafted.

Following a period of consultation, the Strategy will begin to be implemented later this year.

### Sign Language

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what plans he has to introduce interpreter training in Northern Ireland for those seeking to learn sign language. [157338]

**Jane Kennedy:** A programme to train Sign Language Interpreters was introduced in Northern Ireland in 1999 with funding from the European Social Fund and the Department for Employment and Learning. The programme—the Sign Language Interpreters Programme (SLIP)—was initiated by the Royal National Institute for Deaf People (RNID). A number of Further Education Colleges also provide training in sign language, below interpreter level.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what assessment he has made of the case for providing signing to accommodate deaf people in any new Northern Ireland assembly. [157344]

**Mr. Paul Murphy:** Any assessment for the provision of facilities for any new Northern Ireland Assembly, including signing to accommodate deaf people, is a matter for the Northern Ireland Assembly Commission upon restoration.

### Sinn Fein

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 9 February 2004, *Official Report*, column 1163W, what evidence he has collated on the involvement of Sinn Fein in criminal activity. [157757]

**Jane Kennedy:** The investigation and collation of evidence is a matter for the Chief Constable in the first instance. He will pursue that evidence wherever it leads and will take action where there is a case to answer, through the judicial process.

### Slow Driving

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many individuals have been penalised for slow driving in each of the last five years. [157346]

**Mr. Paul Murphy:** The Chief Constable has advised me that there is no specific offence of slow driving. However, depending on the circumstances, the driver concerned may commit an offence of careless driving.

### Speeding

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many motorists in Northern Ireland were convicted of speed-related offences in each police district in the last five years for which figures are available as a result of being caught by a speed camera. [157668]

**Mr. Paul Murphy:** The Chief Constable has advised me that speed cameras are only operated by trained Road Policing Officers who are a regional resource and therefore not dedicated to a specific District Command Unit.

During the past five years 72,093 individuals were detected exceeding the speed limit and were accordingly in receipt of a Notice of Intention to Prosecute.

### Statutory Registration

**Mr. Wiggin:** To ask the Secretary of State for Northern Ireland what the cost of administering the Statutory Registration Scheme in Northern Ireland was in the last year for which figures are available. [157720]

**Mr. Pearson:** The cost of administering both the Statutory Certification Scheme and the Voluntary Classification Scheme in Northern Ireland by the Northern Ireland Tourist Board for the financial year 2002–03 was as follows:

*£000*

| | *Amount* |
|---|---|
| Salaries | 216 |
| Staff expenses | 28 |
| Cost of printing and establishment signs | 9 |
| *Overheads apportioned as follows*[1] | |
| Premises | 29 |
| General office | 31 |
| Staff development | 5 |
| Total gross costs | 318 |
| Less income from both schemes | 176 |
| Total net cost | 142 |

[1] Based on eight staff in unit and total staff of 12 in NITB.

The split of staff time would approximate to 40 per cent. to Statutory Certification Scheme and 60 per cent. to Voluntary Classification Scheme resulting in a net overall expense of running the Statutory Certification Scheme of £57,000 for the financial year 2002–03.

### Union Flag

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what the current arrangements are for the flying of the Union flag on buildings owned or used by each Department and its constituent agencies in Northern Ireland. [158530]

**Mr. Spellar:** The current arrangements for flying the Union flag and other flags from Government buildings in Northern Ireland are set out in the Flags Regulations (Northern Ireland) 2000.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Northern Ireland if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159616]

**Mr. Paul Murphy:** I refer the hon. Member to the answer given to this question today by my right hon. Friend the Leader of the House of Commons.

### Unionist Paramilitaries

**Mr. Hancock:** To ask the Secretary of State for Northern Ireland how many and what types of crime were directly related to the activities of Unionist paramilitary groups in the last 12 months for which records are available. [158092]

**Jane Kennedy:** The information requested is as follows.

*Security Situation Statistics for Northern Ireland*
*1 February 2003—31 January 2004*

| *Types of crime* | [1]*By Loyalists* |
|---|---|
| Number of deaths as a result of the security situation[2] | 7 |
| Number of shooting incidents | 135 |
| Number of bombing incidents[3] | 41 |
| Number of casualties as a result of paramilitary style assaults | 110 |
| Number of casualties as a result of paramilitary style shootings | 107 |

[1] Attribution is as perceived by PSNI based on the information available.
[2] Includes all deaths due to the security situation.
[3] An individual bombing incident may involve one or more explosive devices. Incidents recorded include explosion and defusings. Incidents involving hoax devices, petrol bombings or incendiaries are excluded.
*Note:*
Statistics are provisional and may be subject to minor amendment.

### Workforce (Religious Designations)

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what the composition of the monitored full-time workforce (11+) was, broken down by religious designation in *(a)* 1992 and *(b)* 2002; and if he will publish this information. [157613]

**Mr. Spellar:** Information regarding the composition of the monitored full-time workforce, broken down by religious designation in 1992 and 2002 is as follows:

| *Protestant* | *Roman Catholic* | *Non-determined* | *Total* |
|---|---|---|---|
| *1992* | | | |
| 235,330 | 132,694 | 18,051 | 386,075 |
| (60.9 per cent.) | (34.4 per cent.) | (4.7 per cent.) | — |
| *2002* | | | |
| 230,804 | 154,218 | 18,822 | 403,844 |
| (57.2 per cent.) | (38.2 per cent.) | (4.7 per cent.) | — |

*Source:*
Fair Employment Commission Monitoring Report (No. 3) 1992.
Equality Commission for Northern Ireland Monitoring Report (No. 13) 2002.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with *(a)* the International Security Assistance Force, *(b)* NATO, *(c)* the UN Secretary General's Special Representative to Afghanistan, *(d)* the EU's Special Representative to Afghanistan and *(e)* other organisations and governmental representatives based in Afghanistan regarding the need to increase the number of international troops on the ground in Afghanistan in the build up to and carrying out of elections in Afghanistan. [158837]

**Mr. Straw:** NATO took over leadership of the International Security Assistance Force (ISAF) in August 2003. The UK has been closely involved with other allies in discussions in NATO of plans for the expansion of ISAF beyond Kabul. My right hon. Friends the Prime Minister, the Secretary of State for Defence and I met the NATO Secretary-General, Jaap de Hoop Scheffer, in London on 12 February 2004; our discussions included Afghanistan.

The UK regularly discusses preparations for elections with the UN Secretary-General's Special Representative, Jean Arnault, with the EU Special Representative, Francesc Vendrell, and with the Afghan transitional administration. We also meet regularly in Kabul and London with non-governmental organisations working in Afghanistan to discuss a wide range of issues, including security and election preparations. I visited Kabul on 5 March where I had discussions with President Karzai, Foreign Minister Dr. Abdullah Abdullah, Monsieur Arnault and others.

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the buildings occupied by his staff, including agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159366]

**Mr. Rammell:** Completed asbestos surveys of buildings occupied by the Foreign and Commonwealth Office in the UK showed that no essential remedial or removal works were required. The next full survey is not due until 2012. In view of this no budget has been set aside for essential work.

None the less, budgets for interim local surveys during maintenance and project work will be allocated for 2004 and 2005. These are expected to be in the region of £20,000 pa for reactive maintenance, and £50,000 pa for project works.

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159373]

**Mr. Rammell:** Almost all of the building space occupied by the Foreign and Commonwealth Office in the UK was surveyed prior to the implementation of the Control of Asbestos at Work Regulations 2002. Surveys of the remaining space are due to be completed before May 2004.

### Burma

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the International Confederation of Trade Unions about the use of forced labour in Burma. [157468]

**Mr. Mike O'Brien:** I have had no discussions with the International Confederation of Trade Unions (ICFTU) on this issue. I am concerned about the use of forced labour in Burma. The ICFTU co-operates closely with the International Labour Organisation (ILO). We fully support the ILO and call upon the Burmese authorities to end permanently the use of forced labour.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the conditions for the people living in relocation or concentration camps in areas of Burma controlled by the State Peace and Development Council. [157471]

**Mr. Mike O'Brien:** I am concerned about the reported poor condition of relocation camps in Burma. Most of the major relocation sites are in areas where there is still ongoing fighting, so accurate estimates and independent assessment of the conditions (or numbers involved) is not possible. From the information that we have, conditions in most of the camps are reported to be very poor—inadequate housing, medical and educational facilities. Separation of villagers from their farmlands, and lack of alternative land in or near the camps, also causes great hardship.

In areas of Karenni State where there are now cease-fires some of the former relocation sites have been largely abandoned as people have returned to their villages. Some of those remaining, particularly where the relocation site is on the edge of a town, do so (semi) voluntarily because educational and other opportunities in the town are actually better than in their village.

We provide support to the United Nation High Commission for Refugees who are working to improve the conditions in camps.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what communication there has been between *(a)* his Department, *(b)* the European Union and *(c)* the United Nations and Aung San Suu Kyi since May 2003. [157721]

**Mr. Mike O'Brien:** Since May 2003, the Burmese regime has repeatedly rejected my attempts to speak to Daw Aung San Suu Kyi. The regime has also failed to respond to repeated requests by our ambassador to call on her. The UN Secretary General's Special Envoy to Burma, Tan Sri Razali Ismail, has met Aurig San Suu Kyi on three separate occasions since May 2003, most recently on 2 March 2004. The UN Special Rapporteur for Human Rights in Burma, Sergio Pinheiro, has seen Aung San Suu Kyi once since May 2003.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of *(a)* extra-judicial killings and *(b)* forced labour in the ethnic minority states of Burma since January. [157728]

**Mr. Mike O'Brien:** I am concerned about reports of extra-judicial killings and forced labour in the ethnic minority states of Burma since January. These issues and other human rights violations have been highlighted by successive UK co-sponsored UN Resolutions, most recently at the UN General Assembly in December 2003. These issues will remain a strong focus for the UN Special Rapporteur for Human Rights in Burma, Sergio Pinheiro and UN Secretary General's Special Envoy to Burma, Tan Sri Razali Ismail. We will work to ensure that these issues are addressed at the UN Commission on Human Rights in April 2004.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of land confiscation by the Burmese Government; and what representations he has made about it. [157729]

**Mr. Mike O'Brien:** I am concerned about reports of land confiscation by the Burmese Government. The confiscation of land by armed forces and other human rights violations have been highlighted by successive UK co-sponsored UN Resolutions, most recently at the UN General Assembly in December 2003. These issues will remain a strong focus for the UN Special Rapporteur for Human Rights in Burma, Sergio Pinheiro and UN Secretary General's Special Envoy to Burma, Tan Sri Razali Ismail. We will work to ensure that these issues are addressed at the UN Commission on Human Rights in April 2004.

### Colombia

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations have been made to the Government of Colombia concerning arrests and detention of trade union leaders and human rights activists in Colombia; and if he will make a statement. [159240]

**Mr. Rammell:** Our embassy in Bogota make regular representations to the Colombian authorities on issues relating to human rights concerns. Our ambassador called on the Vice President of Colombia on 4 March and raised a number of concerns on human rights, trades unionist issues and tackling collusion with paramilitarism in Colombia. We are also seeking information from the Colombian Government on the case of Luz Perly Córdoba of the Colombian agricultural workers' union Fensuagro, who has recently been reportedly detained. I continue to raise relevant concerns in my own contacts with Colombian Ministers.

### Correspondence

**Mr. Kaufman:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter to him dated 26 January from the right hon. Member for Manchester, Gorton with regard to Mr. Mosammat Meherun Nessa Begum. [157907]

**Mr. Mullin:** On 1 March my right hon. Friend's letter of 26 January was transferred to the Home Office for reply as the content concerned a Home Office matter.

### Cyprus

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government will offer *(a)* Greek Cypriot and *(b)* Turkish Cypriot controlled areas of Cyprus for the monitoring of a referendum on a settlement. [159136]

**Mr. MacShane:** The British High Commission in Nicosia is working closely with the UN to ensure that work on the UN Secretary General's proposals is completed on time for the referendums in April. We are discussing with the UN what assistance the UK can best offer to ensure the smooth conduct of those referendums.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* legal and *(b)* constitutional changes will be made to the guarantor powers and obligations for the UK in relation to Cyprus following its accession to the EU. [159137]

**Mr. MacShane:** The Treaty of Guarantee will remain in force following Cyprus's accession whether or not there is a settlement. Until there is a settlement the UK's responsibilities as a Guarantor Power will remain unchanged. In the event of a settlement on the basis of the Annan Plan the Treaty of Guarantee will be amended to cover not only the new United Cyprus Republic but also the Greek Cypriot and Turkish Cypriot constituent states.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what trading and movement of goods rules will apply to arrangements between the Turkish and Greek Cypriot controlled areas of Cyprus after accession to the EU *(a)* in the event of a solution to the situation in Cyprus and *(b)* if a solution is not achieved. [159138]

**Mr. MacShane:** The European Commission is currently considering the necessary arrangements for each scenario, but is unlikely to finalise these arrangements until the outcome of the present negotiations is clear. We remain in close contact with the Commission on these and other issues related to a Cyprus settlement.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Secretary-General of the UN that his role in deciding deadlock points in the Cyprus Settlement Plan must be strictly restricted to the basis of the plan and not involve issues that are outside the plan. [159139]

**Mr. MacShane:** In his statement in New York on 13 February the UN Secretary-General said

> "As a final resort, in the event of a continuing and persistent deadlock, the parties have invited the Secretary-General to use his discretion to finalise the text to be submitted to referenda on the basis of his plan. I therefore see no scope for covering issues outwith the basis of the plan".

The UK believes that the Annan Plan offers the only realistic basis for a solution to the Cyprus problem.

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of talks taking place to reunify Cyprus. [159230]

**Mr. MacShane:** I refer my hon. Friend to the answer I gave to the hon. Member for Surrey Heath (Mr. Hawkins) on 27 February 2004, *Official Report*, column 580W, and also to the reply my right hon. Friend the Foreign Secretary gave to the hon. Member for Taunton (Mr. Flook) in the House on 2 March 2004, *Official Report*, column 748. We will keep the House informed as matters progress.

### Departmental Costs

**Mr. Laws:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of the cost to his Department of *(a)* the Westminster Foundation for Democracy, *(b)* the British Council and *(c)* British Trade International for each year from 1996–97 to 2005–06 (planned); and if he will make a statement. [156610]

**Mr. Rammell:** The cost to the Foreign and Commonwealth Office (FCO) is shown in the following table:

*£ million*

| | *(a) Westminster Foundation for Democracy*[1] | *(b) British Council*[2] | *(c) UK Trade and Investment*[3] |
|---|---|---|---|
| *Outturn* | | | |
| 1996–97 | 2.5 | 102.4 | — |
| 1997–98 | 2.7 | 96.2 | — |
| 1998–99 | 3.0 | 97.1 | — |
| 1999–2000 | 4.0 | 133.3 | — |
| 2000–01 | 4.2 | 137.7 | 155.8 |
| 2001–02 | 4.3 | 145.0 | 136.3 |
| 2002–03 | 4.2 | 151.5 | 141.2 |
| *Budget* | | | |
| 2003–04 | 4.1 | 165.5 | 141.2 |
| *Plan* | | | |
| 2004–05 | 4.1 | 169.6 | 142.2 |
| 2005–06 | n/a | 179.6 | 144.2 |

[1] A full review of the Westminster Foundation for Democracy (WFD) will take place in summer 2004. This will determine the level of grant-in-aid WFD will receive in 2005–06 and beyond.

[2] From 1999–2000 the FCO assumed responsibility for DFID's share of grant-in-aid to the British Council. A machinery of government transfer from DFID to the FCO covered this increase in expenditure.

[3] British Trade International (BTI) (now UK Trade and Investment) was established in May 1999. 2000–01 is the first full year for which we have a separate figure for BTI.

*Note:*

The figures for 2004–05 and 2005–06 indicate current spending plans. All future resource allocations may be subject to review in the light of changing foreign policy priorities. 2005–06 spending plans will be covered by the 2004 Spending Review.

### EU (Internal Migration)

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with EC accession states on internal migration within the EU. [158978]

**Mr. MacShane:** My right hon. Friend the Foreign Secretary has informed his colleagues in the 10 accession countries of the UK's policy on the free movement of workers in the EU after 1 May 2004, as set out by my right hon. Friend the Home Secretary in his statement to the House on 23 February 2004, *Official Report*, columns 23–25.

### Haiti

**Ms Abbott:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government took to support efforts for a peaceful resolution of the conflict in Haiti. [159175]

**Mr. Rammell:** The UK, working alongside its EU partners, has been supporting the efforts of the Caribbean Community (CARICOM), the Organisation of American States (OAS) and the United Nations to find a peaceful solution to the crisis in Haiti. The EU was present at CARICOM discussions with President Aristide in Kingston on 31 January, and on 21 February the EU took part in an international Mission, involving the US, Canada, France, OAS and CARICOM, which met Aristide and members of the opposition in Haiti.

The UK supported UN Security Council Resolution 1529 which authorises the deployment of a Multi-National Interim Force. This force has restored some order to the Haitian capital and the resolution also declares the Security Council's readiness, within three months, to establish and deploy a UN stabilisation force, which will support the continuation of a peaceful and constitutional political process.

**Ms Abbott:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government have taken through their diplomatic mission in the Dominican Republic to influence the situation in Haiti. [159176]

**Mr. Rammell:** The British Embassy in the Dominican Republic has just two UK-based staff, the ambassador and the consul. The ambassador has made regular trips to Haiti over the past 18 months, most recently visiting Port-au-Prince in January. Throughout this period he has kept in close touch with key players in Haiti, including the Organisation of American States, US, EU and French ambassadors and the Prime, Finance and Foreign Ministers. The embassy has excellent working relations with UK and other NGOs based in Haiti, and is working closely with Christian Aid in implementing a Foreign and Commonwealth Office Human Rights Project Fund-supported project to reduce human rights abuses on the Haiti/Dominican Republic border.

During the current crisis, the embassy managed to secure agreements to evacuate UK nationals on US, French and Canadian aeroplanes, and several UK nationals left the country under such arrangements.

**Ms Abbott:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on an international intervention in Haiti. [159177]

**Mr. Rammell:** The UK voted for UN Security Council Resolution 1529 which authorised the deployment of a Multi-National Interim Force to Haiti. This resolution, which was unanimously adopted, also declares the Security Council's readiness, within three

months, to establish and deploy a UN stabilisation force that will support the continuation of a peaceful and constitutional political process.

**Ms Abbott:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the UK's position is in the UN Security Council discussions on Haiti. [159178]

**Mr. Rammell:** The US and France, as members of the Friends of Haiti Group, lead discussions on Haiti in the Security Council. The Friends of Haiti tabled Security Council Resolution 1529 on 29 February, which the UK supported, and was unanimously adopted. This resolution authorises the immediate deployment of a Multi-National Interim Force, and declares the Security Council's readiness, within three months, to establish and deploy a UN stabilisation force that will support the continuation of a peaceful and constitutional political process.

The UK will continue to take an active part in Security Council discussions on Haiti over the coming months as details of the Stabilisation Force are agreed and remains fully supportive of the efforts of those more closely involved in achieving a political solution to the crisis in Haiti.

### Hong Kong

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the future of democracy in Hong Kong; and what recent discussions have taken place with China on Hong Kong. [157566]

**Mr. Rammell:** The Basic Law of the Hong Kong Special Administrative Region (SAR), a Chinese law which was promulgated in Beijing in April 1990, states that the methods for selecting the chief executive and forming the Legislative Council

> "shall be specified in the light of the actual situation in the Hong Kong Special Administrative Region and in accordance with the principle of gradual and orderly progress".

The "ultimate aim" is the selection of the chief executive and election of all members of the Legislative Council by universal suffrage.

Our position is consistent: we hope to see early progress towards the Basic Law's ultimate aims of the selection of the chief executive and the election of all members of the Legislative Council by universal suffrage, at a pace in line with the wishes of the people of Hong Kong. We most recently re-stated this position in the latest Report to Parliament on Hong Kong, which was published on 24 February (Cmnd 6125).

Ministers and officials regularly discuss Hong Kong matters when meeting members of the Chinese and Hong Kong SAR Governments. I did so with Assistant Foreign Minister Zhang Yesui and with Hong Kong's Chief Executive Tung Chee-hwa when I visited China and Hong Kong in December.

### Internet Child Abuse

**Ms Shipley:** To ask the Secretary of State for Foreign and Commonwealth Affairs what initiatives he has taken to tackle international internet child abuse. [158997]

**Mr. Rammell:** Since 2002, in conjunction with the National Hi-Tech Crime Unit, we have provided law enforcement agencies in 14 countries with specialised software, computers and training to detect paedophiles using internet chat rooms, and to target organised criminals who produce child pornography. Last year, we co-sponsored an international conference in the UK on combating on-line child abuse. We are co-sponsoring a follow-up conference this month. We are working with our G8 partners on the development and implementation of a strategy, including projects, to improve the exchange of information to combat on-line child abuse. This work includes outreach to non-G8 partners.

### Iraq

**Lady Hermon:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to safeguard Iraq's electricity infrastructure from vandalism; and if he will make a statement. [157651]

**Mr. Rammell:** Iraq's electrical infrastructure has been subject to looting for profit from the sale of copper and aluminium from transmission lines and pylons, and some sabotage attacks perpetrated by those intent on frustrating the reconstruction of Iraq.

Significant operational measures are being taken to combat both crimes, and these are proving successful. Iraqis are involved through private contractors in guarding electricity lines and installations, and this has succeeded in preventing much damage being done. Steps are also being taken to increase patrolling, introduce air surveillance and ensure the rapid repair of damage when it occurs.

### Nepal

**Mr. Colman:** To ask the Secretary of State for Foreign and Commonwealth Affairs what financial support his Department has provided to Nepal in each year since 2000; and how much support it plans to provide in 2004. [R] [158858]

**Mr. Mike O'Brien:** In financial year 2000–01 the Foreign and Commonwealth Office provided in total £63,600 in financial support to Nepal; in 2001–02 this figure was £80,700; in 2002–03 £144,500, and in 2003–04 £59,400.

### Recruitment

**Matthew Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158188]

**Mr. Mike O'Brien:** The information requested is as follows:

| *Financial year* | *Cost of recruitment (£)* |
|---|---|
| 1997–98 | 995,293 |
| 1998–99 | 1,622,811 |
| 1999–2000 | 1,999,803 |
| 2000–01 | 2,543,387 |

| Financial year | Cost of recruitment (£) |
|---|---|
| 2001–02 | 2,791,659 |
| 2002–03 | 2,276,708 |
| 2003–04 (To date) | 1,341,832 |

The figures in the table include money spent on recruitment in its widest sense. This includes general marketing via careers fairs, as well as targeted marketing and newspaper advertising aimed at under-represented groups such as minority ethnic communities and women. Recruitment agencies are involved in most of our recruitment campaigns. A break down of the figures for money spent on contracted recruitment procedures and for money spent directly by the Foreign and Commonwealth Office over the period requested could be provided only at disproportionate cost.

### Serbia

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the decision by the Serbian Government to try war crime suspects before domestic courts in Serbia. [159229]

**Mr. MacShane:** We welcome the establishment of a domestic war crimes court in Serbia. However, the Organisation for Security and Co-operation in Europe (OSCE) assessed that the Serbian national judiciary lacked the capacity to conduct fair war crimes trials in accordance with universally adopted standards. We welcome OSCE recommendations and urge the Serbian authorities to ensure effective domestic trials through adapting legislation and providing for the protection of victims and witnesses of war crimes. The first major trial, beginning in March, will be an important demonstration of the Serbian authorities' commitment to tackling war crimes allegedly committed by Serbian citizens. It is vital that the accused receive a fair trial and that justice is seen to be done.

The transfer of lower level war crimes suspects for trial in domestic courts is an important part of the International Criminal Tribunal for the former Yugoslavia (ICTY) Completion Strategy. However such transfers can only take place where the Tribunal is satisfied that the trials will be conducted in accordance with universally adopted standards. In order for ICTY cases to be transferred to a domestic tribunal, Serbia must first co-operate fully with the ICTY and allow the domestic judiciary to work independently and impartially.

We continue to urge the new Serbian government to fulfil the international obligation of full and complete co-operation with the ICTY. In order for Serbia and Montenegro to realise her European aspirations, Belgrade must assist in the apprehension and transfer of all ICTY indictees and allow the ICTY full access to documents and witnesses.

### Sudan

**Dr. Tonge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Sudanese Government regarding the situation in Darfur. [158697]

**Mr. Mullin:** We have lobbied at the highest levels in Khartoum on this matter, and our ambassador in Khartoum has discussed the situation with the First Vice-President on a number of occasions in recent weeks. Through our embassy in Khartoum and the UK Special Representative for Sudan, we are in almost daily contact with the Government of Sudan and the various Darfur groups. The EU issued a statement on 25 February appealing to the parties to ensure the protection of the civilian population and to allow humanitarian access to all those in need.

### Taliban

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the current numeric strength of the former Taliban regime of Afghanistan in *(a)* Afghanistan and *(b)* Pakistan. [158791]

**Mr. Mike O'Brien:** It is not easy to distinguish former Taliban and their sympathisers from other groups hostile to the current political process in Afghanistan. We believe that at any given time the number of former Taliban sympathisers in Afghanistan and Pakistan is in the very low thousands. But the remoteness and geography of the Pakistani border region with Afghanistan, the difficulty of maintaining border controls, and the movement of people across the border makes it difficult to give an accurate assessment.

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the current level of co-operation between members of the Pakistani Army and members of the former Taliban regime in Afghanistan. [158792]

**Mr. Mike O'Brien:** Pakistan is a key ally in the war against terror. We strongly support the efforts of the Pakistani Army to round up members of al-Qaeda and extreme elements of the former Taliban regime. The recent military operations into the formerly inaccessible tribal areas bordering Afghanistan are a good example of the commitment of the Pakistani Army in taking action against these groups.

### Turkey

**Mr. Arbuthnot:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* administration of justice and *(b)* protection of the rights of overseas investors in Turkey. [158902]

**Mr. MacShane:** In its push to open accession negotiations with the European Union, Turkey continues to make determined efforts to improve the business environment for its overseas investors. This includes legal measures to simplify procedures for foreign investors and institutional reform to strengthen the rule of law.

We are aware of a few specific cases where British investors have faced difficulties in Turkey and we have raised these with the Turkish authorities.

Recent developments in Turkey include: a Foreign Direct Investment (FDI) law passed in 2003; efforts to set up an FDI promotion agency; and, on 15 March in Istanbul, an Investors Council, chaired by the World

Bank and the IMF, to give leading foreign investors in Turkey an opportunity to make recommendations to the Turkish authorities.

**John McDonnell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Turkish Government on the detention and imprisonment of Mr. Abdullah Ocalan. [159247]

**Mr. MacShane:** We raised the subject of the detention of Mr. Ocalan with the Turkish State Minister responsible for Human Rights in February 1999 and sought assurances that he would receive a fair trial and that his physical safety would be assured. British embassy staff also attended the trial.

Regarding his on-going imprisonment, I refer my hon. Friend to the answer I gave to the hon. Member for Richmond Park (Dr. Tonge) on 5 March 2004, *Official Report*, column 1192W.

We have not made representations to the Turkish Government regarding the imprisonment. We do, however, continue to monitor the situation closely, including through discussions with Mr. Ocalan's lawyer.

**John McDonnell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Turkish Government on the case of the detention of Leyla Zana, a Kurdish member of the Turkish Parliament. [159250]

**Mr. MacShane:** We regularly raise the case of Leyla Zana and her fellow DEP, MPs at Ministerial and official level. I underlined the importance of speeding up progress and ensuring impartiality with Foreign Minister Gul during my visit to Turkey in January 2004. Our Ambassador has also raised the case with Justice Minister Cicek. British embassy officials attend trial hearings and maintain close contact with Leyla Zana's lawyer, whom I also met.

### UN General Assembly Resolutions

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs how the United Kingdom voted on United Nations General Assembly Resolution 58/40 (L12) in the UN First Committee on 27 October 2003 on the prohibition of the dumping of radioactive waste, and combating the hazards of radioactive wastes used in radiological warfare; and if he will make a statement. [151850]

**Mr. Rammell:** The United Kingdom joined consensus on United Nations General Assembly Resolution 58/40 (L12) in the UN First Committee on 27 October 2003 on the prohibition of the dumping of radioactive waste, and combating the hazards of radioactive wastes used in radiological warfare.

On 12 March 2001 the UK ratified the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management which was negotiated under the auspices of the International Atomic Energy Agency (IAEA). The convention's primary objective is to achieve and maintain a high level of safety worldwide in spent fuel and radioactive waste management. It came into force on 18 June 2001. The UK's first national report, demonstrating our compliance with the convention, was provided to the IAEA in May 2003. National reports are subject to a process of peer review and are updated every three years.

## ELECTORAL COMMISSION

### Elections

**Simon Hughes:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what steps the Commission is taking to improve voter turnout in June for *(a)* the London Assembly elections, *(b)* European elections, *(c)* Mayoral elections and *(d)* other local elections. [159235]

**Mr. Viggers:** The Electoral Commission has a duty under section 13 of the Political Parties, Elections and Referendums Act 2000 to "promote public awareness of:

(a) current electoral systems in the United Kingdom and any pending such systems, together with such matters connected with any such existing or pending systems as the Commission may determine;

(b) current systems of local government and national government in the United Kingdom and any pending such systems; and

(c) the institutions of the European Union."

To this end, I understand from the Chairman of the Commission that it will be running a UK-wide voter awareness campaign, comprising TV and press advertising, leaflets distributed to public places, PR, and outreach work targeting young 'hard to reach' audiences. This activity will be supported by a national telephone call centre and an elections website, from which members of the public will be able to find out which elections are taking place in their area on 10 June, how to register, how to vote, and what roles and powers are held by each of the democratic institutions being elected. The website will also carry links to other sites of relevance to the June elections.

## HEALTH

### Abortion

**Bob Spink:** To ask the Secretary of State for Health how many girls under the age of 16 had abortions in each of the last five years for which figures are available. [155176]

**Miss Melanie Johnson:** The information is shown in the table.

*Abortions by age for girls aged 15 and under, residents of England and Wales, 1998–2002*

| | *Total* |
|---|---|
| 1996 | 3,645 |
| 1997 | 3,434 |
| 1998 | 3,759 |
| 1999 | 3,603 |
| 2000 | 3,748 |
| 2001 | 3,658 |
| 2002 | 3,514 |

*Source:*
Data provided by Department of Health, Statistical Division.

### Alcohol Harm Reduction Strategy

**Mrs. Gillan:** To ask the Secretary of State for Health when he will publish the national Alcohol Harm Reduction Strategy. [159283]

**Miss Melanie Johnson** *[holding answer 5 March 2004]*: The Government's Alcohol Harm Reduction Strategy for England is due to be published and implemented from 2004, in accordance with the timetable set out in the NHS Plan. This strategy will set the future direction for the development of alcohol prevention and treatment for all groups in the population.

### Benzodiazepines

**Mr. Burstow:** To ask the Secretary of State for Health what guidance he has issued to clinicians on the prescribing of benzodiazepines over the last five years; and if he will make a statement. [155155]

**Ms Rosie Winterton:** The Committee on the Safety of Medicines' advice of 1988 has been reiterated in the "Drug Misuse and Dependence—Guidelines on Clinical Management" (1999) and in the "British National Formulary", which is sent to all doctors within the national health service biannually.

The advice has been restated in the Chief Medical Officer's Update dated January 2004, which announced that the Department is planning to introduce instalment dispensing of benzodiazepines to minimise access to excessive doses.

### Blood Glucose Test Strips

**Mr. Swayne:** To ask the Secretary of State for Health what plans he has to withdraw the free distribution of blood glucose test strips; and if he will make a statement. [158823]

**Ms Rosie Winterton:** Blood glucose testing strips will remain available free of charge to those people with type 1 and type 2 diabetes whose condition is controlled by insulin or tablets. Those people who have type 2 diabetes that is controlled by diet alone are not exempt from National Health Service prescription charges on that basis.

We have no plans to remove blood glucose testing strips form NHS prescriptions.

### Breast Feeding

**Sandra Osborne:** To ask the Secretary of State for Health what research the Department has conducted on a potential link between decreasing breast feeding rates and increasing obesity rates among children. [158027]

**Miss Melanie Johnson:** The Department has not commissioned any research directly on a potential link between decreasing breastfeeding rates and increasing obesity rates among children.

Women in lower socio-economic groups (social class V) are more likely to be overweight or obese and they are less likely to breastfeed. Breastfeeding rates are increasing and the Infant Feeding Survey 2000 showed that there was a significant increase in the incidence of breastfeeding in social class V, from 50 per cent. in 1995 to 59 per cent. in 2000.

The Committee on Medical Aspects of Food and Nutrition Policy suggested in its report on the Scientific Review of the Welfare Food Scheme that breastfed infants are less likely to become overweight as children.

### Cancer Treatment

**Mrs. Calton:** To ask the Secretary of State for Health what advice his Department has given to schools relating to the effects of sun exposure; and what assessment has been made of the take-up of such guidance. [157801]

**Miss Melanie Johnson:** The 'SunSmart' campaign, run by Cancer Research UK and funded by the United Kingdom Health Departments, was launched in spring 2003. This launch phase of the campaign enabled new campaign messages to be disseminated to as wide an audience as possible and assisted in establishing the 'SunSmart' brand. Over 950,000-campaign information cards and 36,000 posters were distributed to general practitioners' surgeries, health promotion units, dermatologists and cinemas. Additionally, 350,000 specially designed postcards were distributed among secondary schools in the UK, reaching 40 per cent., of all 11 to 16-year-olds. 'SunSmart' is working with the Department for Education and Skills and teachers to develop guidelines to encourage schools to adopt their own 'SunSmart' policies and curricular activities.

Sun awareness information for young people is also contained on the "Wired For Health" website at www.wiredforhealth.gov.uk as part of the Healthy Schools Programme. The Department also developed the 'SunSafe' web pages in March 2002, which were designed with children in mind on the Department of Health website at www.doh.gov.uk/sunsafe.

### Capital Projects

**Mr. Luff:** To ask the Secretary of State for Health what representations he has received from primary care trusts in the West Midlands about the new funding arrangements for capital projects. [157963]

**Dr. Ladyman:** Ministers have not received formal representations from primary care trusts (PCTs) in the West Midlands. However, officials in the Department have received written representations from South Worcestershire PCT and West Midlands South Strategic Health Authority.

### Delayed Discharges

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 23 February 2004, *Official Report*, column 273W, on delayed discharges, what information on legal liabilities for reimbursement charges will be available in the future. [158214]

**Dr. Ladyman:** Data on the number of delayed discharges and the level of legal liabilities for reimbursement will be available in due course, once the data has been validated.

### Dentistry

**Mr. Swire:** To ask the Secretary of State for Health (1) how many dentists providing treatment on the NHS were registered in East Devon in each of the past seven years; [155304]

(2) how many dental practices providing dental care in the NHS there were in East Devon in each of the past seven years. [155305]

**Ms Rosie Winterton:** The tables show the number of National health service dentists on a head count basis and the number of practice addresses in North and East Devon Health Authority at September each year from 1997 to 2002. Following the health service re-organisation, figures for East Devon Primary Care Trust area, at September 2003, are given.

This information covers dentists working in the general dental services (GDS), personal dental services (PDS) and salaried service of the GDS. Excluded are the community and hospital dental services.

Dentists working in more than one dental service are included in each service, apart from dentists working in both PDS and GDS who are counted only once.

*National health service: Number of dentists at September each year*

| | *Health Authority North and East Devon* | *Primary Care Trust East Devon* |
|---|---|---|
| 1997 | 177 | — |
| 1998 | 185 | — |
| 1999 | 195 | — |
| 2000 | 199 | — |
| 2001 | 209 | — |
| 2002 | 206 | — |
| 2003 | — | 38 |

*National health service: Number of dental practices at August each year*

| | *Health Authority North and East Devon* | *Primary Care Trust East Devon* |
|---|---|---|
| 1997 | 82 | — |
| 1998 | 83 | — |
| 1999 | 86 | — |
| 2000 | 90 | — |
| 2001 | 90 | — |
| 2002 | 92 | — |
| 2003 | — | 17 |

**Mr. Wiggin:** To ask the Secretary of State for Health what plans he has to increase the availability of NHS dentistry. [155373]

**Ms Rosie Winterton:** We have provided new investment totalling £90 million to national health service dentistry over the last year. £59 million will support access, and strategic health authorities have been advised of their shares and are working with their primary care trusts (PCTs) to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

A NHS support team is currently working with 16 PCTs where it is hardest to find a NHS dentist to develop plans to overcome the problems. The team is backed by £9 million support funds to enable these hard-pressed areas to increase access. These measures build on steps we have already taken to improve access to NHS dentistry, including the establishment of dental access centres.

The Health and Social Care (Community Health and Standards) Act gives new duties for PCTs to secure the provision of primary dental services. From April 2005, PCTs will directly manage provision, commissioning dental services from local practices. With these new responsibilities will go the financial resources currently held centrally, which by 2005–06 are expected to total nearly £1.5 billion.

**Mrs. Humble:** To ask the Secretary of State for Health how many NHS dentists there are in the Blackpool North and Fleetwood constituency. [157911]

**Miss Melanie Johnson:** Information is not collected on a constituency basis but at primary care trust (PCT) level. Data for Blackpool PCT and Wyre PCT, as at 31 December 2003, is shown in the table.

| *Primary care trust* | *General dental service (GDS)* | *Personal dental service (PDS)* |
|---|---|---|
| Blackpool | 46 | 1 |
| Wyre | 40 | — |

*Notes:*

1. PDS figure covers dentists not already working in the GDS.
2. Dentists are free to work in more than one PCT. Therefore, dentists who do some work in this area but more in another PCT have not been included.
3. Dentists in the GDS include principals, assistants and vocational dental practitioners. These figures are on a headcount basis rather than whole-time equivalent (wte) basis and therefore take no account of part-time working. In the CDS, the amount of time spent working in the national health service varies greatly, with a large proportion of dentists doing some private work. Dentists working solely in private dentistry are not covered by these figures.
4. These figures exclude dentists working in the community dental service, hospital dental service and salaried service of the GDS.

*Source:*

Dental Practice Board.

## Drug Misusers

**John Mann:** To ask the Secretary of State for Health how many UK drug addicts are on *(a)* subutex maintenance, *(b)* methadone maintenance and *(c)* naltraxone. [153981]

**Miss Melanie Johnson** *[holding answer 9 February 2004]:* The Department does not collect figures centrally on the number of drug misusers being maintained on subutex, methadone or naltrexone. However, the table represents the number of prescription items of Buprenorphine (Subutex), Methadone Hydrocloride and Naltrexone Hydrochloride (included in the British National Formulary (BNF) section 4.10, Substance Dependence) that were dispensed in the community in England in 2002.

*Thousand*

| *BNF 4.10 Drugs used in substance* | *Number of prescription items dispensed in 2002* |
|---|---|
| Buprenorphine (Subutex) | 164.3 |
| Methadone Hydrochloride | 1,330.7 |
| Naltrexone Hydrochloride | 21.9 |

This data covers drugs which are included in the British National Formulary (BNF) section 4.10, "Drugs used in substance dependence". The data excludes other

Buprenorphine, Methadone and Naltrexone drugs that are contained in other BNF sections since they are prescribed for reasons other than substance dependence.

The data excludes prescription items that are dispensed in hospitals or clinics. The Department does not have any information on the number of people who are prescribed these drugs. The information available is the number of prescription items that are dispensed in the community.

**Mrs. Calton:** To ask the Secretary of State for Health what assessment has been made by strategic health authorities of *(a)* the facilities available for drug maintenance and withdrawal, *(b)* the availability of licensed prescribers for heroin addicts and *(c)* the incidence of heroin use. [153880]

**Miss Melanie Johnson:** No formal assessment has been made by strategic health authorities of the three issues that the hon. Member raises.

However, I am able to inform her that the National Treatment Agency has confirmed that all areas of England now have access to facilities for drug maintenance and withdrawal and that there are currently 123 practitioners in England licensed by the Home Office to prescribe heroin. For other substitute prescribing medications, no licence is required.

**Mr. Hoyle** To ask the Secretary of State for Health (1) what research has been undertaken into the link between *(a)* suffering long-term memory loss and *(b)* other side effects from taking ecstasy; [151283]

(2) what research has been carried out into the long-term use of cannabis with relation to *(a)* loss of memory and *(b)* other side effects. [151298]

**Miss Melanie Johnson:** There is a wide range of published studies that have reported the results of research into the side-effects of ecstasy and cannabis. The Department commissioned the National Addiction Centre to review the evidence regarding the harmful effects of drugs of abuse and this is published as the Department of Health document Dangerousness of drugs (2003). A copy of which is available in the Library.

### Thames Valley Strategic Health Authority

**Tony Baldry:** To ask the Secretary of State for Health what estimate he has made of the projected financial outturn for the Thames Valley Strategic Health Authority for this financial year, broken down by county. [156459]

**Ms Rosie Winterton:** Audited information on the financial position of national health service trusts will be published in their individual annual accounts. This data will be available centrally in the autumn. We have no plans to publish un-audited information.

### Food Supplements Directive

**Chris Grayling:** To ask the Secretary of State for Health when he expects the European Union Directive on food supplements to come into force in the United Kingdom. [158462]

**Miss Melanie Johnson:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for Leeds, North-West (Mr. Best), on 14 October 2003, *Official Report*, column 218W.

### Gambling

**Sue Doughty:** To ask the Secretary of State for Health (1) if the Government will incorporate responsibility for problem gambling under the auspices of the National Treatment Agency; [158316]

(2) what assessment the Government have made of the best method of meeting the health needs of problem gamblers; [158344]

(3) what plans he has to include responsibility for problem gambling under the auspices of the National Treatment Agency. [158349]

**Ms Rosie Winterton:** The most recent assessment of the extent of problem gambling is in the report of the independent Gambling Review Body (Cm 5206).

The national development group for specialised mental health services will review treatment for problem gambling to provide guidance that will help groups of primary care trusts to commission appropriate services and support the development of services in those areas where there are significant problems.

We have also encouraged the gambling industry to support the charitable trust, which it has established with a remit to fund both research into problem gambling and services for its treatment.

The Department has no plans to include responsibility for problem gambling under the auspices of the National Treatment Agency.

### Health Inequality

**Mr. Cousins:** To ask the Secretary of State for Health if he will set out for each *(a)* primary care trust and *(b)* strategic health authority area the benchmark national indicators of health inequality, as set out in Annex C of the report on Tackling Health Inequalities. [157048]

**Miss Melanie Johnson:** The indicators in Annex C of "Tackling Health Inequalities: A Programme for Action" measure national progress on health inequalities. The London Public Health Observatory has produced a Local Basket of Indicators on health inequalities for all primary care trusts, and a copy of their report has been placed in the Library, and is available on the London Health Observatory website at: http://www.lho.org.uk/HIL/Inequalities In Health/Basket Of Indicators/Basket.htm

### Health Services (Worcestershire)

**Sir Michael Spicer:** To ask the Secretary of State for Health if he will make a statement on the future of the proposed new health centres in *(a)* Upton-on-Severn and *(b)* Malvern. [157854]

**Dr. Ladyman:** The future of the proposed new health centres in Upton-on-Severn and Malvern will depend on the priority for investment in these facilities relative to other such developments within the West Midlands

South area. West Midlands South Strategic Health Authority reports that this will be decided by a planning group comprising all of the primary care trust chief executives within the West Midlands South area.

**Sir Michael Spicer:** To ask the Secretary of State for Health if he will make a statement about the financial position of the *(a)* South Worcestershire Primary Care Trust and *(b)* Worcestershire Acute Hospitals NHS Trust. [157855]

**Dr. Ladyman:** South Worcestershire Primary Care Trust (PCT) is forecasting to deliver a financial breakeven position at 31 March 2004.

The most recent board report from the Worcestershire Acute Hospitals National Health Service Trust forecasts a £10.9 million deficit. West Midlands South Strategic Health Authority (SHA) reports that it is anticipated that this figure may change as a consequence of a complete review of the financial position within the trust by the new executive team.

The PCTs within Worcestershire, the acute trust and the mental health trust are working with the West Midlands South SHA towards delivering a financial recovery plan to address the deficit. This plan contains a series of cost saving measures, which will be necessary to return the health economy to financial break-even.

**Sir Michael Spicer:** To ask the Secretary of State for Health if he will make a statement on the future of Pershore Community Hospital following South Worcestershire Primary Care Trust's announcement that the building of several health centres in Worcestershire is to be put on hold. [157971]

**Dr. Ladyman:** Significant new revenue funding is being made available to support public, private capital investment in the primary care estate based on local prioritisation of development proposals.

The future of the Pershore Community Hospital development will depend on the priority for investment in this facility relative to other such developments within the West Midlands South area. West Midlands South Strategic Health Authority reports that this will be decided by a planning group comprising all of the primary care trust chief executives within the West Midlands South area.

**Mr. Luff:** To ask the Secretary of State for Health if he will make a statement on the future of capital projects for health centres, doctors' surgeries and hospitals provided under the auspice of the South Worcestershire Primary Care Trust. [157918]

**Sir Michael Spicer:** To ask the Secretary of State for Health if he will make a statement on the future of controls on private finance initiative revenue streams as they affect investments by South Worcestershire Primary Care Trust. [157970]

**Dr. Ladyman** *[holding answer 2 March 2004]:* Significant new revenue funding is being made available to support public, private capital investment in the primary care estate based on local prioritisation of development proposals.

As part of the implementation of the new primary medical service arrangements, baseline allocations have been notified to all primary care trusts (PCTs) for 2004–05, which include an element for new developments contractually agreed by 30 September 2003.

In addition, further growth funding is to be notified in the near future to PCTs to support prioritised developments contractually agreed after that date.

West Midlands South Strategic Health Authority has devolved responsibility for prioritisation of growth funding for premises development to a planning group comprising all of the PCT chief executives within the West Midlands South area.

## HIV/AIDS

**Mr. Nigel Jones:** To ask the Secretary of State for Health what assessment he has made of field trials of vaccines to prevent HIV/AIDS carried out in *(a)* Kenya, *(b)* Uganda, *(c)* South Africa and *(d)* Botswana. [157487]

**Mr. Gareth Thomas:** I have been asked to reply.

Four different vaccines are currently in Phase I safety trials in Kenya, Uganda, South Africa and Botswana. Three of these are based on types of HIV prevalent in East and Southern Africa and one, in Botswana, on the type of HIV prevalent in Europe and the USA. Details of the trials, the vaccines under investigation and trials sponsors can be found on the clinical trials database maintained by the International AIDS Vaccine Initiative (IAVI) at www.iavi.org/trials.

DFID supports the global effort to accelerate the development of safe and effective HIV vaccines as an important part of a comprehensive long-term response to HIV and AIDS. Trials currently underway in Africa provide an important contribution to these efforts, particularly in developing vaccines that will be appropriate for use by developing countries. The participation of African researchers in these efforts is particularly welcome. Given the difficult task of discovering and proving the efficacy of an HIV vaccine, it is important that a number of promising vaccine candidates are developed in parallel if chances of success are to be increased and efforts accelerated. As the current trials are completed DFID expects that decisions will be made regarding which of the candidates should progress to later stage trials to test vaccine efficacy. These decisions will be the responsibility of the sponsoring agencies.

Since 1998 DFID has provided funding to the International AIDS Vaccine Initiative (IAVI) to progress global HIV vaccine efforts, with a particular focus on vaccines developed for use by developing countries. IAVI is a not-for-profit organisation with the mission to accelerate the development of safe and effective HIV vaccines and to ensure the rapid availability for use throughout the world. IAVI actively manages a research portfolio with its R&D partners, which includes support for eight vaccine candidates, three of which are currently in trials in the countries in question.

## Hospices

**Jeff Ennis:** To ask the Secretary of State for Health (1) how many *(a)* adult and *(b)* children's hospices are operating in England; [157731]

(2) how many *(a)* adult and *(b)* children's hospices in England receive no financial assistance from the NHS. [157732]

**Miss Melanie Johnson:** There are 172 adult in-patient units (2,637 beds)[1] and 27 children's units (201) beds in England, the large majority of which are managed by the voluntary sector.

We do not collect information on financial assistance centrally. It is for the national health service locally to make arrangements for financial support to both adult and children's hospices based on the needs of the local population. We are investing an additional £50 million per annum in specialist palliative care for adults with cancer. Hospices are benefiting from this additional money.

Hospice Information—January 2004.

### Human Papilloma Virus

**Mr. Lansley:** To ask the Secretary of State for Health what the original planned publication date was for the results of the implementation pilots on human papilloma virus testing. [157405]

**Miss Melanie Johnson** *[holding answer 2 March 2004]:* A pilot of human papilloma virus (HPV) testing as triage for women whose cervical screening test results showed low grade abnormalities began in April 2001 as part of the pilot of liquid based cytology (LBC). In the pilot, women who were HPV positive were referred immediately for a follow-up examination by colposcopy. If the test showed women were HPV negative, they had a repeat screening test after six months and a second HPV test.

An independent evaluation of the pilot was commissioned by the Department from the Cancer Screening Evaluation Unit at the Institute of Cancer Research. The evaluation is covering all aspects of HPV testing as triage, including cost-effectiveness. As women who have low grade abnormalities but are HPV negative are retested six months later, the HPV arm of the pilot has taken longer than the LBC arm, as expected. Full follow-up of all women in the pilot is essential for completeness of the evaluation. The HPV evaluation report was due at the end of 2003, but the evaluation has proved more difficult than anticipated. It is important to get the evaluation right, as the cervical screening programmes involved four million women each year.

A draft of the evaluation report has been seen by the Advisory Committee on Cervical Screening, and will also go to the National Screening Committee, which originally commissioned the pilot, shortly. The evaluation report will then be peer reviewed in the usual way, and we expect publication of the full report in the summer. The evaluators will also publish aspects of the results in peer reviewed journals.

### Imported Infections

**Lynne Jones:** To ask the Secretary of State for Health when the Cabinet Office Review into imported infections and immigration will be published. [158790]

**Miss Melanie Johnson:** The Cabinet Office is continuing to co-ordinate work between relevant Government Departments, including the Department of Health, to review imported infections and immigration. The purpose of the review is to establish the facts about the impact of immigration on public health and National Health Service expenditure, consider all relevant issues, including health screening, and suggest solutions should action be required. It is ongoing and no decisions have been taken yet.

### Local Authority Grants (Dorset)

**Jim Knight:** To ask the Secretary of State for Health what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156207]

**Ms Rosie Winterton:** I refer the hon. Member to the response given by my right hon. Friend the Member for Greenwich and Woolwich (Mr. Raynsford), on 1 March 2004, *Official Report*, column 750W.

### Pharmaceutical Services

**John Cryer:** To ask the Secretary of State for Health if he will place in the Library copies of responses to the consultation on proposals to reform and modernise the NHS (Pharmaceutical Services) Regulations 1992 in relation to the proposed exemption of large shopping developments from the control of entry requirements for retail pharmacy services. [157513]

**Ms Rosie Winterton** *[holding answer 1 March 2004]:* Copies of 274 responses received in respect of the Department's consultation on proposals to reform and modernise the NHS (Pharmaceutical Services) Regulations 1992, including those responses commenting on the proposed exemption from the control of entry requirements for pharmacy applications in respect of large shopping developments over 15,000 square metres gross lettable floor space, will be placed in the Library.

Responses received in confidence have not been placed in the Library under exemption 14 (Information given in confidence) of Part 2 of the Open Government Code of Practice.

We intend to publish a summary of these responses in due course.

**Sandra Gidley:** To ask the Secretary of State for Health what assessment he has made of the rate of inappropriate prescribing among those *(a)* under 65 years and *(b)* 65 years and over, broken down by gender, in each year since 1997; and if he will make a statement. [157376]

**Dr. Ladyman:** We do not collect data centrally to make such an assessment.

**Mr. Truswell:** To ask the Secretary of State for Health if he will list those medical conditions whose sufferers qualify for free prescriptions; and what the cost to the NHS was in 2003–04 in respect of each condition. [158256]

**Ms Rosie Winterton:** The medical conditions conferring exemption from prescription charges are:

Permanent fistula (including caecostomy, colostomy, laryngostomy, or ileostomy) requiring continuous surgical dressing or an appliance;

The following disorders:

Forms of hypoadrenalism (including Addison's disease) for which specific substitution therapy is essential;

Diabetes insipidus and other forms of hypopituitarism;

Diabetes mellitus—except where treatment is by diet alone;

Hypoparathyroidism;

Myasthenia gravis;

Myxoedema;

Epilepsy requiring continuous anti-convulsive therapy;

A continuing physical disability which prevents the patient from leaving his residence without the help of another person.

In 2002–03, 38.2 million prescription items were dispensed in the community in England to holders of a medical exemption certificate. This represents charge revenue foregone of around £236.8 million. Information in respect of each condition is not available and information for 2003–04 is not yet available.

**Mr. Truswell:** To ask the Secretary of State for Health if he will list the medical conditions about which representations have been made to his Department in the last three years proposing the granting of free drug prescriptions to sufferers of those conditions; and what his estimate is of the cost of free prescriptions in respect of each of these conditions. [158257]

**Ms Rosie Winterton:** The following list of conditions (as described by the person making the representations) have been identified as the subject of representations in respect of free prescriptions between 1 January 2000 and 31 December 2003.

Anhydrotic Ectodermal Dysplasia
Arthritis
Asthma
Bartter's Syndrome
Behcet's Syndrome
Budd-Chiari Syndrome
Cancer
Cerebral Palsy
Chronic Bronchitis
Coeliac Disease
Colitis
Congenital Adrenal Hyperplasia
Crohns Disease
Cystic Fibrosis
Depression
Dermatomyositis
Diabetes (controlled by diet alone)
Disabilities (nature unspecified)
Dopa-responsive Dystonia
Downs Syndrome
Dystonia
Eczema
Emphysema
Glaucoma
Heart Disease
Hepatitis
High Blood Pressure
Hodgkins Disease
Hormone Replacement Therapy
Hypogonadism
Irritable Bowel Syndrome
Kidney Failure
Klinefelter's Syndrome
Leukaemia
Liver Failure/Disease
Lund Disease
Lupus
Malignant Brain Tumour
Mental Illness
Motor Neurone Disease
Multiple Sclerosis
Myositis Disease
Obsessive Compulsive Disorder
Overactive Thyroid
Pancreatic Defects
Parkinson's Disease
Phenylketonuria
Premature Ovarian Failure
Primary Biliary Cirrhosis
Primary Thrombocythaemia
Pulmonary Hypertension
Renal Failure
Schizophrenia
Sickle Cell Anaemia
Systematic Lupus Erythematosus
Thalassemia
Tourette's Syndrome
Transplant Patients
Tuberculosis
Turners Syndrome
Wegener's Granulomatosis

No estimates have been made of the cost of free prescriptions in respect of each of these conditions.

### Security Passes

**Mr. Oaten:** To ask the Secretary of State for Health how many security passes have been reported *(a)* lost and *(b)* stolen by staff in departmental agencies in the last 12 months. [147906]

**Ms Rosie Winterton** *[pursuant to her reply, 15 January 2004, Official Report, c. 859W]:* I regret my previous response was incorrect. The response should have read as follows.

"The records, where available, of building access passes issued by Department of Health Executive Agencies, and subsequently reported as lost or stolen, indicate that 37 passes were lost and three were stolen during the period 1 January 2003 to 31 December 2003."

### Sexual Health

**Phil Sawford:** To ask the Secretary of State for Health what action he has taken to implement the 2001 Sexual Health Strategy. [157917]

**Miss Melanie Johnson:** A full programme of action to implement the strategy is taking place, as set out in the Strategy Implementation Action Plan (2002), backed by significant investment of £47.5 million, plus a further £40 million committed over the next two years. In addition, a further £26.4 million has been invested this year. The Government's response to the Health Select Committee report on sexual health published in September 2003 (cm 5959) contains details of the work being undertaken, including the national chlamydia screening programme; measures to improve access to services; improve genito-urinary medicine clinic premises; national sexual health promotion campaigns; and work to support local implementation.

**David Davis:** To ask the Secretary of State for Health how many cases of *(a)* gonorrhea, *(b)* syphilis, *(c)* chlamydia and *(d)* thrush have been diagnosed in the East Riding of Yorkshire in each of the last five years. [149670]

**Miss Melanie Johnson:** The information for the Yorkshire and Humberside area is shown in the table.

*Selected diagnosed STIs seen in Yorkshire and Humberside NHS Region 1998–2002*

| *Condition code* | *Condition name* | *Sex description* | *1998* | *1999* | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|---|---|
| A1A2 | Primary and Secondary Infectious Syphilis | Male | 5 | 11 | 12 | 28 | 53 |
| A1A2 | Primary and Secondary Infectious Syphilis | Homosexually acquired | 0 | 5 | 3 | 10 | 16 |
| A1A2 | Primary and Secondary Infectious Syphilis | Female | 0 | 1 | 3 | 6 | 11 |
| B1B2 | Uncomplicated Gonorrhoea | Male | 562 | 582 | 911 | 1,016 | 1,421 |
| B1B2 | Uncomplicated Gonorrhoea | Homosexually acquired | 79 | 67 | 103 | 118 | 146 |
| B1B2 | Uncomplicated Gonorrhoea | Female | 318 | 332 | 445 | 503 | 673 |
| C4A,C4C | Uncomplicated Chlamydia Infection | Male | 2,222 | 2,491 | 2,617 | 3,290 | 4,234 |
| G4A,C4C | Uncomplicated Chlamydia Infection | Homosexually acquired | 24 | 32 | 34 | 44 | 62 |
| C4A,C4C | Uncomplicated Chlamydia Infection | Female | 3,135 | 3,478 | 3,742 | 4,549 | 5,479 |
| C7A | Anogenital Candidosis | Male | 480 | 475 | 486 | 429 | 403 |
| C7A | Anogenital Candidosis | Female | 5,267 | 5,093 | 4,967 | 5,273 | 5,358 |

*Source:*
Health Protection Agency
Communicable Disease Surveillance Centre

### Variant CJD (Rachel Forber)

**Mr. Lansley:** To ask the Secretary of State for Health whether he has referred the issue of possible transmission of variant CJD via *(a)* blood transfusion and *(b)* urine-derived products to the Spongiform Encephalopathies Advisory Committee for advice. [157592]

**Miss Melanie Johnson:** The first possible case of blood transfusion-associated transmission of variant Creutzfeldt Jakob disease (vCJD) was referred to the 81st meeting of the Spongiform Encephalopathy Advisory Committee (SEAC) which took place on 25 February 2004.

The SEAC has not discussed urine-derived products.

### York District Hospital

**Miss McIntosh:** To ask the Secretary of State for Health what the cost of building the children's assessment and treatment area at York District Hospital was. [157521]

**Miss Melanie Johnson:** This information is not available centrally in the format requested. However, this facility forms part of the modernised and expanded accident and emergency facility at York District Hospital, which cost £2.16 million.

## SOLICITOR-GENERAL

### Bonny Island

**Malcolm Bruce:** To ask the Solicitor-General whether the Serious Fraud Office has received a request from *(a)* French authorities, *(b)* US authorities and *(c)* Nigerian authorities for assistance into investigations of allegations involving payments by the consortium TSKJ in connection with the Bonny Island liquified natural gas plant in Nigeria; and whether the SFO is investigating these allegations. [158311]

**The Solicitor-General:** For operational reasons the SFO cannot confirm or deny whether a specific matter has been referred to it, or is under investigation.

### Bribery

**Malcolm Bruce:** To ask the Solicitor-General (1) if she will make a statement on Serious Fraud Office investigations into bribery of a foreign public official since 1997 under *(a)* the UK's corruption laws and *(b)* the Anti-Terrorism, Crime and Security Act 2001; [158305]

(2) what the Serious Fraud Office's operational policy is on investigating allegations of bribery of a foreign public official which took place prior to the Anti-Terrorism, Crime and Security Act 2001 where an element of the offence may have occurred within the UK prior to February 2002. [158306]

**The Solicitor-General**: The purpose of the SFO is to investigate and prosecute suspected offences of serious or complex fraud that meet the published acceptance criteria agreed by Ministers. The SFO does not have separate operational policies relating to each offence that it can prosecute, nor does the SFO prioritise by reference to specific offences.

After a case has been accepted and the investigation has advanced, the SFO must then consider which offence/offences are the most appropriate to prosecute.

The facts of a case may give rise to a number of possible offences including for example conspiracy to defraud, theft, fraudulent trading as well as corruption. If a prosecution is justified by the evidence and public interest then the charge selected will be the one that best represents the conduct of the individuals charged.

A referral that includes bribery of a foreign official that took place prior to February 2002 would be assessed on the same basis as every other referral and this basis is outlined above.

The SFO has one investigation where bribery of a foreign official represents an element of the overall case. It is not known at present whether it will be appropriate to prosecute this element.

## EDUCATION AND SKILLS

### After-School and Breakfast Clubs

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many *(a)* after school clubs and *(b)* breakfast clubs are run in Chorley schools, broken down by school. [157979]

**Margaret Hodge:** The Department does not keep figures on the number of after school and breakfast clubs on offer, by area or school. It is for local authorities and schools to determine what provision will best meet the needs of the young people in the area.

However, more such clubs have been established in a number of schools through Government funding for study support or child care provision. Lancashire local education authority has informed my Department that it has allocated £44,447 from the Department's Standards Fund this year to provide study support opportunities for young people in schools in Chorley. Study support includes activities such as sport, the creative arts and cultural activities, as well as after school and breakfast clubs. Chorley has also received £501,324 this year from the New Opportunities Fund "Out of School Childcare Programme" to fund 627 places.

### Alice House

**Shona McIsaac:** To ask the Secretary of State for Education and Skills if he will make a statement on the future of Alice House in north-east Lincolnshire. [158119]

**Mr. Miliband:** It is for the local authority and the local education authority to make suitable provision that will best meet the needs of local children and young people, including teenage mothers.

### Arts and Humanities Research Council

**Helen Jones:** To ask the Secretary of State for Education and Skills if he will take steps to ensure that the proposed Arts and Humanities Research Council has the same status as science-based research councils when it is funded by the Office for Science and Technology; and what steps he is taking to safeguard funding for research in the arts and humanities. [158611]

**Alan Johnson:** The Higher Education Bill, currently before the House, provides for the proposed Arts and Humanities Research Council (AHRC) to operate on the same lines as the existing science Research Councils under the auspices of the Office of Science and Technology.

As recommended by the Review of Arts and Humanities Research funding, we are providing for a once and for all transfer of funds from the DfES, the Department for Education and Learning in Northern Ireland, the Welsh Assembly and the Scottish Executive to the Department for Trade and Industry. The level of future funding for research including Arts and Humanities research is a matter for the Spending Review.

### Bodies (Costs)

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the running costs of the *(a)* Learning and Skills Council, *(b)* the Higher Education Funding Council and *(c)* the Sector Skills Agency were in the last year for which figures are available; and if he will make a statement. [156697]

**Alan Johnson:** The administration costs in 2002–03 (the most recent year for which figures are available) are in the table.

| | *£ million* |
|---|---|
| *(a)* Learning and Skills Council (LSC): | 223.3 |
| *(b)* Higher Education Funding Council | 15.69 |
| *(c)* Sector Skills Development Agency (SSDA) | 3.72 |

The different amounts reflect the different remits and structures of the three organisations. As part of the 2002 Spending Review, £218 million has been allocated in each of the three years 2003–04, 2004–05 and 2005–06 for the LSC's administration costs and have asked the LSC to find administrative economies so that it can manage with a flat cash administrative budget. As part of this, the LSC has already announced that its national office will be reducing by 200 posts, building on the 600 reductions already achieved through more efficient back-office functions.

*Notes:*

LSC: Figures include transition costs associated with establishing a new organisation. SSDA: 2002–03 was the SSDA's first year of operation and £1.05 million of the administration costs was attributed to the setting up of the Agency.

### Capital Expenditure (Rochdale)

**Mrs. Fitzsimons:** To ask the Secretary of State for Education and Skills what capital funding has been spent on education in the Rochdale constituency since 1997; which schools benefited from additional capital investment in each year; how much funding each received; and how the funding has been spent. [158829]

**Mr. Miliband** *[holding answer 4 March 2004]:* The majority of capital support is allocated to schools and local education authorities by formula and they decide

how to invest it, in line with the priorities of their asset management plans. The Department does not, therefore, have complete information about capital investment in individual schools. This information should be held locally.

### Careers Guidance

**Charles Hendry:** To ask the Secretary of State for Education and Skills what assessment his Department has made of the findings of the OECD review of careers guidance policies in the United Kingdom; and if he will make a statement. [157508]

**Margaret Hodge** *[holding answer 1 March 2004]:* The OECD report recognises the high quality of the UK's career guidance services, asserting that 'Compared to most other OECD countries, career guidance is very highly developed in the United Kingdom'.

The OECD places particular emphasis on: the importance of programmes designed to develop career management skills (as well as support when making decisions at key transition points); and access to impartial advice from an agency that is external to the learning institution in which the student is based. Both are key features of careers education and guidance provision in England.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what plans his Department has to revise the provision of careers guidance to under-19s; and if he will make a statement. [157510]

**Margaret Hodge:** The Connexions Service provides all 13 to19-year-olds with access to information, advice and guidance to help them make informed learning and career choices. This is complemented by support from learning institutions, in particular through schools' careers education programmes, available to all young people in years 9–11.

The Department has set in train an end-to-end review of the delivery of careers education and guidance, to assess the extent to which the support currently provided by Connexions and learning institutions meets the needs of all young people, taking account of the advice and support implications that arise from the reforms to 14–19 education announced in "14–19: Opportunity and Excellence", published in January 2003.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what representations he has received concerning the provision of careers guidance by Connexions personal advisers; and if he will make a statement. [157511]

**Margaret Hodge** *[holding answer 1 March 2004]:* A small number of Connexions Personal Advisers have written to DfES expressing concerns that not all young people are receiving support on making learning and career choices, because of Connexions' focus on reducing the number of young people who are not in education, employment or training (NEET).

We have made it clear to Connexions Partnerships that providing access to careers information, advice and guidance to all young people—differentiated according to each individual's needs—is a key element of the preventative strategy to reduce NEETs.

### Child Care (Kirklees)

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills (1) how many children there are under the age of eight in Kirklees; and how many registered child care places there are for children under the age of eight in Kirklees; [157491]

(2) what the ratio of child care places to children under eight is in *(a)* Kirklees and *(b)* England. [157492]

**Margaret Hodge:** This is a matter for the Office of Education and Standards (OFSTED) and I will ask Her Majesty's Chief Inspector to write to the hon. Member. OFSTED has been responsible for the registration and inspection of children's day care facilities since September 2001.

### Children (Access)

**Mr. Laurence Robertson:** To ask the Secretary of State for Education and Skills if the Secretary of State will bring forward legislation to provide for a presumption at court that both parents have the right to spend time with their children following divorce; and if he will make a statement. [158911]

**Margaret Hodge** *[holding answer 5 March 2004]:* There are no current plans to establish a legal presumption of contact, following separation or divorce, between children and both of their parents. The Government support the view that, in general, children benefit from a continuing relationship with both parents following parental separation where it is in the best interests of the child and safe for all family members. The fundamental principle of the Children Act 1989 is that any court decision must be based on what is best for the child. There is no automatic "right" to contact for either fathers or mothers, but in practice the courts have taken the view that in most cases the child's welfare is best served by contact with both parents. This was stated by the Court of Appeal in Re: O (Contact: Imposition of Conditions) [1995] 2 FLR 124 in the following terms:

> "Where parents of a child are separated and the child is in the day-to-day care of one of them, it is almost always in the interests of the child that he or she should have contact with the other parent."

The Government will be publishing its response to the Children Act Sub-Committee Report, "Making Contact Work", which dealt with the issue of the facilitation and enforcement of contact orders in March.

### Children's Fund

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if he will make a statement on *(a)* the (i) extent and (ii) duration of funding of the Children Fund's partnership with Portsmouth city council and *(b)* the impact of changes to that funding on existing projects. [152309]

**Margaret Hodge:** Portsmouth Children's Fund began operating in July 2001 and is approved until March 2006. It was allocated £1,010,000 per annum.

In its first two years the Children's Fund programme had a record of underspend. Efforts to ensure that all the money was spent have now led to a projected overspend. Revised allocations to some partnerships for 2003–04 were agreed following a mid year review of expenditure. This will ensure that the programme lives within its financial limits this year while honouring its commitments. However, Portsmouth's budget for 2003–04 was not revised following the mid year review.

For 2004–05 we have agreed revised allocations to all partnerships totalling £160 million. This is just below the originally announced total of £164.6 million. Portsmouth's revised allocation for 2004–05 is £981,768. We announced these allocations on 27 February and we are currently working with partnerships, through our regional teams, to assess the impact. The Portsmouth programme has welcomed the freedom to bring forward underspend from 2003–04 into 2004–05 to support its programme. I have made some provision available in the form of a contingency fund which partnerships can apply to, if a serious risk to service delivery in key programmes remains an issue.

I will not be taking final decisions on 2005–06 until I have consulted partnerships and discussed the future of the Children's Fund with key partners, in particular, the potential transition to children's trusts. However, I recognise that partnerships are keen to get some indication of funding levels for 2005–06, in order to help them plan effectively. Therefore I have advised partnerships that the budget for 2005–06 will be no less than £110 million. I will announce the final allocation in autumn 2004, following the outcome of the 2004 Spending Review.

**Mr. Steen:** To ask the Secretary of State for Education and Skills what changes have been made to central government funding allocations for the Children's Fund in this financial year, broken down by region; what assessment he has made of the impact such changes will have on services provided by the Children's Fund; and if he will make a statement. [153242]

**Margaret Hodge** *[holding answer 9 February 2004]:* The 2003–04 mid year review of expenditure identified approximately £12.5 million in underpsend from quarters 1 and 2 that could be redirected from Children's Fund partnerships. This figure was collated nationally and has not been broken down by region.

This action was taken to ensure the programme kept within its budget. The Department has assessed the impact of the review, working with representatives from the main voluntary sector organisations involved in the Fund, the LGA and the ADSS as well as with partnerships' ability to meet contractural obligations, we revisited them. Furthermore, we set aside some money to assist where there was a likelihood of premature closure of services.

Underspend taken back in the mid year review has meant revised allocations to some partnerships this year and ensures the programme can live within its financial limits while honouring its commitments.

**Mr. Goodman:** To ask the Secretary of State for Education and Skills what programmes in the Wycombe constituency receive money from the Buckinghamshire Children's Fund. [159260]

**Margaret Hodge** *[holding answer 5 March 2004]*: The following projects are currently receiving money from Buckinghamshire Children's Fund in the Wycombe constituency.

Ashill School project to supporting children during playtime;

Castlefield play worker project;

Green Street—Saturday school for children for Asian community;

Acacia Saturday school for African/Caribbean children across Wycombe;

Cresswicks Secondary School Heartstone project, which tackles racism;

South Bucks Young Carers project;

NCH project working with children with disabilities;

Bucks University for Young People project—run classes in Wycombe;

A crime prevention Youth Inclusion Support Panel and Restorative Justice project are in planning, expected to begin next year.

## City Academies

**Mr. Mark Hoban:** To ask the Secretary of State for Education and Skills how many schools from the independent sector have expressed interest in sponsoring city academies; and what proportion of city academies have already been sponsored by independent schools. [159787]

**Mr. Miliband:** Three schools from the independent sector are already sponsoring Academies and a number of others have expressed an interest. The United Learning Trust (ULT), a subsidiary of the Church Schools Company, which runs a federation of eight independent schools, sponsors the Manchester Academy, which opened in September 2003. ULT also sponsor a further four Academies which are currently in development.

## Classroom Assistants

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many *(a)* part-time and *(b)* full-time classroom assistants were (i) recruited and (ii) employed in each London borough in each year since 1997. [159170]

**Mr. Miliband:** Data for recruitment of teaching assistants are not available. Data for teaching assistants in employment are available only as a total full-time equivalent (FTE) number at LEA level. The table shows the total FTE number of teaching assistants employed in maintained nursery, primary, secondary, all special schools and pupil referral units in January of each year since 1997 by London LEA[1,2].

[1] Includes maintained and non-maintained special schools.

[2] Includes nursery assistants in nursery schools, special needs support staff and minority ethnic pupil support staff.

| | | FTE number of teaching assistants | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 |
| | London | 8,210 | 8,910 | 9,840 | 11,790 | 14,380 | 15,390 | 17,590 |
| 202 | Camden | 200 | 240 | 250 | 300 | 360 | 440 | 470 |
| 201 | City of London | — | — | — | — | — | — | — |
| 204 | Hackney | 210 | 250 | 290 | 380 | 420 | 490 | 530 |

## Connexions

**Charles Hendry:** To ask the Secretary of State for Education and Skills what guidance his Department has issued to Connexions area partnerships concerning their running costs for 2004–05. [157479]

**Margaret Hodge:** No specific guidance has been issued to Connexions Partnerships in relation to their running costs for 2004–05.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what the total budget is for the Connexions service for *(a)* 2003–04 and *(b)* 2004–05. [157509]

**Margaret Hodge** *[holding answer 1 March 2004]:* The total Connexions service budget for 2003–04 and 2004–05 is:

£

| Budget | 2003–04 | 2004–05 |
|---|---|---|
| Field (grant to Connexions' Partnerships) | 437.5 | 446.3m |
| Central Programmes (including PA training, evaluation, Connexions Direct) | 18.6m | 14.6m |
| VAT | Not applicable | 11.8m |

**Charles Hendry:** To ask the Secretary of State for Education and Skills if he will make a statement on the benefits to young people of the Connexions card scheme. [159495]

**Margaret Hodge:** The Connexions card offers a range of benefits to young people who are in post-16 learning. The website www.connexionscard.com offers a range of rewards and information including:

Products and services, chances to try new experiences and "money can't buy" opportunities. Currently there are some 140 possibilities on offer, including study guides and free entry to leisure facilities.

Reduced cost of learning materials and public transport.

Information on courses and career opportunities including a CV builder.

The card also provides young people with an accredited proof of age card.

## Contact and Residence Disputes

**Tim Loughton:** To ask the Secretary of State for Education and Skills on what research his decision that it is in the best interests of children to be brought up by both parents was based. [152999]

**Margaret Hodge:** There is a considerable amount of research over a number of years from the UK and overseas that indicates that contact with both parents is in the best interests of the child. This finding has been

endorsed by a number of leading family court judgments. Studies have also indicated that it is the quality of the contact the child maintains with both parents rather than merely its quantity that has the most beneficial effect.

A thorough literature review of research available in this area can be found in the publication 'Researching Contact' by Joan Hunt, a Senior Research Fellow at the Department of Social Policy and Social Work, Oxford University. This work, by a well-known academic in the field of child and family law, provides a comprehensive summary of the research evidence that supports the view that contact with both parents is in the best interests of the child.

### Early Years Education

**Bob Spink:** To ask the Secretary of State for Education and Skills what estimate he has made of the change in the number of private day nurseries in the nursery education grant scheme as a result of the removal of the ring-fencing of the grants to local authorities. [155827]

**Margaret Hodge:** The information is not available in the form requested. Day care figures for 2001 and earlier years for England and Government Office regions were published in DfES Statistical Bulletin 08/01 "Children's Day Care facilities at 31 March 2001", which is available in the Library and on the DfES website, www.dfes.gov.uk/statistics. Latest childcare statistics were published in a report by OfSTED 'Registered Childcare Providers and Places in England, 19 December 2003', which is available on the OfSTED web-site, www.ofsted.gov.uk/publications. The numbers of providers and places recorded by OfSTED are not directly comparable with the previous data made available by the DfES because they were collected differently.

The percentage of three and four year olds benefiting from free part-time early education in the private and voluntary sector has increased from 23 per cent. in January 2002 to 32 per cent. in January 2003. Growth in the full day care sector has been particularly strong over 2003–04. In March 387,000 places were available in the sector. By the end of December this had increased by 13 per cent. to 436,000.

**Bob Spink:** To ask the Secretary of State for Education and Skills what research he has conducted into the funding of private providers for the nursery education grant scheme for three and four year olds following removal of the ring-fencing of funds for local authorities; and if he will make a statement. [155830]

**Margaret Hodge:** There has been no specific research of private providers following the consolidation of resources in the under-fives sub-block of their Education Formula Spending Share (EFSS)—the main source of funding for education.

The percentage of three and four year olds benefiting from free part-time early education in the private and voluntary sector in January 2003 was 32 per cent., up from 23 per cent. in January 2002.

**Bob Spink:** To ask the Secretary of State for Education and Skills what representations he has received from the National Day Nurseries Association on the financial viability of the operation by private providers of the nursery education grant scheme for three and four-year-olds; and if he will make a statement. [R] [155831]

**Margaret Hodge:** While we have not had a direct representation by the NDNA we do have dialogue with the NDNA and other national organisations, through the Large Providers Forum and the Voluntary Sector Forum, on a whole range of issues surrounding early education, including viability.

**Bob Spink:** To ask the Secretary of State for Education and Skills (1) what assessment he has made of the financial viability of the Government's nursery education grant scheme for three and four-year-olds; [R] [155832]

(2) what representations he has received from Essex county council regarding the payment per term passed on by them to private sector providers under the nursery education grant scheme; and if he will take powers to force county council's to pass on to private providers the grant level made available by the Government; [R] [155824]

(3) if the nursery education grant scheme payment per term will be index-linked to inflation; [R] [155825]

(4) if he will make it his policy to reinstate ring-fencing of nursery education grants funds for local authorities. [R] [155829]

**Margaret Hodge:** From April 2003, we have increased local flexibility and autonomy, in line with the Government's principles of reducing ring-fenced funding by consolidating the resources in the under-fives sub-block of Education Formula Spending Share (EFSS)—the main source of funding for education. We have not received representations from Essex regarding funding to private providers. As funding in EFSS is unhypothecated it is the responsibility of the local authority to set funding at a suitable level to reflect local circumstances and in order to meet their statutory obligations. In the financial year 2004–05, overall funding in the under fives sub-block is worth £2.66 billion; overall education funding having increased by 5.5 per cent.

Levels of funding increase every year, taking account of inflation and other pressures. All decisions on future funding will be considered as part of this year's Spending Review.

### Epinephrine

**Jon Cruddas:** To ask the Secretary of State for Education and Skills (1) how many children in schools have arrangements for delivering emergency injectable adrenaline (epinephrine) in case of an allergic reaction; [158817]

(2) how many *(a)* primary and *(b)* secondary schools have arrangements for delivering emergency injectable adrenaline (epinephrine) in case of an allergic reaction. [158818]

**Margaret Hodge:** Schools are not required to provide this information to the Department. The arrangements for managing such issues in schools are determined at local level. However, the Department, jointly with the Department of Health, has produced 'Supporting pupils with medical needs—a good practice guide' and Circular 14/96 'Supporting pupils with medical needs in school', in 1996. The guide includes a section on anaphylaxis, with information about emergency adrenaline injection. These documents were written to help schools draw up policies on managing medication in schools and to put in place effective management systems to support individual pupils with medical needs, as well as to set out the legal background.

## Faith Schools

**Dr. Tonge:** To ask the Secretary of State for Education and Skills which community schools have closed and re-opened as faith schools in the last 15 years; and which faith was involved in each case. [158948]

**Mr. Miliband:** The following tables show which community schools have closed to be replaced by schools designated with a religious character ("faith schools") since 1997, listed by LEA area. The first table shows single community schools that have closed and been replaced by single faith schools. The second table shows amalgamations or mergers where community and faith schools have closed, to be replaced by a single faith school. Reliable information is not available in relation to school re-organisations before 1997.

*Community Schools closed and replaced with schools with religious character since1997*

| *LEA* | *Closed Schools* | *New Schools* | *Date of Opening* | *Religious Character* |

## Family Policy

**Mr. Goodman:** To ask the Secretary of State for Education and Skills how many civil servants in his Department are assisting with the review of family policy; which *(a)* advisers from outside the Department and *(b)* other departments are assisting with the review; what body or committee within the Department is co-ordinating the review; when he expects to publish the review; and if he will make a statement. [158076]

**Margaret Hodge:** The review of family policy formed part of the work of two civil servants and a secondee from the voluntary sector. The views of a number of advisors from outside the Department and of local government have fed in to this work. The review of family policy is an internal DfES review by our Families Division. Its findings will not be published but they are contributing to relevant work in DfES and to the parenting strand of the Child Poverty Review currently being conducted by HM Treasury.

## Food Safety

**Jon Cruddas:** To ask the Secretary of State for Education and Skills what training in food safety for carers of babies and pre-school children has been made available since the death of Thomas Egan to ensure that they are equipped to protect those at risk from severe food allergy. [158819]

**Margaret Hodge:** The national standards for under eights day care and childminding indicate that registered childcare providers should request information from parents about food allergies the child may have, and take heed of such information when providing children with food and drink. The standards also require that there is at least one member of staff with a current first aid certificate on the premises or on outings at any one time, and that the first aid qualification includes training in first aid for infants and young children. First aid training has to be consistent with any guidance issued by the Secretary of State to local authorities, who are responsible for making training available to settings. Guidance was sent to all local authorities in January 2004 and this includes the requirement that training should cover the treatment of children suffering from allergic reactions.

**Alistair Burt:** To ask the Secretary of State for Education and Skills how many food technologists are undergoing training at places of further and higher education [144821]

**Alan Johnson:** In 2001/02, 2,356 students were studying Food Science as their primary subject within Higher Education Institutions (HEIs) and 158,074 were studying food science related subjects within Further Education Institutions (FEIs).

## Grammar Schools

**Mr. Dhanda:** To ask the Secretary of State for Education and Skills under what circumstances a local education authority may close a grammar school under section 29 of the School Standards and Framework Act 1998 without *(a)* the consent of the governors and *(b)* a ballot of parents. [159791]

**Mr. Miliband:** Section 29 of the School Standards and Framework Act 1998 provides for a local education authority to propose the closure of any category of maintained school including a grammar school. The authority must first consult interested parties, including parents and governors. If, after considering the responses to consultation, they decide to proceed they must publish the proposals in the local newspaper, at the entrance to the school and in a local public place. Anyone may then submit comments or objections to the proposals. Where objections are submitted, the final decision on the closure will be taken by the local School Organisation Committee (SOC), or an independent

schools adjudicator if the SOC cannot reach a unanimous decision. Both the SOC and schools adjudicator must consider a range of factors in reaching a decision, including the views of interested parties.

There is no requirement for a ballot of parents or the consent of the governors before proposals are published to close a grammar school. Ballots provide for the removal of selective admission arrangements, if enough parents vote in favour, from a school that is remaining open.

### Higher Education

**Mr. Allen:** To ask the Secretary of State for Education and Skills what the proportion was of families with an income under *(a)* £15,970 and *(b)* £33,500 with students going to higher education, broken down by local education authority, in the last academic year for which figures are available. [153132]

**Alan Johnson:** Data on the distribution of family incomes are not available at a Local Education Authority level.

The income levels £15,970 and £33,500—referred to in the paper: Moving towards a single combined grant for higher education—are estimates for 2006–07.

The figure of £15,970 is an estimate of the income threshold below which students will receive the full combined grant of £2,700 and above which the grant starts to be tapered away. Since the combined grant will be new in 2006–07, and its threshold is lower than that for the existing tuition fee relief scheme, there are no out-turn data for past years. However, it is estimated that around 30 per cent. of students will get the full grant. The figure of £33,500 is the estimated income level at which—in 2006–07—the combined grant will end and the means-tested element of the maintenance loan will begin to be tapered away. It is estimated that 50–55 per cent. of students will fall below this threshold and hence will receive some combined grant.

In 2001–02, 59 per cent. of students had a family income which resulted in them receiving part or full contribution to their fees i.e. an income below the threshold of £29,785 for dependent students and £25,440 for independent students. This is the latest year for which data are available.

Although the Department does not collect data on family income below various thresholds by LEA, we are aware that there are other organisations that do prepare figures of this nature. In particular, I understand that the House of Commons Library has access to some figures on family income by Parliamentary constituency, which hon. Members may be interested in. In addition, the Office of National Statistics has recently published some data on their website (www.statistics.gov.uk/neighbourhood) showing mean income at ward level, which hon. Members may also be interested in.

The distribution of all students entering full-time undergraduate courses by local authority, is shown in the table, copies of which have been place in the House Libraries.

### Homeless Young People

**Charles Hendry:** To ask the Secretary of State for Education and Skills whether parents can be required to make a contribution to the care costs of a child under the age of 18 years, where they refuse to provide a home for that child. [155982]

**Margaret Hodge** *[holding answer 23 February 2004]:* Part III of Schedule 2 of the Children Act 1989 provides powers for local authorities to recover contributions towards the maintenance of children looked after by them if they consider it reasonable to do so.

The persons liable to contribute are, where the child is under sixteen, each of his parents and, where he has reached the age of sixteen, the child himself.

### Internet Safety Teaching

**Ms Shipley:** To ask the Secretary of State for Education and Skills what plans he has to include internet safety teaching in the National Curriculum. [158996]

**Mr. Miliband:** Internet safety underpins the use of ICT to support the creative delivery of the National Curriculum and the teaching and learning of ICT core skills.

Within the ICT curriculum and Personal, Social and Health Education (PSHE) there is sufficient flexibility to include teaching about internet safety to pupils of all ages and for discussion about potential dangers when using the World Wide Web. Teachers are able to reinforce safe practice in any class where pupils are using the internet.

The Department's Superhighway Safety guidance and website includes advice on all aspects of internet safety including key areas such as e-mails for students, filtering systems, school websites and chat rooms. Schools are advised to have an acceptable-use policy signed by students and their parents, guardians or carers, detailing the ways the internet can or cannot be used. School plans detail how they will implement internet safety measures such as filtering, monitoring and providing protected environments.

The Internet Proficiency Certificate for primary pupils is a specific way of developing safe and discriminatory behaviours on the internet. We also provide GridClub as a safe environment for 7 to 11-year-olds to learn online in safety. The Parents Online website helps parents to help their children use the internet effectively and safely.

### Litter and Waste Disposal Education

**Mr. Dhanda:** To ask the Secretary of State for Education and Skills what steps his Department is taking to ensure that school pupils are taught the importance of a responsible approach to the disposal of litter and waste. [159727]

**Mr. Stephen Twigg:** The Citizenship curriculum includes teaching pupils about issues that impact on the society and the environment. Pupils learn about what improves and harms their local environment and about the importance of disposing of waste and litter responsibly. Citizenship education encourages pupils to play a helpful part in the life of their schools,

neighbourhoods, communities and the wider world. Such lessons may contribute to pupils understanding the consequences of dropping litter. An example can be found in the QCA Scheme of Work for Key Stage 3 which has a unit called 'Developing your schools grounds' in which pupils take responsibility for planning, devising and implementing ways of improving their school grounds.

### Looked-After Children

**Mr. McNamara:** To ask the Secretary of State for Education and Skills how many looked-after children have had special educational needs statements in England in each year since 1994. [158066]

**Margaret Hodge:** Statistics on looked-after children with statements of special education needs have been collected only since 1999–2000. The following table has been compiled from the statistical bulletin "Outcome Indicators for Looked After Children" and refers to children who have been looked after for at least one year at the year ending 30 September.

| *Year* | *Number of looked-after children (LAC)* | *Number of LAC of school age* | *Number of LAC of school age with statements of SEN* | *Percentage*[1] |
|---|---|---|---|---|
| 2000 | 42,200 | 33,100 | 8,600 | 26.0 |
| 2001 | 43,400 | 33,800 | 8,900 | 26.5 |
| 2002 | 44,100 | 34,500 | 9,200 | 26.8 |

[1] Rounded.

### Mathematics/Physics A-levels

**Mr. Gibb:** To ask the Secretary of State for Education and Skills how many students sat the A-level examination in *(a)* mathematics and *(b)* physics in 1993; and what proportion were in private sector schools. [158608]

**Mr. Miliband:** The information requested is as follows:

(a) The total number of A-level entries in mathematics in England in 1993 was 62,616, 21.6 per cent. of which were in independent schools.

(b) The total number of A-level entries in physics in England in 1993 was 34,467, 21.3 per cent. of which were in independent schools.

### Minister for Children

**Tim Loughton:** To ask the Secretary of State for Education and Skills what additional responsibilities *(a)* the Minister for Children has assumed since October 2003 and *(b)* it has been decided the Minister for Children should assume but which she has not yet taken on. [157158]

**Margaret Hodge:** Since October 2003, I have assumed responsibility for the Children and Family Court Advice and Support Service (CAFCASS). Responsibility for CAFCASS transferred to my Department from the Department of Constitutional Affairs on 12 January 2004.

I am not aware of any plans to extend my responsibilities as the Minister for Children, Young People and Families.

### New Deal for Schools

**Phil Sawford:** To ask the Secretary of State for Education and Skills how much money was received by Northamptonshire county council at each stage of the New Deal for Schools. [159312]

**Mr. Miliband:** The table shows the information requested for Northamptonshire local education authority.

*New Deal for Schools—Allocations to Northamptonshire local education authority*

£

| | *Allocation* |
|---|---|
| 1997–98 | 712,000 |
| 1998–99 | 2,309,000 |
| 1999–2000 | 2,590,000 |
| 2000–01 | 8,384,000 |

### New Schools (Greater London)

**Simon Hughes:** To ask the Secretary of State for Education and Skills if he will list the new schools agreed to be built in *(a)* Greater London and *(b)* each London borough. [158457]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about all the capital investments in each school; this should be held locally. Tables have been placed in the Libraries which set out the capital support made by this Government to each London LEA since 1997–98, in total and by programme, including devolved formula capital grants to each school.

In addition to the funding programmes indicated overleaf, the Department will also invest significantly in secondary education facilities through Building Schools for the Future (BSF). The aim of this new approach is to rebuild and renew secondary schools in every part of England within 10 to 15 years from 2005–06, subject to future spending decisions. During the course of BSF, we therefore expect London authorities to receive large-scale investment to transform their secondary school buildings. We have already approved funding in principle for BSF projects in Newham and Waltham Forest for 2005–06, and we are also working on a BSF pathfinder project involving Greenwich, Southwark and Lewisham.

### Popular Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how much funding has been allocated to the Expanding Successful and Popular Schools programme; how many applications have been made for funding under this programme; and how many applications have been successful. [159788]

**Mr. Miliband:** In August 2003, the Department announced that incentive and support funding for the expansion of successful and popular secondary schools would be available from 2004–05. To date, we have

received seven applications for funding under this programme, two from local education authorities (LEAs) and five directly from schools.

Provision of this funding is dependent on agreement to statutory proposals to expand a school by the local School Organisation Committee (SOC), or failing agreement by the SOC, by the Adjudicator. We are not aware that any of these seven proposals has yet been determined.

Where applications have the support of the LEA and are agreed, we will provide incentive funding of £500,000 (£400,000 if the school does not have a sixth form). Where applications are not supported by the LEA, we will provide the full funding required. We are currently working with the five schools in this position to determine the level of support needed to provide 21st century buildings for the additional pupils.

### Post-16 Education (Gloucestershire)

**Mr. Drew:** To ask the Secretary of State for Education and Skills what discussions he has had with *(a)* Gloucestershire county council and *(b)* Gloucestershire Learning and Skills Council on the local education authority's post-16 review; and if he will publish the relevant correspondence. [159391]

**Mr. Miliband:** The Secretary of State has had no discussions with Gloucestershire county council or Gloucestershire Learning and Skills Council on the local education authority's post-16 review. Nor has the Secretary of State exchanged any correspondence with either of these bodies on the matter.

Any proposals to re-organise sixth form provision published by the local education authority as part of this review will be decided locally by the local School Organisation Committee, or the Schools Adjudicator if the Committee cannot agree unanimously. The Secretary of State will play no part in the decision-making process.

### Postgraduate Education

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills how many students participated in postgraduate education in each year since 1997, broken down by *(a)* social class and *(b)* age. [157494]

**Alan Johnson:** Figures for postgraduate enrolments by social class are not held centrally. The available figures split by age are given below.

*Postgraduate enrolments to UK HE institutions by age, 1997/8 to 2002/3*

| *Age* | *1997/98* | *1998/99* | *1999/2000* | *2000/01* | *2001/02* | *2002/03* |
|---|---|---|---|---|---|---|
| 20 | 1,465 | 1,379 | 1,392 | 1,381 | 1,443 | 1,655 |
| 21–24 | 76,346 | 77,508 | 80,468 | 85,548 | 92,304 | 103,762 |
| 25+ | 269,196 | 285,071 | 287,277 | 293,821 | 298,104 | 308,833 |
| All | 347,007 | 363,958 | 369,137 | 380,750 | 391,851 | 414,250 |

*Source:*
Higher Education Statistics Agency (HESA)

### Prince's Trust Report

**Charles Hendry:** To ask the Secretary of State for Education and Skills if he will meet the Prince's Trust to discuss the findings of its report, "Reaching the Hardest to Reach". [159496]

**Margaret Hodge:** My right hon. Friend the Secretary of State meets the Prince of Wales on an occasional basis. My right hon. Friend has received a copy of the report "Reaching the Hardest to Reach" and it is being considered by Ministers.Ministers and officials in the Department for Education and Skills are in regular contact with the trust to discuss areas of mutual interest and co-operation, including the trust's work on reaching disaffected young people.

### Private Schools (Expansion)

**Mr. Gibb:** To ask the Secretary of State for Education and Skills what criteria will be used in assessing whether to grant permission for a private school to expand. [158756]

**Mr. Miliband:** Section 162 of the Education Act 2002 requires independent schools to gain approval from the Secretary of State before increasing the maximum number of pupils within the school. The approval process takes into account the findings of recent inspections, or the school's plans for building work, which are subject to building regulation controls. Approval confirms that issues such as overcrowding or understaffing will not compromise the health, welfare and safety of pupils.

### School Cricket Facilities

**Mr. Heald:** To ask the Secretary of State for Education and Skills how many state schools *(a)* have (i) cricket nets and (ii) cricket squares and *(b)* play inter-school cricket fixtures. [159330]

**Mr. Stephen Twigg:** This information is not held by the Department. Local education authorities and schools would need to expend additional resources were they to be asked to supply the information.

### School Federations

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many school federations have been established. [159786]

**Mr. Miliband:** The Department is currently providing pump-priming funding for 29 Federation pilots involving around 150 schools. However, schools can (and do) federate without applying to the Department and without pump-priming funding. We do not hold centralised records for these federations.

### School Kitchens

**Mr. Randall:** To ask the Secretary of State for Education and Skills what earmarked funds are available for refurbishment of school kitchens. [158495]

**Mr. Miliband:** The only funds specifically earmarked for projects including the refurbishment of school kitchens relate to Voluntary Aided (VA) schools. This results from the reform of liabilities and funding arrangements at VA schools in 2002, when their governing bodies took on responsibility for some buildings (including kitchens) which were previously the responsibility of local education authorities. No other capital funding is earmarked by the Department, most being provided formulaically to support local prioritisation of need.

## School Leavers (Greater London)

**Simon Hughes:** To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* Greater London and *(b)* each London borough left school with no qualifications in each of the last five years. [158451]

**Mr. Miliband:** The following table shows the percentage of pupils in *(a)* the London Government Office Region and *(b)* each London local education authority who gained no passes at GCSE/GNVQ for the years 1999 to 2003.

*Percentage of pupils gaining no passes at GCSE/GNVQ*

| *Local education authority number/name* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|
| *National Average* | *6.0* | *5.6* | *5.5* | *5.4* | *5.2* |
| *London GOR* | *5.2* | *3.9* | *4.6* | *4.4* | *4.7* |
| 201 City of London | — | — | — | — | — |
| 202 Camden | 6.9 | 5.9 | 4.1 | 6.1 | 4.8 |
| 203 Greenwich | 9.7 | 6.9 | 7.4 | 6.8 | 6.5 |
| 204 Hackney | 7.3 | 6.8 | 6.9 | 8.7 | 5.1 |
| 205 Hammersmith and Fulham | 4.5 | 0.6 | 3.9 | 2.7 | 3.7 |
| 206 Islington | 9.1 | 8.3 | 11.4 | 11.6 | 5.2 |
| 207 Kensington and Chelsea | 6.8 | 6.7 | 3.8 | 4.7 | 5.6 |
| 208 Lambeth | 4.5 | 3.0 | 4.5 | 3.6 | 4.0 |
| 209 Lewisham | 5.3 | 6.0 | 7.1 | 4.3 | 5.3 |
| 210 Southwark | 5.3 | 2.0 | 4.7 | 4.4 | 5.4 |
| 211 Tower Hamlets | 4.2 | 2.4 | 3.5 | 1.9 | 3.9 |
| 212 Wandsworth | 5.0 | 3.0 | 4.8 | 4.2 | 7.2 |
| 213 Westminster | 8.4 | 5.3 | 6.1 | 5.9 | 4.9 |
| 301 Barking and Dagenham | 5.5 | 3.0 | 4.9 | 7.1 | 5.1 |
| 302 Barnet | 6.9 | 4.8 | 4.8 | 4.9 | 5.0 |
| 303 Bexley | 3.6 | 4.5 | 4.5 | 3.4 | 3.4 |
| 304 Brent | 5.1 | 1.5 | 3.8 | 3.8 | 4.1 |
| 305 Bromley | 4.1 | 3.4 | 3.7 | 3.7 | 3.5 |
| 306 Croydon | 4.6 | 3.2 | 4.0 | 3.9 | 4.7 |
| 307 Ealing | 4.4 | 1.5 | 1.8 | 0.8 | 3.4 |
| 308 Enfield | 3.5 | 2.9 | 3.2 | 4.2 | 4.5 |
| 309 Haringey | 7.4 | 7.0 | 7.9 | 8.1 | 10.0 |
| 310 Harrow | 4.3 | 3.3 | 3.3 | 2.6 | 4.3 |
| 311 Havering | 2.6 | 3.8 | 3.7 | 3.7 | 3.2 |
| 312 Hillingdon | 6.6 | 4.8 | 3.8 | 5.3 | 6.7 |
| 313 Hounslow | 5.4 | 4.2 | 4.3 | 4.5 | 4.9 |
| 314 Kingston upon Thames | 5.6 | 6.9 | 6.0 | 8.3 | 5.1 |
| 315 Merton | 8.1 | 7.4 | 6.3 | 8.7 | 7.8 |
| 316 Newham | 3.5 | 0.0 | 2.4 | 0.6 | 2.0 |
| 317 Redbridge | 1.4 | 0.8 | 2.1 | 1.4 | 2.2 |
| 318 Richmond upon Thames | 4.2 | 4.4 | 5.8 | 6.6 | 3.4 |
| 319 Sutton | 3.2 | 3.5 | 4.0 | 3.3 | 3.6 |
| 320 W[illegible] Forest | 6.7 | 6.5 | 6.4 | 4.8 | 6.4 |

## Schools (Funding)

**Andrew George:** To ask the Secretary of State for Education and Skills what impact his announcement in respect of financial settlements to local education authorities will have on per capita funding for *(a)* primary and *(b)* secondary schools for (i) 2004–05 and for (ii) each local education authority. [159799]

**Mr. Miliband:** Our proposals to restore stability and certainty to school funding include a guaranteed minimum increase in every school's per pupil funding of 4 per cent. where pupil numbers remain unchanged. All authorities' School Formula Spending Shares are increasing by at least 5 per cent. per pupil in 2004–05. This gives headroom above the guarantee and flexibility to target funds towards schools facing difficulty. Information showing the increase per pupil for all local education authorities in England has been placed in the Libraries. It is for individual authorities to decide how funding above the guaranteed minimum increase should be distributed to primary and secondary schools, using their locally agreed funding formulae.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills (1) what proportion of *(a)* leadership incentive, *(b)* national literacy and numeracy strategy, *(c)* Key Stage 3 Strategy, *(d)* ethnic minority achievements, *(e)* school support staff and *(f)* information communication technology in schools: infrastructure grants are allocated directly to schools; and on what basis; [159184]

(2) what proportion of Standards Funds grants are paid directly to schools. [159185]

**Mr. Miliband** *[holding answer 5 March 2004]:* Standards Fund grants are allocated to local education authorities, not directly to schools. For some grants a minimum proportion must be devolved by local education authorities to their schools. The total proportion of the Standards Fund required to be devolved to schools through the Standards Fund in 2003–04 is 83 per cent.

The proportions required to be devolved to schools in 2003–04 for the particular grants referred to are:

| *Grant* | *Proportion required to be devolved (percentage)* |
|---|---|
| Leadership Incentive Grant | 100 |
| National Literacy and Numeracy Strategies | 70 |
| Key Stage 3 Strategy | 66 |
| Ethnic Minority Achievement | 85 |
| School Support Staff | 100 |
| *Information Communication Technology in Schools:* | |
| Infrastructure | 96 |

These grants are devolved to schools on the following basis:

*Leadership Incentive Grant*

£125,000 to each secondary school in Excellence in Cities Areas, Education Action Zones and Excellence Clusters and secondary schools outside those areas where fewer than 30 per cent. of Year-11 pupils attain at least five A*-C grades at GCSE or where more than 35 per cent. of pupils are eligible for free school meals. All schools in receipt of the grant must agree a collaborative plan with their local education authority.

*National Literacy and Numeracy Strategies*

Grant is allocated to schools based on numbers of pupils and distance to the LEA's 2004 Key Stage 2 targets, KS1 reading and maths results, and the number of teachers attending five day maths courses, literacy priority training and training for Year 3 teachers.

*Key Stage 3 Strategy*

Allocated to schools to deliver core training and support to schools across the five strands of the Strategy, plus training for the behaviour and attendance programme. The grant also includes an allocation for training, support to schools identified for additional intensive support and schools with leading professionals

and teachers, and schools whose pupils face the greatest challenge in achieving the standards of learning expected of their age.

*Ethnic Minority Achievement*

Local education authorities can determine their own formula for allocating this grant to schools, after consultation with the local Schools Forum.

*School Support Staff*

Local education authorities can determine their own formula for allocating this grant to schools, after consultation with the local Schools Forum.

*Information Communication Technology (ICT) in Schools: Infrastructure*

Local education authorities allocate the grant to schools in line with their ICT Development Plan to deliver improved computer:pupil ratios as well as provide a range of equipment and support.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 26 February 2004, *Official Report*, column 519W, on funds/grants, if he will make a statement on the purpose of the Condition Funding grant. [159187]

**Mr. Miliband:** Condition funding was introduce in 2001–02 as a capital grant allocation to all local education authorities for the investment needs of their maintained school buildings as prioritised through the local asset management planning process. It is allocated according to relative need based on condition data provided by all authorities, from a full survey of all their school buildings. It is for capital investment in buildings as defined in the current CIPFA Code of Practice on Local Authority Accounting in Great Britain: A Statement of Recommended Practice. Where authorities have satisfactory asset management plans, they have autonomy on how this grant is invested. Further details of this grant can be found in my Department's guidance on the programme which, along with guidance on other capital programmes, can be accessed through www.teachernet.gov.uk/schoolscapital. I am arranging for copies of this guidance to be placed in the Libraries of both Houses.

Although Condition funding is allocated according to condition need, we urge all authorities to join up all capital funding streams locally to achieve the greatest impact in raising school standards, and to secure cross-cutting gains and best value for money investment.

From 2004–05, to simplify funding programmes, Condition funding allocation becomes part of the Modernisation formulaic capital funding programme for all authorities.

## Special Educational Needs

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what resources are available to assist children whose special educational needs are identified before the start of compulsory schooling. [157152]

**Mr. Miliband:** In all but exceptional cases, children below statutory school age will be supported through the resources and intervention arrangements that are normally available to schools and early years settings. Resources have also been made available to local authorities and their Early Years Development Childcare Partnerships (EYDCPs) to ensure that all early years settings have access to advice and support from Early Years Special Educational Needs Co-ordinators as well as specialist teachers and educational psychologists.

In September 2002, we launched the Early Support Pilot Programme (ESPP) to improve services for babies and very young disabled children and their families. This is a four-year, £13 million programme to develop more co-ordinated, multi-agency support for children and their families. Pathfinder programmes were launched in nine areas in 2003.

Local authorities are also able to provide access to a home-based learning programme, such as Portage, or the services of a peripatetic support teacher, to help children with SEN learn how to learn.

For those children with particularly severe and complex needs, local authorities are able to provide places in special schools or resourced provision within mainstream settings from their schools budget.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many places there were in special schools in *(a)* the state sector and *(b)* the non-state sector in (i) 1997 and (ii) 2003. [157154]

**Margaret Hodge:** The figures are available for the numbers of pupils in special schools but we do not collect data for the numbers of places in special schools.

In January 1997, there were 93,018 pupils in maintained special schools, 5,810 pupils with statements of SEN in independent schools and 4,992 pupils with statements of SEN in non-maintained special schools.

In January 2003, there were 88,930 pupils in maintained special schools, 6,990 pupils with statements of SEN in independent schools and 4,840 pupils with statements of SEN in non-maintained special schools.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what proportion of pupils with special educational needs *(a)* with a statement and *(b)* without a statement are educated in (i) special schools, (ii) specialist classes or units within mainstream schools and (iii) other classes within mainstream schools. [157750]

**Margaret Hodge** *[holding answer 1 March 2004]:* Information about the provision being made for pupils with statements of special educational need is collected from local authorities in January each year. In January 2003, the proportions were as follows:

| *Special educational needs* | *Percentage* |
|---|---|
| Special schools (including maintained, non-maintained and independent) | 37.5 |
| Resourced provision, specialist classes or units within mainstream | 7.5 |
| Maintained mainstream schools | 53.8 |
| Pupil referral units | 0.7 |
| Other independent schools | 0.5 |

Data about the provision for pupils with SEN but without a statement is not collected from local authorities but information is available from the Pupil

Level Annual Schools Census. Pupils in specialist classes or units within mainstream are not identified separately. In January 2003, the proportions were as follows:

| *Special educational needs* | *Percentage* |
|---|---|
| Special schools (including maintained, non-maintained and independent) | 0.2 |
| Maintained mainstream schools (including resourced provision, specialist classes or units within mainstream) | 95.7 |
| Pupil referral units | 0.5 |
| Independent and non-maintained schools | 3.6 |

**Sandra Gidley:** To ask the Secretary of State for Education and Skills what assessment he has made of the extent to which statemented needs are being met. [157284]

**Margaret Hodge:** The Education Act 1996 places duties on local education authorities (LEAs) and all LEA-maintained schools to identify, assess and make suitable provision to meet children's special educational needs (SEN). They may make and maintain statements on such children where appropriate, and section 324(5)(a) of the Act imposes a statutory duty on LEAs to arrange that the special educational provision specified in statements they maintain is made for the child, unless the child's parent has made suitable arrangements. We have no reason to believe that LEAs do not meet the needs of statemented children in the great majority of cases. However, it is open to parents and others to complain to the Secretary of State for Education and Skills if they consider that an LEA is failing in its statutory duties in relation to implementing and maintaining statements, with a view to him exercising his powers under sections 497 and 497A of the 1996 Act. We consider any such complaints carefully. In addition, the Office for Standards in Education (OFSTED) monitors the performance of LEAs in meeting their statutory duties, including those relating to children with special educational needs.

The Government's new SEN "Strategy Removing Barriers to Achievement", launched on 11 February, will build on the improvements to the statutory framework brought about by the Special Educational Needs and Disability Act and the SEN Code of Practice, both 2001. We believe that all children with SEN will benefit from the proposals in the Strategy, on which we consulted widely prior to publication.

### Student Finance

**Chris Grayling:** To ask the Secretary of State for Education and Skills what the Student Loan Company's latest estimate is of the likely future level of bad debt from income contingent student loans. [155454]

**Alan Johnson:** There is no real concept of bad debt under the income-contingent loan repayment scheme. This is because repayments are in line with earnings, not in accordance with a credit agreement, and income-contingent loans repayments are collected through the tax system, apart from a few exceptions. Loans are written off only for policy reasons—due to death, becoming disabled and unfit for work, or at the age of 65—which are not considered as bad debt.

### Sure Start

**John Mann:** To ask the Secretary of State for Education and Skills what plans he has to extend Sure Start's Business Success for Childcare programme to more areas of England in 2004–05, with particular reference to Bassetlaw. [158591]

**Margaret Hodge:** The Business Success for Childcare Programme currently delivers free business support training to childcare providers through a series of workshops supported by workbooks. The programme covers all areas of England.

To date 11,481 providers have been trained. On evaluation feedback received so far, over 90 per cent. of childminders and group providers have said that they feel able to improve their business as a result of the training they have received.

### Teachers

**Mr. Rosindell:** To ask the Secretary of State for Education and Skills what steps the Government are taking to retain teachers. [146662]

**Mr. Miliband:** We have the highest number of teachers in schools for over twenty years, which is a reflection of our success not only in recruitment but also retention. We are encouraging teachers to remain in the profession by improving the environment and working conditions in which they are employed, through our key worker housing scheme, through ongoing and improved investment in behaviour management, through our radical school workforce reforms— supported by our union and other partners on the Workforce Agreement Monitoring Group—and through the significant increases in teachers' salaries since 1997. These policies have met the key concerns of teachers and are all designed to make the profession more attractive both to potential new recruits and those already in our schools. We are also funding recruitment strategy managers who are currently working in over 100 LEAs across the country helping to provide a co-ordinated local approach to recruitment and retention.

## CONSTITUTIONAL AFFAIRS

### Drugs Training

**John Mann:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many magistrates have received specialist drugs training. [159472]

**Mr. Leslie:** Statutory responsibility for the training of magistrates currently rests with the 42 independent Magistrates' Courts' Committees (MCCs). There is no central data collected on the information requested.

However, following a survey that was undertaken by the Justices' Clerks' Society (JCS) towards the end of last year, it is known that all magistrates have had access to basic training on Drug Treatment and Testing Orders (DTTO). The survey also revealed a general desire from magistrates for more information to be made available to them and as a consequence a working group was established and is currently producing guidance materials under the auspices of the Criminal Justice Intervention Programme (CJIP). In addition a specialist

training pack is being developed by the JCS with the approval of the Judicial Studies Board (JSB), for magistrates who deal with DTTO review hearings.

### Emergency Protection Orders

**Mr. Andrew Turner:** To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his answer to the hon. Member for the Isle of Wight of 2 March 2004, *Official Report*, columns 852–53W, on emergency protection orders, how many ex-parte applications were made and what proportion was granted in *(a)* Nottinghamshire and *(b)* Kent. [159697]

**Mr. Leslie:** I refer the hon. Member to the answer I gave on 2 March 2004, *Official Report*, column 852W.

### Parliamentary Elections

**Dr. Whitehead:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what appraisal his Department has made of the adequacy of arrangements for registering electors for parliamentary elections. [158958]

**Mr. Leslie:** The Representation of the People Regulations 2001 introduced a number of changes to electoral registration arrangements, including a scheme of "rolling registration" that enables names to be added to the electoral register at any time of the year, and enabling persons without a conventional address to register to vote. The Government considers that the recent changes to registration procedures have both made it easier to register to vote and resulted in a more accurate and up to date register. The Government will keep under review the arrangements for registering electors and is currently considering recommendations on the subject made by the independent Electoral Commission.

### Protection from Harassment Act

**Mrs. Gillan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the total number of applications alleging a breach of a section 42 of the Family Law Act 1996 non-molestation injunction was, broken down by *(a)* whether or not the breach was proved and *(b)* in the event the breach was proved whether there was (i) an immediate prison sentence, (ii) a suspended prison sentence, (iii) a fine and (iv) another noncustodial disposal in (A) 2001, (B) 2002 and (C) 2003; [159397]

(2) how many civil non-harassment injunction orders were made under section 3(1) of the Protection from Harassment Act 1997 in *(a)* 2001, *(b)* 2002 and *(c)* 2003, broken down by sex of the respondent; [159401]

(3) how many orders for the payment of damages there were under section 3(2) of the Protection from Harassment Act 1997 in *(a)* 2001, *(b)* 2002 and *(c)* 2003, broken down by sex of the respondent; and what extent of overlap with orders for section 3 non-harassment injunctions there was; [159402]

(4) how many applications alleging a breach of a section 3(1) of the Protection from Harassment Act 1997 non-harassment injunction there were in *(a)* 2001, *(b)* 2002 and *(c)* 2003, broken down by (i) sex of the respondent/defendant, (ii) whether the (A) civil contempt of court procedure by section 3(3)-(5) and (B) criminal procedure by section 3(6)-(7) was used and (iii) whether the breach was proved. [159403]

**Mr. Leslie:** The information requested is not held centrally and can be provided only at disproportionate cost.

**Mrs. Gillan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications to civil courts included a claim for injunctive or financial relief under section 3 of the Protection from Harassment Act 1997 in *(a)* 2001, *(b)* 2002 and *(c)* 2003, broken down by sex of the respondent. [159400]

**Mr. Leslie:** Information held centrally relates only to applications made for an injunction under the Protection from Harassment Act 1997. During 2001 there were 392 such applications, in 2002 there were 499 and in 2003 the figure was 576. Information relating to the remainder of the question is not available centrally and can be provided only at disproportionate cost.

### Temporary Staff

**Matthew Taylor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department or its predecessors paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158254]

**Mr. Leslie:** My Department has a national contract for the provision of agency workers. Information regarding usage in the current financial year is only available for the period 1 April 2003 to 31 December 2003. During that period the estimated average number of agency staff employed was 255, which equates to 1.96 per cent. of the total staff employed.

Information regarding the expenditure under this contract is provided in the following table.

Information relating to workers employed through other agencies is not held centrally and could be provided only at disproportionate cost.

My Department uses agency workers to meet short-term requirements and in areas where it is difficult to recruit and retain staff.

*Use of department's national contract for provision of agency workers*

| *Financial year* | *Expenditure* |
|---|---|
| *2001–02* | |
| Lord Chancellor's Department and Associated Offices | Not applicable—did not begin using contract until following year |
| Court Service—including the Immigration Appellate Authority | £2,360,000 |
| *2002–03* | |
| Lord Chancellor's Department and Associated Offices | £276,000 |
| Court Services—including the Immigration Appellate Authority | £4,692,000 |

*Use of department's national contract for provision of agency workers*

| *Financial year* | *Expenditure* |
|---|---|
| *2003–04*[1] | |
| Department for Constitutional Affairs and Associated Offices | £849,500 |
| Court Service—including the Immigration Appellate Authority | £2,939,000 |

[1] Information available 1 April 2003 to 31 December 2003 only

## DEPUTY PRIME MINISTER

### Gloucestershire Emergency Services

**Mr. Nigel Jones:** To ask the Deputy Prime Minister if he will make a statement on the future of Gloucestershire's Emergency Services Tri-service headquarters in Gloucester. [159042]

**Mr. Raynsford:** The Government's response to the consultation exercise on regional fire and rescue control rooms was announced on 4 March. The options are open on the location of the fire and rescue control room for the south west region. The regional control centres will be able to communicate effectively with police and ambulance controls as well as with each other.

### Arm's Length Management Organisations

**Mr. Battle:** To ask the Deputy Prime Minister if he will list the arm's length management organisations approved to date, broken down by local authority; and which have a specific regeneration remit. [159289]

**Keith Hill:** The local authorities which have received approval under section 27 of the Housing Act 1985 to delegate their housing management responsibilities to an Arms Length Management Organisation (ALMO) are listed below. None of the ALMOs have a specific regeneration remit. The primary objective of all ALMOs is to bring the stock up to the Decent Homes standard and provide a high quality housing management service. The ALMOs work with their local authorities to ensure that the work to achieve Decent Homes is planned and implemented in parallel with other investment, including investment with wider regeneration objectives.

| *Local authority* | *ALMO* |
|---|---|
| Ashfield District Council | Ashfield Homes |
| London Borough of Barnet | Barnet Homes |
| Barnsley Metropolitan Borough Council | Berneslai Homes |
| Blyth Valley Borough Council | Blyth Valley Housing |
| Bolton Metropolitan Borough Council | Bolton at Home |
| London Borough of Brent | Brent Housing Partnership |
| Carrick District Council | Carrick Homes |
| Cheltenham Borough Council | Cheltenham Borough Homes |
| Colchester Borough Council | Colchester Borough Homes |
| Derby City Council | Derby Homes |
| Gateshead Council | Gateshead Housing Company |
| High Peak Borough Council | High Peak Community Housing |
| London Borough of Hillingdon | Hillingdon Homes |
| London Borough of Hounslow | Hounslow Homes |
| Royal Borough of Kensington and Chelsea | Kensington and Chelsea TMO |
| Kirklees Metropolitan Council | Kirklees Neighbourhood Housing |
| Leeds City Council | Leeds West Homes, Leeds South Homes, Leeds South East Homes, Leeds North West Homes, Leeds North East Homes and Leeds East Homes |
| Oldham Metropolitan Borough Council | First Choice Homes |
| Rochdale Metropolitan Borough Council | Rochdale Boroughwide Housing |
| Salford City Council | New Prospect Housing |
| Stockton-on-Tees Borough Council | Tristar Homes |
| London Borough of Waltham Forest | Ascham Homes |
| City of Westminster | CityWest Homes |
| Wigan Metropolitan Borough Council | Wigan and Leigh Housing |
| Solihull Metropolitan Borough Council | Solihull Community Housing |
| South Lakeland District Council | South Lakes Housing |
| Warrington Borough Council | Golden Gates Housing |

### Correspondence

**Mr. Andrew Turner:** To ask the Deputy Prime Minister when a reply will be sent to the letter of 8 January from the Head of Planning at the Isle of Wight Council to the Government Office for the South East. [159535]

**Keith Hill:** The Government Office for the South East wrote to the Isle of Wight Council on 4 March, apologising for the delay and explaining that it had tried on several occasions to discuss the matter with Council officials, but without success. The Government Office remains ready to do all it can to help resolve any outstanding difficulties.

### Council Tax

**Mr. Lidington:** To ask the Deputy Prime Minister if he will list for each local authority in Buckinghamshire and Milton Keynes the level of uncollected council tax for each year since 1996–97 *(a)* in cash terms and *(b)* as a percentage of total council tax revenue due. [158870]

**Mr. Raynsford:** The available information requested is tabled below.

*Uncollected council taxes*

*£000*

| *Amounts uncollected in-year* | *1996–97* | *1997–98* | *1998–99* | *1999–00* | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|---|---|---|---|
| Milton Keynes | 3,189 | 3,196 | 1,998 | 2,144 | 3,097 | 3,860 | 3,223 |
| Districts in Buckinghamshire | | | | | | | |
| Aylesbury Vale | 1,231 | 1,168 | 1,773 | 1,744 | 1,466 | 1,004 | 1,007 |
| Chiltern | 331 | 337 | 470 | 496 | 442 | 398 | 403 |
| South Bucks | 233 | 125 | 386 | 450 | 886 | 484 | 293 |
| Wycombe | 1,361 | 1,212 | 1,308 | 1,372 | 1,116 | 1,712 | 1,769 |
| *Percentage uncollected in-year* | | | | | | | |
| Milton Keynes | 8.9 | 8.9 | 5.0 | 4.7 | 6.3 | 7.0 | 5.4 |
| Districts in Buckinghamshire | | | | | | | |
| Aylesbury Vale | 3.8 | 3.3 | 4.5 | 4.0 | 3.1 | 2.0 | 1.8 |
| Chiltern | 1.4 | 1.3 | 1.6 | 1.6 | 1.3 | 1.1 | 1.0 |
| South Bucks | 1.5 | 0.7 | 2.0 | 2.1 | 3.8 | 2.0 | 1.1 |
| Wycombe | 3.9 | 3.2 | 3.1 | 3.0 | 2.3 | 3.3 | 3.1 |

*Source:*
QRC4 returns

The figures relate only to amounts of council tax uncollected during the financial year to which they relate. This is because the figures reported to central government on amounts collected for previous years are not broken down by financial year. Council taxes nevertheless continue to be collected after the end of the financial year, and so the amounts and percentages that are ultimately uncollected for any financial year will be lower than those shown in the table.

### Disabled Employees

**Mr. Goodman:** To ask the Deputy Prime Minister if he will set out the number of employees in his Department who have a disability, broken down by disability type. [148990]

**Yvette Cooper:** The Office of the Deputy Prime Minister (excluding Government Offices and its agencies) has 2,107.5 full time equivalent (FTE) staff, of which 52 staff have declared that they have a disability. The range of disabilities declared by these staff are:

| | *Number* |
|---|---|
| Hearing | 8 |
| Hearing Impairment Plus | [1] |
| Learning | [1] |
| Learning Difficulties Plus | [1] |
| Mental Illness | [1] |
| Mental Illness Plus | [1] |
| Mobility | [1] |
| Mobility Plus | [1] |
| Other | [1] |
| Physical Co-ordination Difficulties Alone | [1] |
| Physical Co-ordination Difficulties Plus | [1] |
| Reduced Physical Capacity | 6 |
| Reduced Physical Capacity Plus | 9 |
| Speech | [1] |
| Vision | 11 |
| Visual Impairment Plus | [1] |

[1] For these disabilities the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the Code of Practice on Access to Government Information.

### Non-domestic Rates

**Mr. Hoyle:** To ask the Deputy Prime Minister how much money was collected in 2003–04 from businesses in *(a)* Lancashire and *(b)* Chorley in non-domestic rates; and how much was passed on to (i) Lancashire county council and (ii) Chorley council. [157733]

**Mr. Raynsford:** A total of £236,019,772 was collected in non-domestic rates from businesses in Lancashire in 2003–04 of which £16,592,430 was collected in Chorley.

The revenue collected from the national non-domestic rates is re-distributed to all local authorities on the basis of domestic population, rather than on the amount raised in the local authority area. In the case of Lancashire, £304,417,378 was passed on to Lancashire county council and Chorley council received £3,508,4937.

### Homelessness

**Ms Oona King:** To ask the Deputy Prime Minister what assessment he has made of Tower Hamlets' decision to use its dedicated homelessness strategy funding to pay Cash Incentive Scheme grants to registered social landlords' tenants to relinquish their tenancy and buy a property on the open market. [158550]

**Yvette Cooper:** The Office of the Deputy Prime Minister is aware that Tower Hamlets has been paying grants to social housing tenants to enable them to purchase a property in the private sector. Such grants can be an effective way of releasing social housing to provide accommodation for homeless households and so relieve pressures on temporary accommodation and help to meet the Government's target to end the use of bed and breakfast accommodation for families with children. In 2003–04 Tower Hamlets plans to use £300,000 for such grants, out of a total allocation from the Homelessness Directorate of £876,000. Other plans for use of the homelessness grant included: increasing the supply of temporary accommodation in the private sector; employment of additional staff to increase the homelessness prevention service; and establishing a homelessness forum.

### Housing

**Simon Hughes:** To ask the Deputy Prime Minister how many intermediate housing properties were constructed in each London borough in each of the last six years. [159180]

**Keith Hill:** The term intermediate housing is relatively new and there is no generally agreed definition. The Housing Investment Programme Housing Strategy Statistical returns by London local authorities show the following numbers of completions for new build housing for shared ownership.

| | 1998–99 | 1999–2000 | Outturn 2000–01 | 2001–02 | 2002–03 | Projected 2003–04 | Total |
|---|---|---|---|---|---|---|---|
| Barking and Dagenham | 54 | 38 | 90 | 87 | 78 | 106 | 453 |
| Barnet | 0 | 0 | 12 | 48 | 71 | 137 | 268 |
| Bexley | 7 | 0 | 11 | 5 | 43 | 5 | 71 |
| Brent | 65 | 97 | 42 | 0 | 58 | 100 | 362 |
| Bromley | 0 | 0 | 13 | 9 | 7 | 30 | 59 |
| Camden | 48 | 87 | 55 | 42 | 6 | 43 | 281 |
| City of London | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Croydon | 138 | 111 | 64 | 185 | 74 | 65 | 637 |
| Ealing | 66 | 13 | 2 | 41 | 74 | 116 | 312 |
| Enfield | 55 | 0 | 32 | 37 | 81 | 23 | 228 |
| Greenwich | 56 | 19 | 14 | 75 | 49 | 205 | 418 |
| Hackney | 0 | 0 | 147 | 193 | 254 | 356 | 950 |
| Hammersmith and Fulham | 63 | 26 | 62 | 25 | 26 | 111 | 313 |
| Haringey | 0 | 25 | 64 | 58 | 118 | 214 | 479 |
| Harrow | 3 | 16 | 0 | 7 | 24 | 0 | 50 |
| Havering | 0 | 0 | 19 | 10 | 0 | 20 | 49 |
| Hillingdon | 30 | 13 | 41 | 18 | 71 | 120 | 293 |
| Hounslow | 40 | 11 | 12 | 57 | 32 | 34 | 186 |
| Islington | 0 | 38 | 65 | 146 | 73 | 49 | 371 |
| Kensington and Chelsea | 74 | 61 | 25 | 0 | 17 | 48 | 225 |
| Kingston | 0 | 3 | 17 | 0 | 0 | 0 | 20 |
| Lambeth | 0 | 44 | 10 | 20 | 21 | 65 | 160 |
| Lewisham | 114 | 137 | 150 | 53 | 100 | 32 | 586 |
| Merton | 0 | 4 | 1 | 23 | 9 | 29 | 66 |
| Newham | 51 | 97 | 73 | 113 | 160 | 565 | 1,059 |
| Redbridge | 0 | 0 | 41 | 6 | 46 | 88 | 181 |
| Richmond | 36 | 10 | 24 | 12 | 25 | 32 | 139 |
| Southwark | 5 | 28 | 19 | 52 | 67 | 117 | 288 |
| Sutton | 280 | 1084 | 313 | 15 | 58 | 44 | 1,794 |
| Tower Hamlets | 114 | 196 | 161 | 31 | 237 | 140 | 879 |
| Waltham Forest | 0 | 0 | 61 | 40 | 3 | 11 | 115 |
| Wandsworth | 75 | 76 | 36 | 20 | 60 | 256 | 523 |
| Westminster | 36 | 33 | 116 | 77 | 70 | 29 | 361 |
| Total | 1,410 | 2,267 | 1,792 | 1,505 | 2,012 | 3,190 | 12,176 |

**Mr. Drew:** To ask the Deputy Prime Minister how many local authority dwellings in Stroud District fail the Decent Home standard; and what estimate he has made of how much it will cost to bring them up to that standard. [159384]

**Keith Hill:** The latest figures that the Office of the Deputy Prime Minister has for Stroud date from 1 April 2003, when the local authority reported a total stock of 5,429 of which 1,357 (25 per cent.) were non-decent.

Stroud currently estimate the cost of making their stock decent at £3,070,000 in their 2003 HIP Business Plan statistical appendices. However, the Office of the Deputy Prime Minister understands that the council is due to consider a report on financial and other implications next week, which means these figures may be subject to change.

**Mr. Drew:** To ask the Deputy Prime Minister what discussions he has had with Stroud District Council following the unsuccessful ballot on large-scale voluntary transfer. [159385]

**Keith Hill:** A meeting between officials of the Government Office for the South West, the Office of the Deputy Prime Minister's Community Housing Task Force and Stroud District Council is due to take place on 8 March.

**Mr. Drew:** To ask the Deputy Prime Minister how much he estimates Stroud District Council spent on the large scale voluntary transfer ballot. [159386]

**Keith Hill:** Stroud District council spent £16,305 on the ballot.

### Local Government Finance

**Chris Ruane:** To ask the Deputy Prime Minister how much central Government funding was given to each local authority in each of the last 15 years, broken down by region. [156242]

**Mr. Raynsford:** The available information has been made available in the Library of the House.

### Planning

**Mr. Sanders:** To ask the Deputy Prime Minister what proportion of the budget of the Sustainable Communities Policy will be allocated to the implementation of the stand-alone self-sustaining three-dimensional spatial concept for a city along the Thames from the Docklands to the Estuary. [159252]

**Keith Hill:** In "Sustainable Communities, Building for the Future" we announced that funding of £446 million over 3 years would be made available to the Thames Gateway as part of a total budget of almost £22 billion (see annex A). This will be used to tackle the barriers to development which have deterred investment in the Gateway. It will help regenerate existing communities and open up new development opportunities for housing

and employment on major brownfield sites such as Ebbsfleet and Eastern Quarry in Kent and Barking Reach, which is the largest brownfield site in London.

### Regional Government

**Miss McIntosh:** To ask the Deputy Prime Minister whether he estimates that the running costs of the Yorkshire and Humberside Regional Assembly will be more than the running costs of the two-tier system. [159194]

**Mr. Raynsford:** The Office of the Deputy Prime Minister said in the White Paper, "Your Region, Your Choice" that an elected assembly would have running costs of around £25 million a year. The potential savings from restructuring of local government in the area of North Yorkshire county council will not be known until the Boundary Committee for England reports in May on its recommended options for local government restructuring in North Yorkshire, and voters have had their say in a local government referendum.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will estimate the total cost of *(a)* holding the referendum for a Yorkshire and Humberside Regional Assembly, *(b)* setting up the Assembly and *(c)* holding the elections for the Assembly. [159195]

**Mr. Raynsford:** *(a)* The Government have recently consulted on The Regional Assembly and Local Government Referendums (Counting Officers' Charges) (England) Order 2004, that will establish the costs of conducting the referendums. Based on the figures in the draft order the cost of holding a referendum will be £1.47 per elector, if everyone eligible votes.

*(b)* Assemblies will cost around £30 million to set up.

*(c)* The set up costs include around £10 million for the first elections.

### Rodent Infestation

**Ms Walley:** To ask the Deputy Prime Minister what plans he has to publish data on rodent infestations in domestic premises based on the rolling annual English House Condition Survey. [158098]

**Mr. Bradshaw:** I have been asked to reply.

The English house Condition Survey was re-organised as a continuous survey from financial year 2002–03. First results from the survey will be available for analysis from end 2004 with a view to reporting in mid 2005 and based on data from the period 2002–03 to 2003–04. In future years, annual results will be available based on rolling combinations of two year data sets (ie next results will be available for analysis by end 2005 based on the period 2003–04 and 2004–05). This approach will provide a robust base for analysis and monitoring of change.

ODPM expect to publish a core set of national results, not covering rodent information but focussed on decent homes, using the combined two-year data set (2002–03 to 2003–04) by early next year. These results will report the condition of the housing stock as a mid-point average over the two year period (ie as at 1 April 2003) as well as change over time (ie since 2001). For subsequent years, core results will be released annually based on overlapping data sets.

**Ms Walley:** To ask the Deputy Prime Minister when he expects to publish the results of the 2001 English Home Conditions Survey relating to rodent infestations in domestic properties; and if he will make a statement. [158100]

**Mr. Bradshaw:** I have been asked to reply.

Central Science Laboratory's analyses of the 2001 English House Condition Survey data are nearing completion and Defra are expected to have the report by the end of March.

The report will subsequently be placed in the public domain following further consideration by the Department.

### Small Business Funding

**Mrs. Roche:** To ask the Deputy Prime Minister what steps he is taking to ensure that *(a)* sufficient funding is available for small business start-ups in inner city areas and *(b)* sufficient information about that funding is relayed to local communities. [158083]

**Yvette Cooper:** To address the barriers to enterprise affecting the most disadvantaged communities in the country the Government has created 2000 Enterprise Areas, where businesses may benefit from one of several new or existing forms of Government assistance. These include help from the Phoenix Fund, which has been allocated £140 million to 2006 to provide finance for organisations providing funding for small businesses in disadvantaged communities, and encourages innovative ideas to promote and support enterprise in disadvantaged areas and in groups currently under-represented in terms of business ownership. Other measures designed to encourage enterprise include stamp duty exemptions, targeted support from the Inland Revenue and HM Customs, and neighbourhood renewal projects. Help is also available to community enterprises through the Adventure Capital Fund. Although it is not possible to put a monetary value on all these measures at this stage, they all provide real financial inducements for new businesses.

Regional Development Agencies, Local authorities, Business Link Operators and Local Strategic Partnerships play a significant role in boosting the awareness and uptake of relevant measures by local businesses and entrepreneurs.

### Waste

**Mr. Sheerman:** To ask the Deputy Prime Minister what proportion of local authority expenditure was spent on *(a)* waste disposal and *(b)* waste recycling in each of the last five years. [158962]

**Mr. Raynsford:** The proportion of local authority net current expenditure spent on waste disposal in the last five years is in the following table. Waste recycling costs are not reported separately.

| | Percentage |
|---|---|
| 1999–00 | 1.45 |
| 2000–01 | 1.44 |
| 2001–02 | 1.47 |
| 2002–03 | 1.45 |
| 2003–04[1] | 1.51 |

1999–2000 to 2002–03 R06 and RS forms and 2003–04 Budget Estimate Returns

**Mr. Sheerman:** To ask the Deputy Prime Minister how local authority funding for *(a)* waste disposal and *(b)* recycling is calculated. [158963]

**Mr. Raynsford:** Central Government funding for waste disposal and recycling is provided mainly through formula grant (Revenue support grant plus redistributed business rates) to local authorities.

Recycling is the responsibility of both the waste disposal and waste collection authorities. It is therefore part of the group of services included in both the county-level and the district-level Environmental, Protective and Cultural Services (EPCS) Formula Spending Share (FSS). The formula used for both the county-level and District-Level EPCS FSS can be found in Chapter 4 of the Local Government Finance Report (England).

Formula Spending Shares are neither grant nor are they the Government's assessment of how much an authority should spend on a particular service. They are simply the formulae used in the calculation of formula grant. Formula grant is unhypothecated i.e. it may be spent by the authority for any purpose. It is up to each authority to decide how much should be spent on each service given its local priorities.

## PRIME MINISTER

### Butler Inquiry

**Mr. Mackay:** To ask the Prime Minister what the estimated costs of the Butler Inquiry are. [159990]

**The Prime Minister:** The Butler Review is currently under way. I have asked it to report before the summer recess. The costs of the review will be published once it has concluded.

### Dalai Lama

**Norman Baker:** To ask the Prime Minister what account he took of Anglo-Chinese relations before deciding not to meetthe Dalai Lama on his planned visit to the UK. [159797]

**The Prime Minister:** None. I am unfortunately unable to meet the Dalai Lama due to existing diary commitments. However, my right hon. Friend the Foreign Secretary will be meeting the Dalai Lama during his visit.

### Departmental Communications

**Matthew Taylor:** To ask the Prime Minister (1) how many staff are employed in his Office to work in the communications fied, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158155]

(2) what the total expenditure on communications for the Office has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158190]

**The Prime Minister:** At 1 March, there were 11 staff working as Press Officers of which 10 are members of the Government Information and Communication Service. There are two special advisers who are Press Officers, one special adviser who works in the Strategic Communications Unit and nine civil servants who either work in the Strategic Communications Unit or provide administrative support.

Final cost figures for 2003–04 are not yet available.

### Gibraltar

**Mr. Hoyle:** To ask the Prime Minister whether a senior Cabinet Minister will visit Gibraltar during the tercentenary celebrations. [159320]

**The Prime Minister:** I refer the hon. Member to the answers the Minister of State at the Foreign and Commonwealth Office (Mr. MacShane) gave to the hon. Member for Poole (Mr. Syms) on 2 March 2004, *Official Report*, column 749.

Ministerial visits to Gibraltar in 2004 are currently under consideration and have not been finalised.

### Iraq

**Adam Price:** To ask the Prime Minister what representations he has received in relation to human rights violations alleged to have been committed by United Kingdom forces in Iraq. [158864]

**The Prime Minister:** The information is not held in the form requested. However, since 1 January 2003 I have received over 160,000 letters about Iraq including on human rights issues.

### Irish Historical Documents

**Mr. Paul Marsden:** To ask the Prime Minister which documents are held by his office written by *(a)* P. H. Pearse, *(b)* Thomas J Clarke, *(c)* Thomas Macdonagh, *(d)* Edward Daly, *(e)* William Pearse, *(f)* Michael O'Hanrahan, *(g)* Joseph Mary Plunkett, *(h)* John MacBride, *(i)* Sean Heuston, *(j)* Michael Mallin, *(k)* Eamonn Ceannt, *(l)* Con Colbert, *(m)* Thomas Kent, *(n)* Sean MacDiarmada, *(o)* James Connolly and *(p)* Sir Roger Casement. [156301]

**The Prime Minister:** As far as I am aware, none.

### Special Advisers

**Mr. Heald:** To ask the Prime Minister what the total cost of special advisers was in 1996–97. [160052]

**The Prime Minister:** I refer the hon. Member to the answer my right hon. Friend the Minister for the Cabinet Office gave to the hon. Member for Yeovil (Mr. Laws) on 31 January 2003, *Official Report*, column 1056W.

**Minister for Men**

**Mr. Amess:** To ask the Prime Minister what plans he has to introduce a post of Minister for Men. [159992]

**The Prime Minister:** I have no plans to do so.

# Written Answers to Questions

*Tuesday 9 March 2004*

## EDUCATION AND SKILLS

### "Building Schools for the Future"

**Mr. Doug Henderson:** To ask the Secretary of State for Education and Skills what brief the architects commissioned to produce designs for 21st century schools, as part of the Building Schools for the Future programme, were given with regard to sports and physical activity. [159864]

**Mr. Miliband:** The exemplar designs allowed for a variety of sites and school sizes for 4 to 11 primary schools, 11 to 18 secondary schools and 4 to 18 all-through school.

The design briefs for the exemplar designs included:

minimum indoor sports provision of a one-court sports hall and a small activity studio for primary pupils;

minimum indoor sports provision of a four-court sports hall, a main hall and an activity studio for secondary pupils;

minimum outdoor facilities (even in the most constrained sites) of a hard surfaced multi-use games area, as well as pitches for summer and winter games and an all weather pitch where the site demanded it.

Sports halls and multi-use games area were required to conform to the minimum dimensions and specifications required by Sports England for community use. All this provision and its ancillary accommodation was to be located appropriately to be available to the community outside the school day.

**Mr. Doug Henderson:** To ask the Secretary of State for Education and Skills what consultations have been made with the Department for Culture, Media and Sport regarding the Building Schools for the Future programme to ensure that schools have the capacity to increase sporting activity. [159865]

**Mr. Miliband:** There have been a number of positive discussions both at official and ministerial level, about how we can ensure synergy of our capital resources in order to maximise them and to deliver the national strategy to improve schools' PE and Sports facilities. Our aim is that following BSF investment all secondary schools will have sports facilities suitable for wider community use.

**Mr. Doug Henderson:** To ask the Secretary of State for Education and Skills what share of the £5.1 billion capital investment for Building Schools for the Future is allocated for sports and physical activity resources. [159868]

**Mr. Miliband:** This Government gives great priority to the physical and recreational needs of our children as well as their academic needs.

Central Government capital funding for school buildings in 2005–06 is over £5.1 billion, including over £2 billion allocated to the first wave of Building Schools for the Future (BSF). BSF aims to transform secondary schools so that they are fit for the teaching and learning needs of the 21st century, including for sports and physical activity. Decisions on investment will be made locally by the authorities which have been allocated funding as they develop their projects, in line with their priorities which will reflect local need and government policies. In time, all secondary schools in England will benefit from BSF.

The balance of capital funding, of about £3 billion in 2005–06, is mainly allocated to schools and authorities by formula, so that they can make investment decisions locally, in line with the priorities of their asset management plan.

**James Purnell:** To ask the Secretary of State for Education and Skills, which schools which have benefited from the Building Schools for the Future programme open up their sports facilities to the wider community out-of-hours. [159871]

**Mr. Miliband:** The Building Schools for the Future programme aims to transform secondary provision over a 10–15 year period starting in 2005–06, subject to future spending decisions. Therefore no schools have yet benefited from the programme. Local authorities to be included in the first wave of projects were announced on 12 February. Over the coming months they will be developing their plans in association with their schools and other local partners. Our aim is that following BSF investment all secondary schools will have sports facilities suitable for wider community use.

### Departmental Communications

**Matthew Taylor:** To ask the Secretary of State for Education and Skills what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158157]

**Mr. Charles Clarke:** The DFES estimates that Strategy and Communications Directorate will, in 2003–04, expend around £4.9 million of its administrative budget on communications staff. £2 million of that will be on Government Information and Communication Service (GICs) staff. Press officers will make up approximately £0.7 million of the GICS cost. There are no press officer costs outside of this.

Additionally, policy directorates plan to spend £3.5 million on their communications staff in 2003–04. It would be of disproportionate cost to identify any further GICs costs within this.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

**Matthew Taylor:** To ask the Secretary of State for Education and Skills how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158160]

**Mr. Charles Clarke:** The DFES Strategy and Communications Directorate (SCD) currently employ 159 staff on communication activities, 54 are members of the Government Information and Communication service (GICs), of whom 23 are press officers. There are no non-GICs press officers. In addition, policy directorates employ a further 121 'other' staff on communications activities.

There are two special advisers' to the Secretary of State. The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

### Departmental Relocation

**Ms Walley:** To ask the Secretary of State for Education and Skills how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146917]

**Mr. Charles Clarke:** There are 56 members of staff in my Department who work in the West Midlands. There are no members of my staff employed in North Staffordshire.

### Recruitment Advertising

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills what estimate he has made of how much *(a)* schools, *(b)* colleges and *(c)* universities spent on recruitment advertising in each year since 1997. [159846]

**Mr. Miliband:** My right hon. Friend has made no such estimates.

### School Exclusions (Cannabis)

**Mr. Brady:** To ask the Secretary of State for Education and Skills what recent estimate he has made of whether the number of *(a)* permanent and *(b)* fixed term pupil exclusions related to possession or use of cannabis has been affected by the reclassification of cannabis. [159995]

**Mr. Ivan Lewis:** My Department started to collect data on the reasons for exclusions, including drug-related incidents, from summer term 2003. The first term's data are not yet available.

### School Sports Facilities

**Mr. Doug Henderson:** To ask the Secretary of State for Education and Skills what his Department sets as *(a)* the ideal and *(b)* the minimum sports facilities for a secondary school. [159866]

**Mr. Miliband:** Advice on the requirements for accommodation in secondary schools, including sports provision, will be available on the web from 1 April 2004 in Building Bulletin 98: Briefing Framework for Secondary School Projects. This will supersede the current Area Guidelines for Schools and enhance the current area recommendations.

The guidance sets out minimum recommended provision and also allows sufficient overall area to allow for further facilities, both indoor and outdoor, appropriate to the priorities of individual schools. Hence:

*(a)* the ideal provision will depend on the priorities of the school and its extended role in providing facilities for the wider community. For instance, while all schools would be able to offer community use outside school hours, sports colleges and other schools could provide facilities more appropriate to the regional demands of specific sports.

*(b)* the minimum provision recommended for new secondary schools, in line with current guidance, is a minimum indoor sports provision of a four-court sports hall, to Sport England minimum specifications and other large spaces (including the main hall and activity studios) that would be used for Physical Education and should be appropriate and sufficient to ensure that examinations and assemblies need not take place in the sports hall. Minimum recommended outdoor facilities include pitches for summer and winter games and a hard surfaced multi-use games area, again to Sport England minimum specifications.

### School Year

**Mr. Tyrie:** To ask the Secretary of State for Education and Skills whether he was consulted prior to the Government's announcement of support for proposals to change the school year; what assessment he has made of the overall impact on the economy of these proposals; and what assessment he has made of the impact on specific sectors of the economy, with particular reference to *(a)* tourism and *(b)* transport. [159874]

**Mr. Miliband:** Proposals for a standard six-term school year have been developed by an independent commission on the school year which was established by the Local Government Association. The Commission included representation from the tourism industry. My right hon. Friend sees merit in the argument in favour of standardising the length of school terms. Decisions on school term dates and holidays however continue to be the responsibility of individual local education authorities or school governing bodies, depending on the category of school.

### Specialist Schools

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills how many *(a)* specialist schools and *(b)* non-specialist schools are designated under section 100 of the School Standards and Framework Act 1998; and how many and what percentage of pupils they have selected in each of the last six years. [155621]

**Mr. Miliband:** Schools' admission arrangements are determined locally without central consultation or approval. The DfES therefore cannot provide figures on

the number of schools which fall into this category (i.e. whose selective admission arrangements pre-dated the 1998 Act).

The evidence suggests that just under 6 per cent. of the 685 schools that had specialist status in September 2001 used aptitude as part of their admission arrangements. The following table shows the latest collated information relating to partial selection by specialist schools. Most of these schools were selecting by aptitude prior to the 1998 Act, with some selecting more than 10 per cent. of their pupils. The next time specialist schools will be asked to provide aptitude selection data will be this autumn.

The admissions framework for specialist schools is the same as for all other maintained schools. Applicants must be considered against the school's published admission arrangements, including, where applicable, selection.

*Specialist schools selecting by aptitude as at September 2001*

[1] Of the 685 specialist schools operational as at September 2001, the above 40 (that is, just under 6 per cent.) selected a percentage of their pupils on aptitude/ability in the chosen specialist subject.

*Notes:*

The percentages refer to aptitude selection relating to the schools' specialist school designations, some schools may also select for aptitude in other specialisms.

This information was taken from progress reports submitted by 685 specialist schools operational as at September 2001.

### Working Group on 14 to 19 Reform

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills what the *(a)* budget and *(b)* estimated cost to date is of the Working Group on 14 to 19 reform. [159638]

**Mr. Miliband:** The information requested is as follows:

*(a)* Budget: £724,000 in 2003–04, including £224,000 for running costs;

*(b)* Estimated cost to date: £518,000 as at 31 January, including £198,000 on running costs.

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills who has *(a)* been approached by and *(b)* responded to consultation by the Working Group on 14 to 19 Reform. [159639]

**Mr. Miliband:** Following the publication of its Progress Report in July 2003, the Working Group on 14–19 Reform consulted a wide variety of organisations and individuals, including schools, colleges, higher education

institutions, employers and their representative bodies. I understand that, following his appearance at a meeting of the Select Committee on Education and Skills on 3 March, Mike Tomlinson, Chair of the Working Group, will be sending the hon. Member and other Members of the Select Committee details of the 350 organisations and individuals who commented on the Progress Report. I will ensure that this information is also placed in the Library of the House of Commons.

The Working Group is currently inviting comments on the recommendations in its Interim Report, which was published on 17 February. It will therefore be in dialogue with key stakeholders to ensure that the concerns of employers; higher education; young people and their parents are carefully considered. It is also holding a series of regional events to make sure those in the front line of education and training delivery have opportunities to comment. The aim is to ensure direct engagement of all these parties in the development of the recommendations of the final report of the Working Group, due in the autumn.

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills what estimate has been made of the cost of implementing the proposals of the Working Group on 14 to 19 Reform. [159640]

**Mr. Miliband:** The Government welcomes the recent publication of the Interim Report of the Working Group on 14–19 Reform. The Working Group will be submitting its final report in the autumn. That final report will include recommendations for the timetable and the way in which proposals should be implemented; the costs and other resource and practical implications of reform; and the further policy and implementation work needed. The Government will decide on the way forward for the 14–19 phase of learning in the light of the recommendations in the final report, including the cost implications.

## CULTURE, MEDIA AND SPORT

### Foster Inquiry

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what the planned date is for the completion of the Foster inquiry into the funding of British athletics; when its report will be published; how soon after the publication of the report the remainder of the legacy money will be allocated to athletics in the UK; and if she will make a statement. [156891]

**Mr. Caborn:** The Foster inquiry is due to be completed around the middle of April, with the report to be published shortly afterwards. Legacy funds will be released as soon as is practicable based upon the report's recommendations.

### Reading and Libraries

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what initiatives the Government have introduced to promote *(a)* reading and *(b)* library usage (i) in England and (ii) at a local level; at what cost; what promotional techniques and media were used; and if she will make a statement. [158966]

**Estelle Morris:** In February 2003, DCMS published Framework for the Future, the first-ever national public libraries strategy. "Framework" reflects a 10 year vision to improve public libraries, affirming that reading and learning are at the heart of libraries' modern mission. "Framework" identified many good practice examples in libraries and proposed a strategy to build on this excellence to improve services delivered by all libraries in England. DCMS and Museums, Libraries and Archives Council (MLA) are taking the strategy forward through a three-year action plan, which is on the MLA website: www.mla.gov.uk.

Considerable work has been done in this area. Examples of some of the specific schemes to promote reading include: Bookstart, which DCMS has funded with £500,000, over the last two financial years, which provides reading books and a libraries card for babies; a Quality Index fiction tool, that is being developed in conjunction with the Audit Commission and Arts Council England to help authorities identify the quality of their stock and a joint DCMS/Wolfson Foundation Fund to which DCMS has contributed £4 million, over two years, for reader development projects. Arts Council England also support a number of reader development programmes through public libraries.

Very nearly all of England's over 3,000 libraries have been connected to the internet through the £100 million lottery funded People's Network programme. The early indications are that the People's Network has increased the number and types of people that use our public libraries.

### School Sports Grounds

**Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport how many school sports grounds have been sold in each London borough since 1997. [159169]

**Mr. Miliband:** I have been asked to reply.

There are no figures available until October 1998 when we introduced new legislation to stop the indiscriminate sell off of school playing fields. Before October 1998, there was nothing to prevent a local authority selling a school playing field if it wanted to. Local authorities and schools now must obtain the written consent of the Secretary of State before disposing, or changing the use, of school playing fields. Applications to sell school playing fields are approved only where it is clear that any proceeds will be used to improve school sports provision or education facilities.

The following table shows the number of approved applications from London boroughs to sell areas of school playing field capable of forming at least a small sports pitch.

| *London boroughs* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|
| Barking and Dagenham | — | — | — | — | — | — |
| Barnet | — | — | 1 | — | — | — |
| Bexley | — | — | — | — | — | — |
| Brent | — | — | — | — | — | — |
| Bromley | — | — | — | — | — | — |
| Camden | — | — | 1 | — | 1 | — |
| City of London | — | — | — | — | — | — |
| Croydon | — | 1 | — | — | — | — |
| Ealing | — | — | 1 | — | — | — |
| Enfield | — | 1 | — | — | — | — |

| London boroughs | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 |
|---|---|---|---|---|---|---|
| Greenwich | — | — | — | — | — | — |
| Hackney | — | — | — | — | — | — |
| Hammersmith and Fulham | — | 1 | — | — | 1 | — |
| Haringey | — | — | — | — | — | — |
| Harrow | — | — | — | — | — | — |
| Havering | — | — | 1 | — | — | — |
| Hillingdon | — | — | — | — | — | — |
| Hounslow | — | — | — | — | — | — |
| Islington | — | — | — | — | — | — |
| Kensington and Chelsea | — | — | — | — | — | — |
| Kingston upon Thames | — | — | — | — | — | — |
| Lambeth | — | — | — | — | — | — |
| Lewisham | — | — | — | — | — | — |
| Merton | — | — | — | — | — | — |
| Newham | — | — | — | — | — | — |
| Redbridge | — | — | — | — | — | — |
| Richmond upon Thames | — | — | — | — | — | — |
| Southwark | — | — | — | — | — | — |
| Sutton | — | — | — | — | — | — |
| Tower Hamlets | — | — | — | — | — | — |
| Waltham Forest | — | — | — | — | — | — |
| Wandsworth | — | — | — | — | — | — |
| Westminster | — | — | — | — | — | — |

*Notes:*
1. A 'school sports pitch' is an area of playing field that has the shape and topography to form at least a sports pitch of 2,000m$^2$.
2. The table includes playing fields that have been used as school sports pitches within the 10 years before the application was made.
3. There were no figures collected before October 1998.
4. The table reflects applications made by each authority. The playing field that was the subject of the application need not be in the same borough as that making the application.

### Television Licences

**Mr. Heald:** To ask the Secretary of State for Culture, Media and Sport how many television licences have been bought online in each year since the service became available. [158043]

**Estelle Morris:** Facilities for paying the television licence fee online have been available since December 1999. The BBC has provided the following information on the number of television licences paid for online in each calendar year since then:

| | *Number of licences paid for online* |
|---|---|
| 1999 (December only) | 59 |
| 2000 | 4,628 |
| 2001 | 59,137 |
| 2002 | 127,201 |
| 2003 | 178,642 |

### Workplace Exercise

**Mr. Reed:** To ask the Secretary of State for Culture, Media and Sport (1) what action her Department is taking to encourage employers to give their workers the opportunity to take exercise *(a)* at or close to the workplace and *(b)* in or around the work-day; [159948]

(2) what her Department's policy is on encouraging employers to allow employees longer lunch breaks to spend time engaged in active recreational activities. [159953]

**Mr. Caborn:** The Department for Culture, Media and Sport has an active Sports and Social Club that encourages staff to take part in a range of sporting, fitness and leisure activities: *(a)* cricket and softball teams practice and compete at various locations at or close to the workplace and staff can exercise at the on-site fitness facility; *(b)* a flexible working policy operates that allows staff the flexibility to take exercise at times to suit them, either during an extended lunch-break or at the start or end of the working day.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Common Agricultural Policy

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the benefit to small farms in Lancashire of the revised Common Agricultural Policy. [153888]

**Alun Michael:** The link between the subsidy paid to farmers and the level of production has been broken. This is known as "decoupling". This means that activities of farmers in the UK will no longer be dictated by subsidy regimes and frees them to farm for what the market wants.

By removing incentives for intensification and over-production, and by linking compliance to a range of environmental standards, decoupling will help to reduce damaging environmental impacts.

My right hon. Friend, the Secretary of State, outlined in her statement to the House, on 12 February, that in England we have now set out a fair basis for calculating the single payment that will be sustainable in the longer term.

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs how much money from the Common Agricultural Policy has gone into the North-West Region in each of the last five years. [156504]

**Alun Michael:** The figures in the following table represent the amount of money that has gone into the North-West Region from the Common Agricultural Policy in each of the last five years.

These are based on the European Agriculture Guidance and Guarantee Fund (EAGGF) year which runs from 16 October to 15 October.

| *EAGGF year* | *Amount* |
|---|---|
| 1999[1] | 114,947,199.98 |
| 2000 | 190,337,294.44 |
| 2001 | 221,572,202.49 |
| 2002 | 178,075,721.05 |
| 2003 | 214,156,549.44 |
| Total | 919,088,967.40 |

[1] Figures available from August 1999 only, due to implementation of current data management system. Data prior to that time could be accessed only at disproportionate cost in time and resources.

### Branding

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will assess the benefits for English farmers of an English brand to compete with the Welsh and Scottish brands for beef and lamb. [157705]

**Alun Michael:** The branding of lamb and beef is a matter for the industry under the auspices of the English Beef and Lamb Executive (EBLEX). Defra strongly support the steps being taken by EBLEX to launch a marketing strategy for English beef and lamb.

### Departmental Buildings

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list London buildings leased by her Department; what the total cost of such leases was in the latest year for which information is available; how many staff work in each building; and what the nature of their employment is. [156599]

**Alun Michael:** The Department leases the following London buildings for use by its civil servants and Ministers, where we are the sole occupier:

| | *Staff* |
|---|---|
| 10 Whitehall Place, SW1 | 326 |
| Nobel House, 17 Smith Square, SW1 | 550 |
| Ergon House, 17 Smith Square, SW1 | 568 |
| 1A Page St, SW1 | 682 |
| Eastbury House, 30–34 Albert Embankment, SE1 | 105 |
| Cromwell House, Dean Stanley Street, SW1 | 183 |
| 55 Whitehall, SW1[1] | [1]Currently vacant |
| 3–8 Whitehall Place, SW1[2] | [2]Currently being redeveloped |

[1] Although currently vacant, 55 Whitehall is being prepared for occupation by all of Defra's family of organisations moving from another central London location. It should be ready by September 2004.

The total cost of the leases for these buildings for 2002–03 was £12,174,290.

The Department also has agreements with other Government Departments to occupy space in their buildings:

| | *Staff* |
|---|---|
| Ashdown House | 646 |
| 9 Millbank | 255 |
| Woburn Place | 132 |

*Note:*
Staff numbers quoted include part time staff, agency temps and consultants.

### Farmers' Markets

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what help her Department gives to the setting-up of farmers' markets in England. [156110]

**Alun Michael:** Defra makes provision under the England Rural Development Programme for grants for projects promoting farmers' markets. Within the last year we awarded £100,256 to the National Association of Farmers' Markets (NAFM—now known as the National Farmers' Retail and Markets Association) to raise the profile of farmers' markets across England and to increase public awareness of them. NAFM also received funding from Defra under the Agriculture Development Scheme for the publication of information booklets and to help producers develop their knowledge of sales and marketing; and to help NAFM develop its certification programme for accrediting farmers' markets. The Countryside Agency, which we grant aid, also provided start-up funding to NAFM. In addition, in November 2002, my noble Friend, the Lord Whitty wrote to all Local Authorities outlining the benefits farmers' markets bring and the role they play in bringing urban and rural communities together. They offer an excellent outlet for farmers to sell their produce direct to consumers and the Department is keen to encourage their development.

### Grazing Land

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs how much land in *(a)* the United Kingdom and *(b)* Europe is used for (i) grazing and (ii) growing food for animals; and what the figures were 10 years ago. [156835]

**Alun Michael:** The information is as follows:

*(a) UK*

*(i) Area of land (hectares) used for grazing in the United Kingdom*

| | *1993* | *2003* |
|---|---|---|
| Permanent grass | 5,274,280 | 5,683,469 |
| Temporary grass | 1,582,160 | 1,200,550 |
| Sole rights rough grazing | 4,878,598 | 4,329,287 |
| Common rough grazing | 1,228,901 | 1,236,392 |

(ii) As some crops are grown for human as well as animal consultation, it is not possible to provide a complete total of the crops grown for animals but the June agricultural census indicates that the totals of crops grown specifically for stock feeding are:

| | *Total fodder crops*[1] |
|---|---|
| 1993 | 388,081 |
| 2003 | 414,877 |

[1] Includes Turnips and Swedes, Fodder, beet and mangolds, Kale, Cabbage, savoy, kohlrabi and rape, all others for stock feeding.
*Source:*
June Agricultural Census

*(b) Europe*

Comparable figures are published from the EU Farm Structure Survey (Farm Structure Survey 1999/2000 ISBN 92–894—5618—3). The latest estimates for the Survey in 1999–2000 indicate that the area of permanent grassland and meadow was 45 m hectares for the EU 15 and 9 m hectares for the UK.

Separate figures are not available for stock feeding crops.

Fuller information on the surveys and results can be obtained from the Eurostat website.

### Rights of Way

**Mr. Goodman:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ban electric shopping scooters from rights of way; and if she will make a statement. [159258]

**Alun Michael:** We have no plans to ban electric shopping scooters. Section 34 of the Road Traffic Act 1988 provides that anyone driving a mechanically

propelled vehicle off-road or on a road that is a footpath, bridleway or restricted byway without lawful authority is guilty of an offence. However, where an invalid carriage is being used in accordance with the Use of Invalid Carriages on Highways Regulations 1988, section 20(1)(b) of the Chronically Sick and Disabled Person Act 1970 provides an exemption for such vehicles. It specifically excludes the section 34 offences from applying to invalid carriages.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158247]

**Alun Michael:** There are no central records of the number of staff employed on a temporary basis through employment agencies. Departmental accounts show payments to employment agencies for the supply of temporary staff and consultants as follows: 2001–02—£27.03 million; 2002–03—£19.6 million; 2003/end of February 2004—£14.7 million.

## INTERNATIONAL DEVELOPMENT

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for International Development, what assistance the Government are giving to the Afghan Government in reforming the civil service in Afghanistan. [159890]

**Mr. Gareth Thomas:** DFID has provided technical assistance to the Independent Administrative Reform and Civil Service Commission, Office of the President, Ministry of Finance, Ministry of Rural Reconstruction and Development and the Ministry of Health. We also provided support last year for ministerial expenses.

We have also committed funds to the Second Emergency Public Administration Programme, which is to be managed and co-funded by the World Bank. This programme will provide further support to the Independent Administrative Reform and Civil Service Commission; it will also provide technical assistance to a number of key Ministries for the preparation and implementation of the Priority Reform and Restructuring process. We also plan to support the establishment of an effective Cabinet Secretariat.

All of these initiatives aim to help the Afghan Government work towards a merit-based, effective, well-structured civil service that can deliver the services the Afghan people need.

### Burma

**Mr. Bercow:** To ask the Secretary of State for International Development how much money his Department has provided in *(a)* 2002–03 and *(b)* 2003–04 to tackle HIV/AIDS in Burma. [157475]

**Mr. Gareth Thomas:** DFID's funding to tackle HIV/AIDS in Burma totalled £2.86 million in 2002–03 and is expected to total £2.84 million in 2003–04. The money is given to a UN Administered fund supported by DFID and three other donors for work on HIV/AIDS in Burma. Operational management is by a Technical Working Group chaired by UNAIDS. The Fund supports the work of international and national non-government organisations, UN agencies, and the Government's National Aids Programme.

Our work to tackle HIV/AIDS is essential to preventing the humanitarian situation in Burma worsening considerably and it is in line with the EU Common Position.

### EU Development Policy

**Helen Jackson:** To ask the Secretary of State for International Development what response the Government has made to the document "Human Security: Placing Development at the Heart of the EU's External Relations" produced by the Irish EU Presidency Project. [158951]

**Mr. Gareth Thomas:** The Government have not made any formal response to the "Placing Development at the Heart of the European Union's External Relations" document, produced by the Irish Association of Non-Governmental Development Organisations. However we welcome many of the ideas in the report, such as the focus on multilateralism and on HIV/AIDS.

**Helen Jackson:** To ask the Secretary of State for International Development what consultations the Government has had with the Irish Government about their proposals for international development in the recent Irish EU Presidency project document "Human Security: Placing Development at the Heart of the EU's External Relations". [158952]

**Mr. Gareth Thomas:** The Government have not had any specific consultations with the Irish Presidency about the "Placing Development at the Heart of the European Union's External Relations" produced by the Irish Association of Non-Governmental Development Organisations. We welcome many of the ideas in the report, such as the focus on multilateralism and on HIV/AIDS.

### Haiti

**Ms Abbott:** To ask the Secretary of State for International Development how much money has been provided to Haiti in the last two years as part of multilateral programmes including those funded by *(a)* the European Union and *(b)* the World Bank. [159144]

**Mr. Gareth Thomas:** The data on how much British money has been provided to Haiti in the last two years as part of multilateral programmes is not available.

The last available data is for 2001, where the UK's imputed multilateral share was £4.0 million, of which £1.8 million was through the European Union, and £0.1 million was through the World Bank.

**Ms Abbott:** To ask the Secretary of State for International Development whether his Department plans to reassess its policy on the provision of bilateral aid to Haiti. [159160]

**Mr. Gareth Thomas:** DFID has no immediate plans to reassess its present policy on bilateral development assistance to Haiti. DFID will continue to provide direct funds to Haiti through the Small Grants Scheme and the Civil Society Challenge Fund. It will also continue to provide support to Haiti through contributions to international agencies working there.

Given the current crisis, DFID has sent a two person team to Haiti to assess the humanitarian situation and discuss needs with humanitarian agencies, including the United Nations agencies that will shortly be launching a consolidated Flash Appeal.

**Ms Abbott:** To ask the Secretary of State for International Development how much direct British Government aid has gone to *(a)* non-government organisations and *(b)* other civil society groups working in Haiti in the past three years; what other sums have been provided to Haiti; and to whom. [159161]

**Mr. Gareth Thomas:** In Financial Years 2000–01, 2001–02 and 2002–03, DFID has provided a total of £409,375 in direct British aid to Haiti. This amount includes all disbursements to non-government organisations and civil society groups through the Small Grants Scheme and the Civil Society Challenge Fund. The organisations which have made use of these funds are:

Fraternité Notre Dame
Plan International
Concern
Save the Children
Catholic Relief Services
Action Aid
Oxfam
CARE
Adventist Development and Relief Agency (ADRA)
Médecins du Monde

### Nepal

**Mr. Rendel:** To ask the Secretary of State for International Development what advice his Department gives to British aid workers in Nepal on the Government's policy towards *(a)* the Government of Nepal and *(b)* Maoist rebels against the Government of Nepal. [160175]

**Mr. Gareth Thomas:** DFID seeks to ensure that our assistance does not undermine the Nepal Government's capacity and, where possible, helps to develop it. DFID's new Country Assistance Plan to Nepal will be launched in country in April. It provides support to the Nepal Government with economic and social reform, particularly to improve delivery of basic services to poor people and to address discrimination on grounds of gender and caste. The programme also seeks to deliver development benefits to poor people in rural areas through a variety of channels.

Many DFID funded programmes work directly or indirectly with the Nepal Government. It is important that they are run in the field with operational neutrality including the areas that have a strong Maoist presence. Programmes seek to ensure that developmental benefits reach the poor, and to ensure that our assistance is not used for any military, political or sectarian purposes. Our programmes are run transparently and are open to inspection by all.

DFID has had a leading role in creating a multi-donor set of Basic Operating Guidelines, which reflect this advice.

**Mr. Rendel:** To ask the Secretary of State for International Development what discussions he has had with the Secretary of State for Foreign and Commonwealth Affairs on the safety of British aid workers in Nepal. [160176]

**Hilary Benn:** Both the Foreign Secretary and I attach high priority to the safety of British aid workers in Nepal and this issue has been the subject of regular discussions and correspondence on the government's policy towards the conflict.

**Mr. Rendel:** To ask the Secretary of State for International Development what steps he has taken to ensure the safety of British aid workers in Nepal. [160177]

**Mr. Gareth Thomas:** DFID gives the issue of staff safety in Nepal the highest priority. In 2002 we established a Risk Management Office (RMO) to provide risk assessment and crisis management expertise, as well as to provide training, support and advice to all staff associated with our programmes and projects. Since then the RMO has delivered training to over 300 field staff to help them to continue to work in remote and conflict affected parts of the country. The RMO undertakes risk assessments on a regular basis, the results of which are fed back to field managers. Field staff have also received assurances that DFID will support their decisions at any time to withdraw from an area because of concerns about their personal safety.

### North Korea

**Mr. Martyn Jones:** To ask the Secretary of State for International Development what assessment he has made of the levels of food shortages in the Democratic People's Republic of Korea. [159225]

**Mr. Gareth Thomas:** The Food and Agriculture Organisation estimates that the North Korean food output falls short of need by 944,000 tonnes, but due to the environment of secrecy and restrictions on agencies operating there, it is difficult to be certain of figures regarding the situation in North Korea. It is the case that around a quarter of the population of 22 million require food aid to meet the recommended daily calorie intake. This leaves many recipients, particularly children, the elderly and the sick, vulnerable to breaks in the supply of assistance.

The World Food Programme has recently re-started cereal distributions following a stall in February brought about by a lack of contributions. It estimates however, that 1.5 million vulnerable people are still likely to go without assistance until the end of March when further contributions are expected. Beyond March, 600,000 core beneficiaries may still not receive cereal rations at least until June.

It is important to tackle the problem of malnutrition through a balanced approach to its causes. Both my Department and the European Commission Humanitarian Office, are concerned that food aid currently accounts for

90 per cent. to 95 per cent. of requested assistance, while poor water and sanitation increases the prevalence of water-born diseases and diarrhoea, which in turn worsens malnutrition. A significant proportion of the population of 22 million have poor quality water and sanitation and only 52 per cent. have access to safe drinking water. DFID has recently agreed to provide £1.023 million in support of the United Nations Children's Fund for its work in water, sanitation and primary health care (e.g. vaccinations and other essential medical supplies) in North Korea.

The European Commission is funding targeted food aid through the World Food Programme and other organisations. In January it agreed to give €5 million. The United Kingdom's share of European Community assistance is approximately £680,000.

### Somalia

**Mr. Martyn Jones:** To ask the Secretary of State for International Development what assessment he has made of the levels of food shortages in Somalia. [159227]

**Mr. Gareth Thomas:** According to a recent report from the Food and Agricultural Organisation (FAO), cereals availability across Somalia from the most recent harvest is higher than average, totalling 287,000 tonnes; total food aid requirements are lower than average at 70,000 tonnes (of which 18,000 tonnes have been pledged).

The Somalia Food Security Assessment Unit is highlighting serious drought-related food insecurity in the north (in the Sool Plateau, Lower Nugaal, and Togdheer), and in central Somali regions. Most of southern Somalia is free from major food shortages, although some groups remain vulnerable, as indicated by high rates of malnutrition.

In response to nutritional difficulties in Somalia, the UK is providing £480,000 to International Medical Corps for health and nutritional services, and has also given £300,000 to UNICEF for a nutrition project.

### Sudan

**Mr. Martyn Jones:** To ask the Secretary of State for International Development what assessment he has made of the requirement for aid supplies for the Darfur region of Sudan. [159226]

**Mr. Gareth Thomas:** Access for humanitarian workers is now beginning to open up in Darfur. Some assessments of needs are now possible, in limited areas. We know from initial reports that immediate needs include shelter, water, health and food assistance.

We have contributed over £6 million to the crisis in Darfur, through United Nations (UN) agencies and international non-governmental organisations. We have also provided four humanitarian affairs officers to assist the UN response for three months. Three of these will be based in Darfur and will, among other things, undertake assessments of humanitarian needs.

We are urging all the parties involved to re-establish a ceasefire, preferably with international monitoring, permit humanitarian access to all those in need, and resume talks to find a peaceful solution to Darfur's problems.

**Mr. Martyn Jones:** To ask the Secretary of State for International Development what assessment he has made of the influx of Sudanese refugees into Chad. [159228]

**Mr. Gareth Thomas:** A DFID Humanitarian Adviser visited Chad between 7 and 12 February. He visited refugees at the border with Sudan, who have fled from the fighting in Darfur in Western Sudan. The present location of refugees along the border is unsafe. New camps are being set up away from the border, where refugees will be safe from attack. Our Adviser visited one of these new relocation camps at Forchana. Other relocation camps are at Touloum and Kounoungu. Eight thousand refugees have been moved to the new camps to date.

The general condition of the approximately 110,000 refugees is poor. Around Tine, Medecins Sans Frontieres established that 27 per cent. of children were malnourished, whereas around Adre only quite low levels of malnutrition were detected. Lack of food, shelter, safe drinking water and sanitation facilities are the main risks.

There is an effective humanitarian response in place led by United Nations High Commission for Refugees (UNHCR), with significant contributions from non-governmental emergency relief organisations. The UK is one of the major contributors to this effort with an early £1 million contribution to UNHCR in October last year.

## CABINET OFFICE

### Civil Service

26. **Kevin Brennan:** To ask the Minister for the Cabinet Office if he will make a statement on the relocation of civil service posts to the regions and nations of the UK. [159456]

**Mr. Alexander:** Sir Michael Lyons is currently leading an independent review of the scope to relocate civil servants and other public sector workers. Sir Michael will make recommendations to the Deputy Prime Minister and the Chancellor of the Exchequer. I understand that this will be shortly.

### Alcohol Harm Reduction Strategy

**Mrs. Curtis-Thomas:** To ask the Minister for the Cabinet Office when the Strategy Unit expects to publish its alcohol harm reduction strategy. [159808]

**Mr. Alexander:** I refer my hon. Friend to the answer I gave my hon. Friend the Member for North-West Leicestershire (David Taylor) on 3 February 2004, *Official Report*, column 619.

### Better Regulation Task Force

**Mr. Heald:** To ask the Minister for the Cabinet Office what assessment he has made of the progress made by the Better Regulation Task Force; and if he will make a statement. [159575]

**Mr. Alexander:** The Better Regulation Task Force provides an important contribution to the Government's work on better regulation.

Since its creation in 1997 it has produced 30 substantive reports with around 400 recommendations. The Government have accepted all but 10 of its recommendations.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the cost was of *(a)* the establishment and *(b)* the maintenance since its establishment of the Better Regulation Task Force. [159573]

**Mr. Alexander:** The Better Regulation Task Force was established in 1997. Before July 1999, the cost of the Task Force was met from within the budget of the Regulatory Impact Unit in the Cabinet Office. It is not possible to identify specific costs for the Task Force within this overall budget.

Since July 1999, the Task Force has been supported by a dedicated support team. The costs of this, and the expenses of Task Force members, now amount to around £0.5 million per annum.

**Mr. Heald:** To ask the Minister for the Cabinet Office what recent representations he has received on the Better Regulation Task Force; and if he will make a statement. [159580]

**Mr. Alexander:** The Better Regulation Task Force makes an important contribution to the Government's work on better regulation. I have discussed the work of the Task Force at a number of recent meetings including the seminar for MPs on better regulation held in January and the conference for independent regulators hosted by the NAO in October 2003.

### Civil Service Recruitment

**Mr. Heald:** To ask the Minister for the Cabinet Office what recent representations he has received regarding Civil Service recruitment; and if he will make a statement. [160036]

**Mr. Alexander:** Under the Civil Service Order in Council 1995, individual government departments and agencies have delegated authority for the recruitment of staff to the Home Civil Service.

The Cabinet Office has responsibility for the central framework of conditions, as set out in the Civil Service Management Code. As such, the Cabinet Office continues to receive representations from stakeholders and interested parties regarding recruitment to the Civil Service.

### Computer Purchasing (Working Practices)

**Helen Jones:** To ask the Minister for the Cabinet Office what steps the Cabinet Office is taking to ensure that Government Departments purchase computers from firms which ensure that their sub-contractors in developing countries respect workers' rights and provide decent working conditions; and if he will make a statement. [157355]

**Mr. Boateng:** I have been asked to reply.

Each Government Department is responsible for its own procurement decisions, within the framework of the Government's procurement policy, based on value for money, and the EU procurement rules. The information required from, or obligations placed on, suppliers should be relevant to the subject matter and performance of the particular contract and consistent with the requirements of the EU procurement directives, where applicable, and the EU Treaty. This applies to social, employment and ethical issues whether it is in relation to the supplier itself or to any potential sub-contractors.

### Crown Employment (Nationality Restrictions)

**Mr. Heald:** To ask the Minister for the Cabinet Office what plans he has to review the nationality restrictions on Crown employment; and if he will make a statement. [160021]

**Mr. Alexander:** The Government supports Andrew Dismore's Crown Employment (Nationality) Bill which is currently listed for Second Reading on 14 May.

### Government Information and Communication Service

**Mr. Heald:** To ask the Minister for the Cabinet Office what plans he has to change the level of expenditure on the Government Information and Communication Service. [159334]

**Mr. Alexander:** Members of the GICS work across government.

Individual departments are responsible for their own expenditure on Communications.

Within the Cabinet Office, funding for existing GICS central functions will be maintained at current levels, pending the transfer of responsibilities to the new Permanent Secretary of Government Communications, whose appointment was recommended by the independent Phillis Review of Government Communications.

### Regulatory Impact Assessments/Unit

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office what resources have been allocated for the Regulatory Impact Assessment process for each year between 1998 and 2006. [160134]

**Mr. Alexander:** Information on the total resources allocated to the Regulatory Impact Assessment (RIA) process across Government are not held centrally. Each department is responsible for producing robust RIAs to assess the impact of proposals that are likely to have an effect on business, charities and the voluntary sector which consider all available options including non-regulatory alternatives.

**Mr. Heald:** To ask the Minister for the Cabinet Office now many people are employed in the Regulatory Impact Unit. [160035]

**Mr. Alexander:** As at the 1 March 2004, 63 staff were working in the Regulatory Impact Unit.

**Mr. Heald:** To ask the Minister for the Cabinet Office what assessment he has made of the impact of the Regulatory Impact Unit; and if he will make a statement. [160038]

**Mr. Alexander:** The Regulatory Impact Unit works with other Government Departments, agencies and regulators to promote the better regulation agenda. The work of the Unit covers the private and public sectors, domestic and European issues.

In its assessments of the UK's performance in the area of regulatory reform the OECD has said that the UK is "at the forefront of regulatory reform" and "has almost the lowest administration cost and fewer regulations for entrepreneurs than any other EU country".

### Websites

**Mr. Heald:** To ask the Minister for the Cabinet Office by what means his Department judges the cost-effectiveness of Government websites as an information tool. [159522]

**Mr. Alexander:** The provision and ongoing delivery of Government websites, is the responsibility of individual Government Departments and authorities.

The Cabinet Office has published the Guidelines for UK Government websites, containing a substantial range of best practice on the building of websites, their management, their content, effective procurement and the evaluation of their reliability in delivering information to the citizen.

## DEFENCE

### Advertising

**Mr. Llwyd:** To ask the Secretary of State for Defence what amount has been spent on Ministry of Defence advertising in the *(a)* UK, *(b)* Wales and *(c)* England since the beginning of hostilities in Iraq. [158890]

**Mr. Ingram:** This information is not held centrally in the form requested and could be provided only at disproportionate cost.

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Defence (1) if he will list the plans *(a)* agreed to by his Department and *(b)* being discussed by his Department with regard to the use of British armed forces and personnel during expansion of NATO operations in Afghanistan; [158834]

(2) what assessment he has made of the impact of the expansion of NATO operations in Afghanistan on the number of *(a)* international forces and *(b)* British armed forces based in Kabul. [158835]

**Mr. Ingram** *[holding answer 8 March 2004]*: The expansion of the International Security Assistance Force (ISAF) will be carried out under a comprehensive NATO operational plan currently being prepared by the Alliance. This will assess troop requirements both in Kabul and elsewhere in Afghanistan. Decisions on the United Kingdom's military contribution to the international forces there will depend on the requirements of the operational plan and upon our determination to build on the success of the ISAF by offering to lead its expansion in Northern Afghanistan.

### Aircraft Costs

**Mr. Hoyle:** To ask the Secretary of State for Defence what the cost is of each *(a)* Typhoon, *(b)* joint strike fighter, *(c)* A200M and *(d)* advanced jet trainer. [156132]

**Mr. Ingram:** Unit production costs (UPC) for major equipment programmes, such as Typhoon, where these are practical to construct, can be found within the information given in the Ministry of Defence Major Projects Report (MPR). Those figures are estimated in accordance to methodology agreed with the National Audit Office (NAO). The NAO published their report on MPR 2003 on 23 January 2004 and copies are available in the Library of the House.

The cost per unit of Typhoon as stated in MPR 2003 is £56.8 million.

The unit production cost for the Joint Strike Fighter will not be agreed until after the completion of the current negotiations on the Production and Sustainment Phase Memorandum of Understanding. However, the estimated UPC of the Joint Strike Fighter aircraft is around $50 million on current planning assumptions.

At part *(c)* of his question I assume that my hon. Friend is referring to A400M. The current forecast cost of the UK programme is £2356 million. I am withholding the unit price information in accordance with Exemption 13 of the Code of Practice access to Government Information, which relates to third party commercial confidences.

The cost of each Advanced Jet Trainer will not be known until contractual negotiations with BAE Systems have been concluded. It should be noted that unit production costs are on a resource account basis and exclude development costs.

### Birth Defects (Iraq)

**Mr. Tyler:** To ask the Secretary of State for Defence whether he has examined evidence of birth defects among babies born to service families whose members were deployed in Iraq in 2003 and who were inoculated for anthrax, with particular reference to those serving in the 33 Field Hospital; and if he will make a statement. [159420]

**Mr. Caplin** *[holding answer 8 March 2004]*: The Health Protection Agency, which is a Special Health Authority accountable to the Secretary of State for Health, has confirmed that the anthrax vaccine has been used for many years and there has never been any indication that it could lead to congenital problems.

### Civilian Jobs (Scotland)

**Angus Robertson:** To ask the Secretary of State for Defence how many of his Department's civilian jobs are in Scotland, broken down by location. [159305]

**Mr. Caplin:** Information about the number of jobs is not available, only staff numbers. There were 6,510 civilian staff employed in Scotland as at 1 January 2004 (rounded to the nearest 10). This figure is for full-time equivalent, permanent, industrial and non-industrial staff, excluding Trading Funds, Royal Fleet Auxiliaries

and those on career breaks, long term sick leave, secondments etc. Reliable data are not available below Government Office Region level.

### Defence Contractors

**Mr. Steinberg:** To ask the Secretary of State for Defence with reference to the evidence of the Permanent Secretary to the Committee of Public Accounts on 21 January, which foreign contractor, after winning a defence contract, refused to supply the goods; for what reasons; and whether others have done so in the last two years. [159085]

**Mr. Ingram** *[holding answer 5 March 2004]*: In respect of the evidence given by the Permanent Secretary to the Committee of Public Accounts on 21 January, I presume my hon. Friend refers to the contract for the supply of ammunition for Underslung Grenade Launchers. In this case, there was no known instance of the contractor (RUAG) refusing to meet the contract, though deliveries of ammunition were suspended by the Swiss Government during the major hostilities in Iraq.

As regards identifying any other foreign contractors who have refused to meet defence contracts in the last two years, the information requested is not held centrally and could be provided only at disproportionate cost.

### WWI Executed Soldiers

**Bob Spink:** To ask the Secretary of State for Defence (1) what representations and discussions he has had on the Irish Government's recent support for a pardon for those soldiers wrongly executed during the First World War as part of the 90th anniversary of the outbreak of the war; [157168]

(2) if he will make it his policy to consult the Irish Government prior to the anniversary of the start of the First World War on the possible pardon of soldiers who were wrongly executed during the First World War; [157169]

(3) what plans he has to grant pardons to the soldiers in the British Army who were executed in the First World War to mark the 90th anniversary of the outbreak of the war. [157442]

**Mr. Caplin:** This matter was fully examined during the detailed review led by my right hon. Friend the Member for Hamilton, North and Bellshill (Dr. John Reid), which was completed in 1998, and reported to the House, 24 July 1998, *Official Report*, columns 1372–86. As a result, those who were executed have been recognised as victims of the War.

An initial meeting at official level has been held at the request of the Irish Government on the subject of a possible pardon for Irish soldiers executed during the First World War and further contact is expected.

### Iraq

**Adam Price:** To ask the Secretary of State for Defence whether members of the Royal Military Police were involved in the *(a)* arrest and *(b)* detention of the six Iraqis who have died in British custody in Iraq. [147707]

**Mr. Ingram:** We do not release details of units who are involved in any incident that the SIB have investigated, unless the case is referred for court martial.

**Mr. Keetch:** To ask the Secretary of State for Defence how many casualties witnessed by UK forces in Iraq have been reported; and if he will make a statement. [148003]

**Mr. Ingram** *[holding answer 19 January 2004]*: If United Kingdom forces witness an incident in which they are not directly involved and civilian or military personnel are injured they assist medically if necessary and endeavour to report it to the appropriate authority. We do not record the number of casualties witnessed in such incidents centrally.

**Adam Price:** To ask the Secretary of State for Defence how many UK troops have been evacuated from Iraq for treatment of medical problems not related to wounds or injuries. [148293]

**Mr. Ingram:** There have been 1,109 medical evacuations of British military personnel from Iraq between May 2003 and February 2004. Of these some 460 were evacuated for treatment of medical problems not related to wounds or injuries.

**Mr. Keetch:** To ask the Secretary of State for Defence (1) if he will make a statement on the signing of liability waivers by Iraqi civilians who receive compensation payments from the UK for UK actions in Iraq; [151618]

(2) if he will place in the Library a copy of the text of the liability waivers presented to Iraqi families receiving compensation from the UK for harm caused by UK forces; and if he will make a statement. [154675]

**Mr. Ingram** *[holding answers 30 January 2004 and 12 February 2004]*: Iraqi civilians who receive compensation payments from the United Kingdom do not sign liability waivers.

**Mr. Keetch:** To ask the Secretary of State for Defence how many UK *(a)* military and *(b)* civilian personnel have been (i) killed and (ii) injured in Iraq since 19 March 2003. [151619]

**Mr. Ingram** *[holding answer 30 January 2004]*: Since 19 March 2003, 58 United Kingdom service personnel have died while deployed on operations in Iraq. One civilian, a member of the Defence Fire Service, has died in the same period.

During major combat operations, from 19 March to 1 May 2003, UK forces suffered 155 battle casualties. Since then we have recorded centrally only those ill or injured personnel who have required medical evacuation to the UK. There have been 1,109 medical evacuations of British military personnel to date.

**Harry Cohen:** To ask the Secretary of State for Defence what contamination has occurred from depleted uranium ordnance in Iraq; whether this has arisen from *(a)* toxicity, *(b)* ionising radiation and *(c)* other aspects associated with the ordnance; whether human safety measures in this connection have been put in place; and if he will make a statement. [157137]

**Mr. Ingram:** DU is a "weakly radioactive substance" and its chemical toxicity is similar to that posed by other heavy metals such as lead.

The overall responsibility for dealing with depleted uranium (DU) contamination in Iraq lies with the Coalition Provision Authority (CPA), unless it has adverse effects on Ministry of Defence service personnel or civilians in theatre.

The MOD issues specific safety instructions to all personnel who may come into contact with Depleted Uranium (DU) in operational situations. These instructions have been publicly available on the MOD's website http://www.mod.uk/issues/depleted_uranium/gulf_safety_instructions.htm since February 2003. In addition to these, the MOD is carrying out activities to reassure civilians that the risk posed to them by DU is as minimal as practically possible. Surface-lying DU fragments are being removed from the battlefield as they are discovered, and Iraqi locals have been warned through leaflets and signs that they should not go near or touch any debris they find on the battlefield.

**Mr. Keetch:** To ask the Secretary of State for Defence if he will make a statement on the conclusions of each of the boards of inquiry from operations in Iraq which were outstanding on 31 October 2003 but which have since reported. [157151]

**Mr. Ingram** *[holding answer 5 March 2004]*: Further to the answer I gave to the hon. Member for New Forest, West (Mr. Swayne) on 23 February 2004, *Official Report*, column 3W, I can confirm that the only Board of Inquiry to report since 31 October 2003, is that concerning the death of Marine Maddison on 30 March 2003. The Board of Inquiry concluded that Marine Maddison's death was as a result of a tragic friendly fire incident.

**Mr. Hancock:** To ask the Secretary of State for Defence when DU information cards Ref F Med 1018 were first issued to troops in Iraq; on what advice it was deemed necessary to issue such warnings, and from whom; and if he will make a statement. [159691]

**Mr. Caplin:** The depleted uranium (DU) information card F MED 1018 was introduced on 26 March 2003. It is issued as a standard administrative procedure to those returning from Operation Telic in Iraq to confirm that they have been deployed in a theatre where DU munitions have been used and to remind them of their eligibility for a voluntary biological monitoring test to measure uranium in the urine. It is therefore not a warning card, but is intended to inform personnel about one of the tests available in line with the Ministry of Defence operational health policies.

## Missile Defence

**Mr. Cousins:** To ask the Secretary of State for Defence when he expects his Department's research into theatre ballistic missile defence to be able to report interim results and conclusions to *(a)* him and *(b)* Parliament; and what theatre ballistic missile defence is available to UK forces now. [157052]

**Mr. Hoon:** I expect to receive a report on the Ministry of Defence's three-year research programme into Theatre Ballistic Missile Defence this summer, but due to its classification, there are no plans to publish the report. I shall keep Parliament informed in the usual way, once I have had a chance to consider the report. Defence against theatre ballistic missiles comprises a number of components, including steps to prevent and counter proliferation, diplomatic measures, deterrence and passive and active defence. Passive defence may involve the dispersal of forces and the provision of protective equipment against nuclear, biological or chemical weapons. Within a coalition force, allied partners provide the active defence.

## Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Defence how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155920]

**Mr. Caplin:** The information requested could be provided only at disproportionate cost.

Defence Ministers aim to answer ordinary written questions within five sitting days whenever possible.

## Stonehenge

**Mr. Key:** To ask the Secretary of State for Defence what representations he has *(a)* received and *(b)* made about the Stonehenge Project Land Train route and dispersed visitor centre access scheme; whether the Larkhill Garrison Commander has made representations about the planned route; and if he will make a statement. [156724]

**Mr. Ingram** *[holding answer 27 February 2004]*: The Ministry of Defence has received a very small number of representations about the scheme, from local Councillors and from residents living close by. No formal representations have been made by MOD as the proposals are currently being discussed by officials from the Department of Culture, Media and Sport, English Heritage, the National Trust and Ministry of Defence.

## Suez Canal Zone Medal

**Mr. Nigel Jones:** To ask the Secretary of State for Defence whether *(a)* HMS Roebuck, *(b)* HMS Whirlwind and *(c)* HMS Wakeful served in the Suez Canal Zone for four months in each year from 1953 to 1955; whether veterans who served on those ships have an entitlement to the Suez Canal Zone Clasp; and how many veterans of the three ships have received the Canal Zone Clasps. [157477]

**Mr. Caplin:** Although records indicate that the ships were present in the Mediterranean and/or Gulf of Suez areas at intervals between October 1951 and October 1954, it has yet to be established whether they meet the qualifying criteria of 30 days continuous service in the Canal Zone area that is necessary to qualify for the award of the Naval General Service Medal with 'Canal Zone' clasp. Only once a ship's eligibility has been established will it be possible to assess each veteran's application to ascertain their individual eligibility. No medals or clasps have yet been issued to veterans of HMS Roebuck, HMS Whirlwind or HMS Wakeful.

**Mr. Hoyle:** To ask the Secretary of State for Defence how many Suez Canal Zone medals have been awarded to date in each Lancashire constituency. [157563]

**Mr. Caplin:** I refer my hon. Friend to the answer I gave on 5 November 2003, *Official Report*, column 634W. Over 4,400 medals and Canal Zone clasps have now been despatched to eligible veterans and their families throughout the United Kingdom.

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how many campaign medals for those who served in the Suez Canal Zone between 1951 and 1954 have been issued since the decision was made to make this award. [156832]

**Mr. Caplin:** As at 20 February 2004 a total of 4,086 Naval General Service Medals 1915–62 and General Service Medals 1918–62 with the clasp Canal Zone, plus a further 321 clasps without medals, where the claimants had already received the medal with an appropriate clasp for other military campaign service had been despatched.

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence how many complaints his Department has received from ex-service personnel and their families who have applied for the campaign medal for those ex-service personnel who served in the Suez Canal Zone between 1951 and 1954 about delays in the processing of their claims. [156928]

**Mr. Caplin:** In recent months the Ministry of Defence has received over 34,000 applications for the new Canal Zone medal. In addition, the medal offices and secretariat branches which deal with this subject have received several hundred letters and an unquantifiable number of telephone calls from veterans or their families asking for some indication of the progress of their claim. Fewer than 50 letters or calls could be described as 'complaints' and once the situation has been explained to them the majority of correspondents have been satisfied with the response.

### Tomahawk Cruise Missiles

**Dr. Julian Lewis:** To ask the Secretary of State for Defence (1) for what reason it is not proposed to arm the new Type 45 destroyers with Tomahawk cruise missiles; [158139]

(2) how many Tomahawk cruise missiles he estimates could be mounted on a Type 45 destroyer. [158140]

**Mr. Ingram** *[holding answer 4 March 2004]*: The principal role of the Type 45 destroyer will be Anti-Air Warfare. There is currently no requirement for the Type 45 to be fitted with Tomahawk Land Attack Missiles (TLAM). If a requirement for TLAM arises in future, the Type 45 has been designed with substantial space and weight margins to enable its capability to be upgraded through life. We currently estimate that up to 16 TLAM missiles could be mounted on a Type 45 Destroyer.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will make it his policy to include *(a)* Tomahawk cruise missiles and *(b)* a larger-calibre turret gun in the armament of the Type 45 destroyer fleet. [158142]

**Mr. Ingram** *[holding answer 4 March 2004]*: There is currently no requirement to fit Tomahawk Land Attack Missiles or a larger calibre gun to Type 45 destroyers. Should such a requirement arise, these modifications could be made.

### War Graves

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what plans he has to allow old war graves to be relocated; and if he will make a statement. [157317]

**Mr. Caplin:** Only in exceptional circumstances, where the long-term security of a war grave is at risk and all other measures to ensure non-disturbance have been exhausted, will the Commonwealth War Graves Commission apply to the Home Office for an exhumation order. Once granted, the grave is transferred to the nearest Commission maintained war grave plot or cemetery.

This position is confirmed in the recent Government Consultation Paper on Burial Law and Policy in the 21st Century which clearly stated that

> "war graves constitute a particular class of grave which, at least in municipal cemeteries enjoy special protection by virtue of certain powers and exceptions granted to the Commonwealth War Graves Commission. It is not proposed that war cemeteries, or individual war graves, should be subject to a re-use regime."

## SOLICITOR-GENERAL

### Attorney-General (Legal Advice)

**Ian Lucas:** To ask the Solicitor-General if she will list the occasions between November 1990 and May 1997 when legal advice given by the Attorney-General to the Government was made public. [158713]

**The Solicitor-General:** I am aware of two occasions on which Law Officers' advice was disclosed between November 1990 and May 1997. In both cases disclosure was made for the purposes of judicial proceedings. In 1993, Law Officers' advice relevant to the subject matter of the Scott Inquiry was disclosed to it. The advice was published in an annex to the inquiry report. Law Officers' advice on the 1988 Merchant Shipping Act was disclosed to the other parties in the course of the Factortame litigation in which Spanish fisherman were seeking damages from the Government for a breach of Community law.

On 15 February 1993 the views of the Law Officers were disclosed in the debate on the Maastricht Treaty. However, the Government of the day refused to disclose the full advice.

### Iraq

**Sir Menzies Campbell:** To ask the Solicitor-General if she will publish the factual evidence on which the Attorney-General's view on the legal basis for the use of force in Iraq, expressed in his answer of 17 March 2003, *Official Report* [*Lords*], columns WA2–3, was based; and if she will make a statement. [156108]

**The Solicitor-General** *[holding answer 25 February 2004]*: No. This information is covered by legal professional privilege and the convention against

disclosure of Law Officers' advice outside Government, mentioned in paragraph 24 of the Ministerial Code. This is consistent with paragraphs 2 and 4d of Part II of the Code of Practice on Access to Government Information.

The Attorney-General made a statement in Parliament on 17 March 2003 setting out his view of the legal basis for the use of force against Iraq. On the same date, the Foreign Secretary submitted a memorandum to the Foreign Affairs Committee which gave further detail of the legal position.

**Sir Menzies Campbell:** To ask the Solicitor-General if she will list the occasions on which the Attorney-General formally submitted an opinion on the legality of the use of force against Iraq prior to 18 March 2003; and if she will make a statement. [156250]

The **Solicitor-General** *[holding answer 25 February 2004]:* No. There is a long-standing convention, observed by successive Governments, that whether the Law Officers have advised on a particular matter, and the substance of any advice, is not disclosed outside Government. This is consistent with paragraphs 2 and 4d of Part II of the Code of Practice on Access to Government Information.

The Attorney-General made a statement in Parliament on 17 March 2003 setting out his view of the legal basis for the use of force against Iraq. On the same date, the Foreign Secretary submitted a memorandum to the Foreign Affairs Committee which gave further detail of the legal position.

### Professor Sir Roy Meadow

**Ms Oona King:** To ask the Solicitor-General if the Attorney-General will review the cases of children separated from their parents following evidence from Professor Sir Roy Meadow used in family court judgments. [144467]

**Mr. Lammy** *[holding answer 16 December 2003]:* I have been asked to reply.

I refer my hon. Friend to the statement made by my right hon. Friend the Minister for Children on 23 February 2004, *Official Report*, columns 38–39, which sets out our plans for the review of cases. Further, on 25 February, a Local Authority Circular (2004 (5)) was issued to councils with social services responsibilities, setting out the steps that they should take. A copy of this circular has been placed in the House of Commons Library.

## TRANSPORT

### Railways

9. **Mr. Gordon Prentice:** To ask the Secretary of State for Transport what plans he has for a new high speed rail link to the north of England and Scotland from London. [159438]

14. **Mr. Hopkins:** To ask the Secretary of State for Transport if he will make a statement on the Commission for Integrated Transport report on high-speed rail. [159443]

**Dr. Howells:** Consideration of the case for a North South High Speed Line must be for the longer term. The current priority for the Strategic Rail Authority and the rail industry is to improve the performance of the existing railway network.

### Buses

15. **Mr. Truswell:** To ask the Secretary of State for Transport what steps he is taking to facilitate the introduction of bus quality contracts outside London. [159444]

**Mr. McNulty:** As I announced on 4 February, we are taking steps to improve the potential effectiveness of the bus quality contract provisions in the Transport Act 2000. We are about to consult stakeholders on the proposal to reduce the 21-month implementation period to a shorter minimum period in the range 6–15 months.

### Airports

16. **Tim Loughton:** To ask the Secretary of State for Transport what his policy is on expansion of small airports in South East England. [159445]

**Mr. McNulty:** I refer the hon. Gentleman to the White Paper "The Future of Air Transport", which makes it clear that smaller airports have an important role to play in relieving pressure on the main South East airports, particularly in the period before a new runway is built in the South East. We support their further development in principle, subject to consideration of relevant environmental, surface access and airspace constraints. Any development proposals will need to be decided locally through the planning system.

### Speed Cameras

17. **Bob Russell:** To ask the Secretary of State for Transport if he will estimate how many *(a)* lives have been saved and *(b)* serious injuries have been prevented in the last 12 months as a result of the installation of speed safety cameras. [159446]

**Mr. Jamieson:** The evaluation of the 2-year pilot of the safety camera programme covering 2000–01 and 2001–02 concluded that in those participating areas there had been a 35 per cent. reduction in those killed or seriously injured at camera sites. This equated to 280 fewer killed and seriously injured casualties. Information for 2002–03 will be contained in the 3-year evaluation report which will be published shortly.

### Transport (Nottingham, North)

18. **Mr. Allen:** To ask the Secretary of State for Transport if he will visit Nottingham, North to discuss local transport. [159447]

**Mr. McNulty:** My right hon. Friend visited Nottingham on 8 March 2004 to open the Nottingham Express Transit Line 1, where he had the opportunity to meet with local authority officials to discuss local transport issues.

### HGV Drivers

19. **Mr. Denham:** To ask the Secretary of State for Transport what assessment he has made of the future need for heavy goods vehicle drivers. [159448]

**Mr. Jamieson:** The key change in the need for HGV drivers will result from the introduction of EU working time legislation for road transport. We have estimated that this will require around 12,000 extra drivers.

### Aviation

**Miss McIntosh:** To ask the Secretary of State for Transport (1) if he will make a statement on the UK's commitment to a fully liberalised aviation treaty between the EU and the US; [R] [159204]

(2) what progress has been made at the recent talks in Washington between the EU and the US on an open aviation area; [R] [159205]

(3) what steps he is taking to promote the interests of *(a)* the UK and *(b)* UK aviation during the open aviation talks between the EU and the US; [R] [159206]

(4) if he will make representations for restrictions on *(a)* ownership, *(b)* cabotage rights, *(c)* wet lease and *(d)* the Fly America policy to be removed as part of any agreement on an open aviation area between the EU and the US; [R] [159207]

(5) what further progress is expected at the next meeting between the EU and US on an open aviation area. [R] [159208]

**Mr. McNulty:** The Government have supported a mandate for the European Commission to negotiate an open aviation area with the US on the basis that this will be an area where air carriers of both sides will be able to establish themselves and freely provide services according to commercial principles, competing on a fair and equal basis. The offer made by the US at the recent talks falls far short of this objective. We will continue to take every opportunity, including meetings of the Transport Council and our participation in the Special Committee of Member State representatives, to make the case for a fully liberalised EU/US aviation agreement, including the removal of restrictions in areas such as airline ownership, market access and aircraft leasing.

### Crossrail

**John Cryer:** To ask the Secretary of State for Transport what assessment he has made of the importance of Crossrail *(a)* to those who work in London and *(b)* to London businesses. [157321]

**Mr. McNulty:** These issues were covered in Cross London Rail Link Limited's Crossrail Business Case. They have been considered in the context of the review of the proposals undertaken under the chairmanship of Adrian Montague, whose work has also been informed by meetings with key London stakeholders. My right hon. Friend has now received advice from Adrian Montague which he is studying closely and whose findings will be published in due course.

### Cycling

**Mr. Laurence Robertson:** To ask the Secretary of State for Transport what progress he has made towards introducing and extending *(a)* a cycle-friendly road network, *(b)* cycle training, *(c)* a network of bus lanes, *(d)* minimum quality standards for bus services, *(e)* minimum standards for rail services, *(f)* safe routes to schools, *(g)* lower speed limits, *(h)* a discount network rail card, *(i)* greater purchase incentives for smaller cleaner vehicles, *(j)* grants for rail freight projects, *(k)* increased funding for public transport and *(l)* pay-as-you-go road user charging; and what steps he has taken to improve streets, lanes and paths for walking. [160055]

**Mr. McNulty:** "Delivering Better Transport: Progress Report" published in December 2002 set out the progress made in Delivering the 10 Year Plan for Transport in the first 18 months of its life. As promised in that report we are now reviewing the Plan, taking account of events and achievements since its implementation. We expect to set out in the Summer how the strategy will be rolled forward to 2015 and beyond.

### Departmental Communications

**Matthew Taylor:** To ask the Secretary of State for Transport (1) how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158168]

(2) what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158200]

**Mr. McNulty:** The average number of full-time equivalent staff employed in DfT (central)'s Communication Directorate and the related forecast expenditure for 2003–04 is:

*Staff*

| | *Press officers* | *Others* | *Total* |
|---|---|---|---|
| GICS staff | 13.0 | 29.8 | 42.8 |
| Other staff | 0.8 | 28.3 | 29.1 |
| Total | 13.8 | 58.0 | 7.1.8 |

*£ million*

| | *Press officers* | *Others* | *Total* |
|---|---|---|---|
| GICS staff | 0.62 | 1.33 | 1.95 |
| Other staff | 0.06 | 0.97 | 1.03 |
| Total | 0.68 | 2.30 | 2.98 |

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

### Departmental Staff

**John McDonnell:** To ask the Secretary of State for Transport if he will make a statement on future staffing levels for the Department; and what plans the Department has for *(a)* staff cuts, *(b)* voluntary retirements and *(c)* voluntary redundancies. [158294]

**Mr. McNulty:** The Department for Transport was formed in May 2002. The functions the Department needs to undertake has been clarified and a Corporate Business Plan has been drafted to provide direction and enable the Department to meet its PSA targets.

The staffing level required to deliver the Department's priorities is being considered along with piloting new ways of working flexibly. The intention is to reduce the number of posts overall and create a smaller more strategic centre. There are no concrete plans at the moment and the Department is unable to predict the number of staff that may be surplus. Wherever possible and practicable the exit of staff from the Department will be on a voluntary basis using redundancy and retirements to facilitate the process. The Department will, however, ensure that staff with the appropriate skills to take forward its agenda, remain within the Department.

### Eurotunnel

**Mr. Paul Marsden:** To ask the Secretary of State for Transport what the cost of the minimum usage charge paid to Eurotunnel was in each year since its inception. [154911]

**Mr. McNulty:** The total annual payment by the railways is published annually in Eurotunnel's accounts, which are available from the company. The figures include a contribution towards operating expenditure, variable toll elements, and the additional contribution needed to achieve the Minimum Usage Charge. The precise composition of the payments is a commercial matter for the companies concerned.

### Integrated Transport

**Mr. Laurence Robertson:** To ask the Secretary of State for Transport what progress he has made towards introducing an integrated transport system; and if he will make a statement. [160056]

**Mr. McNulty:** "Delivering Better Transport: Progress Report" published in December 2002 set out the progress made in Delivering the 10 Year Plan for Transport in the first 18 months of its life. As promised in that report we are now reviewing the Plan, taking account of events and achievements since its implementation. We expect to set out in the Summer how the strategy will be rolled forward to 2015 and beyond.

### Radio and Television Advertising

**Mr. Greg Knight:** To ask the Secretary of State for Transport (1) how much his Department is spending on radio advertising in the current financial year; and how much is planned for next year; [159410]

(2) how much his Department has spent on *(a)* radio and *(b)* television advertising in each of the last five years. [159411]

**Dr. Howells:** The Department for Transport was formed in May 2002. Our current forecast expenditure outturn for 2003–04, is £2.62 million on radio advertising. The estimated figure for 2004–05 is £3.3 million, the majority of which will be devoted to the THINK! road safety campaign.

Media expenditure covering road safety in 2002–03 was £5.6 million on TV and £2.6 million on radio.

### Rail Regulator

**Mr. Burstow:** To ask the Secretary of State for Transport what plans he has to extend the remit of the Rail Regulator to include the train leasing companies. [158509]

**Mr. McNulty:** The review of the structure and organisation of the rail industry announced by my right hon. Friend the Secretary of State on 19 January will consider whether there should be any extension to the remit of the Rail Regulator. We will publish our proposals for change in the summer.

### Rail Services

**Bob Spink:** To ask the Secretary of State for Transport (1) which bodies he is suggesting to consultees may be responsible for regulating the *(a)* ticket costs, *(b)* service levels and timetables and *(c)* access issues for community railways; [158553]

(2) which organisation he is suggesting to consultees may be responsible for *(a)* setting and *(b)* monitoring and regulating (i) maintenance, (ii) operational standards and (iii) safety for community railways; [158555]

(3) what the suggested structures for *(a)* ownership, *(b)* management and *(c)* operational responsibilities are for community railways; [158557]

(4) on which lines he is consulting about whether they should become community railways; and if he will make a statement. [158559]

**Mr. McNulty:** The Strategic Rail Authority published its consultation paper on a strategy for Community Railways on 26 February. The Authority is consulting on proposals to offer much greater community involvement in determining issues for Community Railways. The strategy is aimed at simplifying and structuring their regulation and it outlines options to strengthen local management and to simplify and improve the effectiveness of operational responsibilities on Community Railways. No change is proposed in the current ownership of railway infrastructure by Network Rail, or in the primary responsibilities of the duty holder in respect of safe operation of these railways.

The lines to be consulted upon are listed in the consultation paper. The paper has been sent to MPs with constituencies covering these lines and has been placed in the Library of the House.

**Bob Spink:** To ask the Secretary of State for Transport what sources of *(a)* public and *(b)* private funding he plans will be available to Community Railways. [158556]

**Mr. McNulty:** Community Railways lines form part of larger franchises which already make use of public and private funding. Whatever the source of funding, it is remunerated by the user through fares and freight charges and by the taxpayer through franchise support payments or grants. This will continue to be the case. Community Rail Partnerships currently seek further

local funding support to improve services and facilities, recognising the benefit of such improvements to the local economy and environment.

### Recruitment

**Matthew Taylor:** To ask the Secretary of State for Transport what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158177]

**Mr. McNulty:** The Department for Transport was formed in May 2002. For open competitions for permanent positions below the Senior Civil Service (SCS), the Department uses two contracted out recruitment consultants. For open competitions for SCS positions, the Department uses specialist recruitment consultants taken from the Cabinet Office Central Call-Off Contract for recruitment into the SCS.

Following are details of the costs incurred by DfT (Central) for contracted out recruitment procedures:

| | (£) |
|---|---|
| *2002–03* | |
| Senior Civil Service | 309,237.08 |
| Below SCS | 211,626.55 |
| *2003–04 to date* | |
| Senior Civil Service | 781,378.64 |
| Below SCS | 582,084.33 |

The 'Below SCS' details do not include costs incurred by the Department's Executive Agencies as they have responsibility for their own recruitment for below SCS. We are unable to provide costs for recruitment procedures carried out by the Department itself as these costs could be obtained only at disproportionate cost.

### Senior Civil Service

**John McDonnell:** To ask the Secretary of State for Transport what basic pay and bonuses were awarded in relation to the 2003 pay round for *(a)* the Permanent Secretary, *(b)* each of the chief executives of the Department's agencies and *(c)* each Grade 2 in the Department. [158295]

**Mr. McNulty:** It is not our policy to provide information on pay and bonus that are identifiable to particular individuals. The base pay awards for Directors General (formerly Grade 2s) ranged between 4 and 8 per cent. Non consolidated bonus awards ranged from zero to £9,000. Base pay awards for agency Chief Executives ranged from 2.25 to 4.0 per cent. with non consolidated bonus awards ranging from zero to £15,800.

**John McDonnell:** To ask the Secretary of State for Transport what the total cost of the senior civil service in the Department is. [158296]

**Mr. McNulty:** The total cost of the salaries as at 1 March 2004 of the senior civil service in DfT central and the agencies is £10.5 million. This figure includes the costs of the Permanent Secretary and chief executives of the agencies.

**John McDonnell:** To ask the Secretary of State for Transport if he will make a statement on the total cost of the pay increases in the Department awarded to the senior civil service as a result of the 2003 pay round. [158297]

**Mr. McNulty:** The total cost of the increase to basic pay awarded to the senior civil service in DfT central and the agencies, as a result of the 2003 pay round, was £0.4 million. This amount also includes those awards given to senior civil servants on fixed term contracts that received the revalorisation rate of 2.25 per cent.

### Sick Leave

**John McDonnell:** To ask the Secretary of State for Transport if he will make a statement on the average number of sick days taken by each grade in 2003 in *(a)* the Department and *(b)* its agencies. [158298]

**Mr. McNulty:** In 2003 the total number of days sick absence recorded for the Department for Transport and its Agencies was 164,364 days. This is monitored on an overall average days per staff year basis, and the 2003 figures were:

| | *Days* |
|---|---|
| Department for Transport (Central) (DfT(C)) | 5.7 |
| Driving Standards Agency (DSA) | 12.7 |
| Driver and Vehicle Licensing Agency (DVLA) | 12.7 |
| Highways Agency (HA) | 8.3 |
| Maritime and Coastguard Agency (MCA) | 8.4 |
| Vehicle Certification Agency (VGA) | 5.9 |
| Vehicle and Operator Services Agency (VOSA) | 9.0 |
| Total Department for Transport | 10.4 |

The average number of sick days taken by each grade in DfT(C) was recorded as:

| | *Days* |
|---|---|
| Pay Band 1/Secretarial | 5.5 |
| Pay Band 2 | 6.9 |
| Pay Band 3 | 6.6 |
| Pay Band 4 | 4.9 |
| Pay Band 5 | 3.9 |
| Pay Band 6 | 2.0 |
| Pay Band 7 | 2.1 |
| Senior Civil Service | 0.6 |
| Average DfT(C) | 5.7 |

The Agencies are responsible for their own staffing arrangements and have their own grading structures. Similar breakdowns of average days by grade levels for the Agencies are not readily available.

The Department and its Agencies are committed to managing sickness absence effectively. This includes actively reviewing statistics and trends and gaining a clearer understanding of the reasons for non-attendance.

### South Hampshire Rapid Transit

**Mr. Hoban:** To ask the Secretary of State for Transport when he expects to announce a decision on the Government's funding of the South Hampshire Rapid Transit system. [159880]

**Mr. McNulty:** The Secretary of State recently received further information on this scheme following a significant increase in the proposed level of central Government funding. A decision will be made in due course.

### Thames Gateway

**Bob Spink:** To ask the Secretary of State for Transport what estimate he has made of the cost of the integrated transport infrastructure requirement for the Thames Gateway. [159648]

**Mr. McNulty:** The Government have already committed more that £600 million to transport projects within the Thames Gateway. These include DLR extensions to City airport and improvements to the A2/A282 near Dartford.

In his statement on 30 July 2003, my right hon. Friend the Deputy Prime Minister identified some of the transport infrastructure projects that could potentially help to support housing growth including domestic services on the channel tunnel rail link, extensions to the Docklands light rail (DLR) network and bus transit systems for east and south east London and Kent Thameside.

In relation to local transport schemes, it is for local authorities in the Thames Gateway area to bring forward major schemes through the Local Transport Plan process for consideration by Ministers.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Transport if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159618]

**Mr. McNulty:** I refer the hon. Member to the reply given by the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

## CONSTITUTIONAL AFFAIRS

### Legal Aid

**Mr. Keetch:** To ask the Parliamentary Secretary, Department for Constitutional Affairs under what circumstances legal aid is available to those contesting legal cases involving children; and if he will make a statement. [158956]

**Mr. Lammy:** Legal aid is available for parties involved in contested proceedings involving children. In certain special cases under the Children Act 1989 funding is available free to people who have parental responsibility, without any means or merits tests. These cases are mostly to do with public authorities intervening in the relationship between parents (or those with parental responsibility) and children, such as care proceedings. All other grants of funding are subject to means and merits criteria. The means criteria are set out in the Community Legal Service Financial Regulations 2000 (as amended) and considered against the relevant merits criteria set out in the Funding Code determining income and capital thresholds above which legal aid is not available. The merits criteria are also set out in the Funding Code and aim to ensure that funding is only available in circumstances where a reasonable private paying client would be prepared to proceed.

Legal aid must also take into account the Legal Services Commission's (LSCs) published guidance which further encourages cost effective dispute resolution. All grants of legal aid are subject to limitations as to what steps can be undertaken and what level of costs may be incurred.

The LSC also funds family mediation services with a view to resolving cases amicably without contested proceedings. With certain exceptions, funding for court proceedings will be refused unless the client has seen a mediator to assess the suitability of the case for mediation.

**Mr. Keetch:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what restrictions are placed on the availability of legal aid for use in cases where costs orders cannot be made; and if he will make a statement. [158957]

**Mr. Lammy:** Each application for legal aid is subject to the statutory tests of the applicant's means as set out in the Community Legal Service Financial Regulations 2000 (as amended) and considered against the relevant merits criteria set out in the Funding Code.

A funded client's liability for costs is limited to the amount, if any, which is reasonable for him to pay, having regard to all the circumstances of the case, including the means and conduct of both parties. The awarding of costs is a matter for the court, whether a party is publicly funded or not. Whether a cost order can be made is not taken into account in determining eligibility for legal aid.

Cost protection has always been a feature of the legal aid scheme; it provides that costs orders cannot be enforced against a funded client except to the extent that the court considers it reasonable. In limited circumstances a successful opponent may be entitled to costs from the Community Legal Service fund.

### Parliamentary Elections

**Dr. Whitehead:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the 20 constituencies in which the highest number of electors have been lost from the parliamentary register between 2000 and 2004. [158959]

**Ruth Kelly:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Dr. Alan Whitehead, dated 9 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the 20 constituencies with the highest loss of electorate between 2000 and 2004. (158959)

A table showing the total and percentage change of the 20 parliamentary constituencies with the greatest fall in number of registered electors over the period 16 February 2001 to 1 December 2003 (or to 2 February 2004 for Northern Ireland) is shown. The Office for National Statistics did not publish electoral data for parliamentary constituencies for 2000 and therefore the

2001 figures have been used. 2004 data are not available (except for Northern Ireland) therefore the most recent data available, 1 December 2003, have been used.

It should be noted that these figures represent the number of 'registered' electors. In many cases, especially in Northern Ireland, large decreases may be due to 'cleaning' of the registers rather than actual falls in the number of electors. In the case of Northern Ireland, the Electoral Commission carried out a review of the workings of the Electoral Fraud (Northern Ireland) Act 2002. This act introduced a new system for registering electors in Northern Ireland. The Electoral Commission's review report[1] on the Act's first year of operation stated that the number of registered electors in Northern Ireland fell by 10 per cent. in the first register published under this new system.

[1] "The Electoral Fraud (Northern Ireland) Act 2002, an Assessment of its First Year in Operation, Research Report December 2003"

*Parliamentary constituencies with the 20 largest falls in the numbers of registered electors between 2001 and 2003 [1], ranked by size of absolute change*

| *Constituency* | | *Electors 1 February 2001* | *Electors 1 December 2003* | *Absolute change* | *Percentage change* |
|---|---|---|---|---|---|
| 1 | Brentford and Isleworth | 83,420 | 67,934 | -15,486 | -18.6 |
| 2 | Belfast West | 60,377 | 47,139 | -13,238 | -21.9 |
| 3 | Belfast North | 61,646 | 49,054 | -12,592 | -20.4 |
| 4 | Portsmouth South | 77,372 | 66,162 | -11,210 | -14.5 |
| 5 | Belfast South | 59,937 | 49,207 | -10,730 | -17.9 |
| 6 | Edinburgh Central | 66,296 | 55,714 | -10,582 | -16.0 |
| 7 | Foyle | 71,835 | 62,321 | -9,514 | -13.2 |
| 8 | Belfast East | 59,044 | 49,930 | -9,114 | -15.4 |
| 9 | South Antrim | 71,316 | 62,906 | -8,410 | -11.8 |
| 10 | Strangford | 72,948 | 64,718 | -8,230 | -11.3 |
| 11 | Lagan Valley | 73,494 | 65,545 | -7,949 | -10.8 |
| 12 | North Down | 63,944 | 56,030 | -7,914 | -12.4 |
| 13 | Rhondda | 56,096 | 48,332 | -7,764 | -13.8 |
| 14 | Glasgow Maryhill | 55,087 | 47,525 | -7,562 | -13.7 |
| 15 | Bradford West | 72,193 | 64,663 | -7,530 | -10.4 |
| 16 | Edinburgh South | 64,437 | 57,274 | -7,163 | -11.1 |
| 17 | Brent East | 58,082 | 51,114 | -6,968 | -12.0 |
| 18 | East Antrim | 61,597 | 54,644 | -6,953 | -11.3 |
| 19 | Bolton South East | 68,080 | 61,198 | -6,882 | -10.1 |
| 20 | Dulwich and West Norwood | 70,301 | 63,489 | -6,812 | -9.7 |

## TRADE AND INDUSTRY

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry if she will list the buildings occupied by her departmental staff and agency staff, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159367]

**Ms Hewitt:** The Department of Trade and Industry (DTI) has no buildings which currently require remedial work or removal of asbestos. There is no specific budget for asbestos surveys or any resulting remedial work and such costs are included as part of the normal operating costs associated with the DTI estate. For those agencies where the Department holds budgetary information, the position is similar.

### Broadband

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the benefits that could accrue from the process of local loop unbundling. [157244]

**Mr. Timms:** Local loop unbundling is increasingly widely used in the UK.

The Government believe the key benefit to accrue from the process of local loop unbundling is the promotion of competition.

Ofcom has proposed a local loop unbundling market review in its Annual Plan for 2004–05.

### Cast Metal Industry

**Mr. Bailey:** To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the change in scrap metal prices on the British cast metal industry. [159027]

**Jacqui Smith:** I am aware of the difficulties that are being faced by UK cast metal producers as a result of rises in the world price of scrap metal and industry's concerns about the implications for competitiveness. It is widely accepted that the cause is soaring demand for steel in China and the knock-on effect on raw materials costs. We are monitoring developments and I will be meeting my hon. Friend the representatives of the cast metals industry later this month to discuss the situation further.

### Combined Heat and Power

**Miss McIntosh:** To ask the Secretary of State for Trade and Industry what her Department's responsibilities are for meeting the Energy White Paper target of achieving 10GW of combined heat and power by 2010. [159209]

**Mr. Timms:** Defra take the lead on delivery of the combined heat and power (CHP) target, working closely with DTI and other departments and agencies as part of the Sustainable Energy Policy Network.

My right hon. Friend the Secretary of State for Trade and Industry has recently issued guidance to the Gas and Electricity Markets Authority on social and environmental issues, under the terms of the Utilities Act 2000, drawing attention to the importance of Energy White Paper goals, including the 10GW CHP target.

Further information on how the Government are working towards the Energy White Paper target will be available in the CHP Strategy, due to be published after the Easter recess.

**Miss McIntosh:** To ask the Secretary of State for Trade and Industry what discussions her Department has had with the Department for Environment, Food and Rural Affairs concerning combined heat and power; and if she will make a statement. [159210]

**Mr. Timms:** The Department has regular discussions with the Department for Environment, Food and Rural Affairs about combined heat and power both in the context of implementing the Energy White Paper and preparing for debates on the Energy Bill.

### Company Voluntary Agreements

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry if she will make a statement on the effectiveness of company voluntary agreements. [159165]

**Mr. Sutcliffe:** The company voluntary arrangement procedure was introduced in 1986 and allows a financially troubled company to reach a binding agreement with its creditors to pay them in full or in part over a period of time. However, the recession of the early 1990s showed it was not particularly effective for the small financially troubled company because there was no stay on creditors' actions in the period before an arrangement could be agreed. Therefore, in 2000, this Government introduced the option of a short stay on creditors' rights, into that procedure, to give the company's management a breathing space in which to put a rescue plan to creditors. Other technical amendments were also made to improve the procedure's efficiency and effectiveness.

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry in how many company voluntary agreements creditors received monies owed in each year since 2000. [159166]

**Mr. Sutcliffe:** We do not record statistical data which would provide this information.

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry how many company voluntary agreements were entered into in each year since 2000. [159167]

**Mr. Sutcliffe:** In the years 2000, 2001, 2002 and 2003 respectively 557, 597, 651 and 726 company voluntary arrangements were entered into.

**Mr. Simmonds:** To ask the Secretary of State for Trade and Industry how many companies have entered into company voluntary agreements and have continued trading in each year since 2000. [159168]

**Mr. Sutcliffe:** In the years 2000, 2001, 2002 and 2003 respectively 557, 597, 651 and 726 companies entered into voluntary arrangements but we do not record statistical data, which would reveal how many of them continued trading once the arrangements had been agreed.

### Copyright Directive

**Mr. Sheerman:** To ask the Secretary of State for Trade and Industry what progress has been made with ensuring compliance with the EU Copyright Directive; and if she will make a statement. [159008]

**Ms Hewitt:** The Copyright and Related Rights Regulations 2003 (SI 2003 No. 2498) bringing UK law into full compliance with the EU copyright Directive came into force on 31 October 2003.

### Data Protection

**John Robertson:** To ask the Secretary of State for Trade and Industry what assessment her Department has made of the data protection implications of the offshoring of the processing of financial details. [159125]

**Ms Hewitt:** Under the Data Protection Act, companies who control data remain responsible for how data are processed overseas on their behalf. They remain bound by the requirements of the Act, in particular its requirement for data to be kept secure. The method of transfer must include measures to ensure the security of the processing and security against breaches of the Act. Companies must also be open with individuals about how information they collect on them is intended to be used.

### Democratic Republic of the Congo

**Jeremy Corbyn:** To ask the Secretary of State for Trade and Industry how much coltan was imported by the United Kingdom from the Democratic Republic of the Congo in each of the last two years; and if she will make a statement. [159242]

**Mr. Mike O'Brien:** According to information published by HM Customs and Excise, there were no imports of coltan from the Democratic Republic of Congo into the United Kingdom in 2002 or 2003.

### Elexon Ltd.

**Mr. Hopkins:** To ask the Secretary of State for Trade and Industry what assessment she has made of whether Elexon Ltd.'s remit should be extended to electricity trading arrangements in Scotland. [159089]

**Mr. Timms** *[holding answer 8 March 2004]:* Ofgem and the Department of Trade and Industry (DTI), as part of the second consultation on the legal text of a Great Britain (GB) Balancing and Settlement Code (BSC) (June 2003), consulted on whether Elexon's remit, as the Balancing and Settlement Code Company (BSCCo), should be extended to electricity trading arrangements in Scotland. After considering responses to this consultation Ofgem and DTI concluded that Elexon should undertake the role of the GB BSCCo and that a competitive tender exercise was not necessary.

**Mr. Hopkins:** To ask the Secretary of State for Trade and Industry what her role is in *(a)* the appointment of the (i) Chairman and (ii) Board of Elexon Ltd. and *(b)* determining the terms and conditions of appointment of the (i) Chairman and (ii) Board. [159090]

**Mr. Timms** *[holding answer 8 March 2004]:* My right hon. Friend the Secretary of State for Trade and Industry has no role in the appointment of the Chairman and/or Board of Elexon Ltd. The Elexon Chairman and Board are appointed in accordance with the arrangements set out in the Balancing and Settlement Code (BSC) in Section C4.1. The Chairman of the Board is the Chairman of the BSC Panel. The Chairman of the BSC Panel is appointed by the Gas and Electricity Markets Authority. Other Directors are appointed by the BSC Panel and by the Chairman.

Any change to these arrangements would require a modification proposal to be progressed through the BSC modification procedures as outlined in Section F of the BSC. This process is designed to be transparent and inclusive. Modification proposals are subjected to a series of industry consultations, and are usually assessed in detail by a group of industry experts, and then considered by the BSC Panel (which comprises five members elected by parties to the BSC, a potential 6th member drawn from licence exempt suppliers or generators, two members nominated by energywatch, two independent members, one member nominated by NGT, one representative of distribution system operators and is attended by Ofgem) before being approved or rejected by the Gas and Electricity Markets Authority.

**Mr. Hopkins:** To ask the Secretary of State for Trade and Industry if she will list the shareholders of Elexon Ltd.; and what assessment she has made of the board's corporate governance arrangements. [159091]

**Mr. Timms** *[holding answer 8 March 2004]:* Elexon Ltd. is the Balancing and Settlement Code Company (BSCCo) established under the provisions of the Balancing and Settlement Code (BSC). The BSC is given effect through Section C3 of National Grid Transco's (NGT) Transmission Licence.

Elexon is a wholly owned subsidiary of National Grid Transco (NGT). However, Elexon is independently governed and has a separate Board of Directors. Elexon operates outside the commercial and operational interests and control of NGT. Shareholder control by NGT can only be exerted within the limited circumstances outlined in the BSC.

Elexon's corporate governance arrangements were carefully considered and consulted on, by Ofgem and the DTI before the implementation of the New Electricity Trading Arrangements (NETA) when the BSC was designated by my right hon. Friend the Secretary of State through the authority provided in the Utilities Act 2000.

**Mr. Hopkins:** To ask the Secretary of State for Trade and Industry what the role of Elexon Ltd. is in the operation of the electricity market in England and Wales; if she will undertake a review of this role; and if she will make a statement. [159092]

**Mr. Timms** *[holding answer 8 March 2004]:* Elexon Ltd. is the Balancing and Settlement Code Company (BSCCo) established under the provisions of the Balancing and Settlement Code (BSC). The principal role of the BSCCo is to provide and procure facilities, resources and services (including providing or procuring resources required by the BSC Panel and BSC Panel Committees, and procuring services under BSC service descriptions) required for the proper, effective and efficient implementation of the BSC. The powers of the BSCCo are subject to the restrictions and limits set out in the BSC.

The systems and processes outlined in the BSC have operated effectively since the introduction of the New Electricity Trading Arrangements (NETA) on 27 March 2001. These include arrangements for the use of meter readings to allocate energy between participants, to register energy trades, to aggregate balance positions and to calculate and apply imbalance prices for each half an hour, twenty four hours a day. They underpin competition in generation and in the supply of electricity.

Extensive consultations were carried out by the DTI and Ofgem on the role of Elexon prior to the inception of the New Electricity Trading Arrangements in March 2001. Ofgem and the DTI, as part of the second consultation on the legal text of a Great Britain Balancing and Settlement Code (June 2003), also consulted on whether Elexon's remit, as the Balancing and Settlement Code Company, should be extended to electricity trading arrangements in Scotland. In addition, Ofgem keeps the operation of the BSC under constant review and considers the annual business strategy and budget documents carefully.

**Mr. Hopkins:** To ask the Secretary of State for Trade and Industry if she will make a statement on the application of the statutory Environmental and Social guidelines of the Gas and Electricity Markets Authority to Elexon Ltd. [159093]
